Spring Price List
of Hardy Herbaceous Plants
for 1900.

To the Trade.

As growers of Hardy Herbaceous Plants in quantity, we respectfully submit this price list for your inspection. As will be noted, our prices will compare favorably with those of other firms, and in some cases possibly a little lower. As to the quality of stock we grow, we do not think it can be excelled, as we spare no pains or expense in cultivation, and aim to offer noth-

ing but what has been first tested and found satisfactory in every sense of the word. A great many hardy herbaceous plants offered to the trade we have found unsuited to our winters, where the frequent thawing and freezing of the ground is a common occurrence. In some cases where many varieties were tested we have lost as high as the full percentage of our stock. Under these circumstances we have discarded from our list those plants which must of a certainty require protection

V. STAC. PHILA.

throughout the winter, and now catalogue none but what are perfectly hardy and can be relied upon to pass safely through the severest winter. Our plants will always be found at the highest point of perfection: clean, thrifty and in good growing condition. Our descriptions are accurate, brief, and do not exaggerate. In short, we solicit an inspection of our stock at any time it may be convenient for you to call, as the plants themselves are our best possible recommendation. We solicit your esteemed patronage, if only for a trial order, that we may demonstrate our ability to please.

Our Guarantee.

While we guarantee everything we sell as true to name, and stand ready to replace such plants as should accidentally come untrue, it must be distinctly understood by the purchaser that we do not assume any responsibility for the future of the stock after it has left the hands of the transportation companies, and will positively not be held accountable for any plants that fail to grow. In cases of complaints of this character we will do our utmost to extend satisfaction. Goods not purchased under these conditions must be returned at once, and we will refund any money paid for same, immediately. Complaints, to receive attention, must be made within five days of receipt of goods.

Our Facilities for Shipping, Etc.

As we are situated on the line of the New York, New Haven and Hartford Railroad, we have every convenience for the prompt shipment of goods, either by express or freight. Dormant herbaceous plants may

be sent safely by freight, but plants in a growing condition should always go by express. Our system of packing reduces express charges to a minimum.

Terms.

Prices are net, and subject to no discount, except in the case of very large orders, where special arrangements are made. To parties unknown to us, we generally require cash with the first order, then if desirous of opening an account, references may be sent. To such as are satisfactory we will allow 60 days' credit.

Pot-Grown Hardy Herbaceous Plants
