Young Rose Plants

WHOLESALE PRICE LIST

TO THE TRADE

IF you are in the market for YOUNG ROSE PLANTS, we believe we can interest you. In our opinion, which is based upon our own experience, we can give you better value for your money than you have been getting.

WHAT WE OFFER: — Plants quoted are all on own roots; all wood for propagating is taken from plants growing in the field in a healthy state and in bloom; we propagate from July to October. The plants here offered are growing in beds out of doors without any protection whatever—and have had none since rooted; they have never been forced—were not grown from forced wood, and while some sorts may not be so “toppy” as greenhouse forced plants, they are hard, handsomely rooted, and will stand shipping and transplanting anywhere. In shipping we shake off soil from roots, dipping the roots in a solution of heavy soil and water—bunching the plants and wrapping roots in moss; thus, they can be packed light and safely to go any distance by express. The plants we are offering are precisely what we plant out ourselves, and, as suggested here, our experience is, that they are worth more by considerable than greenhouse propagated plants from 2½ inch pots.

Give us a trial and we think you will be ready to do business with us on the same line future seasons.

Yours truly,

California Rose Co.
