We offer the following choice varieties of Potatoes for Seed. These have all been graded better than for marketable purposes and are smooth and handsome so that we are sure they will give the very best of satisfaction.

We put them in sacks of 2½ Bushels, (150 Pounds) and deliver them f. o. b. Rochester at \$2.50 per sack.

Potatoes are low this year and past experience has demonstrated again and again that when this is true, a great many drop out so that the coming year, we believe will be a good one for Potato Growers. Potatoes do better when new seed is obtained. We would suggest your trying these:
