Net
Price-List

Maman
Cochet.

OF THE BEST STANDARD VARIETIES OF

Roses, Cannas, Carnations, Geraniums,
Chrysanthemums and Various Other Plants.

We do not handle Fall Bulbs.

NOTE CAREFULLY.

THE MONEY SAVED BY OUR NET PRICE LIST.

As we have in the preceding years issued a net price-list, thereby giving our patrons the benefit of a large amount of money which it costs to get out a fine illustrated catalogue; and as our plan has been so heartily approved by the many thousands of people who sent orders, we will do so again this season.

OUR PRICES

Have been carefully adjusted, and are as low as is consistent with first quality, and in all cases, we believe, will compare favorably with those offered by other firms, and in many instances our immense stock and complete equipment enables us to make lower rates than can be procured elsewhere on same grades.

THE QUALITY OF OUR STOCK STRICTLY THE BEST.

Any who feared from our low prices that our stock might be inferior, were agreeably surprised to find that it was of the finest grade, and could not be excelled. This was shown us by the numerous duplicate orders received from the same people, and the many meritorious commendations we have from them.

We have an immense stock of plants on hand this season, embracing only the best and most valuable varieties, such as we know will please all who receive them.

READ CAREFULLY BEFORE ORDERING.

OUR TERMS ARE CASH WITH THE ORDER.

NO ORDER SENT C. O. D. unless a remittance of one-fourth of the amount of the order be made to guarantee the acceptance.

HOW TO REMIT.

POST-OFFICE ORDERS. A safe and convenient way of transmitting money from one point to another is by means of post-office orders. If these are lost a duplicate can easily be obtained, and there is no danger of their being stolen, for no one can obtain money on them except the person to whom they are addressed. They can be obtained at most post-offices, but not at all. The fee is but eight cents for \$10.00 and under.

EXPRESS MONEY ORDERS. If more convenient, money can be sent in this way with perfect safety, as in case the letter is lost a duplicate can be obtained if you are careful to keep your receipt. We prefer a remittance in this way.

BANK DRAFT. These should be drawn on New York City, and made payable to the order of The National Plant Company.

We will be responsible for money sent by any of the above methods.

POSTAGE STAMPS. These can be sent for fractional parts of one dollar, where postal notes cannot be had.

WE WARRANT plants to arrive safely and in good condition at any part of the United States. If, through delay or breaking of the package, any of the plants are dead when they reach the purchaser we cheerfully replace them, provided we are notified at once. But there are so many accidents that may befall them in after-treatment, of which we have no oversight or control, that we cannot warrant them to live always. We know that by proper treatment they will grow and bloom beautifully, but we also know that they are frequently killed by mistaken kindness or utter neglect.

NAME AND ADDRESS.

Please remember to write your **Name, Post-Office, County and State**; also, give number of street or P. O. Box, as distinctly as possible; also, the **nearest Express Office**, or, if on stage route, send us special direction, giving us the name of the Express Company delivering goods.

NEW LOW EXPRESS RATE.

It will be much cheaper to the purchasers if Plants are ordered to be sent by Express at their expense. In all cases where possible, we advise our customers to *have plants forwarded by Express*, as larger and finer plants can be sent, and "extras" are added to help defray charges. *Plants are now taken by the Express Companies at a reduction of twenty per cent. from the regular rates for merchandise.*

ORDER EARLY.

It will greatly facilitate shipments if orders are sent in early. We aim to send off all orders the same or next day after receipt, but during the busy season it is nearly impossible—hence the advisability of ordering early.

We thank all for their patronage and the many kind words of praise for our plants.

Yours very sincerely,

THE NATIONAL PLANT COMPANY,

Spring 1900.

DAYTON, OHIO, U. S. A.

A GRAND NEW ROSE FOR 1900.

Rose Gruss an Teplitz.

One of the Most Striking New Roses
in the past ten years.

It belongs to the Bengal class, although Tea, Remontant and Bourbon blood flows through its veins. The variety is free blooming in Summer till late Fall. The flower is medium large. The color is a clear, dark scarlet vermillion, with brownish, velvety shading, and does not become blue. It also withstands the heat. The fragrance is strong and agreeable. The plants are said to be rust and mildew proof, and to require only a light covering during severe frost.

Price, 25 cents each.

New Ever-Blooming ROSES of Special Merit.

Mrs. Robert Garrett—The new Hybrid Tea. One of the most beautiful pink roses ever introduced. Fifteen cents each; large size, 30 cents.

President Carnot—A charming, new, hardy French rose. A strong, clean, healthy grower, with handsome bronzy-green foliage; large, fine shaped buds on long, erect stems. Color, delicate rosy flesh, a trifle deeper at center. A very profuse bloomer. 10 cents each; large size, 20 cents.

Mrs. Robert Peary—The buds are long and pointed, exquisitely modeled, and gracefully finished. Both in bud and flower it is truly beautiful. It has a fragrance that is delicious—just like cherry blossoms. If you want a quick-growing, absolutely hardy, climbing, sure-to-bloom rose, one that will give you flowers this season, this is the only white variety that will do it. Be sure to get this wonderful variety. Its magnificent flowers, freedom of bloom and healthy growth will astonish you. 10 cents each; large size, 20 cents.

Climbing Bridesmaid—The flowers are simply beautiful (identical with Bridesmaid), clear, dark pink. In bud they are superb, beyond anything we have ever seen. This is one of the most valuable additions to the Climbing Tea Roses made in recent years. 10 cents each; large size, 20 cents.

Climbing
Marie
Guillot.

Climbing Marie Guillot—Color, pure snow-white, sometimes faintly tinged toward the center with pale yellow. It will prove moderately hardy with protection; but it will be seen at its best in the South, Southwest, and Pacific Coast states (where the winters are mild). It will bloom the whole year around in the far South; and wherever Marechal Niel is grown, this variety will undoubtedly equal it in beauty of flowers and surpass it in vigor of growth. It is one of the really grand roses. 10 cents each; large size, 20 cents.

Manda's Triumph—This is a grand Hybrid of free growth, with fine foliage and clusters of from twelve to eighteen flowers on even a small shoot, literally covering the plant with its perfectly formed double white flowers, nearly two inches across, beautifully imbricated. It is also very sweet-scented. 10 cents each; large size, 20 cents.

When ordered by express, larger plants will be sent than can be forwarded through the mails.
All plants, either by mail or express, strictly first-class.

REMEMBER, OUR ROSES ARE ALL ON THEIR OWN ROOTS.

NEW EVER-BLOOMING ROSES.—Continued.

White
Maman
Cochet.

White Maman Cochet—Is identical with its parent, Maman Cochet (the queen of all pink garden roses), except in color of flower, which is snow-white, sometimes faintly tinged with the faintest suggestion of pale blush. 10 cents each; large size, 20 cents.

American Beauty—In "American Beauty" we have a hardy rose of the largest size, having the ever-blooming qualities of the Tea rose, with the delicious odor of the Damask or Moss rose; consequently, equally valuable for winter or summer flowering. Color is a deep brilliant pink, shaded toward the center with rich carmine-crimson. 15 cents each; large size, 25 cents.

Moss Roses—The Moss rose is as hardy as any rose can be, and an extra vigorous grower. They are much admired on account of their bright, healthy foliage, and mossy-like covering of the buds. While they bloom but once a year, the flowers are large, beautiful, and plentiful. We can furnish five of the best varieties at 15 cents each.

Climbing Meteor—The finest crimson, ever-blooming climbing rose in cultivation. It is a rich, velvety crimson, much like the forcing rose, Meteor, of which it is a sport. South of the Ohio river it would be perfectly hardy, while in the extreme North it could be laid on the ground and covered with leaves or straw, and will carry through nicely. 10 cents each; large size, 20 cents.

Universal Favorite—A free grower, producing long, branching shoots, with bright, shiny foliage in abundance, and soft, light pink double flowers, two inches in diameter, strongly perfumed. 10 cents each; large size, 20 cents.

Princess Bonnie—Color is charming—rich, solid crimson, deeper than Bennett, and more vivid than Jack. The inner petals at the base are streaked with white. The fragrance is delicious—distinct from that of any other rose. 10 cents each; large size, 20 cents.

It is of enormous proportions, building up extremely well, finishing with a slightly rounding, incurved center. Color, white, with lower petals delicately tinged lavender. One of the most beautiful flowers imaginable.

Mrs. Perrin—Has slender, stiff stems, ornamental foliage. The flower is of globular form, incurved, full, and with a finish as fine as satin. Color, rose pink within, glistening pink without. From a flat incurved form it gradually changes into a perfect ball of snow. Foliage handsome. A variety of the easiest management.

Kentucky—A very fine variety for exhibition; with extra large, graceful flowers, petals long and narrow, stem strong and covered with handsome foliage. A pure even, shrimp pink color.

Modesto—Among all yellows this variety will have first place; as expressed by several experts, "the finest yellow yet produced for exhibition or trade." Intense in color, a real dandelion yellow, unsurpassed in size; of an incurved, slightly whorled form, with full, high center.

Glory of Pacific—This is magnificent. One of the best early pinks.

Achilles—A very large, bold, incurved flower of soft pink; on opening gradually changing to a pearl white. This captured the first premium at the New York show for the "best of any color."

Gettysburg—This is the richest deep crimson variety we have ever seen, and excels in its color as Golden Wedding does in yellow. The color is of the richest velvety crimson, which in the flower itself is soft and velvety-like. The outer petals are broad and drooping, and have a lustrous sheen in the sunlight.

Georgienne Bramhall—A beautiful soft primrose.

Major Bonnaffon—A soft clear yellow; a full fine flower.

Fishers Torch—Bright, fiery red, the richest shade in chrysanthemums; large, fine flower.

Jessica—One of the earliest whites in existence.

W. G. Newitt—Pure white with long drooping petals from the outer rows, center petals upright; very informal in the arrangement, of large size; the foliage extends up the stem quite to the receptacle and acts as a support for the reflexed petals, broadening the flower very much in effect.

Helen Bloodgood—A very bold, round flower, when in perfection blooms measure seven and a half inches through and seven inches deep. It is the finest *true, clear* pink, without shading of purple or magenta. It has received a certificate at New York and Philadelphia. A veritable beauty.
