Field Rose Bushes

Arid-Climate-Grown

CHASE ROSE COMPANY

INCORPORATED

Riverside, California

Write us at once for Special Price on Crimson Ramblers in Lots of 500 or more. Our Arid-Climate-Grown Ramblers are the best on the market. Note Prices on White and Pink Ramblers.

If you love Papa Gontier do not fail to secure a few of the climbers. The flowers are identical and the habit of growth is strong.

Arid-Climate-Grown 3000 Square Miles of Desert in Riverside County
alone—About 3 times the area of Rhode Island.

Chase Rose Company, Riverside, California

Prices F. O. B. Riverside, California. All bills due 60 days from date.

Orders from unknown correspondents must be accompanied by cash or satisfactory reference.

Sales made subject to stock being unsold when order is received or loss by any and all unavoidable causes.

Boxes charged at minimum rates. All shipments carefully packed in moss.

We exercise the greatest care to keep our varieties true to name, and hold ourselves in readiness at all times to replace, on proper proof, all stock that may prove otherwise; but it is mutually agreed between the purchaser and ourselves that we shall not, at any time be liable for any amount greater than the original price of the stock.

Stock can usually be handled by Christmas time. We can dig only one variety at a time for all aggregate orders to enable us to handle the output while dormant, therefore it is impossible to ship full assortments early in the digging season. When Pacific Coast orders are filled (about February 1st.) all the unsold stock we have is shipped to St. Louis.

Our trade being wholesale only, we beg our friends not to hand our prices to parties not entitled to them

GRADES

XX—(Tied in Bundles of Ten Plants Each)

Very stocky and strong, heavily rooted. Are cut to 30 inches of wood when packed.

NO. 1—(Tied in Bundles of Ten Plants Each)

Hybrid Perpetuals and Climbers, graded 24 to 30 inches of wood. Teas, Hybrid Teas, etc., graded 18 to 24 inches of wood. All plants stocky, well rooted, with three or more branches. Are cut to 24 inches of wood when packed.

NO. 2—(Tied in Bundles of Twenty-five Plants Each)

Hybrid Perpetuals and Climbers graded 18 to 24 inches of wood. Teas, Hybrid Teas, etc., graded 12 to 18 inches of wood. All plants stocky, well rooted, with three or more branches. Are cut to 18 inches of wood when packed.

All No. 2's are extra fine for transplanting to nursery rows; a portion of them are heavy enough for retail use with many nurserymen.

Wm. A. Richardson, Cherokee, Duchess of Albany and Gen. Washington are not as robust growers as other sorts and we are obliged to grade them a little lighter.
