Spring, 1901.

IN presenting our price-list for the Spring of 1901 we wish to thank all our patrons for past favors, and we hope by honorable dealing to merit a continuance of their esteemed orders.

All orders received by us have our personal and prompt attention, and we guarantee reasonable satisfaction in every case, as thousands of unsolicited testimonials now on file fully attest.

We have endeavored to make our prices as low as any for the same class of stock. All stock sent out by us is carefully selected for the different sizes and grades.

We are prepared to offer special inducements to nurserymen and dealers buying in large quantities.

With our large storage cellars and packing houses, and a complete system of water-works, distributing water to all parts of our packing grounds, we feel that our facilities for the careful and proper handling of Nursery stock are not excelled by any nursery establishment in the country.

Notwithstanding our nurseries have been properly inspected by the State Entomologist, as will be seen by his certificate on last page of this catalogue, yet on account of the great prevalence of insect pests throughout the country, a sure remedy for which is Hydrocyanic Acid Gas, and having provided ourselves with buildings for this purpose, all our stock will be fumigated before shipment, and thus secure our customers against all danger on this point.

Our shipping facilities are unexcelled. Bloomington being an important railroad center we are able to forward promptly to all sections. With the Illinois Central R. R., Chicago & Alton R. R., Lake Erie & Western R. R., and the C. C. & St. L. R. R. (Big Four), and their branches, we have direct communication with Chicago, St. Louis, Cincinnati, Kansas City, Indianapolis, Dubuque, Cairo, and LaFayette, by daily freight trains without transfer. On account of our unusual facilities we are also enabled to obtain very low freight rates to all points. We ship with flattering results to Australia, Mexico, New Zealand, Nova Scotia, Oregon, Washington, California, Maine, and all the other states in the Union.

We exercise great care to have all articles true to name.

PHOENIX NURSERY COMPANY.

TERMS AND CONDITIONS.

Terms of Payment.—Cash, satisfactory security, or references before shipment of stock. All orders to be sent by express, "C. O. D." must be accompanied by ONE-FOURTH THE AMOUNT IN CASH.

Remit by Postal or Express Money Orders, Bank Drafts on New York, Chicago or St. Louis, payable to order of PHOENIX NURSERY COMPANY, or currency by express prepaid.

Orders and Conditions of Sale.—Please order EARLY, with order legible and separate from body of the letter, with name of Postoffice, County and State, and how you wish package directed on the ORDER.

Long specified lists are subject to special prices. Needed specifications as to age, size, style, etc., state *on the order*, to save the trouble of referring to previous correspondence.

Particular varieties named in order furnished as far as practicable. Orders forbidding substitution we fill so far only as we can supply the sorts specified.

Prices.—All articles listed in this catalogue will be furnished to *the trade* at prices quoted, regardless of quantity ordered; except where items are quoted by the 1,000, not less than 500 will be furnished at 1,000 rates.

Packing.—Prices do not include packing. Packing carefully done in boxes mostly, sometimes in bales or parcels, for which we charge moderately; for large boxes, 8 or 9 feet by 2½, three of which usually hold 1,000 5 to 6 feet apple—\$2.50 each, and in proportion for larger or smaller boxes. NO CHARGE FOR DELIVERING AT RAILROAD, EXPRESS, OR POSTOFFICE HERE. On lots by mail, postage and packing extra. Trees per carload, when loaded in bulk in box cars, no additional charge for loading and packing in car. When flat cars are used and boarded up we charge for additional labor, lumber and material used.

Shipping.—We usually commence shipping in the Spring about March 10.

We prefer parties ordering should indicate the route by which they wish stock sent. In the absence of particular directions, we forward to the best of our judgment; but in no case do we assume any responsibility after consignment to purchaser, unless for our own mistakes. When losses occur by detention en route, claims should be made on the carriers immediately.

It is our custom, when sufficient time is given, to obtain through Freight or Express Rates on all Shipments.

To our customers at a distance we would state that the postal rate on Trees and Plants has been reduced from 16 cents to 8 cents per pound, and can be shipped in any number of four pound packages to one address. We ship a great many root grafts, seedlings, clons, greenhouse plants, etc., in this way.

Direct all letters to PHOENIX NURSERY COMPANY, P. O. BOX 625 BLOOMINGTON, ILLINOIS.

FRUIT TREES—Continued.

The Following are Our Leading Sorts of Standard Pears:

BELLE LUCRATIVE, BARTLETT, BESSEMIANKI, BEURRE CLAIRGEAU, BEURRE EASTER, BEURRE D'ANJOU, CLAPP'S FAVORITE, DUCHESS D'ANGOULEME, DUCHESS D'BORDEAUX, DOYENNE DE ETE, EARLY HARVEST, FREDERICK CLAPP, FLEMISH BEAUTY, GARBER'S HYBRID, HOWELL, IDAHO, KOONCE, LOUISE BONNE D'JERSEY, LAWRENCE, MT. VERNON, MANNING'S ELIZABETH, OSBAND'S SUMMER, PETITE MARGERITE, PRESIDENT DROUARD, SHELDON, SECKEL, TYSON, VERMONT BEAUTY, VICAR OF WINKFIELD, WILDER'S EARLY, etc.

The Following are Our Leading Sorts of Dwarf Pears:

BUFFUM, BEURRE D'ANJOU, CLAPP'S FAVORITE, DUCHESS D'ANGOULEME, FLEMISH BEAUTY, HOWELL, IDAHO, KOONCE, KIEFFER'S HYBRID, LOUISE BONNE D'JERSEY, MT. VERNON, TYSON, VICAR OF WINKFIELD, etc.

ROSSNEY PEAR.

The best and handsomest pear yet produced. Hardy and productive. Ripens two weeks after Bartlett. Strong grower. Luther Burbank, the most noted horticulturist of the age, says under date of October 5, 1895: "The samples of Rossney Pear arrived in due season. The large size, handsome form, and creamy yellow skin with crimson blush gives the fruit a tempting appearance; and the tender, creamy flesh, of just the right texture, with no hard spots and an unusually small core, with its superior flavor, makes it about the best pear so far seen. If the tree is vigorous, healthy and productive, would prefer it to any other, even the standards, Bartlett or Seckel." See price, page 3.

LONGWORTH'S No. 1 PEAR.

The Pear for the Northwest—Every Tree Has Our Seal Attached.

This is a very hardy Seedling Pear of recent introduction; originated at Du-buque, Iowa, and was grown from seed some forty years since by the veteran nurseryman and horticulturist, Wm. Longworth. The tree is a strong, upright grower, entirely FREE FROM BLIGHT, and an enormous bearer. Fruit, medium to large, nearly round; skin yellow with warm blush on the sunny side; flesh rather coarse, juicy, sugary, good flavor. Ripens from first to middle of September.

Having thoroughly tested this variety, we have no hesitancy in recommending it to the public for general planting. This pear has withstood our severest winters without the slightest injury, while other varieties were frozen to the ground. Being free from blight and EXTREMELY HARDY, it is a very desirable variety, and should be planted largely. See sizes and prices, page 3.

	100	1000
PLUM —On Plum, European Varieties, 5 to 7 feet, $\frac{3}{4}$ inch and up.....	\$15.00	\$130.00

Souhegan —Early, Black Cap, very productive.....	.75	6.00
Turner —Upright, almost thornless, vigorous, red, bears 125 to 150 bushels to the acre.....	.50	4.00
Tyler —Black Cap, early.....	.75	6.00

GRAPES.

	100	1000
Agawam —(Rogers No. 15) 2 years, old, reliable, large red, one of the very best.....	\$6.00	
Blood's Black —Very early, 2 years.....	10.00	
Brighton —2 years; hardy, productive, exquisite flavor, resembling Catawba in color.....	6.00	
Campbell's Early —New, hardy and vigorous, very prolific, berry large, flavor rich and sweet. Flesh firm but tender. Very early; 2 years.....	10.00	
Catawba —Late red, 2 years.....	4.00	
Champion or Talman —Early, black, 2 years.....	4.00	
Christine —(Telegraph) early, hardy, black, 2 years.....	6.00	
Clinton —2 years.....	4.00	
Concord —2 years.....	3.00	\$25.00
Cottage —Seedling of Concord. Sweeter and earlier, 2 years.....	4.00	
Delaware —2 years.....	6.00	
Diana —2 years.....	7.00	
Dracut Amber —Large, early, brown, 2 years.....	7.00	
Duchess —A new seedling, white grape, 2 years.....	7.00	
Early Victor —2 years.....	10.00	
Elvira —White, productive, 2 years.....	4.00	
Empire State —White, 2 years.....	6.00	
Eaton —A large, showy black grape; ripens before Concord, 2 years.....	10.00	
Hartford Prolific —2 years.....	5.00	
Herman —Black, wine grape, 2 years.....	10.00	
HERCULES —This new black grape, which originated in this county was first offered by us. The vine is a strong, healthy grower, hardy and productive; bunch large, long and broad; berries unusually large and round; a shade darker than Worden and covered with a blue bloom; ripens with Concord. The fruit of this variety was exhibited at the World's Fair, 1893, by the New York Experimental Station, where it created a great deal of interest. 2 years.....	25.00	
ILLINOIS EARLY —A new grape which originated with the late G. A. Ensenberger, of this city, some ten years ago. The vine is very hardy, strong grower. Fruit large, purplish black; ripens with Moore's Early. Berry adheres well to the stem, and we believe will make an excellent shipping variety. 2 years.....	25.00	
Isabella —2 years.....	5.00	

ROOT GRAFTS—Continued.

PRICES INCLUDE PACKING.

	1,000	10,000
Apple—Price of assortments.....	\$ 3.50	\$32.50
“ On whole roots. Price of assortments.....	5.00	45.00
“ Delaware Red Winter.....	6.00	
Pear—On whole roots.....	12.00	
“ Rossney.....	20.00	
“ Longworth No. 1.....	15.00	

We do not recommend the planting of Prune, Plum, and Cherry root grafts. They succeed best from buds.

CLEMATIS.

All hardy. Home grown. On own roots. Grown in 6-inch pots, except as noted; an unusually fine stock.		10	100
Coccinea —Bright scarlet has been a color hitherto unknown in Clematis, but in this sort we have that color, which, when placed in contrast with the blue, purple and white kinds, has a most striking effect. It is equally hardy as the other well-known sorts. Dormant, 2 years			\$12.00
Duchess of Edinburgh —Double white, of vigorous habit, free bloomer, very fragrant. 3 years			25.00
Flamula —Sweet scented. Produces large clusters of small white flowers. Most fragrant of all clematis. Dormant, 2 years			10 00
General Grant —This excellent new Clematis originated in this city. It is supposed to be a hybrid of <i>Velutina Purpurea</i> and <i>Gem</i> . Growth very strong and vigorous. Very hardy. Large flowers of the <i>Henryii</i> type. Petals well rounded. Of the brightest velvety reddish purple, shaded with bright red. This is the first American Clematis, of extra fine merit, and undoubtedly new shades of color, in large flowering Clematis. It has been grown here for some years, and has proved to be unusually hardy and free blooming. 3 years		\$3.00	
Henryii —New, and one of the best perpetual hybrids, of robust habit, and very free bloomer. The flowers are large, white, and very showy. 3 years			25.00
John Gould Vetch —Sent from Japan in 1862. The flowers are very handsome, distinct, large double, and of a light blue or lavender color. It is like <i>Fortunei</i> , except in the color of the flowers. June and July. 3 years		3.00	
Jackmanii —Deep violet purple, flowers produced in masses; one of the best, especially for bedding. 3 years			25.00
Jackmanii Alba —Without exception this is the best hardy climbing plant that has been sent out for many years. It has all the characteristics of the <i>Jackmanii</i> , being free blooming and as vigorous. The flowers are nearly pure white, and make a fine contrast when planted near <i>Jackmanii</i> . It has been tested for years and has always won favor wherever shown. Strong plants. 3 years			25.00
Madam Baron Veillard —The flowers are a satiny lavender pink. 3 years			25.00
Madam Edouard Andre —A new French variety, entirely distinct and most novel. The nearest approach to a bright red yet produced. This clematis was exhibited at the World's Fair, Chicago, in the French department, and attracted great attention, owing to the brilliancy of its flowers. The plant is a strong, vigorous grower, being a hybrid of the popular <i>Jackmanii</i> variety, which it resembles in freedom of bloom, strong, vigorous growth, shape and size of flowers. 3 years			25.00
Magnifica —A magnificent free blooming variety. Color a deep lavender blue; flowers large and finely formed. Strong grower, of robust habit. 3 years			25.00
Paniculata —New. A strong, vigorous grower; very free flowering. Pure white. Unusually fragrant. 2 years. Dormant. From 3 inch pots			12.00
			5.00
Ramona —A strong, rampant grower and very hardy. Free and perpetual bloomer; flowers large, color, a deep sky blue; 3 years			25.00
Star of India —A very showy, very free flowering sort, with large flowers, first of a reddish plum color, changing to a violet purple, with turkey red bar in the center of each flower leaf. A distinct variety of great merit. July to October. 3 years			25.00
Velutina Purpurea —Blackish Mulberry color; very strong grower and free bloomer. 3 years			25.00
Virgin's Bower —Common white flowering. 2 years. Dormant			10.00
Viticella —Common purple. 2 years. Dormant			10.00

GREENHOUSE AND BEDDING PLANTS.

ROSES, HARDY AND TENDER BULBS, ETC.

Where practicable, small plants will be sent by mail, cost of postage added; we shall, however, send all packages by express at purchaser's expense, unless specially ordered otherwise. The advantages are obvious. Larger and better plants can be shipped, and they usually arrive in better order, with fibrous roots intact, ready at once to sustain life. By mail, more or less soil is removed, unavoidably breaking roots, compelling the plant to make new roots, which it does quickly if conditions are favorable, or lingers for days or even weeks before it starts, much to the annoyance of the purchaser. With our many years of experience, we claim to be as successful in sending by mail as any. It is, however, the unanimous verdict of all florists, that expressing has many advantages over plants sent by mail. Plants or bulbs of a bulky nature will, in all cases, be sent by express or freight.

Purchaser's selections gladly allowed, as far as practicable, without extra charge.

TIME OF PLANTING.—From the time spring frosts cease up to June 15. A most admirable feature of pot grown plants is the perfect safety and facility of using to advantage, up to a very late period, say July 10, for instance, where new places cannot be got ready in the usual spring season for planting, or where seeds, etc., have failed. The only prerequisite is to choose, if possible, a moist, cloudy time for planting out, or use shade or water temporarily till rain comes. For very late planting the Monthly Roses are best for bloom; next the quick growers and perpetual bloomers, as *Ageratum*, *Zonale Geraniums*, *Cannas*, *Abutilons*, *Verbenas*, *Salvias*, *Feverfew*; and for foliage, the beautiful *Acalyphas*, *Alternanthera*, *Coleus*, and *Stevia Variegata*.

We cannot afford to fill orders for less than \$1.00 at the prices named herein.

ROSES.

50 AT 100 RATES. NOT LESS THAN 5 OF A VARIETY.

We make the growing of roses a specialty. Our list of varieties has been carefully selected so as to include only the very best. We are constantly buying the newer varieties and after giving them a fair trial, discard such as are not found worthy of cultivation and of distinct character.

OUR ROSES are all grown on their own roots, either from cuttings or layers. We do not consider budded roses good for permanent out-door planting, the difference being the Mannetti or stock on which roses are budded makes such a strong growth and sends up so many suckers that it usually kills out the variety to which it is budded the first year, and takes its place, and nothing is left but the common or stock rose, unless of course the grower is very familiar with the cultivation of roses, and knows the difference between the stock and the bud and when to prune and pinch back.

ROSES FROM POTS.

From many years experience we can without any hesitation recommend pot-grown roses on their own roots. Hybrid Perpetuals, Hybrid Teas, Monthly, Bourbon, and China as best for spring planting. As is well known the Hybrid Perpetuals are all hardy. The Hybrid Tea, Bourbon, China, and Polyantha, if well started and properly grown, are very hardy, and will, if suitably protected during the winter, come through in good growing condition. They should be carefully hilled up to, with 10 or 12 inches of soil and then covered with light mulching. More of these roses are killed by over protection than not enough.

The above classes are the freest blooming of all roses, and best for permanent planting. In shipping pot grown roses each plant is wrapped separately in paper, when taken from the pot and all the small fibrous roots left intact, in good growing condition, consequently the root growth is not checked by shipping, and the plant starts to grow as soon as transplanted, and is well established in the ground before the top has made a heavy growth and before the hot summer weather comes.

We claim to be as well up in rose growing as the average florist, having had a lifetime experience in growing in large quantities all classes of roses, and yet in transplanting out door grown roses and wintering them in cold storage we lose a great many plants, no matter how careful we are in handling them. **On the contrary, in transplanting roses from pots we never lose any plants, even when planting small roses from 2 inch pots.** The reason for this is as explained above, that at the time of transplanting, the plant is intact in all its roots, stem, and branches.

We have for some years made a specialty of growing all of our roses on their own roots, and also a large portion of them in 4 inch pots, and that the pot plants have given entire satisfaction is fully attested by the numerous testimonials we have received from pleased customers, of their certainty of growth, hardiness, and earlier, freer, and finer blooming qualities than dormant or outdoor grown plants of these classes of roses.

ROSES—Dormant—Continued.

100

CLIMBING —2 and 3 years, Anna Maria, Baltimore Bell, Eva Corinne, Prairie Queen, Pride of Washington, Russell's Cottage, and Seven Sisters. See also Page 19.	\$ 5.00
ENGLISH SWEET BRIAR —Young branches and foliage very fragrant. Flowers single, bright pink. Desirable for hedges and garden planting, 2 and 3 years.	10.00
HARDY YELLOW —Persian yellow and Harrison's yellow, 2 years.	10.00
TREE ROSES —Choice varieties, first-class.	40.00

ROSES OF SPECIAL MERIT.

HYBRID PERPETUAL.

100

All hardy, prices (except noted,) from 4 inch pots.	\$10.00
2½ inch pots.	5.00
We have a few of these varieties dormant, 2 years.	12.00
American Beauty —An excellent hardy rose for permanent planting. Fully equal to Gen. Jacqueminot in hardiness. Larger in size of bloom. Very double and of a fine crimson pink. Also considered the finest red rose for forcing, and always bringing the best price in the largest flower markets. From 2½ inch pots, \$6 per 100. From 4 inch pots, \$12 per 100.	
Baron de Maynard —Flowers very large and perfect in form. Pure white, strong, vigorous grower; profuse bloomer throughout season.	
Beauty of Waltham —Very strong, vigorous, free blooming; large flower; rosy carmine.	
Belle de Normandy —Splendid large full flowers, clear rose, shaded rosy carmine and lilac.	
Caroline de Sansal —Vigorous grower. Flesh color, deepening to center. Large, full.	
Coquette des Blanches —A finely formed, pure white rose; occasionally shows light flesh when first opening; beautiful shell-shaped petals, evenly arranged. Flowers of good size, perfect, and of fine form and finish. One of the finest, freest, and most beautiful of the white hybrids. Very suitable for cemetery planting.	
Dinsmore —This fine variety possesses all the desirable qualities of a bedding rose—good color, fine form, a profuse bloomer, and stands the rigor of our Northern winters without protection. Flowers are large, perfectly double, and of a dazzling scarlet crimson color, and have that rich, spicy fragrance peculiar to the best hybrid roses.	
Duchess de Caylus —Extra large flowers, very double, full, perfect form, very fragrant; color, rich cherry red, sometimes brilliant crimson, delicately tinged with scarlet; very fine.	
Enfant Mout Carmel —Fine, large, full flowers, bright deep rose, elegantly shaded; very sweet, hardy and good.	
Fanny Petzold —Bright clear pink, shaded and edged with violet purple; large, handsome.	
General Jacqueminot —Now known everywhere. The best of all forcing roses of the Hybrid Perpetual class. Hundreds of thousands of feet of glass are exclusively devoted to this one variety. The buds, in midwinter, wholesale at from 25 cents to 50 cents a piece. Color, rich crimson, of fine shape and exquisite fragrance. This grand old variety holds its own against all new comers, and is undoubtedly the finest hardy rose of its color.	
General Washington —Color, bright shining crimson; flowers are large and perfectly double, blooms the first season and almost constantly.	
La Reine —Beautiful, clear, bright rose; very large; fine, full form; very fragrant and hardy.	
Lady Helen Stewart —Bright crimson, shaded scarlet; a good grower and abundant bloomer.	
Mme. Alfred Carriere —Pure white; slender, graceful growth; a very useful sort.	
Madam Chas. Wood —One of the best roses for planting ever introduced; the flower is extra large, full and double; color, deep rosy-crimson, sometimes brilliant and scarlet with maroon shading. A constant and profuse bloomer.	
Madam Francois Petit —White tinged with pink; very free and hardy.	
Madam Masson —Blooms nearly all the time, and bears plenty of large, full flowers; color, clear, bright rose; very sweet; handsome.	
Mary Washington —A hardy, perpetual blooming climber, producing double snow-white blossoms in clusters and great profusion, from June until frost.	
Paul Neyron —A beautiful shade of deep rose, occasionally lightening to satiny pink in the center. One of the very largest if not the largest, rose in existence. The branches are long and the foliage is superb, in keeping with the flowers; few thorns. Full, double, fragrant flowers. No collection complete without it.	
Ulrich Bruner —A beautiful hardy Rose in flower and foliage. The former is large and cupped, bright cherry red, and very fragrant. The flowers are borne on long flower stalks, almost devoid of thorns.	

HYBRID TEA.

Half hardy, prices (except noted,) from 4-inch pots.....	100
2½-inch pots.....	\$10.00
	5.00

Augustine Halem—Extra-large and handsome. Color, dark crimson. A beautiful free blooming rose, and very fragrant.

Augustine Guinousseau—Or White La France. Color, a lovely flesh or very light pink, when at its best. An extra fine rose. From 4 inch pots, \$10 per 100; 2½ inch pots, \$3.00 per 100.

Belle Siebrecht—A truly superb rose. Color, imperial pink. The flowers, which are sweetly perfumed, are large, beautifully formed and of that long, tapering shape, with high center, and when half blown, the petals reflex in a graceful manner. It is a free and vigorous bloomer, with large and glossy foliage of leathery texture, entirely free from mildew. One of its best qualities is that it holds its color after cutting.

Kaiserin Augusta Victoria—New Forcing Rose. This beautiful rose has not only a royal name, but is a royal rose as well. We have white roses that have elegant buds, but when full blown are not all that is desired. Then again, we have white roses that are elegant when full blown, but have poor buds. This rose combines both these good qualities. It is a continuous bloomer, producing successive crops of buds, and formed with large petals of best substance; shows no center when fully open. Color, a pure, snowy white.

Liberty—The Red Rival of Meteor. Color, pure crimson scarlet; free in production of blooms and does not require the high temperature needed by Meteor to bring it to perfection. This new rose is highly recommended by the leading florists of the country. 4 inch pots, \$4.00 per 10; 2½ inch pots, \$20.00 per 100.

Madam C. Testout—A grand rose of the La France type, but larger and better color. It is a clear pink, very fragrant and a splendid forcing variety.

Meteor—Color is rich velvety crimson, exceedingly bright and striking. Both buds and flowers are large and of excellent form, full, double, borne on long stems.

Mrs. Degraw—A rose of great merit for out door planting. Perfectly hardy here. Vigorous and free blooming. Color, deep pink. Very fragrant. We believe this to be the best pink bedding rose.

Souv. de Pres't Carnot—The finest rose presented to the public in many years. In beauty of form it is simply unsurpassed, while to our taste it is the loveliest combination of pink and white tints that we have ever seen, and the great majority of people who have seen it agree with us, for the admiration elicited by it is involuntary. In addition it is a strong grower, producing stiff, long canes; a free grower, with handsome foliage; it is easy to manage and easy to propagate. From 4 inch pots, \$10 per 100; 2½ inch pots, \$3 per 100.

Viscountess Folkestone—A Hybrid Tea Rose of artistic shape and color. It forces readily, is of strong growth and bears lovely white flowers tinged salmon pink, slightly cupped and delightfully fragrant. The buds are of large size, pointed.

TEA AND EVERBLOOMING ROSES.

Prices (except noted) from 4 inch pots.....	100
3 inch pots.....	\$8.00
2½ inch pots.....	5.00
	3.00

Bon Silene—Deep rosy pink, shaded crimson. Semi-double. Very fragrant. **Bridesmaid**—A pink sport of Catherine Mermet. Color, a very lively deep pink; very fine foliage; is short jointed, and is bound to become a favorite.

Catherine Mermet—A beautiful clear flesh color. Large, full, well formed bud. Still one of the finest forcing roses.

Dr. Grill—A splendid free blooming monthly rose. Color, bright buff pink, passing to clear rose and fawn, elegantly suffused with pale canary yellow. Wood and foliage of a fine growth.

Etoile de Lyon—This we consider one of the finest yellow bedding tea roses. It blooms freely and every flower is a gem. It equals Marechal Neil, on strong bushes. Color, a deep chrome yellow.

Hermosa (Bourbon)—Always in bloom and always beautiful. The flower is cupped, finely formed, and full; color, the most pleasing shade of pink; very fragrant. A favorite with every one.

Maman Cochet—One of the best new roses. The growth is vigorous, with rich, healthy foliage. The extra large flowers are produced on long stems, are very double, and the buds and half-expanded flowers are simply exquisite in their graceful form, delicate color and rich fragrance. The color is deep rose pink, the inner side of petals silvery gray. This variety was illustrated and described in the "Journal des Roses" several years ago, and one thousand dollars was refused for the stock by the originator, Mons. Cochet.

Marie Guillot—White tinged with a delicate shade of lemon; large, full and beautifully imbricated in form; one of the finest white Teas; the perfection of form in Tea Rose; highly fragrant. The best white Tea Rose for bedding.

Marechal Neil—The king of yellow climbers. Hardy south. From 2½ inch pots, \$5 per 100. From 4 inch pots, \$10 per 100.

Niphetos—Very large and double. Color pure white. Highly valued for its lovely buds, which are large and pointed. This variety is extensively grown where white buds are in demand.

TEA AND EVERBLOOMING ROSES—Continued.

Papa Gontier—A lovely Tea Rose. The blooms are large and long, with thick broad petals of dark carmine crimson. The inner petals are of a bright rosy carmine. The most popular forcing rose of its color.

Perle de Jardin—Without doubt the finest yellow rose in cultivation. Canary or golden yellow flowers. Large and beautiful form.

Rainbow—A grand rose. A sport from Papa Gontier, but a better bloomer. Color, pale shell pink, striped with Gontier crimson.

Souv. de Malmaison—This is certainly one of the choicest Roses in our collection, and for general cultivation unsurpassed. The color is a beautiful rich creamy flesh, distinctly and elegantly shaded clear peachy red, with a rose center; flowers are very large, perfectly double and deliciously fragrant. Particularly valuable for outside cultivation, being quite hardy. A strictly first-class rose in every respect, sure to give absolute satisfaction.

Sunset—Color is a shade of rich golden amber, tinged and shaded with a dark ruddy copper. Very beautiful.

The Bride—A lovely pure white, very fragrant rose. Splendid to force. The buds have more substance than Niphetos. Are very full and double. The finest and most profitable of all the white roses for forcing.

POLYANTHA ROSES.

Price, from 4-inch pots.....	100
From 2½-inch pots.....	\$5.00
	3.00

Clothilde Soupert—The flowers are large, double, beautiful in form, and borne in sprays. The color blends from a soft shell pink to a pure white. Roses with both of these colors are produced on the same plant at the same time. We consider it the best white bedding rose. It is very hardy, and stands out over winter here.

Mosella—The Yellow Soupert. This splendid novelty is almost identical with that of the original Soupert. It blooms in profuse clusters of three to five flowers, which are very double, bell shaped and open like a Camelia flower. petals are tinted white, on beautiful light yellow ground, extending to the middle of the petals. The plant is dwarf, bushy and free blooming. It is sure to be a popular companion to the original Clothilde Soupert.

RAMBLER ROSES.

	100
Crimson Rambler —A grand new Rose from Japan. The plant is of very vigorous growth, making shoots of from six to ten feet during the season, rendering it a charming pillar Rose. It is also magnificent in bush form. The flowers are of a glowing crimson, and are produced in great pyramidal panicles or trusses, each carrying from thirty to forty blooms, the individual flowers measuring about one to one and one-half inches in diameter, and remain perfect on the plant for upwards of two weeks. The foliage is bright green and glossy and perfectly healthy. We find this Rose perfectly hardy here. From 2½-inch pots.....	\$5.00
From 4-inch pots.....	10.00
Dormant, 2 years.....	14.00
Empress of China —We have thoroughly tested this valuable new rose for several years. Its distinct quality is its habit of true perpetual blooming, which is possessed by no other climbing rose in anywhere near the same degree. It is perfectly hardy, having withstood our severe winters here. The vigor of growth is unsurpassed. The flowers are small, but very delicate, waxy and fragrant, and are borne profusely. The color is a soft dark red in bud, and changes as the flower opens or grows older, to a lighter shade of pink. From 2½-inch pots.....	3.00
From 4-inch pots.....	7.00
Yellow Rambler —(Aglala.) This rose is, we are confident, an even more valuable introduction than the Crimson Rambler, for it is the <i>hardest yellow climbing rose</i> yet introduced, and quality of hardiness has been an extremely difficult one to combine with yellow color. We believe that, with very slight protection, it can be grown everywhere that other roses succeed. Yellow Rambler is a <i>blood relation</i> to the <i>Crimson Rambler</i> , which it much resembles in growth and foliage. It also blooms after the same manner as <i>Crimson Rambler</i> , in large trusses. The flowers are very sweetly fragrant, and last three to four weeks without fading. From 2½-inch pots.....	3.00
From 4-inch pots.....	7.00

HARDY HERBACEOUS FLOWERING PLANTS.

The following assortment embraces the most desirable kinds and varieties, and in great demand for permanent planting. They are all showy, beautiful plants, of easy cultivation, and flower at different periods so that a succession of bloom will be obtained, from early in summer until after frosts in the fall. They do not have to be taken up in the fall, or replaced every spring, but remain in the ground for years. To obtain the best results they should be cultivated the same as other plants.

	10	100
Anemone Whirlwind —A new, semi-double form of Anemone Japonica Alba, which is supposed to be a cross between this beautiful variety and a Japonica Rosea. In general style and habit it is identical with the white Anemone. It is of the same strong habit of growth, and is even more free-flowering than the original type. The flowers, which are 2¼ to 3 inches across, have several rows of pure white sepals, and the advantage of lasting much longer than the single varieties.....		8.00
Achillea —The Pearl, double, white.....		6.00
Asclepias —Tuberosa, Butterfly flower, brilliant orange red.....		6.00

Eulalia Japonica Variegata —ORNAMENTAL GRASS. Leaves striped green and white.....		8.00
“ Japonica Zebrina —New zebra striped grass.....		8.00
“ Gracillima Univitata —Narrow green leaves with a silvery-white midrib.....		8.00
Funkia —DAY LILY, white, blue, and variegated.....		8.00
Gaillardia —MIXED—Large, daisy-like flowers, single; fine long stem for summer bouquets.....	1.50	
Gypsophila —PANICULATA. Smoke flower.....		8.00
Helianthus Multiflorus —Double, Dwarf, SUNFLOWER, dark, golden yellow color, grows from 3 to 5 feet in height. Never fails to flower the first season of planting. One of the hardest and best herbaceous plants.....		8.00
“ Maximilliam —An elegant specie, the latest bloomer of its class as well as one of the latest of all flowers. Clear yellow, from 3 to 5 inches across, with several rows of petals. Center full. Handsome in bud and flower. Height 8 feet.....		8.00
Heliopsis —PITCHERIANA. Very valuable for cut flowers, resembling Sun Flowers, but covering a longer season of bloom and earliest in summer. A new form with dwarfer habit, giving a succession of deep orange yellow flowers, from June to October. 3 feet.....		8.00
Heuchera —Sanguinea, Alum Root, one of the very few red flowering, hardy perennials. Flowers in graceful spikes. Very profuse.....		6.00
Hemerocallis —ORANGE DAY LILY. Clumps.....		4.00
Hollyhock —Double, white, yellow, pink, red, sulphur, and maroon, from open ground.....	1.50	
Hibiscus —CRIMSON EYE. The stems and wood are deep red, and foliage is beautifully veined. Flowers immense. Color a clear snow white, with a brilliant crimson eye.....		10.00
Iris —GERMANICA. German Iris, assorted.....		4.00
“ KAEMPFERI Japan Iris, mixed.....		8.00
Lathyrus —ASSORTED—(Perennial Peas) Four sorts; free climbers, well adapted to growing on garden trellises, to cover walls, stumps and trees, and with their constant blooms give striking results.....		8.00

HARDY HERBACEOUS FLOWERING PLANTS—Continued.

	10	100
Lathyrus —LATIFOLIUS. (Perennial Pea.) Dense clusters of deep red flowers. Constant bloomer all summer. Fine for cutting.....		\$8.00
“ “ ALBA. Pure white flowers. One of the hardiest plants in cultivation, blooming from early June until hard frost, producing fine large blooms on good stems for cutting.....		12.00
Liathrus —SPICATA. Blazing Star. Deep purple flowers; June to August.....		6.00
Lychnis —CHALCEDONICA. Showy; dense heads of brightest crimson flowers; June to September.....		6.00
“ HAAGEANA. Broad heads of showy flowers, varying from orange red to richest crimson.....		6.00
Lobelia —CARDINALIS. Cardinal Flower. Long spikes of beautifully formed, deep, fiery, cardinal flowers; very effective.....		6.00
Monarda —DIDYMA. Oswego Tea. Showy heads of brilliant scarlet flowers throughout the summer.....		6.00
Nyosotis —FORGET-ME-NOT. From 3-inch pots.....	\$1.00	
Pæonies —See page 22.		
Pardanthus —CHINENSIS. (Blackberry Lily.) Easily grown in ordinary garden soil, 4 feet, June to September. Showy orange-red flowers, spotted with purplish brown spots.....		5.00
Pyrethrum <i>Uliginosum</i> —This is considered by many the finest autumn flowering plant we have, growing 4 feet high, and covered with a profusion of large white flowers. Resembles the Paris Daisy in form of flowers. Very useful for fall cutting; August to frost.....		6.00
Phlox —HARDY PERENNIAL. The improvement made in this beautiful class of plants the past few years is perhaps more marked than in any other section of the Hardy Herbaceous family. Instead of the small flowers produced by the older varieties, which were almost limited in color to lilac and white, we now have gorgeous flowers combining all the various tints of rose, carmine, red, purple, white, and salmon, with their distinct eyes. They require no care but dividing and resetting every second year. Their vigorous growth and freedom of bloom make them very useful plants. Perfectly hardy everywhere. We have the following named varieties: AUGUSTA RIVERIE, salmon red, very large; ATHIS, light salmon rose; AMPHIO, large rosy salmon; CROSS OF HONNEUR, deep rose and white striped; CONSUL M. FIRST, red, white eye; ELNA, red shaded salmon; FIREFLY, very bright crimson; FLEUR DE NIEGE, white shaded lilac; GLORY ST. MARC, rosy lilac; HOFF GARTNER M. DECKER, deep rose; ISABELLA DUPUY, white, large white eye; JEANNE DE ARC, dwarf white; JAPONICA, red shaded lilac; JAS. MAGNUS, lilac rose, MOLIERS, salmon flushed rose; MADAGASCAR, red shaded lilac, large; PERRIE LATI, deep crimson shaded lilac; PANTHEON, large rosy salmon; PAUL & LOWE, pink, white eye; SIMPLON, red shaded pink; THE PEARL, fine pure white; VIRG. MARIE, white large and fine; WILLIAM ROBINSON, deep rosy salmon, small crimson eye. Named varieties, strong, 2 years, from open ground.....		10.00
Mixed “ 2 years, “.....		8.00
After April 1st, plants from 2 inch pots,.....		4.00
Rudbeckia Double, “GOLDEN GLOW.” A glorious new plant and one that will find a place in every garden here and abroad; of fine habit, vigorous growth, with early, continuous and immense blooming qualities; it will be found excellent also for cut flower purposes, inasmuch as the stems are long and often carry a dozen flowers furnished with most beautiful foliage. A large vase filled with these flowers is a beautiful sight. Clumps.....		4.00

CANNAS.

We offer the following choice collection of dwarf French Cannas which we consider among the best standard sorts offered. They are well started in 4-inch pots and will give entire satisfaction. Prices, except noted, per 100, \$8.00.

Alphonse Bouvier—Green foliage. Flower crimson, dark.
 Burbank—The orchid-flowered; having clear, beautiful yellow flowers. The plant is a very strong grower, 5 to 6 feet high, with leaves with a texture like rubber. Excellent for planting in shady situations. Foliage green.
 Bassett's Red—Darkest red flower and foliage.
 Chas. Henderson—Crimson. Green foliage.
 Egandale—Currant red. Foliage red.
 Eldorado—Flowers, large yellow, streaked red. Green foliage; per 10, \$1.00.
 Florence Vaughan—Golden yellow, spotted red. Foliage green.
 Flamingo—Finest scarlet bedder, foliage red.

CANNAS—Continued.

Gloriosa—Green foliage. Red flowers with wide yellow border; per 10, \$1.00.

Italia—Green foliage. Yellow orchid-flowering.

J. D. Elsele—A magnificent vermillion scarlet. Without question the finest scarlet yet offered.

J. C. Vaughan—Red foliage; color, deep orange scarlet. Large truss.

Madam Crozy—Vermilion scarlet, bordered yellow. Foliage green.

Miss Sarah Hill—Crimson carmine. Green foliage.

Paul Marquant—Green foliage. Bright salmon scarlet.

President McKinley—Green foliage. Color a fiery deep crimson scarlet. One of the best. Price, per 10, \$1.00.

Queen Charlotte—Crimson scarlet, border gold. Foliage green.

Sou. de Pres. Carnot—Fine scarlet. Red Foliage. Per 10, \$1.00.

Sou. de Antoine Verdier—Green foliage. Variegated scarlet and yellow flowers.

NEW GERANIUM—E. H. Trego.

This is the best scarlet geranium yet produced. It was grown by careful hybridization from seed of Mrs. E. G. Hill, crossed by P. Crozy, by the noted florist, A. Shriver. We have tested this variety for the past three years and can truly say it is the largest flower and brightest scarlet geranium we have yet seen, and that it cannot be excelled for bedding purposes. The color is a deep scarlet of exquisite shade; the florets are regular in form, more than semi-double, and about two and a half inches in diameter. Trusses, enormously large on long stems. Foliage and habit are all that could be desired. It has also proved to be an excellent winter bloomer. We are the first to offer this magnificent sort to the public, and do so with the fullest confidence that every customer will be more than pleased. We have had several buyers for our entire stock, but thus far have refused all offers. Price, from 2½ and 3 inch pots, \$1.25 per 10.

GREENHOUSE AND BEDDING PLANTS.

Prices, except as noted, are for first-class plants of shipping sizes.

	10	100
Abutilons —6 sorts from 2½-inch pots.....		\$3.50

OFFICE OF THE ILLINOIS STATE ENTOMOLOGIST.

Urbana, Ill., July 30, 1900.

This is to certify that the growing nursery stock and premises of the Phoenix Nursery Company, situated at Bloomington, Ill., have been inspected according to the provisions of an Act to prevent the introduction and spread in Illinois of the San Jose Scale and other dangerous insects and contagious diseases of fruits, approved and in force April 11, 1899, and that no indications have been found of the presence of the San Jose Scale or other dangerous insect or plant disease. This certificate is invalid after June 1, 1901.

S. A. FORBES, State Entomologist.
