Company's

Wholesale Price List

OF

SEEDS
ETC.

Garden Seeds.

TERMS OF SALE—JUNE 1st, 1903.

Subject to Demand Draft WHEN DUE.

FIVE PER CENT. for spot cash or a discount of one per cent per month allowed for unexpired time.

We have never sold seeds on commission from the fact that commission seeds are of necessity apt to be old and dead. Our seeds must be fresh and grown during the preceding season. Commission seeds frequently wander around over the country for years before being sold. By keeping clear of commission seeds and handling only carefully tested stocks we have made our business what it is.

All Prices Subject to Change Without Notice.

On account of the unprecedented shortage on such seeds as Peas, Beans, Corn, Cucumber, Muskmelon, Tomato and Turnip we are obliged to quote prices herein subject to change without notice. We are facing the greatest shortage of seeds experienced in years due largely to heavy rains and wet weather at the time seed crops were maturing and during harvest. Prices are advancing almost daily on staple varieties of garden seeds, but we will fill your order at prices named herein if placed immediately. Orders that come in later will be filled at lowest possible price the day they are received.

We thank our old customers and friends for past favors and beg a continuance. If we have not numbered you among our many customers would be glad indeed to serve you this season and will assure you of the best seeds that are grown and prices that are in line with any reliable competition.

We aim to send out only such goods as will give entire satisfaction, to the best of our belief; however, success with seeds is largely dependent on outside influences, therefore, it must be expressly understood that Springfield Seed Company give no warranty, expressed or implied, as to description, quality, productiveness or any other matter connected with the goods we send out, and will not be in any way responsible for the crop. On these terms your orders are carefully filled with our choicest seeds.

Carter's Premium Gem, for general planting..... x	6.25

Use the Springfield Seed Company's Special Potato Grower Fertilizer, it will help to lift your mortgage, as the Fertilizer will double your crop with an investment of about \$2.50 to the acre; it will fill your pockets. Every Potato raiser and market gardener should give this fertilizer a fair trial. Price per 100 lbs. \$1.50.

Judging from all reports there will be a great shortage in a number of varieties of Seeds such as Sweet Corn, Cucumber, Beans, Water Melon, Musk Melon, Squash, Pumpkin and Tomatoes, and prices will be a great deal higher than usual; we would therefore advise you to place your orders early, as you will save money by doing so.

Crimson Giant Forcing Radish.

THE NEW TURNIP RADISH.

Crimson Giant Forcing.

This new variety has been introduced by a leading seed merchant in Germany. It is an entirely new type and differs radically from all the varieties hitherto in cultivation, in so far as its roots attain more than double the size of those of other forcing varieties, without getting pithy or hollow. The new Giant Radish develops roots of six to seven inches in circumference and over an ounce in weight, their pure white flesh remaining firm and crisp and of the mildest flavor. But notwithstanding the extraordinary size and weight of its bulbs, it is second to none as a forcing variety. We can recommend this new variety as an article of undoubted excellence. It will soon become widely popular and is certain to take a leading place among the standard varieties of Radish, both for the market and the private garden. Price in packet only 20c. each.

Chufas.

CHUFAS, or EARTH ALMOND.

A nice little ground nut that is greatly liked by the children. In sweetness and flavor they resemble the cocoanut or almond and are considered very nice on the table in a fruit dish with candies, and as an after dinner relish. Very prolific, a single one yielding from two to four hundred. The nuts grow underground, very near the surface, easily reached by poultry, and destroyed by them if they have free access. Plant in April, ten inches apart in two and one-half foot rows. Cover them lightly. If the seed is very dry, soak them well before planting. Pkt., 5c, oz., 10; $\frac{1}{4}$ lb., 20c; lb., 50c.

THE ONLY WAY

To Handle Garden Seeds.

When we say the only way to handle garden seeds we mean the only successful up-to-date manner in which to handle this branch of your business and get your portion of the trade and then some. If you wish to make a run on garden seeds sell our packets at 2 1-2c per packet, less than your competitor pays for commission seeds and make more money. We supply you with retail catalogue, advertising matter, lithographs, etc., free. A 500 packet case costs you \$7.50. Retail price at 2 1-2c per packet or \$12.50 for the case a net profit of \$5.00 on an investment of \$7.50 or if you wish to sell these seeds at 5c per packet they net you \$17.50. We also pack 1000 to the case costing you net \$15.00. We use handsome finished lithographed cases for which we make no charge. You simply pay 1 1-2c per packet **net** for the seeds. Remember these packets are full weight and we pack nothing but tested stock. Sale is outright, bill due the first of June, but to protect you against loss we destroy all packets that are not good for the following season's trade and replace same free of charge. Try at least a 500 case and hand us your order at once that we may get the seeds to you in plenty of time for your spring trade. It is advisable to get these cases in and opened up early that your trade may see that you have a good thing to offer them when planting time commences. It is an admitted fact that the time of the old fashioned commission box is rapidly passing. We give you an assortment which contains the most staple sellers, but assortment may be changed to suit purchaser.
