Thorburn's Special Collections of Choice Bulbs

THESE ASSORTMENTS ARE MADE UP OF THE FINEST STANDARD SORTS
AND MAY BE RELIED UPON TO GIVE SATISFACTION

No. 1. Collection of Choice Bulbs for House Culture

PRICE, \$2.50

If ordered by mail, add 30 cents for postage

6 White Roman Hyacinths	6 Trumpet Narcissus, Princeps
6 Fine Named Dutch Hyacinths	6 Double Narcissus, Van Sion
6 Fine Mixed Dutch Hyacinths	6 Poet's Narcissus
12 Fine Mixed Single Tulips	12 Mixed Spanish Iris
12 Fine Mixed Double Tulips	6 Campernelle Jonquils
30 Mixed Crocus	6 Scilla Sibirica
6 Polyanthus Narcissus	6 Freesia refracta

No. 2. Collection of Choice Bulbs for House Culture

PRICE, \$4.75

Consists of the same varieties as Collection *No. 1*, but with double the number of each sort.

No. 3. Collection of Choice Bulbs for House Culture

PRICE, \$9

Consists of the same varieties as Collection *No. 1*, but with four times the number of each sort.

No. 4. Collection of Hardy Bulbs for Outdoor Culture

PRICE, \$2

If ordered by mail, add 30 cents for postage

6 Mixed Double Red Hyacinths	1 Crown Imperial
6 Mixed Single Blue Hyacinths	12 Spanish Iris
6 Mixed Single White Hyacinths	6 Double White Narcissus
24 Mixed Early Tulips	6 Butter-and-Eggs Narcissus
50 Mixed Crocus	6 Scilla campanulata
12 Mixed Double Anemones	

No. 5. Collection of Hardy Bulbs for Outdoor Culture

PRICE, \$3.75

Consists of the same varieties as Collection *No. 4*, but with double the number of each sort.

No. 6. Collection of Hardy Bulbs for Outdoor Culture

PRICE, \$7

Consists of the same varieties as Collection *No. 4*, but with four times the number of each sort.

CATALOGUE OF

Bulbs and Flowering Roots for Fall Planting

August 15, 1904.

THE growing of bulbs for winter and spring flowering is very interesting and very easy. If the directions given in this Catalogue are observed, there need be no disappointment with the results. Many of our most beautiful flowers are produced from bulbs, and they may be grown indoors in the winter months, when flowers are most appreciated. By successive plantings a constant supply of flowers may be had from December till May. The finest outdoor displays of the early spring months are also from bulbs planted in the autumn. There is nothing more refreshing than the first Snowdrop of spring. It appears before the snow is right off the ground, and is quickly followed by the Chionodoxa, or "Glory-of-the-Snow," the bright and variously colored Crocuses and Scillas and the lovely Daffodils. Then come the gorgeous lawn displays of Hyacinths and Tulips. All these are produced from bulbs planted in the fall.

We invite special attention to the collections of bulbs offered on the second page of cover, both for indoor and outdoor cultivation. They contain only sorts that will insure satisfaction. The cultural directions found under the respective headings are also worthy of careful attention.

Our Bulbs are all selected, and from the best growers, and should not be confounded with the cheap "case" bulbs sent to this country on speculation and often sold at auction, and otherwise, at very low prices.

NAME and ADDRESS. We often receive orders with either the name or the address of the sender omitted. As we can do nothing with them, the customer thinks his order is being neglected. We, therefore, beg our correspondents to write on each order their name and full address.

ORDERS should be sent as soon as possible after receipt of this Catalogue. The bulbs will be sent in proper time for planting. They are ready from September to November, according to the time of ripening and the country from which they come. Orders booked earliest are surest of being filled as ordered. If left too late, the supply of some of the varieties may be exhausted.

Please address all orders and remittances to

J. M. THORBURN & CO.

HYACINTHS

Ready for delivery in September

The **Hyacinth** is one of the most popular and beautiful of spring-flowering plants for indoor and outdoor decorations. By careful management in keeping up a succession, they may be had in flower from the beginning of winter to the end of May. For a spring display in the open ground they are unexcelled. Brilliant effects can be obtained by massing different colors in varieties that grow about the same height and bloom at the same time. We furnish very large numbers for this purpose to public parks and cemeteries, and we shall be pleased to recommend to any one suitable sorts when desired.

OUTSIDE CULTURE.

—October is the month to plant Hyacinths outside. They succeed best in a light soil and in a sunny situation. If the soil is naturally heavy, some sand should be mixed with it; and if the beds have been occupied with other plants throughout the summer, some well-rotted cow manure should be added. The soil should be well dug to a depth of 14 inches, and

raised from 2 to 4 inches above the level of the walk. The bulbs should be planted evenly, about 6 inches deep to the bottom of the bulbs, and from 6 to 7 inches apart; if planted at uneven depths they will not bloom at the same time, but irregularly. Care must be taken not to press the earth too firmly around and over the bulbs; some successful gardeners follow the plan of setting each bulb in a handful of clean sand, which insures proper drainage. After the ground has become frozen in early winter, cover with a few inches of dry litter, evergreen boughs or coarse manure. If this covering be applied before freezing weather, it renders the bulbs liable to the predations of field mice, which may burrow in it.

CULTURE IN POTS.—For growing in pots, large, selected, named varieties should be used. They should be potted singly in 5-inch or 6 inch pots. Three bulbs in a 7-inch pot are very effective. The best potting compost is fibry loam and manure in about equal parts, with some river sand intermixed. The pots should be filled lightly, and the bulb pressed into the soil so that its base is firmly fixed. About one-third of the bulb should remain above the soil. The pots should then be buried in the open ground to the depth of six inches, and left there for five or six weeks, until the pots are well filled with roots. They may then be taken into the house, where the warmth will soon bring them into flower. Where a succession is desired, it is best to pot at intervals from September till the end of November. Plenty of water should be always applied, and manure-water is beneficial after the flower-spikes appear.

CULTURE IN GLASSES.—Single varieties are better adapted for culture in glasses than double ones. The bulb should be placed so that the base is just in contact with the water. Soft rain-water should be used, and a little charcoal might be placed in it to keep it pure. The glasses should be kept in a cool, dark closet for ten or twelve days, until roots are formed, and then exposed to the light and air as much as possible. Do not place them near gaslight. In very cold weather the glasses should be removed from the window, as the bulbs can not stand frost. The water should never be allowed to freeze, and it should be changed every two or three days.

Persons unacquainted with the different varieties will do well to leave the selections to us, only specifying in their orders whether the bulbs are wanted for pot, glass or garden culture.

The magnificent display of Hyacinths, Tulips and other bulbs shown this spring in Central Park, City Hall Park, Battery Park, and the various other squares in New York City, were all produced from bulbs supplied by us

SELECT NAMED HYACINTHS

N. B. *Our selected named Hyacinths are the cream of the Holland Nurseries, under their original names. For forcing in pots or for outdoor beds they far surpass the class of bulbs usually sold.*

The Single-flowered varieties are generally more effective than the Double ones. They also, as a rule, succeed better in glasses. The Double varieties are distinguished by an asterisk (*) and those of them that do well in water by two asterisks (**).

If ordered by mail, please add 15 cts. per dozen for postage. Three of a kind sold at the dozen rate.

GROUPS OF HYACINTHS FOR DESIGN BEDDING

To obviate the disappointment resulting from selecting unsuitable varieties for design beds, we give the following groups of some of the sorts that bloom about the same time and grow to the same height. They will all form most effective combinations. We recommend named sorts for design bedding as decidedly better than mixtures.

{ Baron Thuyll, Red.
 { Alba Superbissima, White.
 { Charles Dickens, Blue.
 { Gigantea, Red.
 { Grandeur a Merveille, White.
 { Baron Thuyll, Blue.

{ Robert Steiger, Red.
 { Mad. Vanderhoop, White.
 { Marie, Blue.

{ General Pelissier, Red.
 { Baroness Thuyll, White.
 { Grand Maitre, Blue.
 { Norma, Red.
 { La Franchise, White.
 { La Peyrouse, Blue.

Single Hyacinths.

MIXED HYACINTHS IN SEPARATE COLORS

The very largest size. Suitable either for forcing or bedding

Our Mixed Hyacinths should not be confounded with the small-sized, low-priced mixtures often sold. Our bulbs are all large size, measuring 6 inches and over in circumference. Being furnished in so many separate colors, splendid bedding effects may be produced with them. They are also admirably adapted for forcing in the greenhouse for winter cut-flowers.

If ordered by mail, add 10 cents per dozen for postage.

ROMAN HYACINTHS

Extensively used by florists for forcing for cut-flowers. For this purpose they are the best and most popular

Roman Hyacinths.

of bulbs. The flowers are pure white, delightfully fragrant, and each bulb will throw up from three to four spikes. For forcing, three or four bulbs are generally planted in a suitable pot, in good soil (as recommended for other varieties). The pots must be kept in a cool and dark place until they fill with roots, when the flower-spikes can be rapidly developed by exposure to light and moderate heat. They are very easily grown and extremely early; and by making successive plantings they may be had in flower all through the winter. The blue and rose Roman Hyacinths flower from one to two weeks later than the white variety.

If by mail, add 10 cents per dozen for postage.

		Each	Per doz.	100

Double Dark Rose Roman.....		05	50	3 50
Single Blue Roman.....		05	50	3 50

ITALIAN HYACINTHS

These are grown largely by florists for cutting. The flowers are single, very graceful and fragrant, and produced abundantly. They are hardier than the Romans, and may also be planted outside in the fall for flowers for early spring cutting.

		Each	Per doz.	100
Single White Italian.....		\$0 06	\$0 60	\$4 00

MINIATURE HYACINTHS

These are also known as "Dutch Roman" and "Pan Hyacinths." They are very suitable for growing in groups in pots or earthen pans. We offer them in separate colors, and also mixed, as follows:

- Pure White, Cream White, Dark Red, Rosy Red, Light Blue and Yellow. 45 cts. per doz., \$3 per 100.
- Mixed, all colors. 40 cts. per doz., \$2.50 per 100.

TULIPS

Tulips are ready for delivery in September

For beauty of form and brilliancy of coloring, Tulips are unequaled. For bedding they are the most popular and effective of all hardy bulbous plants. In our descriptions we give the color and average height to which they grow, so that purchasers can select suitable sorts for forming display beds in design. The most gorgeous effects can be produced by harmonious massing of contrasting colors. For pot culture and forcing for winter cut-flowers, they are also invaluable.

CULTURE.—The cultural directions given for hyacinths, on page 2, are equally applicable to Tulips, except that the bulbs, being smaller, must not be planted quite so deep. Four inches to the

TULIPS, continued

bottom of the bulb is deep enough, and a distance of 5 or 6 inches between the bulbs is sufficient. They may be planted in October and November, before the ground freezes. A little sand around each bulb is generally recommended, but in light, sandy soil this may be dispensed with. For pot culture, a compost of two parts loam to one part light manure, with some sand intermixed, is suitable. From three to five bulbs, according to size, in a 5-inch pot, are very effective. The pots should be buried until the bulbs are well rooted, in the manner recommended for hyacinths. Most of the varieties named below are equally well adapted for pot culture or the open border.

A, B and C indicate season of flowering. A and B may be planted to flower about the same time in the open ground; C flowers later.

SINGLE EARLY TULIPS

No. 4. Eight each, same 12 varieties as in collection No. 1 (96 named bulbs) 2 25

Types of Narcissi.

NARCISSUS

Narcissi are Ready for Delivery in September

The very beautiful species and varieties of Narcissus are among the most popular and largely grown of spring-flowering bulbs, and that deservedly, too, for they are certainly "the fairest among them all." Their exquisite grace, beauty and charm of habit have been immortalized in the poetry of all times. No garden should be without them. To know them is to love them, and to love them is a liberal education.

They are all of the easiest cultivation, thriving in almost any soil and situation, and they may be left alone for several years after once being planted. They do best, however, in a deep and somewhat stiff soil, and in a partially shaded position. They are well adapted for planting by the sides of streams, or lakes, or ponds, and in mixed flower or shrubbery borders. They are also suitable for naturalizing in the grass, by the side of woodland walks or in open spaces between trees and shrubs. With the exception of the Polyanthus section, they are all perfectly hardy.

Narcissi are also very suitable for growing in pots, requiring about the same treatment as hyacinths, with 3 or 4 bulbs in a 5-inch pot. Some of the varieties are grown in large numbers by florists for winter cut-flowers.

SINGLE NARCISSUS, or DAFFODILS

If ordered by mail, add 13 cents per dozen for postage.

	Each	Per doz.	100
Ard Righ (Irish King). Magnificent golden yellow trumpet; very large and graceful. One of the earliest and finest for forcing.....	\$0 10	\$1 00	\$6 00

Paper White, grandiflora multiflora. Very large and free flowering.....	06	50	3 50

LILIES

For stateliness of habit, beauty of form and variety of coloring, the Lily is without a rival among bulbous plants. Many of the species are delightfully fragrant. Though they may nearly all be called hardy, it is well to protect them against frost in winter by a covering of ashes or litter. They are easily grown, and require little care. With the exception of *L. candidum* and *L. tigrinum*, which prefer a rich, deep loam, they all do best in a light, well-drained soil. Some peat or leaf-mould may be used to advantage. *L. auratum* cannot bear manure, but thrives in ordinary light soil. They all prefer a partial shade, and the taller sorts must have protection from high winds. Many of the stronger-growing kinds are well adapted for planting among shrubs. Most of them make splendid conservatory plants. For pot culture, a compost of loam and peat in equal parts, with the addition of some sand, is recommended.

Lilium Harrisii and *Lilium candidum* ready in August; all others not until November

If ordered by mail, add 3 cents each for those marked (*); others from 1 to 2 cents each for postage.

	Each	Per doz.
* <i>Atrosanguineum</i> (<i>Fulgens</i>). Dark crimson, black spots.....	\$0 25	\$2 25

Lilium Thunbergianum.

Each Per doz.

Lilium tenuifolium.

Lilium Harrisii.

“O n c e upon a time a father left his property to his two sons, with the understanding that it should be equally divided; but the elder son seized all the tillable land and left the younger nothing but an acre covered with rocks and water. The younger son, failing to obtain justice, sat at the water's edge bemoaning his misfortune. A benevolent fairy appeared, and, giving him these Narcissus bulbs, told him to drop them into the water. Shortly afterwards their flowers were developed, and the neighbors crowded to see the fairy's gift. In the course of a few years the badly treated brother accumulated a fortune by the rapid increase and sale of his bulbs. Then the elder brother, envious of the prosperity of the younger, bought up great numbers of the bulbs—hoping to get a monopoly by getting all of them—at so heavy a price that he was obliged to mortgage his property to procure funds for the purpose. He planted all his good land with bulbs, but they soon began to die, as they cannot live long out of water. He was ruined, while his brother, who had bought the mortgage, foreclosed it, and became possessed of the whole estate in time to plant some of the dying bulbs in the watery acre.”

The bulbs should be placed from three to six in a bowl or glass dish of water which has been partly filled with pebbles, some of which place over the bulbs so as to prevent them from floating. The water should be tepid and changed every two days. Submerge the bulbs entirely, and place in a sunny window in a cool room. Price, 10 cts. each, \$1 per doz.

LILIUM HARRISII

(Bermuda Easter Lily)

Bulbs ready now

The Bermuda Easter Lily is perhaps the finest and most popular of winter-blooming plants. The large, handsome, pure white, trumpet-shaped flowers are very sweet-scented and of great substance, and last a long time after cutting. Its stately and graceful habit renders it a perfect pot-plant for table or window decorations. It gets its popular name from the fact that it is so largely used for church decoration

at Easter. It is easily grown and can be forced into flower in a remarkably short time. It is also well adapted to garden culture, but in this latitude the bulbs should have a good covering of ashes or litter to protect them over winter.

If ordered by mail, add from 10 to 20 cents per dozen for postage, according to size. Each Dozen \$2.00

Leichtlinii. Orange-red, with crimson spots; 2 to 3 feet high. 15 cts. each, \$1.50 per doz.

Lilium auratum.

Lily-of-the-Valley.

LILY-OF-THE-VALLEY

(*Convallaria majalis*)

Ready in November

One of the most beautiful and admired spring-flowering plants, and universally sought for its neat and chaste outline and delicate odor. The growth is close, dwarf and compact, and the plant is hardy and permanent. It is now a most popular plant for forcing, which is easily done by planting the pips in pots, from 6 to 12 in each, watering freely, keeping in a cold cellar, and starting from week to week, to keep up a succession. They generally flower in three or four weeks after planting. They require a considerable amount of heat to start them.

Clumps. Fine large clumps, with 15 or more flowering pips on each. Fine for planting outside in shaded positions, and for naturalizing by the side of streets or wood walks. 30 cts. each, \$3 per dozen clumps.

Pips for forcing. 50 cts. per bundle of 25, \$1.75 per 100, \$14 per 1,000.

ANEMONE, or WINDFLOWER

Very ornamental hardy perennials, producing beautifully colored flowers in spring and summer. They do best in rich soil and in a sheltered and well-drained position. Plant in autumn. May also be grown in pots or forced in frames for early flowers.

If ordered by mail, add 15 cents per 100 for postage

Anemone Japonica.

AMARYLLIS

Ready in October

Amaryllis.

Extremely ornamental greenhouse plants, with large, fragrant, beautifully colored flowers. The most suitable soil is good loam, with one-fourth part of leaf-mould or pulverized manure, and some sand. Good drainage is very important. The growing season is from early spring until about September, when the plants should be kept cool and allowed to rest until February. They require plenty of sunshine, but in the flowering season a light shading tends to preserve the blossoms longer. Frequent disturbance of the roots is to be avoided. Established bulbs in large pots should have a top-dressing each year when starting, and manure water during the growing season.

Each Per doz.

ARUMS

Ready for shipment in September and October

A genus of curious and ornamental perennials, with peculiar and distinct foliage and flowers. They make handsome pot-plants, and are also very effective in subtropical gardening. *A. Dracunculus* is hardy, and may be left in the ground over winter, with a little covering. The others should be potted in the autumn and kept dormant till spring. They are all of easy cultivation, requiring rich soil and plenty of water during the growing season. A compost of rich loam, with a third of well-rotted manure and some sand, is very suitable.

If ordered by mail, add 3 cents each for postage.

Each Per doz.

Crinitum . Marble stems; broad, flesh-colored, spotted flowers, covered with hairs.....	\$0 20	\$2 00
Cornutum (Red Calla). Flowers red, spotted black; stems mottled; handsome pot-plant.....	25	2 50

BEGONIA GRANDIFLORA, TUBEROUS-ROOTED

Ready in November and December

Splendid pot-plants for the house or greenhouse, and especially valuable for bedding, flowering in the greatest profusion throughout the summer. For bedding they should be started in hotbed in March and April. The hollow end of the bulb should be up and but slightly covered. They should get very little water until the plants are growing.

Meleagris (Guinea Fowl Flower). Mixed colors	05	35	2 00
Fritillaria imperialis. See Crown Imperials, on page 23.

Fritillaria recurva.

CROCUS

For pots and borders. A universal favorite, being one of the earliest flowers seen in the spring. They are neat, dwarf and compact in growth, and the blooms are of bright colors. If planted close,—say 2 inches apart,—and in close rows, they make a very pretty display immediately after the snow goes off in the spring. Do not disturb for several years. Should be largely planted in the grass on lawns. They will flower very early in spring before mowing. The effect is beautiful.

For flowering in pots, baskets, etc., they should be plunged in the open ground for three weeks after planting, precisely in the same manner as directed for hyacinths.

If ordered by mail, add 15 cents per 100 for postage.

HYBRID NAMED CROCUS

Composed of the most beautiful varieties; remarkable for richness of color and immense size. These varieties are best for forming letters or designs on the lawn, for which purpose they may be planted without disturbing the grass, by the use of a dibble or narrow trowel. The flowers are produced very early, and the mowing later on will not seriously injure the Crocus bulbs.

If ordered by mail, add 25 cents per 100 for postage.

CALOCHORTUS

(Mariposa Lily, or Butterfly Tulip)

Ready in September

Very handsome bulbous plants from California. They are remarkable for the brilliancy and variety of their coloring, and their gracefulness of habit. They grow freely in light, sandy loam; though hardy, they should be protected during winter with litter. They may also be successfully grown in frames and in pots.

If ordered by mail, add 5 cents per dozen for postage.

CYCLAMEN

Most of them ready in November

When well grown, it is difficult to find a more useful plant than this for greenhouse, room and window decorations. The various species produce flowers varying from deep red to pure white, and of much elegance of form in flower and plant. The *C. giganteum* is an improved strain of the old *C. Persicum*, having much larger and more brilliantly colored flowers, and producing them more abundantly. We offer seed of our superb strain of these at the end of this Catalogue.

CROWN IMPERIALS

(*Fritillaria imperialis*)

A stately-growing plant, with dark green foliage, and flowers of all intermediate shades between yellow and crimson; effective for centers of beds; hardy and permanent, and not so generally planted as they should be. Their flowers are produced quite early in spring, and are very ornamental and decorative in the center of a bed of other bulbous plants. The old, dull red variety, while handsome, does not give anything like the effect that the newer sorts do. The double varieties are especially conspicuous and desirable in every respect. They are all the better for being planted in good, rich, well-drained soil; the flowers will be larger and of fine coloring, as well as more enduring.

Ready in September

FREESIA

The justly popular *Freesias* are greatly prized for the delightful fragrance of their delicately colored flowers, which, when cut, will remain in good condition for a long time in water. They are easily grown or forced in a light, sandy soil, in a frame or greenhouse, and are excellent for window culture in winter; one plant will perfume a large room, but not in the persistent manner of a tuberose. The plant has tooth-shaped bulbs and flat, spreading leaves. For the information of all not acquainted with these bulbs, we may say that they are quite small, and produce large blooms in comparison to their size.

Freesia refracta alba. Pure white and sweet-scented; very largely forced. The flowers are 2 inches long, and about the same in width, shaped like miniature gladioli, and in clusters of 6 to 10, on depressed horizontal scapes. The body of the flower is pure white, with lower segments spotted lemon-yellow. The fragrance is remarkable and very lasting.

GLADIOLUS

Ready in November

The following varieties are the sorts generally to be had at this season of the year, and they are usually planted in pots in autumn, and require to be kept in a warm room or greenhouse, except those prefixed with an (®), which are hardy, and may be planted out; it is best, however, to give them a slight protection. Some varieties are successfully forced.

The French Hybrids, for spring planting, will be in by November. These form a family of bulbs of rare beauty. Every year is now adding varieties of most exquisite tint and shade; and, from the time of year during which these bloom, and the long continuance of their flowers in perfection, they become one of the greatest ornaments of the garden at a season when flowers of vivid tints are scarce. They are valuable for bedding.

Named varieties will be found in our General Catalogue, published January 1.

If ordered by mail, add 5 cents per dozen for postage.

GLOXINIAS

Ready in November

Gloxinias are among the most beautiful of greenhouse plants, the flowers being remarkable for the intensity and variety of their coloring, and the exquisite manner in which they are often blotched, mottled, penciled and blended. The plants are extremely floriferous and, by making successive pottings, they may be had in bloom the greater part of the year. They thrive best in a soil composed of leaf-mould and peat in equal parts, with a little sand added. When growing, plenty of water should be supplied, but it should always be tepid. The bulbs we offer are large-sized, and of the erect flowering strain.

CRINUMS

Splendid large-flowering bulbs, closely allied to the *Amaryllis*. The most suitable soil is a compost of turfy loam, cow manure and some sand. They should be grown in large pots or in tubs, about three-fourths of the bulb being out of the soil. In late fall they should be removed to a coolhouse and allowed to rest till new leaves begin to appear in February. The bulbs should receive a top-dressing each year when starting, and manure water during the growing season. They may be placed outside when warm weather begins and will flower all through the summer, making splendid lawn or veranda plants.

Each

Giganteum, Giant White. Immense bulbs; large white flowers; blooms all summer; very fragrant; they should be watered plentifully while growing.....	\$2 00
Amabile, Giant Pink. Extra large, bright pink, with white stripe; splendid flower; enormous bulb. This and the Giant White are unsurpassed for growing in tubs, blooming profusely outside all summer.....	2 00
Grandiflorum. Very large white flowers, with red stripe running through the center of the petals.....	3 00
Kirki. Large umbels of beautiful pure white flowers; pure white, with purple stripe in center of each petal.....	75
Powellii. It produces long stems bearing at the top five to eight large, dark rose, bell-shaped flowers 3 to 4 inches long.....	40
“ album. Pure white.....	1 00
“ intermedium. Light rose; hardy.....	3 00

Ixias.

IXIAS (Ready in October)

The Named Hybrid *Ixias* are so beautiful and rich in tints that no lover of flowers should be without them. They are equally adapted for pots or the open ground, exceedingly free-flowering, and invaluable for cutting. If planted out, they require rather more covering during winter than *hyacinths*. In pots their culture is the same as that usually recommended for other bulbs. By reason of their curious forms and strange coloring, the *Ixias* attract much attention.

Erythronium.

ERYTHRONIUMS

(DOG'S-TOOTH VIOLETS.) Ready in September

Very ornamental, hardy, bulbous plants, of neat and dwarf habit. They succeed in almost any light soil, but prefer a mixture of loam and peat. They should be planted in groups, and do well in sheltered positions on rockeries, or in mixed flower or shrubbery borders.

Each Per doz. 100

Giganteum (Giant Dog's-Tooth Violet). Very large, straw-colored flowers, with orange center, borne on long, slender stems; the foliage is richly mottled in dark brown and its elegant habit makes a very attractive pot-plant for window decoration....	\$0 05	\$0 40	\$2 50

Mixed			
Dens-canis (Dog's-Tooth Violet). Mixed colors; very pretty; leaves blotched in brown and white.....	05	30	1 50

IRIS (FLEUR-DE-LIS)

Ready in October and November

Iris, the Greek name for the rainbow, was applied to this flower in allusion to the manner in which many beautiful colors are blended together in the flowers. Irises are of easy culture, requiring very little attention after once being planted. They do best in a light, rich, sandy soil, and in a sunny situation. Good drainage is very important. The newer varieties of *Iris Kaempferi*, recently introduced from Japan, are remarkable for the beauty of their colors and their stateliness of habit. Some of these send up 10 or 12 flower-spikes 3 feet high, each bearing 2 to 4 enormous blossoms, measuring 8 to 10 inches across, and of the most delicate and beautiful colors, markings and combinations; no other flowers excel them in richness. These require a liberal supply of water, when growing. With the exception of *Morea pavonia* and *Tuberosa*, all varieties are hardy.

SUPERB COLLECTION OF LARGE-FLOWERED JAPAN IRISES

(*Iris Kaempferi*)

We are importing from Japan a large supply of the following twenty newest and best of these magnificent Irises, which excel in size, perfection of form and richness of color, any ever shown. They come in large, extra-strong clumps.

	Each	Per doz.	100

LACHENALIAS

Ready in September

Very pretty, spring-flowering, greenhouse, bulbous plants, with brightly colored flowers and elegant habit. They should be grown in pots, four to six bulbs in a 5-inch pot, in a compost of two parts loam, two parts leaf-mould and one part each of peat, sand and well-rotted cow manure. Apply but little water until growth is somewhat advanced, but give more freely as the foliage develops; give them plenty of light and air, and keep near the glass to insure sturdy growth. Lachenalias are also excellent subjects for hanging baskets.

	Each	Per doz.	100
Luteola . Pale yellow flowers, flushed with green.....	\$0 20	\$2 00	
Pendula . Very handsome, large and showy species, with broad foliage and rich red flowers, tipped with black.....	20	2 00	
Quadricolor . Bright green, red and yellow flowers; very pretty.....	20	2 00	
Tricolor . Red, yellow and green.....	10	1 00	
Versicolor . Foliage heavily spotted brown; flowers yellow, tipped with green and red; very pretty for massing.....	12	1 25	
Hybrids Mixed	10	1 00	

MONTBRETIAS

Ready in November

Hardy, summer-flowering, bulbous plants that are becoming more popular every year. Their brightly colored flowers are borne on long, graceful spikes in the greatest profusion, and they are most valuable for cutting and general decorative purposes. They should be planted in groups and left undisturbed. Ordinary garden soil and a sunny position suit them. The following are the handsomest and most distinct varieties:

	Each	Per doz.	100
Bouquet Parfait . Large, bright vermilion flowers, with deep yellow center.....	\$0 05	\$0 40	\$2 25
Crocsmiaeflora . Large; bright orange, tinged scarlet.....	05	30	1 50
Drap d'Or . Rich yellow; very large, handsome flowers.....	05	40	2 25
Eldorado . Large, golden yellow flowers; very floriferous; dwarf habit.....	05	40	2 25
Elegans . Bright yellow, outside streaked with vermilion; extra fine.....	05	40	2 25
Etoile de Feu . Bright vermilion, with deep yellow center; large flowers.....	08	60	3 50
Golden Sheaf . Bright yellow.....	05	40	2 25
Pottsii . Orange and scarlet; very free-flowering.....	05	25	1 25

Montbretias.

ORNITHOGALUM

Ready in September

	Each	Per doz.	100
Arabicum . White, with black center; valuable for forcing.....	\$0 05	\$0 45	\$3 00
Pyramidale . Showy spikes of white flowers.....	25	2 50	
Umbellatum (Star of Bethlehem). Outside green and white striped, inside satiny white; flowers in umbels; very showy.....	05	30	1 50

NERINE

Ready in October and November

Very beautiful greenhouse bulbous plants, succeeding best in pots, in light soil—say a compost of loam, leaf-mould and sand. Frequent repotting is not advisable, but an annual top-dressing of new soil before the flowering season is recommended. During the growing season they succeed best in a frame with some bottom heat. After the leaves die they should be kept quite dry in a cool place until they begin to grow again.

Nerine Japonica.

	Each	Per doz.
Crispa. Very handsome scarlet flowers.....	\$1 00	
Flexuosa. Bright crimson-scarlet, tinged with orange.....	1 00	
Fothergillii. Bright, glittering scarlet, in a many-flowered umbel	1 00	
“ major. A magnificent plant for house or conservatory. The flowers are of the most intense shining scarlet, and by artificial light the crystalline cells of the petals sparkle like jewels. It flowers very freely..	1 25	
Japonica (Japan Spider Lily). Purplish red; very beautiful.....	08	\$0 75
Sarniensis (True Guernsey Lily). Flowers brilliant crimson, in large clusters. The best known sort.....	35	3 50
Undulata. Rosy purple, wavy flowers; very handsome.....	75	

OXALIS

Ready in September

A very pleasing class of small bulbs, producing vast quantities of brilliant flowers during the autumn and winter months; they are especially desirable for planting in hanging baskets. They are easily grown in sandy soil, seven or eight bulbs in a 4- or 5-inch pot. Pot in September, and remove indoors early in October; keep in moderate temperature.

	Each	Per doz.	100
Buttercup. A splendid winter-blooming plant for pot culture. The flowers are pure bright yellow, and produced in great abundance. It is very easily cultivated, and, being a strong grower, only one or two bulbs should be planted in a 5- or 6-inch pot	\$0 05	\$0 40	\$2 00

Versicolor. Crimson and white.....	2 for 5 cts..	25	1 25
Mixed	2 for 5 cts..	20	1 00

PAEONIES

Ready in October

The old-fashioned double Pæonies are too well known to require description. Their popularity is due to their great merits—their easy culture, the handsome appearance of the plant, and the brilliant and striking effect of their massive, finely formed, richly colored flowers. Among hardy herbaceous perennials, the Chinese Pæonies rank about first for lawn or flower-border or shrubbery decoration. They are all hardy.

	Each	Per doz.

Pæonies.

RANUNCULUS

Ready in September

The main soil for these should be loam or clay, with a good dressing of rotten manure and leaf-mould; if heavy, add a little sand. The soil should be well drained, cool, deep, rich and moist. Plant late in the autumn, claws downward, from 4 to 6 inches apart and 3 inches deep, covering with fine, pulverized soil.

If ordered by mail, add 3 cents per doz. for postage.

Ranunculus.

White Calla.

RICHARDIAS, or CALLAS

Ready in September and October

Tall-growing, bulbous perennials of exceedingly graceful habit and very handsome foliage and flowers. They are easily cultivated in pots, requiring only a rich soil and plenty of water. A compost of one part good loam and one part cow manure is recommended. It is a good plan to plant them out in the garden each summer, in rich, well-manured soil, giving them plenty of water, taking them up and carefully repotting in September.

	Each	Per doz.	100
	\$0 20	\$2 00	\$15 00
White Calla, or Lily-of-the-Nile (<i>Calla Æthiopica</i>). Large, white, trumpet-shaped flowers of great substance. One of the most popular and ornamental of house and greenhouse plants. Largest size bulbs.....	20	2 00	15 00

Red Calla (<i>Arum cornutum</i>). Flowers red, spotted black; stems mottled; a handsome pot-plant.....	25	2 50	

SCILLAS

Ready in September

No garden can be complete without these beautiful flowers. *S. Peruviana* requires slight protection; all the others are quite hardy, and may remain in the ground several years.

If ordered by mail, add 5 cents per dozen for postage, except those marked with a star (*), to which add 2 cents each.

Sibirica. The effect in early spring of the intensely rich blue, early-flowering Scilla, contrasting with the snow-white of the Snowdrop and the varied hues of the Crocus, can hardly be overestimated; are most valuable for permanent edging. 30 cts. per doz., \$2 per 100.

SNOWDROPS

(GALANTHUS NIVALIS)

Ready in September

Perhaps no spring flower is a more general favorite than the Snowdrop. The earliest-flowering of its varieties is the common single sort, which is also very graceful and beautiful, commencing to bloom before the snow is fairly off the ground in spring. This is succeeded by the double-flowered variety, with its elegant drooping, snow-white blossoms.

If ordered by mail, add 3 cents per dozen, or 25 cents per 100 for postage.

Per doz. 100 1,000

TUBEROSES

Ready in December

The purity of color and rich perfume of the Tuberose are well known. In this latitude May 1 is early enough to plant in the open ground, but the bulbs may be started in pots much earlier if desired. They do best in a rich, warm soil and in a sunny situation. Cut off about a quarter of an inch from the bottom of the bulb before planting and set so that the top will be one inch below the soil.

Each Per doz. 100

Dwarf Double Pearl. Dwarf habit; large fine flowers of great substance.....	\$0 05	\$0 35	\$1 50
Albino. Purest white, single flowers.....	05	40	2 00
Variegated Leaf. Foliage striped white and green; single white flowers.....	05	45	3 00

Dwarf Double Pearl Tuberose.

SPIRÆA, or ASTILBE

Ready in November

Tall, graceful, branching, herbaceous perennials, thriving in rich soil and damp positions. Those we list are extensively used for forcing for winter decorative purposes, for which they are eminently adapted, either as cut-flowers or in pots for window and table decoration. They should be potted when received and buried outside till they begin to form roots. They may then be taken in and forced as required. They require abundance of water.

Japonica (Hoteia). Excellent pot-plant for winter blooming. Large, branching panicles of pure white, feathery flowers; fine for cutting. Clumps for forcing or outdoor planting. 10 cts. each, \$1 per doz., \$6 per 100.

Japonica fol. aurea reticulata. Beautiful gold-striped foliage; large panicles of pure white flowers. 15 cts. each, \$1.50 per doz., \$10 per 100.

Japonica compacta multiflora. The neat, compact habit and profusion of large, handsome, pure white flowers make it a most elegant pot-plant. 15 cts. each, \$1.25 per doz., \$7 per 100.

Astilboides floribunda. Very large, pure white plumes; neat habit; very abundant bloomer. 15 cts. each, \$1.25 per doz., \$7 per 100.

Palmata. Crimson; strong clumps. 15 cts. each, \$1.25 per doz., \$7 per 100.

Hybrida Gladstone. The best of all for forcing. Splendid plumes of snow-white flowers on long stems. 20 cts. each, \$2 per doz.

Spiræa Astilboides floribunda.

Trillium sessile Californicum.

TRILLIUMS

(AMERICAN WOOD LILY, or INDIAN SHAMROCK)

Hardy herbaceous perennials, succeeding best in a deep, well-drained soil and in a somewhat shady situation. They require plenty of water during the summer. All are natives of North America, and are known by various common names in different localities. They have violently emetic roots.

Each Per doz. 100

Grandiflorum ("Giant American Wood Lily," or "Wake Robin"). Large white flowers, changing to rose; quite hardy, and easily grown in shaded positions.....	\$0 05	\$0 40	\$2 50
Erectum ("Birthroot"). Dark purple flowers; erect habit; about 1 foot high	05	50	3 00
Erectum album. A white-flowered variety of the above.....	08	60	4 00
Ovatum. White, changing to purple..	10	75	5 00
Sessile Californicum. Handsome, pure white flowers; prettily mottled foliage.....	10	1 00	6 00
" rubrum. Reddish purple flowers.....	10	1 00	6 00
" Snow Queen. The finest of all. Broad petals tinged cream color.....	10	1 00	6 00

Schizostylis coccinea.

Hemerocallis.

Miscellaneous Bulbs and Roots

Those marked with an asterisk () will not be ready till October*

	Each	Per doz.	100
*Achimenes, Mixed. Lovely greenhouse pot-plants	\$0 08	\$0 75	\$5 00
Aconite. See Eranthis, page 33.			
Allium. Perfectly hardy bulbous plants of the easiest cultivation. They are excellent for the flower border or for naturalizing in masses. The varieties offered below are also suitable for forcing for winter cut-flowers.			
“ Azureum. Beautiful sky-blue flowers in large umbels; fine for pots or garden.....	08	75	5 00
“ Neapolitanum. Large umbels of pure white flowers, borne on long stems; valuable for forcing for winter cut-flowers, as well as for summer garden decoration....	05	25	1 25
“ Moly luteum. Golden yellow flowers in large umbels; very showy and attractive; fine for growing in the garden in groups or for naturalizing in masses.....	05	25	1 25
“ Hermettii grandiflorum. Makes a splendid pot-plant for winter blooming in the house, the handsome, large, pure white flowers being produced abundantly and for a long time; largely used by florists for forcing for cut-flowers	05	30	1 50
“ Ostrowskianum. Deep carmine	05	40	2 25
Alstroemeria, Mixed. Tall plant, with beautiful flowers; for pots or frames	10	85	5 50
Anomatheca cruenta. Rich crimson flowers; neat, dwarf habit; excellent for window-garden.....	05	25	1 25
Anthericum. Very ornamental border plants, and also excellent for pot culture. They do best in light, rich soil, and require plenty of water while growing.			
“ Liliago (St. Bernard's Lily). Pure white flowers; 1½ feet high	10	1 00	6 00
“ Liliastrum major (St. Bruno's Lily). Much larger flowers than the above; flowers white, with petals delicately tipped green; 2 feet high.....	12	1 25	7 00
“ Ramosum. Of branching habit; white flowers; 2 feet high.....	12	1 25	7 00
Antholyza, Mixed. Like Gladioli. Take up in fall.....	12	1 25	8 00
Apios tuberosa. Hardy climber, with clusters of fragrant purple flowers.....	05	50	3 00
Asphodelus ramosus. Hardy perennial; large, white flowers; very pretty.....	40	4 00	
Babiana. Mixed colors; charming for pots	05	35	2 00
Bessera elegans (Coral Drops). Bright coral-scarlet, with white cups.....	05	50	3 50
*Bravoa geminiflora. Orange and scarlet; twin-flowered.....	15	1 50	
Bulbocodium vernal. A very pretty little bulbous plant, with rosy purple, crocus-like flowers; it is one of the earliest of spring plants, blooming even before the Crocus....	12	1 25	8 00
*Caladium esculentum (Elephant's Ear). Large-sized bulbs.....	25	2 50	
Callas. See Richardia, page 29.			
Camassia Cusickii. Superb new variety, with very large leaves and lovely pale sky-blue flowers, produced in racemes 2 to 3 feet long.....	15	1 50	

MISCELLANEOUS BULBS AND ROOTS, continued

	Each	Per doz.	100
<i>Camassia esculenta</i> . Pretty violet-blue flowers; fine for cutting	\$0 05	\$0 30	\$1 50
“ <i>Leichtlinii</i> . Splendid, tall, purple variety.....	10	80	5 00
“ “ Cream-colored. Very pretty.....	12	1 25	8 00
<i>Chionodoxa gigantea</i> . Very large lilac-blue flowers, with large white eye.....	05	35	2 00
“ <i>Lucilæ</i> (“Glory of the Snow”). Porcelain-blue, white eye.....	05	30	1 50
“ <i>Sardensis</i> . Lovely deep blue flowers, produced in great numbers.....	05	30	1 50
<i>Clematis coccinea</i> . A hardy herbaceous perennial climber; flowers rich scarlet.....	15	1 50	10 00
<i>Colchicum Agrippinæ</i> . From Asia Minor.....	15	1 50	
“ <i>autumnale</i> fl. pl. (Meadow Saffron).....	12	1 25	8 00
“ Mixed. Many bright colors.....	10	75	5 00
<i>Cooperia Drummondii</i> (Evening Star). White; take up in fall.....	05	35	2 00
“ <i>pedunculata</i> . Beautiful white fragrant flowers.....	05	35	2 00
<i>Crocsmia aurea</i> (Tritonia). Half-hardy; orange flower.....	05	45	3 00
<i>Cyclobothra flava</i> (Yellow Shell-flower). Golden yellow cup, with fine black dots; pretty...	05	40	2 50
<i>Cypella Herberti</i> . Bright orange-yellow; half-hardy.....	20	2 00	
* <i>Dicentra spectabilis</i> (Dielytra, Bleeding-Heart). Hardy; also for forcing.....	20	2 00	12 00
<i>Dodecatheon Hendersoni</i> . Rose-purple, with yellow band.....	06	50	3 00
<i>Eranthis hyemalis</i> (Winter Aconite). Yellow.....	05	30	1 50
<i>Eucharis Amazonica</i> . Fine white-flowered greenhouse plant.....	75		
* <i>Funkia alba marginata</i> . Beautiful white-bordered Day Lily.....	12	1 25	7 00
<i>Galanthus Elwesii</i> (Asia Minor Giant Snowdrops)per 1,000, \$7.50..	05	15	1 00
* <i>Haemanthus albiflos</i> . White; fine for pots.....	1 25		
“ <i>coccineus</i> . Scarlet; for pots.....	1 50		
“ <i>puniceus</i> . Orange-red; for pots.....	1 50		
“ <i>tigrinus</i> . Crimson; for pots.....	2 00		
* <i>Helleborus niger major</i> (Christmas Rose). Perfectly hardy, but most valuable for forcing....	30	3 00	
* <i>Hemerocallis flava</i> . Clear yellow.....	10	1 00	6 00
“ <i>fulva</i> . Coppery orange, shaded crimson.....	10	1 00	6 00
“ <i>Kwanso flore pleno</i> . Coppery orange; double.....	10	1 00	6 00
“ <i>Sieboldii</i> . Reddish orange.....	10	1 00	6 00
* <i>Hyacinthus candicans</i> . A snow-white summer-flowering giant Hyacinth.....	05	45	3 00
<i>Incarvillea Delavayi</i> . Large; rosy purple; splendid hardy perennial, with handsome foliage.	25	2 50	
* <i>Ismene calathinum</i> . White; sweet-scented; hardy.....	20	2 00	
“ <i>undulata</i> . Fragrant white flowers, with beautifully fringed petals.....	15	1 50	
<i>Leucojum æstivum</i> . Summer-flowering white Snowflake.....	05	45	3 00
“ <i>vernum</i> . Spring-flowering dwarf Snowflake.....	05	35	2 00
<i>Milla biflora</i> . Pure waxy white flowers, over 2 inches in diameter.....	05	40	2 50
* <i>Pancratium calathinum</i> (Basket-flower). Very fragrant white flowers.....	20	2 00	
“ <i>Illyricum</i> . Half-hardy; large, fragrant white flowers.....	50	5 00	
“ <i>maritimum</i> (Sea Daffodil). Delightfully fragrant; white.....	15	1 50	10 00
“ <i>undulatum</i> . White.....	15	1 50	9 00
<i>Pentlandia miniata</i> . Beautiful crimson flowers; for greenhouse.....	20	2 00	
* <i>Schizostylis coccinea</i> . Scarlet gladiolus-like flowers in spikes.....	08	60	3 50
<i>Solomon's Seal</i> (<i>Polygonatum multiflorum</i>).....	10	1 00	6 00
<i>Sparaxis</i> . Finest mixed.....	05	20	1 00
<i>Tricyrtis hirta</i> . Beautiful; fall-flowering; hardy; from Japan.....	10	1 00	5 00
<i>Triteleia uniflora</i> . Pure white, shaded with blue; hardy.....	05	20	80
* <i>Tritoma uvaria grandiflora</i> (Red-Hot-Poker Plant). Half-hardy.....	12	1 25	8 00
“ <i>MacOwani</i> . New dwarf variety; bright orange-red.....	12	1 25	8 00
“ <i>corallina</i>	25	2 50	
“ <i>Pfitzeri</i> . Large spikes of intense flame-colored flowers. In beds it makes a gorgeous display. It should be planted in the spring	15	1 50	12 00
* <i>Tritonia crocata</i> . Mixed.....	05	40	2 50
* <i>Trollius Europæus</i> . Yellow.....	20	1 75	12 00
“ <i>giganteus</i> . Yellow.....	20	1 75	12 00

* <i>Tropæolum tricolorum Jarrattii</i> . Fine greenhouse climber; for pots.....	20	2 00	
“ <i>pentaphyllum</i>	60	6 00	
“ <i>speciosum</i> (Flame-flowered Nasturtium). Brilliant scarlet.....	15	1 50	
* <i>Zephyranthes Atamasco</i> . Pure white.....	05	40	2 50
“ <i>Pink</i> . Fine large-flowered variety from Bermuda.....	05	50	3 00

Pansies. (See page 37)

Hardy Annual and Perennial Flower Seeds

For Autumn Sowing

Many varieties of Flower Seeds, ANNUALS as well as BIENNIALS and PERENNIALS, may be sown in the open ground in the autumn. We give here a list of such as will succeed in this latitude and southward. The plants from autumn-sown seed become larger and more robust, flowering earlier and more numerous than if sown in the spring.

STRAWBERRY PLANTS

Those marked (P) have pistillate, or imperfect flowers, and must be planted near perfect-flowering kinds, in order that the flowers may be fertilized. The varieties not so marked are bi-sexual, or perfect-flowering, and can be planted alone. Layer plants ready in September. Pot-grown plants ready now. Of the layer plants we do not sell less than 50 of a kind.

	Layers per 100	Pot-grown 1,000 per 100
Brandywine. Mid-season to late, very large, dark scarlet, solid, of good shape; very productive and continues bearing for a long time.....	\$1 00	\$5 00 \$3 00
Bubach (P). Mid-season, very large and productive, good quality, ripens very evenly; excellent for family use.....	1 00	5 00 3 00
Excelsior. Extra-early, dark red, large and firm and of fine quality; a good shipper.....	1 00	5 00 3 00
Gandy. Late. Large, bright, glossy crimson, vigorous and productive; firm flesh of finest quality.....	1 00	5 00 3 00
Glen Mary. Early, of large size. Bright, glossy crimson, of fine flavor; plant is strong and healthy, very prolific, and on good soil the berries are large to the end of the season. Good for family or near-by market.....	1 00	6 00 3 50
Kansas (P). Mid-season to late, size medium to large, very shapely, bright crimson color, very firm and an excellent shipper. One of the best for canning.....	1 00	5 00 3 00
Lady Garrison. Early. Large, bright, glossy red; strong grower, and extra heavy yielder. Does well in good, rich soil.....	1 00	5 00 3 00
Lester Lovett. Late. Exceedingly productive; extra large and perfect in shape. Continues to bear later in the season than any other sort. Finest flavor.....	1 50	11 00 4 00
Marshall. Mid-season, very large, dark crimson, good shape and quality. The plant is vigorous, but needs rich soil and careful culture.....	1 00	6 00 3 50
McKinley. Mid-season, large, roundish, crimson; extra fine quality and exceedingly productive.....	1 00	6 00 3 50
New York. Mid-season, very large, dark scarlet; colors evenly all over; strong grower, exceedingly productive and of the finest possible flavor.	1 00	6 00 3 50
Nick Ohmer. Mid-season, very large, dark, glossy red, firm and perfect in shape. It is an enormous yielder and of excellent flavor.....	1 00	6 00 3 50
President (P). Mid-season. A new variety of strong growth. Very productive, uniformly round in shape and extra large in size. Rich crimson color, very solid flesh of fine quality.....	1 50	12 00 5 00
Wm. Belt. Mid-season, large size, conical shape, bright red, ripening evenly all over. Vigorous grower and very productive.....	1 00	6 00 3 50
Sample (P). Mid-season to late, medium size, and very uniform in shape; extremely productive, rich, crimson color through and through.....	1 00	6 00 3 50

Grass Seeds for Autumn Sowing

Autumn sowing is recommended from the latter part of August to the end of September, so that the young grass may become well rooted before winter sets in. Our new-crop seed of the leading sorts is ready now.

THE THORBURN LAWN GRASS

The **Thorburn Lawn Grass Mixture** is composed exclusively of permanent grasses that make a finer and thicker turf the older they become, and yet give a rich greensward in three or four weeks from the time of sowing. It should be sown at the rate of four to five bushels to the acre (15 lbs. to the bushel). Per qt., 25 cts.; ½pk., 65 cts.; pk., \$1; bus. \$3.50.

THORBURN'S LAWN-RESTORING GRASS SEED

A mixture of grasses peculiarly suited to take firm hold and grow quickly on hard, worn-out or burned spots. Some **Lawn-restoring Grass Seed** should be sown on thin places before every rain. Per qt., 30 cts.; bus. of 24 lbs., \$5.

THORBURN'S LAWN GRASS FOR THE SOUTH

A mixture of grasses that stand extremes of heat and drought well and that are therefore peculiarly adapted for southern lawns. Per bushel of 20 lbs., \$5.

THORBURN'S MIXTURE FOR SHADY SPOTS

A mixture of grasses that thrive in shaded situations, under trees, or close to walls where there is little sun. Price, per quart, 35 cts.; peck, \$1.75; bushel of 24 lbs., \$6.

PERMANENT GRASS SEED FOR GOLF LINKS

We have given much attention to this subject, and have seeded most of the finest golf links in the country, among which we may mention the following celebrated links: St. Andrews, Baltusrol, Shinnecock Hills, Garden City, Nassau County, Philadelphia Country Club, Montclair Golf Club, Apawamis, Fox Hills, etc.

Golf Links Mixture. For the grounds in general. Per bushel of 20 lbs., \$2.50.

Putting-green Mixture. A mixture of extra fine grasses, that will make a close, firm, green and lasting turf, which will improve with trampling. Per quart, 30 cts.; peck, \$1.75; bushel of 24 lbs., \$6.

GRASS SEED MIXTURES FOR MEADOWS AND PASTURES

For over a hundred years our house has made a specialty of grasses. The formation of permanent pastures and meadows has for many years been a subject of careful study with us, and the following mixtures for seeding grass-lands have received universal recognition.

MEADOW MIXTURES FOR ONE ACRE

No. 1. For good land, neither too dry nor too wet. Price per acre (40 lbs.), \$5.50.

No. 2. For high and dry land. Price per acre (40 lbs.), \$6.50.

No. 3. For wet, late land. Price per acre (40 lbs.), \$6.

PASTURE MIXTURES FOR ONE ACRE

No. 4. For good land, neither too dry nor too wet. Price per acre (40 lbs.), \$6.50.

No. 5. For dry land. Price per acre (40 lbs.), \$7.

No. 6. For wet land. Price per acre (40 lbs.), \$6.50.

N. B. We shall be pleased to make special mixtures for particular purposes, or to suit exceptional conditions of soil, situation or climate—for very sandy or clayey ground, for very dry or wet situations, for steep slopes, terraces, tennis-courts, croquet greens, polo-grounds, etc. We invite consultation about any difficulties experienced in getting the right turf for any purpose or in any place.

MUSHROOM SPAWN

We have always on hand fresh spawn of the very highest grade. Cultural directions will be found in our General Catalogue. Any one requiring fuller details should get Mr. Wm. Falconer's book on Mushroom Culture, which we can send, postpaid, for \$1.

English Spawn. Per lb., 15 cts.; 10 lbs., \$1; 100 lbs., \$9.

French Spawn. Per lb., 35 cts.; 100 lbs., \$30.

Mushrooms.

Insecticides and Remedies for Plant Diseases

BUG DEATH

This is a fungicide, insecticide and plant-food combined. 1-lb. package, 15 cts.; 3 lb. package, 35 cts.; 5-lb. package, 50 cts.; 12½-lb. package, \$1; 100-lb. package, \$7.

Perfection Shaker for applying above, 65 cts. each.

COPPERDINE

A combined fungicide and insecticide, used simply by adding water in proportion of one pound of the paste to 16 gallons of water. 1-lb. box, 25 cts., makes 16 gallons spray; 5-lb. box, \$1, makes 80 gallons spray.

FIR-TREE OIL

For greenhouse and house plants. It destroys all plant insects without injuring the plant. It is the best insecticide for scale, aphid, red spider, mealy bug, thrip and worms. Dilute in the proportion of 1 pint to 20 gallons of water. Apply with vaporizer or syringe. ½ pt., 40 cts.; pt., 75 cts.; qt., \$1.25; ½ gal., \$2.25; gal., \$4.

FIR-TREE OIL SOAP

This is the same as the Fir-Tree Oil, but in soap form. Mix at the rate of 1 ounce to a gallon of water, and apply with bellows or syringe. ½-lb. tin, 25 cts.; 2-lb. tin, 75 cts.

DALMATIAN INSECT POWDER

Effective against almost all kinds of insects. Per ½-lb. box, 30 cts.; per 1-lb. box, 50 cts.

GISHURST'S COMPOUND

A certain remedy for greenfly, scale, mealy bug, etc. Excellent for greenhouse use. Per 1-lb. box, 50 cts.

HAMMOND'S GRAPE DUST

For the prevention of mildew on roses, grapes, gooseberries, etc. Apply with bellows. 5-lb. package, 35 cts.; 10-lb. package, 60 cts.; 100-lb. keg, \$5.

HELLEBORE, POWDERED

An excellent protection from currant worms, grape slugs, caterpillars, etc. May be applied dry or mixed in water—1 oz. to 3 gallons. Per 2 lb. box, 35 cts.; per 1-lb. box, 20 cts.; ½-lb. box, 12 cts.

LEMON OIL

For destroying scale, caterpillar, mealy bug, red spider, greenfly, etc. Directions on can. ½ pt., 25 cts.; pt., 40 cts.; qt., 75 cts.; gal., \$2.

LITTLE'S ANTIPEST

A sure destroyer of all insect pests. Qt., 60 cts.; ½ gal. can, \$1; gal. can, \$2.

NICOTICIDE

For fumigating or spraying. Used effectually for greenfly, mealy bug, red spider and thrips. Does not

damage the foliage or flowers of the most tender plant. Sold in cans as follows: No. 1, containing 1 pt., sufficient for 32,000 cubic feet of space, \$2.50 each; No. 2, containing ½ pt., sufficient for 16,000 cubic feet of space, \$1.25; No. 3, containing ¼ lb., sufficient for 8,000 cubic feet of space, 70 cts. Per gal., \$18.

NICOTICIDE FUMIGATORS

Consisting of pan, wire-frame and the lamp, are very durable, and will last for years. Price, 50 cts.

Full directions for using both compound and fumigators are printed on each can.

PARIS GREEN

Mixed at the rate of 1 lb. to 200 gallons of water, it will prove effective against all chewing insects. Per 1-lb. can, 35 cts.; ½-lb. can, 20 cts.; ¼-lb. can, 15 cts. This article is liable to fluctuate in price.

SLUG-SHOT (HAMMOND'S)

Excellent for destroying cabbage, turnip and beet fly, potato bugs, currant worms, etc. 5-lb. package, 30 cts.; 10-lb. package, 50 cts.; 100 lbs., \$4.

SULPHUR, POWDERED

Valuable for protecting against mildew on grapes, roses, etc. Per lb., 10 cts.; 10 lbs., 60 cts.; 100 lbs., \$4.

SULPHO-TOBACCO SOAP

Dissolve in proportion of 2 ounces to a gallon of water, and apply with a syringe or atomizer. It will destroy rose slugs, aphides, greenfly, bark-lice, etc. Per 3-oz. box, 10 cts.; 8-oz. box, 20 cts.; 10-lb. box, \$3.

TOBACCO DUST

If dusted on *while the foliage is moist* it destroys rose lice, cabbage and turnip fleas, etc. Spread upon the ground, it keeps off all earth insects. Per 1-lb. box, 10 cts.; 5-lb., 30 cts.; 10-lb., 50 cts.; per 100 lbs., \$2.50.

TOBACCO STEMS

For fumigating plants infested with greenfly. Per bale of about 100 lbs., \$1.50; 200 lbs., \$2.75; 400 lbs., \$4.50.

"ROSE LEAF" TOBACCO EXTRACT

A perfectly pure, highly concentrated extract of tobacco, most effective for destroying all insects and scale on plants. Pint cans, 30c.; qt., 50c.; gal., \$1.25.

WHALE-OIL SOAP

For washing trees and destroying all insects on the bark. Per 1-lb. box, 15 cts.; 5 lbs., 50 cts.; 10 lbs., 90 cts.; 100-lb. keg, \$7.

BORDEAUX MIXTURE, or FUNGIROID

For all fungous diseases. Dry, 1-lb. box, 20 cts.; 4 lbs. and over at 15 cts. per lb.; 50-lb. keg, \$6; liquid, 1 gallon, \$1.25.

Thorburn's High-Grade Fertilizers

THORBURN'S LAWN FERTILIZER

Per ton, \$48; single bags of 167 lbs., \$4.50; per bag of 100 lbs., \$3; 50 lbs., \$1.75; 25 lbs., \$1; 10 lbs., 50 cts.

CLAY'S CELEBRATED FERTILIZER

Undoubtedly one of the best manures for all horticultural purposes, either in greenhouse or garden. 1 cwt. (112 lbs.), \$7; ½ cwt. (56 lbs.), \$4; ¼ cwt. (28 lbs.), \$2.25; ⅛ cwt. (14 lbs.), \$1.25.

PULVERIZED SHEEP MANURE

A very rich, pure natural manure. It is excellent as a top-dressing for lawns. There is nothing better for mixing with the soil for greenhouse plants—one part manure and six parts soil. 5-lb. package, 30 cts.; 10 lbs., 50 cts.; 50 lbs., \$1.25; 100 lbs., \$2; ton, \$30.

PURE GROUND BONE MEAL

This finely pulverized ground bone is excellent for rose culture. It decomposes very rapidly, and is more quickly effective than the coarser grade. It is excellent for mixing with the soil for potting. 5 lbs., 25 cts.; 50 lbs., \$1.25; 100 lbs., \$2; per ton, \$32.

CANADA HARD-WOOD ASHES

We quote only the very highest grade, extra-screened, unleached, analysis guaranteed. For top-dressing for lawns, especially if the soil is inclined to be stiff or sour, there is nothing better. Besides the high fertilizing value, the 30 per cent of lime in these ashes sweetens the soil and keeps away insects. In barrels of 200 lbs., \$3; per ton, \$20.

ALBERT'S PLANT-FOOD*The Best Fertilizer for House Plants*

This celebrated plant food, made in Germany, is a scientific preparation containing in a highly concentrated and easily soluble form the food elements required by plants. It is odorless, clean to handle, quick in its action and unequalled in its effects. It is put up in attractive tins with full directions for use printed on each, and containing inside a small spoon holding the exact quantity required for dissolving in a quart of water. By its application plants acquire a sturdier growth, fuller development and a manifold increase in bloom.

For palms, ferns, India-rubber plants, bulbs and all kinds of pot-plants, it is by far the most complete, most effective, most economical and easiest applied fertilizer made. 15 cts. per tin; by mail, 8 cts. extra.

CEDAR FLOWER OR TREE TUBS

These are made of Virginia white cedar, painted green, with hoops, handles and leg-castings painted black. The bottoms are perforated and are removable.
