Peacock's

WHOLESALE TRADE LIST FOR SPRING OF 1900

LIBRARY
J. S. Department of Agriculture.

New Snow-white Show Dahlia, STORM KING (Blizzard).

From photograph, taken on our farm, of a specimen plant in full bloom. Grown under our single-stem branching system, as described in the new book, "THE DAHLIA," by L. K. Peacock.

IN PRESENTING our new Wholesale Trade List for 1900, we wish to thank our friends and customers for their generous patronage in the past, and to assure them of our prompt and careful attention to all future favors.

We make a specialty of Dahlias, and have the largest and finest collection in America. Last season we grew over 35 acres of this "grand old garden favorite." In the last three years we have received

78 FIRST PRIZES AND FIRST AWARDS,

more than four times as many first prizes as were received by all our competitors combined—an unprecedented record.

Our Dahlia Farm is located at Atco, N. J., U. S. A., on the West Jersey and Seashore division of the Pennsylvania R. R., 19 miles from Philadelphia, Pa. We cordially invite all interested in Dahlias to visit our fields while they are in bloom, especially during the month of September, when field after field shows solid masses of exquisite color.

We guarantee safe arrival of all goods shipped by express.

Small parcels weighing not over 40 ounces each can be sent prepaid by mail or express to California, or to any other part of the United States, at 8 cents per pound. Add 25 cents per dozen extra to cover postage or expressage, if so to be sent.

SPECIAL NOTICE TO SEEDSMEN AND FLORISTS.

We do not sell at retail, but grow the finest and best Dahlias in large quantities for the wholesale trade, and make a specialty of supplying seedsmen and florists with large, well-ripened roots true to name. We make up catalogue collections with a range of colors and types, and guarantee satisfaction.

Our shipping facilities are unsurpassed; we can ship by freight over the Pennsylvania, the Reading, the Central Railroad of New Jersey, and the West Jersey and Seashore railroad systems.

By Express. We deliver goods to the United States, the Adams and the West Jersey Express Companies. Through their connection we reach everywhere, and we guarantee safe arrival.

Low express rates on plants and roots. We ship at the general special plant rate, which is 20 per cent lower than merchandise rate, and pack so as to protect from frost, yet carefully and lightly, so as to save excessive charges.

NEW AND RARE VARIETIES.

STORM KING (Blizzard), New Snow-white Show Dahlia. A companion for the superb pink Dahlia, A. D. Livoni. This superior variety is an extremely early, profuse and constant bloomer, a strong, vigorous grower of dwarf, branching habit, and produces its flowers on long stems. In fact, it combines all the good qualities of A. D. Livoni with an earlier-blooming habit and the production of twice as many flowers on longer stems. The flowers are snow-white, of perfect form, and full to the center. As a cut-flower variety, it is the florist's ideal, while for grouping or as a specimen plant (see illustration on first page of a specimen plant in full bloom), it is far ahead of any other White Show Dahlia. Strong plants, ready April 15, 20 cts. each, \$2 per doz.

FOLIIS VARIEGATIS. The new variegated-leaved Dahlia. The first and only variegated-leaved Dahlia to succeed in America. It has received great attention at various exhibitions. The plant is a free grower, of branching habit. The leaves are bright, glossy green, heavily margined and tipped creamy white, edged red. It is the most valuable variegated-leaved plant in cultivation, and should be in every collection. It is of easiest cultivation, and being a tender perennial, the roots are simply lifted, stored away for the winter, and planted out in the spring. Thus its position can be changed each year. Unlike other varieties, you do not need to bloom it, for it is always beautiful. When in bloom, the large double white, amber and magenta blended flowers show off the plants to greater advantage. Strong roots, 20 cts. each, \$2 per doz.
