CROTONS.

Aurea Maculata—One of the best golden variegated plants for baskets, vases and bedding. \$3.00 per 100.

CARNATIONS.**NOVELTIES FOR 1904.**

Flamingo—The red Carnation of the year. Must be given the honor of leading all new varieties in public favor. An extraordinarily large and perfect flower, with brightest crimson scarlet color. Has every requirement of the ideal Carnation: size of flower, constitution, freedom of bloom, length of stem and long keeping qualities. \$3.00 per dozen, \$12.00 per 100.

Nelson Fisher (Improved Lawson)—An intense cerise pink, deeper and more solid in color than Lawson, its pollen parent. Will not, perhaps, produce more flowers than Lawson, but will pay out as much or more as its flowers are invariably perfect with strong calyx. Has strong, vigorous constitution and much easier to grow than Lawson. Flowers are high built and average 3 to 3½ inches in diameter. \$3.00 per dozen, \$12.00 per 100.

Indianapolis—The result of a cross between Amazindy and Mrs. F. Joost, which is a guarantee of its floriferousness. A bright clear pink, with long stiff stems. Very early in bloom and continues throughout the season. Size of flower, 3 to 3¾ inches. Round and high built in form, calyx perfect. \$3.00 per dozen, \$12.00 per 100.

Lady Bountiful—Purest white, 3 to 3½ inches in diameter; form perfect for a high grade commercial variety; stem 24 inches and over; stiff and wiry; fragrance spicy, clove-like. An excellent keeper and shipper; an early, free and continuous bloomer and one of the strongest growers and most easily propagated. \$3.00 per dozen, \$12.00 per 100.

CARNATIONS—LEADING VARIETIES.

2½-inch pot plants from selected cuttings.

Stock purchased from us is not to be compared with the rooted cutting stock sent out by many houses, where anything with a root attached is counted as a plant. Our stock is selected in the first place, and carefully sorted and potted up, so that we stand all the loss. Just the stock for late planters or those who wish to plant an extra good grade of Carnations.

Dorothy—A bright, pure pink, deeper than Scott and as great a flower producer as that variety ever was. Has no equal as a keeper, and has proven a money-maker everywhere. Flower nicely fringed. \$3.00 per 100.

Dorothy Whitney—Undoubtedly the best thought of of all yellows. Good sized bloom, good stem and good habit of growth. \$3.00 per 100.

George H. Crane—An excellent free blooming, all season scarlet, grown more extensively than all other reds combined. May be grown to 3-inch flower and stem 15 to 18 inches. Will pay to grow for years yet, as none to date out-bloom it. \$2.50 per 100.

ENCHANTRESS.

Enchantress—A novelty of last season that has made hosts of friends. A beautiful shade of light pink on the Daybreak order, but superior to it in every respect. Most satisfactory grower both in the field and inside. Very early, free and continuous bloomer, producing first grade blooms without special culture. \$6.00 per 100.

Flora Hill—An old-time favorite that seems hard to do without. Probably the most profitable white under all conditions. Grand for late spring and summer as well as in winter season. \$2.50 per 100.

Gov. Roosevelt—Darkest velvety crimson, shaded maroon, one of the best real dark varieties. Blooms are of good size, perfect form, and stem stiff and wiry. We think it has no equal in its color. \$3.00 per 100.

Mrs. Lawson—Deep cerise pink, known the country over as "Lawson shade," all candidates for Carnation honors being compared with "Lawson." Truly a wonderful variety, flowers averaging 3 inches in diameter with excellent habit of growth. Will still be planted extensively for some time to come. \$3.00 per 100.

Mrs. Higginbotham—A good strong, sturdy grower with strong heavy stems 24 inches in length. Blooms average 3 to 3½ inches in diameter, of a delicate salmon pink shade, equal to the best coloring of Daybreak. \$3.50 per 100.

Mrs. George M. Bradt—Still the leader of all fancy varieties, bringing the top-notch price when well grown. Pure white heavily striped with scarlet. \$3.00 per 100.

Prosperity—One of the largest Carnations grown; purest white, overlaid with pink mottles, deepening toward the center. Will pay wherever there is demand for extra good grade flowers. \$3.50 per 100.

Queen Louise—Blooms early, late and all the time; one of the most profitable white varieties. Flowers large on long wiry stems; a clean, vigorous grower. \$3.00 per 100.

White Cloud—Produces an unusually large proportion of perfectly formed, first grade flowers; one of the most nicely rounded full shaped flowers of any Carnation. Gives good stems and continuation of bloom from early till late. \$2.50 per 100.

CHRYSANTHEMUMS.

Novelties in Australian-English 'Mums.

Prize Winners both in this Country and England.
50c each. \$5.00 per dozen. (Unless noted.)

Ben Wells—A monster Japanese, 10 inches across; bluish white, with long narrow florets, slightly reflexed but deep. Midseason.

Cecil Cutts—One of the best of the new commercials. Bright golden yellow, large in size, a perfect incurved variety; elegant stem and foliage; very lasting. Midseason.

F. A. Cobbold—A large, handsome flower, on a strong, stiff stem, elegantly foliaged. Color is mauve pink; very attractive. Fine for exhibition or for general cutting. Won first prize in New York in class of "Ten Pink." Midseason.

Harry Plumridge—Japanese incurved. A handsome waxy white bloom of great depth and width; broad petals, well incurved; very full, fine rounded form, with outer petals curling. A fine grower. Midseason.

Kimberly—Midseason. Clear yellow, a beautiful shade; deep flower, good stem and foliage; a fine commercial variety.

Leila Filkins—Midseason. A lovely shade of pink, fully 7½ inches; habit very stout with fine foliage. Midseason.

Moynell—Color, bright crimson with gold reverse; reflexes till it shows pure crimson. Does not burn. Very large, both deep and broad. Early midseason.

Mrs. White Popham—Blush with broad, channelled, incurving petals. The most popular form to be found. Early midseason.

Wm. Duckham—Early midseason. An easy doer, very lasting either on or off the plant. Without exception the finest pink, of beautiful shape and fine color. A perfect incurved Japanese, measuring on an average 7½ inches in diameter either way. 75c each. \$7.50 per dozen.

New French Red Variety—A good red, of fine incurving Japanese form. Very unusual for its date; October 15th. 25c each.

COL. D. APPLETON.

Col. D. Appleton—One of the finest exhibition yellows. \$4.00 per 100.

Evangeline—Closely incurved pure white. Very good and distinct. \$3.00 per 100.

Edgar Sanders—Dark bronze with broad incurving petals, showing the reverse only. \$4.00 per 100.

F. J. Taggart—A great advance in the "Hairy" or "Ostrich Plume" type; light yellow, very double, with pronounced hairy filament. 8 inches and over in diameter. \$10.00 per 100.

Lavender Queen—Light, soft shade of lavender. Large flowered, outer petals reflexed, center erect. \$3.00 per 100.

Mlle. Marie Lieger—Magnificent shade of pink, a globular incurved with great size and depth, often measuring 18 to 20 inches in circumference. Stem stiff and foliaged from soil to the flower. \$6.00 per 100.

Monrovia—Many good growers claim this as the best early yellow. Good, well foliaged stem of medium height. Flower bright yellow of Japanese incurved type. \$4.00 per 100.

Opah—White, slightly suffused with pink. Cross between Lady Fitzwygram and Marquis de Montmort. Very easily managed and good early. \$4.00 per 100.

Oresco—Decidedly distinct in color, first opening a beautiful apricot, shaded rose; when fully developed a pleasing shade of crushed strawberry. \$4.00 per 100.

Polly Rose—Pure white sport of Glory of Pacific. Good extra early. \$3.00 per 100.

Timothy Eaton—Still champion of all whites. Cannot be dispensed with. Perfect form, stout stem and easily handled. \$3.00 per 100.

White Maud Dean—A good white form of the favorite Maud Dean. Fully as good in form, size and habit. \$5.00 per 100.

Yellow Eaton—All that should be necessary to say of this variety is that it is a good clear yellow form of Timothy Eaton. Makes good exhibition variety and profitable for general cultivation for common trade. If anything, is not quite so coarse in growth as the white form, but is just as easily grown. \$8.00 per 100.

GIANT ORCHID FLOWERED CANNAS.

Mrs. Kate Gray—One of the largest flowered Cannas ever introduced. The result of a cross between Italia and Mad. Crozy. Flower is round and full, of a clear wine color, suffused with gold, and larger than either Austria or Italia. The flowers have a great deal of substance and are very showy and effective. \$5.00 per 100.

Pennsylvania—Very attractive and useful; one of largest flowered and brightest colored. Flowers often measure 6 inches in diameter with single petals 2 or 2½ inches wide. Plant grows 5 to 6 feet high, with its immense spikes of bloom held high above the foliage. Bright scarlet, overlaid slightly with orange. \$5.00 per 100.

Italia—Bright scarlet, with broad golden yellow border. Broad, heavy green foliage. \$3.00 per 100.

Austria—Golden yellow, with faint scarlet markings. \$2.50 per 100.

GRAND FOLIAGE CANNA.

Black Beauty—A grand variety with beautiful foliage as highly colored as a Dracena. A deep bronzy-wine red, almost black. No other plant we know equals it in color of foliage; one of the finest plants for centers of groups or amongst shrubbery where a tall growth is required. Five to six feet. \$7.00 per 100.

HARDY POMPON 'MUMS.

Can supply collection of named varieties, in good assortment of colors, at \$4.00 per 100.

For general planting can supply unnamed varieties in red and white at \$3.00 per 100.

CANNAS.

Prices named are for dormant roots of 2 and 3 eyes. We can furnish these until April 20th, after which time started plants from 3 to 4 inch pots will be supplied at \$2.00 per 100 additional.

CANNA SAM TRELEASE.

Flowers open up flat with broad, overlapping petals, making a perfectly round flower quite distinct from any other. Dazzling scarlet with edge of petals and center rich yellow, forming a brilliant combination. Grows $2\frac{1}{2}$ to 3 feet. \$4.00 per 100.

CANNA THE EXPRESS.

One of the most dwarf and most free flowering of all. In color it is bright crimson scarlet, a shade lighter than Philadelphia, one of its parents. Grows 2 to $2\frac{1}{2}$ feet high and is a mass of bloom all season. \$10.00 per 100. (For pot plants. No dry roots.)

PINK CANNA.

Martha Washington—We consider this the best pink Canna ever introduced. Flowers are extra large, often reaching 5 inches in diameter, made up of five broad petals. Plant grows about 3 feet high and makes good sized clumps, giving quantities of eyes for dividing. \$5.00 per 100.

CUPHEA PLATYCENTRA.

We are offering a fine list of Fuchsias in assorted colors, many new and beautiful varieties as well as the best of the older ones, both single and double. \$3.00 per 100.

FUCHSIA LITTLE BEAUTY.

The most free blooming, most shapely of all dwarf Fuchsias. Grand market pot plant. \$4.00 per 100.

GERANIUMS.

THREE GOOD SINGLES RECENTLY INTRODUCED.

Enchanteur—Large floret of perfect form with margin and center of white with circle of rosy crimson. Fine large flower cluster supported by stout rigid stem. A grand free-flowering variety, standing sun and storm without injury. 25c.

Commandant A. Felken—A single scarlet of great promise. Makes compact, shapely plant of good rugged constitution. Flowers good bright crimson scarlet, averaging 2 inches in diameter, formed into round, perfect trusses, that are elevated well above the foliage. 25c.

Paul Desjardins—Broad petaled violet crimson flower with upper petals scarlet at base. Quite unlike any other variety we are growing. Will help to make a change from the pinks, crimsons, and scarlets so common in Geraniums. 25c.

FOUR EXCELLENT DOUBLES.

Capt. Blomet—Brilliant orange scarlet, center dotted pure white. Flowers nicely rounded and compact. One of the most striking of the many new varieties we have tested. 20c.

Madame Halimbouurg—A very unique and beautiful shading of clear orange rose, entirely different from any combination of coloring we have seen in Double Geraniums. Flowers fully double and appearing in good sized trusses. Habit of growth excellent. 20c.

Countess de Pillet Will—Has fine flower cluster of well-opened semi-double bloom. Broad pure white border with center of salmon pink. A beautiful combination of coloring rarely met with in this section of Geranium family. 25c.

Incandescent—Good large clusters of nicely shaped flowers with wavy petals; bright scarlet. Plant is of good vigorous habit and makes a grand bedder. 25c.

TWO NEW VARIETIES OF BRUANT TYPE.

Virtuose—Quite distinct from any of the older varieties of the Bruant race. A semi-double bright salmon rose, entirely free from the orange cast of many varieties of this class. Habit of growth and blooming qualities excellent and individual floret perfectly rounded. 25c.

Peter Henderson—A superb variety of dwarf, healthy growth, with large flower spikes supported well above the foliage. Flower semi-double, broad and flat, of a bright orange scarlet cast; one of the brightest and most attractive of all reds. 25c.

GENERAL COLLECTION OF BRUANT GERANIUMS.

Alphonse Ricard—Excellent bedder or pot plant. Bright orange red.

Beaute Poitevine—Rosy salmon.

Baron de Scalibert—Large salmon-flesh with white center; petals slightly veined red.

Bellerophone—An excellent bedder. A single scarlet with large, round florets, combined into immense trusses held high above the foliage. One of the most attractive in our collection.

Clyde—A sport from the well known Geranium Mrs. E. G. Hill. Like its parent in every way except that its color is a soft shade of scarlet. Individual floret perfectly round in form and 2½ inches in diameter. \$6.00 per 100.

FLEUR DE ROZE.

Fleur de Roze—Pronounced an improvement over Jean Viaud. It is slightly deeper in color, form of flower is more perfect and is, we believe, of better habit of growth. Clear glowing pink, with broad center of pure white. Individual flowers measure 2 to 2½ inches in diameter, made up into monstrous trusses with heavy stems that hold flowers well above foliage. \$8.00 per 100.

Hubert Le More—Flowers large rosy pink, with white eye. Single flowered.

Jean Viaud—Now the standard pink bedding Geranium. Large semi-double rosy pink flowers with white eye. Blooms with uninterrupted freedom the entire season, and is of such rapid and vigorous habit of growth that it makes one of the best all round plants obtainable.

MARQUIS DE CASTELAÏNE.

Jean Madeline—An excellent grower; plant strong and vigorous, yet shapely, and its flowers are produced on stems long enough to carry them well above the foliage. Flowers large, semi-double, of a beautiful transparent pink shade. \$6.00 per 100.

John Doyle—Bright vermillion scarlet, semi-double. One of the best for bedding.

Le Colosse—Monstrous sized trusses of wavy-petaled bright scarlet flowers. \$5.00.

Marquis de Castelaïne—A giant among red Geraniums; flowers averaging $2\frac{1}{2}$ inches in diameter. Trusses of bloom 5 to 7 inches across. Stands sun and storm without injury and is a free, continuous bloomer. Color vivid rosy scarlet, shading into pure scarlet at the edge of upper petals. We consider it one of the grandest red Geraniums ever introduced.

Mad. Landry—Semi-double. Rich salmon, shaded orange.

Mad. Jaulin—Semi-double. Tender pink surrounded by border of white.

Mrs. E. G. Hill—A pleasant shade of salmon, shaded lighter at center.

Mad. Chas. Molin—Clear, bright salmon, white eye.

Precurseur—Large flowered single, pure white, occasionally tinted flesh in the older flowers. \$6.00 per 100.

Robert Charlie—Flowers perfection in form and extra large; delicate rosy mauve with white markings on upper petals. An entirely new shading in Bruant race of Geraniums.

Thos. Meehan—Semi-double bright magenta, with distinctly fluted petals.

Unless noted, \$4.00 per 100.

GENERAL COLLECTION OF DOUBLE GERANIUMS.

Bertha de Pressily—One of the most beautiful light colored Geraniums we have ever grown. Is an ideal bedder; stands sun and storm without losing its delicate coloring and is always compact and shapely in growth. Flowers light silvery rose, of perfect, round form, and made up into large trusses. \$5.00 per 100.

B. K. Bliss—Brilliant scarlet.

Champ de Nieve—Flowers purest white: not a trace of color at the center. Plant dwarf and bushy, always a perfect mass of white. A splendid addition to the small list of white Geraniums. \$5.00 per 100.

Francis Perkins—In our estimation one of the finest pink bedding Geraniums. Flowers bright pink with distinct white eye, produced in immense umbels. Extra strong vigorous grower.

Gloire de France—Salmon white, with distinct salmon red center.

James Vick—Deep flesh, dark salmon shadings.

La France—A fine white variety of low and bushy growth. \$4.00 per 100.

La Favorite—Pure white; best white bedder.

M. Paul Blondeau—One of the most showy and attractive doubles. Flower trusses are immense in size, held up by stout foot-stalks. Color, most brilliant clear rose with white eye, a shade at once very beautiful and valuable to the Geranium grower. \$5.00 per 100.

Le Soleil—Most brilliant scarlet. Grand in large masses, forming a perfect wave of brightness. Good free grower of branching habit. \$5.00 per 100.

Mad. Barney—Undoubtedly the most popular double pink for bedding or pot sales. Its style of growth, size and color of flower and ease of propagation are qualities sufficient to place it at the head of pink Geraniums.

M. G. Merand—An excellent grower and profuse bloomer; color, reddish violet, shading to center of light scarlet.

M. Jules Dispot—Rich violet crimson, center lilac. Blooms continually with good sized flowers.

Pasteur—Bright orange scarlet with large, well formed truss; exceptionally free in bloom. Habit is dwarf yet vigorous. Foliage clean with distinct chocolate zone. \$4.00.

Richelieu—No Geranium in our list is more attractive. Individual flowers are of good size, borne in close round trusses. Color, bright cherry scarlet. The nearest rival of S. A. Nutt.

S. A. Nutt—Rich dark crimson of perfect shape and large size; an excellent bedder.

Unless noted, \$3.00 per 100. \$27.50 per 1000.

Our Selection of Varieties, \$2.50 per 100. \$20.00 per 1000.

SINGLE FLOWERED.

Albert Carre—A good addition to the list of scarlet bedders. Separate flowers, large and nicely rounded. Truss large and produced freely all season. Bright crimson scarlet.

Gen. Grant—Bright fiery scarlet.

GENERAL McARTHUR.

ROSES.

New Red Forcing Rose General McArthur.

A red Rose that we believe superior in many respects to any red forcing Rose to date.

Its color is bright crimson scarlet, brighter than either Meteor or Liberty, and flower fully as large, while it lacks the purple fading of Meteor, and does not demand the careful handling of Liberty.

Should be grown at a night temperature of 53 to 56 degrees, and will produce more flowers at that temperature than any other Rose we know, every shoot being a flower shoot, having absolutely no blind wood and throwing up excellent stems, even the lateral breaks giving good length of stem. Has a pronounced Tea fragrance that appeals at once to the flower buying public, everyone remarking upon its "delightful fragrance."

Taking into consideration its wonderful freedom of bloom, strong, vigorous habit of growth, length of stem and size of flower, we predict a brilliant future for General McArthur as a winter blooming Rose.

New Castle, Ind., Feb. 26, 1904.

Our attention was called to the Rose, Gen. McArthur, three years ago, by the originator, who then had only the one plant.

We liked its looks very much, and last year secured 25 plants from The Storrs & Harrison Co. for trial. We cut fine flowers from them all winter, and made 600 cuttings which we are growing this winter. We commenced cutting good flowers from them in November and have done so continuously ever since, it being distinctly a winter Rose. At this date the bench is a fine sight. The plants are from two to three feet high, and are sending out flowering shoots which are most all one to two feet in length, although quite a number are three feet or more. It has the most beautiful large lustrous foliage, and most abundant of any

Rose we have ever seen. The flower is a very brilliant red, and has a very fine odor. We find it the best red Rose we have ever grown. While not as fine flower as Liberty, with us it is so much healthier and so much freer flowering that we prefer it. We have it growing in the same house as Bridesmaid. Yours truly,
HELLER BROS.

GENERAL COLLECTION OF EVER-BLOOMING ROSES.

Balduin (Hybrid Tea)—Soft carmine crimson with deeper shading in the depth of petals, beautiful pointed bud. An ideal bedding Rose. \$4.00 per 100.

Bridesmaid—We have a large lot of late fall struck cuttings that will make fine plants for early planting. No better money maker in Rose family.

Climbing Snowball—A climbing sport of the pure white Polyantha Snowball, and like it has large clusters of purest white bloom. Is wonderfully hardy and free flowering; good as pot plant or as out-door pillar Rose.

Clothilde Soupert—A grand little Rose for bedding or pot sales. Used largely for cemetery planting. Flowers delicately tinted flesh white. One of the most persistent bloomers and strongest growing of the Polyantha class.

Climbing C. Soupert—Flowers same form and shading as its parent with good rapid climbing habit. Good garden and pillar Rose, and treated in same manner as crimson Rambler, makes beautiful display when forced in pots, for which use we anticipate a growing demand.

Etoile de Lyon—Flower rich golden yellow, nicely shaped in bud or flower and one of the most hardy of Teas.

Empress Alexandra of Russia (Tea)—Buds bronzy salmon, open flowers rich red, shaded orange and fiery crimson; full and globular. Of vigorous growth and remarkable freedom of bloom. \$5.00 per 100.

Franz Deegan—Very free blooming, rapid clean grower. Outside petals of flower good clear yellow, while inner petals are bright orange. Buds nicely formed and large. Showing up well as a forcer in many localities. \$6.00 per 100.

Golden Gate—A perfect forcing Rose, good at any season of the year. One of the easiest to manage. Buds long and pointed, opening out into a splendidly formed flower of creamy white, delicately tinged golden yellow and rose.

Hermosa—Grown by the thousand for Decoration Day sales. No better pink Rose for pot culture.

Ivory (White Golden Gate)—Has met with great success as a forcing Rose; is taken as a standard Rose in all cut-flower markets. Handled as easily in all seasons as the old type.

Mamam Cochet—No pink Rose has made as many friends as a summer Rose as Mamam Cochet. Its buds are beautifully pointed and of an exquisite shade of deep pink.

Papa Gontier—An old-time favorite red. Very good when properly grown.

Prince of Bulgaria—A rapid, vigorous grower with heavy shiny foliage and perfectly formed buds and flowers of superb rosy flesh color, outer petals very broad. \$8.00 per 100.

Queen's Scarlet—Still one of the best Roses for bedding and market plants. Nothing more showy than a bed of this with its brilliant red flowers. One of the hardiest everblooming Roses.

White Mamam Cochet—One of the best white bedding Roses, similar in every respect but color to Mamam Cochet and may be grown and flowered just as easily. Flowers good sized and the purest white.
