TELEGRAPHIC CIPHER

By using the following telegraphic words for weights and measures, in connection with the telegraphic cipher attached to each article in this list, our customers will be able to wire at a small cost. Be sure that the telegraphic word for *quantities* always *precedes* the cipher word for the kind of seed wanted; but if the same quantity of several kinds is wanted, the word for that quantity need only be placed before the first article needed. We give an example:

"Express Quanrush Thrum Throne Tillage Tinkle"

Means "Ship by first express ten pounds each of Early White Flat Dutch, Cow Horn or Long White, Large Red Top Norfolk and Pomeranean White Globe Turnip."

"Freight Quarado Baneful Betroth Bibac"

Means "Ship by first freight fifty bushels each of Early Improved Red Valentine, Prolific German Black Wax and Scarlet Flageolet Wax Beans."

"Quote Quarado Baneful Betroth Bibac"

Means "Name your lowest prices on fifty bushels each Early Improved Red Valentine, Prolific German Black Wax and Scarlet Flageolet Wax Beans."

THE
WELL KNOWN
BRAND.

ENDORSED
BY
MARKET
GARDENERS

OUR REPUTATION has been built up by furnishing seeds of the best quality as to purity and germination, and we shall always endeavor to furnish THE BEST SEEDS that can be procured, and make prices as reasonable as possible.

Our New Location.

OUR
FACILITIES
ARE BETTER
THAN EVER.

We have removed our headquarters to the corner of Kinzie and Franklin streets, across from the baggage room of the Chicago & Northwestern railroad station. This is one of the most convenient locations in Chicago for our out-of-town and suburban customers. We are the largest garden seed dealers in Chicago, the largest wholesale growers, and have the largest market garden trade. Our warehouse is, and for many years has been, among the largest and best equipped cleaning and sorting garden seed establishments in the trade.

AS GROWERS
WE RANK
IN THE
FRONT.

MANY SEED CROPS WERE SHORT THE PAST SEASON.

As a consequence some of the varieties are high in price. Sweet Corn is especially short. We are fortunate in having secured some excellent Sweet Corn stocks, both as to type and germinating quality, and as long as stock lasts orders for corn will be filled. In general, our supply of the different varieties of standard stocks is sufficient for normal demands, but we urge early orders, as shortages elsewhere are likely to deplete stocks quickly.

Not bound by these prices for any definite time or quantity, and subject to advance without notice.

Prices quoted are f. o. b. Chicago. Bags, boxes and barrels, to insure safe transportation, are charged for at cost. Proportionately higher prices will be charged for quantities less than one-quarter pound or one-quarter bushel.

TERMS: Garden Seeds, Net Cash, June 1st, 1904, without regard to date of purchase, or a discount of 1 per cent per month for unexpired time if paid before maturity.

Grass seeds, potatoes, field seeds, onion sets and sunflower, net cash, without any time or discount whatever.

Our telegraph code is the one adopted by the American Seed Trade Association.

While we exercise great care to have all seeds pure and reliable, we sell no seeds with warranty expressed or implied in any respect, and are not in any way responsible for the crop. If the purchaser does not accept the seeds on these terms, they must be returned at once.

Early Jersey Wakefield.

EARLY JERSEY WAKE-
FIELD CABBAGE.

This is one of the most important varieties in the list. Great care must be exercised in the growing of the seed to have it pure and true to type. We give especial attention to the growing of our Wakefield stock, and its uniform excellence is a source of gratification to us. Our home gardeners are among the most critical buyers of cabbage seed in this country, and the fact that our stock suits them better than any other they can get gives assurance that it is what it should be.

**LEONARD'S
FAULTLESS.**

The product of this seed out-sells any other second early cabbage two to one on the home market.

It is popular alike with the grocer, kraut-maker and shipper, and for the home garden is the variety above all others for either early or late. It can be had ready for table use shortly after the earliest pointed head variety, and can be planted late enough to be used as a fall and winter cabbage as well.

The best all purpose cabbage ever introduced. For prices see page 8.

ONION SEED.

Leonard's Onion Seed is endorsed by market gardeners everywhere. Each year adds to its popularity with them. This is the surest indication of merit.

Leonard's Yellow Globe.

We have three special stocks of Globe onions: **Leonard's Yellow Globe**, **Leonard's Red Globe** and **Leonard's White Globe**. We have also a special stock of Flat Yellow which we call **Leonard's Early Yellow Cracker**. These stocks are grown principally to meet the requirements of critical gardeners and those who make onion growing a specialty. These onions are superior strains, grown from bulbs selected each year for perfection of type and color. The additional cost of the seed is more than made up for in the uniformity of the crop. As the seed of these special strains is grown by ourselves here at home, the quantity we harvest is necessarily limited. Quotations for these stocks will be found in their proper order in the list.

SWEET PEAS.

NEW, LARGE FLOWERING VARIETIES.

If you want *good, pure Sweet Peas* of the *best* varieties, rest assured that we can supply you at the *most reasonable prices*. We have grown most carefully for this season's use a vast quantity of seed which for purity will rank at the top. Large quantities of poorly grown Sweet Peas are offered this season at low figures, which seed cannot but disgust the grower. The difference in the good grades and the very poor will not warrant any grower of running any risk. Be sure and start right by securing first-class seed.
