SPRINGFIELD SEED COMPANY'S

Wholesale Price List

Springfield Seed Company's Improved Late Flat Dutch,

FOR

**Market Gardeners,
Truckers, Shippers and Large Planters.**

1903

Market Gardeners.

WE issue this catalogue especially for Market Gardeners, Truckers and large planters, and in naming prices herein have taken into consideration the large quantity usually purchased by this class of trade. We do not hesitate to say that these prices are low, probably lower than they should be considering the short crop and scarcity of some items of seeds this season. These circumstances make it rather hard to secure seed stock of the usually high quality. We have reserved for the grower of vegetables for the market the very cream of our large assortment of seeds which will be handled by expert hands and we will give you every assurance of high grade stock should you entrust to us the responsibility of filling your order for the coming spring. We do not hesitate to say that in all our experience we have never known as great a shortage as exists this season in some varieties of beans, peas, sweet corn, cucumber, muskmelon, tomato and turnip. We are obliged to quote these prices subject to change without notice, but will assure our friends that at least all early orders will be filled at prices quoted. Locally we wish to congratulate our gardener friends on their prosperity the past season and with the prospects that will naturally follow the building of a new railroad through this section gardeners products should be in more active demand than for several seasons past. We believe the heavy planters this season will indeed prosper.

**SPRINGFIELD SEED COMPANY,
SPRINGFIELD, MISSOURI.**

We aim to send out only such goods as will give entire satisfaction, to the best of our belief; however, success with seeds is largely dependent on outside influences, therefore, it must be expressly understood that Springfield Seed Company give no warranty, expressed or implied, as to description, quality, productiveness or any other matter connected with the goods we send out, and will not be in any way responsible for the crop. On these terms your orders are carefully filled with our choicest seeds.

SPRINGFIELD SEED COMPANY.

WHOLESALE PRICE LIST

As good as the best.

Better than the rest.

Carter's Premium Gem , for general planting x.....	15c	25c	1.75	6.25

Use the Springfield Seed Company's Special Potato Grower Fertilizer, it will help to lift your mortgage, as the Fertilizer will double your crop with an investment of about \$2.50 to the acre; it will fill your pockets. Every Potato raiser and market gardener should give this fertilizer a fair trial. Price per 100 lbs. \$1.50.

Judging from all reports there will be a great shortage in a number of varieties of Seeds such as Sweet Corn, Cucumber, Beans, Water Melon, Musk Melon, Squash, Pumpkin and Tomatoes, and prices will be a great deal higher than usual; we would therefore advise you to place your orders early, as you will save money by doing so.

PEAS—Second early and late sorts.

THE NEW TURNIP RADISH.

Crimson Giant Forcing.

Crimson Giant Forcing Radish.

This new variety has been introduced by a leading seed merchant in Germany. It is an entirely new type and differs radically from all the varieties hitherto in cultivation, in so far as its roots attain more than double the size of those of other forcing varieties, without getting pithy or hollow. The new Giant Radish develops roots of six to seven inches in circumference and over an ounce in weight, their pure white flesh remaining firm and crisp and of the mildest flavor. But notwithstanding the extraordinary size and weight of its bulbs, it is second to none as a forcing variety. We can recommend this new variety as an article of undoubted excellence. It will soon become widely popular and is certain to take a leading place among the standard varieties of Radish, both for the market and the private garden. Price in packet only 20c. each.

CHUFAS, or EARTH ALMOND.

Chufas.

A nice little ground nut that is greatly liked by the children. In sweetness and flavor they resemble the cocoanut or almond and are considered very nice put on the table in a fruit dish with candies, and as an after dinner relish. Very prolific, a single one yielding from two to four hundred. The nuts grow underground, very near the surface, easily reached by poultry, and destroyed by them if they have free access. Plant in April, ten inches apart in two and one-half foot rows. Cover them lightly. If the seed is very dry, soak them well before planting. Pkt., 5c, oz., 10; $\frac{1}{4}$ lb., 20c; lb., 50c.
