Biltmore Nursery

WHOLESALE TRADE-LIST

SEASON OF 1904 - 1905

BILTMORE NURSERY

BILTMORE, NORTH CAROLINA

THE BILTMORE NURSERY was established in 1889. For ten years almost the entire output was used on the Biltmore Estate in the extensive landscape and forest plantations. In 1898 a small surplus of stock was offered to the trade by means of a typewritten list and circular, and during the season 1899-1900 the first formal catalogue, or trade-list, was issued. In this, our sixth published price-list, is offered all of the stock of the present season, which consists wholly of ornamentals. We have no connection whatever with any other nursery, and employ no agents; our entire business being transacted from our office at Biltmore, North Carolina.

OUR LOCATION is in the heart of the mountains of western North Carolina, at an elevation of about two thousand feet above sea-level, where the temperature ranges from 90° above to 12° below zero. The variations in temperature peculiar to the Southern Alleghany region, its evenly distributed and bountiful rainfall, long growing season, and rich but shallow soil, combine to produce a

QUALITY OF STOCK unusually good in root-formation, thriftiness and hardiness. All our stock is nursery-grown; we do not offer cheap, collected plants.

LANDSCAPE ARCHITECTS will find our stock particularly suited to the demands of forest, park and suburban planting.

PROPAGATING CAPACITY. Our greenhouses and coldframes cover an area of 60,000 square feet, which, in connection with seed-beds of more than six acres' extent, trained men, and a variety of carefully tilled soils, give us special facilities for furnishing rooted cuttings, seedlings and transplanted plants.

NURSERYMEN will find the small plants particularly valuable for transplanting into nursery rows.

A CERTIFICATE from the State Entomologist will be sent with each shipment. The stock of the Biltmore Nursery was inspected on the 18th day of August, 1904, and is pronounced free from all insects designated as dangerous pests, and apparently healthy in every respect.

FUMIGATING HOUSE. We are prepared to fumigate with hydrocyanic acid gas all or any nursery stock when such request accompanies order.

PACKING. The utmost care will be used in digging and preparing the plants for shipment, and charges for packing cases will be made on the following basis:

BOXES, including packing and delivery to freight or express depots:

14 feet long, 30 x 30 inches	\$3.25 each.
12 " " 30 x 30 "	3.00 "
10 " " 30 x 30 "	2.75 "
8 " " 30 x 30 "	2.50 "
6 " " 24 x 24 "	1.85 "

BALES, according to size, including delivery to nearest station, 15 cents to \$2.50.

DIRECTIONS FOR SHIPPING. In the absence of explicit directions for mode of shipping, we will forward goods according to our best judgment.

OUR RESPONSIBILITY. All goods travel at purchaser's risk. We do not assume any responsibility for the safe delivery or condition of goods after shipment, except for our own mistakes, unless the terms of agreement so specify and guarantee. We are most careful to have all our plants correctly labeled, and hold ourselves prepared to replace, on proper proof, all that may prove untrue free of cost, or to refund the amount paid therefor; but it is understood that, in case of error on our part, we shall at no time be held responsible for a greater amount than the invoice price of the goods.

CLAIMS. Should any errors occur we desire to be informed upon receipt of goods, in order that we may rectify them without serious delay. All claims must be filed within ten days after arrival of shipments.

RATES. The prices in this list supersede all previous rates and apply to quantities specified, but two hundred and fifty will be furnished at the thousand rate, twenty-five at the hundred rate, and five at the ten rate. Special discounts given on very large orders. .

TERMS CASH on or before delivery to forwarding agents, except that we extend credit to responsible patrons by agreement, subject to the following limitations:—Invoices executed during the autumn are due and payable on or before the 31st day of December following: those covering spring shipments are due and payable on or before June 1, 1905.

PACKING SEASON. We ship from October 1 to May 1, with slight interruptions during midwinter.

FREIGHT RATES in effect October 1, 1904, from Biltmore to several points are here shown.
