BULBS FOR WINTER FLOWERING

Autumn Catalogue

of

HYACINTHS, TULIPS, NARCISSUS, CROCUS
AND OTHER BULBS FOR WINTER
AND SPRING FLOWERING.

To the Public:

We have the pleasure of presenting our AUTUMN CATALOGUE for 1900, and thanking our friends for their liberal patronage of the past, we respectfully solicit a continuance of your favors; to those who have not favored us with orders in the past, we would solicit at least a trial order.

Send us your orders as early as you can after receiving this Catalogue, as late in the season we may be sold out of some of the varieties called for.

Postage is paid by us to all parts of the United States on all *Bulbs* at the single and dozen prices quoted in this Catalogue, except where noted.

Remittance may be made by post office money order, express company's money order, or in registered letter; small amounts may be sent in postage stamps.

Orders from unknown correspondents must be accompanied by a remittance or satisfactory references. If goods are wanted C. O. D., 25 per cent. of the amount must accompany the order.

Our bulbs are imported direct from the best growers in France and Holland. We sell only the highest quality and at the *lowest prices*. (Not less than six bulbs of any one variety sold at dozen rates, twenty-five at one hundred rates.)

Address. In ordering, please be particular to sign your name, post office (state plainly), and mention mode of conveyance whether by express or freight.

Situations for Gardeners and Farmers. We will be pleased to receive inquiries from persons wishing the services of Gardeners, Farmers and Assistants. We will endeavor to keep a list of reliable persons wanting such situations and recommend only such as we think will give satisfaction to the employer. No fees are charged.

HYACINTHS.

These are the most popular among the Bulbous Roots, and may be cultivated in a successful manner in various ways.

Garden Culture—The soil should be as carefully prepared as for pot culture. Place the bulbs three to four inches deep and six to ten inches apart, with a little sand under and above them. At the approach of winter, cover with stable litter or any other light substance, removing same in the spring.

Culture in Pots—Place the bulb in a four or five inch pot, in a compost composed of two parts fine rich loam, and one part sand, covering the top of the bulb. Water well and place in cool, dark cellar or room until they are grown two or three inches, then bring them in the light, in warm room, out of the sun's rays. Keep well watered, and shower when ready to bloom.

Culture in Glasses—The bulbs should be so placed that only the base of each touches the water; then place them in a cool, dark room until they have made four or five inches of roots, after which, expose them to the light and air in a warm room, *but not in the sun*. The water should be changed as it becomes impure. It is very beneficial to water with a fine syringe over the head of the Hyacinths after the flower spike begins to show. If this is done frequently the bloom will swell out and expand much better.

CHOICE NAMED HYACINTHS.

Selected bulbs, producing finest spikes, especially recommended for pot and class culture. *The double varieties are designated by an Asterisk (*). Add 20c. per dozen if wanted by mail.*

RED.

	Each
Monsieur Hoboken. Dark rose.....\$	.15
Von Schiller. Pink, crimson striped.	.15

Early Roman Hyacinths.

ROMAN HYACINTHS.

This beautiful variety is extensively used for forcing and house culture. They may be had in flower by Christmas, when their fragrant flowers are most valuable for bouquets; by successive planting and keeping in a cool place they may be had throughout the winter. Each bulb throws out several flower spikes or trusses of pure white fragrant flowers.

If sent by mail, 10c. per dozen extra.

Miniature or Dutch Roman Hyacinths.

SINGLE PINK, WHITE AND LIGHT BLUE, in Separate Colors.

These Hyacinths are excellent for growing in pots, hanging baskets, etc., blooming freely and early, each bulb giving one or more neat little spikes of bloom. 50c. per doz.

By mail, 10c. per dozen extra.

Grape, Musk and Feathered Hyacinths.

An extremely pretty group of flowers perfectly hardy and admirably adapted for permanent beds, edges and partially shaded situation; also for winter flowering in the house.

Feathered Hyacinth, violet, feathery plume, 25c. doz.	White Grape, 15c. doz., \$1.25 per 100
Musk Hyacinth.....12c. each, 1.25 "	Blue Grape...10c. " .75 " 100

SINGLE TULIPS.

The Tulips, of all bulbous flowers, are the most popular and the finest. Like Hyacinths they are set out in the open ground, or planted in pots, and are managed in the same manner. The roots should be planted in October or early in November, three inches deep and four to six inches apart.

Named Single Early Tulips.

For House Culture, Forcing and Bedding.

The named sorts given below are the most desirable, as they are selected from a large number of named sorts, for their size and brilliancy of color. 6 bulbs of one variety sold at dozen rates; 25 at 100 rates.

If by mail add 5c. per dozen for postage.

	Doz.	100
Artus. Bright red.....	\$ .20	\$1.25

Single Early Mixed Tulips.

Potter's Special Mixture. This mixture contains all the best varieties of Tulips which flower simultaneously and grow about the same height; for bedding out this special mixture is unsurpassed. For size and quality of bulbs and variety of colors this mixture has no superior. Per doz., 30c.; per 100, \$1.75; per 1,000, \$15.00.

Fine Mixed, as imported. Per doz., 25c.; per 100, \$1.25.

The display of Tulips on the grounds of the State Normal School this past spring was made from bulbs furnished by us; it was one of the finest displays of Tulips ever seen in this section of the country.

Double Tulips.

These come in bloom later than the single tulips, and are valuable for bedding purposes, as they preserve their beauty for a long time. They are also easily grown in pots for house culture, with the same cultural directions as hyacinths.

	Doz.	100
Belle Alliance. Violet red striped with white, large.	\$ .25	\$ 1.50
Duke of York. Carmine and white, very showy.	.25	1.50
Duke Van Tholl. Red and yellow.	.20	1.25
Gloria Solis. Bronze crimson, yellow border.	.25	1.50
La Candeur. Pure white, fine.	.25	1.50
Pæony Red. Deep crimson.	.20	1.50
Purple Crown. Deep maroon.	.25	1.50
Murillo. Pink and white, large flowers.	.40	3.00
Rex Rubrorum. Rich crimson, very brilliant.	.30	2.25

Tournesol. Yellow, orange shaded.	.50	4.00
Mariage de ma Fille. White striped with crimson.	.40	3.00
Rose Blanche. Pure white.	.25	1.75
Velvet Gem. Dark carmine.	.30	2.00
Yellow Rose. Pure golden yellow.	.25	1.50

	Doz.	100
Extra Selected. Double early mixed from the best named varieties.	.30	1.75
Fine Mixed. Double late flowering.	.30	1.75

Parrot Tulips.

These are noted for their size and brilliancy of flower, of finely fringed and ragged petals. They bloom late and produce a fine effect in beds and borders, and are growing more popular every year.

PARROT TULIP.

	Doz.	100
Admiral of Constantinople. Red, tipped with yellow.	\$ .30	\$ 2.00
Cafe Brun. Brown, yellow stripe.	.30	2.00
Luteo Major. Large yellow.	.30	2.00
Markgraaf of Baden. Yellow and red.	.30	2.00
Perfecta. Yellow striped with red and shaded green.	.30	2.00
Fine Mixed. Named varieties.	.25	1.75

Late Flowering Single Tulips.

These are all tall-growing May-flowering tulips, with very large most brilliantly colored flowers of perfect form. They will be found invaluable for garden work. The Bizarres and Byblooms are the sorts grown by florists for show purposes.

Bizarres. Yellow ground feathered or striped with crimson, purple or white; choice mixed.	\$ .25	1.50
Byblooms. White ground with purple, violet, blue, lilac or black markings; choice mixed.	.25	1.50
Roses. White ground, striped rose, pink, etc.	.25	1.50
Gesneriana. Dazzling scarlet, with blue-black centre.	.25	1.50
Golden Eagle. Deep yellow with narrow orange red edge, the best late yellow.	.25	1.50
Darwin Tulips, Mixed. Self colors, embracing almost every shade and color; used only for planting out of doors.	.30	2.25

The Narcissus is one of the most popular of our flowering bulbs, both for indoor and garden culture. Most of the varieties are perfectly hardy and need not be disturbed oftener than once in three or four years. They grow well in any ordinary garden soil and may be planted in groups and lines about three inches deep.

SINGLE NARCISSUS.

Roman. Double, white and yellow, very fragrant, fine for forcing.....	.05	.40
States General. White flowers with citron cups shading to white.....	.04	.40
Mixed Polyanthus Narcissus	\$1.25 per 100	.03 .30

If by mail add 10c. per dozen for postage.

Chinese Sacred Lily.

A variety of Polyanthus Narcissus bearing an abundance of deliciously fragrant pure white flowers, with a lemon or orange centre. It is of the easiest culture. Use shallow dishes about three inches deep into which put about one inch of gravel; on this set the bulbs and keep the dish full of water. It is not absolutely necessary to keep the bulbs in the dark, but if kept shaded until the leaves begin to grow, better results may be obtained.

True Chinese Grown Variety.

Price 10c. each. \$1.00 per dozen.

If by mail add 5c. each for postage.

JONQUILS.

Jonquils.

A species of the Narcissus, perfectly hardy, and flowering very early in the spring. They are also very desirable for winter blooming. The flowers are a rich golden yellow and very fragrant.

	Doz.	100
Double. Fine, deep yellow, very fragrant..	\$ .40	\$3.00
Single. Rich yellow, very fragrant.....	.15	1.00
Campannelles. Single yellow, large flowered, fine for forcing.....	.20	1.00
Rugilosus. The largest flowering Jonquil, pure yellow and very fragrant.....	.25	1.50

If you want to be pleased, try our Special Mixture Tulips.

CROCUS.

One of the earliest spring flowers, producing dense masses of rich colored blossoms. Plant the bulbs two or three inches deep in a moderate rich, sandy loam. They may remain in the ground undisturbed for several years.

Choice Named Large Flowering Crocus.

These are composed of all the best and most beautiful varieties, and are remarkable for richness of color and the immense size of their flowers.

	Doz.	100
Albion. Extra fine and striped.....	.12	\$ .75

Fulgens, rich dazzling scarlet			40c. doz.

Calla Lilies.

	Each	Doz.
White Calla or Lily of the Nile. A well-known plant, of easy culture, and in winter one of the best window plants. The only requisites for successful culture are rich soil and plenty of water. <i>Extra Large Bulbs</i>	.15	\$1.75
White Calla, first size bulb	.10	1.00
Black Calla. The leaves are large and of rich, green color, veined light green, and resemble exactly those of the White Calla.....	.15	1.50
Little Gem. Dwarf; grows about 12 inches high and blooms very abundantly, flowers are one-half the size of the common variety.....	.25	2.50

Chionodoxa. (*Glory of the Snow*.)

One of the most beautiful spring flowering plants in cultivation—flowering early in the season with the snowdrops—thoroughly hardy, and will thrive well in any soil. Excellent for pot culture.

	Doz.	100
Luciliæ. Flowers blue, shading to white in the centre.....	.20	\$1.25
Sardensis. Beautiful deep blue flower.....	.20	1.50
Gigantea. Distinct variety, very large flowers, of a beautiful, soft sky-blue, with white centre.....	.25	1.50

Cyclamen.

One of the most beautiful plants for house culture. Plant the bulbs in rich, light soil and when the leaves are grown place in the sunlight and keep well watered.

Giganteum. Red, rose or white.....25c. each. \$2.50 per doz.

Erythronium Grandiflorum. (*Dog's Tooth Violet.*)

Perfectly hardy bulbs, with variegated foliage, and handsome flowers, resembling the Cyclamen; they delight in rather moist, partially shady positions. Excellent for pot culture for winter blooming.

Large Flowering Mixed .....3 for 10c. 30c. per doz.

FREESIA.

FREESIA.

The Freesia is one of the most popular bulbs for winter flowers. The flowers are tube-shaped, pure white, blotched with yellow on the lower petals. It is very graceful and fragrant, and is valuable as a cut flower, the spike remaining fresh a long time in water.

Should be potted early, 6 to 8 bulbs in a 4-inch pot; use good soil, of a sandy texture, water well at first, then sparingly, until beginning to grow rapidly; afterwards water freely and place in a sunny position.

Refracta Alba .....20c. doz. \$1.00 per 100
 " " Extra large bulbs...25c. " 1.50 " 100

Fritillaria.

Meleagris Mixed. (*Guinea Hen Flower.*) Spring flowering plants with bell-shaped flowers of various colors.

Invaluable for pot culture, and for planting out in the border; height eight inches.

3c. each. 30c. doz.

Gladiolus.

Colvilli Alba. Flowers are pure white, freely borne on long stems; invaluable for flowering in the green-house in winter. If planted in the open ground in the fall they bloom about the beginning of June; protect during the winter with a covering of about six inches of straw or leaves.....20c. per doz. \$1.00 per 100

Gloxinia.

Magnificent plants for house culture. They succeed best in sandy loam and peat and require a moist heat. Mixed, choice varieties.....15c. each. \$1.50 doz.

Iris.

An old favorite, too well known to need any description. All the varieties are beautiful and very effective in the garden. They are of easy culture, thriving in any good garden soil.

Doz. 100

English. Finest mixed. Large, handsome flowers.\$ .25 \$1.25

Germanica. (*German.*) Finest mixed, all colors. .60

English. Splendid mixed......12 .75

Pavonia. (*Peacock.*) White, blue spotted, pot culture......35

Did you ever see the display of Spring Flowering Bulbs at Roger Williams Park? If not, you should spare the time to visit there for you will be well repaid.

We have for several years supplied these Bulbs.

We could not possibly offer a better testimonial.

IRIS.

POOR BULBS ARE DEAR AT ANY PRICE.

Ixias.

Very pretty star-shaped flowers, produced on long spikes. Best adapted for pot culture. Several bulbs should be planted in the same spot.

Finest Mixed Varieties.....15c. per doz.
Crateroides. Bright scarlet .....25c. "

LILIES.

They should be planted, as a general rule, in autumn, and not less than six inches deep. They succeed well in any good soil, with a little sand under and above them and will flower to great perfection if protected during winter by a covering of litter or leaves. They should remain undisturbed in the soil two or three years. Postage prepaid at price of single bulbs.

	Each.	Doz.
Auratum. Flowers pure white, studded with crimson spots, with a golden stripe through the centre of each petal.....	\$ .15	\$1.50

Longiflorum. <i>First size bulbs</i>	.10	1.00

LILIUM AURATUM.

Lily of the Valley.

One of the most beautiful and admired spring flowering plants. It is quite hardy and thrives best in shady places such as beside a wall or under trees. Plant thickly together, two to four inches deep, in rich soil, and do not disturb unless they increase too much. It may be planted indoors the same as Snowdrops, in baskets of moss, or boxes and vases, the best time for so doing being in November and December.

Convallaria Majalis. Selected pips, for forcing and pot culture. 25c. per doz., \$1.50 per 100.

LILY OF THE VALLEY.

Leucojum Vernum.

Hardy bulbs, growing 12 to 18 inches high; flowers pure white, resembling the snow drop. Each 5c., dozen 40c.

Oxalis.

A class of small bulbous plants of great beauty, both in foliage and in bloom; suitable for growing in baskets, pots, etc. Plant in good, rich soil, five or six bulbs in a pot.

For other varieties of Flower Seeds, see our Seed Catalogue.

Special Mill-Track Mushroom Spawn.

Made by the best maker in England and can be thoroughly relied on to produce a good crop of the best mushrooms.

Mushrooms can be grown in a dark shed or cellar from April to October, in fact any place in which an even temperature of about 55° can be kept, is suitable, such as underneath the benches in greenhouses. The materials for the beds, use fresh horse-manure, free from straw, and good loam; one part loam and two parts manure, turn frequently to keep it from burning. The layer of manure used in the bed should be eight to ten inches deep after being pressed very solid. Cover the bed with two inches of loam and let it remain in this condition until the temperature has become reduced to eighty degrees. Holes are then made nine inches apart and as deep as the loam, in each a piece of spawn about the size of an egg is inserted and then filled up. The bed is finished by covering all with four or five inches of hay or straw. Per lb., 15c.; 8 lbs., \$1.00.

Books on Mushroom Culture—"How to Grow Mushrooms," by Wm. Falconer, \$1.50. "Mushroom Culture," by Robinson, 50 cents.

Wheelbarrows, Garden—Made of selected stock and heavily braced, painted, or natural wood varnished. No. 1, \$2.90; No. 2, \$2.90; No. 4, \$3.25; No. 6, \$3.75.

Van Reyper's Perfect Glaziers' Points.

The only durable and reliable points on the market made of steel wire and galvanized; prevents glass from sliding; no rights and lefts, can be used on either side of the sash bar; per box of 1000, 60 cts. Pincers for driving these points, 50 cents.

Bellows.

Woodason's Liquid Spraying. This throws a spray as fine as mist, rendering the use of strong solutions of fir tree oil, tobacco soap and poisonous fluids perfectly safe on tender foliage plants, killing the insects without burning the leaves; it also forces the fluids into every crevice without using half the quantity required by syringe or sprinkler. Price, \$2.00; small size, \$1.25.

Woodason's Sulphur Bellows, \$1.50.

Insecticides.

Fir Tree Oil. Soluble. For destroying all insects and parasites that infest plants, without injuring the plants. It is also an excellent wash for dogs and other animals and is harmless to the hands and skin. Directions with each package; ½ pint bottle, 40c.; pint, 65c.; quart, \$1.15.

Flour of Sulphur. A preventive and cure for mildew on grape vines, rose bushes, etc. Apply with powder gun or bellows. Per lb., 6c.; 5 lb. packages, 25c.; 10 lb. packages, 50c.

Hellebore. (Strictly pure.) One of the best insecticides for the destruction of rose slugs, currant worms, etc. Dust on with powder gun or bellows. Price, ¼ lb. package, 10c.; ½ lb. package, 15c.; per lb. 25c.

Tobacco Dust. Kills black and green fly, etc. Spread upon the ground it keeps off all earth insects, and also acts as a fertilizer. Package, 10c.; 5 lbs., 25c.; 100 lbs., \$3.00.

Tobacco Stems. For fumigating greenhouses, for the destruction of green fly and other insects. Dampen before lighting. Price per bale, 100 lbs., \$1.50.

Whale Oil Soap. Effective in destroying insects and lice on plants, trees, etc.; 1 lb. box 15c.; 2 lb. box, 25c.; 5 lb. box, 60c.

Death to Lice. (Lambert's.) A cheap and effective remedy for all kinds of poultry vermin, lice on cattle, horses or plants. Directions on each package. Each, 25c., 50c., \$1.00.

Fir Tree Oil Soap. An effective insecticide for the destruction of mealy-bug, aphids, caterpillar, etc. It does not injure fruit or foliage. One ounce makes a gallon of liquid. Price, ½ lb. tins, 25c.

Nikoteen. A liquid insecticide. Destroys all insects without injury to the plants. Pint bottle, \$1.50.

Sulphur-Tobacco Soap. For destroying rose slugs, green fly, lice and eggs of insects. Price, in tin box, with directions, sufficient for five gallons of water, 25c.

Nikoteen Aphids Punk. A preparation of Nicotine in most convenient form for killing insect life on plants and flowers without injuring the most sensitive bloom or foliage. Price per box, 12 rolls, 60c.

Grape Dust, Hammond's. For the prevention of mildew on roses, grapes, etc. It is not only a preventive, but it cures plants already affected. Apply with bellows. Price, 5 lb. package, 35c.

Bordeaux Mixture. A valuable and indispensable fungicide for grape growers. It prevents potato blight, mildew, black rot, etc. To every one gallon of mixture add 49 gallons of water. Price, 1 gallon can, \$1.00; 1 quart can, 40c.

Kerosene Emulsion. Ready for use by simply adding water (25 to 50 parts water to one of emulsion). For cabbage worm scale on trees, melon louse, and all sucking insects. Price, quart can, 35c.

Gishurst Compound. An English preparation for destroying scale, mealy-bug, thrip, etc. Per lb. box, 60c.

Tobacco and Whale Oil Soap. Effective for scale, green and black fly, mealy-bug and red spider in greenhouses. Packages, 25c.

Cedar Oil. Kills scale, thrip, aphids, red spider, mealy-bug, green and black fly and all insect pests on plants. Quart cans, each, \$1.00.

Cedar Oil Soap. For same purposes as Cedar Oil. ½ lb. package, 25c.; 1 lb., 50c.

Cyphers Incubators.

It is conceded by leading authorities that the Cyphers Incubators are constructed on scientific principles.

We cheerfully rest our claim for the superiority of the Cyphers Incubators and Brooders on the unimpeachable testimony of the men and women who have used and are using them.

The Cyphers Incubators and Brooders are "built for business." That is the idea. There is nothing fancy, nothing foolish about them. They are not parlor ornaments. That is not what incubators are wanted for.

FERTILIZERS.

Pulverized Sheep Manure.

The richest natural manure, and the most nutritious food for plants. Its effect is immediate, much more lasting and healthy than guano or any other manure. It is the best manure for mixing with the soil for greenhouse plants. It makes the richest, safest and quickest liquid manure, rivaling guano without any deleterious effects.

DIRECTIONS.—For mixing with soil, use 1 part manure to 6 parts soil. For making a liquid, use 1 pound manure to 5 gallons of water.

Price, per original bags (about 125 lbs.), \$2.50; 50 lbs., \$1.25; 10 lbs., 50 cts.; 5 lbs., 30 cts.; 2 lbs., 15 cts.

Pure Ground Bone.

This is a very pure, finely pulverized form of ground bones especially prepared for rose culture, top dressing for lawns and for potted plants. Price, 5 lb. package, 25 cts.; 100 lbs., \$1.75.

Canada Unleached Hardwood Ashes.

As a fertilizer of lawns and gardens hardwood ashes are unequalled; they supply natural plant food, permanently enriching the soil. One of the best for lawns, giving the grass a rich, dark shade of green, and destroying many of the insects, which are so injurious to grass, roots and leaves. Price, per 100 lbs., \$1.00; ton, \$18.00.

Bowker's Greenhouse Dressing. :

A special fertilizer for use under glass. It can be used alone directly on the beds or pots or in solution; produces a healthy, vigorous growth and greatly improves the color of the foliage and blossoms. Price, 25 lb. bag, \$1.00; 50 lbs., \$1.50; 100 lbs., \$3.00.

Bowker's Lawn and Garden Dressing.

Prepared for Lawns, Gardens and Flower Beds.

This dressing is prepared from chemicals, free from weed seeds, nearly odorless, clean to handle and is easily applied. It acts gradually through the season, and produces a luxuriant growth of grass of a rich green color. It is also a superior dressing for the flower garden.
