Price per cut 60c.

✧ GOLDEN CARMINE POLE BEAN ✧

A New Strain of Horticultural Pole of STERLING MERIT.

Excels in Earliness, Quality, Handsome Appearance and Productiveness

Price of cuts for two colors 92c.

Price per cut 46c.

In this new strain we have a wonderfully robust grower, a week to ten days earlier than Worcester Horticultural Pole. In comparison, the pods are equally as large, stringless, bright golden color when very young. As the pods approach full size, they are mottled and streaked with an unusually bright carmine color on the bright golden, which gives the pods (when ready for market) a strikingly beautiful and attractive appearance. This, together with its productiveness, will make it the most desirable strain of this well known and popular bean.

We are much pleased to report the crop we are growing on our farm this year and other places where we are having it grown, as far as we are able to learn, are free from rust, which is an exception this season to wax bean of this class. Also glad to report present prospects are favorable for a full crop.

We are prepared to accept a limited number of orders subject to crop conditions at \$5.00 per bu.

Price per cut 24c.

Price per cut 24c.

✧ New Dwarf Champion Pea. ✧

Price per cut 32c.

Price per cut 32c.

In offering this new pea, we are filling a long wanted demand. A pea with all the merits of the well known and reliable Champion of England, being hardy and excellent quality, but less vine, larger pods and more of them.

In this pea we have a hardy, robust and vigorous grower, productive of handsome dark green pods of good size and in great abundance, and the quality is unsurpassed.

Height of vine about 26 inches.

Season coming in after the Little Gem.

For a reliable staple market variety we believe it will fill a long needed want.

Another season's trial adds further proof to the merits of this new pea, being a sure and abundant cropper, and quality the best.

We are booking orders to the trade at \$2.50 per bu., subject to crop conditions and getting stock in store in good shape.

The Golden Carmine Pole Bean and New Dwarf Champion Pea were first offered to the trade by ourselves a year ago.

Will furnish electros as shown above at cost.

The first electro shown on circular represents a painting of our new bean, 18 x 24, life size and color which was shown to many of our customers the past season. So many of them expressed a desire to have a copy of it that we decided to have it lithographed and will soon be able to present each of our customers with a copy of the painting.

Others in the seed trade desiring it (which will be an ornament to any office) kindly let us hear from you and we shall be pleased to send you one of the pictures.

We have to spare a few bushels of Dwarf gray sugar peas at \$3.50 per bushel.

Very respectfully yours,

ROGERS BROTHERS.
