Telephone No. 704 Rutherford, N. J.

B. & A. PINK WICHURAIANA ROSE.

Bobbink & Atkins,

Importers, Growers, Florists,
and Nurserymen. Growers of
Fancy Nursery Stock. Plants
and Bulbs of every description.

Rutherford, New Jersey.

Nat'l size

SPRING 1902.

NOTICE.

Our Storage-houses, Greenhouses and Nurseries which embrace 50 acres are located at Carlton Hill, on the main line of the Erie R. R., 9 miles from New York, where we have on hand quantities of stock of our own growing in addition to a line of the different stock in season from the firms we represent, thus facilitating inspection and prompt execution of orders.

At our Nurseries we grow Tea and H. P. and Ever-Blooming or Monthly Roses in enormous quantities. Also Cannas, having devoted 10 acres to these alone the past Summer. Hardy Herbaceous plants are also grown in large quantities, placing us in a position to bid upon orders of any size.

Prospective purchasers of this stock will do well to write to us for varieties and prices before placing orders elsewhere.

Visitors are at all times welcome.

TERMS.

To customers of approved credit, 60 days. Unknown correspondents desiring to open an account will please furnish satisfactory reference, otherwise cash must accompany the order. A discount of 3% will be allowed on all orders accompanied by cash. Interest will be charged on all accounts overdue.

Ask for our Special, General and Herbaceous Plant Catalogue.

THIS LIST CANCELS ALL PREVIOUS LISTS AND CATALOGUES.

Please call and inspect the stock which we enumerate in this list.

NOVELTIES AND SPECIALTIES IN GARDEN, GREENHOUSE AND DECORATIVE PLANTS.

TESTED NOVELTIES—On account of the ever increasing demand for "something new" and entirely different to existing kinds and varieties, we have made a very complete search for beautiful new and useful plants, in addition to our general lists many rare and old plants, enumerating them in the classes to which they belong.

We draw your attention to the beautiful new *Gerbera Jamesoni* and *Clematis Integrifolia Durandi*; also the double pink *Wichuraiana* Rose. We mention these, knowing their exquisite beauty and usefulness. All other novelties are equally meritorious.

Ampelopsis Japonica Versicolor.

This is identical to *A. Veitchii*, only that it is exquisitely variegated, being of many bright, brilliant colors, perfectly hardy. Strong plants. 25 cts. each, \$2.50 per dozen.

Begonia Crednerii.

The flowers are produced in large clusters on strong stems and are of the largest size. White, with a delicate suffusion of pink, making the flowers a decidedly pleasing color. The foliage is large, harmonizing beautifully with the other characters of the plant. The finest of flowering plants for house or greenhouse. 25 cts. each, \$2.50 per dozen.

Clematis—Integrifolia Durandi. (Herbaceous Species.)

The most beautiful acquisition to this class of hardy plants, and being a hybrid between the herbaceous and large-flowering type *Jackmanni*, it still remains herbaceous and at the same time a vine. The color of the flower is a striking indigo blue, form of flower being peculiar and very graceful; only a few plants in existence. 25 cts. each, \$2.50 per dozen.

Campanula persicifolia Moerheimi.

This splendid new *Campanula* was raised some years ago and was offered last season for the first time; it is one of the best Hardy Perennials introduced of late years.

This is evidently a thoroughly good plant, a semi-double form of the peach-leaved Bellflower, and as white as driven snow. The flowers are large and produced freely on the spike. Useful for cutting.

The plant grows more compact than the other *persicifolia* varieties and the stems are quite covered with very large flowers of the purest white, which have a diameter of $2\frac{1}{2}$ to $3\frac{1}{2}$ inches and are double and semi-double. The flowers are not bell-shaped like other *Campanulas*, but resemble a double white *Camelia*. 25 cts. each; \$2.50 per dozen.

Hydrangea Hortensia Mariesii.

This is without doubt the finest introduction ever made. It is so remarkable that one wonders why such an exquisite variety was not originated before. The sterile flowers are three inches in diameter and of a charming delicate pink, slightly suffused with a tint of mauve. It is certainly an entire new form and will take

the place of all existing kinds for pot culture and decorative purposes. 4 in. pots, 25 cents each, \$2.50 per dozen.

Gerbera Jamesoni.

The Barberton Daisy.

An evergreen herbaceous plant, having leaves like those of *Francoa ramosa*, but a foot in length, springing up from a hard woody root stock, and has long, thick roots with few fibers. The flowers are borne erect on a strong stalk from 1 to $1\frac{1}{2}$ feet in length, are fully 4 inches across and in the best types are of a glowing scarlet color. 35 cents each, \$3.50 per dozen.

Paeonia.**Officinalis Atro Rubra Fl. Pl.**

This is the darkest variety ever introduced of this early flowering type. It is a rich dark crimson. Strong flowering roots. 25 cts. each, \$2.50 per dozen.

Privet.**Ibota Nana Compacta.**

This originated in our nurseries. It is of a remarkably compact, graceful habit, with rich green foliage. It is a most evergreen. For an individual shrub it cannot be surpassed for gracefulness and beauty. 2-inch pots, \$1 per 12; \$8 per 0.

New Wichuraiana Rose.**The B. & A. Double Pink Memorial Rose.**

There is nothing in roses introduced in recent years that has proved such an innovation or so valuable as the Japanese trailing Rosa Wichuraiana or the Memorial rose. This variety is a seedling from Wichuraiana, carrying with it all its beautiful characteristics in every respect, with the exception of the flowers, which are very double, 2 to 2½ inches in diameter and are of the brightest and most cheerful rosy pink. Its fragrance is delightful, being distinct from that of any other rose. Strong field-grown plants. 35 cts. each; \$3 per dozen; \$20 per 100. 2-inch pots, \$1.50 per dozen; \$12 per 100.

Plant Department.

Aucuba Japonica.

A useful decorative plant either for out-door planting in summer or cool room in winter.

Bushy plants,	12 in. high,	\$3.00 per doz.

Hybrid Wichuraiana Roses

Evergreen Gem. Yellow, changing to white; double.
 Gardenia. Creamy white; double.
 Pink Roamer. Rich bright pink; single.
 South Orange Perfection. Blush pink, changing to white.
 Triumph. White; double.
 Universal Favorite. Soft light pink; double.

Strong, field-grown plants, per doz., \$1.25; per 100, \$10.

Lord Penzance's Hybrid Sweet Briars

Anne of Gierstein. Dark crimson, good grower.
 Brenda. Maiden's blush or peach, dainty in color and shade; the contrast and effect of the bright golden anthers add a peculiar charm to this variety.
 Lady Penzance. Beautiful soft tint of copper with a peculiar metallic lustre; the base of each petal is a bright yellow, which, showing through the clear golden anthers, forms a halo round them; very free flowering, with a delicious perfume from foliage and flower.
 Lord Penzance. Soft shade of fawn or ecru, passing to a lovely lemon yellow in the centre, sometimes toned with a most delicate pink; very sweet scented.
 Meg Merrilies. Gorgeous crimson, very fine flowering; seeds abundantly; robust habit, large foliage.

Lucie Ashton. White, beautifully bordered with Rose.
 Amy Bobsart. Fine large carmine flower.
 Rosy Bradwardine. Distinct large flower, delicate pink.
 Flora McIvor. Violet Rose flower, very fine.

Strong two-year-old plants of all the above varieties, \$2 per doz.; \$15 per 100

Double White Memorial Rose

This is identical to the pink-flowered variety, only that the flowers are white, being produced in such multitudes as to literally envelop the plant. Both are perfectly hardy and appear to thrive in any location. They will be found useful to cover banks and to plant where other plants will not grow. For pot plants they are unsurpassed. Price, 2-inch pots, 15 cts. each; per doz., \$1.50; per 100, \$10.

Rosa Multiflora Japonica

This beautiful Japanese rose has now become so popular on account of its usefulness that every landscape gardener and florist are using it for outdoor planting.

One year old plants, per 100, \$4; per 100, \$35.

Special prices on large quantities.

RHODODENDRON.

Evergreen and Deciduous Flowering Shrubs.

Rhododendrons

Forcing and Hardy.

Our collections consist entirely of Hardy English, Parson's Hybrids, and Catawbiense Grandiflora varieties, and choice forcing kinds.

The Rhododendron as a forcing plant for Easter, is becoming more popular every year. Such desirable varieties as Ponticum, Roseum Prince Camille de Rohan (Rosy Pink) and Cunningham White can easily be forced into flower in three to four weeks from the time they are brought into a warm house.

The \$1, \$1.50 and \$2 sizes of the above varieties are extra fine, being large compact plants, well budded and clean foliage. We have many other desirable forcing varieties in addition to the above, but we recommend these as being especially fine for that purpose. Every Florist should have a few in bloom at Easter with other stock.

Conifers and Evergreens.

We call special attention to our collection of Evergreens. All our Conifers are several times transplanted and set out with a good ball of earth. They are sure to grow. Our prices are very low considering the quality of stock. Cheap Evergreens are dear in the end, and we are convinced that our stock will give satisfaction.

Bamboos. We have a fine collection of these now popular plants. Prices on application.		

For novelties and description of Hardy Plants see our Special Herbaceous Plant Catalogue.

HYBRID TEA ROSES.

New Hybrid Tea Rose, Balduin or Helen Gould.

An excellent bedding variety, with large full flowers of fine form, of bright glowing carmine; the bud is long and pointed and as sweet as a June Rose; a free and continuous bloomer.

2¼-inch pots, 75 cts. per dozen; \$6 per 100.

White Maman Cochet.

This American sport of the grand French variety is very likely to prove the very best of white bedders. Wherever outdoor roses are grown, Maman Cochet is a favorite. It is so extremely large, rounded and full, and all this can also be said of its white sport. Strong field grown stock, 2 years old. \$12 per 100.

Maman Cochet.

A magnificent pink rose of Mermet type, and the grandest of outdoor bedders in pink, making an enormous growth in one season. Of the largest size, and one of the most vigorous and beautiful growers in the Tea family. Color, very bright rose, with shadings of yellow at the center. Strong field grown, 2 years old. \$12 per 100.

Hermosa.

We have this in large quantity and fine condition this year. Best pink bedder, the freest and most perpetual bloomer in existence. Only hard freezing in late Autumn draws its flowering season to a close. Still grown by thousands as a market pot plant. Strong. \$10 per 100.

Kaiserina Augusta Victoria.

Pure ivory white; a flower of grand build, from the very first bud-form till the Rose drops its petals. In addition to its other good qualities, it is the very finest of all the Summer blooming varieties. A splendid grower, and with most beautiful foliage. Field grown, 2 years. \$12 per 100.

Liberty.

THE RED RIVAL OF METEOR.

Color, pure crimson scarlet; free in production of blooms, and does not require the high temperature needed by Meteor to bring it to perfection. When the requirements of this variety become known, it will become a general favorite. Though on trial now, this rose is bound to become a leader, and we would advise every florist to persist in its culture until he has mastered it. \$10 per 100.

Climbing Crimson Rambler.

We have a very large quantity of this fine rose this year, as each season finds it in heavier demand; it is a leader with Nurserymen and General Florists because it is one of the most popular varieties with the public, and now since its use as a spring pot plant has been demonstrated, the quantity required for this purpose is very large. Our young stock is in very fine condition. \$10 per 100.

We have a fine collection in a variety of forms. Will be pleased to have prospective buyers call and inspect the stock. Prices on application.

PLACE YOUR IMPORT ORDERS NOW.

We are the largest importers of Florist and Nursery Stock in America, and have our representatives in all parts of the world. We will be pleased to give letters of introduction to any of our growers or representatives in foreign countries, and upon request will have our representative meet prospective purchasers in any city, who will take pleasure in showing them all horticultural points of interest.

We import direct from Africa, Australia, Belgium, Bermuda, Canada, Central America, East Indies, France, Great Britain, Germany, Holland, Italy, Japan, Mexico, New Zealand, South America, and West Indies, Ornamental Nursery Stock, Plants, Seeds and Bulbs. If interested, write us and we will notify you when importations arrive, in order that you can inspect the stock.

CONIFERS AND EVERGREENS.—While you visit the Pan-American Exhibition please inspect our exhibit. The following remarks are by Mr. William Scott, Assistant Superintendent of Florical ure:

Evergreens at the Pan-American.—The accompanying illustration shows the Bobbink & Atkins display of evergreens at the Pan-American Exposition. One picture shows, to the left, what is known as the Elmwood entrance, where the greatest number of people enter the grounds. It was impossible to get the whole of the exhibit into one view, as many fine specimen box trees and bays extend along the lawn, both to the right and left. Everything excepting the sweet bays is planted out, and up to date we have not lost a single plant. The exhibit consists of standard and pyramid sweet bays, a large number of finely trimmed box, taxus, blue spruce, and a large assortment of the choicest evergreens. This collection arrived at Buffalo about May 15, occupying one entire car. The weather has been very favorable since, but I think it is rather unusual in handling so many evergreens that not one should have turned out a loss.—William Scott, in The Florists' Exchange.
