SEEDS IN BULK

LEONARD'S NEW WAREHOUSE
79 AND 81 SOUTH JEFFERSON STREET

S. F. LEONARD

CHICAGO

IMPORTANT.

THE TRADE GENERALLY is aware that a disastrous fire destroyed my warehouse and stock on November 1, 1899. A more complete wipe-out would be impossible. For this reason I desire to call attention to the views given on the cover pages and to say that notwithstanding the great loss and inconvenience

OUR reputation has been built up by furnishing seeds of the best quality as to purity and germination, and we shall always endeavor to furnish the best seeds that can be procured, and make prices as reasonable as possible. ❀ ❀ ❀

caused by the fire it did not hinder the onward progress of the business. On the front of cover is shown a photograph of my new warehouse, and on the back a picture of the ruins of the old one. The comparison between chaos, as represented by the one, and reorganization, as shown by the other, tell a story of effort put forth and obstacles overcome which need not be enlarged upon.

The main thing that I want to impress upon the minds of all is that my facilities at present, as heretofore, are right up to the standard. Nothing has been left undone in the reorganization of my business nor in the appointments of my new warehouse that would in any manner facilitate quick and satisfactory service. My patrons may rest assured that the same prompt attention which has been given to their orders in the past will continue to be given to them, and that no house in our line is better able to care for their needs.

WE are in a position to furnish good seeds at as low figures as any reliable house. We can and will meet all prices made by any one offering goods of equal value with ours, but we have no ambition to compete with those offering inferior stocks.

NOT bound by these prices for any definite time or quantity, and subject to advance without notice.

Prices quoted are f. o. b. Chicago. Bags, boxes and barrels, to insure safe transportation, are charged for at cost. Proportionately higher prices will be charged for quantities less than $\frac{1}{4}$ pound or $\frac{1}{4}$ bushel.

Terms, June 1, 1900, without regard to date of purchase, or a discount of one per cent per month for unexpired time when paid before maturity.

Grass seeds, potatoes, field seeds, onion sets and sunflower, net cash, without any time or discount whatever.

Our telegraph code is the one adopted by the American Seed Trade Association.

SIMEON F. LEONARD.

CHICAGO, February 1, 1900.

BEET—LEONARD'S EXTRA EARLY EGYPTIAN.

For the past twelve years this strain of early beet has been a leader on the Chicago market. It is the earliest variety we have, and in color and shape is the most satisfactory early market beet ever introduced.

SUGAR BEETS.

The Sugar Beet industry is becoming a very important one. Below we describe the four best varieties for making sugar.

**Klein
Wanzleben
Sugar
Beet.**

LANE'S IMPERIAL SUGAR

Good for making sugar, also stock feeding. A hardy and productive sort. Yields fourteen to sixteen tons per acre and contains about sixteen per cent of sugar.

TEL. CIPHER. PER LB.
Brora.....\$0 15

KLEIN WANZLEBEN.

A little larger than Vilmorin's Improved, yielding from twelve to eighteen tons per acre and containing about the same amount of sugar. It grows below the surface, and the green leaves are rather large and spreading, with wavy edges. A little hardier and easier grown than Vilmorin's Improved. Probably the best sort for the experimenter to use.

TEL. CIPHER. PER LB.
Brook.....\$0 18

VILMORIN'S IMPROVED SUGAR.

In this variety we have one of the richest beets in cultivation; not only that, but it will do better on new lands, suffer less from an excess of nitrogen, and will keep the best of any. In size it is medium or a little below, yielding from ten to sixteen tons per acre, and containing from sixteen to eighteen per cent of sugar. It grows below the surface, and the green leaves are smooth edged and spreading.

TEL. CIPHER.

Browine.....

**Vilmorin's
Improved
Sugar
Beet.**

PER LB.
.....\$0 18

FRENCH, VERY RICH.

A variety with large, long roots, yielding from fourteen to twenty tons per acre, and containing from fourteen to sixteen per cent of sugar. The roots are below the surface, and the green leaves are upright in growth. The hardiest and easiest grown.

CABBAGE.

Cabbage seed is one of our leading specialties. Chicago is and has been one of the most important growing and shipping centers for cabbages. Many car loads are shipped to all points of the country from Chicago every year. We are headquarters for such noted varieties as Holland, Luxemburg, Blue Fottlers and Faultless, and the excellent reputation of Leonard's strains of cabbage seeds is known wherever cabbages are raised.

Sure Head (Genuine).....	Chintz	1 50
Premium Flat Dutch.....	Chemic	85

LEONARD FAULTLESS.

This variety is the best of the early flat-headed sorts. It follows the early summer very closely in season, but makes a larger, firmer head, and is suitable for an all-purpose variety. It is superior to *All Seasons* or *Succession*, is one of the best for kraut, while its shipping qualities are unsurpassed.

THE ROCKY FORD MUSKMELON.

This new muskmelon originated with the melon growers in the vicinity of Rocky Ford, Colo. The melons grown by them are so fine in quality as to outsell all others, and the demand for such melons has been far beyond the supply. This melon finds a ready sale in every market of this country. In general appearance and size the Rocky Ford resembles the Netted Gem. Per pound, 50 cents.

THE PAUL ROSE MELON.

This new muskmelon is a cross between the Netted Gem and the Osage, which two are probably the most valuable melons in cultivation.

In a letter dated Nov. 15, 1897, Mr. Paul Rose says: "I have found in my experience of nearly twenty years in melon growing, that there is an increasing demand in most of the large cities of the northern states for salmon fleshed melons, and further, that the trade prefer their melons in the half-bushel Climax basket." There you have the whole story in a nut shell.

SALMON FLESHED AND BASKET SIZE.

Add to these essential points exceeding sweetness and solid texture of flesh, combined with the best shipping qualities, and you have a melon such as every shipper longs for.

ONION SEED.

LEONARD'S ONION SEED is endorsed by market gardeners everywhere. Each year adds to its popularity with them. This is the surest indication of merit.

LEONARD'S YELLOW GLOBE.

The above is one of the best strains for main crop. It forms a large sound bulb; has a small neck, dries down uniformly, and is an excellent keeper. For price, see below. The seed we offer of this is of our own growing.

SWEET PEAS.

New, Large-Flowering Varieties.

If you want *good, pure Sweet Peas* of the *best* varieties, rest assured that we can supply you at the *most reasonable prices*. We have grown most carefully for this season's use a vast quantity of seed which for purity will rank at the top. Large quantities of poorly grown Sweet Peas are offered this season at low figures, which seed cannot but disgust the grower. The difference in the good grades and the very poor will not warrant any grower of running any risk. Be sure and start right by securing first-class seed.

PER LB.

KATHARINE
TRACY.

Largest and finest
Pink. Color is a soft pink throughout. A large, perfect flower of much substance. Stands the hot weather without wilting or fading, as most delicate pinks do, but retains its brilliant color.

Per lb.....\$0 25

ECKFORD'S HYBRIDS
MIXED.

This mixture is made up of the best of the Eckford's large flowering varieties.

Per lb.....\$0 25

CHOICE MIXED.

This mixture is made up of all sorts, new and old, and is very fine. The brighter and lighter colors will lead and make a fine display.

Per lb.....\$0 20 KATHARINE TRACY.

OUR 1900 MIXTURE.

Made up of only the newer and best large flowering varieties; all choice sorts that have been grown separate, and so mixed that the colors will make a most brilliant show. NONE better at any price.

Per lb.....\$0 25

View of the ruins of Leonard's Lake St. Warehouse, destroyed by fire on November 1, 1899.

The above scene represents a disaster so overwhelming as to seem almost incredible. Besides the seeds, of which such large quantities were lost, there is distributed in that debris and lost to the world more **ONION SETS** probably than were ever before warehoused under one roof.

S. F. LEONARD
