FALL OF 1904.
TRADE LIST

OF THE

MOUNT HOPE NURSERIES

ROCHESTER, N. Y.

ELLWANGER & BARRY, PROPRIETORS.

ESTABLISHED, 1840.

We take pleasure in presenting herewith our Wholesale Catalogue or trade list for the Fall of 1904.

The stock herein offered is of the best quality in all respects and well worthy the attention of Dealers, Nurserymen, and Planters.

We keep all our departments fully up to the times, adding every new variety of merit as soon as we are satisfied of its value.

Our collections are carefully examined every year, and such things as seem to have little or no value are discarded. In this way we offer to our customers assortments which we can recommend with the greatest confidence.

The extent and completeness of the collections of both Fruit and Ornamental Departments of these Nurseries, their reputation for accuracy, which is scrupulously maintained; the long experience of the Proprietors and their assistants, in digging, packing, shipping, and in every detail of Nursery work, are well worthy the consideration of purchasers. No pains will be spared to insure satisfaction to those who favor us with their orders.

THE FALL PACKING SEASON.

We usually commence digging and packing the first week in October, and continue until the freezing of the ground, say, middle of November.

DIRECTIONS FOR SHIPPING.

Parties ordering are requested to state explicitly the mode of conveyance by which they desire their trees forwarded. When no route is designated, we exercise our judgment; but in no case do we assume any responsibility after the packages are shipped, unless for our own mistakes. When losses occur by detention, claims should at once be made on the forwarder.

CONDITIONS OF SALE.

FIRST—The articles in the following list will be furnished at the annexed prices only when the quantity specified shall be taken. *Five hundred* will be furnished at the *thousand* rate, fifty at the hundred rate, and five at the rate per ten. *In no case will we supply long lists of selected varieties, two or three of each, of either Fruit or Ornamental Trees or Plants, to Nurserymen or others, at wholesale rates, but at such a discount from retail prices as circumstances will justify.* Ordinarily a discount of from 20 to 33½ per cent. from retail single prices will be allowed on such lists.

SECOND—In furnishing assortments of Fruit Trees, as well as Ornamental Trees, Shrubs and Plants, at the prices in this Catalogue, we reserve the right of selecting varieties, but these will be of leading popular sorts, and in all cases we will give the purchaser his choice as far as practicable.

THIRD—In growing and furnishing all nursery stock we use the greatest care to have it true to name, and will replace any that may prove untrue. But no sale by us carries a warranty of quality, express or implied, and for any error we shall not be liable for more than the purchase price. Every purchase from us is made on these terms.
