THESE MIXED HYACINTHS are used almost exclusively for bedding out in the Fall on account of their cheapness. They are just as good colors and just as fragrant as the named varieties; the difference is in the cost of keeping the named sorts separate, both while planting and after they are dug. The exact shades cannot be given, but the general outline of colors are kept separate, so that in ordering you know what color you are buying.

JUST THINK OF A DOZEN GOOD HYACINTHS FOR ONLY 60 CENTS, POSTPAID.

Grape Hyacinths. One of the sweetest little flowers imaginable, and in masses very striking, making a wave of intensest blue that catches every eye. As hardy as an oak and increases rapidly. Ours is an improved variety with longer spikes and larger bells than the old-fashioned variety. Its spikes are just the size for button-hole bouquets, while its long stems enable it to be used to advantage in all bouquets of cut flower work. We offer them in white and blue. Price, 2 for 5 cents; 25 cents per dozen.

Cockade Hyacinth. A real curiosity. First, a frizzled, cockade-like spike an inch or two in length, appears above the soil and, as it slowly raises on its long stalk, it becomes five or six times as long as at first, developing into a long, feathery, blue plume, and lasting for weeks in that condition. One of those pretty, odd things that everybody likes. Perfectly hardy in the garden and fine for pots. Price, 3c each, 25c per dozen.

Hyacinthus Candicans. This is unlike our Spring blooming Hyacinths. Its leaves are deep green, fleshy, resembling some of the Yuccas. The flowers are white, in handsome pendulous bells arranged on pyramidal spikes. A strong bulb will give from two to three flower spikes, and these produce from thirty to fifty flowers. The plants come into bloom in July and bloom continuously until October. Price, 10c each, 3 for 25c.

If goods are to go by express you may choose 30 cents' worth extra for each dollar you send us. Fruits excepted.

CROCUS...

The First Flowers
of Spring

THE Crocus we offer are a great improvement over the older sorts usually sold, being much handsomer in form and color—a good place is any place—in groups, in figures, in lines at the edge of walks, etc. With a trowel or spade make a slanting opening about two inches deep, put in the bulb, then with the foot press back the sod. This is an easy way to plant flowers that will be a sheet of bloom almost before the grass is green. If planted in beds, cover bulbs about two inches. Crocus can be readily bloomed in pots or boxes, requiring no special culture. Few flowers will give so much pleasure and delight for the little care and expense called for.

CHOICE NAMED GIANT FLOWERED DUTCH CROCUS

Cloth of Gold—Brightest golden yellow.

Cloth of Silver—Silvery white, striped lilac, small flowers, but very profuse.

Lewis Napoleon—Extra large, dark purple.

Price, 10c per doz.; 75c per hundred.

IF GOODS ARE TO GO BY MAIL YOU MAY SELECT 15 CENTS' WORTH
EXTRA FOR EVERY DOLLAR YOU SEND. FRUITS EXCEPTED.

Price, 3 cents each; twelve for 30 cents.

Golden Crown.—(Yellow Gesneriana.) Exactly like the above, except its grand blossoms are of a fine yellow color, banded with orange. Forms a superb contrast with the scarlet Gesneriana. Price, 3 cents each; twelve for 30 cents.

The

Chinese.... Sacred Lily

(Or, ORIENTAL NARCISSUS.)

THIS VARIETY OF NARCISSUS is called by the Celestials "The Water Fairy Lily," "Joss Flower," or "Flower of the Gods,"—is grown by them to herald the advent of their New Year and a symbol of good luck. It bears in lavish profusion chaste flowers of silvery-white, with golden-yellow cups. They are of exquisite beauty and entrancing perfume. The bulbs are grown by a method known only to themselves, whereby they attain great size and vitality, insuring luxuriant growth and immense spikes of flowers. In fact the incredibly short time required to bring the bulbs into bloom, four to six weeks after planting, is one of the wonders of nature. "You can almost see them grow," succeeding almost everywhere and with everybody. They do well in pots of earth, but are more novel and beautiful grown in shallow bowls of water, with enough pebbles to prevent them from toppling over when in bloom. A dozen bulbs started at intervals will give a succession of flowers throughout the Winter.

Our importation of these BULBS will arrive from China about October 1st, and will be an unusually large one, in consequence of which we are enabled to offer you **EXTRA FINE, LARGE FLOWERING BULBS** at the price of.....

15c Each, or 3 for 40c.

• GIANT SNOWDROPS •

The charming Snowdrop is the first of
all flowers
to herald the approach of Spring.

It can frequently be seen in bloom when the ground is white with snow, as it takes every advantage, and hastens to display its graceful snow-white bells before Winter has disappeared. In conjunction with Chionodoxa and Scilla, a matchless effect can be produced. As the bulbs are small, they should be planted liberally in order to obtain immediate results. Banks, grassy slopes, edging, or rock-work will suit all of these bulbs. They should not be disturbed often if a fine display is desired.

SINGLE SNOWDROP—Pure white, graceful bells; early flowering. Price, 2c each, 20c per dozen.

DOUBLE SNOWDROP—(Galanthus Nivalis, fl. pl.) Flowers perfectly double, pure white. Price, 3c each; 25c per dozen.

ELWES' GIANT SNOWDROP—(Galanthus Elwesi.)—The largest and most beautiful, flowers snow-white, with emerald-green tube. Price, 3c each; 30c per dozen.

SNOWDROPS.

LILY OF THE VALLEY.

Ready in November. These beautiful, fairy-like Lilies delight all. Choose a partially shaded place in the garden and plant the roots about six inches apart and two inches deep. For Winter blooming, pot in December, and place outside in a shady place; allow them to freeze once or twice, then bring into the house, where they can be forced into exquisite bloom in a short time. Extra select, large flowering bulbs, German grown, strictly first-class stock. Price, 3c each; 30c per dozen.

ENGLISH IRIS.

Our collection embraces a full range of color, from a very deep purple to a very pure white. 3c each; 30c doz.

SPANISH IRIS.

This variety is well adapted for pot culture, blooming in the Winter earlier than the above, but smaller; beautiful shades of violet, yellow, blue and white. Mixed varieties, 2c each; 20 per dozen.

SPARAXIS.

Resembles Ixias, but flowers are more drooping, opening flatly. Their combination of beautiful and unusual colors is fascinating. The individual flowers are very large, and the brilliant colors are striped and splashed in every imaginable manner. Fine mixed, all colors, 3c each; 25c per doz.

IXIAS.

The graceful flower spikes of the Ixias remind one of the Gladiolus, but the flowers are very distinct, being round and well opened. Their brilliant colors and vividly contrasting markings have made them already quite popular, although introduced only of late years. For pot culture, plant six in a five-inch pot and treat as Hyacinths. When in full bloom the display will be magnificent. For outdoor culture they should be planted in a somewhat sheltered situation, and protected with leaves or straw.

MIXED SORTS—Many varieties of rich shades and colors. Price, 3c each; 25c per dozen.

ORNATHOGALUM ARABICUM.

(Arabian Star of Bethlehem.)

This is another bulb of comparatively recent introduction. It is one of the most magnificent Winter blooming bulbs or plants; in fact, some consider that it excels all others. The bulb resembles that of a Hyacinth. Treat it just as you would a Hyacinth, not bringing it up to the light too soon, and it will reward you by throwing up a flower spike eighteen inches or even two feet in height, a great mass of pearly white flowers, having a bright, jet-black center. Price, 5 cents each; six for 25 cents.

IXIAS AND SPARAXIS.

If goods are to go by mail, you may choose 15 cents' worth extra for each dollar you send us. Fruits excepted.

Very beautiful flowers; the single varieties being most brilliant. They are not quite hardy; planted from October to November they will bloom in the early Spring but need covering with litter during Winter for protection. Can also be had in bloom in April in the house by having a few pots in a cool room. Prices include postage.

Anemone, Single.—Mixed; brightest colors. Price, 2 cents each; 20 cents per dozen.

Anemone, Double.—Mixed; best assortment of colors. Price, 3 cents each; 25 cents per dozen.

.. GLOXINIAS ..

Charming plants; dwarf habit. Flowers in profusion, often 2 to 4 inches across, of the most exquisite and gorgeous colors, magnificently spotted, mottled and blended. By starting at intervals produce a succession of flowers nearly the whole year. Mixed varieties ready in November. 10 cents each; three for 25 cents.

CHIONODOXA LUCILLÆ. (GLORY OF THE SNOW.)

We find these bulbs are becoming very popular, and deservedly so, for their lovely blue and white flowers, produced in long sprays, are seen in the garden among the earliest Spring flowers—sometimes even before the snow has disappeared. The bulbs are perfectly hardy and make a fine display when planted in masses out-doors. For window culture they are fully as charming as *Icacias*. They bloom very early, commonly by Christmas. Selected bulbs. Price, 3 cts. each; 25 cents per dozen.

RANUNCULUS—FAIR MAIDS OF FRANCE.

For beauty and grace of form, and brightness of colors, the *Ranunculus* is unsurpassed. These attractive qualities have made it a prime favorite. The *Ranunculus* requires careful culture, and is worthy of it. The plants should not be exposed to a hot, dry air, nor to a blazing sun. The soil should be rich and not too dry, and yet well drained. Persian and Turkish mixed, 2 cents each; 20 cents per dozen.

ALLIUM NEAPOLITANUM.

Allium Neapolitanum.—Another excellent variety for Winter flowering, now extensively forced by florists for cut-flowers, being of pure white with green stamens, borne in large loose umbels. Height, 15 to 18 inches. 5c each; 8 for 25c.

Luteum.—(Moly or Golden Allium).—One of the most showy border plants, perfectly hardy, bearing large, golden-yellow flowers in June. Price, three for 10c; 25c per dozen.

TRITELIA UNIFLORA.

A most valuable addition to Winter flowering bulbs for house culture. Several bulbs can be planted in a four or five inch pot; each will send up numerous flower stalks, producing exquisite star-shaped blossoms; pure white, beautifully lined with azure-blue. The flowers follow each other successively, and a pot or basket of these bulbs presents a lovely blooming appearance all Winter. This variety is also entirely hardy; can be planted in open ground, blooming in Spring. Fine bulbs, 3 cents each; 25c per dozen.

SCILLA SIBERICA.

The Siberian *Scilla* or *Squill* has flowers of a lovely ultramarine blue color, borne in graceful spikes; in the house it blooms early, like the Roman *Hyacinths*, and forms a beautiful contrast with them. In the open ground they are quite hardy, and especially fine planted in small beds or with *Snowdrops*, and like them, frequently blooming before the snow has gone. Price, 2 cents each; 15 cents per dozen.

If goods are to go by express you may choose 30 cents' worth extra for each dollar you send us. Fruits excepted.

Dwarf Calla, "The Gem."

The foliage is a lustrous dark green, and is produced in great abundance. Its flowers are produced in the greatest profusion, being literally an ever-bloomer; it will bloom freely all Summer out in the open ground; in September it can be lifted and potted, and will continue blooming all Winter. "The Gem" Calla will continue to grow and bloom for years without ceasing, and the quantity of flowers which a large plant will produce is astonishing. Price, 10 cents each.

SPOTTED LEAF CALLA.

Spotted Leaf Calla.

Richardia Alba Maculata.

This plant is always ornamental, even when not in flower, the dark green leaves being beautifully spotted with white; in other respects the plant is the same as the old favorite White Calla, except being of smaller habit. In addition to its usefulness as a pot plant, it makes a fine thing for planting in the garden in Summer, being very effective. Price, 15 cents each; extra large, 25 cents each.

Black Calla.

There have been many grand introductions of late years among bulbous and tuberous rooted plants, but this one stands very close to the top of the list, and the demand for it has been very great. It demands a high place in every collection of Winter flowers, for it is exclusively a Winter bloomer, and must be treated as such. It is a native of the Holy Land, and produces several large, thick leaves very rich in color, resembling those of ordinary Calla Lily. The flower is very large and sweet scented, having a peculiar fruity odor. The color is strikingly odd and beautiful, being an intense glistening coal black. Appearance of plant when in bloom is majestic; people come from every direction to see the Black Calla when they find it is in your possession. Decidedly one of the finest novelties that has been brought out in many years. Price, large blooming bulbs, 25 cents each.

The color is exceptionally fine and unique—a vivid rose, with bright yellow in the center, which is altogether remarkable in a Rose.

Catherine Mermet.—One of the finest Roses grown. Its name is the synonym for all that is delicate and beautiful. Its buds are inimitable; faultless in form and charming in their every shade of color, from the purest silvery-rose to the exquisite combining of yellow and rose, which illumines the base of the petals. It is, beyond doubt, the Rose of all Roses, and you should not fail to have a Mermet in your collection.

Dr. Grill.—Coppery-yellow, with fawn-rose reflex. An entirely new color, and one of great brilliance. The outer petals are large, round and bell-shaped, and enclose a mass of shorter petals, which are of a brilliant color. A grand garden Rose. We advise our friends to plant this lovely variety, as it will please you.

Francois Dubreuil.—A new red Tea Rose of unusual merit, with fine, large, double flowers, which in color are equal to the best of our deep-colored Hybrid Perpetuals. The flowers are large, very full and double, with thick, regularly arranged petals. Color is red, with velvety shadings; rich and very fragrant.

Henry M. Stanley.—The color is a rare and remarkably beautiful shade of clear amber-rose, delicately tinged toward the center with fine apricot-yellow; the petals are beautifully edged and bordered with rich carmine, and on the outer reverse side pass to a lovely shade of salmon or buff rose; the flowers are large, fine, full form, excellent substance and deliciously fragrant, having a rich tea scent.

Madame Welche.—The flowers have great depth and substance and are of fine globular form, with broad, thick petals, and large, finely shaped buds. The color is a beautiful shade of soft amber-yellow, deepening toward the center to a fine orange or coppery-yellow, delicately tinged and clouded with pale, ruddy crimson.

Mme. De Watteville.—The color is a remarkable shade of creamy-yellow, richly colored with rosy-blush; the petals are large and each one widely bordered with bright crimson, which gives a very striking and beautiful appearance. The flowers are very full and highly perfumed.

Mme. Martha Du Bourg.—One of the prettiest. Flowers cup-shaped, with wonderfully pretty crimped petals, giving them a distinct lace-like appearance. The color is fine, creamy-pink, with a rosy-flesh center; the buds, sometimes the flowers, are beautiful apricot-yellow, flushed with orange-red; lovely variety.

Muriel Graham.—This superb Rose is from that favorite variety, Catherine Mermet, and is perfectly distinct in color from anything extant, which is a pale cream, faintly blushed rose. The habit of growth is similar to its parent. Sent out by Alexander & Sons, Belfast, Ireland who consider it one of their best productions. Well worth our best recommendation.

Pearl des Jardins.—Pearl of the Garden.—This magnificent yellow Tea Rose still retains its position as one of the very finest and most beautiful Roses of its color ever introduced.

New Crimson Rose, Princess Sagan.—Flowers of this variety are the richest crimson of any Rose in our vast collection. A single bud or blossom will catch the eye at a great distance, so brilliant is the color. Indeed, it is unmatched in its velvety richness; could well be termed the "Velvet Rose." It is as free blooming as Bon Silene.

Sunset.—A grand variety. The flowers are of large size, fine, full form, very double and deliciously perfumed; the color is a remarkable shade of rich, golden-amber, elegantly tinged and shaded with dark ruddy-copper. Intensely beautiful and resembling in color a splendid "Afterglow." It is a constant and profuse bloomer.

The Queen.—A very large pure snow-white everblooming Rose; the flowers are extremely large, very full and double, and are delightfully perfumed; a vigorous and healthy grower.

The Bride.—The best pure ivory-white Tea Rose. The buds which are of a grand size, are carried high and erect on bright, smooth stems.

White Maman Cochet.—A magnificent everblooming Tea Rose. A grand new Rose of 1898. Snowy-white, sometimes faintly tinged with the faintest suggestion of pale blush. The flowers are large and very double, with petals of unusually heavy texture. It has the vigor of an oak; hardy with protection.

SWEET PEAS.

When Sweet Peas are wanted in bloom for Winter or early Spring, they should be planted indoors early in September; and, to have the best results, the temperature should not exceed 45 degrees at night, to keep them stocky and firm. They should have plenty of air during the day and a full exposure to the sun. Splendid success may be obtained from sowing Sweet Peas in October or November. A perfectly drained soil so situated as not to be subject to too frequent or severe freezing should be selected, and the seed covered about three inches deep. While you cannot be sure of success from Fall sowing, yet it is worth while to take the risk for the advantage of having blooms about a month earlier than you could get them from outdoor sowings made in the Spring.

PURE WHITE FREESIA,

REFRACTA ALBA.

They are splendidly adapted for Winter blooming, and are, we believe, today the most popular Winter blooming bulbs. They are always sure to succeed and bloom elegantly for anyone in any situation, and the great beauty and fragrance of the flowers are everywhere admired, almost as no other Winter bloomer is. The blossoms or buds when cut and placed in vases of water will keep perfect for two weeks. In pots they commence blooming early and continue for a long time, the stems branching freely and producing several clusters of bloom in succession. Four to six bulbs can be planted in a five-inch pot. They commence growth immediately after planting and need not be put away to form roots like Hyacinths, unless it is more convenient to do so. Planting successively from September to November will give a succession of bloom through the Winter. We cannot too earnestly urge customers to plant this charming Winter flower. Pure white, with yellow blotched throat; delicious fragrance.

GIANT GOLDEN SACRED LILY.

THE flowers of this beautiful Sacred Lily are almost identical with the Chinese variety, except that they are the most lovely shade of deep golden-yellow, making a fine contrast with the white bloom of that noted kind. The bulbs are not nearly so large, but the trusses of flowers are of good size, making this a charming bulb for house culture. Grows in water like the old variety. Price, 5 cents each; six for 25 cents.
