SEED POTATOES.—Following prices f. o. b. Geneva, N. Y., in any quantities.

1st size, \$1.50 per bushel, \$3.25 per barrel, 165 lbs.

2d size, 1.00 " " 2.25 " " "

Irish Cobbler. This is considered the best in quality of any of the extra early varieties. Have used them seven weeks from planting, and never later than two months. They are round, smooth, snowy white, and as handsome as they are fine in quality. They are good yielders for an extra early variety.

Early Favorite. This is a medium early variety, long, and of the rose type of potato. This is with us as heavy a yielder as the Carmen, and is a good main crop potato to keep through, as well as taking the place of an early variety. It is not however as early as the Cobbler, nor for early use, has it the quality of the Cobbler, although for late use its quality is unsurpassed.

Ontario White. A long, white potato, very handsome and of fine quality a first-rate general purpose potato.

Carmen. This standby hardly needs description: its large, round, high quality tubers have made it the best known potato that has been put on the market for years.

Terms on seed potatoes, Cash with order.
