I thank You Friends one and all, for your liberal patronage and especially for your kind words. I only wish I deserved them more. I KNOW it is my earnest desire to prove myself worthy of your confidence. With many thanks and best wishes,

To My Friends and Customers.

Dear Friends:—I am a Farmer's Son and followed the plow for years. My ancestors were Quakers—all Farmers from time immemorial. I grew up on the farm—among Farmers and Gardeners in fertile Dutchess Co., and early indeed did I learn this truth, that **HIGH GRADE, SELECTED** seeds were **ABSOLUTELY NECESSARY** for the best

success. I have followed Seed-Growing and Seed-Selling for 25 years. It has been my sole life's work and I think I know my business. I am proud to say I am **NOT** a "City Seedsman."

I am situated on the banks of the beautiful Hudson River—right among expert Farmers and Gardeners. I have the very best mailing facilities—seven mails each way every day.

Promptness is my motto. I aim to fill every order the same day received. I give you **GOOD** measure in **GOOD** seeds. I am positive I can give **FAR BETTER** Premiums, better Discounts, and many more "Extras" than you would get elsewhere. There is a good reason for this. ~~For~~ Your money does **NOT** go to pay for bulky, flashy catalogs, expensive city clerks, and costly advertising. I put the real value **INSIDE** my seed packets.

I **PERSONALLY** invite everyone to get up clubs. No one should overlook the opportunities I offer for making money. Remember I **GIVE** my customers what others **PAY** for advertising.

DEAR FRIENDS. I thank you one and all for your orders, for the clubs you have sent, and most of all for your kind words. I am glad to know I have made some homes brighter, and some hearts glad. My business shows—in its tremendous increase—that my seeds and my earnest efforts to please, have both been a success, and are fully appreciated by those who **KNOW** what good seeds are.

Your Friend, A. T. Cook.

Special to All. In response to many requests, I insert my portrait in my catalog. I wish to say I will be much pleased to receive Photos of any of my customers—or of their homes, scenery, etc.—when they send in their orders. I carefully preserve all, and treasure them most highly. I will add **VERY LIBERALLY** of seeds to orders of those thus favoring me, and will remember them further at some future time. ~~For~~ Be sure and write your name and address on back of all Photos. Thanking you in advance, and with best wishes. Yours Kindly, **A. T. COOK.**

WE CAN NEVER BE TOO CAREFUL WHAT THE SEED OUR HANDS SHALL SOW;
LOVE FROM LOVE IS SURE TO RIPEN, HATE FROM HATE IS SURE TO GROW,

BUT A GLAD OR GRIEVOUS FRUITAGE WAITS US AT THE HARVEST DAY.

IMPORTANT TO YOU. READ EVERY WORD CAREFULLY.

Questions Answered, Instructions to Club Agents, Etc.

Questions Answered. Friends:—This Catalog contains full particulars of my seed business. Everything is explained in regard to my seeds, Premiums, extras, discounts, getting up clubs, sending remittance, etc., etc. Read especially 2nd, 3rd, and middle pages, Order Sheet, etc.

You will find everything plain, and the greatest bargains you ever heard of. You can make no mistake—so go right ahead and send in your own—or a club order, and select the Premium you wish. (Or if you prefer the cash discount instead of a premium, deduct one-third from the regular catalog price for your share.)

Remittance Must accompany each and every order. I keep no books or book-keeper.

I Never sell on credit or commission, or C. O. D. Please don't ask it. Its an Old Foggy plan anyway.

No One can give half as good bargains as I do and do business such an expensive way.

If You Have no money, get a friend to advance some for a few days—(till the seeds are delivered.)

The Premiums or Discounts are on **EVERYTHING** offered, and Extras are always added.

All my Selected, High Grade Seeds are sold in large packets only—never in bulk.

I am a Specialist, and do not catalog the hundreds of worthless sorts. It don't pay to grow them.

I Can only furnish the seeds, etc., offered in my catalog. They are the very best that grow.

No Seeds are ever returned. My seeds are always fresh and new—best quality, sure to grow.

This Catalog contains my **BEST** and **ONLY** terms. They were never equaled by any seedsman.

When Premiums are wanted, full catalog price must be paid.

No Tobacco seed sold. I do not believe it right to grow the vile stuff, to use it, or sell it.

I Never sell my Premiums, but give them free for orders. Anyone can obtain them.

All Seeds are put up in large, handsome packets, with full directions for planting, etc.

Novelties and Extras I give with orders are **ALWAYS** my own selection.

Club-Raisers. Be sure and promise the Extras to your customers, for it will double your sales.

No Order filled for less than quantity stated. No 5c. packets of the 10c. varieties.

Seeds Are all tested, and known to be extra quality. If any fail to please, they will be replaced free.

Club raising is very easy. Your own order and your parents—count same as any.

If No Premium is ordered (or discount taken) I always send 50c. worth Additional in Extras on each \$1.

Important. Please write plainly with ink, and give name and address every time.

ORDERS FILLED PROMPTLY. Orders are always filled with great promptness, but are sometimes delayed a few days in the mails. Don't be in too much haste to complain. Wait a little, and before you write ask your Postmaster to look well for your package, as they are often too large for the boxes and may be laid one side and overlooked. If necessary to write be sure and state **WHAT** you ordered, **WHEN**, also **AMOUNT**, and in **WHAT WAY** you remitted, so it can be traced.

LITTLE THINGS. Sign your name and address to every order. I have orders I cannot fill because I cannot **GUESS** where they go. Write plainly with ink, it may save mistakes. Don't cut up your Catalog; they cost money. Give the extra one to your friend.

ALL CLUB ORDERS are sent direct to Agents. Put your name and address only on the order to save mistakes. (Should you wish part mailed to distant Postoffices, write such orders, name, and address, each on A SEPERATE SHEET.) \$3.00 clubs and under for premiums must be in one order. Larger clubs may be sent in two orders if necessary—but be sure and say in

the first order that you are working for a premium. A **HINT.** Many Club Agents offer to take eggs, etc., in payment when parties have no money—and thus largely increase their orders. These are sold for cash at any grocery store. Try it.

MISTAKES. With all my care I sometimes make mistakes; so does every one. I earnestly desire to correct every one here in this life—for I can never return to do it. If everything is not right please do me the kindness to write and explain—pleasantly if you can, but write anyway. You run no risks.

IMPORTANT TO ALL. Three packets for 25 cts. may be ordered of any 10c. variety—even when a premium or regular discount is taken. **Club Agents**—be sure and mention this when taking orders.

TO CANADA CUSTOMERS. I have a host of Canada customers who have found my extremely early, hardy varieties admirably suited to their short seasons—producing the most bountiful crops. I send everything by mail, fully prepaid, but do not pay duty which is sometimes required on some of the goods. This however if any—will be but little. **I** always add free, enough Premiums and Extras to pay this several times over. I **PREFER** remittance by Money Order—or Bills—but will accept Canada stamps.

ON EVERYTHING. My Premiums or Discounts are on **EVERYTHING OFFERED.** No other Seedsman does this. No other Seedsman gives as liberal premiums, or as big Discounts—or as large packets—or as many Novelties and Extras free as I do. **THIS IS MY WAY** of advertising, and I **KNOW MY FRIENDS** who get the benefit **WILL HELP ME**—as they always have.

Money Made, or Useful Premiums Earned Easily and Quickly.

Few Indeed who have not tried it have any idea how easy, pleasant and profitable it is to get up clubs for my seeds. You know your friends and nabors all buy seeds every year of some one, and they will be only too glad to give you their orders if you will but ask them. Many desire to earn "pin money" and surely there never was an easier or pleasanter way than this to get pin money in abundance. Many thousand send me clubs every year. You can do as well. All who try are absolutely sure of earning big wages or securing valuable Premiums free of cost. **NOW** is the time to get up your club. Please take this catalog and beg in at once to take orders.

Cash Discounts. If you are working for CASH you may keep **ONE-THIRD** on all the orders you get (sending me but \$1.00 for \$1.50 worth—\$2.00 for \$3.00 worth, etc.) This extraordinary discount, which is greater than given by any other seedsman, covers **EVERYTHING** offered in my catalog and circulars. Remember this. If you cannot raise a club, kindly tell some one who can. Any one should easily obtain \$5.00 to \$20.00 in orders a day and one-third is clear profit.

Premiums. Many club-raisers prefer Premiums. My terms are equally liberal here. I give elegant Watches, Fountain Pens, Talking Machines, Stereo-

scopes, Cameras, Sewing Machines, etc.—all of extra quality—for small clubs. See particulars elsewhere.

BOYS AND GIRLS are among my most successful club-raisers. They always do well if they try. I sent them over 1,000 of my beautiful watches last year, besides many other premiums, to their great delight. Parents everywhere should encourage their children to get up clubs, for nothing could benefit them more than such practical business lessons. Give them your own order to start with.

MY PREMIUMS are all fully guaranteed. Many wonder how I can give such extremely valuable ones for small orders. It is done to advertise my gilt edge seeds, of course, and my customers get the benefit. I had rather give it to my friends than pay it to the newspapers. This is the whole secret.

I Will Look for a large club from you—but send a club anyway, no matter how small. My packets are so large and well filled, I give so many extras, and price is so low, that your success must be certain.

If You Wish more catalogs to distribute, I will send them gladly, and help you all I can; write for all you can use. I will look for your club; please do not disappoint me. With best wishes for your success I am,
Sincerely Yours, A. T. COOK.

Specialties, Novelties, and Improved Varieties.

The following pages contain THE CREAM of all the varieties known to the American Seed Trade. They have been mostly grown and fully tested by me—as well as other critical gardeners in all sections of the country, and found to possess great value and merit.

I do not indulge in extravagant illustrations and descriptions, but desire above all that my catalog be plain, truthful, and honest; that my kind customers may not be deceived.

New Domestic Coffee Seed.

This makes a delicious, nourishing drink, to take the place of injurious coffee. It is a pure food drink that gives health and great strength to young and old. By all odds the best coffee substitute ever discovered. It has the rich, deep brown color, of old Java. Thousands pronounce it as good as the best store coffee. It is the poor man's friend.

It is the hardest, easiest raised and most productive of any plant I ever saw. While growing it is a perfect sight to behold; fruits from the ground up, and on the limbs in every direction, the pods touching each other. See cut which does not exaggerate its wonderful productivity.

Thousands suffer untold injury from store coffee. Better grow the new kind at one-tenth its cost, and save your health—and \$10, to \$20, every year.

In the south two crops can be raised in a season. It is as easily raised as corn or beans; is cultivated in the same way; does well on all soils.

You can raise your own coffee for one cent a pound. Don't fail to plant a liberal quantity.

Ground and fed to milch cows it makes an abundance of the richest and yellowest butter ever seen. It makes a valuable and cheap poultry food—and is a remarkable egg producer. The Exp. Stations report that it has MORE THAN DOUBLE the feeding value of either corn or wheat, (and also recommend it very highly for coffee.) As a renovator of worn out land there is not a plant in existence that will compare with it.

Full directions on every packet. Prepare like other coffee and you will be surprised and delighted to find how good it is. My seed is GENUINE and true; extra early, and will be sure to ripen even in Canada. It is quite distinct from the late and worthless soya bean that some seedsmen are offering for coffee berry. Buy at Headquarters and avoid disappointment. I am glad to be able to make the following extremely low prices.

Price of Coffee Seed. Large packet 10 cts.: 3 for 25 cts.

I regret I have only room for the following among HUNDREDS of testimonials.

T. Greiner, the noted Author says:—I had rather use the NEW DOMESTIC COFFEE than the real article. It is very pleasing to my taste, and contains true nourishment. I will to use it right along.

B. B. Draughan, Monroe Co. Ala. says:—I am just delighted with your coffee, and send you \$1.00 for more. It is indeed wonderful.

R. E. Green, Mgr. Boise Irrigation Co. of Idaho writes:—I am much pleased with your Domestic Coffee. It is immeasurably superior to the average coffee that people use. It makes a drink fit at least for the lesser Gods. I enclose order for 200 packets.

The Christian Advocate, says:—It is one of the most wonderful discoveries of the age; and comes very near the genuine.

A. I. Root, Pub. says:—The new coffee is a success, and preferable to the real coffee, because I think it more healthful. They will grow on any soil, and make a tremendous yield.

Miss Sarah Wilder, Genesee Co. Mich. writes:—The Coffee is extra good—better than I can buy here. I enclose another order for seeds, and watch as premium.

A. Wells, Washington Co. writes:—It makes fine coffee. I raised 2 crops last summer. I will plant a good lot this season.

Margaret Clark, Noble Co. Ohio, writes:—It is the nearest the genuine coffee of anything I ever tried, and is an enormous yielder. I am more than pleased with it. I have fooled many a visitor who supposed they were drinking real coffee.

Dr. J. M. Ashby, McLennan Co. Tex. writes:—Your new coffee is a great success. I can truthfully say it is better than the best coffee sold here at 30 cts. per lb. It is beyond description. Farmers flocked to see it and clamored for some seed.

BE SURE AND READ THE FOLLOWING FROM

PROF. W. H. MORSE, M. D., F. B. S. Sc.

MR. A. T. COOK, DEAR SIR:—This is to certify that your new Domestic Coffee, upon being tested in the laboratory, evinces a highly nutritious character, a rich flavor, and a remarkably pleasant taste when roasted and pulverized, and treated for a beverage. It comes to the palate as a satisfying drink, fitted to sustain life. When carefully infused and drank hot, it produces an exhilarant effect, but does not fatigue the nerves or cause an unnatural influx of blood to the brain. The new Domestic Coffee Seed should command large favor.

Cabbage, Tomato and Celery plants sell best. Pepper, Cauliflower, Lettuce, and Egg Plant sell good too. Asparagus plants always sell well and bring big prices. (Pansy Plant's ditto.)

You can soon build up a very profitable business in plants if you try, that will increase from year to year. There is everywhere a good demand at paying prices. After you have your early beds all made and planted, and have sent in your club for my seeds, you may go

These may not be as easy as they look. I will send correct answers if you ask for it **WHEN ORDERING SEEDS.**

A. T. Cook, Dear Sir:—I received the Watches all right. They are grand. I showed them to my neighbors and gave them your Catalogs, and FIVE have already got up clubs and received watches. Every one is pleased. Your seeds are O. K. and your Prem. offers beat the band. Yours truly, John Burns, Ont. Co. N. Y.

Miss E. North, Litchfield Co., Conn. writes:—I take much pleasure in getting up clubs. I found friends ready and willing to give me their orders. Your Premiums are grand, and seeds satisfactory in every way.

enough for a family."

I have found this bean a most rampant grower, one plant filling a pole with a mass of vines—densely loaded with luscious beans. I do not claim too much when I say they are more than twice as productive as any other variety in existence. They are a sight worth seeing; a most solid mass of pods from the bottom to top of the pole.

The handsome green pods average 8 or 9 beans to the pod, grow very uniform, about 6 inches long; perfectly stringless, very thick meated, tender, rich and buttery; possess an exquisite flavor when cooked—many calling it without exception the very best bean grown. It is a late variety and continues in bearing so long it might well be called "everbearing." I only offer it in packets, Packet 10 cts. 3 for 25 cts.

BE SURE AND READ THE FOLLOWING.

Mr. A. T. Cook. Your Powell Pole Beans are WONDERFULLY prolific. I never saw anything to compare with them.

From 16 hills we sold \$7.65 worth and had all we could eat. I verily believe the hills would have paid 75 cts. each, had all been sold. You cannot over-recommend this MONEY-MAKER. You should say in your catalog that an ordinary pole will not stand up under the load of beans. We had to prop up nearly every pole. This year will use heavy poles and trellis wire. A. J. Packard, Saco, Me.

S. E. Gwinn, Fayette Co. W. Va. writes:—From 6 vines of the Prolific Beans I sold 3 bushels—a family of 9 eat from them liberally, and there is still a bushel on the vines. I never saw anything to compare with them. All your seeds done well.

Amy Thompson, Gallia Co. O. writes:—I raised 1800 Powell Beans on ONE VINE; which was the greatest yield I ever saw.

Mrs. C. E. Lissford, Kinards, S. C. writes:—From 5 vines we ate beans all summer, and then gathered over one-half gallon of seed. They were the admiration of the neighborhood; I have picked a full mess of beans for dinner, without changing position at the vine. Our summer was dry, but the vines continued green and bearing, while all other kinds of beans dried up; they are the best bean I ever saw grow, and I cannot command words to express the true value of such a garden treasure.

Mr. A. T. Cook. Your Powell beans were the grandest I ever saw.

FROM 5 HILLS WE PICKED 5 BUSHELS. They continued green and bearing long after all other beans were dead. I was greatly pleased with all the seeds, and especially so with the extras.

Mrs. J. J. Steward, Monongalia Co. W. Va.

World Famous Prizetaker Onion.

ITS MILDNESS OF FLAVOR AND TENDERNESS ARE UNEXCELLED EVEN BY THE BERMUDA VARIETIES.

This is without exception, the grandest variety of yellow globe onion grown for our American climate. It is the largest, handsomest, finest flavored, and in every way THE BEST. It is admittedly the LARGEST of all varieties; samples have been grown to the enormous weight of

Over 5 Pounds Each.

With good culture it produces wonderful crops everywhere; one reports "over 1200 bushels per acre;" another says "I grew 180 bushels on exactly one-sixth of an acre."

**Excels in Yield,
Excels in Size,
Excels in Quality,
Excels in Beauty.**

The Prizetaker is easily grown, ripens up hard and firm, is a good keeper, and always brings an extra price. It is a very strong grower, fruit straight, smooth, uniform, and produced in great abundance. It has few seeds, (not one-fourth as many as other sorts) quality excellent, crisp and tender. A very fine pickling variety, and unexcelled for slicing. Every one should grow this remarkable novelty. No variety will equal it for exhibition. It will be a wonder to yourself and all beholders.

CHUFAS, OR EARTH ALMONDS.

These very closely resemble in sweetness and richness of flavor a cocoanut or almond. Children are

very fond of them, and each one should have a chufa patch. They are much grown in the South to fatten swine, poultry, etc. They succeed perfectly at the North, my plants yielding from 300 to 600 fine, large chufas each.

They are a rich and healthy food for poultry of all kinds. Directions for planting, etc., on each packet. Pkt 10 cts.

ARTHUR HORTON, of Ponce, Neb., writes: "The chufas I got of you are all you claim. I raised over a half bushel from one packet. They are delicious eating."

Protect The Birds.

Protect the Birds. Encourage them in every way. They are the Farmer's and Gardener's best friends. They work for us, and sing for us from morning till night. They are God's own messengers of love. They fill our homes, our meadows, and the woods with Heavenly music. Do all you can to encourage them by precept and example. Put up houses for the wrens and blue birds. It will pay. Feed the birds in winter. I feed them every day, and they come from far and near. It is a delight to see them. I am sure no Lady customer of mine will be guilty of the cruelty of wearing birds on their hats, and I earnestly pray that each one will do their utmost to convert others from this barbarous practice. A. T. Cook.

Pops well soon as cured. Ears are 6 to 8 inches long, lined with light colored grains—very handsome. Stalks grow 6 feet high. Prof. With-

erell of Davenport, Iowa says "I selected 10 stalks on my farm with 121 ears, or an average of 12 ears to the stalk; one stalk had 19 ears." Was such a yield ever before heard of? Its popping qualities are remarkable, very large, and delicious flavor; 3 pints will make 1 bushel popped. You can raise 100 bushels of ears on an acre. They always bring good prices. This is well worth looking after. If you have no boys or girls plant a patch yourself and report result.

S. G. CAMPBELL, Tappan, O., writes: Mr. A. T. Cook.—Last Spring I got three packets of Pop Corn from you, and I raised 31-2 bushels, sold 21-2 bushels for \$3.75 have 1-2 bu. to sell yet, and enough left for winter.

W. L. ANDERSON, Ind., says:—Last year I planted 1-4 acre of Pop Corn and husked 36 bushels, a yield of 144 bushels per acre. I sold it for \$1.00 per bushel. The corn required no more labor than common field corn.

such enormous weights, or been awarded as many prizes. Think of it, a single pumpkin weighing 298 lbs. (See Cut.) Is not this the greatest of all pumpkins? In France they have been grown to still greater size, and as many of my customers have as good, rich soil—as highly productive, as any there is in France or anywhere else on the face of the earth, I see no reason why they cannot be grown much larger here. The flesh and skin of this monstrous pumpkin is a bright golden color, very fine grained, and of excellent quality. Notwithstanding its enormous size, it is one of the best pie or table pumpkins ever grown, and is a splendid keeper. I hope all enterprising pumpkin growers will give this variety a trial. Whoever plants a seed beneath the sod,
And waits to see it push away the clod,

MY SUPERIOR SEED is the very best I can grow or get. None are cheaper QUALITY considered. I do not try to compete with foreign trash, or that grown from scallions and refuse of crops. I could sell such for 2 cts. per packet—but they would be dear as a gift. With an experience of 25 years in gardening I know the value of high grade seeds. I have in the past, do now, and always will maintain this high standard.

New Golden Eyed Wax Bush Beans.

THE "NE PLUS ULTRA" OF ALL.

Never in the history of bean culture has so valuable a variety been found as this Golden Wax Bean. If you have not planted it you do not know what the perfec-

tion of beans really is. The pods are long, brittle, and ENTIRELY STRINGLESS; of the richest golden wax color, and borne in the most marvelous profusion.

Its prodigious yielding qualities almost surpasses belief. Deliciously tender, rich and buttery. Unexcelled both as a snap bean and a shell bean for winter use. The plants are extra robust and hardy, grow very uniform, are absolutely healthy—the beans never have been known to rust or blight in the least. This fact alone is of the utmost value and places this famous bean far in advance of others. It stands unique and alone on the pinnacle of perfection. Teach Children to Love Flowers.

Lovers of flowers are lovers of goodness and purity. Teach the boys as well as the girls; they will love their home better, and be more likely to shun the deadly, soul-destroying saloon, and other vices. Surround your cottage with flowers and vines. Let beautiful blossoms greet the eyes on every side, let their fragrance drift in the open doors and windows. It will pay an hundred fold. Flowers are little missionaries sent by God to teach us beauty, purity and innocence. Their influence is always good.

Bonnet or Dishcloth Courd.

A charming climber from Japan. A great curiosity. Has beautiful dark silvery shaded foliage and clusters of large yellow blossoms. Very ornamental. Fruit one to two feet in length.

A natural dishcloth, and a most admirable one is furnished by the peculiar lining of this fruit which is sponge-like, porous, very tough, elastic and durable. Many ladies prefer this dishcloth to any prepared by art. As a substitute for sponges in the bath, and for many other toilet purposes they have no equal. For fancy work they should be gathered before they get fully ripe and dry; the lining then is of a delicate cream color resembling embossed antique lace. Beautiful card baskets, bonnets fans, etc., can be made from it. In the extreme North this variety requires to be started in a hot-bed.

Packet 10 cts., 3 for 25 cts.

The Foot-Path to Peace.

To be glad of life, because it gives you the chance to love and to work and to play and to look up at the stars; to be satisfied with your possessions, but not contented with yourself until you have made the best of them; to despise nothing in the world except falsehood and meanness, and to fear nothing except cowardice; to be governed by your admirations rather than by your disgusts; to covet nothing that is your neighbor's except his kindness of heart and gentleness of manners; to think seldom of your enemies, often of your friends, and every day of Christ; and to spend as much time as you can, with body and with spirit, in God's out-of-doors—these are little guide-posts on the foot-path to peace.

Mr. A. T. Cook:—I am very much pleased with my watches. I gave one to brother. I am only 9 years old and got up my \$6.00 club in one day. Any boy or girl can have a nice watch if they only try. I will get up a much larger club next year. Papa is much pleased with his seeds. J. Lent, Hopewell, N.Y.

Extra Early Purple Top Milan Turnip.

The earliest in cultivation, adapted to spring or fall. It is fully one week earlier than any other sort, and of superior quality. The bulb is flat, medium size, smooth, with a bright purple top; leaves few. The pure ivory-white flesh is of the choicest quality, solid, and fine grained. Very mild and sweet. A good keeper. Of great value to all private and market gardens. Pkt. 10c.

New Golden Honey Watermelon.

A Novelty of Extraordinary Merit.

Decidedly the Very Sweetest of All.

Without doubt one of the best watermelons ever placed before the American public. It is a very early melon. The flesh is of a deep, rich, golden color, and in delicious sweetness and exquisite quality reminds one of honey. In a crop of 20 acres grown especially

for seed, every melon was juicy, melting and delicious. It is of large size for such an extremely early melon, enormously productive, flesh firm, solid and luscious beyond description. Many who fail in growing other melons can succeed with this. No one should fail to plant the Golden Honey in their family gardens. It stands unique and alone. W. Ferrier, Canada, writes:

"Your new Golden Honey Watermelons are simply grand. I never saw their equal. They are the only melons I ever made a success in growing. Your seeds are the best I have ever sown, and your catalog is honest."

Selected seed, pure, packet 20c. 3 for 50c.

Golden Tankard Mangel-Wurtzel Beet.

This is decidedly the finest mangel in cultivation, and best for dairy use. Of very large size, clean and handsome, easily pulled as it grows two-thirds out of the ground; will bear close planting. The flesh is rich golden yellow, exceedingly nutritious. It is early, hardy, and a very heavy cropper. The Golden Tankard has quickly taken the lead of all other varieties. It contains a large percentage of sugar and is much relished by milch cows and sheep. One of the best of keepers. Farmers should give root crops more attention. The wonderful results of feeding roots are plainly seen in the health and condition of the animals, and in the greatly increased yield of milk and rich, golden butter in cows. Do not miss planting a good size patch. It will be dollars in your pocket.

Selected seeds in LARGE PACKETS 5 cts. each, 6 for 25 cts.

Improved Purple Top Yellow Rutabaga.

This variety cannot be too highly recommended, and no sort will produce such handsomely formed roots, or greater yield. It is of the choicest quality, and full of nourishment; very solid, of a beautiful orange color, with a handsome purple top. Will keep all winter and even into the following summer. It is the result of many years of careful selection.

VARIETY IN CULTIVATION.

Packet 5 cts. 6 for 25 cts.

New Early Champion Peanut.

This mammoth new Extra Early Peanut is the crowning triumph of a careful Specialist, and in size, quality and yield will far surpass any other sort. It is a sur-

prising yielder, having produced 100 bushels per acre. It is so early and such a robust grower that good crops have been harvested even in Vermont and Canada. Don't fail to try it—and every boy and girl should have a bed of Peanuts in their garden. Full directions for planting etc. on every packet. Pkt. 10 cts. 3 for 25 cts.

Japanese Nest-Egg Gourd.

This new and beautiful variety, varies in size from a pigeon's egg up to a goose egg, but mostly the size of

hens eggs and so exactly the shape and color, as to almost deceive the eye. The shells are hard and durable, and make the very best nest-eggs, as they neither freeze or crack. The Nest-Egg Gourd is a rapid and desirable climber; quickly covering old sheds or any unsightly object with a mass of green foliage, thickly dotted with beautiful white eggs. Boys you can make lots of money growing this gourd, and selling them to your nabors for nest-eggs. Pkt. 10 cts.

White Plume, Self Blanching Celery.

THE EARLIEST VARIETY.

This is the best of the so called Self Blanching varieties, as it needs but little banking up. Its eating qualities are equal to the best of the older sorts being tender and crisp, solid, and of a pleasing nutty flavor, while its white feather-like foliage places it ahead of all others as a table ornament. More largely grown than any other. If any have failed to grow fine celery, they should try this. Pkt. 10 cts.

Jackson Wonder Bush Lima Bean.

Here is "something new under the sun." A wonder indeed. It is a combination snap and lima (or butter) bean, grows about two feet high, and is immensely pro-

ductive—7 quarts having been grown from 25 seeds. When pods are young they make excellent snap beans, and later are shelled and used same as other limas. Their flavor is very rich and delicious. They are extremely early, and continue in bearing until frost. None but favorable reports have been received. Pkt. 10 cts.

**Early Premium
Gem Peas.**

A superb extra early wrinkled variety of delicious quality. Pods large, long, well filled, and vines marvellously productive, being loaded down with luscious peas. The best, the sweetest, and hardiest of all. Pkt. 10c. 3 for 25c.

New Chartier Radish.

This valuable introduction is far superior to any long variety now in cultivation. In quality and flavor unsurpassed; early, handsome, unusually crisp, tender and juicy; and remains in good condition a long time. Pkt. 5 cents.

J. W. Allbritten, Houston Co, Texas writes:—I raised one Chartier Radish from your seed 17 in. long and 2 1/2 in. in circumference. G. E. Russell, Leon Co, Fla. writes:—I raised one of your Chartier Radishes 2 ft. 9 in. long, and 1 1/2 in. around. I never saw the beat. Your Short Stem Cabbage cannot be excelled. I can say your seeds GROW, and you give more and better seeds than can be had elsewhere.

GOOD NAMES WANTED.

I am always glad to get GOOD names of seed planters, club-agents (who sell anything, etc.), that I may send them my catalog. If you will write me a list of 5 to 10 names and addresses—at your own and other Postoffices [those you think will be most likely to use my seeds or get up clubs] and send it to me ALONG WITH YOUR ORDER—I will remember your kindness when packing same.

Be sure and write plainly, and send names on a separate sheet. With thanks in advance.

Yours Sincerely, A. T. COOK.

My Great Sewing Machine Premium.

Rockcreek, Oregon, Aug. 21, 1901.

A. T. Cook, Dear Sir:—“Last January wife and I got a \$30.00 order for your seeds in 10 days, and received a fine, Drop Head, 6 Drawer Sewing Machine with full set of attachments, as a Premium. It is equal to any of the machines sold around here from \$25.00 to \$45.00 each. We have bought seeds from different firms and find yours good as the best. Yours Truly, Geo. A. Fisher.

This year I give this elegant Sewing Machine free for a \$20.00 order for anything in my catalog. It is the most wonderful bargain ever heard of. Why not get one also?—or assist some poor woman to obtain one? It is yours today! Everything is guaranteed.

Head.

This peerless New Short-Stem Drumhead, combines, to a wonderful degree, all desirable requisites. It has a very short stem and grows very compactly. The heads are EXTRA HARD, SOLID, round, flattened on the top. They grow very uniform in size and shape and present the appearance so well depicted in the above illustration. The heads often attain 20 to 30 pounds in weight, and are always of the finest quality. For reliability of heading, this variety is, from long continued selection, also remarkable. From each 100 plants set out, at least 98 large, solid heads may confidently be expected. I believe this to be the finest Cabbage in existence to-day—the surest grower and header. It will produce a crop even where others fail. Friends, if you order but 3 things from this Catalog I hope one will be this great cabbage. Selected seed, pure and true. Packet 10c., 3 for 25c.

F. B. HALL, Bunker Hill, Maine, writes:—"I raised 10 tons Short Stems from 1,500 plants. Every seed grows. This cabbage is best of all, and a wonderful seller."

DR. J. M. ASHLEY, of Texas, writes:—"Oh, goodness! what cabbage I did make from your Short Stem Drumhead; all that saw them were almost thunderstruck."

MRS. A. M. TREFFRY, Burnside, Canada.—"We never had better vegetables than we grew from your seeds. Our Short Stem Cabbage, after the stems and leaves were taken off, weighed 23 lbs. The Snowball Cauliflower heads were as large as a good sized milk pan. They were a wonder to all beholders."

NORMAN SAMPSON, Walton, Mich.—"Your Short Stem Drum was the best cabbage I ever raised in my life. I have ordered seeds of different seedsmen but none produce like yours, and no one gives so many nice extras."

JOHN A. RUTLEDGE, Pa., says:—"Your Short Stem Cabbage

was the best I ever grew. EVERY ONE made a nice head. The neighbors were surprised, and thought you made a mistake sending them so many extras. They said that every seed grew."

Peace on Earth,
Good Will to All.

SPECIAL TO CABBAGE GROWERS.
ALL of my cabbage seed is grown from Extra, Selected, Solid, Perfect Heads, pure and true. This seed actually costs THREE TIMES as much to grow as that I could buy in the open market, but I am a PRACTICAL GARDENER myself and know the tremendous importance of HIGH GRADE seeds of all kinds—especially of cabbage and I surely intend to offer my friends nothing but the VERY best that can be produced.

"Easy to Get up Clubs"

NEW VARIEGATED POP CORN—Ears Red, White, and Blue Colors Blended.

"Your Variegated Pop Corn beats the world. I grew 3 bus. from one packet of seed. It took the first prize at the Union Fair at Wetherly, Canada."

C. H. JENKS, Buffalo, N. Y.

"Your Variegated Pop Corn took the first prize at our Fair. All your seeds grew well. I thank you ever so much for all the extras." M. JENSEN, Wis.

"Everybody is delighted with the Variegated Pop Corn, and want it to hang in their parlors for ornaments." G. A. BONNELL, Waterloo, N. Y.

"The Variegated Pop Corn is a great novelty, and did splendidly. I will surely plant it for market next spring."

F. BABCOCK, N. H. Co. Conn.

Never before has such a beautiful Pop Corn been offered as this superb variety first introduced by me. Indeed the ears are so handsome they are often used for parlor ornaments. It is VERY EARLY, immensely productive, 3 to 6 ears or more on a stalk, a splendid popper, bursting out very large, white as snow; tender and

delicious. It will produce 100 bushels of ears on an acre. The ears are of good size, and beautifully variegated, bright red, white, and blue colors mixed and blended. Words utterly fail to describe its beauty and attractiveness. It is beyond all comparison the handsomest Pop Corn ever seen, and will be sure to secure prizes at your Fair. Boys and Girls, as well as older ones, can get a nice income growing this corn for market. It is a real money-maker, and always sells at fancy prices. Plant a good sized patch and take my word there is big money in it, and I want you to get your share.

Miss Helen Dornback of San Leandro, Cal.—whose portrait is shown—writes:—“The most beautiful little silver watch I have ever seen or hoped to own, came to be my Valentine on the 14th of Feb. Mr. Cook you do not praise it enough. Three times already I have been offered \$5.00 for it,—but it is not for sale. Every one envies me, and all want to borrow it. It keeps perfect time. All in the club are delighted with their seeds.

I want to send you another \$6.00 order, and earn a watch for a dear friend. I will always speak a good word for you. Many thanks for the lovely extras. All your seeds have been excellent. The Pansies and Phlox were lovely. Everything grew—the Chufas, Gourds, Pop-corn, Celery, Vegetable Peaches, and Cabbage all flourished finely. One Sunflower head measured 65 in. around. I am proud of my success forming clubs. Thanking you very, very much for the beautiful watch, many extras, and mostly for your honesty, I remain,
Your Friend, Helen Dornback.

I Want Everyone to Know

and remember—that I give MY Customers and Club-Agents what others pay for cumbersome, painted catalogs, city help and extravagant advertising. I know seed-buyers will appreciate my efforts—for they get the benefit. I am prepared for a greater “landslide” of orders than ever before. Let them come. The seeds are ready and Premiums waiting.

New Winter Pineapple Muskmelon.

The Winter Pineapple differs from all other muskmelons in shape and appearance of the fruit and its wonderful keeping qualities. The melons weigh from 8 to 12 lbs. each. It is a most valuable novelty. These

splendid melons do not ripen on the vines like other muskmelons, but have to be picked in a green state, before frost, laid away in a cool, dry place where they will keep sound and sweet for several months. When wanted for use bring them in a warm room, where they will ripen in a few days and be ready to eat.

The flesh is unusually thick, solid, and melting; a light green color and has the most delightful flavor imaginable, being rich, spicy, and delicious, with an agreeable pineapple taste.

The Artist, (Mr. Blanc, of Phila.) who has made engravings of, and tasted nearly all the new melons introduced in the past ten years, says "Winter Pineapple is decidedly the finest flavored muskmelon I have ever eaten." Large Packet 10 cts., 3 for 25 cts.

Everblooming Petunias.

ALSO AN ELEGANT POT PLANT.

I desire to call attention to these entrancingly lovely flowers. They are a superb mixture of wondrous beauty—over 40 varieties. They comprise an endless assortment of colors, shades, and markings. The Petunia is the "Peoples Flower." They will bloom in a month or so after planting, and will continue to produce a perfect cloud of brilliant blossoms until hard frost. No one who loves flowers should fail to plant them. Pkt. 10c. 3 for 25c.

Mr. A. T. Cook:—Your Petunias were a perfect delight all the summer long. The blossoms were immense, and of the most beautiful tints. In the fall they were taken into the house, and they have bloomed continuously all winter. Mrs. C. C. ALFORD, Mass.

FLOWERS.

"God might have made the earth bring
Enough for great and small, [forth
The oak-tree and the cedar-tree,
Without a flower at all.

He might have made enough, enough
For every want of ours,
For luxury, medicine, and toil,
And yet have made no flowers.

Our outward life requires them not,
Then wherefore had they birth?
To minister delight to man,
To beautify the earth!

To comfort man—to whisper hope
Where'er his faith is dim,
For He who careth for the flowers
Will care much more for him!

This Pumpkin is of medium size, pear shaped, flesh thick, creamy white, fine grained, dry, and of most excellent flavor. Hardy, productive, a good keeper. The best variety for pies, and equal to many squashes for cooking. **Pumpkin.** Packet 5 cts.

From Prof. W. H. Morse M. D., F. B. S. C.

Westfield, N. J. Feb. 13th, 1903.

My Dear A(lways) T(rue) Cook, Your Honest Catalog has come again. Every year adds to my faith in Cook's Seeds. Those Vegetable Peaches, Domestic Coffee, and Cinnamon Vines were more wonderful, more pleasing, and more fascinating than ever.

The Cinnamon Vine was the marvel of the city; and the peaches and coffee not only gave large crops, but attracted the attention of the whole section. All other seeds did well.

The Perfection Parsnips, which came to my table for dinner to-day deserve especial mention. In more than a quarter-century's experience with experimental gardens, nothing in the way of seeds has ever pleased me more, and if it will do you any good you can say that Cook, and his seeds are guaranteed by me.

Fraternally and Sincerely Yours,
W. H. Morse, Agr'l. Chemist.

A gem among radishes. It has won golden opinions in all sections of the country. The illustration is perfect from nature, and will give some idea of their great beauty. It is absolutely the earliest radish in cultivation; their shape is perfectly globular, with rich, deep scarlet top; equally desirable for the market or home garden. My sales of this famous variety double every year. No other radish can compare with it for earliness, tenderness, and delicious quality. I plant no other for my own table. Packet 10 cts. 3 for 25 cts.

THE PEOPLES FAVORITE, FRAGRANT FLOWER.

My famous gilt edge mixture contains all of Eckford's finest hybrids and many others—over 100 in all. They are the very best quality, largest size, brightest colors, and delightfully fragrant. Giant Pascal Celery.

This is without doubt the best general purpose celery ever introduced. It is everywhere a success. The stalks are remarkably large thick and solid: entirely stringless with a golden heart, very crisp and brittle, rich, nutty flavor. It blanches VERY EASILY and quickly, requiring but little earthing up; a most vigorous grower—succeeding well under almost all conditions. It seldom rusts or rots and is most excellent for shipping. Every market and private gardener should grow it largely. Celery and Celery Plants are money crops. Almost incredible profits are often realized from a small piece of land.

Plant the Giant Pascal and White Plume and your success will be sure. Selected seed per pkt. 10c. 3 for 25c.

"The Best Squash in the World."

summer, fall and winter. Some Faxons are pale yellow, while others are green, mottled, etc., in fact it is a curious admixture of many sizes, shapes and colors. This is a characteristic of the squash. The flesh is deep orange cavity small. Nothing excels it for pies. I consider the Faxon decidedly the best of all squashes. Many who never could eat squashes before consider them delicious. Don't miss the Faxon. It cannot be praised too highly. Every customer will thank me for advising them to try it. Pkt. 10 cts. 3 for 25c.

"There's not a tint that paints the rose,
Or decks the lily fair,
Or streaks the humblest flower that grows,
But God has placed it there."

O Dear! O Dear! we did not plant Cook's seeds this year and what a drefful looking garden we have got. We might have known better than to buy City seeds anyway. We will always buy of A. T. Cook, after this, for his seeds are always good.

Colorado Preserving Citron.

This is quite distinct from the ordinary citron, the seeds being a light green color. It is immensely productive; one vine produced 25 fine melons, weighing from 10 to 30 lbs. each. The flesh is very firm and solid with few seeds, and makes beautiful, clear, transparent preserves of surpassingly fine flavor. Pkt. 5 cts.

Early Snowball Cauliflower.

The earliest, the surest header, the best and most profitable of all cauliflowers. It is hardly necessary to

describe this variety at all, as its name has become a household word wherever this delicious vegetable is grown. Snowball cauliflower is the standard everywhere for superb quality with all market and private gardeners. It is a very compact grower, and is absolutely certain to form a good sized head when the conditions are right; is good the entire season, and is rapidly driving out the latter sorts for fall use. Cauliflowers are

easily raised and every family should grow a supply.

My seed is American grown and very choice.

Packet 15 cts. 2 for 25 cts.

New Palmetto Asparagus.

BEST IN THE WORLD.

This new variety is the finest ever cultivated in this country. After six years trial in nearly all sections, it

is pronounced by all to be far in advance of others. Growing side by side with Conover's Colossal, under exactly the same treatment the Palmetto proves to be at least a week earlier, the stalks are heavier, thicker, and of finer flavor. It is remarkably tender, rich and buttery when cooked, and very free from any tough or woody fiber. Every family should have a supply of this healthful and delicious vegetable, and I am sure all would, if it were known how easily and quickly it is grown.

My seed is genuine "Palmetto," pure and true. Cultural directions on every packet.

Giant Imperial

Japanese Morning Glories.

The greatest novelty of recent years. One hundred varieties and colors. The surpassing charm of these Imperial Japanese Morning Glories lies in the entrancing beauty, gigantic size, and vast number of the flowers; they measure from four to six inches across. The colors, shadings and markings are limitless, and are really wonders of nature, of such incomparable beauty that descriptions are inadequate.

Some flowers are of deep rich velvety tones, others more daintily tinted and shaded than an artist's brush could portray. Nothing introduced has ever created a greater sensation than these rapid-growing free-flowering vines. They are without question the handsomest of a handsome family.

My seed is very choice and carefully selected. Pkt. 10 cts.

Perfection Camera Free for a \$6.00 Order.

A Most Astonishing Bargain—No One Should Overlook It.

Never before has such a large, high grade, practical Camera been offered on such easy terms. It is a superb instrument, and exactly the same as used by Professional Photographers for the highest class of work. It is just the right size, and takes beautiful, clear, sharp pictures $3\frac{1}{2} \times 3\frac{3}{4}$ inches.

It is very simple, very strong and very durable—nothing to get out of order. It is elegantly finished in beautiful seal-grained cover—with handle. The Lenses are achromatic of the HIGHEST GRADE, very expensive, made of both crown and optical flint glass, and set for UNIVERSAL FOCUS—a feature of the greatest value, as it always brings everything in the picture both far and near SHARP, DISTINCT and CLEAR. No cheap camera can use this lens, and many costing \$10.00 to \$20.00 have much inferior ones.

The shutter is simple and practical, and is for both time and snap-shot exposures. The view finder is important and shows you exactly what will show in your picture. Camera uses glass plates, which are best and easiest to handle. Capacity three double plate holders, (six plates.)

Remember this Camera is high grade, and will turn out ABSOLUTELY PERFECT work. It is fully guaranteed in every respect. Its size $4\frac{1}{2} \times 5\frac{1}{2} \times 7\frac{1}{4}$ inches. Dealers sell Cameras inferior to this for more than I ask for seeds and premium both. I send with every Camera 1 Double Plate Holder, and Complete Instructions in Photography—a large, valuable book, with everything so plain that even if you have never taken a picture you can make good photographs from the start.

This Instruction Book is by a Practical Teacher in Photography with 15 years experience. It answers all your questions. Tells you all the secrets, solves all your difficulties, and makes photography easy. It gives dozens of receipts, tells you how to

make developers and solutions, tells you how to avoid all troubles, how to make money in Photography, and a hundred other things, all plain and simple. It is a Book worth many dollars to any one.

I GIVE the above superb Camera, with double Plate Holder and Instruction Book, free for a \$6.00 order for anything in my catalog; all sent by mail promptly and prepaid. You never saw such a bargain. I want 10,000 customers to obtain it, and I especially request that you show it to your friends.

NEW EARLY WHITE VELVET OKRA.

Okra is a fashionable Southern vegetable, of the easiest growth, and matures first season even in the extreme north. Pods are used when young and tender, are excellent for soups, stews, etc., and really delicious when pickled.

The White Velvet is best of all Okras, very early and distinct. The pods are round, smooth, and handsome; much larger than any other

and of superior flavor and tenderness. Very prolific. Why not try Okra this year? You will surely like this splendid new variety. It is one of the good things no one should do without. Packet 5 cts.

NEW EARLY TREE TOMATO.

I think this more nearly resembles a tree than any other. It stands up like a tree, with a stiff, vigorous upright stalk — with fruit well up above the ground. Bears very abundantly, fruit good size, smooth, light red color of super-

NEW CHINESE GIANT PEPPER.

The Chinese Giant is by all odds the largest and finest of Peppers. It is the grandest sort for salads — stuffed for mangoes — or sliced and served like tomatoes. For market are twice as profitable as any other, as they bring such fancy prices. Plants are stocky habit, about 2 feet high, and loaded with enormous fruits. 22 of these gigantic Peppers have been counted on a single plant. They are very mild, sweet as an apple and ripen early. Every one will want to plant it I am certain.

READ THE FOLLOWING FROM THE
EDITOR OF THE RURAL NEW YORKER
TO WHOM A FEW SEEDS WERE SENT FOR TRIAL.

"We grew the Chinese Giant Pepper with much pleasure, and found them veritable monsters. Their highly colored fruit is a pleasant addition to summer salads. The flesh is thick, tender, and sweet, without any burning taste. The plants grew finely, and the immense peppers — often more than 6 inches in diameter and depth make a very handsome show in the garden. The Chinese Giant is earlier than the Ruby King."
