REG. IN U.S. PATENT OFFICE

WILLIAM D. BURT, DALTON, N. Y.

STECHER LITHO CO. ROCHESTER, N. Y.

1905 GREETING

To My Kind Friends and Patrons.

I embrace this opportunity in thanking all old customers for their liberal patronage and hope through honest dealings to gain a continuance of the same.

I want everyone to understand I do not handle cheap seeds. My prices are very low, but my seeds are the best to be obtained. To strangers who may receive this catalog, I ask a careful examination and comparison with others with the assurance that a trial order shall receive my most careful attention.

I am no doubt the youngest man, in age, in the seed trade and I ask you to give me a share of your valuable trade. It shall be my aim to supply you with only the best at all times. I want everyone who receives this catalog to give me at least a trial order (if it amounts to only 10c.) I want you to try my seed. Write me at all times upon any subject, as you would a friend. I am always pleased to hear from my many customers.

Thanking you for your future business and wishing you a prosperous New Year,
I am Sincerely Yours at Command,

William D. Burt.

Suggestions to Buyers.

HOW TO ORDER—Always write name plain and keep copy of your order. Use order blanks when you have them.

REMITTING MONEY—Cash should always accompany the order. Send all money by P. O. Money Order or Registered Letter. Never send money loose in your letter.

STAMPS—Please do not send stamps for amounts over 25c. If you are obliged to send stamps, send 1c. stamps.

SHIPPING—If goods are to go by freight or express, be sure to send plain shipping directions.

POSTAGE—I pay postage on all seed ordered by package, ounce, pound or quart or on bulbs, etc. No order will be accepted less than 10 cents. Seeds ordered by bushel or 100 pound lots are sent by freight or express, purchaser to pay charges.

GUARANTEE—I guarantee my seeds the best, so far as that I hold myself ready to refill the order anew gratis to the same amount, should they prove defective in any way.

ADDRESS—Send all orders to and make all orders payable to

WILLIAM D. BURT, Dalton, N. Y.

FREE To induce you to send me a money order instead of stamps, I will give you my M. O. collection of flowers seeds **FREE** of all cost if you will only remit a money order with your order instead of stamps, as I receive large quantities of stamps I have to sell them at a loss, and thus I have decided to give my customers this loss. So be sure and remit by money order and get this **Grand Collection Free. Mention this on your order.**

SPECIAL POINTERS

ing you got my catalog.

Be sure to keep a copy of your order. Kindly do me the favor of sending me a card say-

PANSY PLANTS---Ready May 1st. **Best** **VERBENA PLANTS**---Ready May 1st.

Mixed Colors; doz. 25c postpaid.

Best colors; doz. 45c postpaid,

A CHOICE LIST OF

Standard • Vegetable • Seeds.

All known to be of good vitality—none better no matter what the price. The list comprises all of the Standard Varieties known to the Seed Trade. I issue this plain catalog in order to give my patrons the best seeds possible at a reasonable price. My patrons come year after year, and this proves that my efforts along this line are appreciated by them.

ASPARAGUS.

Conover's Colossal—The standard well-known variety. Pkt. 3c; oz. 5c.

Palmetto—Very early and desirable, large size and excellent quality. Pkt. 3c.

Mammoth White—A most excellent variety, with large clear white shoots. Pkt. 4c.

BEETS.

1 oz. to 50 feet of drill; 6lbs. to the acre.

Detroit Dark Red Turnip—

This is considered by many the best all around turnip beet, matures early and retains its crispness until very late in the season. It is medium in size,

flesh bright red and fine grained. Pkt. 4c; oz. 6c.

Extra Early Egyptian Turnip—The earliest, and excellent in quality. Deep crimson in color. Pkt. 3c; oz. 6c.

Crosby's Egyptian Turnip—A rounder form of the Extra Early Egyptian; tops small; fine tap-root and blood-red color. A grand market garden variety. Pkt. 4; oz. 6c; ¼lb. 20c.

Eclipse—A valuable variety of fine quality, coming in almost as early as Egyptian. It is highly esteemed for its richness of color. Pkt. 3c; oz. 6c; ¼lb. 20c.

Edmond's Early—An early variety of superior quality, grows very uniform in size, with a single tap-root;

color deep blood-red. Pkt. 4c; oz. 6c; ¼lb. 20c.

Bastian's Blood Turnip—Another very early variety, almost equal to the Egyptian in that respect. Color a blood-red. Pkt. 3c; oz. 7c; ¼lb. 15c.

Long Smooth Dark Blood—An excellent long late variety. Pkt. 3c; oz. 5c; ¼lb. 12c; ½lb. 20c; lb. 35c.

Swiss Chard or Silver Beet—Sometimes called Sea Kale Beets; excellent for greens. Pkt. 3c; oz. 6; ¼lb. 15c; ½lb. 25c; lb. 40c.

The following varieties are grown for Feeding Stock.

Mammoth Long Red Mangel Wurtzel—This variety is more generally grown for stock. Pkt. 2c; oz. 5c; ¼lb. 10c; ½lb. 18c; lb. 30c; 5lbs. \$1.25.

White Sugar—Attains a large size; is very sweet. Pkt. 2c; oz. 4c; ¼lb. 10c; ½lb. 15c; lb. 28c; 5lbs. \$1.25.

Yellow Globe Mangle Wurtzel—Identical with the Red Globe except in color. Pkt. 2c; oz. 4c; ¼lb. 10c; ½lb. 15c; lb. 28c. 5lbs. \$1.25.

BRUSSELS SPROUTS.

Resembles cabbage, excellent fine flavor. Sow seed in April. The small heads or sprouts are much improved by frost. Pkt. 2c; oz. 8c; ¼lb. 25c; ½lb. 45c; lb. 80c.

PREMIUM NO. 1.

NEW HAVEN WATCH.

Free with a \$3 order for Seeds in packets only, taken from this catalog. Everybody wants a watch, and I am pleased to offer my customers this watch, which is a good time keeper. Fully warranted to keep in good running order. Dust proof, nickel case with curled edge. By mail postpaid.

Any 10 Pkts. of BEETS on this page (without premium) for only 25 cents.

KALE.

Green Curled Scotch—Hardy, very finely fringed. Pkt. 3c; oz. 8c; $\frac{1}{4}$ lb. 20c; $\frac{1}{2}$ lb. 35c; lb. 60c.

Dwarf Curled or German Greens—Dwarf very finely fringed. Pkt 3c. oz. 8c, $\frac{1}{4}$ lb. 20c, $\frac{1}{2}$ lb. 35c; lb. 60c.

BEANS.

1 qt. will plant 200 hills.

Wardwell's Kidney Wax Dwarf—Hardy and productive. Pods long, broad, flat, and of a delicate waxy yellow, brittle and entirely stringless. Early and heavy yielder. Pkt 5, $\frac{1}{2}$ pt 12c, pt 20c, qt 38c.

Rust-Proof Wax—It is positively proof against rust. For while grown side by side for many years, with other Wax Beans, all of them more or less affected by rust, many of them completely ruined by it, this Bean remained entirely free from rust. Pkt 5c, pt 20c, qt 35c, pk \$1.50.

Davis Wax—The plant is a vigorous grower, carrying the pods well above the ground. The pods are long, straight and of a clear waxy color, often growing to a length of 7 or 8 inches. It is stringless. Pkt 5c, pt 20c, qt 35c, pk \$1.50.

Improved Prolific Black Wax—This Bean originated from the old Black Wax, but is much superior to its parent. It is much more productive and the pods are longer, straighter and rounder. Pkt 5c, pt 20c, qt 35c, pk \$1.50.

Golden Wax—One of the best Snap Beans, with golden yellow pods of excellent flavor. Pkt 5c, pt 20c, qt 35c, pk \$1.50.

Improved Golden Wax—An improvement on the old Golden Wax. Pods larger and more prolific. Pkt 5c, pt 20c, qt 35c, pk \$1.50.

Extra Early Round-Podded Valentine

—This is one of the very best Snap Beans, being very early and of first-class quality. The pods are round, fleshy, crisp and tender. Very productive; the best Early Green Bean for the market gardener or private grower. Pkt 5c, pt 20c, qt 35c, pk \$1.35.

Extra Early Refugee—Similar in all respects to the old Refugee, only that it is two weeks earlier; it is very prolific. Pkt 5c, pt 20c, qt 40c, pk \$1.25.

Lazy Wife—The pods grow long, entirely stringless and of a rich, buttery flavor, beans white. Vines cling to poles readily. Pkt 5c, pt 20c, qt 50c.

King of the Garden Lima—A strong and rapid grower. It sets its beans early and produces throughout the season an abundant supply of enormous pods, measuring from 5 to 8 inches in length, well filled with beans of excellent quality. Pkt 5c, pt 20c, qt 30c, pk \$1.85.

Burpee's Bush Lima—Grows about 20 inches high. Beans about the size of large Pole Limas. Pkt 5c, pt 20c, qt 35c, pk \$2.

Henderson's Bush Lima—The earliest and most productive of all the Bush Limas, coming in directly after the Green and Wax podded sorts; it is therefore a decided acquisition; filling up the gap between the Dwarf and Pole Beans. It is of true Bush form. Pkt 5c, pt 20c, qt 30c, pk \$1.75.

CAULIFLOWER.

1 oz of seed for 1,000 plants.

Early Snowball—One of the earliest and most carefully selected strains of Dwarf Erfurt, producing large white heads of fine quality. Pkt 10c, $\frac{1}{4}$ oz 65c, $\frac{1}{2}$ oz \$1.25, oz \$2.

Large Late Algiers—An excellent

PREMIUM NO. 2.

FINE BANJO FREE with \$5 for seeds in packets only. Nickel shell, wood lined, cherry neck, 7 brackets, 10-inch calfskin head. An a No. 1 instrument. Sent by express, not prepaid.

PREMIUM NO. 3.

SIX NUT PICKS and CRACKER FREE with a \$1 order for seeds in packets only, taken from this catalogue. A first-class set. Sent by mail postpaid.

Any 7 Pkts of Beans (without premium) by mail postpaid for 25 cents.

late variety, sure to form large heads; very popular with market gardeners on Long Island. Pkt 4c, $\frac{1}{2}$ oz 35c, oz 60c.

Extra Early Paris—A popular early variety with short stems, large leaves, heads good size. Pkt 4c, $\frac{1}{2}$ oz 36c, oz 60c.

Veitche's Autumn Giant—A distinct late variety. Heads are large, white, very firm and compact. Plants should be started early to insure their full development. Pkt 4c, $\frac{1}{2}$ oz 25c, oz 40c.

CABBAGE.

1 oz seed for 1,500 plants.

Any 8 pkts of Cabbage listed on this page (without premium) by mail paid for only 25c

EARLY WINNINGSTADT—One of the best varieties grown for early or late; heads pointed, very hard and solid; does well on light soils; of fine flavor,

crisp and tender. Pkt 3c, oz 12c, $\frac{1}{4}$ lb 35c, lb \$1.25.

EXTRA EARLY EXPRESS—The earliest cabbage known. Several days earlier than the Etampes. The heads are ox-heart in shape, small but solid, crisp, tender and fine flavored. Pkt. 3c, oz 15c, $\frac{1}{4}$ lb 40c, lb \$1.25.

LARGE JERSEY WAKEFIELD, OR CHARLESTON—A selected strain of the Early Jersey Wakefield, which in shape it very much resembles, but is larger and later. Pkt 4c, $\frac{1}{2}$ oz 10c, oz 18c, $\frac{1}{4}$ lb 60c, lb \$1.75.

THE LARGE EARLY YORK—Well-known early variety. Pkt 4c, oz 10c, $\frac{1}{4}$ lb 25c, $\frac{1}{2}$ lb 45c, lb 80c.

THE LUPTON CABBAGE—Fine, large late cabbage of vigorous growth; heads in perfect form, thick and flat. Pkt 4c, oz 12c, $\frac{1}{4}$ lb 40c, $\frac{1}{2}$ lb 70c, lb \$1.30.

EXCELSIOR LARGE LATE FLAT DUTCH—An improved and superior strain of the Late Flat Dutch variety. Has large solid heads, is white, tender and very fine grained. Pkt 4c, oz 20c, $\frac{1}{4}$ lb 55c, $\frac{1}{2}$ lb \$1, lb \$1.75.

BURPEE'S SURE HEAD—A fine winter sort, has large fine solid heads, with few other leaves and a sure header. Pkt 4c, oz 12c, $\frac{1}{4}$ lb 45c, $\frac{1}{2}$ lb 80c, lb \$1 50.

LARGE LATE AMERICAN DRUMHEAD—A very large late sort; round heads. Pkt 3c, oz 12c, $\frac{1}{4}$ lb 35c, $\frac{1}{2}$ lb 65c, lb \$1.20.

MAMMOTH ROCK RED—Used for pick-

PREMIUM NO. 4.

This Handsome Toilet Set FREE with a \$10 order for seeds in pkts. only, taken from this catalogue.

This Toilet Set is an elegant new design, beautifully decorated in five colors, hand painted, rose and scroll design, elegantly traced in gold coin. The set consists of Ewer and Basin, Chamber and Cover, Soap, Cover and Drainer, Month Ewer, Mug, Brush Vase.

Sent by Freight, not prepaid.

ling. Pkt 4c, oz 12c, $\frac{1}{4}$ lb 45c, $\frac{1}{2}$ lb 80c, lb \$1.50.

DANISH BALL-HEAD OR HOLLAND CABBAGE—Genuine and true stock grown in Denmark. This variety known as Ball-Head has been selected and perfected for more than fifty years by the Danish gardeners, who prize it so highly that they grow it almost exclusive for winter cabbage. Heads round as a ball, good size, solid and very fine grained of extremely delicate cooking quality. Pkt 5c, oz 25c, $\frac{1}{4}$ lb 75c, $\frac{1}{2}$ lb \$1.40, lb \$2.50.

CARROT.

1 oz will sow 100 ft of drill; 4 lbs per acre.

OXHEART OR GUERANDE—While not retaining the length of many of the other varieties, it will compare favorably in bulk of crop, as on good land it will produce carrots four to six inches in diameter. Pkt 3c, oz 6c.

EARLY SCARLET SHORT HORN—This is a favorite variety for early planting; the tops are small, roots top shape, stump rooted, color deep orange. Pkt 3c, oz 6c.

DANVER'S HALF LONG ORANGE—A first variety; the roots are smooth, medium length, tapering to a blunt point, flesh sweet. Pkt 3c, oz 6c.

LONG ORANGE—The old standard and popular variety, the roots are large size orange color. Pkt 3c, oz 6c.

MASTODON—This is the heaviest cropping carrot grown, yielding more tons to the acre than any other sort; the flesh is white, solid, crisp and very tender. Pkt 3c, oz 6c.

WHITE BELGIAN—A very productive field variety, grows about one-third out of the ground. Pkt 3c, oz 6c.

Any 6 pkts of Carrots (without premium) for only 12 cents.

CELERY.

1 oz of seed for 5,000 plants.

NEW GIANT PASCAL—This remarkable new variety is a selection thoroughly established from our Golden Self-Blanching; and excellent keeper; of fine nutty flavor. Grows about two feet high, stalks very broad, thick and crisp. The heart is golden yellow. Pkt 4c, oz 12c, $\frac{1}{4}$ lb 40c, $\frac{1}{2}$ lb 70c, lb \$1.25.

GOLDEN SELF-BLANCHING—Grows to a very large size, and is very stocky and robust. The stalks grow vigorously; it is entirely self-blanching; the heart is beautiful golden yellow, large, crisp and solid. Pkt 4c, oz 15c, $\frac{1}{4}$ lb 50c, $\frac{1}{2}$ lb 90c, lb \$1.70.

IMPROVED GOLDEN HEART—One of the best; heart of beautiful golden color. When blanched the heart, which is large and full is of a waxy golden yellow. Pkt 3c, oz 10c, $\frac{1}{4}$ lb 30c, $\frac{1}{2}$ lb 50c, lb \$1.

PERFECTION HEARTWELL—With magnificent large golden yellow heart. This is one of the largest and finest celeries for winter use. Pkt 3c, oz 10c, $\frac{1}{4}$ lb 35c, $\frac{1}{2}$ lb 60c, lb \$1.10.

PINK PLUME—A perfect plume in character, excepting color which is of a delicate shade of pink. Pkt 4c, oz 12c, $\frac{1}{4}$ lb 50c, $\frac{1}{2}$ lb 80c, lb \$1.50.

WHITE PLUME—The white plume is naturally white. The earliest celery in cultivation. Pkt 4c, oz 12c, $\frac{1}{4}$ lb 40c, $\frac{1}{2}$ lb 70c, lb \$1.25.

Any 3 pkts of Celery (without premium) for only 10 cents.

VINE PEACH OR MANGO MELON.

After ripe a short time they become mellow; for use in any shape. Fine

PREMIUM NO. 5.

This Camera Free with a \$6 order for seeds in pkts. only.

A first-class Camera in every way, taking pictures $3\frac{1}{2} \times 3\frac{1}{2}$ in.; it is neat and compact, has achromatic lens of universal focus, an automatic shutter and everything that goes to make up a first-class Camera. Sent complete without double-plate holder. By express; not prepaid.

for pickles, pies, preserves, etc. Good fried in butter when green. Desirable where fruit is scarce. Pkt 3c, oz 15c.

ENDIVE.

One of the best salads for fall and winter use.

GREEN CURLED—Very hardy, leaves dark green. Pkt 3c, oz 6c, $\frac{1}{4}$ lb 15c.

FRENCH MOSS CURLED—Pkt 3c, oz 6c, $\frac{1}{4}$ lb 15c.

CUCUMBER.

1 oz of seed for 50 hills.

EARLY RUSSIAN—The earliest variety; it sets in pairs. Pkt 3c, oz 15c.

IMPROVED LONG GREEN—Excellent quality; fruit long, dark green, fine and crisp. Pkt 3c, oz 15c.

NEW JAPANESE CLIMBING—Entirely distinct, each vine producing from 25 to 30 cucumbers. even on poor soil. The quality is splendid. Pkt 4c, oz 15c.

COOL AND CRISP—The skin is a very dark green, almost black, and covered with knots upon which the spines set, which give the pickles a very attractive appearance. Pkt 3c, oz 15c.

EARLY CLUSTER—A short, early variety, growing in clusters. Pkt 3c, oz 15c.

EARLY FRAME OR SHORT GREEN—A popular variety of medium size. Pkt 3c, oz 15c.

GREEN PROLIFIC—One of the very best pickling sorts, very uniform in growth, hardly ever yielding cucumbers too large for pickling, exceeding productive. Pkt 3c, oz 15c.

BOSTON PICKLING—Very productive kind, fine quality. Pkt 3c, oz 15c.

EVERGREEN WHITE SPINE—An improved strain of the White Spine. Deep green color and remaining green longer than others. Pkt 3c, oz 15c.

Any 10 pkts. of Cucumbers (without premium) for only 25 cents.

CORN.

1 qt will plant 200 hills.

EXTRA EARLY SORTS.

FIRST OF ALL—A selection from

Cory, coming in a few days earlier than that variety, is about the same size. Pkt 5c, pt 20c, qt 30c.

CORY EARLY—A favorite early sweet corn with market gardeners. It is dwarf in habit, and the ears, which are of fair market size, are set low, each stalk usually producing two or three good ears. Pkt 5c, pt 20c, qt 35c.

MAMMOTH WHITE COB CORY—Similar to the Cory Early, but has the additional merit of being the earliest white cob variety in the market. Pkt 5c, pt 20c, qt 35c.

EARLY MINNESOTA—Very early, most excellent variety; ears good size and uniform. Pkt 5c, $\frac{1}{2}$ pt 8c, pt 20c, qt 35c.

CROSBY'S EARLY—One of the standard early sorts, ears of medium size, fine quality. Pkt 5c, pt 20c, qt 35c.

LATE SORTS.

STOWELL'S EVERGREEN—A well-known good late sort of excellent quality. Pkt 5c, $\frac{1}{2}$ pt 8c, pt 20c, qt 40c.

COUNTRY GENTLEMAN—In this we have a variety which produces ears of full size, retaining all the delicious sweetness and high quality of the original No Plus Ultra. The crop can be counted on to give 3 to 5 ears to

Premium No. 6.

This Handsome Lamp given FREE with an \$8 order for seeds in pkts only.

A large parlor lamp 27 inches high, fitted with the celebrated royal center draft fount, gold finished metal, decorations of pink and yellow on a full-tinted ground, representing a delicate design, 10-inch globe to match base. A high grade lamp in every particular, being free-hand work by the best artists.

You Can Get some of my premiums with a little work. Take this catalogue and go among your friends and see how fast you can get orders.

a stalk. The cob is very small thereby giving great depth to the kernels. Pkt 5c, $\frac{1}{2}$ pt 8c, pt 20c, qt 40c.

POP CORN.

MONARCH WHITE RICE—This combines great productiveness, uniformity of type, tenderness, whiteness, sweetness, and greatest bulk after being popped. It bears from 3 to 6 ears to the stalk. By far the best market sort. We cannot too highly recommend it. Pkt 5c, $\frac{1}{2}$ pt 12c, pt 20c, qt 35c.

Any 6 pkts corn (without premium) postpaid for only 25 cents.

MUSKMELON.

1 oz will plant 200 hills.

JENNY LIND—An early variety of small size, delicious flavor; pkt 3c, oz 6c, $\frac{1}{4}$ lb 20c, $\frac{1}{2}$ lb 35c, lb 60c.

EXTRA EARLY HACKENSACK—Large, very productive and of delicious flavor, very fine for market or family; pkt 3c, oz 6c, $\frac{1}{4}$ lb 20c, $\frac{1}{2}$ lb 35c, lb 60c.

ROCKYFORD—This has become one of the most popular of small or basket melon. The fruit is oval, slightly

ribbed, densely covered with coarse netting. Flesh thick, green, very sweet; pkt 3c, oz 10c.

GRAND RAPIDS—An extra early, yellow-fleshed sort. It is a most profitable sort to the market gardeners on account of size and its extreme earliness; pkt 3c, oz 10c.

MILLER'S CREAM—Most delicious. The flesh is a rich salmon in color, very thick, sweet and rich; pkt 2c, oz 10c.

EMERALD GEM—Fruit of medium size, skin smooth, of a deep emerald green color. The flesh is of a diffused salmon and ripens thoroughly to the extremely thin green edge; pkt 2c, oz 10c.

GOLDEN NETTED GEM—Thick meat-flesh, light green in color and uniform in shape, luscious flavor. Very prolific, extra early, fine for market; pkt 3c, oz 10c.

PAUL ROSE OR PESOSKEY—A fine new variety. It is a great producer, quality extra fine, firm and solid with small seed cavity and thick flesh; pkt 4c, oz 7c, $\frac{1}{4}$ lb 20c, $\frac{1}{2}$ lb 35c, lb 60c.

Any 4 pkts muskmelon (without premium) postpaid for only 10 cents.

RHUBARB.

WESTERN MARKET—Finest variety, is very productive, large size, very early; the finest variety in existence. Pkt 1c.

SALSIFY.

MAMMOTH SANDWICH ISLAND—Of extra large size, in every way preferable to the other varieties, being larger and a strong grower. Invaluable to market gardeners. Pkt 3c, oz 10c.

PREMIUM NO. 7.

Free with a \$5 order for seeds in pkts only. Enlarged model, standard size, mahogany finish cedar neck, walnut finger board, position dots, etc. A reliable instrument. By express, not prepaid.

LETTUCE.

1 oz will sow 200 ft of drill.

New York or Wonderful—A superior summer cabbage lettuce, heads often weighing four or more pounds, solid, crisp, tender, of excellent flavor.

Improved Watson—This variety makes large solid heads. The outer leaves are green, the inner leaves are white, very tender and crisp.

Early Prize Head—Grows to a large size, even the outer leaves are crisp and of fine flavor. The outer leaves are of a reddish-brown color.

Black Seeded Simpson or Perpetual—This does not form a head but a compact mass of leaves, which are tender and of excellent quality and of rapid growth.

Black Seeded Tennis Ball—A hard heading variety with but few outer leaves, can be planted close, desirable for forcing.

Silver Ball—Heads silvery white, firm, rich flavor, leaves curled.

Golden Nugget or Golden Queen—Very early, heads small, rich golden-yellow color, solid, crisp and tender; pkt 4c, oz 10c, $\frac{1}{4}$ lb 30c.

Denver Market—It forms large heads of a light green color, very crisp and tender and of the best flavor. The leaves are beautifully marked and blistered like Savory cabbage.

Grand Rapids Forcing—There is nothing superior for growing under glass, grow more weight in the same space, is not as liable to rot, and will keep longer without wilting than any other variety, it is of fine appearance, crisp and tender. It is also valuable for outdoor growing.

Deacon—A large, solid, cabbage lettuce for summer, heads light green.

Mixed Lettuce Seed—Contains a mixture of all of the above.

ALL VARIETIES OF LETTUCE, unless not-

ed, Pkt 3c, Oz 8c, 1-4 lb 25c, lb 80c.

Any 10 pkt of lettuce (without premium) for only 25 cents.

OKRA OR CUMBO.

White Velvet—Very distinct in appearance. Unlike other varieties, the pods are not ridged, but perfectly round, smooth of an attractive white velvety appearance and superior flavor; pkt 3c, oz 5c, $\frac{1}{4}$ lb 12c, $\frac{1}{2}$ lb 20c, lb 35c.

ONION.

1 oz will plant 100 ft of drill.

NOTE—It pays to plant only the best. My seed will produce the very best crops of sound long keeping bulbs.

Yellow Globe Danvers—(Choice Stock)—The standard variety, both for market-gardeners and private use. It grows very uniform in shape, is very productive, mild-flavored, ripens early, and is a splendid keeper; pkt 4c, oz 10c, $\frac{1}{4}$ lb 30c, lb 90c.

Large Red Globe—(Southport Type)—Of handsome globe-shaped and rich deep red color, making it a very desirable sort. It is a splendid keeper and of excellent quality. We offer the true Southport strain, which is unequaled; pkt 4c, oz 15c, 2 oz 25c, $\frac{1}{4}$ lb 40c, lb \$1.25.

Large White Globe—(Southport Type)—A large, handsome, globe-shaped Onion. The skin and flesh are a beautiful clear white. Flesh firm, very fine grained, and exceedingly mild in flavor. It is also a splendid keeper, and always commands a high price in the market; pkt 4c, oz 20c, 2 oz 35c, $\frac{1}{4}$ lb 60c, lb \$2.

White Portugal, or Silver Skin—An excellent keeper and good yielder. Extensively grown for pickling. The bulb is handsome and mild-flavored;

PREMIUM No. 8.

This Beautiful Rug FREE with a \$4 order for seeds in pkts only. Size 30x60 inches, peacock and flowers in natural colors on a shaded light ground. Sent by express, not prepaid.

pkt 4, oz 20c, 2 oz 35c, $\frac{1}{4}$ lb 65c, lb \$2.25.

Southport Yellow Globe—A very handsome onion; oblong shape like the Large White Globe, and resembles that variety in every respect except in color; pkt 4c, oz 15c, 2 oz 25c, $\frac{1}{4}$ lb 35c, lb \$1.

Australian Brown—An extra early long keeping, medium sized globe-shaped Onion, ripening three or four weeks ahead of Red Weathersfield. The color is a clear brown amber, and they are remarkable keepers, onions having been kept a whole year in first-class condition; pkt 4c, oz 10c, $\frac{1}{4}$ lb 30c.

Red Weathersfield—A standard red variety; pkt 4c, oz 10c, lb \$1.

Prizetaker—The largest of all onions; single specimens have been grown to weigh over six pounds. It is of nearly perfect globe shape, beautiful bright straw color. Its flesh is white, tender, mild and of delicate flavor; pkt 4c.

Yellow Bottom Sets—By mail, prepaid pt 15c, qt 25c, 3 qts 70c. By express or freight, not prepaid, pt 6c, qt 12c, pk 75c, bu \$2.50.

White Bottom—By mail, pt. 15c, qt 25c, 3 qts 70c. By express or freight pt 8c, qt 15c, pk 80, bu \$3.

Red Bottom Sets—Same price as Yellow Bottom.

SPECIAL.

Any 5 pkts of onion seed (without premium) for only 10c postpaid.

DANDELION.

Improved Large Leaved, very early; if sown in May will be fit to cut in

July. A very valuable variety; pkt 4c, $\frac{1}{2}$ oz 25c, oz 40c.

WATER MELONS.

1 oz of seed will plant 50 hills.

[My seed is saved from melons grown exclusively for seed by seed-growers of experience.]

Jones Jumbo—The shape is round, color green, with faint lightish stripes; the meat is deep red and of excellent flavor. Lb 60c, 1-4 lb 20c, oz 7c, pkt 3c, five pounds by express \$2.

Early Fordhook—Extra early. The form is nearly round. The rind is tough, making it a valuable variety for shipping; the outer color is a uniform medium green; seeds white. Lb 75c, 1-4 lb 25c, oz 7c, pkt 3c, five pounds by express \$3.

The Dixie—One of the best shipping Melons grown. Darker than Kolb's Gem, and more beautifully striped; unexcelled for eating. Lb 50c, 1-4 lb 15c, oz 7c, pkt 3c, by express in five and ten pounds lots 30c pound.

True Ice Cream—The great home-market melon. It has too thin a rind for shipping. Flesh bright scarlet, solid to center; melting and delicious. Lb 60c, 1-4 lb 20c, oz 7c, pkt 3c.

Improved Kolb's Gem—It is fully a week earlier in ripening than the ordinary Kolb's Gem, besides growing much larger and being a heavier yielder. Lb. 50c, 1-4 lb 20c, oz 7c, pkt 3c, by express 1 lb 40c, 5 lbs \$1.75, 10 lbs \$3.20.

Cole's Early—The earliest and sweetest water melon. Just the water melon for the home market; ripens

PREMIUM NO. 9

This 15-piece Florence Pattern Silverware Set FREE with a \$5 order for seeds in pkts only.

Sent by express, not prepaid.

with us during August. Flesh a beautiful bright red color, deliciously sweet and refreshing. Pkt 3c, oz 7c, 1-4 lb 20c.

Phinney's Early—Flesh deep red, of fine quality; early and productive. Pkt 3c, oz 7c, 1-4 lb 20c.

Peerless—Size medium, color mottled green; flesh rich, scarlet and sweet; vine very productive and a good shipper. Pkt 3c.

SPECIAL.

Any 5 pkts of water melon seed (without premium) for only 10 cents postpaid.

PEAS.

1 qt will plant 125 ft of drill.

EXTRA EARLY SORTS.

Gradus, also called Prosperity—This is certainly a wonderful new pea. It ripens nearly as early as Alaska, grows to nearly three feet in height; produces large, handsome pods. It ripens quickly and should be picked as soon as fit for the table. Pkt 5c, 1-2 pt 17c, pt 30c, qt 50c.

American Wonder—Grows 10 to 12 inches high, very large pods and peas of the finest flavor, one of the earliest wrinkled peas in cultivation. Large pkt 5c, 1-2 pt 12c, pt 20c, qt 35c.

Nott's Excelsior—This is an early dwarf wrinkled pea, usually ready for the table in forty or fifty days from planting, only a few days later than the early round sorts. It grows about 14 inches high. Pkt 5c, 1-2 pt 12c, pt 20c, qt 35c, 1-8 bu 65c, 1-4 bu \$1.30, 1-2 bu \$3, bu \$5.

Cleveland's Early Alaska—The Alaska is the earliest of all peas, is the most prolific and good flavored of all the early peas. The Alaska is from two days to a week earlier than any other pea. Large pkt 5c, 1-2 pt 10c, pt 17c, qt 32c, 1-8 bu 65c, 1-4 bu \$1.20, 1-2 bu \$2.20, bu \$4.25.

Extra Early Premium Gem—Long pods and of a dark green color; prolific.

One of the earliest and best of the wrinkled sorts. Pkt 5c, 1-2 pt 10c, pt 20c, qt 35c, 1-2 bu 70c, 1-4 bu \$1.30, 1-2 bu \$2.50.

SECOND EARLY SORTS.

McLean's Advancer—An excellent second early wrinkled sort. Pkt 5c, 1-2 pt 10c, pt 17c, qt 32c, 1-8 bu 65c, 1-4 bu \$1.20, 1-2 bu \$2.30, bu \$4.50.

Horsford's Market Garden—A grand wrinkled variety, coming in between Little Gem and Advancer. Vine two feet high; is very stocky and requires no brushing. Pkt 5c, 1-2 pt 10c, pt 17c, qt 32c, 1-8 bu 65c, 1-4 bu \$1.20, 1-2 bu \$2.30, bu \$4.50.

Heroine—Is a medium early green wrinkled pea, and grows uniformly two to two and a-half feet high. It bears a profusion of large, long, slightly curved, pointed pods. Pkt 5c, 1-2 pt 10c, pt 18c, qt 32c, 1-8 bu 70c, 1-4 bu \$1.25, 1-2 bu \$2.40, bu \$4.70.

LATE SORTS.

Bliss' Everbearing—The vines grow about 18 inches high, throwing out from the axil of each leaf branches, which in turn bear pods; peas are of superior flavor and very tender. Pkt 10c, pt 20c, qt 35c, pk \$1.25.

Champion of England—One of the best sorts. Pkt 5c, 1-2 pt 10c, pt 16c, qt 30c, ½ bu 50c, ¼ bu 90c, ½ bu \$1.70, bu \$3.25.

Telephone—A standard late sort, a tall wrinkled variety, 4 feet vines, large pods full peas, fine flavor.

PARSNIP.

One oz to 200 feet of drill; 5 to 6 lbs per acre in drills.

Long Smooth, or Hollow Crown—A favorite variety. Pkt 2c, oz 5c, ¼ lb 15c.

Student—Not so generally used as the preceding, but by many highly esteemed. Pkt 2c, oz 5c, ¼ lb 15c.

Guernsey—(Improved Half-Long)—

Premium No. 10.

This Mandolin Free

with a \$4 order for seeds in pkts only. Maple and walnut; 9 ribs, high varnish finish, orange color top, walnut finger board, pearl dots, ebony keys, American head. It will suit you.

An improvement on the old Hollow Crown, forming roots shorter and thicker than that variety. It is a large cropper, very smooth, and the flesh is fine-grained and of excellent quality. Pkt 2c, oz 5c, $\frac{1}{4}$ lb 15c.

PUMPKIN.

Jumbo, or King of the Mammoths—The largest of all pumpkins, often weighing 250 pounds. Cheese-shaped, color usually pale yellow; although sometimes green when ripe. Pkt 3c, oz 5c, $\frac{1}{4}$ lb 50c.

Connecticut Field—Very productive. Largely grown for feeding stock. Pkt 3c, oz 5c, $\frac{1}{4}$ lb 15c.

New Winter Luxury—This I recommend as one of the best pie pumpkins; an excellent keeper and enormously productive. It is very finely netted and in color it is a golden russet. Pkt 4c, oz 8c, 2 oz 15c, $\frac{1}{4}$ lb 25c, $\frac{1}{2}$ lb 40c, lb 75c.

Calhoun—An excellent pie sort; flesh deep salmon, very thick and fine-grained. It is round in shape, slightly flattened at the ends; skin creamy brown. Pkt 4c, oz 10c, $\frac{1}{4}$ lb 20c.

Quaker Pie—Oval in shape, tapering to ends, creamy white in color both outside and in; of excellent quality and a good keeper. Pkt 3c, oz 5c, $\frac{1}{4}$ lb 25c.

SPECIAL.

The 5 pkts of pumpkin (without premium) for only 10 cents.

PEPPER.

1 oz seed for 1,000 plants.

Ruby King—A most excellent variety. The fruit is large and of a beautiful ruby red color and is remarka-

bly mild, often being eaten sliced with pepper and vinegar like tomatoes. Pkt 3c, oz 20c, $\frac{1}{4}$ lb 60c.

Large Bell, or Bull Nose—Early and mild; rind thick and fleshy. Much used in its natural state and for pickling. The best of the large peppers. Pkt 3c, oz 20c, $\frac{1}{4}$ lb 60c.

New Celestial—A very prolific variety with small fruits two or three inches long. Pkt 3c, oz 20c, 1-4 lb 60c.

Long Red Cayenne—Fruit bright red, conical, from three to four inches in length; very productive. Pkt 3c, oz 20c, 1-4 lb 60c.

Golden Durn—A beautiful variety, similar in size and shape to the Bull Nose, but altogether different in color being a beautiful golden yellow. It is of a very superior flavor. Pkt 3c, oz 20c, 4 oz 60c.

Mixed in Variety—Containing the most desirable for sauces, pickles and mangoes. Pkt 5c.

SPECIAL.

Any 6 pkts peppers (without premium) for 12 cents postpaid.

NEW COFFEE BERRY.

The best coffee substitute every discovered. Matures in all latitudes in four months. Plant in rows three feet apart, one berry every ten inches and cultivate like corn and beans; are easily raised. A single plant will produce from 150 to 250 pods. Mix about half and half with coffee and you will have a perfect drink. Price pkt 5c, $\frac{1}{2}$ pt 12c, pt 20c, qt 35c, postpaid. By express $\frac{1}{2}$ bu 60c, 1-4 bu \$1.

SPINACH.

Sow in rich ground in drills from 12 to 15 inches apart. For early spring use sow seeds early in autumn. For

NO. 11.

Gent's Purse Free with a 60c order for seed in pkts only. Size of purse 3 $\frac{1}{2}$ x 4 in. has three compartments, nickel-plated frame, Russian calf. By mail postpaid.

summer use sow from early spring until August.

Bloomdale Savoy Leaved—Leaves are wrinkled like on Savoy Cabbage. Pkt 2c, oz 4c, 4 oz 10c, 8 oz 18c, lb 30c, 4 lbs \$1.

Round Leaved—The well known standard sort. Pkt 2c, oz 4c, 4 oz 10c, 8 oz 18c, lb 30c, 4 lbs \$1.

Long Standing—Excellent, and very slow to run to seed. Decidedly one of the best sorts. Pkt 2c, oz 4c, 4 oz 10c, 8 oz 18c, lb 30c, lbs \$1.

1 oz seed 100 ft drill.

EARLY RADISHES.

Earliest Deep Scarlet Forcing—(Non Plus Ultra)—Similar to the preceding, only that the color is darker, resembling the early Round Dark Red, but earlier and smaller in the tops. This is also an excellent forcing sort. Pkt 3c, oz 8c, 4 oz 25c.

Scarlet Turnip—The standard variety for market. Pkt 3c, oz 8c, 4 oz 20c.

Early Round Dark Red—A favorite market variety, similar in shape to the Scarlet Turnip, but much darker colored, handsome root, flesh white and crisp. Pkt 3c, oz 10c, 4 oz 20c.

White Tipped Scarlet Turnip—(Rosy Gem)—An early variety of medium size and very handsome appearance. Pkt 3c, oz 10c, 4 oz 20c.

White Olive Shaped—(White Rocket)

—A valuable forcing variety. Pkt 3c, oz 10c, 4 oz 20c.

French Breakfast—Of quick growth; very mild and tender. Pkt 3c, oz 6c, 4 oz 20c.

Scarlet Olive Shaped—Oblong, flesh rose colored; good for summer. Pkt 3c, oz 8c, 4 oz 20c.

Long Scarlet Short Top—A favorite variety for private gardens. Pkt 2c, oz 8c, 4 oz 20c.

LATE RADISHES.

Golden Globe—Of particularly fine flavor, very early and well adapted for either forcing or open ground culture. Pkt 3c, oz 10c, 4 oz 20c.

Beckert's Chartier—An attractive and distinct long variety. Grows to a large size and very tender. Color at the top bright crimson, shading to pink at the middle and running to pure white at the tip. Pkt 3c, oz 10c, 4 oz 20c.

Long Black Spanish—One of the best for winter use. Pkt 3c, oz 10c, 4 oz 20c.

California Mammoth—A very large white winter Radish of excellent quality. Pkt 3c, oz 10c, 4 oz 25c.

SPECIAL.

Any 10 pkts of radishes for 25 cents.

No premium allowed at this reduced price.

LEEK.

1 oz will sow 200 ft of drill.

Sow as early in spring as practicable in drills one inch deep and foot apart, thin to about 3 inches apart.

American Flag—The most desirable for market or family use. Pkt 2c.

Musselburge—A very large variety of superior quality. Pkt 2c, oz 15c.

MUSTARD.

Culture the same as for Cress. Fine for salads; leaves large, flavor sweet and pungent. Pkt 2c.

Premium No. 12.

Ladies' Aluminum Companion

FREE with a 75c order for seeds in pkts only. Contains one 7-in comb, two fancy thimbles, 24 hair-pins all in a leatherette case.

SQUASH.

Essex Hybrid—It is a cross between the Turban and Hubbard, having the shape and color of the former. The flesh is very thick and solid; a good keeper. Pkt 3c, oz 5c, 4 oz

15c, 8 oz 28c, lb 50c.

Marblehead—Resembling the Hubbard, but flesh lighter in color; a fine variety; good flavor. Pkt 3c, oz 6c, 4 oz 15c, 8 oz 25c, lb 40c.

Prolific Orange Marrow—The skin is of a deep orange; the flesh is very thick, fine grained. Pkt 3c, oz 5c, 4 oz 15c, 8 oz 25c, lb 40c.

White Pineapple—A fall and winter variety. The skin and flesh are of a pure creamy white color, flesh of very fine grain and of excellent quality. Pkt 3c, oz 5c, 4 oz 15c, 8 oz 25c, lb 40c.

True Hubbard—A general favorite; is more largely grown for winter use than any other variety; dry and excellent flavor. Our stock is true and very fine. Pkt 4c, oz 6c, 4 oz 16c, 8 oz 28c, lb 50c.

Perfect Gem—Small, yet desirable for both summer and winter use; productive, often yielding 15 to 20 to the vine. Pkt 3c, oz 5c, 4 oz 15c, 8 oz 25c, lb 40c.

Mammoth Chili—Of mammoth size, often weighing over 150 pounds. Pkt 4c, oz 8c, 4 oz 20c, 8 oz 36c, lb 60c.

White Bush Scalloped—An early summer variety. Pkt 3c, oz 5c, 4 oz 15c, 8 oz 25c, lb 40c.

Yellow Bush Scalloped—Similar to the preceding except in color. Pkt 3c, oz 5c, 4 oz 15c, 8 oz 25c, lb 40c.

Giant Golden Summer Crook-Neck—Early and good quality; fruit of Orange yellow. Pkt 3c, oz 5c, 4 oz 15c, 8 oz 25c, lb 40c.

Fordhook—The flesh is dry and sweet; of best quality. In a cool, dry room it keeps in perfect condition until late in June. Pkt 3c, oz 5c, 4 oz 15c, 8 oz 25c, lb 40c.

Faron's Brazilian—It is remarkably prolific in habit; quality dry and rich without regard to the size, coloring or time of ripening of the fruit—something entirely different in this respect from any other squash. Its valuable points are "earliness, long-keeping and high table qualities." We are recommending it all for general use in the home garden. Pkt 4c, oz 10c, 4 oz 25c, lb 75c.

SPECIAL.

Any 5 pkts of squash for 15 cents.
No premium allowed at this reduced price.

Tomato.

1 oz seed for 1,500 plants.

Acme—One of the earliest and handsomest varieties introduced; fruit medium size; very solid and a great bearer; color distinct, being pink or dark crimson. Pkt 3c, oz 15c, ½ lb 50c, ½ lb 80c, lb \$1.50.

Paragon—A fine sort; deep red, one of the best; a valuable market sort. Pkt 3c, oz 15c, ½ lb 50c, ½ lb 80c, lb 1.50.

Perfection—Fruit medium large, almost round, enormously productive, is solid, has tough skin; very valuable for shipping. Pkt 3c, oz 15c, ½ lb 50c, ½ lb 80c, lb 1.50.

Atlantic Prize—It is the most valuable early market variety ever introduced. The fruit is borne in immense clusters each vine producing from sixty to eighty large fruits. Pkt 3c, oz

Premium No. 13.

THIS DRESS SUIT CASE FREE

with a \$5.00 order for seed in pkts only. Waterproof, imitation leather, neatly grained, heavy leather, patent brass-spring lock. Sent by express, not prepaid.

15c, 4 oz 50c, 8 oz 80c, lb \$1.50.

Ponderosa No. 400—The vines are strong and vigorous, and easily carry their enormous weight of fruit. Tomatoes weighing nearly 4 pounds have been grown and specimens weighing two or three pounds each are of common occurrence. Pkt 5c, oz 20c, 4 oz 60c.

Mikado—Foliage differs from any other, the large leaves being entire and not cut; fruit extra large size and very solid; color deep crimson. Pkt 3c, oz 15c, 4 oz 50c, 8 oz 80c, lb \$1.50.

Burt's Snowball—Grand new variety, pearly white in color and of excellent flavor, great yielder, unsurpassed for table, pickling and canning purposes. Pkt 2c, oz 20c.

Dwarf Champion Bush Tomato—It is of peculiar growth and habit, dwarf and compact, with thick, stiff stems self-supporting, upright growth, allowing it to be planted much closer together than other varieties. It is VERY EARLY, being of a purplish pink color, handsome and of fine quality. Pkt 4c, oz 15c, 4 oz 50c, 8 oz 80c, lb \$1.50.

Livingston's Beauty—The color is quite distinct, being a very dark crimson, shading in purple, the color alone

bringing it into favor; cannot be excelled. Pkt 4c, oz 12c, 4 oz 40c, 8 oz 70c, lb \$1.25.

Golden Prize—New golden yellow sort; flesh is thick and of extra good quality, grows in clusters and produces enormous crops. This one will please you. Pkt 2c, oz 15c.

Optimus—The best tomato as far as quality is concerned. Vine medium size but vigorous, healthy and productive; fruit oval, medium size, very smooth and exceedingly bright crimson scarlet color. Pkt 2c, oz 12c.

Turnip.

1 oz seed to 150 feet of drill.

Extra Early White Milan—An all white variety of the well known Purple Top Milan. It is the earliest turnip grown, flat in shape and clear white throughout. It is so rapid a grower that even the outer skin of the bulb is quite tender. Pkt 2c, oz 10c, 4 oz 20c.

Extra Early Milan Purple Top—The earliest of all the turnips. Purple topped above ground, white underneath, flesh clear white; very desirable variety for forcing or early work. Pkt 2c, oz 10c, 4 oz 20c.

Get Up a Club Order for Burt's Seeds.

Who knows, you may be able to get this Couch. A first-class Couch in every way.

Red Top Strap Leaf—A rapid grower; the most popular variety for early use; color above ground a deep red, below white; flesh clear white throughout and fine grained; excellent for table. Pkt 2c, oz 10c, 4 oz 20c, lb 50c.

Early White Strap Leaf—Different from the preceding only in color. Pkt 2c, oz 10c, 4 oz 20c, lb 50c.

Early White Flat Dutch—Of medium size, white and quick growth. Pkt 3c, oz 6c, 4 oz 15c, 8 oz 25c, lb 40c.

Purple Top Strap Leaf—Early, of rapid growth and mild flavor; the most popular variety in use. Pkt 3c, oz 6c, 4 oz 15c, 8 oz 25c, lb 40c.

Rutabaga.

SWEDISH OR RUSSIAN TURNIP.

Improved Purple Top—A most excellent sort for either table or stock; yields heavily without tendency to long neck. Pkt 2c, oz 10c, 4 oz 15c.

Skirring's Purple Top—A good variety for table or stock; grows to a large size; flesh firm, solid and sweet, and a good keeper. Pkt 3c, oz 10c, 4 oz 15c.

Imperial Purple Top—Very hardy and productive; flesh yellow, solid, sweet and fine flavored; equally good for stock or table use. Pkt. 3c, oz 10c, 4 oz 15c, lb 45c.

Large White, or Sweet German Rutabaga—An excellent variety; flesh white, firm and solid, grown to a large size and has a very rich flavor. Pkt 2c, oz 10c, 4 oz 20c.

For large quantities, write for special prices

Parsley.

1 oz seed for 150 feet of drill.

Extra Double Curled—A dwarf, beautifully curled sort; excellent for garnishing. Pkt 2c, oz 10c, 4 oz 20c.

Champion Moss Curled—A beautifully

crimped and curled variety. Pkt 2c, oz 10c, 4 oz 20c.

Fern Leaved—A beautiful variety; valuable for table decoration. Pkt 2c, oz 10c, 4 oz 20c.

EGG PLANT.

A tender plant. Sow in hot bed or small box in the house; transplant in as warm a place in the garden as you have after settled warm weather.

New York Improved—The leading market variety. Pkt 4c, oz 20c, 1-4 lb 75c.

Black Pekin—Round handsome fruit jet black. Pkt 4c, oz 20c, 1-4 lb 75c.

White Pearl—The fruit is pure creamy white with slight shading of a very light green near the stem; beautiful in shape and as large or larger than the purple; flavor superior delicate, fine grained; good boiled and fried. Pkt 4c, oz 25c.

BROCOLI. Spargel Kohl.

Early Purple Cape—The best variety; heads compact and of a purple color similar to cauliflower but more hardy. Pkt 3c, oz 25c.

BRUSSELS SPROUTS. Sprossen Kohl.

Allied to the cabbage family; producing small heads from the side of the stem resembling small cabbage and used in the same manner.

Improved Dwarf, or Perfection—The best variety; a delicious vegetable that should be grown in every garden. Pkt 3c, oz 15c, 1-4 lb 35c.

Burt's Select FLOWER SEED.

* : In revising my list of Select Flower Seeds from year to year I omit some of the less popular varieties heretofore catalogued, and add the latest and best improved strains. I present to our patrons an "Up-to-Date" list of the very choicest and most popular varieties of the day; mostly of easy cultivation

I spare no effort to have Burt's Select Flower Seeds of the Best Quality in every respect. Burt's Unsurpassed Mixtures of Asters, Balsams, Hollyhocks, Nasturtiums, Sweet Peas, Pansies, Phlox, Poppies, etc., are our own mixtures of a great variety of the best named sorts and strains, and will be second to none in the beauty of their colorings and fine effect. By purchasing these mixtures a grand display can be had at a very small expense. The price indicated below is by the package.

Abutilon—Flowering Maple or Chinese Bell Flower, handsome bush for pots, easy to grow, blooms freely from seed the first summer 5c.

Ageratum—Blue and white. 3c

Alyssum—(Little Gem)—A beauty, compact habit, spreading, single plants 15 to 30 inches across, a solid mass of bloom; 600 clusters have been counted at one time on one plant, the clusters are better for cutting than other kinds. 4c.

Best Mixed New Sweet Peas.

Our Gilt-Edged or Unsurpassed Mixture.

This new mixture of sweet peas is undoubtedly the finest ever offered. Our own special mixture, it contains only grand, new-named varieties of the large flowering type. The seed has been carefully grown from selected stocks and mixed by ourselves. This contains the best colors, largest flowers and is the most perfect mixture that can be had; it includes all of Eckford's latest introductions as well as others, and we claim that there are no better colors offered in any collection; there are 40 varieties in this mixture; pkt 3c, oz 6c, $\frac{1}{4}$ lb 20c.

SWEET PEAS—The most popular tall growing flower in cultivation; it is wonderful to note the changes that have taken place within the last few years, both in regard to the flower itself and to its popularity. It is but a few years ago that there were but a few varieties, mostly small blossoms produced on short stems. Now the

varieties are almost endless, ranging through all colors and shades; plants strong and thrifty, producing large blossoms on long stiff stems; the demand has increased from a few hundred pounds to many hundred tons. There are now *Capt of the Blues*, purplish; *Venus*, salmon buff; *Primrose*, pale yellow; *Stanley*, dark maroon; *Butterfly*, lavender; *Mrs. Eckford*, creamy white; *Blanch Ferry*, pink and white; *Emily Henderson*, white; *Emily Eckford*, bluish mauve; *Apple Blossom*, pink; *Grace May*, white; *Cardinal*, bright red; *Cupids Dwarf*, all colors; pkt 3c, oz 6c, $\frac{1}{4}$ lb 20c. ANY 10 pkts sweet peas without premium for only 20c postpaid.

PHLOX, Drum-mondi—For great variety and brilliancy of colors; nothing can compare with this annual; the range of coloring and marking is wonderful, white, rose, scarlet, crimson, yellow, chamois, striped, &c. Double White—This is the first double

CACALIA [Tassel Flower]—A fine and profuse flowering plant, producing scarlet and yellow tassel shaped flowers, treat as Aster; hardy annuals; mixed: pkt 2c.

PANSY.

The pansy is, we believe, the most popular of all flowering plants, excepting, perhaps, the sweet pea; it is needless for us to say anything in praise of such a universal favorite. We import our seed direct from Europe from the best growers of pansy seed and we can assure our customers that they will receive only the very best seed that is possible to be obtained; pkts contain from 100 to 300 seeds in the named varieties, mixed varieties from 300 to 1,000 seeds.

NAMED VARIETIES.

KING OF THE BLACKS—Almost coal black; very large and handsome; pkt 5c.

LORD BEACONSFIELD—Purple violet; pkt 5c.

SNOW QUEEN OR SNOW FLAKE—Pkt 5c.

PEACOCK—A lovely shade of blue; pkt 7c.

FIRE KING—Bright reddish brown; pkt 6c.

PRESIDENT CARNOT—White and violet; pkt 10c.

ENGLISH PANSY—The true English faced pansy; very fine and showy; pkt 10c.

PRESIDENT MCKINLEY—Flowers extremely large, rich golden yellow, blotched; pkt 10c.

FAIRY QUEEN—Flowers large size and a

phlox known; it will produce 60 to 70 per cent. of perfectly double pure white flowers; pkt 5c. Our Unsurpassed Mixture—Is the best possible to be made; will give the largest range of color and the finest flowers, many of the large-flowering named sorts; it cannot fail to please the most critical; 4c. **Star of Quedlinburg**—A beautiful novelty; the center of each petal is elongated, running to a point $\frac{1}{4}$ to $\frac{1}{2}$ inch beyond the edge which gives the flowers a regular starlike form; the colors are brilliant scarlet, pink, violet, salmon, etc. 7c.

PETUNIA—Striped and blotched; many beautiful colors and combinations single; 4c. **Large Flowering**—Single fringed, striped, blotched, and very best single varieties; 10c.

delicate shade of azure blue, margined with a border of pure white; pkt 10c.

PURE YELLOW—Pkt 5c.

MIXED VARIETIES.

Where one cannot afford to buy a selection of the named varieties, it is best to plant from some of the following mixtures:

BUGNOT'S VERY LARGE STAINED—Giant, flowering abundantly with beautiful markings and colors; under favorable circumstances will produce blossoms three inches across; pkt 10c, 3 pkts 25c.

IMPROVED GIANT TRIMARDEAU—An entirely distinct and beautiful race; flowers marked with three large blotches or spots; pkt 10c, 3 pkts 25c.

SPECIAL Any 7 pkts of pansy seed, except last three, without premium for only 20c postpaid.

POPPY.

Nothing can make a more gorgeous display than a bed of the new varieties of double and single poppies; grow in any soil.

SNOWDRIFT—Flowers pure snowy white; large size, perfectly double; 3c.

GOLDEN GATE—This strain produce the most varied colors and shapes, some single, semi-double and double of all colors and combinations of colors; a very free bloomer; pkt 3c.

MIKADO—New Striped Japan; flowers pure white with the fringed edges of brilliant scarlet; beautiful; 3c.

VESEVIUS—Very large size, perfectly double; petals finely imbricated; vivid scarlet color with white stripe; grand; 3c.

FAIRY BLUSH—The petals are elegantly fringed, pure white, with the tips colored with rosy cream; very double and large; 3c.

SHIRLEY—A new and beautiful strain of single poppies, embracing the most varied range of tints, from pure white with yellow stamens to delicate shades of pink, rose, carmine and deep crimson; many are striped edged and shaded, producing a fine effect; 3c.

ICELAND OR MUNSTEAD—A new hardy, herbaceous variety, although they will bloom the first year from seed; also fragrant and fine for cutting, as they will keep a long time; in colors they are bright yellow, scarlet, white, gold tinged with crimson, etc.; all colors; 3c.

SPECIAL!

One pkt each of the nine varieties of poppies without premium for only 20c postpaid.

NEW TULIP Beautiful perfect flowers of the most vivid scarlet color, so brilliant that when the sun is shining on them the eye cannot bear its glare; the flowers are large; outer petals form a tulip cup; 5c.

OUR UNSURPASSED MIXTURE contains seed of all the above kinds and many more shades; the grandest and best possible for 3c.

Ricinus, Castor Oil Plant—Foliage very ornamental and varied, producing a fine effect on lawns; many sorts mixed; pkt 3c, oz 20c.

Moon Flower [*Ipomoea Noctiflora* or Evening Glory]—The glory of the night. Cross Bred or Hybrid; new; pkt 4c.

Bartonia Aurea—Very fine yellow flowers, thistle-like foliage; hardy annual; pkt 2c.

DATURA Very showy, large, branching plants, growing three to five feet high, bearing numerous trumpet-shaped flowers, six in. in length and very fragrant.

CORNUCOPIA, Horn of Plenty—Very handsome; pkt, 20 seeds, 4c.

DIANTHUS Or Chinese Pinks—

The China and Japan pinks are deservedly very popular, as few flowers can equal them in beauty and profusion of bloom; they comprise many distinct and most beautifully marked varieties of rich and varied colors; they bloom continuously all summer and fall until severe frosts; they live over winter and bloom freely again the next season; they are alike ornamental in the garden and for bouquets. Plants from 10 to 15 inches high and of the easiest culture; from 75 to 200 seeds in pkt.

DOUBLE MIXED—Contains all the best varieties and is the most satisfactory way of growing plants; a great variety of colors, ranging from pure white to the most delicate pink and glowing, deep crimson; pkt 4c.

SURPASSING MIXED—This is the finest mixture put up; our seeds are grown for us by the most experienced growers; only the choicest varieties put up in the mixture and it cannot but please; pkt 5c.

GOOD MIXED—This is as good as many of the so called best; pkt 4c.

DWARF FIREBALL—The most brilliant pink in cultivation; plants covered with brilliant blossoms; pkt 4c.

DWARF SNOWBALL—Lovely snow-white flowers; very full and double; pkt 4c.

One pkt each of the above without premium for only 18c.

Ten Weeks Stocks.

The Stock is one of the most popular, beautiful and important of our garden favorites, and valuable for bedding, massing, edging or pot culture; it is unsurpassed for brilliancy and diversity of color; mixed colors; pkt 4c.

Smilax.

The Smilax is the most useful and one of the most graceful climbers which adorn the greenhouse or conservatory; pkt 2c.

Ice Plant.

Suitable for rock work, hanging baskets, etc.; foliage thick, flowers frosted, wax-like; pkt 1c.

Digitalis.

Stately plants with long spikes or thimble

shaped flowers; mixed colors; pkt 1c

NEW GIANT-FLOWERING GLOXINIAS.

Gloxinias are most charming greenhouse plants of dwarf habit; their flowers are produced in greatest profusion and of the most exquisite and gorgeous colors, many of which are magnificently spotted, mottled and blended; under the commonest culture they bloom continuously for months; this new giant strain produces flowers of extraordinarily large dimensions, measuring from $4\frac{1}{2}$ to 5 inches across; the colors are rich, varied and strikingly beautiful; 1 foot.

GLOXINIA, Large-flowering—Choice mixed colors; pkt 25c.

SUPERIOR FRINGED COLEUS.

Coleus grown from seed make very thrifty plants the first season; for subtropical groups the endless variety and combinations of brilliant colors are very captivating; the seed that we offer has been saved from a choice collection of large fringed-leaved coleus hybridized by hand and must produce some grand varieties; pkt 25c.

Large-Flowering Cineraria Hybrid.

Magnificent and indispensable flowering plants for spring decoration for the conservatory or window garden; the flowers measure 2 to 3 inches across, are of white, blue, violet and crimson shades; usually two or more colors are shown in one flower, covering the plant with a sheet of bloom.

LARGE-FLOWERING—Choice mixed; from prize varieties; pkt 25c.

HYBRID—With white mottled leaves; produces large flowers of the usual variety of colors, while the foliage is variegated white and green; a very ornamental pot plant; 25c.

DOUBLE LARGE-FLOWERING—Mixed; 25c.

Superior Large-Flowering Calceolaria.

Great improvements in these gorgeous plants for greenhouse and window decoration; the immense pocket-shaped flowers are borne in the greatest profusion through spring and summer; colors, yellow, maroon, crimson, white, etc.; spotted and blotched in the most unique fashion; $1\frac{1}{2}$ feet.

LARGE FLOWERING—Self-colored; mixed; flowers of pure colors, scarlet, crimson, orange, canary, etc.; not spotted or marked; 25c.

Large-Flowering, Tuberous Rooted Begonias.

Magnificent flowering pot plants and

deservedly popular for garden bedding, flowering in the greatest profusion all summer; the individual florets will average from 6 to 9 inches in circumference and are of all colors 1 foot.

SINGLE, LARGE-FLOWERING—Mixed colors; from choicest erect-flowering varieties; pkt 25c.

"Ever-Flowering" Large-Fringed Primroses.

[*Primula obconica grandiflora fimbriata.*]

The old *P. obconica* has long been a favorite pot plant for house and conservatory culture on account of its wonderful blooming qualities, flowering nearly all the year through; these new, large-flowering or grandiflora varieties are great improvements, producing trusses of large fringed-edge flowers nearly double the size of the older type and containing several colors, including lavender, bluish pink, white, rose, etc. Mixed colors; pkt 15c.

Summering Bulbs.

Summer-Flowering *Oxalis*—Splendid for bordering or edging; also for pots and hanging baskets; fine foliage of the brightest possible green; price 15c per dozen, 50 for 25c, 40c per hundred. *LASIANDBRA*—Rosy pink; *DIEPPI*—Pure white; *MIXED COLORS*—All varieties mixed.

LILY OF THE VALLEY.

Clumps—For immediate effect these are much to be preferred to the single pips. My clumps are large and heavy and blossoms may be expected the first season; each 15c, 2 for 25c.

Cinnamon Vine—A very pretty vine to train around the window or on a trellis; in midsummer the plant is covered with a brilliant, glossy foliage and an abundance of fragrant flowers; it is also an exceedingly quick grower, having been known to attain a height of 20 feet in one season; good roots each 5c, 6 for 25c, doz 40c.

Madeira Vine (Mignonette Vine)—A climbing vine of rapid growth; leaves bright green; flowers small, white, fragrant; each 7c, 3 for 15c, 6 for 25c, doz 50c.

Gladiolus—On account of its intrinsic merit alone, the gladiolus is entitled to the high rank it holds among flowers, but when it is considered, also, how easy is its culture and for what a small sum a splendid assortment can be secured, it seems a matter of surprise that they are not found around every home. Our mixture is a magnificent one, made of the very finest colors and at the prices we attach, should go like hot cakes. Four for 10c, doz 25c, 100 \$1 40, post-paid; by express, 100, 90c.

Caladium Esculentum—A magnificent ornamental foliage plant; grows 4 to 6 feet high; leaves immense; often measuring 4 feet in length by 2 feet in breadth; beautiful bright green. Take bulb up when killed down by frost; fine bulbs, 15c each, 4 for

50c, 10 for \$1. Largest size 25c each, 5 for \$1.

CANNAS.

Very handsome tropical looking plants are unrivaled for fine effect on the lawn; plant in deep rich soil, give plenty of water in dry weather.

MIXED VARIETIES—Dwarf, large flowering; each 10c, 3 for 25c.

Tuberose, Double Dwarf Pearl—Much

larger than the common tuberose; wonderfully fragrant. Notice, please, our very low prices: For large bulbs, each 5c, doz 30c, 100 \$2, postpaid; by express, at purchaser's expense, 100, \$1.75.

Dahlias—The Dahlia is one of our best autumn flowers; they have large double, rosette like flowers of every shade and color. Our stock is very choice; roots with several eyes, 20c each, 3 for 50c, postpaid.

Selected

FARM SEED

Grass Seed Prices subject to Change without Notice.

The greatest care is exercised to have My Farm Seeds of the very highest quality in every respect. My largely increased sales from year to year is evidence that my farm seeds give entire satisfaction.

My seed grain is grown and treated especially for seed, carefully selected and cleaned, and will be found first-class in every respect.

My prices, include bags for shipping—bags extra at cost, and are as low as can be made at the present time on the grades of seeds we supply.

Order early, then shipments can be made by freight in time for planting at much less cost than by express. It will also give time for testing by purchasers.

Special quotations will be given on larger quantities than here quoted, on application.

DWARF ESSEX RAPE.

Under favorable conditions rape is ready for pasturing sheep or cattle within six weeks from time of sowing, and on an average one acre will carry twelve to fifteen sheep six weeks to two months. When on the rape they should at all times have access to salt; but water is not necessary. In the northern states it should be sown from May to the end of August for fall pasturing, but as it thrives best in cool weather, it should not be sown in the southern states until September or October for winter pasture. In the latitude of New York, July or August is the best time to sow. Its fattening properties are probably twice as good as those of clover, and for sheep the feeding value of rape excels all other plants we know of. Sow 4 lbs per acre broad-cast, 2 to 3 lbs per acre in drills. 10c lb, \$3.75 bu of 50 lbs, 100 lbs \$7.50; if by mail, add 8c lb.

BARLEY.

Manshury—A new six-rowed variety with long, heavy, well filled heads; grain large and plump, straw bright

and strong, not liable to lodge even on very rich ground; weight over 50 lbs per bushel, and yields 40 to 60 bushels per acre. By mail, per lb 20c, by express or freight, lb 10c, pk 50c, bu (48 lbs) \$1.25, 2 bu or more at \$1.00 per bu.

Success—The earliest barley known. Strong stiff straw and will stand up on any land. Has yielded 80 bu per acre; the great beauty of this variety is that it is beardless, as easy to handle as oats; by mail, lb 20c, 3 lbs 50c; by freight, pk 50c, bu \$1.40, 2 bu or over at \$1.25 per bu.

Buckwheat.

Japanese—This we consider far superior to any other variety. It is about two weeks earlier than the Silver Hull; the grains are double the size and will yield twice as much. The straw is stiff and stands up well. On account of its wonderful branching habit, it should not be sown too thickly; it makes the very best flour. One lb by mail 20c, by express or freight qt 10c, pk 40c, bu \$1.25, 2 bu \$2.25.

Silver Hull—A popular variety. Grain is light gray; same price as Japanese.

WHEAT.

Spring Wheat—We can furnish a fine strain of spring wheat, such as is used in making the famous Minneapolis Spring Wheat flour. By freight pk 50c, bu \$1.50, 5 bu or over at \$1.25 per bu.

Gold Coin—Winter wheat. This is the best white wheat in the world; yields the heaviest, strong, stiff straw. The past two years we have sold hundreds of bushels of this wheat and it has given universal satisfaction. Send for prices any time after July 15th.

Sugar Cane.

Early Amber—This is the very best for sugar in the northern states. It matures early and is very sweet. It is a profitable crop to grow for its seed, also for its great yield of excellent forage, either dried or put in the silo. If planted about June 1st to 15th, it will produce an abundance of rich forage, which is relished by sheep, horses, cattle and swine. It will be found a grand fall feed for the dairy, increasing the flow of milk and at the same time adding to its richness. This has been proven by actual tests. It is destined to become a leading forage plant. Sow 40 to 50 lbs to the acre. By mail, pkt 5c, lb 20c, 3 lbs 50c; by express or freight, lb 10c, 10 lbs 35c, 50 lbs \$1.50, 100 lbs \$2.50. These prices subject to change.

Sorghum.

Non-Saccharine Varieties—Which are desirable and profitable to grow for forage as well as for their grain. They are especially adapted to arid regions, as they will continue to grow through the most severe droughts. Bu \$1.25.

Jerusalem Corn—This is a new varie-

ty, recently introduced from Palestine; the seed is white, flat, makes excellent flour for biscuits, griddle cakes and superior hominy. Valuable for feeding poultry and other stock. It grows 4 or 5 feet high. Large pkt 5c, lb by mail, 20c, 3 lbs 50c; by express or freight, lb 8c, 10 lbs 50c.

White Kaffir Corn—This grows very stout, 5 or 6 feet high, with many long, broad blades. If cut before full grown it will produce a second crop. Excellent for forage as well as for the grain for all kinds of stock. The flour makes superior biscuits and griddle cakes. Pkt 5c, lb by mail 20c, 3 lbs 50c; by express or freight, lb 8c, 10 lbs 50c, 50 lbs \$1.75, 100 lbs \$3.

Teosinte.

This new forage plant somewhat resembles Indian corn, but the leaves are longer and stalks contain more sugar. Each seed produces a great many stalks 7 to 10 feet in height, filled with an abundance of large leaves, furnishing a large amount of excellent forage. If cut off when 4 or 5 feet high it will produce a second crop. In the south it will produce more feed than corn. From our experiments with teosinte the product does not equal corn in value per acre in our climate. By mail, postpaid, pkt 5c, oz 15c, 4 lb 45c, lb \$1.25.

Velvet Beans

This is another very valuable plant for enriching the soil; it grows luxuriantly, attaining sometimes 20 or more feet in length. Plant in rows 3 or 4 feet apart and cultivate until the vines get too large to admit the cultivator. This crop will sometimes ripen its seed in this climate, but not often. Its principal uses are forage and fertilizer. Pkt 8c, lb by mail 20c, 3 lbs 50c; by express or freight, qt 20c, pk 75c, bu \$2.50.

GREEN MOUNTAIN OATS.

The Most Productive and Profitable of All Oats.

The claims which we make for this variety are fully substantiated by the numerous testimonials which we receive from our patrons who have grown them in comparison with other varieties, which were highly recommended and claimed to be "the heaviest yielders?" While we have never claimed as large yields for the Green Mountain as are claimed by some for some others, we claim that when grown side by side with other varieties, there are none which will average better or produce larger average crops, and but very few that will approach them. The Green Mountain is without a peer. It has never shown any signs of weakness.

Why is it so good? Because its roots run deep into the soil, thus supplying the plant with moisture even in a dry season. It stools out, and a single plant produces a number of large heads. It is plump and heavy, often weighing 36 to 40 lbs. per measured bushel. The straw is very stiff, of medium height, holding up its large, well-filled heads, on the richest ground when other varieties lie flat.

Your money invested in Green Mountain oats for seed will yield a profit of 200 to 300 per cent. in the increased yield you will get over the common kinds you have been planting.

The extra cost of seed of the Green Mountain over common oats is so slight that no one can afford to plant the old varieties. A change of seed once in two or three years is absolutely essential to growing good crops, and when a change is made, get the best variety possible. The Green Mountain will fill the bill every time.

We are pleased to be able to offer our patrons a fine stock of our famous Green Mountain oats. Price by mail, sample pkt 5c, 1b 20c, 3 lbs 50c. By freight, $\frac{1}{4}$ bu 30c, bu 90c, $2\frac{1}{2}$ bu \$1.80, 5 bu \$3.40, 10 bu \$6.50, 25 bu \$15, 50 bu or over at 57c per bu, bags included.

Get up a club order for Green Mountain oats.

SOJA BEANS, Coffee Berry.

This variety has been sold at a very high price under the name of German coffee berry. It is not a berry, but a peculiar and distinct variety of bean, producing an abundant crop of nearly round seeds in about four months after planting. These beans when roasted make a good substitute for coffee, and can be raised where the season is sufficiently long at a very reasonable price. The plants make good forage and the beans ground into meal make excellent feed for stock. Large pkt 5c, 1b by mail 25; by freight or express, 1b 15c, pk \$1, bu \$3.50.

Mand's Wonder Forage Plant.

(*Pencillaria Zeaoides*.)

We know of no forage plant, and we believe there is none in existence, that will give as heavy yields of forage as will Mand's Wonder Forage Plant. In all sections of this country where corn can be grown, this plant will succeed. It will certainly supplant as a forage plant, sorghum, kaffr corn, and milo maize. It is

easier to grow than corn or any other forage crop, producing a large amount of fodder at a cost of less than \$1 a ton.

On one of our Northern Michigan seed farms the past season, Mand's wonderful forage plant, planted $3\frac{1}{2}$ x $3\frac{1}{2}$ feet and cultivated twice, gave a yield of 28 tons green fodder per acre. Single plants produced 50 to 80 shoots and attained a height of 9 to 13 feet. We weighed single plants freshly cut, 50 to 70 pounds.

In feeding value, *Pencillaria* equals the best corn or sorghum fodder. When sown broadcast for hay, 1 to $1\frac{1}{4}$ lbs per acre will be sufficient. Such a seeding will give two or three cuttings in course of a season. For fodder, we recommend planting in hills 3 to $3\frac{1}{2}$ feet apart, and cultivating twice. In curing, cut and shock, same as corn. We hope that every one of our friends will give this wonderful new plant a trial; we know that it will give satisfaction.

Price Mand's Wonder Forage Plant, Per pkt 10c, $\frac{1}{4}$ lb 20c, 1b 70c, 5 lbs \$3: postpaid.

Australian Salt Bush.

This forage plant from Australia is a wonder for the alkali plains of the West. Strong grower during the hottest and driest weather. Sow in early spring 1 lb of seed per acre, in hills 8 inches apart, rows 24 inches apart. Salt bush is much relished by stock, especially sheep; yields twenty tons of green fodder per acre; plant is perennial. Pkt 10c, oz 15c, $\frac{1}{2}$ lb 40c, lb \$1.25, postpaid.

Canada White Field Pea.

Valuable for northern climates for cattle-feeding and when sown with oats are excellent hog feed. Used as feed for pigeons, etc., and for green soiling. Postpaid. pkt 5c, qt 25c; by express or freight, pk 30c, bu \$1, 2 to 10 bu 95c per bu, 20 to 50 bu 90c per bu.

JAPANESE MILLET.

(*Crus Galli.*)

Perhaps the most valuable introduction of recent years in the line of forage plants; adapted to all sections and a great success wherever tried. It is very highly recommended by the U. S. Agricultural Department and by the Experiment Stations. It grows 6 to 8 feet high and produces immense crops of splendid feed, especially on moist soils. As high as 16 1-2 tons have been reported from one acre and

it makes excellent hay, superior to corn fodder. A splendid silage may be made by mixing two parts Japanese millet with one of Sand Vetch or Soja beans, forming a completely balanced ration for milch cows. This new millet, like a number of other good things in the vegetable line, came originally from Japan. There the people eat it largely for food. It is something entirely distinct from other millets, the seed having a very different appearance. It is now catalogued and recommended by all leading seedsmen and one seed firm has extensively advertised it under the name of "Billion Dollar Grass." This is the same thing as Japanese Millet, but an incorrect name for it.

Sow broadcast, 12 to 15 lbs per acre; if sown in May, two cuttings may be made; the seed is easily threshed and is fine for poultry. Lighter than other millet seed. Price pk 96, per bu (forty lbs) \$3. Some seedsmen give only 32 lbs per bu

SPELTZ. WHAT IS IT?

By All Odds the Most Wonderful Grain Under the Sun.

Why, it is the grain of your life, man. Russia, Oh, wonderful Russia! gives us this notable addition. Russia also gave us that magnificent grass, *Bromus Inermis*.

First. Speltz will outyield any grain on earth, 60 bushels per acre, common.

Second. In richness, in value it is unequaled as feed for any kind of stock, nutritious beyond comprehension for horses, cattle, hogs, sheep, chickens and mules.

Third. Will produce three times the value of wheat or oats.

Fourth. Crop never fails, sure thing every year, great stooler, robust grower. One seedsmen says you need not fear trusts if you plant Speltz. Speltz is a combination of rye, wheat and barley; resembles barley more than any other grain. Besides the grain, it gives 3 to 4 tons of rich hay per acre. For fattening cattle and swine it is simply immense and does it so cheaply.

CULTURE—Prepare land the same as for oats or barley and sow about April 1st to May 15th at the rate of 2 bushels per acre, drill or broadcast.

Do not fail to try this astonishing, delightful, bewildering, amazing grain. Prices: Pkt 5c, lb 20c, postpaid; $\frac{1}{2}$ pk 20c, pk 30c, bu 90c, 2 bu or more 80c per bu.

Spring Rye, "Earliest."

Highly Recommended as a Catch Crop.

This marvelous rye has proved a boon to hundreds of farmers the past two

years. It is a most profitable crop to grow, seldom yields less than 45 bushels per acre, and worth now 80 cents a bushel in nearly all markets. This rye took first premium at many fairs last fall. We recommend spring rye as a profitable crop in New York, Pennsylvania, Michigan, Wisconsin, Ohio, Indiana, Illinois and Iowa. Prices: Pkt 5c, pk 50c, bu \$1.50, 2 to 10 bu, \$1.25 per bu, bags free.

The Best Early- Yellow Flint Corn in Cultivation.

Mammoth 8-Rowed Early Yellow Flint—By all means grow it. This is a splendid Extra Early Yellow Flint Corn and has proven to be all that is claimed for it. The ears are large size, being the longest of any variety of flint corn that is grown. This variety has been grown for years by an expert corn grower who has kept the seed for seed stock. It is the purest, handsomest, heaviest yellow flint corn in this country. It grows to a good height and stalks often bear from 2 to 4 large ears with good cultivation. Many farmers claim to have grown as high as 240 bushels from one peck of seed and it fully matured within 85 days from planting. Everyone who wants a splendid yellow flint corn, selected from the finest stock in this country, should place their orders at once, and at the low prices I offer it there is no reason why every farmer cannot change his seed. Price of extra selected stock, per pkt 8c, $\frac{1}{2}$ pt 12c, pt 20c, qt 35c by mail postpaid. By express or freight not prepaid, $\frac{1}{2}$ pk 40c, pk 60c, $\frac{1}{2}$ bu \$1.00, bu \$1.50.

White Cap Yellow Dent Corn.

This new field corn has been more largely advertised than any other Yellow Dent Corn. It combines and merits more good qualities than any other variety, with the exception of Mortgage Lifter and Mills' Golden Superior. It is a vigorous grower, averaging 6 to 7 feet in height, producing on nearly every stalk 2 large ears, well filled to the extreme end of the cob, and above all, its strongest points, and one that will be appreciated by all who grow corn, is the fact that it will grow more bushels of corn on thin poor land than any other corn known. It will also do better and husk out more corn per acre in a dry season than any other corn. It grows quick, rank and strong, and has larger ears than any other 90 day Dent corn. Pkt 8c, $\frac{1}{2}$ pt 12c, pt 20c, qt 35c, postpaid; by express or freight not prepaid, $\frac{1}{2}$ pk 35c, pk 50c, $\frac{1}{2}$ bu 80c, bu \$1.25.

Improved Early Mastodon Dent Corn.

This early Dent variety is highly recommended. It has a record of over 200 bushels of shelled corn to the acre. There appears to be a very large demand for this variety and this is the reason I have added it to my list this season. It combines large yield, large grains, extra early ripening to a remarkable degree. It makes a fine looking corn when shelled, commanding the highest price in the market. It is about three weeks earlier than the Golden Beauty and I think will please anyone. Give it a trial this season. Per pkt 8c, $\frac{1}{2}$ pt 12c, pt 20c, qt 35c, by mail postpaid. By express or freight not prepaid, $\frac{1}{2}$ pk 35c, pk 55c, $\frac{1}{2}$ bu 80c, bu \$1.25.

NOTE.—My field corn is chosen from the most selected stock as those who have grown it know. It is all that I claim for it and more too.

BURT'S EXTRA RECLEANED GRASS SEEDS.

We have long made this a great specialty, until the demand some years exceeds our supply, so popular are our standard re-cleaned grades. You may rest assured all grasses you purchase from me will be entirely free from foul seeds. Prices per pound below are by mail postpaid. If ordered by express or freight, deduct 8 cents per pound.

Orchard Grass—It stands drought well, grows in the shade of trees, and thrives well on poor land. It comes very early in the spring and remains green until late in the fall, making it valuable for both early and late grazing, and will bear repeated pasturing and mowing. Sow three bushels

to the acre. Hammond's re-cleaned (bushel 14 lbs.) Pkt 5c, lb 25c, bu \$2.

Orchard Grass, Prime—As sold by other houses: Bu \$1 85

Kentucky Blue Grass, Fancy Cleaned—Also known as June Grass, Green Grass, etc. This is rated as the finest permanent.

pasture grass. Especially suited to meadows and rich lands. It is the grass of the famous and fertile limestone soils of Kentucky, and is no less a favorite all through the northern states. Suited to all pasturing purposes. A perfect lawn grass. Sow 3 to 5 bushels per acre for lawns; 2 bushels to the acre for pasture. Pkt 5c, lb 25c, bu [14 lbs] \$1 60, 5 bu \$7.50.

Kentucky Blue, Prime—As sold by other houses: Bu \$1 40, 5 bu \$6 75

Canadian Blue Grass—Pkt 5c, lb 25c, bu \$1.25.

Red-Top Chaff Seed, Recleaned—This is the so called Herd's Grass of the South. Well adapted to the northern states as well. Suitable for meadow and pasture mixtures, or for use in lawn making; adapts itself to any soil, but produces best results on moist, rich soils, where it grows 2 to 2½ feet high; Often sown with timothy and clover and outlasts both. Sow 3 to 4 bushels per acre for lawns; for pasture 1½ to 3 bushels per acre. Pkt 5c, lb 20c, per bu (10 lbs) 80c, 5 bu or more at 70c a bu.

Prime Red-Top Chaff—As sold by others: Pkt 5c, lb 15c, bu 65c, 5 bu or more at 50c a bu.

Red-Top Fancy—Solid seed, three pounds equaling one bushel of ordinary Red Top. Can be sown at same time with other grasses. (Bu 42 lbs.) Pkt 5c, lb 25c, 10 to 100 lbs at 12c a lb.

Timothy, Recleaned—This is the most valuable of all the grasses for hay, especially in the north. Thrives best on moist, loamy soils of medium tenacity. It should be cut just when the blossom falls. Sow early in the spring or fall at the rate of 12 pounds per acre, if alone, but less if mixed with other grasses. Pkt 5c, lb 20c, pk 70c, bu \$2.50. Special prices on request. Subject to market changes.

Timothy, Prime—As sold by other dealers: Market price. Special prices on large lots of Timothy on request.

We only carry our choicest *re-cleaned* grades (no second grade) of the following grasses.

English or Perennial Rye Grass—This variety is used exclusively for pastures and lawns; succeeds well in shady places. Has given excellent satisfaction wherever tried. For lawn it should be sown very thickly—not less than 2 bushels to the acre. Pkt 5c, lb 18c, [bu 14 lbs] bu \$1, 100 lbs \$7.

Italian Rye Grass—Annual; good for soiling; ready in a month from seeding and again in a few weeks. 50 lbs per acre. Not for dry soils. Pkt 5c, lb 15c, postpaid; bu [14 lbs] \$1 25, 100 lbs \$8.

Tall Meadow Oat Grass or French Rye—A valuable grass for soiling or permanent pasture; of early and luxuriant growth. 50 lbs to the acre. Pkt 5c, lb 15c, bu [10 lbs] \$1 60, 100 lbs \$11.

Sheep's Fescue—This grass forms a large part of the pasturage of the English Downs. It produces a large quantity of short herbage and should form a part of all mixtures for sheep pastures. 40 lbs to the acre. Pkt 5c, lb 20c, bu [12 lbs] \$1.60, 100 lbs \$12.

Meadow Fescue or English Blue Grass—Sweet grass; an excellent grass for permanent pasture or hay, the foliage being highly nutritious. The demand for this variety is increasing yearly. Sow 50 lbs to the acre. Pkt 5c, lb 25c, bu [12 lbs] \$1 50, 100 lbs \$12.

Hard Fescue—Thrives well in dry situations where many other grasses would fail. 30 lbs to the acre. Pkt 5c, lb 15c, bu [12 lbs] \$1.25, 100 lbs \$11.

Meadow Foxtail—One of the best and earliest of pasture grasses; thrives best in moist localities. 30 lbs to the acre. Pkt 5c, lb 25c, bu \$3 25, 100 lbs \$25.

Rough-Stalked Meadow Grass—Produces an abundant crop of highly nutritious herbage, valuable for either moist or dry soils. 30 lbs to the acre. Pkt 5c, lb 35c, bu [14 lbs] \$3 60, 100 lbs \$25.

Sweet Vernal Grass—True perennial; useful to mix with other grasses on account of its early growth and agreeable odor. Use from 2 to 5 lbs to the acre. Pkt 10c, lb 90c, 10 lbs \$7.50.

Bromus Inermis.

(BROME GRASS.)

The Uncrowned King of the Deserts and Dry, Sandy Soils.

The most wonderful of grasses for dry soils. It is a Grass for the desert, a Grass for drought-stricken countries, the Grass for Nebraska, and the Dakotas, for Iowa, Kansas, Texas, Colorado, Montana, yes for each and every state of the United States; in fact any and everywhere where you are apt to have long sieges of dry weather; but one must not think that it does not do well on soil where there is plenty of moisture, for on such soils its magnificent, luxuriant, growth comes in full play. Most valuable Grass for dry lands. It endures extremes of temperature and resists protracted drought, succeeding where Alfalfa fails. Poor lands are no discouragement. It grows best in light, sandy loam, but its roots will penetrate the stiffest clays. It is equally good for cutting green, pasturing or cutting into hay, and the dense, tough sod it forms is most valuable for holding the banks of ditches and strengthening the turf of sandy soil. In Dakota it yielded the second year nearly two and one-half tons per acre; and on

another acre plot, two tons were cut June 28th and 2,600 pounds at second cutting August 19th. It pays to grow this Brome Grass for seed. It will yield two hundred and fifty to five hundred pounds per acre.

BIG FOUR WHITE OATS.

Let's Reason Together, Mr. Farmer.

If we can demonstrate to you, Mr. Farmer, that you can make lots of money sowing these Oats; if we can show you that for a new Oats it's almost worth its weight in gold, wouldn't you sow it? Here's our hand—and here is our say.

Now we do not feel backward in pushing Big Four Oats, because we had such hearty indorsements from thousands of farmers planting same the past summer. We admit when we first saw the first head of these Oats handed to us we looked at it suspiciously, believing it was a put up job, patched together to make it so long, but when we found it was not, that it actually had been grown, our surprise, and delight, and wonder knew no bounds. Did we care what we paid for that head? Well, I guess not, we paid more for that new Oats than you would pay to-day for 1,000 bushels of Big Four Oats. We wanted it, and we hope next year to be able to offer these remarkable Oats for sale at a fair price; this year we can only give them as a premium. It will surely pay you to buy a bushel, or 2½ bushels, or 10 bushels of Big Four Oats.

There is absolutely no risk in sowing this variety of Oats, and big money can be made out of it by wideawake farmers. Why is it that some farmers will not keep up with the times? Why are they always content with the skimmed milk? Or, in other words, why will they not buy a good thing when it is new, but wait until it is half worn out and then take hold of it? This class of farmers will always complain of poor crops, low prices and hard times. Let us look at the matter right. If the prices are low, double the yield of your crops. What then? Why, hard times disappear as though by magic. Sow good seed. Feed your ground, and then with a fair season (or a bad season, if you sow Big Four Oats) the crop is assured. On the other hand, sow a poor variety of seed, starve your land, and the best season God ever sent will not fill your granary; such farming will make you a slave all your active life and prepare for you a miserable old age. Be wise and keep well ahead in the race. Be a leader, if you can, but never be entirely in the rear. Think, plan, act. You can commence this year by sowing good varieties of cereals—Oats, Corn, Potatoes, etc. With good management you can sell the crops at a fancy price, for seed to your neighbor. By keeping right along in this way you will soon be looked to in your neighborhood for the BEST SEED, AND NO PERSON can calculate in advance how many extra dollars this means during a farmer's life. Try one or two new kinds of seed each year. and as soon as you see an improvement, discard the old and work up the stock of the new. This is one way to make farming pay, and new varieties are always sure to pay you.

Greatest Mortgage-Lifter in the World. Seeding your land to this Oat would lift or pay the biggest mortgage you could possibly have on your farm, for it is the greatest cropper known! Now, you wonder if this is so, and in order to strengthen your faith in this marvelous, magnificent new Oat—Big Four, we could introduce five thousand testimonials of wideawake farmers scattered from Maine to California and from Canada to Texas and some from foreign lands. Why, it is the Oat that takes everywhere, because it adapts itself so peculiarly to all soils and climates known! Try what you will, and you cannot beat the Big Four for yield and fine quality and good oatmeal. Price 1 bu 90c, 2 bu \$1.70, 5 bu \$3.75, 10 bu \$6.50. (Bags at cost, 14c each.)

SEED FIELD CORN.

Prices subject to change without notice.

IOWA "SILVER MINE" DENT CORN—The ears measure 10 to 12 inches in length and often weigh 1½ pounds. They are very uniform in size and shape, with 16 to 20 rows of deep, pure white kernels on a small white cob. It matures in about one hundred days, being two weeks earlier than Champion White Pearl. It is the heaviest yielder we know, having yielded over two hundred bushels to the acre. Price, shelled, bushel \$1.25, pk 65c, pkt 10c lb 30c, postpaid; 2 bu or more at \$1.20 per bu, 5 bu or more \$1 per bu.

IOWA GOLD MINE—One of the finest varieties grown. Quite early, with ears of good size: color, bright golden yellow; grain is very deep and cob small. Try it. Price, per lb 25c, 3 lbs for 60c, postpaid; not prepaid, pk 60c, bu \$1.25, 2 bu or more at \$1.20 per bu, 10 bu or more \$1 per bu.

THE LEAMING—A yellow dent variety; ears of good size; set low down and nearly always two good ones to each stalk, from twelve to fourteen inches in length, averaging twenty rows of deep grains. Pk 60c, bu \$1.20.

PRIDE OF THE NORTH—A small dent variety, maturing in about 90 days. The stalk is short and thick and frequently bears two good ears from 7 to 10 inches in length. Pk 65c, bu \$1.20; lb 25c postpaid.

SNOW WHITE DENT—The culmination of 29 years' accumulative crop breeding experience, with a constant view to the ultimate origination of a superb milling and general corn crop. Mr. Suffern writes: "I have bred better than I knew, for besides originating a corn which is by great odds the whitest, purest, densest, largest and most uniform kernalled, surest maturing, and almost free from the curse of dry rot. I have also established character and great freedom from barrenness and its attendant degeneracy—dry rot, smut, chafiness, low germinating power. The severe 1901 tests throughout the corn states overwhelmingly confirm this." Per pkt 5c, pt 25c, qt 40c, by freight, pk 75c; bu \$1.50.

RED COB ENSILAGE—A southern type of large white corn with deep grain on red cob, strong leafy stalks and short joints. Adapted to all sections of the country, and a general favorite with thousands of dairy Pk 60c, bu \$1.25.

LONGFELLOW FLINT CORN—Eight rowed yellow flint. Ears 10 to 15 inches long. Pk 65c, bu \$1.50, lb postpaid 20c.

KING PHILIP—(Reddish Flint)—One of the oldest and best of the Flint varieties. Pk 65c, bu \$1.25, lb postpaid 20c.

VELVET LAWN GRASS.

The Velvet Mixture contains all of the very best varieties of grasses suited for the purpose of making a Lawn beautiful in appearance, durable and lasting, and which will stand the frosts of winter and the hot sun of summer, showing a deep rich green at all seasons. We make only one mixture of this Velvet Lawn Grass, and it can be sown with equally good effect on Terrace, Polo, Tennis, or Park Grounds, while it is especially adapted for a beautiful home or residence lawn. The seed used is pure and heavy and especially cleaned, and the finest ever offered. Price, bushel of 20 lbs \$4, peck, 5 lbs. \$1.10, less than peck quantity, per lb 40 cents, per quart 25 cents.

COW PEAS.

Throughout the south this pea has always been valuable for improvement of the soil, being to the south what clover is to the north. The seed is ground and used for cattle

fodder. The stalks and leaves make excellent fodder when fed green. It is also highly recommended for ensilage when mixed in silo with green corn stalks. In the North it is considered superior to clover for plowing under as a preparation for wheat, as it matures the first year from seeding. Poor sandy soil may be made into a fertile loam by plowing under a crop of Cow Peas. Plant seed in a thoroughly pulverized warm soil. If wanted to plow under for manure, sow in drills one foot apart. If grown for fodder, or for the seed, plant three feet apart and cultivate thoroughly. Peck 65c, bushel \$2 25.

Open Diamond Market Basket.

This is the half-bushel splint basket most commonly used for all purposes. They are well made, smooth and bright. Doz 35c F. O. B. Dalton.

Half Bushel Picking Basket.

It is strong and durable, smooth inside and a A No. 1 basket. Doz \$1.10.

Lang's Hand Weeder

By mail postpaid for 30c.

Vaughan's Concentrated Plant Food.

This is a most useful fertilizer for all kinds of plants raised in pots. It produces a rapid and vigorous growth and an abundance of flowers. Odorless and takes the place of liquid manure. Drives insects out of the soil.

Pkg containing food for 20 plants for three months 15c, 3 for 40; if by mail add 8c per pkg.

Large pkg, containing sufficient plant food for one year. 25c; 3 for 65c; if by mail, add 18c per pkg. Each package contains full directions.

"I will deem it a favor [and you may be able to save money] if you will write me giving a list of your wants. I am here to answer inquiries."

Excelsior Weeder

By mail postpaid for 15 cents.

**WALKER'S
EXCELSIOR BRAND**
A SOLUBLE FOOD FOR HOUSE PLANTS

MANUFACTURED BY
THE WALKER FERTILIZER CO.
CLIFTON SPRINGS NY

Makes Flowers Flourish

Flowers are like people. Their health depends upon their food. It must be *nourishing*, but not too rich to force growth and cause reaction. The one chemically correct flower food for house plants is

Walker's Excelsior Brand.

It has no odor whatever, and can be used dry or dissolved in water for sprinkling. Use it and your flowers will flourish and their health will last.

Small size (feeds 25 plants 6 months), 25c.; large size (enough for a year), 50c. Sent prepaid anywhere. With each package we send FREE the book, "How to Make the Window Garden a Success."

THE INDIANA BROAD-CAST SEEDER.

Highly recommended, handsome in appearance, durable, light in weight, guaranteed to work to perfection and be first class in every respect. Price \$1.00 each.

PREMIER SEEDER

Is the strongest, neatest and most durable and compact seeder made. Price \$1.00 each.

SLUG SHOT

those on tomato and egg plants, currant worms, cabbage lice and worms, fleas, beetles and striped bugs on melons, turnips, beets, onions, etc., canker worms and caterpillars on fruit and ornamental trees. Price, 5 and 10 lb packages, 6c per lb; 25 to 50 lbs at 5c per lb.

Slug Shot Duster Made of tin with handle and perforated bottom; ½ gallon 35c, gallon 50 cents.

tatoes bugs and

poultry SUPPLIES

(SUBJECT TO CHANGE.)

PETALUMA INCUBATORS.

There are many particularly valuable features which belong exclusively to the Petaluma, and cannot be copied by others. They are guaranteed to out-hatch all other incubators on the market, and their superiority over all others has been testified to by thousands who have used this machine. They are perfectly safe from fire and are self-regulating. No getting up nights to attend to them.

CONSTRUCTION.—The egg chambers are made of thoroughly seasoned California red-wood, the best material in the world out of which to construct incubators, tongued and grooved, padded thickly with wool and lined thoroughly with heavy jute board and asbestos sheeting, thus making the walls thick and a double-cased machine with the spaces between the cases filled with wool.

Copper is used in all parts with which the heat of the lamp comes in contact—whereas in most machines galvanized iron and tin are used, so that they will never rust or become filled with pinholes through which gases from the lamp are admitted to the egg chamber which is often the case with other machines. Price list of Petaluma Incubators:

Model 59.	Capacity 54 eggs.....	\$10
Model 60	Capacity 126 eggs(see cut).....	\$20
Model 61	Capacity 216 eggs.....	\$27
Model 62	Capacity 325 eggs.....	\$35

THE

Humphrey Pure Air Brooder

The brooder consists of a hover and a well-lighted apartment surrounding same, but you have also for day use a cooler brooder [see cut] The front half of the brooder is reached by a runway and the chicks during the day have access to this. We also place upon our brooder a self regulator

which can be set at the required temperature and left. There are never any overheat chicks with this brooder. Price \$15. Send for booklet; it's free.

WIRE NESTS.

These nests are strongly made from heavy japanned steel wire and will last a lifetime. They are intended to be fastened to the wall with screws or screw hooks. There is no room on them for lodgment of lice or vermin of any kind; they are easy to keep clean and are far superior to wooden boxes. Each 15c, doz \$1.50.

THE

Champion Brooder

The Champion Brooder is especially constructed for either outdoor or indoor use, thus affording all an opportunity of raising large numbers of chicks without the great expense attendant upon the building and operation of Brooder houses. They operate outdoors winter and summer; the strongest wind cannot blow out the lamp which is protected from the

wind by small wooden hoods over the ends of the radiator. Our lamp is a water jacket one, which effectually prevents all danger of explosions. Price in Gouverneur, N. Y., \$5.

THE HUMPHREY Green Bone and Vegetable CUTTER

The Open Hopper Type

In construction the Humphrey is unlike any other bone cutter made. It is simplicity itself. The hopper is an open bowl, tapering from top to bottom; the cutting knives are four in number and have at the cutting edges a series of corrugations that are stamped into the steel and at such distances from the center, which cut the bone in a wave-like form, which is easily picked to bits by the youngest chick

No. 1 Hand power only.....\$12
No. 2½ Hand and power.....\$17

MANN'S GREEN BONE CUTTERS

The most wonderful Bone Cutters
ever made.

They surpass all others in easy and rapid cutting. They feed automatically and leave both hands free to operate. The feed regulates the power required so that it cannot run hard. The feed screw is large and has a coarse thread that will not wear out or crush down or break. The gears are guarded so that they cannot clog. The cylinder has been enlarged and takes in a good-sized bone. They have specially improved corrugated and adjustable steel knives. They are strongly built and will not break or wear out.

No 7 [see cut].....\$12

Mann's Clover Cutter.

This is a strictly first-class machine. The workmanship is guaranteed to be first-class. With iron stand, all complete, \$10.00.

Cypher's Short-Cut Screened Clover.

50 lbs \$1.00. 100 lbs. \$1.75.

CYPHER'S MEALED CLOVER.

50 lbs \$1.10. 100 lbs \$2.00.

CYPHER'S LAYING FOOD.

50 lbs \$1.15. 100 lbs \$2.00.

CYPHER'S CHICK FOOD.

50 lbs \$1.50. 100 lbs \$2.50. 500 lbs \$12.00.

Please send for printed matter for all of the CYPHER'S GOODS. I will mail them FREE.

Sanitary Drinking Fountain.

A square galvanized fountain, in two parts. A slight pull on the projection part of the bottom removes it entirely, and by using a small whisk broom, parts are easily and thoroughly cleaned. It is filled instantly. You don't have to wait for the water to gurgle in through a small hole. It can be hung up out of the dirt on an ordinary nail or hook.

Prices { 1 gallon size, 50c; \$5.50 per doz.
2 gallon size, 85c; \$9.00 per doz.

EGGS-KUM

25c per can.

ROUPINO

50c per can.

SCABICIDE

25c box.

Pratt's Poultry Food.

It positively cures chicken cholera, roup, gapes and all diseases. It makes chickens grow; it increases the eggs; it helps moulting. Try it; if not on all of your chicks, separate a few and see the astonishing results. Price: 26 oz package 25c; 5 lb package 60c, 12 lb package \$1.25.

No poultry supplies are sent postpaid.

Oyster Shell A staple article with all poultry men. My shells are crushed to the right size, screened, removing all dust; it is bright and clean. 100 lbs 60c, 500 lbs \$2 75, 1000 lbs \$5 00.

Ground Beef Scrap My scraps are made from clean, sweet beef containing more good egg producing qualities than most scrap; they are ground to the right size for feeding. 25 lbs 75c, 50 lbs \$1.25, 100 lbs \$2.40.

EGG=O A poultry regulator and egg producer. Will make your hens lay; will make chicks grow. Large package 25c, 25 lb bag \$2.50.

Mica Crystal Grit This grit is light in color, entirely free from dust. It keeps continually sharp under the action of the gizzard. 100 lb bag 80c.

Lee's Egg Maker.

This food is guaranteed to keep fowls healthy and increase the egg supply. It contains all of the meat food necessary for poultry. Large package, 1,250 feeds, for 25c.

Pioneer Clover Meal.

Is pure clover ground to a very fine meal, especially prepared for poultry food. It has made summer conditions of feeding possible in the winter, as it is a perfect substitute for green grass. 50 lb bag \$1.00

Lee's Hog Remedy Is sure to clean the worms out of your hogs and will keep them in a healthy condition. 10 lb bag \$1.00.

Conkey's Poultry Tonic Helps to produce larger and healthier eggs and will make your hens lay when everything else fails. It regulates the liver and bowels and keeps the blood in a healthy condition. Price 25c per box.

Fidelity Poultry Food Is a standard for getting birds into the highest show condition, for egg production and for keeping fowls from disease. 25 lb bag \$1.25, 50 lb bag \$2.00.

Pratt's Stock Food

Regulates the bowels, blood, liver and digestive organs and consequently builds up run down horses, cows, hogs. This food is used all over the United States. 5 lb box 50c, 12 lb bag 75c.

Conkey's Louse Killer This celebrated louse killer is endorsed by all of the leading poultry men and is guaranteed to kill all lice and nits with which it comes in contact. 25c per large package.

Lambert's Death-To-Lice It's a standard, reliable, well known and used the country over. Price: 10c, by mail 15c; 25c, by mail 40c.

Cypher's Louse Killer One of the best powders made. 10c per package.

American Poultry Food Is a scientifically balanced ration, mixed in proper proportions to make the very best mash for feeding poultry of all kinds and ages. It is real economy to feed it for the reason that fowls do not require so much of it as they do food containing less nutrition. After an exhaustive trial, I recommend this food as one of the very best.

5 lb bag 20c. 25 lb bag 75c.
10 lb bag 35c. 100 lb bag \$1.75.

Eyrie Egg Shipping Box Unquestionably the best device yet found for shipping safely fancy eggs by express. Made of heavy corrugated cardboard; are very strong, compact, light and convenient. The handle when put in place LOCKS THE BOX, and it cannot be tampered with in transit. The handle prevents the putting of anything on top of the box and thus prevents rough usage by expressmen. Send for sample box 15c.

PRICES.

1 setting, each, 15c; per doz \$1.50; per 100 \$10. 2 setting, each, 20c; per doz \$2; per 100 \$15.

Lee's Bug Killer.

Price, large bottle, 25 cents.

Harding's Baby Chick Food.

This Chick Food is without question the best proportioned of its kind made, as hundreds of the most prominent poultrymen and fanciers will unhesitatingly testify. Send for samples and catalog. 5 lb box 30c, 10 lb bag 50c.

"Chamberlain's Perfect Chick Feed"

is the only original dry chick feed. All others are worthless imitations. Imitators can afford to experiment but you can not afford to pay for it.

The demand for Chamberlain's chick feed the past season has simply been wonderful, and we have not heard a single complaint but have received hundreds of letters from the leading poultry men of the country saying they wanted nothing better, but would like to buy it cheaper, and we have decided to reduce the price, so that everybody who raises chickens can use it. Our feed at the price we now offer it is the cheapest feed in the world and will give your little chicks quick growth and make them feather out so they can stand the cold weather. 100 lb bag \$2.50

Chamberlain's Hen Feed.

Price \$2.00 per 100.

Chamberlain's Mash Egg Feed.

Price 2 bu bag \$1.75.

Flood's Roup Cure.

50c and \$1.00 per package, postpaid.

Anna L. Pinkerton's Chick Food.

I am eastern agent for this celebrated chick food.

Mrs. Pinkerton's Famous Chick Food stands alone, has no enemies among the consumers and where once used is always used. It is put up by a formula as carefully as a druggist puts up his prescriptions, out of sweet, nourishing materials. Mrs. Pinkerton personally superintends the putting up of all her chick food and in placing it on the market feels confident she has a food that will do just what she claims for it, and that it will give your chicks quick growth and keep them in good health. Mrs. Pinkerton's Chick Food contains all the meat, bone and grit that is required, and anything extra that you give them in this line will cause trouble. Be sure to order your chick food in time, so that the first meal your little chicks eat will be Mrs. Pinkerton's chick food. Among the chick foods that are put up by different firms, there is none that equals Mrs. Pinkerton's.

Prices: Twenty-five lb. sack \$1.00; 50 lb. sack \$1.50; 100 lb. sack \$2.75.

Excelsior Stock Food.

Four lb. package 50c.

Pratt's Animal Regulator.

Package 25c. (Send for booklet.)

Rochester Louse Killer.

Price 25c.

Sanitary Stoneware Fountains

thus easily cleaned. To Fill—simply remove the top, the fountain is turned the jar upside down, fill, place the saucer on and turn it back. The chicks cannot fill it up. $\frac{1}{2}$ gallon size, 25 cents; 1 gallon 35 cents.

DRINKING CUPS.

They are substantially made of extra heavy galvanized iron with wires for attaching them to the rods of coops. Each 15c; dozen \$1.50.

Albany Poultry-Food Cooker.

THIS COOKER was designed to meet the demand of the poultryman who wants a low-priced cooker and water heater with the added advantages of a dumping arrangement. It is made of the same quality of material as that used in the *Granite Cookers* and Heaters, but has no grate. The bottom of the fire box should be covered with ashes to a depth of about two inches before starting the fire. The dumping arrangement (for 25-gallon size only) allows the boiler to be tipped so that the contents may be poured out. It is positively impossible to sell a Cooker, which is worthy the name, for a less price than that at which I offer the *Albany*. I can purchase Cookers which I could sell at from \$4 to \$6, but I believe that my customers will be willing to pay a fair price for a

good article, in preference to purchasing a cheap affair and be obliged to replace it after having used it less than three months.

PRICES AND DIMENSIONS OF ALBANY COOKERS.

Boiler, Inches	Furnace, Inches	Fire Box, Inches	Weight, Lbs.		Price
20x24x12	20x24, 19 high	18x24	60	with dumping arrangement.....	\$ 9.00
20x40x15	20x40, 19 high	18x40	100	without dumping arrangement.....	11.00

The price includes a cover, elbow and one joint of 6-inch pipe.

Exhibition Coops

The Merry Go-Round FEEDER

Exercise is necessary to the health and laying qualities, the object of this machine is to keep the fowls at work, which it does to perfection. It saves labor and time as the grain can be put in the hopper and the fowls will get all they want and at the same time work for it. Price \$2.00.

The Canfield Exhibition Coop.

This coop is considered one of the best on the market. It is made of the best pine, covered with strong canvas all painted up which make them neat and durable, and if you are in the market for coops I can make you a good price.

Myers' Ideal Aluminum Leg Band.

They are neat, light, strong and durable, easily and quickly put on and guaranteed to stay on. All sizes, 15c per dozen; 50 for 50c.

10x18x18 inches, \$2.60 dozen. Size 4—12x24x24 inches, \$4 50 dozen. Size 6—20x24x24 inches, \$6.00 dozen.

The Canfield Shipping Coop

Made entirely of first class pine lumber. The neatest, tightest and best shipping coop made. Size 1—

ANTI-LOUSE

a disinfectant powder guaranteed to kill every species of parasite that pray on poultry. Pkt 25c. 5-lb bag \$1

Sanitary Self-Feeding Box.

Three spaces, made of heavy galvanized iron, will last a lifetime. Saves waste, hangs on a nail; hold 4 qts. Try one. Price, 50 cents.

Conkey's Roup Cure

Is the only remedy that will positively cure Roup in all of its forms. One 50c package makes 25 gallons of medicine.

Second-Hand • • INCUBATORS AND BROODERS

I wish to purchase all makes and sizes of Second Hand Incubators and brooders that are in good order and complete. I will be pleased to hear from anyone who has such to sell and think I can use anything you may have in this line. I also want a few bone cutters, etc.

FOR SALE I have a quantity of both new and second-hand incubators, all sizes and makes which are in the best of order and just as good as new, which I am able to offer you at one-half first cost. If you are thinking of buying an incubator, why pay the factory price when you can purchase one just as good for a good deal less money? Let me know what you want and I will be pleased to send you a list of what I have and will guarantee that anything you may purchase of me will give you satisfaction.

Puritan Chick Food.

A positive and prompt check to the undue mortality in your brooders; guaranteed to decrease the death rate of your chicks fully 35 per cent. This is a wonderful production and is the most easily digested and assimilated food that can be fed. Write me for a special catalog. 5 lbs 35c, 25 lb bag \$1.50, 50 lb bag \$2.50, 100 lb bag \$4.50.

BANNER-ROOT CUTTERS—Price \$5.00.

SMALL ROOT CUTTERS—Price \$1.00.

All kinds of poultry netting. Write for prices on anything you want.

MANN'S SWINGING FEED TRAY FOR POULTRY.

Three Sizes—18, 27 and 36 Inches.

The trays are 6½ inches wide, 3 inches deep, made from one piece of galvanized iron, water tight. Will not rust. Easy to keep clean. Tips automatically and throws hen off. Will not tip way over or spill food; tip rod prevents hen roosting over tray. Cast iron standards will fasten to floor or side of building; spike on top will not allow hen to roost. A good thing all around; you cannot afford to be without it.

PRICE—18-inch, \$1; 27-inch, \$1.25; 36-inch, \$1.50.

Planet Jr. Tools.

Nos. 11, 12 and 13 all have the same style frame, wheels and handles.

THE HOES are the most valuable of all the attachments. Use the 4 inch for rows up to 10 or 12 inches apart; or hoe two 6 inch rows at one passage; use the 6 inch hoes for rows from 12 inches up. One hoe is set ahead of the other to prevent trash from catching and tearing out the row. The curved shield like front ends protect both the tops and roots of young plants admirably. The hoes leave the ground

almost level.

THE RAKES are a new pattern, especially adapted by careful experiment to first cultivation, and also to the ordinary uses of a rake. Use the 4 inch to cultivate two rows at once, 6 inches apart; the 7 inch for two rows 10 inches apart; and for wider rows, two rakes combined on each side to suit any width. For ordinary surface raking, use two or four rakes as needed.

THE PLOWS are invaluable; use them with points together for opening furrows for manure, seeds, etc.; then exchange sides for covering; use them also for plowing away from or to the crops, both sides at once.

THE CULTIVATING TEETH are fine, either for deep or shallow work, and also for marking out.

LEAF LIFTERS save time and enable fine work to be done close to the row without additional labor, when plants are larger or leaves are flat to the ground.

AS A WHOLE, no wheel hoes have ever been made so complete in each detail, while combining such a variety of attachments adapted to so many kinds of work. Special price on request.

Single Wheel Hoes.

are lighter than the double, but do almost the same variety of work, though in a different way, being used mostly between the rows instead of straddling them. Yet by attaching the wheel to the other side of the arm, No. 16 can be used to hoe both sides of the row at once while the plants are small—the most important time.

We offer our latest Single Wheel Hoes, as the highest type of their class, superior to any of the old styles. They have the greatest variety of tools we have ever offered. These adapt the implements to a greater variety of crops, and to work at many different distances apart; there is scarcely any garden culture of which they are not capable.

The Handles are adjustable in height. The frame is convenient and strong, with quick change device, which permits the tools to be changed without removing the nuts. This device is used on both our double and single wheel hoe frames. The Wheel can readily be changed in height and to the far side of the frame to hoe "both sides at once." Special price on application.

DRILL SEEDER AND WHEEL HOE.

This new combined machine is intended for gardeners who have a large enough acreage in crops for a Double Wheel Hoe to be used to good advantage, and yet prefer not to buy a Seeder and Wheel Hoe separate. The Seeder is large enough for field use, for it holds $2\frac{1}{2}$ quarts or about 5 lbs. of onion seed.

As a Seeder it is identical with the Planet Jr., No. 4; will sow in drills, or hills, 4, 6, 8, 12 or 24 inches apart and has the same feed, hill dropping mechanism and auto-

matic device for stopping the feed, and has also the new seed index. It is thoroughly substantial and is accurate in sowing all kinds of garden seeds in either hills or drills. Special price on application.

Send for a special "Planet Jr." Catalog.

POULTRY

Department.

I am breeding some very choice strains of fowls listed on this page and feel assured that I can please you. The prices that I have put on these eggs might lead you to think that they were cheap, but I think a trial order will convince you that I have some fine stock.

EGGS: \$1 per 15; \$4 per 100; \$35 per 1000.

Good breeding stock from \$1.00 up, and only first class birds will leave my yards. In writing about stock, always state price you wish to pay.

Single Comb Brown and White Leghorns.

Leghorns are considered unequalled as egg producers. Our strain of both Brown and White Leghorns are large in size and fine in form and symmetry. They are non-setters; their business is to lay eggs. The chicks are hardy, lively and the easiest to raise of any other breed. They stand confinement quite well, but require an eight-foot fence to keep them in.

Houdans.

The Houdan is to the French what the Plymouth Rock is to America. The large crest or muff presents a very unique appearance. They are a splendid table fowl, having fine close grained meat in great plenty. They are good egg producers, laying the largest egg of the non-setting breeds.

White Wyandottes.

White Wyandottes are a very popular variety in style, comb, symmetry and size, hardy and docile. They are first class layers of medium sized eggs and rich shade of color. They have plump, round bodies, thus making them an extra fine table fowl. Weight of cock $8\frac{1}{2}$ lbs; hen $6\frac{1}{2}$ lbs.

Buff Leghorns.

The Buff Leghorns are the coming fowls and some think the most beautiful of the Leghorn family. They are heavier and lay larger eggs than the Brown Leghorns. Being hardy, quick growers, plump breasted and yellow-skinned, they make broilers at an early age. They are good layers. Weight of cocks 5 to 6 lbs; hens 4 to 5 lbs.

Barred Plymouth Rocks.

The Barred Plymouth Rocks are too well

known to need a description, but will say that they are first class layers, good mothers, excellent table fowl and for the market they are not beaten. Their beautiful blue barred plumage makes them a handsome fowl. Standard weight of cock $9\frac{1}{2}$ lbs; hen $7\frac{1}{2}$ lbs.

I can also supply Eggs from the following, all from first class stock:
Single Comb Black Minorcas.

Buff Plymouth Rocks.
Light Brahmas.

Mottled Anaconas.
Patridge Wyandottes.

Rhode Island Reds.

FLOWER PLANTS---HOUSE AND BEDDING.

The following plants are grown expressly for our shipping trade, and are stocky, vigorous, well rooted plants, sure to give satisfaction if properly cared for. Our plants are grown in small pots and thoroughly exposed to light and air, so as to insure a hardy, stocky plant, with plenty of roots. We will send prepaid by mail at prices quoted. We book plant orders and ship plants in spring as soon as safe from frost.

PLANTS BY MAIL.—We prepay charges on all plants sent by mail. If wanted BY EXPRESS they are shipped at purchaser's expense.

Our flower plants this year are better than ever before. Many new and rare sorts have been added.

Carnations, 10c Each.

Very fragrant flowering plants, fine for bedding or pot culture.

WILLIAM SCOTT—Rich Pink.

BON-TONN—Glowing Scarlet.

LIZZIE MCGOWAN—Fine White.

HELEN KELLER—White penciled with white.

SPECIAL—I will mail one of EACH of the above for 30c.

Begonias Shrubby Flowering Varieties, 10c Each.

We sell no class of plants that give better satisfaction than these. They are of easy culture, rapid growers and free bloomers, requiring very little sun. They delight in light porous soil.

SAUNDERSONII—Small waxy foliage, bright red flowers. Tuberous rooted summer flowering.

CAMPTA OR ANGEL WING—One of the best grown.

ARGENTEA GUTTATA—It produces purple bronze leaves, beautifully spotted white flowers.

Chrysanthemums, 8c Each.

We have taken special pains to select sorts, embracing both the early medium and late flowering varieties of the different types. The Chrysanthemums, owing to their easy culture, gorgeousness of color and free flowering qualities, are very popular.

MAUD DEXN—Large pink.

AUSTRALIAN GOLD—Bright yellow.

TIMOTHY EATON—Best of all, white.

APPLETON—Large yellow.

SPECIAL—I will mail one each of the above four Chrysanthemums for only 30c.

UMBRELLA PLANE—Each 10c.

MAIDEN HAIR FERN—Each 10c.

ASPARAGUS SPRENGERA—Strong plants, 15c each.

PALMS—In variety from 25c up.

Geraniums.

We have improved our list of Geraniums by adding several new and valuable varieties so that the list we now offer is as nearly complete as can be had.

ALPHONSE RICARD—Brilliant orange red. Fine bedder.

GRAND CHANCELLOR FAIDHERBE—Very dark soft red.

LA FAVORITE—The best pure white.

JOHN A. DOYLE—Large red.

MAY JAULIN—Delicate peach pink.

JEAN VIAND—The grandest pink.

BEAUTE—Bright salmon.

Single Geraniums.

MRS. E. G. HILL—Pleasing shade salmon.

COUNTESS DE LA PATT—Blush white with salmon center.

LA VISTALA—Standard white.

Double Ivy Geraniums.

CROZY—Fine scarlet.

BRIDESMAID—Soft pink.

JOAN OF ARC—Pure white.

Fancy Leaf Geraniums.

MOUNTAIN OF SNOW—Green bordered with white.

CIRCLE OF GOLD—Tri-colored variety.

DISTINCTION—A beautiful variety.

HAPPY THOUGHT—Dark green, yellow center.

Price of all geraniums 10c each, 6 for 55c, or the 18 for \$1.65.

NEW BOSTON SWORD FERN—Originated near Boston. The fronds grow to a length of 4 feet, and arch and droop very gracefully, making it one of the most attractive of all ferns. 15c each.

DWARF SWORD FERNS—15c each.

Coleus, 6c Each.

Very fine bedding or pot plants of rapid growth and easy culture; 30 varieties, including all choice shades of colors; 60c per dozen.

All Plants will be Mailed in a Separate Package.

"NEW MARVEL"

"THE GREAT NEW OAT."

BY Careful selection of Seed Stock I feel that in the "Marvel" I offer to my customers a distinct strain and a most valuable acquisition to oat growers.

"The Marvel" Matures early, straw of medium length, of best quality for stock, stands upright and is free from lodging even on strong soil. Heads are compact, of large size and branching. The grain is of exceptional quality, testing from

37 to 40 lbs. per Measured Bushel.

The hull of these oats is thin and the grain very desirable for feeding. I consider this variety well adapted to all sections.

Its strong features are

Perfectly Hardy,

Freedom From Blight,

Very Early,

An Enormous Yielder,

Extra Fine Quality.

108 7-32 BUSHEL PER ACRE BY ACTUAL TEST THIS OAT YIELDED.

3463 lbs. per acre. Try this new wonder and surprise your farmer friends.

Stock Limited Price, Bu. \$1.50. Bags Free.
Sample Pkt. 5c.

Grown by WILLIAM D. BURT, Seedsman,
Dalton, N. Y.

Green Mountain Oats.

The Most Productive and Profitable of All Oats.

The claims which we make for this variety are fully substantiated by the numerous testimonials which we receive from our patrons who have grown them in comparison with other varieties, which were highly recommended and claimed to be "the heaviest yielders?" While we have never claimed as large yields for the Green Mountain as are claimed by some for some others, we claim that when grown side by side with other varieties, there are none which will average better or produce larger average crops, and but very few that will approach them. The Green Mountain is without a peer. It has never shown any signs of weakness.

Why is it so good? Because its roots run deep into the soil, thus supplying the plant with moisture even in a dry season. It stools out, and a single plant produces a number of large heads. It is plump and heavy, often weighing 36 to 40 lbs. per measured bushel. The straw is very stiff, of medium height, holding up its large, well-filled heads, on the richest ground when other varieties lie flat.

Your money invested in Green Mountain oats for seed will yield a profit of 200 to 300 per cent. in the increased yield you will get over the common kinds you have been planting.

The extra cost of seed of the Green Mountain over common oats is so slight that no one can afford to plant the old varieties. A change of seed once in two or three years is absolutely essential to growing good crops, and when a change is made, get the best variety possible. The Green Mountain will fill the bill every time.

We are pleased to be able to offer our patrons a fine stock of our Green Mountain oats.

Price by mail, sample pkt. 5c; 1b. 20c; 3 lbs. 50c. By freight, 1-4 bu. 30c; bu. 90c; 2 1-2 bu. \$1.80; 5 bu. \$3.40; 10 bu. \$6.50; 25 bu. \$15; 50 bu. or over at 57c per bu., bags extra 15c each.

Get up a club order for Green Mountain oats.

The New Oat,==“Challenge.”

This grand variety, introduced in 1895 from Denmark, has become the leading sort in many localities where the seasons are cool and short, notably in northern New York. It is very productive, growing with a strong stiff straw from four to five and a half feet in height. Grains plump, thin-hulled, and of a bright yellow, often three grains in a spiklet and distributed around the entire head. The stalks, being so stiff and heavy, do not lodge, nor does the grain fall off during a stormy season. The straw is very strong, well bladed, and when sown thinly stools freely, as many as forty stalks being produced from a single grain. It is an excellent variety to sow with field peas or vetches, and other leguminous crops where the latter are grown to produce ensilage or cured for hay. The strong stiff straw makes a grand support for the running vines of these legumes.

Price per two-ounce pkt. 10c, or 3 pkts. for 25c; per lb. 30c, or 3 lbs. for 75c, by mail postpaid. By express or freight, at purchaser's expense: Per measured peck 40c; per legal bushel, (of 32 lbs.) \$1.10; two bushel or more at \$1.00 per legal bushel.

Improved Early Mastodon Dent Corn.

This early Dent variety is highly recommended. It has a record of over 200 bushels of shelled corn to the acre. There appears to be a very large demand for this variety and this is the reason I have added it to my list this season. It combines large yield, large grains, extra early ripening to a remarkable degree. It makes a fine looking corn when shelled, commanding the highest price in the market. It is about three weeks earlier than the Golden Beauty and I think will please anyone. Give it a trial this season.

Per pkt. 8c; 1-2 pt. 12c; pt. 20c; qt. 35c. by mail postpaid. By express or freight not prepaid, 1-2 pk. 35c; pk. 55c; 1-2 bu. 80c; bu. \$1.25.

NOTE.—My field corn is chosen from the most selected stock as those who have grown it know. It is all that I claim for it and more too.

New Potato,---"VERMONT GOLD COIN."

The hardiest, most vigorous in growth, most productive and the best in table quality of all potatoes, it has proved to be absolutely unequaled for main crop. The vines are strong with exceptionally luxuriant deep green foliage, making a healthy growth when other varieties are cut down by blight. The tubers are all of good size and lie closely together in the hill. While the vigorous growth and great productiveness will commend the VERMONT GOLD COIN to all potato planters, we consider the handsome appearance and superior quality equally important. The GOLD COIN will always bring the highest price on market. In Mr. Coy's comparative trial the GOLD COIN yielded one-third more than any other. The FORDHOOK FARMS find the new VERMONT GOLD COIN to be the quickest and finest cooking potato we have ever tested as well as the **most "superb delicious" in flavor.**

In form the tubers are slightly oblong, rather broad and quite thick through. The eyes are small and there is but little waste in paring. The skin is thin, smooth, and glossy, of a light golden tint, having just sufficient coloring to distinguish it from the white-skinned varieties. The flesh is fine grained, of a pure pearly whiteness, and cooks to a dry floury whiteness. Unlike most of the main-crop or late sorts which need to be well dried out before they will cook properly, these new VERMONT "GOLD COINS," even when freshly dug, cook dry and mealy. Its vigorous growth and great productiveness make it the most profitable variety for the planter, and its great solidity, smooth regular form, and unequaled table quality will make it the most popular and quickest selling on the market.

Per lb. 40c; 3 lbs. for \$1 00, postpaid. By express or freight, not prepaid: Per peck (15 lbs.) \$1.00; per bushel (60 lbs.) \$3.50; per barrel (165 lbs. net) \$7.50.

In the New Gold Coin we "Now Have the Very Best Potato in Existence,"---so writes E. L. Coy.

Mr. Coy is authority on potatoes.

The Best Early Yellow Flint Corn in Cultivation.

Mammoth 8-Rowed Early Yellow Flint—By all means grow it. This is a splendid Extra Early Yellow Flint Corn and has proven to be all that is claimed for it. The ears are large size, being the longest of any variety of flint corn that is grown. This variety has been grown for years by an expert corn grower who has kept the seed for seed stock. It is the purest, handsomest, heaviest yellow flint corn in this country. It grows to a good height and stalks often bear from 2 to 4 large ears with good cultivation. Many farmers claim to have grown as high as 240 bushels from one peck of seed and it fully matured within 85 days from planting. Everyone who wants a splendid yellow flint corn, selected from the finest stock in the country, should place their orders at once, and at the low prices I offer it there is no reason why every farmer cannot change his seed. Price of extra selected stock, per pkt. 8c; $\frac{1}{2}$ pt. 12c; 20c pt.; qt. 35c by mail postpaid. By express or freight not prepaid, $\frac{1}{2}$ pk. 40c; pk. 60c; $\frac{1}{2}$ bu. \$1.00; bu. \$1.50.

DWARF ESSEX RAPE.

Probably no plant has ever jumped into favor as quickly as Rape. Under favorable conditions Rape is ready to pasture in six weeks, and will furnish the most green fodder of any plant grown.

Try it, 4 lbs. per acre. Lb. 10c. (Postpaid 18c lb.)

SPELTZ.

By all odds the most wonderful grain under the sun.

SPELTZ will out yield any grain on earth. Its feed value is unequaled. Crop never fails, cheapest grain grown.

Bu. \$1.00, 2 1-2 Bu. for 1 Acre, \$2.25.

JAPANESE MILLET.

A wonderful forage plant.

All things considered we call this **the most valuable thing in our whole list of forage plants.** It has been sold under different names, as "Billion Dollar Grass," "Steel Trust Millet," etc., but they are all one and the same thing. We recommend it for the following reasons:

First. It makes more hay than German Millet or any other.

Second. Although it grows so large, sometimes six or eight feet high, the hay is of most excellent quality, superior to corn fodder.

Third. It is adapted to all sections and a great success wherever tried. It does well on low ground.

Fourth. Two crops a season may be cut from it, or, if left to ripen, it will yield almost as many bushels of seed per acre as oats.

Fifth. It requires less seed per acre than other millets, 10 to 15 lbs. being sufficient.

Sixth. It makes a fine silage, especially if mixed with Soja Beans or Sand Vetch.

Seventh. It is highly endorsed and recommended by the U. S. Dept. of Agriculture, by all Experiment Stations and by all Seedsmen generally.

Prices, 1-2 pk., 35c; pk, 50c; bu., (40 lbs.) \$1.50; 5 bus. at \$1.40; 10 bus. or over, at \$1.35.

Mand's Wonder Forage Plant.

We know of no forage plant, and we believe there is none in existence, that will give as heavy yields of forage as will Mand's Wonder Forage Plant. In all sections of this country where corn can be grown, this plant will succeed. It will certainly supplant as a forage plant, sorghum, kaffr corn, and milo maize. It is easier to grow than corn or any other forage crop, producing a large amount of fodder at a cost of less than \$1 a ton.

Price Mand's Wonder Forage Plant, per pkt. 10c, 1-4 lb. 20c, lb. 70c, 5 lbs. \$3; postpaid.

TEOSINTE.

When planted the first of June, by the middle of September it has attained a height of 10 feet and made a yield of more than 140 tons of green fodder per acre. It resembles Indian Corn somewhat in appearance, but the leaves are longer and broader and stalks contain a sweeter sap. I know of no plant that is so useful to the dairyman and makes such a mass of foliage which will excel any corn that can be grown, and will give 2 or 3 cuttings in a season. I advise customers to plant it on good soil and you will be astonished with the result. It starts rather slow at first but after it reaches a height of 8 to 10 inches its rapid growth is simply astonishing. It requires 3 pounds of seed per acre, and should be planted in hills 2 feet apart each way. If you have never sown Teosinte you should make a trial of it this season, and I know the result will more than please.

Per pkt. 6c: oz- 12c; 1-4 lb. 65c; 35c 1-2 lb. 1 lb. \$1.25; 3 lbs., sufficient for one acre, \$3 30 postpaid.

SORGHUM.

A good authority says it will produce six times the weight of corn fodder per acre, and as it contains a much larger amount of sugar, it is more valuable. If sown thick it makes extra fine hay and is now considered one of the best fodder plants.

Price, bu. \$1.50; Peck 50c.

CANADA FIELD PEAS.

Bu. \$1.40. Peck 50c.
