JANUARY 1ST,

1902

—OF—

WEBSTER'S

**HIGH GRADE BULK AND
PACKET SEED.**

TO THE TRADE:

I realize fully that **THE QUALITY COUNTS FOR MORE** in Seeds than in any other line of merchandise, and I do not need to tell you that cheap seed, grown by irresponsible growers in a careless and haphazard manner, are never cheap seed to buy, no matter at what price they can be procured. Such seed are sure to be a disappointment to the one who uses them and an injury to the trade of the dealer who sells them. The prosperity of the country, the advance in wages and better prices for produce has its effect in a general way upon the value of seeds, and no one should expect to get their seed at as low a price as in the last few years of depression, light trade and over-production. Prices of seed are firm and advancing. Not in years have all the conditions of the seed trade been as healthy, and not in my experience has there been as many items on the short list as at present. Competition is brisk among seedsmen, but we do not find it necessary to put the price below the cost of production in order to effect sales. There is no surplus stock in sight, and of very many things there will not be enough to go around. Order early if you are in the market for Bulk Seed, and make sure of procuring what you want.

WE originated the
**LARGE
SEED
PACKET**

and ours are the only Genuine Mammoth Packets with Double Quantity of seed to packet. Do not be deceived by claims of others who seek your business.

MEL. L. WEBSTER,

SEEDSMAN.

INDEPENDENCE, IOWA.

Webster's High Grade Seeds

• In no other line of goods is quality of as much importance as in Seeds, and in no other line does the purchase and sale have to be made so much on confidence as in this line. A farmer buys

stock, or a piece of machinery, or almost anything else, and he has an opportunity to exercise his judgment, but when he buys seed there is no such opportunity. He can test them for vitality, but it is impossible without using the entire season, from seed time to harvest, to test their purity and trueness to name. There was a tendency a few years ago to crowd down the cost of production, and often times it was done at the sacrifice of quality. The past three seasons have been very short crops. The season of 1901 in particular has proven the most disastrous to seed growing of any year of which we have record. I doubt if ever a crop failure has been as wide in extent as the past one. It has affected nearly the whole territory, both in Europe and America, from which our seed supply is usually obtained. Our own crop at home has been no exception to the rule. The vine seed, Tomato, Corn, Turnip, Onion seed and Onion Set crop has been but little better than a failure with us, the yield being not more than an average of 30 per cent. The shortest item this year is Peas, many sorts being only 10 to 15 per cent. of an average crop. This condition of affairs, on top of a very poor crop the year before, has made Pea stocks this year a very serious problem. In common with other seedsmen, we are already sold out on some items, and on all varieties we have but a limited amount to offer, barely enough to take care of our regular trade. The result of all these serious crop failures is much higher prices, and before the season is over many important items will be impossible to obtain. Order your supply early, and make sure of obtaining it; don't delay.

We look for a large demand for garden seed when the season opens, as always after a year of drouth we have found this to be the case; and for several other reasons. In the first place, in a year like the last very few seed are saved by private parties, that alone always makes a great difference in the sale of seed in a retail way. Then on account of so few vegetables being raised, together with their scarcity and high price, people will be very hungry for vegetables by the time spring opens, and every available space will be utilized as a garden, so that many will put in a small garden who would never have thought of it under ordinary circumstances. We are expecting a very

A Model Garden in Dawson City, N. W. T., from Webster's Seeds.

large mail business as soon as the sale of seed begins in the spring, and will be prepared to handle it without delay. While there is no profit for us in the small sorting up orders, yet we are very anxious to accommodate our customers, and will give such orders the most prompt attention, always sending them by return mail, express or freight, as the case may demand. Please favor us with any business you may have of this kind and we will guarantee satisfaction. The way we have managed to build up a business in four years such as we have, surely speaks well of our goods and method of doing business.

THIS ✿ ✿
LIST ✿
IS ✿
FOR ✿
DEALERS
ONLY ✿ ✿

The prices quoted in this list are strictly Wholesale Prices, and are for dealers who buy to sell again. The line of goods I put up and the varieties of seed I quote are those which are the most staple with the store trade. As I do not do a retail business, the new and high priced novelties I leave for those seed companies who make a specialty of the retail catalogue trade. The line of seed I handle comprises everything ever used by the trade, whose business I solicit, and in whose interest I try to conduct my business.

✿ ✿
TERMS ✿ ✿
✿ ✿

All Garden Seed, both bulk and packages, are sold on JUNE 1st time, regardless of the time of shipment, and are due, net, without any discount at that date. All bills not paid by June 5th are subject to sight draft without notice. We will not allow EXCHANGE or EXPRESS CHARGES on remittance, and if PERSONAL CHECKS are used they must be drawn WITH EXCHANGE. Onion Sets, Field Peas and Grass Seed are Net, 30-day goods.

BAGS ✿ ✿
AND ✿
BOXES ✿ ✿

No charge made for Display Cases for package seeds, but Bags, Boxes, Barrels and Baskets used for packing loose bulk seed, onion sets and field seed will be charged at cost, but we will try to pack all goods so that this necessary package charge will be as little of a hardship on our customers as possible, and will allow credit for Muslin Bags if returned in good shape, free of express or freight charges. The Two-Bushel Seamless Bags are a staple article, and can be disposed of at a profit over the price I charge you.

ORDERS ✿
BY ✿
MAIL ✿ ✿

I especially solicit any business you may have to place by mail. For most of the trade who will receive this list there will be no place from which supplies can be secured in less time than they can if ordered of me, and the matter of time is a very important thing during the seed selling season. I have every benefit of quick express and freight service, and will use every effort to fill mail orders without delay.

We send out no seeds to be sold on COMMISSION. Both Packet and Bulk Seeds are sold OUTRIGHT.

NON-WARRANTY ❀ ❀ ❀ ❀ ❀

I will exercise care to have all seed I sell true to name and of **THE HIGHEST GRADE**, and, if possible, test all seed that they may be sure of germination before they are sent out, but as there are so many outside conditions that even the germination of seeds depend on, it is impossible to warrant them, and it is expressly understood and agreed that they are not warranted in any respect, and I will not be responsible for the crop. If the seed is not accepted on these terms, they must be returned at once.

The Items Marked in Heavy Type are Most Desirable.

ASPARAGUS ❀ ❀ ❀ ❀ ❀

Conover's Colossal, *old standby*..... Per Lb. \$ .28

BEANS—Dwarf, Wax Pod ❀ ❀

ONION SETS ♣ ♣ ♣ ♣ ♣ ♣ ♣ ♣

Top or Button, 28 pounds to the bushel.....	Per Bu. Failure
Choice White Bottom Sets, <i>grown from seed; 32 lb. to bushel</i>	\$3.00
Choice Yellow Bottom Sets, " " " " " " " ".....	2.75
Choice Red Bottom Sets, " " " " " " " ".....	3 00

Onion Sets are sold on a **Net Cash** basis, and the terms are **Thirty Days** with **No Discount**. Barrels and Baskets will be charged at cost. A desirable way to have them shipped is in One-Bushel Baskets, which cost 15 cents each. The Baskets make an elegant package for shipping, keeping the Sets in the best of condition while in transit, and being a ready sale at more than cost price when empty. Onion Sets can not be sent without danger of freezing until after the usual time of sending balance of seed order, and I will not take the responsibility of shipping them before March 1st, but will ship at purchaser's risk at any time.

ONION ♣ ♣ ♣ ♣ ♣ ♣ ♣ ♣

Acme Tomato.

NOTE. There is no item in the seed line in which quality counts for more than on Tomato Seed, and there is none in which there is so much chance for poor and unreliable seed stocks. Beware of too cheap seed, or you may be getting the product of a canning factory which can be produced at a much less price than seed saved from Tomatoes grown for exclusive seed purposes. We are largely our own growers in Tomato Seed, and believe our stocks will please the most critical trade.

Webster's Mammoth After careful consideration, I have

Packet Seeds this year reduced the price of my Mammoth Double Quantity Packets to \$1.50 PER HUNDRED in

Reduced in Price. lots of 400 packets or more, or a less quantity at \$1.75 per hundred. I realize that this is a

big cut from the former price, \$2.00, and I make it only in expectation of larger orders. From our old friends and customers we expect even a larger share of their seed business. And to others we hope the new price will be an inducement for their Packet Seed trade that they can not resist. The High Grade of our seeds will be maintained and we will continue to put forth every effort possible to improve the quality of our stock, so that our patrons can depend on getting in Webster's Mammoth Packets not only a **DOUBLE QUANTITY OF SEED** but seeds that are of **THE HIGHEST GRADE**.

The ORIGINAL The great success attained by our Mammoth Packet has proven too great a

and ONLY temptation for some of our esteemed competitors, who never had an original idea, and as

Mammoth was to have been expected, we have imitators, which is the greatest compliment we could

Packet possibly have. "Be Not Deceived," but buy only the **ORIGINAL MAMMOTH PACKETS** which

is the best selling line of Packet Seeds on earth. Every packet contains **DOUBLE THE AMOUNT** of seed packed in the standard-sized package, and offer both the merchant and consumer greater inducements than any other packet seed on the market. As compared with the old commission plan, they pay the dealer **100 PER CENT. GREATER PROFIT**, and at the same time enables him to give his customers double the quantity of seed for the money.

One Price Only This has a good sound, but we want to tell you frankly, nobody knows how difficult

the precept is to live up to better than the wholesale packet seedsman. Our territory is so extended and the competition we meet so varied, the size of orders differing so much, being all the way from a small filling in order to those of several thousand packages that "One Price Only" is very hard to maintain, but we propose to live up to it and **WILL NOT ACCEPT ANY BUSINESS AT A LESS PRICE THAN QUOTED ABOVE**. However, small sorting up orders received during seed-selling season will be filled at price of original order.

I have been to great expense of procuring new designs of flowers and vegetables for my Packets and Labels, and can safely claim there is not another line of seeds on the market that is an equal of mine in beauty and style of lithographing. My cases, which I supply free with all orders, are finished in two coats of shellac, nicely labeled, and will present as attractive an appearance as any seed case on the market.

✿ ✿ LARGE PACKAGES ✿ ✿

To meet the demand for a ten-cent package, I pack Peas, Beans and Corn in a ONE-THIRD QUART pasteboard carton. This, while not double the size of the ten-cent packages put up by other seedsmen, is the largest ten-cent package put up by anyone. The best that has been done heretofore has been a one-half pint to retail for that money. I have increased the quantity of seed to packet fifty per cent. and have not increased the price. I also pack Turnip and Rutabaga in four-ounce packages, which retail at 15 cents, or at same price bulk seed should be sold. My package labels are of a new design, beautifully lithographed in colors, and make my large packages the most attractive and showy of any thing in their line. These I put in three regular assortments as follows: Assortment A, 102 packages, cost \$5 50; assortment B, 76 packages, cost \$4.25, and assortment C, 60 packages, cost \$3.25, all packed in display cases without extra charge for case; also sell them by the dozen, as follows:

Peas and Beans, one-third quart cartoons, per dozen.....	\$ .70
Pole Beans, per dozen.....	.80
Corn, one-third quart cartoons, per dozen.....	.40
Turnip and Rutabaga, one-fourth pound cartoons, per doz.	.80

✿ ✿ FLOWER SEEDS ✿ ✿

My Flat Vegetable Packets are DOUBLE QUANTITY, and there is nothing I sell where I give greater value for the money. I pack them in 50 and 100 boxes, and sell them at \$2.00 per 100 packets, no charge for box. My flower seed box is neat and attractive, and when empty will make a valuable box for many purposes, and is worth one-fourth the amount I charge you for the seeds. Try a box and you are sure to want more next year.

✿ LAWN GRASS IN PACKAGES ✿

My one-pound package of High Grade Mixed Lawn Grass is a work of art; the quality of the grass seed is unsurpassed;

being the right varieties and mixture to produce the most perfect lawn. The price, \$2.00 per dozen, equal to less than 17 cents per pound, is only about what a good Lawn Grass will cost in bulk. The packets are marked to sell at 30 cents.

For convenience in ordering you will find below a list of different combinations, of my Packet Seed. If any of these suit your wants you can order by number, if not, we can give you anything you want from one dozen packages to a complete line.
