PARK'S FLORAL GUIDE FOR 1906.

Agricultural D. C.

THE BEST FOUR ROSES.

MAMAN COCHET. Everblooming; charming, rosy **Pink**.
MAMAN COCHET. Everblooming; charming, soft **White**.
HELEN GOULD. Everblooming; the rich, **Crimson** Cochet.
ETOILE DELYON. Everblooming; the rich, **Golden** Cochet.

EVERYBODY should have these **Four Roses**. All are perfectly hardy, healthy, vigorous, free-blooming and everblooming. All bear charming, pointed buds, which develop into enormous, faultless flowers, double, deep and full; exquisite in rich and lovely coloring; surpassingly beautiful in form and fragrance. They are the *cream of the cream* of all hardy everblooming **Roses**. If you grow but four plants they should be these **Roses**.

These 4 Roses Free.

Send a **Dollar Order for Seeds** selected from this **GUIDE**, to reach me by **March 1st, 1906**, and these four, well-rooted **Rose** plants will be mailed you early in **May**, in time for planting. After **March 1st**, the **Roses** will cost you 25 cents. This offer is to encourage early orders. Don't delay. Tell your friends of this liberal offer.

GEO. W. PARK, SEEDSMAN AND FLORIST.
 LA PARK, LANCASTER CO., PA.

2 INDEX AND GERMINATION TABLE.

IT IS IMPORTANT to know the approximate time required by seeds for germination in order to sow them with satisfaction and success. Many seeds are condemned and neglected before they have had sufficient time to start. Always divide the packages and sow at different times. You can then give them a second or third trial. Sow seeds that start about the same time together. Keep the seed box or bed moist, but not wet, and do not let the soil dry out until the seeds have had ample time to germinate. Seeds are influenced by conditions, and the plants may appear 25 per cent. earlier or 25 per cent. later than the table indicates, according to circumstances. The figures in this list indicate the page in the Guide where the seeds are offered and priced. Following is the key to germination: a, 5 days; b, 8 days; c, 10 days; etc. The dagger (†) added means that the seeds may take much longer time than stated, some lying dormant for weeks or months, or a year before starting.

	5 days a	8 days b	10 days c	15 days d	20 days e	25 days f	30 days g	50 days h	Indefinite i

Always keep a record of the date of sowing, and refer to the above table to know approximately when to expect the plants. Hang this Guide up, that you may know where to find it when wanted. Those marked (†) are not sure to come up promptly. Nearly all shrubs might be so marked. For other information on seeds, plants and flowers see Park's Floral Magazine, published monthly on fine paper at 25 cents a year, or on cheaper paper at 10 cents a year.

INTRODUCTORY REMARKS.

THIRTY-SIX YEARS of constant service as a seedsman and florist, have drawn to me the esteemed patronage of more than half a million flower-loving people, many—very many of whom have become my warm friends. Every year I am greeted with their orders, accompanied with kind words, and often additional orders, solicited from flower-loving neighbors, thus affording pleasant, friendly intercourse, and an assurance that my efforts to serve them faithfully and well are appreciated. One-half of the business man's life is spent in his business, and the other half in his home, and happy indeed, is that life where both the business and home contribute to his happiness. The harmonious and genial nature of those who love the beautiful makes the florist's life one of pleasure instead of drudgery, and thus the years come and go with him in a continuous round of satisfaction and enjoyment.

I need hardly tell my friends that I owe to, and give them the best attention and most faithful service at my command. Those who have dealt with me know this, and my growing trade will indicate it to others. My aim is to please and satisfy all who entrust me with their orders. I would always rather lose profits than a patron's confidence and trade. My business has doubled many times by the sons and daughters of the family growing up and establishing new homes, and bestowing their patronage where father and mother had been satisfactorily served for many years. And it has also been doubled many times by the good words of friends and the personal solicitation of orders among neighbors. I rejoice in the confidence thus manifested, and will ever guard and protect it as a sacred possession.

I try to so conduct my business that it is brought right to your home. My various Catalogues describe what I offer, and state the prices. Simply make out your order, enclose it with the amount, and mail to me. I guarantee the letter to reach me safely, and the seeds, plants or bulbs, to be sent by mail or express, prepaid, and safely delivered right to your door. If a mistake occurs, or if there is damage or loss in transit, I will make all good. If you are not satisfied complain to me at once, not to a friend or neighbor. You will find me ever ready to listen to any reasonable complaint.

Owning and operating the printing house and electrotype foundry where my publications are issued, as well as farms, gardens and greenhouses for the production of seeds, bulbs and plants, and having my expenses further curtailed by the use of a first-class water-power, I can profitably sell goods of the best quality, at prices that would ruin many a seedsman not so favorably provided. I never deal in cheap or inferior seeds. I sell only the best. Park quality means the **best quality**, and I challenge comparison. And now, appreciating and feeling thankful for the favors of my friends in the past, I solicit and anticipate their continued patronage, and also trial orders from those who have not yet dealt with me. My offerings are all of the new crop, and of tested vitality, while I am assured that the quality is unsurpassed. I therefore await the pleasure of my friends, believing they will be more than pleased with the treatment they receive, and the success they will attain with the seeds, bulbs and plants supplied.

La Park, Lanc. Co., Pa., January 1, 1906.

GEO. W. PARK.

P. S.—Remit by Money Order, Express Order, Draft or Registered Letter. Sums of 10 or 25 cents send in stamps or coin.

PARK'S FLORAL MAGAZINE.—To further aid those who cultivate flowers, as well as to advance the general interests of floriculture, I publish a monthly Magazine devoted entirely to flowers. It was established in 1871, and has been continuously published by me ever since. It is now the oldest and most popular floral journal in the world, having a circulation of over 400,000 copies monthly. It is original, practical, and fully illustrated, and is the favorite Magazine among amateur florists. Only 10 cents a year, or for the edition upon fine paper, 25 cts. Sample copies free upon request.

SPECIAL {Park's Floral Magazine, one year, 10 Cts. } **TOTAL,**
For 25 Cts. {Seeds, your selection from Guide, value 25c, trial price, 15 " } 25 Cts.

This offer is to encourage new subscriptions. The full subscription price (10c) must always be sent to get the seeds (25c worth) at the trial price of 15c. In other words, 25c either in stamps or coin must be sent with your order. Tell your friends of this offer.

TO INSURE SUCCESS.—With every package of seeds, bulbs and plants I send directions for culture, thus insuring success. I wish, however, to here impress the fact that many failures are due to lack of knowledge of time required by seeds to germinate. Study the table on preceding page to avoid failures from this cause. Always divide the packets and make several sowings.

SELECTING AND SOWING.—If you wish seeds to sow in a garden bed, or to present to children, or if you have had but little experience in raising flowers from seeds, select such flowers as Alyssum, Asters, Balsams, Calendula, Candytuft, Indian Pink, Gaillardia, Helianthus, Marigold, Mignonette, Bedding Petunia, Pansy, Phlox, Ricinus, Scabiosa, Tropaeolum, Valerian, Verbena, Zinnia. For vines get Cobaea, Cypress, Dolichos, Gourds, Humulus, Ipomoea, Morning Glory, Mandarindia, Tropaeolum peregrinum and Thunbergia. Even in sowing these it is well to prepare the bed carefully in a sunny exposure, place a low broad frame around it, and after sowing, water, and cover with a newspaper until the plants appear. If you sow seeds in the open and allow full exposure to rain and wind and sunshine, you should not complain if but few of the seeds become plants. In a protected bed sowing can be done earlier than in an open one, as extra covering of paper or boards can be applied on cold nights.

GET UP A CLUB.—Park's Floral Magazine one year, with a premium of ten packets of Choice Flower Seeds (my choice. See Magazine) will be sent for 15 cents. At this price subscriptions are easily obtained. For a club of 25 names (\$3.75) I will mail a boy's or girl's nickel-plated watch; for 35 names (\$5.25) I will mail a gold-plated watch; for 75 names (\$11.25) I will mail a gold-filled watch, such as is usually retailed by Jewellers at \$10.00. Send for blank lists and particulars.

4 Park's Superior Flower Seeds.

Unequalled in Vitality—Unrivalled in Quality.

Park's Primroses.

Mr. Park: My Primroses started in May, began to bloom November 15, and such beauties, all large, thrifty plants, and the individual blossoms as large as a 50-cent piece. Colors white, pink and the darkest crimson I ever saw. Margaret Armstrong, Dubuque Co., Ia., Oct. 11, 1905. **★** Park's—the largest, brightest and best. See page 56, 57, 58.

CHINESE PRIMROSE.

Park's Gloxinias.

Mr. Park: April 26, 1904, I sowed half of a 3-cent packet of your mixed Gloxinias. September 5, 1904, my first blossom opened. It was over 3 1/2 inches wide, beautiful cream white, with a deep purple edge. I raised 32 plants from that half, and this spring have 26 plants from the other half. Mrs. Jos. E. Goff, Worcester Co., Mass., Oct. 12, 1905. See 54.

GLOXINIA

Park's Cinerarias.

Mr. Park: My Cinerarias from your seeds were grand. Among others, one was richest purple, one deep crimson with yellow centre; but the crowning beauty of all was a large crimson one, with white eye. They bloomed continuously, over two months. E. J. Bailey, Quebec, Can., Oct. 13, 1904. Park's are the finest. See page 52.

CINERARIA

Park's Gaillardias.

Mr. Park: Last year I got a package of your Gaillardia seeds, and nearly every seed came up. The plants have been in bloom all summer, and are still loaded with buds and blossoms. They are yellow and brownish-red and are beautiful made up with white flowers in bouquets. Mrs. R. E., Mower Co., Minn. **★** Park's improved. See p. 18.

GAILLARDIAS

Park's Asters.

Mr. Park: The Asters from your seeds were a grand sight, the wonder and admiration of all. Some were tall and stately, others dwarf and low; some blossomed early, others late; and the flowers were of every color, shade and hue—red, pink, purple, lavender, yellow and white, some with incurved petals like a Chrysanthemum. Mrs. H. C. Calhoun, Washtenaw Co., Mich., Oct. 11, 1904. Park's Asters. See page 7.

ASTER

Park's Balsams.

Mr. Park: My Balsams from seeds were marvels of beauty. The plants branched, and every branch became a wreath of bloom, every flower perfect. They just simply reigned queen of the garden, and everybody here is going to buy Balsam seeds of Park next year. Mrs. R. K. Woodyard, Johnson Co., Mo., Nov. 9, 1905. Buy of Park. See 10.

BALSAMS

Park's Carnations.

Mr. Park: Your Carnations are beautifully colored, double, fragrant and as large as a dollar. I sowed the seeds in March, and the plants began to bloom in four months. They like rich, moist soil and partial shade. They thrive on the east porch in summer and east window in winter. Walter Roundbush, Tippecanoe Co., Ind., Oct. 4, '05. p. 12, 43, 46, 51.

CARNATIONS

Park's Pansies.

Mr. Park: Your Giant Pansies were fine. Nearly every seed grew, and the blossoms were as large as a silver dollar. Next year I am going to have a circular bed, with each row a different color, and shall get Park's Roemer's Giant Pansies of you, as there are none better. Mrs. Roy Mead, Nobles Co., Minn., Oct. 10, 1905. See page 25.

PANSY

Park's Petunias.

Mr. Park: From one packet of your Petunia seed I raised some of the finest flowers I ever saw. Many measured over four inches across, while the colors were beautiful and rich, ranging from pure white to dark purple, some handsomely veined and variegated. Mrs. A. D. Thompson, Fremont Co., Iowa. See page 26 and 27.

PETUNIA

Park's Phlox.

Mr. Park: I advise all to grow your Annual Phlox. I got a package from you last spring and divided with a friend. We both had quite a bed, for it seemed that every seed grew. The plants began to bloom when quite small and continued a mass of bloom, in all the rich colors, until frost in October. Mrs. Geo. Jewell, Isanti Co., Minn., Oct. 30, 1905. See page 27.

PHLOX

Park's Ten Weeks Stocks.

Mr. Park: I had twenty or thirty plants from the packet of Ten Weeks Stock bought of you. I gave many plants to friends who admired them. They developed long spikes of blossoms, very double and fragrant. For continuous blooming I have nothing that excels them. Annie Dobbie, Norton Co., Kas., Oct. 6, 1905. See page 33.

STOCK

Park's Sweet Peas.

Mr. Park: The Sweet Pea seeds I bought of you last spring grew nicely, and the blossoms were exquisite—so many varieties and colors, and such large rich-scented blossoms borne on long stems. They were by far the prettiest Sweet Peas I ever grew. Mrs. J. H. Owen, Wyoming Co., N. Y., Oct. 24, 1905. See page 10.

SWEET PEA

Park's Verbenas.

Mr. Park: From a 3-cent packet of your large-flowered fragrant Verbenas I had many different colors, and the flowers were produced freely and continuously. I set some in an urn and they were a mass of fragrant bloom all summer. I have potted one for my window, delicate pink with a fragrance like Trailing Arbutus. Mrs. G. L. Clark, Bormie P. O., Me., Oct. 9, 1905.

VERBENA

Park's Zinnias.

Mr. Park: I got a packet of your Mammoth Zinnias in the spring, and they were a surprise—as double and showy as any Dahlia, and more free-blooming. They were the finest Zinnias in this part of the country. Some grew four feet high, and the flowers were of all colors. Every one who saw them admired them. May Preston, Douglas Co., Mo., Oct. 30, 1905. See p. 35.

ZINNIAS

PARK'S CHOICE MACHINE PACKED FLOWER SEEDS.

PARK QUALITY ALWAYS FIRST QUALITY

NEW CROP OFFERING FOR 1906 WARRANTED.

My BUSINESS was established in 1869, and I have always given it my best thought and attention, that I might serve my patrons satisfactorily. My prices are low, but the quality of my seeds is **PARK QUALITY—ALWAYS FIRST QUALITY.** At La Park I have gardens and greenhouses, mills and warehouses, printing office, electrotype foundry, seed and bulb stores, postoffice and all the needs of a big business, economically and satisfactorily operated. My motto is "Big sales and small profits," and my esteemed patrons have the benefit of my complete and economical facilities. When you want first-class seeds send me your order. Quality is always first—price secondary, and I guarantee prompt and faithful service,

The handsome engravings in this book are mostly original, and all persons are warned against reproducing them without permission.

Ageratum, New Large-Flowered.

Special Mixture, all colors, 4 packets 10 cents, 1 packet 3 cents.

Beautiful feathery clusters of blue and white flowers, continuously born throughout the season. Plants grow and bloom well in a sunny exposure, and are fine for edging and beds, also for pots. The new, large-flowered sorts are of especial beauty.

Large-flowered Dwarf, pure white, 8 inches high.....	5	Large-flowered Dwarf, azure, white centre, 8 inches.....	5
Large-flowered Dwarf, deep blue, 8 inches high.....	5	Large-flowered Dwarf, light yellow, 10 inches.....	5
Large-flowered Dwarf, light blue, 8 inches high.....	5	Large-flowered Dwarf, Blue Star, compact, 5 inches.....	5

I can also supply tall Mexicanum, blue and white, Lasseauxi, pink, and Little Dorrit, blue and white, at 5 cents each per packet. Special mixture, all varieties and colors, 4 packets, 10 cents; 1 packet, 3 cents.

Mr. Park:—From a three-cent packet of Ageratum Seeds I had plants enough for myself and some for my neighbors. The border of my Canna bed was a sheet of blue.—Mrs. H. B. McWhorter, Seneca Co., N. Y. Nov. 1, 1905.

Abronia umbellata, a succulent, sun-loving, Verbena-like plant; husk before sowing..... 3
Adonis, annual; plants grow a foot high; finely cut foliage and shining red flowers, mixed..... 3
Ethionema grandiflorum, a handsome perennial, flowers rose, in long spikes..... 3
Agrostemma Coeli Rosa, 1 foot high, flowers rose and white, mixed..... 3
Anemone coronaria, showy flowers of various colors, mixed..... 3

Anagallis, very pretty, free-blooming, half-hardy annuals. Like a dry, sunny place. Blue, crimson, scarlet, separate or mixed..... 3
Anchusa, perennials with rich blue flowers, mixed..... 3
Arnebia cornuta, new; showy golden yellow with brown spots..... 3
Artemisia annua, grows 3 feet high with Fern-like, fragrant foliage; known as Sweet Fern..... 3
Asperula azurea setosa, 9 in. high, branching, with pretty blue flowers in clusters..... 3

Antirrhinum Giant Fragrant.

Special mixture, 4 packets 10 cts., 1 pkt. 3 cts.

The new large-flowered, fragrant Antirrhinums or Snapdragons are very desirable garden or pot plants. They are easily started from seeds, and the plants soon come into bloom, branching freely, and every branch becoming a charming spike of large, scented, rich-colored flowers, the colors ranging through the splendid shades of white, rose, crimson, scarlet, yellow, orange and dark purple, many varieties showing distinct variegations, as striped, spotted, blotched. These new varieties are a great improvement upon the old-fashioned Snapdragons, and are superb bedding plants, blooming freely the entire season. They grow about two feet high. My special mixture contains all of the choice colors.

White.....	5	Chamois.....	5
Scarlet.....	5	Rose.....	5
Rich crimson	5	Striped.....	5
Yellow.....	5	Copper.....	5
Scarlet, gold and white.....	5		
White, striped red.....	5		
Scarlet with white throat.....	5		
Yellow, striped red.....	5		
Carmine with white throat.....	5		
Yellow and orange.....	5		
Pure White (Queen Victoria).....	5		
Golden Queen, rich golden yellow	5		

Special mixture of all the above,
4 pkts 10 cts., 1 pkt 3 cts.

Semi - Dwarf Varieties in special mixture, 4 packets 15 cts., 1 packet..... 5
Tom Thumb Varieties, very dwarf, for pots, edgings and beds; special mixture, 4 pkts 15 cts., 1 pkt..... 5

Mr. Park: I had a fine bed, of your new large-flowered Fragrant Snapdragons this year - so many rich and beautiful colors. They were splendid. I mean to have a large bed next year. They are so easily raised from seeds. - Mrs. M. C. Webster, Lewis Co., Wash., Nov. 25, 1905.

Arctotis grandis, a new annual 2 feet high with large, lavender - white, daisy - like flowers. 4 pkts 10 cts., 1 pkt..... 3

Acacia lophantha, an easily-grown Fern-like plant of great beauty; it is of rapid growth, and makes a fine appearance either in a pot or a shady bed near the house. Always give plenty of root room. Pinch to promote bushy growth. See engraving. 4 pkts. 10 cts., 1 pkt. 3 cts.

Alonsoa, lovely pyramidal plants blooming profusely and continuously; flowers mostly shades of rich scarlet. A. gracilis, A. Warszewiczii, A. Mutisi, and A. myrtifolia, are all good for either pots or beds. See engraving. Mixed. 4 packets 10 cents, 1 packet 3 cents. The varieties separate, 5 cts. pkt.

SWEET ALYSSUM.

AMARANTHUS TRICOLOR.

Alyssum, Sweet, Early, free and continuous blooming annuals; flowers white, in fine clusters, and deliciously scented; excellent for edging and baskets, and the sprays fine for cutting. See engraving. 4 pkts. 10 cts., 1 pkt. 3 cts.

Amaranthus, showy variegated-leaved plants of easy culture, useful for bedding, as well as for pots; like poor soil and a sunny situation. Joseph's Coat (or Amaranthus tricolor. See engraving.) Fountain Plant, Prince's Feather, Love Lies Bleeding, etc., belong here, and can be supplied at 5 cts. per pkt.; all sorts mixed 4 pkts. 10c., 1 pkt. 3c.

Special Mixture, all colors, 4 packets 10 cents, 1 packet 3 cents.

Park's Superb Double Asters.

Complete Special Mixture, 4 packets 10 cents, 1 packet 2 cents.

These are splendid annuals for either beds or pots and deserve general cultivation. The plants are easily grown from seeds, and always bloom well in rich soil in a sunny situation. The flowers are very double, are borne on long stems, show the richer shades of red and blue as well as white, and are fine for cutting. My seeds are the product of German and French specialists, and are sure to yield the most satisfactory results. My mixtures are specially prepared, and contain the colors in fine proportion.

Mr. Park:—You should have seen my fine Asters this summer raised from your seeds. They were simply beyond comparison.—Chas. W. Brookens, Franklin Co., Pa., Oct. 4, 1905.

Mr. Park: Last Spring I bought Aster seeds of you, at prices so low I did not expect much, but the results were quite as satisfactory as from the more expensive seeds I bought of other florists. I usually raise a thousand plants. I had a very fine display this year. People come ten miles to see them.—Geo. D. Carrier, Chautauqua Co., N. Y., Oct., 1905.

Mr. Park: Out of a three-cent packet of mixed Aster seeds, I raised quite a large bed of the most beautiful Asters I ever saw. They were the wonder of the neighborhood, and were of every color I ever saw in Asters, and so easy to raise.—Mrs. Bertie Jewell, Isanti Co., Minn., Oct. 2, 1905.

Mr. Park: If your patrons wish something very fine they should try Park's Asters. A few cents spent in the different varieties will furnish an abundance of cut flowers, besides making a fine show in the garden.—Mrs. M. C. Bramhall, Bradford Co., Pa., Nov. 11, 1905.

FIG. 1.

Giant Victoria Aster.

A Grand Double Recurved Variety.

Special Mixtures, 4 pkts. 15 cts., 1 pkt. 5 cts.

This is one of the finest Asters, exceedingly showy and beautiful. Plants grow two feet high, branch freely, and each branch bears several huge, double, open flowers, as shown in the engraving. Set ten inches apart in a bed, they make a gorgeous display in autumn. Fine also for pots. I offer the choicest seeds in the leading colors, as follows:

Pure white.....	5	Dark blue.....	5
White, rose tint.....	5	Silver gray.....	5
Peach-blossom.....	5	Carmine.....	5
Rose.....	5	Scarlet.....	5
Light blue.....	5	Brown violet.....	5
Special mixture, 4 pkts. 15c, 1 pkt. 5c	5		

Mr. Park: I bought a packet of your New Giant Victoria Aster seeds, and they did elegantly and deserve great praise. I had plenty of fine large flowers for myself, and could carry nice bouquets to my friends who were disappointed in theirs.—Mrs. E. C. Slade, Delaware Co., N. Y.

Giant Perfection Aster.

A Grand Double Incurved Variety.

Special Mixture, 4 pkts. 15 cts. 1 pkt. 5 cts.

The Improved Perfection Aster, is the most beautiful and showy of the incurved varieties. The plants are strong, of upright growth, two feet high, and bear magnificent, large, incurved flowers as represented in the above engraving. The colors are very rich, and some flowers are charmingly variegated.

Pure White.....	5	Flesh color.....	5
Crimson.....	5	Rosy carmine with white.....	5
Azure.....	5	Brilliant blackish blue.....	5
Dark blue.....	5	with white.....	5
Brilliant rose.....	5	Sky blue and white.....	5
Fiery scarlet.....	5	Purple.....	5
Deep blood-red.....	5		
Special mixture of all colors, 4 pkts. 15 cts., 1 pkt. 5c	5		

Mr. Park: Your Perfection Asters are lovely, and so easily raised. My bed showed many colors, as white, pink, blue, purple, variegated, etc. I wonder how many of the floral sisters have tried them.—Augusta Oldfield, McPhearson Co., Kans.

New Hohenzollern Aster.

Special mixture, 4 packets 15 cents, 1 packet 5 cents.

Perhaps the largest, most attractive and most beautiful of the Plume Asters is the New Hohenzollern race, which originated with the famous German Specialist, Mr. Frederick Roemer. The plants are of luxuriant growth, and bear freely enormous, perfectly double flowers, from five to seven inches in diameter, of the most charming colors, every flower twisted and curled as indicated in the engraving, thus forming a great, fluffy ball not unlike a Japanese Chrysanthemum. This is one of the glorious varieties, either for pots or beds, that everyone should have. I offer the choicest seeds, direct from the originator, Mr. Roemer, and they will be found far superior to the seeds of this variety mostly sold. My special mixture contains all the fine colors, and the packets are as liberal as such choice seeds can be offered. I hope all my friends will try this grand feathery Aster.

Blue white.....	5	Rosy lilac.....	5	Azure blue.....	5	Brilliant carmine.....	5
Bright rose.....	5	Crimson.....	5	Carmine rose.....	5	White, changing	5
Dark blue.....	5	Flesh color.....	5	Lavender.....	5	to rose.....	5

Special mixture, all colors, 4 packets 15 cents, 1 packet 5 cents.

Park's Yellow Quilled Aster.

4 pkts. 10 cts, 1 pkt. 3 cts.

This is the best yellow Aster to date. Plants grow two feet high, and are covered with large double quilled flowers, which last a long time.

Mr. Park: All the Aster seeds I got from you last spring did well, but your Silver Cloud and Yellow Quilled Asters deserve special praise, for they were beautiful—so large and free blooming. Mrs. F. L. Calkin, Linn Co., Mo., Nov. 4.

Mr. Park: I bought of you a packet of Hohenzollern Asters, and of all the Asters I ever raised they were the finest. Such large blossoms, crimped and curled and such lovely colors, white, red, purple, pink, etc., Each plant was a bouquet in itself, with its big double fluffy blossoms. A friend had lots of pretty Asters, but mine were pronounced, by those who saw them, to be the best. Mrs. E. J. Putnam, Allegheny Co., N. Y., Oct. 10, 1905.

Cocardeau or Crown Aster.

Special mixture, 4 pkts. 10 cts. 1 pkt. 3 cts.

Grows 18 inches high, bearing large, full double flowers of rich colors, the centre pure white.

Rose, carmine, crimson, violet, blue and lilac, each ... 5
Special mixture, all varieties, 4 pkts. 10 cts., 1 pkt. 3

Mr. Park: Your Cocardeau or Crown Asters were just lovely, and were greatly admired by myself and friends. Anna Strain, Jasper Co., Ia. Nov. 29.

Dear Mr. Park: I can truthfully say that the Hohenzollern Asters which I purchased of you, are the finest in cultivation. They are the largest and most beautiful of all Asters, and very easy to grow. I have had great success with them, and advise all flower-lovers to get no other but Park's Asters. Stanley Gibson Ont., Oct. 10, 1905.

Mr. Park: I hear people complain of seeds proving unsatisfactory, I always advise them to send to Park, whose seeds never fail to mature, if properly attended to. Hazel Hamilton, King Co., Wash.

Park's Fine Bedding Aster.

Special Mixture, 4 pkts. 15 cts., 1 pkt. 5 cts.

I offer a compact, dwarf Aster for beds, that cannot be surpassed. The plants are bushy, as represented in the small sketch, and when in bloom the bed is a glorious mass of exquisite flowers, exceedingly handsome whether grown in separate colors or in mixture. The plants are less than a foot high, and should be set six or eight inches apart each way. The engraving shows a bed of these Asters in mixed colors, with a border of *Cerastium Biebersteinii*. The packets of mixed Aster seeds, costing 15 cts., will make enough plants for a large bed, and two packets of

Cerastium, costing 5 cts., will yield plants for a thick border, the whole seed expense for the bed being 20 cents. Sow the seeds of both in boxes in April, and transplant in May. The plants do best in a sunny bed, mulched with fine stable litter, after the last hoeing.

Pure white 5
Light blue 5
Dark blue 5

Crimson 5

Mr. Park: I bought a packet of your Bedding Aster seeds last spring. It contained all the colors that belong to the Aster family. The plants produced the finest flowers I ever saw. I took a bouquet of them to a picnic and they were admired by every one present. I had to tell them where I got my seeds.—M. E. W., Chautauqua Co., N. Y., Nov. 10.

Aster, Park's Ostrich-feather.

Special Mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

The elegant plumy flowers of the Japanese *Chrysanthemum* are fairly represented in the splendid strain of Ostrich-feather Aster which I offer. The plants grow eighteen inches high, and in autumn produce enormous double flowers as shown in the engraving, and of all the rich colors from white to almost black, as follows:

Pure white 5 Light yellow 5
Peach-blossom 5 Dark blue 5
White ch'g to rose 5 Lilac 5
Rich crimson 5 Azure 5
Special mixture of all colors, 4 pkts. 10 cts., 1 pkt. 3 cts.

Mr. Park: The Ostrich-feather Asters from your seeds were of immense size, like Japanese *Chrysanthemums*, measuring five inches across, with long petals curiously curled, so as to give them a striking resemblance to the *Chrysanthemum*. Eva Shipley Frances, Wheeler Co., Neb., Nov. 24, 1903.

Mr. Park: My Ostrich Plume Asters from your seeds are lovely, being the largest flowers and most delicate shades I have ever seen in Asters. I am much pleased with them. Mrs. Edwin W. Mace, York Co., Maine, Oct. 25, 1905.

Mr. Park: My Asters almost rival the *Chrysanthemums*. I wish you could have seen them in bloom. Lizzie B. Deisher, Berks Co., Pa., Sept. 16, 1905.

Queen of the Earlyies.

Special Mixture 4 pkts. 10 cts. 1 pkt. 3 cts.

The earliest Aster. Flowers very double and of many colors. Fine for beds or pots. White, rose, crimson, light blue, dark red, red lilac, scarlet, scarlet and white, each, $\frac{1}{4}$ oz. 50c., per pkt. 5

Special mixture, all colors, 4 pkts. 10 cts., 1 pkt. 3 cts.
Mr. Park: My Asters, Queen of the Earlyies, were perfection of their kind—plants an even height, color finely mixed, flowers perfectly double and all in bloom at one time. Mrs. John Henderson, Ont. Can.

Park's Marvel Aster.

Price 4 pkts. 10 cts. 1 pkt. 3 cts.

Grows two feet high, bearing large globular flowers, pure white with a blood-red centre. The color contrast is odd and grand.

Mr. Park: Your Marvel Asters were the handsomest flowers I ever raised. I think every seed grew. I had a fine bed. Alzima Martin, Erie Co., Pa., Nov. 2, 1903.

Park's seeds are the best and cheapest. I thank you many times for letting us have the seeds at a small price. Lizzie B. Deisher, Berks Co., Pa., Sept. 16, '05.

Park's Silver Cloud Aster.

Pure White, 4 pkts. 10 cts., 1 pkt. 3 cts.

Those who wish a glorious bed of white bloom in autumn should sow a few packets of Park's Silver Cloud Aster. The plants are graceful in habit and bear large, perfectly double flowers, delicate in texture, faultless in form, and held up by strong stems. Elegant for bouquets or vases when cut. I can also supply colors as follows: Lavender, Shell Pink, Crimson and Indigo Blue, at 5 cents per packet, or all in mixture, including the white, 4 pkts. 10 cts. 1 pkt. 3 cts. See engraving.

Mr. Park: My bed of Silver Cloud Asters is today a grand sight. It is 3x9 feet and oh, such fine blossoms! They do not care about a little frost, so I did not try to get them earlier. —Mrs. C. E. Kinney, Pierce Co., Wash., Nov. 1, 1903.

Dwarf Chrysanthemum Aster

Special mixture, 4 pkts 10 cts., 1 pkt 3 cts.

A splendid sort. Plant grows a foot high, and in late autumn are a mass of large double flowers of many colors. Fine for either pots or beds. Set 8 inches apart.

Pure white, light blue, dark blue, fiery scarlet, rose, each, $\frac{1}{4}$ oz. 50 cts., per packet..... 5
Twenty other colors, each 5
All colors, special mixture, 4 pkts 10 cts., 1 pkt..... 3

Boltz's Dwarf Bouquet Aster.

Mixed, 4 packets 10 cents, 1 pkt 3 cents.

This is a very dwarf sort, the blooming plants appearing as little mounds of color, as shown in the engraving. Set plants five inches apart

Shades of red, blue, white, scarlet and variegated, in fine mixture, 4 pkts. 10 cts., 1 pkt..... 3

Mr. Park: Your Bouquet Asters are truly named, as every plant I raised from your seeds resembled a huge bouquet of white, pink, red, blue or purple. Every flower was so double they looked like little roses, and nothing could be prettier. —Mrs. Lucinda E. Reynolds, Hart Co., Ky., Oct. 13, 1904.

New Victoria Aster.

Special mixture, 4 pkts. 10 cts. 1 pkt. 3 cts.

One of the best Asters, either for pots or beds, 18 inches high, well branched and bearing large, very double flowers, imbricated and of the richest colors.

White, yellow, rose, carmine, crimson, dark scarlet, azure, deep blue, indigo, crimson and white, each... 5
Special mixture, all sorts, 4 pkts. 10 cts., 1 pkt..... 3

Parks Harlequin Aster.

Special mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

Beautiful. Flowers very double, graceful, and of many colors, checkered white. Eighteen inches high, free-blooming, odd and attractive. This curious and beautiful Aster is worthy of more attention. My patrons should give it a trial.

Crimson, deep violet, light blue, purple, rose and blackish blue, all mixed with white, each 5
Special mixture, all colors, 4 pkts. 10 cts 1 pkt..... 3

Mr. Park: I got a packet of Silver Cloud Aster seeds in the spring. The flowers were very large and extra fine. They were admired by every one. The plant blossomed freely and continuously till after the frost. —Mrs. Feller, Jackson Co., Mich., Nov. 1903.

Bartonia aurea, 2 ft. high, showy yellow flowers 5

Beet, ornamental, crimson, golden and bronze-leaved, mixed, 4 pkts. 10 cts., 1 pkt..... 3

Borecole, ornamental cabbage, fine for an outdoor winter bed..... 5

New Jewel Aster.

Special mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

Grows two feet high, with large, full-double flowers, globular in form and freely borne. A superb sort for garden or pot culture. Always greatly admired.

White, deep rose, light blue, dark blue, scarlet, scarlet and white, each, per packet..... 5
Special mixture, all colors, 4 pkts. 10 cts., 1 pkt..... 3

Washington, large, all colors mixed.....	5

Mr. Park: I like your seeds. I have acted as agent for other firms, but when I want for my own use I send to you. I think your seeds always produce such fine specimens. Last spring I sent to a noted firm for Ostich Plume Aster, also to you for the same. The plants I got from your seeds were much nicer, and the flower larger and more fleecy-looking. —Mr. J. N. Fairbank, Hillsdale Co., Mich., Oct. 9, 1905.

Biden's atropurpurea, the "Black Dahlia,"

showy, dark crimson bloom..... 5

Brachycome, Swan River Daisy, mixed colors... 5

Browallia, New Giant-flower, blue pot plant mxd 5

Elata, large-flowered, white, blue, purple, mixed 5

Park's Fine Double Balsam.

Special Mixture, 4 pkts. 10 cts. 1 pkt. 3 cts.

The Improved Double Balsam ranks among our best annuals. Any one can grow the plants from seeds, and they thrive in any garden soil. The plants are bushy, and become a dense mass of rich foliage and exquisite, waxy double flowers in the most charming and attractive colors. The plants are ever-blooming and the flowers are showy on the plant, and when removed make lovely plate bouquets. Started in early September and potted they bloom well in the window in winter. The finest of all Double Balsams is **Park's Prize Camellia-flowered**.

Plants of this splendid variety grow from two to three feet high, and show great wreaths of immense flowers as double as a *Hermosa* rose, and in all the most pleasing colors, as follows:

Pure white.....	5	Lilac.....	5
Pure scarlet.....	5	Violet.....	5
Crimson.....	5	Rose spotted.....	5
White reflecting rose.....	5	Scarlet spotted.....	5
Light yellow.....	5	Violet spotted.....	5
Salmon rose.....	5	White reflecting lilac.....	5

Mr. Park: Your Camellia-flowered Balsams were exceedingly fine, and took first premium at the fair. The flowers were very large and perfectly double. The colors ranged from pure white through several shades of pink to deep crimson. A pure glistening pink was especially admired.—Mrs. Cole, Ottawa Co., Mich.

Mr. Park: In April I bought a packet of your Prize Camellia-flowered Balsam, mixed colors. I planted them out in a bed in the yard, and such flowers as they produced I never saw before. Everybody admired them.—Mrs. H. D. Cunch, Putnam Co., Mo., Oct. 10, 1905.

Mr. Park: I had the finest and handsomest Balsams, from your seeds, that I ever raised. I am a great lover of flowers and wish everyone would try your Double Balsams.—Mrs. Daisy Fuller, Fairfield Co. Ct., Nov. 7, 1905.

Other Varieties of Balsams.

Double Dwarf Balsams , effective little plants. Twelve varieties of plain and six of spotted, each.....	5
Dwarfs in special mixture, 4 pkts. 10 cts. 1 pkt.....	3
Double Rose-flowered , 12 colors, separate, each.....	5
The varieties mixed, 4 pkts. 10 cts. 1 pkt.....	3
Double Spotted Balsam , 12 colors, separate.....	5
The sorts mixed, 4 pkts. 10 cts. 1 pkt.....	3
Victoria , very double, satiny white, dotted scarlet.....	5

Blood Red , very double and showy.....	5
Solferino , double, white, spotted and striped.....	5
Prince Bismarck , very double, brilliant salmon rose.....	5
Royal Balsam . The King, intense scarlet.....	5
Royal Balsam . The Queen, bright satin rose.....	5
Balsams , all sorts, mixed, 4 pkts. 10 cts. 1 pkt.....	3

Mr. Park: Those who have never tried your Camellia-flowered Balsam as a pot plant have missed a treat. They are beautiful and bloom freely and continuously. M. K. B. Pike Co., Ind., Nov. 4, 1905.

Mr. Park: The grandest of all my flowers was a double white Balsam. It was carefully pruned to one stock, and all blossoms removed when faded; it kept shooting up and sending out new buds until late in October. It was magnificent. Mrs. Hattie W. Harris, Darke Co., Ohio.

Browallia, Large Flowered.

Splendid summer and winter-blooming pot plants of the easiest culture; showy and reliable. The kinds I offer are all large-flowered, but the new so-called Giant Browallia has larger and more attractive flowers than the others.

Large flowered white.....	5	New Compact, blue.....	5
Large flowered purple.....	5	Giant species, blue.....	5
Special mixture, all sorts, 4 pkts. 10 cts., 1 pkt. 3 cts.			

Mr. Park: I planted a packet of your Browallia seeds and the plants bloomed all last winter and even kept up their display throughout the entire summer. The rich blue trumpet-shaped flowers are very beautiful. Mrs. H. E. Lippencott, Burlington Co., N. J., Oct. 3, 1904.

Daisy (Bellis)

Special Mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

The English Double Daisy is a dwarf edging plant, hardy, easily grown and continuous-blooming. I offer the best large-flowered strain, and my mixture contains all the sorts.

Giant Double white.....	5	Giant Double rose.....	5
Giant Double red.....	5	Giant Delicata, new.....	5
Giant Double English Daisy (Bellis) special mixture, 4 pkts. 10 cts., 1 pkt. 3 cents.

Calliopsis, New Floriferous.

Special mixture 4 packets 10 cts. 1 packet 3 cts.

For a graceful mass of bright bloom the New Compact Floriferous Calliopsis excels. The plants grow a foot high, begin blooming early and continue in bloom the entire season if seeding is prevented. Grouped in a bed, the flowers, borne on fairy stems, are a waving mass of rich color. Sow fall or spring in the bed where the plants are to bloom.

Brown and gold..... 5
Rich crimson..... 5
The above compact sorts, mixed, 4 packets 10 cts., 1 packet 3 cts.

Tall and perennial sorts, mixed, 4 packets 10 cts., 1 packet 3 cts.

Mr. Park: Last year I planted a packet of your mixed Calliopsis seeds, and both that year and this have enjoyed their bright velvety flowers. They were of beautiful shades of yellow and red, and so bright they dazzled the eye. From this on they are a must-have with me, and would be with all flower-lovers if they knew how bright and pretty they are. Belle Shelton, Wilson Co., Kan., Oct. 16, 1904.

Mr. Park: The Calliopsis raised from your seeds were just grand, the flowers being of such beautiful rich velvety colors. Mrs. M. D. Calaveras, Co., Cal., Oct. 19, 1904.

Mr. Park: My Calliopsis from your seeds has been a mass of lovely bloom all summer. Mrs. Wm. A. Day, Putnam Co., Ind., Oct. 12, 1904.

Park's seeds are the best, Park's service prompt. Mrs. N. P. Nelson, Minn.

Calandrinia in Variety.

Special mixture 4 packets 10 cts. 1 packet 3 cts.

For a sunny bed in summer the finer varieties of Calandrinia are worthy of more attention. Sown early in Spring in six inch rows and thinned to five inches apart in the rows the plants will soon cover the ground and make a fine display of bloom. They are fleshy and of trailing habit, and the rose, white, crimson and violet flowers are borne profusely for a long time. 4 pkts. 10 cts., 1 pkt. 3 cts.

From the English Flower Garden: Calandrinias have slender stems much branched and prostrate. The flowers are from one to one and a half inches across, and of various colors from white to rose and crimson violet. They bloom continuously from June till September.

Calendula Grandiflora.

Special mixture, 4 packets 10 cts., 1 packet 3 cts.

The new large-flowered varieties of Calendula or pot Marigold should have a place in every garden. The plants bloom freely and continuously, and in the autumn, after most of the annuals have succumbed to Jack Frost, a row of these Marigolds in their gorgeous yellow hues is very attractive, rivaling the Autumn Chrysanthemums. Grown in pots they are fine for blooming in a cool window during early winter.

Large-flowered Orange..... 5 | Large-flowered White striped..... 5

Large-flowered Sulphur..... 5 | Large-flowered Orange striped..... 5

Special mixture, all colors, 4 packets 10 cts., 1 packet 3 cts.

Mr. Park: From one packet of your mixed Calendula seeds I had plants producing right shades of bloom, ranging from pale yellow to deep orange, some striped and others edged white. Mrs. C. F. Bailey, Yakima Co., Wash.

CALLIRHOE, TRAILING HOLLYHOCK.

Special mixture, 4 packets 10 cts., 1 packet 3 cts.

The various species of Callirhoe deserve more attention. The plants are of trailing habit, while the flowers are cup-shaped, bright in color and very showy. Borne freely and continuously they make a fine display in a bed, and are not injured by the hot sun.

Verticillata, a hardy perennial blooming the first season, flowers rich carmine, produced freely throughout the season..... 5

Elneariloba, white and lilac..... 5

Pedata and Compacta, each..... 5

Special mixture, all varieties, 4 packets 10 cts., 1 packet 3 cts.

Canna, Gladiolus-flowered.

Finest mixture, 4 pkts 10 cts.. 1 pkt 3 cts.

The New Crozy Gladiolus-flowered Cannas embrace a wide range of colors and variegations from white through the shades of red to deep crimson, and from cream to golden yellow or orange, many varieties showing handsomely spotted and blotched flowers. The foliage is beautiful, being rich green or bronze or variegated, broad and massive, and forming an admirable ground-work for the stately spikes of flaming, Gladiolus-like blooms. The seeds are large, and though somewhat tardy in starting, may be successfully planted by anyone. The plants begin to bloom in three or four months after they appear above ground. The roots are fleshy, and may be kept over winter in a rather dry frost-proof room. The seeds I offer were saved from the best varieties of the originator, Mr. Crozy, and will yield the finest flowers. The named sorts will mostly come true from seeds.

Mme. Crozy, fine scarlet..... 5
Merium Lombard, nearly white..... 5
Variegata, variegated foliage..... 5
Chas. Henderson, crimson..... 5
Jules Chretien, fine..... 5
Queen Charlotte, yellow..... 5
Finest mixed of Crozy's large, early-flowering hybrids, 4 pkts 10c, 1 pkt 3

Mr. Park: From a packet of your mixed Gladiolus-flowered Canna seeds I had six different colors, and every one a beauty. I sowed the seeds and planted them in the house about the middle of March, and in May set the plants out in the garden, where they have been a delight for several months.—Mrs. Gust Johnson, Saline Co., Kan., Oct. 27, 1905.

Mr. Park: I would advise others to try raising your Gladiolus-flowered Cannas. Mine last year were beautiful. Both foliage and flowers were lovely. I am always pleased with your seeds.—Miss G. Hibbs, Madison Co., Ia.

Mr. Park: What beauties I raised from a three-cent packet of your Crozy's Canna seeds! I cut in the hard shell, then soaked in warm water through the day. They all sprouted. The plants began to bloom in July. One was so pretty, a dark rose, looked like crape, and very large-flowered; only 1½ feet tall. One was yellow spotted red; another plain yellow, but very pretty. I was much pleased with them.—Mrs. N. Perry, Ontagamie Co., Wis.

Centranthus, New Semi-Dwarf.

Special mixture, 4 pkts 10 cts, 1 pkt 3 cts.

A charming annual rarely met with is Centranthus macrosiphon. It is of the easiest culture from seeds, which may be sown in the garden early, or in the nursery bed to be transplanted. The plants are of dense habit, rather succulent in growth, and bear the delicate little flowers in clusters in great profusion. The new semi-dwarf varieties I offer are especially valuable. They grow a foot high, come into bloom quickly, and make a continuous display throughout the season, until after severe frosts. This lovely annual has not received the attention it merits, and I bespeak for it a trial. It appears well in a hedge or border, and is also desirable as a pot plant. My mixture contains all the colors in good proportion.

Nanus, red, dark, pretty..... 5 Nanus, bicolor, two-colored..... 5
Alba, white-flowered..... 5 Carneus, flesh colored..... 5
All colors in fine mixture, 4 pkts 10 cts, 1 pkt..... 3

Celosia, showy bedding and pot plants, much admired and highly prized; of easy culture. Special mixture of Feathered and Comb sorts, 4 packets 10 cents, 1 packet 3 cents.

Chrysanthemum, annual, continuous-blooming, attractive plants for beds or pots; flowers large, bright and attractive. Single and double in splendid mixture, 4 pkts 10 cents, 1 packet 3 cents.

Carnation, The Vanguard.

Special mixture, 4 pkts.

10 cts. 1 pkt. 3 cts.

I take great pleasure in offering my patrons a greatly improved Early-flowering Carnation, the plants of which bloom almost as early as those of the earliest Margaret race. The plants of The Vanguard Carnation are dwarf and bushy, stooling out into compact, very floriferous bushes, and are thus especially suited for pots in the window, as well as beds in a sunny place in the garden. The flowers are mostly full double, as shown in the engraving, are of very large size, exhibit a wide range of colors, and many are exquisitely marked and variegated. All are deliciously clove-scented. I feel that too much praise cannot be given this splendid race of Carnations. It certainly represents the most advanced type of beauty yet attained in this popular highly-prized garden and window flower.

White shades..... 5 | Yellow shades..... 5
Red shades..... 5 | Variegated..... 5
Finest special mixture, all varieties, 5
4 packets 10 cts., 1 packet 3 cts.

Mr. Park: Last spring I purchased seeds of you of the New Early-flowering Hybrid Carnations. Now I have twenty-five plants, most of which are budded. Two, a rich, dark red and a pink and white striped, have bloomed. Both have the delicious Carnation fragrance. Miss Glenna Musser, Auglaize Co., Ohio, Oct. 11, 1904.

Centaurea, New Giant.

Special mixture, 4 pkts 10 c., 1 pkt 3 c.

The New Giant Imperial Centaurea, Corn Flower, or Sweet Sultan, is a rare, showy and beautiful annual, the result of a cross of *C. Moschata* (Sweet Sultan) with *C. Marguerita*. The plants start readily from seeds, soon begin to bloom, and attain the height of four feet, bearing very large, handsome, fragrant flowers, as shown in the engraving. This is one of the new annuals deserving general cultivation, and I am glad that I can supply my friends with the seeds in all the fine named varieties. My mixture is well proportioned.

Giant Alba, white..... 5 | Giant Favorite, rose... 5
Giant Armida, lilac... 5 | Giant Graziosa, purple 5
Special mixture, all colors, 4 pkts. 10 cts., 1 pkt. 3

Mr. Park: My Centaureas from your seeds were admired by all who saw them. They are easily grown and will well pay for their raising. They bloom until killed by frost, and, as each flower lasts a long time, are excellent for cutting. Flora M. Booth, Wash. Co., Pa., Oct. 16, 1904.

Mr. Park: I planted a packet of your Centaurea seeds and I think every seed germinated. I used the plants as a border around a large Canna bed, to which the fine, feathery blooms formed a beautiful contrast. They bloomed all summer, the bed increasing in beauty daily, and is now, October 13 a mass of lovely Carnation-scented flowers. I never saw a flower to keep better when cut, and everyone admires them. I have never had finer flowers than those raised this year from your seeds. Mrs. A. Bunkwitz, St. Clair Co., Ill., Oct. 13, 1904.

Cosmos, Early Large-flowered.

15

Special mixture, 4 pkts. 10 cts.

1 pkt. 3 cts.

Among the most striking and beautiful of annuals, either for the garden bed or for vase flowers for the living room, is the Hybrid Cosmos in its varied colors. Sown where the plants are to stand, when the peach is in bloom, the growth is not retarded, and the buds develop earlier. The foliage is feathery and of a rich, green color, while the bright, graceful, long-stemmed flowers, showing in the breeze, have a charming effect; easily grown in any rich, sunny garden spot. The mammoth varieties will grow six to eight feet high and are especially handsome.

Dawn, dwarf, white 5
 Klondyke, yellow-flowering 5
 Mammoth, tall, late, mixed 5
 Rose, white, dark red, each 5
 Semi-dwarf, early-flowering, mixed 5
 Finest mixture, all varieties, 4 pkts. 10 cts., 1 pkt. 3 cts.

Mr. Park: Cosmos is a grand fall flower, a rival of the Dahlia and Chrysanthemum. Each plant will reach a height of from four to six feet, and a more beautiful plant is rarely seen. The pure white, soft pink and deep crimson shades are exquisite, with its dark green, feathery foliage. Every one should grow it. Amanda Gray, Johnson Co., Ill., October 11, 1905.

Mr. Park: The Cosmos were very fine. The colors were white, pink, and a rich velvety red. The flowers are very beautiful for vases, and last a long time after being picked. Bertha M. Knott, Dekalb Co., Ind., Nov. 2, 1905.

Candytuft, Annual.

Special mixture, 4 pkts. 10 cts. 1 pkt. 3 cts.

Beautiful, showy, hardy annuals; grow a foot high; sow early where plants are to bloom; appear best in masses.

Amara, white, oz. 10c..... 5
 Tom Thumb, dwarf..... 5
 Rocket, white..... 5
 Lilac..... 5
 Empress, large white..... 5
 Dark Crimson..... 5
 All sorts, special mixed, oz. 10 cts., 4 pkts. 10c., 1 pkt. 3

Coxcomb, Celosia.

Special mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

Curious, showy and beautiful annuals for beds or pots. My strain is very superior.

Sanguinea, blood red..... 5
 Sulphurea, yellow..... 5
 Viola, violet..... 5
 Empress, bright crimson 5
 All the above Coxcombs, mixed, 4 pkts. 10 cts., 1 pkt. 3

Calceola, Flora's I ant Brush; hardy annual; plants a foot high; flowers yellow and scarlet, brush-like, on long, slender stems, mixed..... 3
Calceolaria pinnata, pretty annual; yellow fls 3
Campanula, annual, Venus' Looking Glass; pretty summer flowers for beds; bloom early and freely; six inches high; white, blue, violet, mixed 3
Cannabis gigantea, giant Hemp; foliage plant 8 feet high; seeds good for canary birds..... 3
Carduus Marianus, a thistle-like plant of easy culture, pretty, variegated foliage..... 3
Carthamus tinctorius, the garden Saffron; five feet high, with showy, yellow flowers..... 5
Centaurea, Bachelors Button, double and single white, blue, rose, variegated, each..... 5
 The same mixed, all colors, 5 pkts. 10c. 1 pkt. 3
Cerinthe, annual honey plants, mixed..... 3
Chrysanthemum, annual, coronarium and coronatum, our bordering varieties, double, single plain, fringed, separate, per packet..... 5
 The same in special mixture, all sorts, 4 packets 10 cents, 1 packet 8

Carnation, New Hybrid.

Special mixture, 4 pkts. 10 cts. 1 pkt. 3 cts.

Superb early-flowering pinks, blooming in from four to six months after sowing. Plants healthy and hardy, and flowers large, double, scented, of rich colors, and beautiful.

Malmaison, new, large-flowered, very double, and of exquisite colors, mixed..... 5
Guillard, splendid, many with yellow tints and variegations, mixed..... 5
Comtesse de Paris, yellow, 10 seeds..... 5
Chabaud, very double, mixed colors..... 5
French Dwarf, white, new, very fine..... 5
Earliest French Giant, large, new..... 5
Snowflake, pure white, double, very handsome..... 5
Yellow Ground, beautiful yellow-tinted, sorts..... 5
French Cyclops, showy, French hybrids..... 5
Margaret, very early; splendid, double, fragrant flowers; improved, compact strain, best mixed colors, 4 pkts, 10 cts., 1 pkt..... 3
Margaret, red, rose, yellow and striped, each..... 5
New Hybrid Carnation, compact mixture, 4 packets 10 cents, 1 packet..... 5

Capsicum Pepper,

Fine for a hedge or pot culture. I can supply all varieties at 5c. per pkt.; mixed, 4 pkts. 10c. 1 pkt. 3c.

Centaureidum Drummondii, an annual a foot high, with yellow Aster-like flowers..... 3
Clarkia, showy, easily-grown annuals of many colors, double and single. Special mixture 4 packets 10 cents, 1 packet..... 3
Cleome speciosa, purple, spider-like showy flowers at tips of branches, 3 feet high..... 3
Collinsia, half-hardy annuals a foot high; flowers in profusion, white, lilac and purple. C. verna sown in autumn is beautiful; mixed colors..... 5
Collinsia, a handsome annual, scarlet flowers..... 5
Commelina celestis, blue and white, mixed 3
Commelina Sellowiana, very fine..... 5
Cosmidium Burrigeum, a composite plant with showy, yellow flowers..... 3
Crepis, rather showy, a very easily grown annual yellow, white and pink, mixed 3
Clintonia pulchella, Lobelia-like plants for pots or baskets, blue, white, etc., mixed, 4 pkts. 10 cts., 1 pkt. 3 cts.,
Cynoglossum linifolium, white, fine annual..... 5
Cynoglossum celestinum, blue, fine bee plant 5

Dahlias, Double and Single.

Special mixture, 4 pkts 10c., 1 pkt 3c.

The Dahlia is one of our most beautiful summer flowers, and is easily and quickly grown from seeds, the plants beginning to bloom early in summer, and continuing till frost. To have free-blooming Dahlias plant in a sunny bed of gravelly soil, and mulch with stable litter as hot weather approaches. I offer choice imported seeds of the finest quality, and believe they will delight all who try them.

Choice Double Varieties.

Cactus sorts, extra fine, mixed colors.....10
Dwarf, superb strain, finest mixture.....5
Large-flowered, finest quality, splendid mixture.....10
Lilliput, small-flower'd, extra mixed from named sorts 5
Tom Thumb, very dwarf, many colors in mixture...5
Double Dahlias mixed, all the above, 4 pkts.10., 1 pkt 3

Choice Single Varieties.

Brilliant, bright scarlet.....5
Cactus varieties, mixed.....5
Golden Yellow, fine.....5
Giant Perfection, splendid large flowers, mixed.....5
Paragon, scarlet, with white tips.....5
Complete mixture, embracing the above choice
Single Dahlias in splendid mixture, 4 pkts 10c, 1 pkt 3

Mr. Park: From the 3-cent packet of mixed Double Dahlias seeds I raised as fine Dahlias as I ever saw, no two alike, and not a single one in the lot.—Mrs. H. S. McWhorter, Seneca Co., N. Y., Nov. 1, 1905.

Mr. Park: I shall never buy Dahlia plants or tubers again, when I can get seeds. From the 3-cent packet bought of you last spring I have all colors and kinds, no two alike.—Mrs. J. H. A., Cass Co., Neb.

Mr. Park: My Dahlias from your seeds grow finely, and began to bloom before those from tubers. I had both double and single, and such beautiful markings and colors. They are easy to grow from seeds.—Mrs. J. Hagerman, Sag. Co., Mich., Oct. 26, 1905.

Delphinium-Annual Larkspur.

Special mixture, 4 pkts 10 cents, 1 pkt 3 cents.

Improved old-fashioned hardy annual of great beauty, and of easy culture. Sow early, where plants are to bloom.

Dwarf Candelabrum-formed, mixed	5	Ranunculus-flowered, double, mixed.....	5
Emperor, Double, finest mixed.....	5	Stock-flowered, branching, double, mixed 5	
Giant Dwarf Rocket, double, mixed.....	5	Lustrous Carmine, double, splendid.....	5
Eight different colors, each.....	5	Pure White, double lovely pure white.....	5
Tall Rocket, double pure white, fine.....	5	Rosy Scarlet, double, very bright.....	5
Double, Finest mixed.....	5	Complete mixture, 4 pkts 10c, 1 pkt.....	3

Mr. Park: Seeds of your Stock-flowered Larkspur have produced since July, a sheet of bloom, in all shades of pink, red, purple and lavender.—Mrs. E. H. Mace, York Co., Me.

Dianthus, Imperial and Japanese Pinks.

Complete mixture, Single and Double, all colors 4 pkts 10c, 1 pkt 3.

These bloom the first season, and are hardy and free-blooming. The flowers are both single and double, are of very rich, attractive colors, and are produced throughout the season. For Diadem Pinks, are especially fine in markings.

Diadem Pink, dark colors, immense double flowers, rich dark variegations.....	5
Light colors, like the preceding, but of lighter hues; also New Dwarf, each.....	5
Splendid special mixture of Diadem Pinks, 4 pkts 10 cts., 1 pkt.....	5
Imperial Pinks, d'ble white, white striped, crimson, spotted, red striped, each 5

DOUBLE JAPANESE PINK.

Datura Wrightii, Fastuosa, fl. pl., Huberlanda mixed, Cornucopiae, Chlorantha fl. pl., each..... 5
All varieties mixed, 4 packets 10 cts., 1 pkt..... 3

Diascia Barbera, a new, handsome annual 5
Didiscus cœruleus, pretty annual, blue umbels..... 5
Dracocephalum Moldavicum, Bee Balm, m'x'd 5

Dianthus, Large-flowered Double.

Finest mixed, 4 packets 10 cts., 1 packet 3 cts.

The new large-flowered double Japanese Pinks are exceedingly rich and beautiful garden flowers. The seedlings started in spring begin to bloom by mid-summer, and from that time till after severe frosts, the dwarf bushy plants continue to make a fine display of exquisite flowers, double to the centre, of great size, and wonderfully rich in colors and markings. Many varieties showing flowers striped, spotted, ringed and margined in the most picturesque and attractive manner. The colors range from fine white to dark velvety crimson, including salmon and rose shades, heretofore unknown in this class of Pinks. For a bed in a sunny place these splendid Pinks are hardly surpassed. Their culture is easy, and the plants never fail to grow and bloom with great freedom, and call forth ardent expressions of admiration from all who see them in bloom. Showy in the garden, they are also prized for bouquets or for vases for table decoration. I offer these Pinks only in mixture, but the seeds are first-class, and will not only yield the finest double flowers, but show a wide range of new and novel colors and variegations. Price, finest mixed, 4 pkts. 10 cts., 1 pkt. 3 cts.

Mr. Park: My Japanese Pinks from your seeds gave unbounded satisfaction. They began to bloom in July and are now covered with beautiful flowers, no two alike, and all so lovely there is no choice between them. A. E. W. Manistee Co., Mich., Oct. 7, '04.

Mr. Park: From a packet of your Dianthus seeds I raised thirty or more fine plants. The blossoms are of all shades of red and pink, white, cream, blotched, striped and spotted, and the double flowers were as large as Zinnias. They were a mass of beautiful bloom all summer, and are so easy to raise that I shall never be without them again. Mrs. Susie Holden, Greene Co., Ind., Oct. 5, 1904.

Mr. Park: From one three-cent packet of your Dianthus seeds we had a large bed of fine plants that bloomed all summer. There were flowers of almost every color, and they were simply beautiful. I would advise the sisters to try them. Jessie Sharp, Adams Co., Ohio, Oct. 4, 1904.

Mr. Park: I bought a three-cent packet of Dianthus seeds from you last spring, and they came up nicely and the plants grew rapidly. They were soon in bloom and their beauty was indescribable—so many lovely colors and markings. We counted twenty-four differently colored flowers in the bed. It is the 8th of October and we have had several hard frosts, but the bed is still covered with flowers and new buds are forming and opening daily. I keep the seed pods picked off. Mary J. Baumgartner, Lehigh Co., Pa., Oct. 8, 1904.

Delphinium, Park's Early-flowering.

Special mixture, 4 packets 10 cts., 1 pkt. 3 cts.

Here is a race of Perennial Delphinium or Larkspur, compact in habit and bearing large, handsome flowers in profusion the first season. It is especially useful for beds and borders, and the flowers are fine for cutting, the colors being rich blue, azure blue and pure white. The plants, fairly represented in the engraving, are hardy, and bloom for several years. Cut the flowers freely to prevent seeding, which exhausts the plants and weakens their vitality. This is one of our finest garden flowers, as delicate as an Orchid, showy and generally satisfactory.

Early-flowering blue..... 5 Early-flowering white..... 5
Early-flowering azure..... 5 All, mixed, 4 pkts. 10c. 1 pkt. 3

Mr. Park: My perennial Larkspur from your seeds were beautiful beyond description. They were so much admired by everybody that I never want to be without them again. S. B. Allen, Franklin Co., Mass., Oct. 12, 1904.

Erysimum, New Bedding.

Price, 4 pkts. 10 cts., 1 pkt. 3 cts.

I offer seeds of the New Compact Bedding Erysimum. Sown in spring or early summer the plants will show a wealth of rich golden bloom in the autumn, will endure the winter, and bloom again freely the next season. The plants grow ten inches high, are of dense, bushy habit, and each branch is terminated by a large cymous cluster of rich orange, Wallflower-like flowers, dazzling the eye with its golden display, and filling the surrounding air with delicious perfume. The seeds may be sown also in the fall for spring and summer blooming the next year. It is a near relative of the Wallflower, and will please all who find the Wallflower a favorite. Its culture is very simple. The seeds are sown in rows eight inches apart, and the plants thinned till they stand six inches apart in the row. See engraving.

NOTE—Erysimum, New Bedding, is a charming early-flowering biennial, indispensable for spring bedding, literally covered with golden yellow flowers. Sown early in the year, bushy little plants bloom in the succeeding autumn, and again burst into full beauty in early spring.—English Notes.

I can also supply seeds of Erysimum Perofskianum and Erysimum Pulchellum. Price 5 cents per packet. The New Erysimum, however, is the best.

Double mixed, 4 packets 10 cents, 1 packet..... 3
Doughlass, new, yellow, pretty..... 5
Mandarin, deep orange..... 5
Golden West, large yellow, new..... 5

Mr. Park: For show and bloom all summer long, rain or shine, plant Eschscholtzias. They hold up their yellow faces to the sun as if to say "we love you." Plant where they are to stand. I planted a row on the garden walk, and we had hundreds of blooms all summer. Dessa Berry, Wise Co., Tex., Oct. 6, 1905.

Eschscholtzia in Variety.

Special mixture, double and single, 4 pkts. 10c., 1 pkt. 3c.

This is the State flower of the Golden State, California, chosen because a species with rich, golden flowers appears in great patches upon the landscape. The plants grow a foot high, are dense and silvery, the foliage being deeply cut. The large, cup-like flowers are born above the foliage on long stems. The florist has developed many colors, and also double flowers, and as a border or low hedge the plants are very effective. Sow where you wish the plants to bloom, and thin to six inches apart. See illustration.

Single, white, rosy white, orange, carmine, deep orange, striped, separate, each color per pkt..... 5
Single, mixed, 4 pkts. 10 cents, 1 packet..... 3
Double, yellow, white, rose and deep orange each..... 5

Rose Queen, fine rose..... 5
Malta Cross, handsome yellow..... 5
All sorts, single and double, mixed, 4 packets 10 cents, 1 packet..... 3

Godetia in Variety.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

Beautiful annuals. The flowers large, shades from white to crimson, many blotched. Plants grow a foot high, and in a sandy soil bloom profusely. Special mixture, 4 packets 10 cents, 1 packet 3 cents. See illustration.

Mr. Park: My Godetias were extra fine. They were in a large, shady bed of rich soil, and my two little boys had some in a shaded bed of poorer soil. Theirs were richer-colored, and fully as large as mine. Every seed grew, I think. They are just the flowers for either sun or shade. Everyone admired them. Mrs. M. E. Titus, Whatcom Co., Wash., Oct., 1905.

Erodium Grutium, a plant of the Geranium family, with hygro-metrical seeds..... 5
Eupatorium, clusters of Ageratum-like flowers, white, fine for cutting..... 5
Euphorbia variegata, showy, green foliage, with distinct white margin..... 5
Heterophylla, 2 feet high, rich scarlet bracts surrounding the autumn bloom..... 5
Eutoca viscidula, blue and white flowers, showy and in great profusion; annuals a foot high..... 5
Euchardium, pretty annuals, deserving more attention; pink, dark rose, white, new rose, m'd 5
Fedia cornucopiae, a little Valerian-like annual rarely seen; flowers dark rose, in clusters..... 5

Fenzlia dianthiflora, a profuse-flowering annual with rose, white and pink flowers, mixed... 5
Feverfew, grows 1½ feet high, with double white flowers in profusion..... 5
Gamolepis Tagetes, a yellow-flowered annual..... 5
Grammanthes gentianoides, a very dwarf annual; flowers yellow, marked red..... 5
Guaya Lindheimeri, a tall annual, with long spikes of pretty white bloom..... 5
Glaucium corniculatum, a graceful, silver-foliated annual, with red bloom..... 5
Gerardia hybrida, a Pentstemon-like perennial blooming the first year..... 5

Gaillardia, Single and Double.

Special mixture, all varieties, 4 pkts. 10 cts., 1 pkt. 3 cts.

Gaillardia picta is an annual, bearing showy, single, red and yellow flowers, and G. Lorenziana is a variety with double flowers. G. grandiflora is a perennial, but blooms the first season. All are beautiful, easily grown and showy. In beds in a sunny place where the soil is not too rich the plants grow a foot high, and set ten inches apart show a waving mass of brilliant flowers on long stems. The seeds may be sown where the plants are to bloom, or may be transplanted.

Picta, single, white, white margined, rose and white, yellow, yellow banded, salmon, and quilled, Fig. 1, each..... 5

3 Lorenziana, double, yellow, sulphur, red and yellow, Fig. 2, each..... 5

Grandiflora, Fig. 3, large-flowered perennials, but blooming well the first season; 3 feet high. Golden yellow, yellow and red in superb mixture, 4 packets 10 cents, 1 packet..... 3

Grandiflora, New Compact. This is a variety of dwarf growth, compact and free-blooming. Mixed, 4 packets 10 cents, 1 packet..... 3

Gaillardias in special mixture, 4 pkts 10c, 1 pkt 3

Mr. Park: Surely the Gaillardia gives as satisfactory results as any flower that grows. It begins blooming early, and if cut freely will bloom until after late frosts. Showy in single specimens, and challenges our admiration when grouped in masses.—Ida A. Cope, Santa Clara, Cal.

Gilias in Variety.

Complete mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

The Gilias are graceful and beautiful border and edging plants of easy culture. The flowers are in clusters, are mostly white and shades of red and blue, though some show yellow variegations. Sow the seeds either in spring or fall, where the plants are to bloom. They bloom freely and continually until after severe frosts.

Achilleaefolia, blue, white and rose, mixed..... 5
Capitata, grows 15 inches high, and appears well in masses; blue and white, mixed..... 5
Dichotoma, new; a very free-blooming sort, with lovely white flowers.. 5
Lacinata, Liniflora, Minimi and Nivalis, separate or mixed..... 5
Tricolor, white, violet and rose, separate or mixed (See engraving)..... 5
Tricolor nana compacta, very dwarf, dense, and profuse blooming; one of the very best for edgings..... 5
Complete mixture of the above sorts, 4 packets 10 cents, 1 packet..... 3

Mr. Park: My Gilias from your seeds were very beautiful - they had such fine foliage, and such modest little flowers. Those in partial shade were the finest.—Mrs. Wilson, Garfield Co., Okl., Oct. 30, 1905.

Helianthus-Sunflower.

Complete mixture, 4 pkts. 10c., 1 pkt. 3c.

The Sunflowers are large, coarse plants, and some varieties bear enormous flowers. They are, therefore, among the most showy of garden flowers, and appear well in groups or borders in the background, also as hedges or screens. Their free culture is said to promote the health of a miasmatic place, while their large, cheerful flowers, facing the sun, dispel the gloom and are a happy attraction. The new varieties of H. Cucumerifolius are free-blooming garden plants, and the blooms are fine for corsage flowers. All are of easy culture, and can be sown as soon as the ground can be worked in spring.

Bismarckianus, grows six feet tall, and bears huge flowers..... 5
Globosus, fl. pl., large double flowers..... 5
Globosus Pistulosa, fl. pl., 5 feet high; very large, full-double flowers; one of the best..... 5
Goldleaf, seven feet high; leaves blotched with gold and creamy white..... 5
Nanus, dwarf, double, 3 feet high..... 5
Nanus, dwarf, variegated foliage, single flower..... 5
Oculatus viridis, very double; green centre, fine..... 5
Uniflorus, eight to ten feet; very large, single flowers.. 5

Primrose-colored, 6 feet high; creamy yellow flowers 5
Cucumerifolius, small single flower; bushy plant 4
feet high..... 5
Stella, a hybrid of the above; flowers golden yellow, the petals long and the centre small and dark..... 5
Orion, similar to Stella, but with rolled petals, like a Cactus Dahlia..... 5
Diadem, like Stella, but with light citron petals and dark centre..... 5

The flowers of the new Hybrid Sunflower are all borne on long stems, and are fine for cutting.

Hebenstreitia Comosa.

Price, 4 pkts. 10 cts., 1 pkt. 3 cts.

From South Africa we have a novelty under the above name, which might be properly termed "African Mignonette." The plant grows eighteen inches high, and produces numerous spikes of curiously formed flowers, as shown in the engraving, the ground color white, upon which is laid blotches of bright orange scarlet. The spikes of bloom are exquisitely scented, and excellent for use in bouquets. The plant is successfully treated as a half-hardy annual, and the seeds may be sown in a sheltered garden bed when the apple is in bloom. As yet the seeds are mostly sold in this country at 25 cents per packet, but, I have been able to secure a lot of choice seeds which I offer at a popular price, four packets 10 cents, one packet 3 cents. The plant is worthy of a trial.

A Rare Sweet-scented Annual—A rare annual flower has come to light, which, if we mistake not, will be sought after in the future. It bears the terrible name of *Hebenstreitia Comosa*. It is pretty in the daytime, but on a warm summer evening a nutty scent floats over the garden. It comes from the *Hebenstreitia*, and many will agree with the writer that a mingling of perfumes distilled from *Mignonette*, *Rose* and *Virginian Stock*, and such a fragrant flower as the *Hebenstreitia* gives a new joy to the garden when the flowers are in darkness. A whiff of *Hebenstreitia* perfume is delicious. The flowers are on a slender spike, and have just the dull shade of white that even the best *Mignonettes* possess. The seeds may be sown outdoors in April.—*Viator in the Garden*.

Hibiscus, Park's Giant Primrose.

4 pkts. 10 cts., 1 pkt. 3 cts.

An easily grown and very beautiful and showy flower is the New Giant Primrose *Hibiscus*. Started early the plants will bloom well the first season, and if kept over and planted out the second season, will form elegant, branching trees, ten or twelve feet high, every branch swaying lovely Primrose-yellow flowers of enormous size, opening fresh every day throughout the season. Patrons who have tried the grand flower report their success and pleasure with it in the highest terms, and I believe it will delight all who try it.

Mr. Park: This year seeds of Park's Primrose *Hibiscus* were sown in the open ground in only moderately rich soil, but the plants grew over six feet high. One blossom measured over eight inches in diameter. The flowers are a clear sulphur yellow, with a rich dark center.—L. J., Crawford Co., Ill., Nov. 8, 1905.

Mr. Park: I raised two Primrose *Hibiscus* from a 3-cent packet of your seeds, started in a window box early in spring. One is seven feet high, the other taller, and the beautiful yellow flowers are charming, as large as saucers, and of the most lovely shade of yellow I have ever seen, like a Hollyhock, but much more beautiful and graceful. I advise all to try it.—Lillie R. Billings, Kansas City, Kans., Oct. 12, 1905.

Kochia-Belvidere Cypress.

4 packets 10 cents, 1 packet 3 cents.

This is an old but rare foliage plant, easily and quickly grown from seed. As a pot plant, or for a low screen or foliage border it is very desirable. The dense and feathery foliage is useful for room or table decoration, when cut, or if grown in pots the plants can be used from time to time for that purpose, as desired. When well grown the plants rival the choice kinds of *Asparagus* while they are easier grown.

Mr. Park: I do not often see that interesting little plant *Kochia*. I took first premium at our Fall Fair for collection of Foliage plants, of which one was a beautiful specimen of *Kochia*, it is now a bright crimson, and much admired.—Mrs. F. C. Jones, Ont., Can., Oct. 28, 1905.

NOTE.—Few more charming plants have been added to the gardens of recent years than the half-hardy foliage annual which bears the above name of *Kochia Scoparia*. It is, indeed, a remarkable plant, and is as easy to grow as the commonest of annuals. All that is needed is the same treatment as an *Aster*, and if planted out at the end of May, it will grow two feet higher and present throughout the summer a mass of graceful greenery; nor is the summer beauty of the *Kochia Scoparia* its only feature, because in the autumn the foliage assumes a pleasing shade of crimson. Last year I tried the experiment of lifting and potting plants with great success, as for weeks they were highly effective in a conservatory. A first class certificate was given to *Kochia Scoparia* when it was exhibited before the Royal Horticultural Society, and it was richly deserving, as this is a plant no garden should be without.—G. H. H., in the English Garden, May 9, 1903.

Lavatera Trimestris.

Special mixture; 4 pkts. 10 cts., 1 pkt. 3 cts.

These are beautiful showy annuals, not unlike dwarf Hollyhocks. Plants grow three feet high, branch freely, and bloom all summer. They are fine for hedges, or beds, and of the easiest culture. See eng.

<i>Hunnemannia</i> , Mexican Poppy, a fine annual	3
<i>Impatiens glanduligera</i> , Giant Balsam; six feet high, crowned with clusters of showy red and white flowers; mixed, 4 pkts. 10 cts., 1 pkt.	3
<i>Sultani</i> , Zanzibar Balsam; easily grown from seed; ever-blooming; mixed, 4 pkts. 10 cts., 1 pkt.	3
<i>Jonopsidium acule</i> , charming miniature for a carpet about pot-plants, or for edging; known as Diamond Flower; 4 pkts. 10 cts., 1 pkt.	6
<i>Kaulfussia amelloides</i> , a pretty annual, six inches high; Daisy-like; many sorts mixed.	5
<i>Kenilworth Ivy</i> , a splendid basket plant, mxd	3
<i>Layia elegans</i> , fine annual for beds and cutting;	3
<i>Leptosyne Stillmani</i> , new compact; pretty yellow bloom; very early flowering	3
<i>Leptostaphon</i> , very free-flowering, beautiful dwarf annuals; many varieties, mixed.	3
<i>Linaria</i> , fine plants for beds and pots; many sorts, mixed.	3
<i>Lupinus</i> , showy, plants of easy culture; often 3 feet high; many sorts mixed.	3
<i>Lychnis</i> , scarlet, rose or white flowers in profusion; fine mixed; all sorts; 4 pkts 10 cts., 1 pkt.	3
<i>Linum grandiflorum</i> , scarlet flowers, a fine annual, a foot high.	3

Lobelia, Annual Varieties.

Complete mixture of all varieties and colors, 4 pkts. 10 cts., 1 pkt. 3 cts.

These are very graceful and beautiful flowering plants for out-door edgings and for indoor pots and baskets. Seedling plants begin to bloom in a few weeks after they are started, and bloom freely and continuously for several months, until exhausted. The flowers are of various shades of white, red and blue, often with a conspicuous eye, as shown in the engraving, and always bright, delicate and attractive. Started in mid-summer the plants are handsome for pots and baskets in winter, and in the sunny window of a cool room will bloom in the spring.

Barnard's Perpetual, a very fine variety, compact in habit, and in bloom through the season; flowers dark blue with a distinct white eye. Fine for pots, and beds, 4 pkts. 10 cts., 1 pkt. 3
 White Lady, large flowered white, 5
 Pumila alba, dwarf compact, white 5
 Pumila splendens, dark blue, with white eye, compact..... 5
 Emperor William, light blue..... 5
 Royal purple, white eye, fine..... 3
 Crystal Palace, blue, for edgings..... 5
 Kermesina, crimson-flowered..... 5
 Prima Donna, velvet maroon..... 5
 Pearl, white with blue margin..... 5
 Duplex, double, mostly true..... 5
 Golden Queen, yellow band..... 5
 Ramosa, red white and blue, mx'd 3
 All varieties, mx'd, 4 pkts. 10c., 1 pkt. 3

Mr. Park: From a packet of your Lobelia seeds I have myriads of delicate little flowers of heaven's own blue. A spray hanging over the window box on the porch calls forth many exclamations of praise and delight.—Miss Belle Fenque, Avoyelles Parish, La., Oct. 17, 1905.

Mr. Park: Tell your patrons if they want a pretty edging to try Lobelia. Of your mixed 3-cent packet I think each seed brought 2 plants. And such a mass of tiny blooms as they were. From a distance they looked like a blue ribbon.—Mrs. J. W. A., Cass Co., Neb., Oct. 12, 1905.

Mr. Park: I am delighted with the three-cent packet of Lobelia seeds I received from you last spring. The plants are faultless. They are now in bloom and are perfect little beauties.—Mrs. A. E. D., Cocks Co., Texas.

Marigold in Variety.

Complete mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

The Marigolds (Tagetes,) are old-fashioned flowers, but are not to be despised. There are few flowers brighter or more attractive. Even a child can start the plants, and they quickly come to bloom, and are a show of brown or golden flowers throughout the entire season, until after severe frost. Every garden should contain a bed of these flowers. The Double African kinds are as showy as Dahlias, and more free-blooming. The French Marigolds are not so large, but are more delicate, and quite as attractive. The single bicolored dwarf varieties are now

fashionable, and are fine for edging and borders. A bed of Marigolds is very attractive.

African Marigold, double, (see engraving above) orange, sulphur, quilled yellow, (Eldorado), and quilled sulphur, each..... 5
 Tall African mixed, 4 pkts. 10 cts., 1 pkt. 3
 Dwarf African mx'd, 4 pkts. 10 cts., 1 pkt. 3
French Marigolds, orange, gold-margined, dark brown, striped, sulphur, grandiflora, tall or dwarf..... 5
 Tall French mixed, 4 pkts. 10 cts., 1 pkt. 3
 Dwarf French mx'd, 4 pkts. 10 cts., 1 pkt. 3
French Lilliput Marigold, small flowered, brown, gold and sulphur, separate or mixed..... 5

French Dwarf Single, (see engraving, Legion of Honor, gold margin, yellow, sulphur and striped, each..... 5
 French Dwarf Single mixed 4 packets 10 cts., 1 packet..... 3
Tagetes signata pumila, beautiful edging, nine inches high, dense, fern-leaved, and smothered with golden flowers, 4 packets 10 cts., 1 packet..... 3
 Complete mixture, French, African, Single and Signata, carefully proportioned, containing seeds of all the sorts, price 4 packets 10 cts., 1 packet..... 3

FRENCH MARIGOLD.

Mr. Park: Our African Marigolds are still bright and cheerful. No other flowers will stand as much abuse and neglect, and still bloom and brighten.—Josephine O'Mealey, Lucas County, Ohio. November 25, 1903.

Mignonette, Sweet, in Variety.

Special mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

The Sweet Mignonette is a favorite on account of the delicious fragrance of its flowers, which are produced in large spikes, all the season. The seeds start quickly and the plants soon come into bloom. The new varieties I offer bear various colored flowers, the spikes are very large, and the plants compact. They will be found much finer than the old-fashioned sorts. In some places acres of Mignonette are sown for bee pasturage, for which purpose the flowers are hardly excelled. For field culture I can supply seeds at \$1.00 per pound, or 8 cents an ounce, postpaid.

Grandiflora improved, large flowered.....	3
Golden Queen, yellow flowers, compact habit.....	3
Bismarck, new, improved Machet.....	3
Gabriele, robust, large spikes of flowers.....	3
Gigantea pyramidalis, splendid large-flowered.....	3
Goliath, new, very large trusses of red flowers.....	5
Miles Spiral, splendid sort.....	3
Machet, thick spikes of reddish flowers; excellent for pots.....	3
New Golden Machet, large yellow.....	3
Ruby Machet, coppery scarlet flowers.....	5
Pumila erecta, dwarf compact, fine for pots.....	5
Spiral Defiance, new, strongly developed middle spike.....	5
Victoria red, dark red, fine.....	3
Common Sweet \$1.00 per pound, 8 cents an ounce.....	3

Special mixture of all the above sorts, 4 pkts 10 cts., 1 pkt. 3 cts.
Mr. Park: My Mignonette from your seeds is exceptionally pretty with its dark green foliage topped with clusters of bright red blooms, and its delicious fragrance prevades the whole garden. It is in full bloom now, and I appreciate it so much.—Mrs. Ethel Kirby, Jasper Co., Mo., Oct. 1, 1904.

Matricaria--Golden Feather.

Special mixture, 4 pkts., 10 cts., 1 pkt. 3 cts.

I offer two beautiful varieties of Matricaria or Golden Feather, one

bearing white flowers and the other golden ones. The plants have lovely foliage, which shows nicely early in the season, but later the double flowers are borne in such profusion that a plant appears as a globe of bloom, the foliage being hidden almost entirely by the flowers. Fine for borders, edgings or beds. Give the plants a rich soil and sunny situation.

Golden Ball, double golden.....	5
Snow Ball, double white.....	5
Special mixture of white, 4 pkts 10 cts., 1 pkt.....	3

Mr. Park: The plants that I raised from your Matricaria seeds are lovely. The flowers are very double and handsome. The foliage is a pretty shade of green with finely cut leaves. They are always the admiration and praise of all who see them.—Mrs. E. A. Perry, Iowa Co., Wis.

Mimulus--Monkey Flower.

Special mixture, all sorts, 4 packets 10 cents, 1 packet 3 cents.

Pretty plants for pots or baskets; plants grow six to eight inches high, and are covered with showy flowers, many spotted and blotched. They like sandy, moist soil and partial shade.

CHOICE GLOXINIA-FLOWERED MIMULUS.

Pardinus, tigred and spotted.....	5	Pardinus grandiflorus, very large, richly spotted flowers, best quality.....	5
Duplex finest hose-in-hose.....	5	Grandiflorus, Fire King, very bright.....	5
Albus, white-ground.....	5	Grandiflorus in fine mixture.....	5
Albus duplex, hose-in-hose.....	5	Complete special mixture, of all Gloxinia-flowered Mimulus, 4 pkts 10 cts., 1 pkt 3	
Nanus roseus, superb, new sort.....	5		
Grandiflorus duplex (see engraving).....	5		

OTHER FINE KINDS OF MIMULUS.

Cardinals, orange.....	5	Cupreus, Bismarck, dwarf, purplish carmine.....	5	Quinquervulnerus, mixed.....	5
Grandiflorus, red.....	5	Moschata, musk.....	5	Maximus large.....	5
Pictus, red and gold.....	5	Compacta, dwarf.....	5	Duplex, hose-in-hose.....	5
Hose-in-hose Mimulus, Cupreus duplex.....	5			Roezli, golden yellow.....	5

Complete special mixtures of all the above Gloxinia-flowered and Miscellaneous Mimulus 4 pkts 10 cts., 1 pkt 3 cts.
Mr. Park: Mimulus is so easily raised from your seeds and the plants so constantly covered with their lovely varied bloom that it is strange they are not more generally grown.—Mr. H. J. Tabor, Niagara Co., N. Y.

Malope Grandiflora, hardy annuals, one foot high; showy, cupped flowers, white, purple and rose..... 3

Malva crispa, 6 feet tall, crisp leaves, showy..... 3

Mauritiana, rose, veined..... 3

Miniata, scarlet, very pretty..... 3

Moschata, perennial, rose and white, mixed..... 3

Complete mixture, all sorts, 4 pkts. 10 cts., 1 pkt..... 3

Matthiola bicornis, sweet evening Stock..... 3

Martynia fragrans, red with yellow throat; Lutea, orange-yellow; Proboscidea, lilac; each..... 5

All varieties in special mixture, 4 packets 10 cents, one packet..... 3

Mesembryanthemum, Ice Plant, Dew Plant, and Tricolor, separate or mixed..... 3

Mimosa pudica, Sensitive Plant..... 3

Molucella spinesa, large, curious calyx..... 3

Myosotis, Forget-me-not.

Special mix't, 4 pkts. 10 cts., 1 pkt. 3 cts.

The Forget-me-not is a charming little flower, modest, delicate, exquisite in color, graceful and fragrant. No intelligent person can help admiring it. With some its admiration is almost a passion. Lately it has been greatly improved, and the plants now grow so compactly and bloom so freely that they appear as a globe of soft, rich color. Started in spring the plants bloom in autumn; started in August, they bloom early the next season. They like a moist, rather shady situation.

Alpestris, biennial, of compact habit, and bears a mass of large flowers in dense clusters. Blue, white, indigo, rose and striped, each.....	5
The colors mixed, 4 pkts. 10 cts., 1 pkt.....	3
Alpestris elegantissima, handsome, semi-dwarf sort of pyramidal habit, fine for garden or window, mixed.....	5
Alpestris, variegatis, golden foliage.....	5
Victoria, one of the best for pot culture.....	5
Nana compacta, blue, white and rose; superb; separate or mixed.....	5
Stricta, erect, pillar-like racemes of bloom; highly recommended; royal blue, rose and white, each.....	5
Stricta, in special mixture, 4 pkts. 10 cts., 1 pkt.....	3
Kapicola, Love Star, a beautiful, large-flowered dwarf sort, excellent for pots; very free-blooming; blue; see engraving.....	5

Mr. Park: My hanging basket of Myosotis from your seeds thrives wonderfully, and is so full of bloom it resembles a patch of blue sky.—G. C. Jaycox, Lorain Co., Ohio, Oct. 10, 1904.

Palustris semperforens, everblooming marsh Forget-me-not.....	5
Semperforens grandiflora, Water-witch; new, large-flowered.....	5
Azorica, fine for pots. Blue and white, separate or mixed.....	5
Oblongata perfecta new, large-flowered, very long blooming, splendid.....	5
Disitiflora, perennial, large-flowered, true, white, blue and perfection blue, separate or mix'd, each.....	5
Myosotis, Forget-me-not, in complete special mixture, all varieties, 4 pkts. 10 cts., 1 pkt.....	3

Mirabilis, Four-O-Clock.

Special mixture, 4 pkts. 10c., 1 pkt. 3c.

An old but favorite annual. Plants grow to dense, globular bushes a foot to three feet high, and are covered every evening during summer with large, delicate, beautiful flowers which make the garden air redolent with perfume. The dwarf varieties are especially handsome, and have blotched foliage, which is very ornamental.

Tall white, white and yellow, white and red, yellow, rose, red and yellow, crimson; violet, lilac, lilac and white, and tricolor, each.....	5
Tall varieties mixed, 4 pkts. 10 cts., 1 pkt.....	3
Dwarf white, yellow and red, white and red, yellow.....	5
Dwarf varieties mixed, 4 pkts. 10 cts., 1 pkt.....	3

Complete mixture, tall and dwarf, in all colors, 4 packets 10 cents, 1 packet 3 cents.

Mr. Park: The Mirabilis seeds received from you last spring produced fine, thrifty plants. The blossoms were of a great variety of colors, including red, red and white, pink, pink and white and purple. They made a very showy and handsome bed.—Hazel Benson, Polk Co., Mo., Oct. 4, 1904.

Nemesia, New Hybrids.

Special mixture, 4 pkts. 10 cts., 1 pkt. 3.

The Nemesia Hybrids are beautiful annuals, excellent as pot plants, and showy in the garden. The plants grow a foot high, are of dense, compact habit, and bloom very freely throughout the season. The hybrids of *N. Strumosa*, a new species from South Africa, are especially handsome, and greatly admired in Europe.

Floribunda compacta alba.....	5
Compacta, bicolor, blue and white.....	5
Compacta oerulesa, blue.....	5
Strumosa, new, large-flowered, mixed.....	5

NOTE.—Nemesia Strumosa bears flowers of various shades from white to crimson, and seedlings started in March begin to bloom in June and continue until late in the autumn. Bed out in May.—Book of Gardening.

Mr. Park: I must speak a good word for the packet of Nemesia Strumosa seeds I got from you. I sowed them in March and I believe every seed grew. I gave away a great many plants and still had a generous supply for myself. In April I transplanted them into the garden, and they commenced blooming in June and continued in blossom until late in October. They were as handsome as Phlox Drummondii, and were greatly admired by all who saw them.—Mrs. Wilson, Garfield Co., Okla., Nov. 1 1904.

Nemophila, hardy annual a foot high; flowers white, red and blue, often spotted; sow in spring or fall; mixed, 4 pkts. 10 cts., 1 pkt.....

Nierembergia gracilis, a profuse-blooming plant, blooming in winter in pots when sown early in spring; lilac.....

Strumosa nana compacta grandiflora, new hybrids, mixed, 4 pkts. 10 cts., 1 pkt.....	3
Versicolor, pretty and free blooming.....	5
Complete special mixture, all varieties, 4 pkts.....	10

Ngella damascena, growing a foot high, bearing double white and blue flowers, known as Love in a Mist; mixed, 4 pkts. 10 cts., 1 pkt.....

Nolana, a little trailing plant with blue and white flowers; fine for pots and baskets; mixed colors.....

Nicotiana, Ornamental.

25

Complete special mixture, 4 packets 10 cents, 1 packet 3 cents.

Valuable plants for foliage and flowers. Some make grand beds upon the lawn, both foliage and flowers being attractive. All are of easy culture. Give the plants rich, moist soil, warm, sunny exposure.

NICOTIANA AFFINIS

- Atropurpurea* grandiflora, very large, semi-tropical leaves, and clusters of rosy flowers; six feet high and rather coarse, but useful for a clump in the back-ground..... 5
- Colossea*, very showy as a semi-tropical garden plant; five feet high with immense foliage..... 5
- Macrophylla gigantea*, six feet high, bearing enormous leaves and trusses of tubular flowers; appears well in the back-ground, or among shrubbery 5
- Tobacum fol. variegatis*, a small per centage bears foliage blotched with white; very handsome..... 5
- Affinis*, white, blooming freely in the evening throughout the summer; delightfully fragrant; blooms well in the winter when cut back and potted early in autumn; 4 packets 10 cents, one packet..... 3
- Sylvestris*, tall-growing, with fragrant, drooping flowers that remain open throughout the day; 4 packets 10 cents, 1 packet..... 5
- Acutifolia*, white, fragrant..... 5
- Sanderae*, the new and beautiful sort of recent introduction, shown in the large engraving; grows three feet high, and is a mass of rich bloom throughout the season, the colors varying from white to rich crimson; fine for bedding as well as for pots; a grand acquisition. Seeds direct from the originators Sanders & Son, mixed colors, 4 packets 15 cts., 1 packet 5
- Complete special mixture of all sorts, 4 packets 10 cents, 1 packet..... 5

Nasturtium---Tom Thumb.

Dwarf Nasturtium, special mixture, 4 packets 10 cents, 1 packet 3 cents.

These are bright, beautiful and very fragrant annual flowers, desirable either for beds or pots. Anyone can grow the plants from seeds, and they thrive in any soil or situation. They grow a foot high; and are a mass of splendid flowers throughout the summer and autumn, especially when kept from seeding. White, scarlet, crimson, yellow and spotted are the best for bedding, and I can supply these separately for that purpose at 15 cts. an ounce.

Yellow and Scarlet.....	5	White.....	5
Crystal Palace Gem.....	5	Crimson.....	5
Empress of India.....	5	Scarlet.....	5
Yellow Marbled Scarlet.....	5	Yellow.....	5
Scheuerianum coccineum.....	5	Spotted.....	5
Golden King.....	5	Rose.....	5
Lady Bird.....	5	Chameleon.....	5
King of Tom Thumbs.....	5	Coeruleum.....	5
Coccineum fol. aureis.....	5	Beauy.....	5
Special mixture, oz. 15 cents		4 pkts. 10 cts., 1 pkt.....	3

Nycteria, Fragrant.

Beautiful annuals, becoming a clustered mass of sweet-scented flowers; showy, easily grown, and deserve general cultivation.

Capensis, white, and Selaginoides, lilac, each..... 5

Both kinds in special mixture, 4 pkts. 10 cts., 1 pkt.... 3

NASTURTIUM-TOM THUMB.

Pansy, Roemer's Giant Prize.

Complete special mixture, 4 packets 10 cents, 1 packet 3 cents.

Doubtless the most popular herbaceous perennial flower in cultivation is the Pansy, and it deserves all the praise it receives. From earliest spring until the snows of winter appear it delights us with its large, bright, delicate-textured, fragrant flowers in all the shades of the rainbow, and in the most striking and beautiful variegations as well as self colors. The popularity of the Pansy has led many florists to give it special attention, and this competition has wonderfully improved it, so that the flowers of to-day far surpass in size and gorgeous coloring these of a decade ago. After a trial of the high-class strains I have decided that there is nothing in Pansies that can surpass Roemer's Giant Prize varieties. Mr. Roemer is a German who gives his great speciality, the Pansy, his best thought and care, and those who plant his seeds can depend upon getting something extra. I have pleasure in offering my friends seeds direct from his hand. Pansy seeds start in from ten to fifteen days, and plants begin to bloom in a few weeks. If not exhausted the first year, they will bloom the second and often the third season. The plants like a partial shade and moist but well-drained soil. Plants started in mid-summer make a spring bed that rivals the Dutch bulbs in their gorgeous beauty. I offer Roemer's seeds in mixed shades, but can supply almost any variety in cultivation, especially the choice new ones. The diversity is so great in Pansies that I believe the mixture of shades preferable in buying, and I therefore confidently recommend them.

At 25 cts. for 10 pkts. of Roemer's Giant Prize Pansies—1 pkt. each of the following.

White in variety, embracing pure white, white with eye, white slightly shaded and tinted, white with spots, etc., 4 pkts 10 cts., 1 pkt. 3
Red in variety, embracing bright red, rosy red, rich scarlet, and red with tints and shadings, etc., 4 pkts. 10 cts., 1 pkt. 3
Blue in variety, embracing dark blue, dark violet, rich purple, and blue margined, shaded and blotched, 4 pkts. 10 cts., 1 pkt. 3
Black in variety, embracing coal black, black blue, dark violet blue, jet black, purplish black 4 pkts. 10 cts., 1 pkt. 3
Yellow in variety, embracing rich pure yellow, golden yellow, yellow with eye, yellow with spots, yellow shaded, 4 pkts. 10 cts., 1 pkt. 3
Striped and Flaked, embracing a great variety of colors, all distinctly striped, flaked and splashed, 4 pkts. 10 cts., 1 pkt. 3

Blotched and Spotted, embracing pure ground colors, with blotches and spots showing in peculiar and striking contrast; marvelous in size, form and odd markings; 4 pkts. 10 cts., 1 pkt. 3
Shaded and Margined, embracing all of the leading colors, margined and shaded and rayed in superb and charming contrast; many light and beautiful tints as well as deeper and richer shades; 4 pkts. 10 cts., 1 pkt. 3
Azure in variety, embracing lovely new shades of light blue, azure, ultramarine and lavender blue, some strikingly marked and tinted; 4 pkts. 10 cts., 1 pkt. 3
Mixed color, embracing a variety of superb shades and markings not included in above offerings, as plain and fancy faces of orange, bronze, peacock lilac, violet, etc.; many rare varieties mixed, 4 pkts. 10 cts., 1 pkt. 3

Complete mixture of all shades, colors and markings carefully prepared, 4 pkts. 10 cts., 1 pkt. 3
 Mr. Park: Your Roemer's Giant Pansies were just grand. The colors were variegated, red, yellow, white and purple, and I never found, anything equal to them in size.—A. Taylor, Burl. Co., N. J., Sept. 30, 1906.

Superb Named Giant Pansies, Each, per Packet 5 Cents, or in Complete Mixture with others, 4 Pkts. 10 Cts., 1 Pkt. 3 Cts.

Adonis, Royal Purple, Bright Golden Yellow, Bronze Shades, Black Blue, Emp. William, Fire King, Golden Queen, King of Blacks, Light Blue, Lord Beaconsfield, Pres. McKinley, Canary Bird, Prince Bismarck, Quadr-color, Rosy Lilac, Snow Queen, Striped Perfection, Violet Blue, Candidissima, Golden Gem, Marbled Yellow, White with eye, Yellow with eye, Ruby Red, Cassie's Giant, Hortense Rose, Giant Spotted, Masterpiece, Freya, Snowflake, Peacock, Emperor Frederick, Fairy Queen, Mourning Bride, Pres. Carnot, Purple Violet, Red Riding Hood, Psyche, Victoria, Wallflower-Brown, Violet margined White, Gold-margined, Meteor, Mahogany-color, Cardinal, Atrosanguinea, Giant Parisian, Marbled Yellow and Marbled White, each 5 cents per packet.

Oxalis, valuable plants for pots and baskets, and useful in bedding. Floribunda, mixed; Rosea, mixed; Sensitiva, white-leaved; Tropaeoloides, brown foliage, yellow bloom, for beds; each..... 5
 All kinds mixed, 4 packets 10 cents, 1 packet..... 3

Enothera, Evening Primrose; large yellow, white and rose flower opening in the evening. Acaulis, Lamarckiana, Macrantha, Fraseri, Johnsoni, etc., separate..... 5
 Special mixture, of all sorts, 4 pkts. 10 cents, 1 pkt. 3

Papaver, Annual Poppies.

Complete special mixture, 4 packets 10 cents, 1 packet 3 cents.

PARK'S DOUBLE-FLOWERED GIANT POPPY.

The poppy is an old garden flower, but it still retains its place as a useful, showy and beautiful annual. The flowers are always bright and attractive, and a bed of the plants is gorgeous. Few hardy annuals are of easier culture, and few, if any, make a finer garden display. Sow the seeds in autumn, or early in spring, where the plants are to bloom, and thin out until they stand six inches apart. The newer varieties are grand, and never fail to please. By all means sow a bed of the improved Poppies. You will never regret it.

PARK'S DOUBLE-FLOWERED GIANT POPPIES. (See eng.)

This is a vigorous race of Poppies growing from 2½ to 3 feet high. The foliage is massive, beautifully crimped, and of a lovely silver-green color. The flowers are perfectly double, of immense size, and produced on long, strong stems. The plants are admirable as single specimens, and grand when massed in a bed. I offer the following splendid colors:

White.....	5	Scarlet.....	5
White Feathered.....	5	Ash gray.....	5
White striped scarlet.....	5	Dark ash gray.....	5
White and purple.....	5	Dark lilac.....	5
Light yellow.....	5	Dark violet.....	5
Red, striped white.....	5	Steel blue and cinnabar	5
Cinnabar, white ground	5	Black, brown and cin-	5
Pomegranate on white	5	nabar.....	5
Rose.....	5	Purple on black brown	5
Bright rose.....	5	Purple.....	5
Special mixture of the above sorts, 4 pkts. 10c., 1 pkt. 3			

CARDINAL POPPY NEW HYBRIDS.

Plants 18 inches high, with deep-cut, dark green foliage and very large double flowers; in bloom a long time; very brilliant and effective. I have these colors:

Cardinal red.....	5	Brick red.....	5
Bright rose.....	5	White (May Campbell)	5
Copper rose.....	5	Special mixture 4 pkts. 5	
Chamois.....	5	10 cts., 1 pkt.....	3

GENERAL LIST OF CHOICE ANNUAL POPPIES.

Arenarium, large scarlet flowers; lacinated foliage.....	6
Lævigatum, flowers 4 inches across; brilliant dark scarlet with black spots; very free-blooming.....	5
Glaucium, Tulip Poppy, vivid scarlet flowers, Tulip-shaped, blooming abundantly for a month or more.....	6
Shirley Poppy, single flowers of various colors and variegations; yellow anthers; one of the finest; my strain of these is not surpassed; mixed colors, 4 packets 10 cents, 1 packet.....	3
Pavonium grandiflorum, new; large scarlet flowers with jet black zone.....	6
Rhœas, double, a dwarf, free-blooming Poppy; flowers very double and of many colors mixed, 4 pkts. 10c., 1 pkt.....	3
Carnation-flowered, tall, double, 15 varieties separate or mixed, 4 packets 10 cts., 1 packet.....	3
Pæony-flowered, tall double, 15 varieties, separate or mixed, 4 packet 10 cts., 1 packet.....	3
Giganteum, a robust sort, fine.....	5
Carnation-flowered, dwarf, mixed.....	3
Murelli, double, white and red, richly striped, mixed.....	5
Japanese Pompon, fine double, in rich colors; mixed.....	5
Complete special mixture of all sorts and colors, 4 packets 10 cents, 1 packet.....	3

Mr. Park: Last spring I planted your Ranunculus Poppies in a rich bed beside the north fence, where the sun shone all day long. They came up well, and were beautiful. I never saw such Poppies—white, red, dark purple and striped, with all the intermediate shades, and all as double as a rose. Mrs. B. P. Bück, Lesueur Co., Minn., Oct. 18, 1905.

Pentstemon, Gloxinia-flowered.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

The new Hybrid Pentstemons have large, showy, Gloxinia-like flowers of all shades, from rose to scarlet, from white to rose and lilac, and from lavender to blue and violet. Plants grow two to three feet high and bloom throughout the autumn. Give them a sunny bed.

Dark Red and Scarlet shades mixed.....	5	Blue and Violet shades, mixed.....	5
White and light shades, mixed.....	5	Complete mixture, 4 pkts. 10 cts., 1 pkt. 3	

Mr. Park: How I wish all flower-lovers could have seen my bed of Gloxinia-flowered Pentstemons raised from a 3-cent packet of your seeds. I had eleven plants—all different colors. Some were striped and spotted, and a white with rose-colored edge was a beauty. I sowed the seeds in a box, set the plants out the last of May, and they began to bloom in August. They were greatly admired, and I want a large bed next year. Mrs. N. Perry, Outagamie Co., Wis., Oct. 7, 1904.

Perilla, annual foliage plant, a foot high, red, fruted and fringed foliage; mixed.....	5
Palafioria, Hookeriana, annual; rose bloom.....	5
Physalis, Francheti, a handsome herbaceous perennial bearing wreaths of edible fruit with vermilion balloon-like covering, 4 pkts. 10c., 1 pkt.....	3
Alkekengi, smaller than the above.....	5
Both varieties is mixed, 4 pkts. 10 cts., 1 pkt.....	3

Phacelia, handsome blue-flowered annuals; 1 ft showy, of easy culture; good for bees; oz. 10c. pkt 3	
Podolepis, pretty composite annual, a foot high, with white, rose and yellow flowers.....	3
Pyrethrum, Golden Feather, golden foliage.....	3
Selaginoides, yellow, serrated foliage.....	3
Golden Gem, double white flowers.....	3
All varieties mixed, 4 packets 10 cents, 1 packet.....	3

Petunia, Single and Double.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

THE Petunia is certainly without a rival for general cultivation. The various classes are adapted for beds, for show flowers or for edgings and pots, their culture being of the most simple character, and their free and continuous blooming quality recommending them to all who grow flowers. My strain of Ruffled Giants cannot be surpassed. My seeds of these, both single and double, were saved from carefully hybridized flowers. The Bedding and Edging Petunias have no equal as bedding plants. They make a magnificent display the whole season, far outrivaling the older sorts.

Large-flowered Single and Double Petunias (Ruffled Giants).

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

Single Petunia, Plain.	Single Petunia, Fringed.	Double Petunias.
Pure white, very large.....	5 Fimbriata alba, white.....	5 White.....
Brilliant rose, rich color.....	5 Aurora, bright rose, veined.....	5 Violet.....
Glowing crimson.....	5 Brilliant rose, fine.....	5 Robust-growing.....
Striped and blotched.....	5 Rose and white.....	5 Rose, veined.....
Margined, veined.....	5 Delicata, white and violet.....	5 Brilliant rose.....
Rich purple, splendid.....	5 Yellow-throated, mixed shades.....	5 Green-bordered.....
Blood red, spotted white.....	5 Kermesina, crimson.....	5 Large-flowered, plain, mixed.....
Superbissima, tигred throat.....	5 Maculata, blotched.....	Double Fringed Varieties.
Alba, very fine.....	5 Miranda, approaching scarlet.....	5 Veined.....
Intus aurea, yellow throat.....	5 Purple, with white throat.....	5 Robust-growing.....
Crimson and rose, each.....	5 Titania, velvety purple, with broad white band.....	5 Brilliant rose.....
Clematis-flowered, very beautiful.....	5 Venosa, veined, fine.....	5 Pure white.....
Admiration, violet, white spotted.....	5 Fringed in splendid mixture, 4 pkts. 10 cents, 1 pkt.....	5 Large-flowered, fringed, mixed.....
Plain varieties in splendid mixture, 4 pkts. 10 cts., 1 pkt.....		5 Petunias, single and double, in mixture, 4 pkts. 10 cts., 1 pkt.....

Ms- Park: The large-flowering Petunias, (single), were beautiful. There were several colors and all were unusually large and finely shaped. They are covered with bloom now, and I shall keep them in the window for the winter. I had good success with all the seeds ordered, but those mentioned were unusually fine. Bertha M. Knott, Dekalb Co., Ind., Nov. 2, 1905.

Park's Hybrid Bedding Petunias.

Special mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

These are exceedingly free-blooming. The plants branch and soon cover the bed with rich, fragrant flowers, continuing so throughout the season, if not exhausted seeding. The flowers are not large, but show great diversity in colors, and elegant contrast in variegation. They are among the most useful and beautiful of our bedding annuals.

Pure white.....	5	Venosa, veined.....	3	Dark velvet-red.....	5
Carmine, white throat.....	5	Blotched.....	5	Mixed colors, 4 packets.....	5
Yellow-throated.....	5	Rose, white throat.....	5	10 cents, 1 packet.....	3
Bedding Petunias, finest double, first quality, 4 packets 10 cents, 1 packet.....	3				

Mr. Park: From a three-cent packet of your single, bedding, mixed Petunias I had enough for a large bed, and it was a great success. I never saw so many different shades and markings in Petunias. I had pinched off the tops of some of them, and have rooted them in water for the house. One, I especially admired, was a color I never saw in Petunias before, a dark, velvety maroon, shaded black, very odd and beautiful. Mrs. G. F. Clark, York Co., Me., Oct. 9, 1905.

Mr. Park: I sent last spring and got a three-cent packet of Petunias. They were "Ruffled Giants", sure enough. They were great beauties. All who love flowers should try them. Mrs. Vena B. Heffner, Braxton Co., W. Va., Oct. 26, 1905.

The New and Beautiful Dwarf Edging Petunias.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

These are of compact growth, and excellent for pots and beds. The flowers are not as large as the robust kinds, but are very freely produced, and are of the leading colors. They are always satisfactory. Brilliant, rosy carmine..... 5 | Stellaris, rosy stripe, white..... 5 | Snowball, pure white..... 5 | Multiflora, striped..... 5
These fine dwarf sorts mixed, 4 packets 10 cents, 1 packet..... 3
Edging Petunias, finest double, first quality, (see engraving) 4 packets 10 cents, 1 packet..... 3

Mr. Park: I would advise anyone who has a bed of dry soil to try Park's New Hybrid Petunias. My bed is a handsome sight, such rich, velvet-looking flowers. Miss L. Bogardus, Greene Co., N. Y., Aug. 1, 1905.

Phlox Drummondii, Improved.

Complete special mixture, 4 packets 10 cents, 1 packet 3 cents.

One of the most desirable of annual flowers is the Phlox Drummondii. Seedling plants begin to bloom in a few weeks after starting, and continue to increase in size and floriferousness until cut down by the severe frosts of winter. The flowers are in large clusters, are bright and varied in color, and exceedingly showy, while their fragrance scents the entire garden during the summer evenings. As bedding plants, as well as for pots and edging, the various races of Phlox Drummondii deserve a prominent place. The great improvements in form and color recently brought about by enthusiastic florists make the varieties now offered far superior to those grown some years ago. Set plants six or eight inches apart. I offer first-class seeds of the following splendid races:

New Large-flowered or Grandiflora Phlox.

This race has very large, showy flowers in huge clusters, and the diversity of color and variegations is nameless. The plants are robust, bloom abundantly, and make a grand display in a group or bed. My collection of this fine Phlox is complete, and all the sorts are included in my special mixture.

Alba, pure white..... 5	Carminea albo-oculata... 5	Isabellina, yellow..... 5	Rosea..... 5
Oculata..... 5	Carnea, new, splendid... 5	Kermesina striata..... 5	Albo-oculata..... 5
Atropurpurea, purple... 5	Chamois rose..... 5	Splendens, vivid crimson 5	Striata, very fine..... 5
Albo-oculata..... 5	Coccinea, scarlet..... 5	Leopoldi, very fine..... 5	Stellata splendens..... 5
Striata..... 5	Striata, beautiful..... 5	Quadricolor (picts) rosea 5	Carminea, Rosea, each 5
Brilliant..... 5	Cerulea striata..... 5	Violacea, fine..... 5	Striped mixed..... 5

New Hortensiaeflora Phlox.

(BRILLIANT-FLOWERED.)

Special mixture, 4 pkts. 10 cts., 1 pkt. 3c.

These are not so large in the size of the individual flowers, but the clusters are very graceful and very abundant. For pots as well as for showy beds, they are desirable, the plants being of dense growth, and the colors brilliant, varied and beautiful.

Rose..... 5	Chamois rose... 5	Cinnabar scarlet 5
White..... 5	Pink, white eye 5	Rose, carmine eye 5
Scarlet..... 5	Triumph..... 5	Rose, white eye. 5
Purple..... 5	Violet starred.. 5	Brilliant scarlet. 5
Complete special mixture, 4 pkts. 10 cts., 1 pkt..... 3		

Complete Special Mixture, including all varieties described above, 4 pkts. 10 cts., 1 pkt. 3c.

Mr. Park: I received a free packet of your Phlox Drummondii and they surely are great beauties. They are the prettiest I ever raised. They are all different colors. They don't mind the frost, for they are blooming as prettily now as in mid-summer, although this is the twenty-sixth of October.—Mrs. Vena B. Hefner, Braxton Co., W. Va., Oct. 26, 1905.

Mr. Park: I know of nothing that will give more satisfaction than the common Phlox Drummondii, with its good blooming qualities and variety of colors. I had a border of them that attracted more attention than anything else. They are so easily cultivated. J. E. Glossie, Butte Co., S. D., Oct. 24, 1905.

Polygonum.

Special mixture, 4 pkts. 10 cts., 1 pkt. 3c.

Oriental, dwarf white. 5	Lanigerum, silvery fol.. 5
Dwarf red..... 5	Multiflora, vine, white... 5
Variegated foliage.... 5	Cuspidatum, white..... 5
Special mixture, all colors, 4 pkts. 10 cts., 1 pkt..... 3	
Oriental varieties are annuals blooming the first season. The others are hardy perennials blooming the second season. All are graceful and handsome.	

Phacelia.

Special mixture, 4 pkts. 10 cts., 1 pkt. 3c.

Congesta, mauve..... 5	Campanularia, bright 5
Tanacetifolia, blue..... 5	blue bell flowers..... 5
Special mixture, 4 pkts. 10 cts., 1 pkt..... 5	
The first two are excellent for bee pasture, as well as showy in the garden. P. campanularia is new, has large flowers and blooms early and for a long time. It is beautiful.	

Mr. Park: I first bought seeds of you eleven years ago, and since that time have had ample opportunity to be convinced that no one else sells better or cheaper seeds. Your liberal premiums, extras, sample packets and special cheap collections, in connection with the reliable quality of both seeds and plants produced therefrom, are always sure to give entire satisfaction.—Mrs. A. H. Bowdoin, Otero Co., N. M., Oct. 17, 1904.

Portulaca, New Double and Single.

Complete mixture of all colors, single and double, 4 packets 10 cts., 1 packet 3 cts.

The New Large-flowered Portulaca is hardly excelled as a garden annual. The little silvery seeds may be sown as soon as the ground can be worked, and in a very short time the plants will appear, grow rapidly in the hot sunshine, branch freely and show a mass of large, bright flowers every morning. They are low and spreading, and if set six inches apart, they will completely cover the bed. I have seen magnificent circular beds of Portulaca, the center being raised, and the colors planted in rings of white and rose, and scarlet and gold. The doubled-flowered varieties are even more attractive than the single, but all are fine. I offer the best quality of seeds, and my complete mixture contains all the varieties of both double and single kinds in fair proportion. See engravings.

NOTE.—For carpet beds nothing is finer than Portulaca. By sowing separate colors designs may be produced with ease. Plants are dwarf and drouth resisting and produce freely quantities of brilliant flowers; white, pink, rose, magenta, red, cream, yellow, orange and striped. Fancy shaped beds may be sown with mixed seeds. Square beds may show in strips of colors or round beds in rings. They will be ever visited with admiration when in bloom. Sandy soil should be selected for the beds.—Clifford N. Raynor.

DOUBLE VARIETIES OF PORTULACA.

White	3	Salmon	3
Golden yellow	3	Crimson	3
Gold striped	3	Sulphur	3
Rose, striped red	3	Scarlet	3
Special mixture of double varieties, 4 pkts. 10c., 1 pkt. 3			

SINGLE VARIETIES.

Straw color	3	Rose, striped red	3
White striped	3	Bronze	3
Golden yellow	3	Rose color	3
Deep golden yellow	3	Crimson	3
White with red center	3	Scarlet	3
Special mixture of single varieties, 4 pkts. 10c., 1 pkt. 3

SINGLE PORTULACA FLOWERS AND PLANT.

! 'Mr. Park: Portulaca, with its many-colored little flowers, looks so cool and fresh in midsummer and autumn. I never see how anybody can be without it. It is worth its cost ten times. I had some for edging. It just looks like wax. I had some in a hanging basket and it just stood out around the basket, and was a mass of rich colors, surpassingly lovely. A more beautiful flower cannot be found. People would say, "Why, what is that; I must have some of it, if it takes all the money I have got." I would say, "Go to Mr. Park".—Lizzie Hubbard, Greenwood Co., Kan., Oct. 8, 1905.

Ricinus.

Special mixture, 4 pkts. 10c., 1 pkt. 3c.

Borbon. arboreus	5
Mirabilis	5
Sanguineus	5
Zanzibariensis	5
Enormis	5
Maculatus	5
Niger	5
Picturatus	5

Splendid semi-tropical annuals. R. arboreus grows 14 ft. high, and is very showy in a group. R. sanguineus, 5 ft. high, has reddish foliage, and R. mirabilis 3 ft. high, bronze foliage. The three make a fine group. R. zanzibariensis grows 5 ft. high, with large leaves. All are very

fine for a hedge or back-ground. Grown as easy as corn.

Mr. Park: My Castor Oil Beans grew ten feet high, and the leaves were very large and graceful. I wish they might live and grow all the year.—Mrs. Henry Moore, Portage Co., Ohio, Oct. 27, 1905.

Rudbeckia.

Special mixture, 4 pkts. 10 cts., 1 pkt. 3c.

Bicolor Su-	
perba	5
Semi-plena	5
Special mix'd	
4 pkts. 10c.	
1 pkt.	3

A free-blooming, showy annual. Plants grow a foot high, and bear single and semi-double flowers. Seedlings are easily grown, and begin to bloom early. This plant is a near relative of R. laciniata, or Golden Glow, but grows only two feet high. It forms a showy group or bed.

Saponaria, Scarlet Queen, 5c; Calabrica, mix'd, 5c; Oeomoides splendens, 5c; special mixt., 4 pkts. 10c. 1 pkt. 3. Scarlet Queen is a low, compact annual, fine edging, bearing innumerable rosy-scarlet flowers. Calabrica is similar, pink and white. Oeomoides is an elegant, trailing perennial, for mounds, rockeries or cemeteries; rose,

Salpiglossis, New Emperor.

Special mixture, all sorts, 4 packets 10 cents, 1 packet 3 cents.

The New Emperor Salpiglossis is an exceedingly attractive annual. The plants grow three feet high and become swaying masses of very large Petunia-like flowers with a rich, velvety texture, and in the most gorgeous colors, as royal purple, crimson, rose and sulphur, many of the flowers showing distinct pencillings of gold, carmine and violet. Indeed only those who have seen these superb flowers can have any conception of their richness and beauty. The plants are of easy culture from seeds, and should be set ten to twelve inches apart in a sunny bed. The size of the flowers will be improved during hot weather by a mulching of stable litter. The plants bloom from July until frost, if not allowed to seed. This is a splendid annual and cannot be too highly praised. I freely recommend it.

Royal purple..... 5	Rose, gold veined..... 5	Special mixture, large-flow'd varieties, 4 pkts. 10c., 1 pkt. 3
Black, very dark..... 5	Purple with carmine..... 5	Dwarf Salpiglossis, for pots, mixed, 4 packets 10 cents,
Black, veined gold..... 5	White with yellow..... 5	1 packet..... 3

Mr. Park: Last spring I bought some Salpiglossis seeds of you and the plants have given me so much pleasure that I must tell you about them. I have tried Salpiglossis seeds from other dealers, but the plants were always straggly and unsatisfactory. These from your seeds, however, were compact in growth and bore many large flowers, which were beautifully colored and marked. We have had some hard frosts, but they are still blooming. Mrs. H. A. Cawley, Camden Co., N. J., Oct. 16, 1904.

Mr. Park: If those who cultivate flowers would try a packet of your Salpiglossis seeds the coming spring they would be well repaid. Those I raised were of many colors, with petals like velvet, elegantly veined and pencilled. They blossom freely for several months. Mrs. C. E. Davis, Hampshire Co., Mass., Nov. 13, 1905.

Salvias in Variety.

Special mixture, all sorts, 4 pkts. 10 cts. 1 pkt, 3 cts.

Salvias are beautiful and very showy flowers, the prevailing colors being blue and scarlet. Salvia patens has exquisite blue flowers. Salvia sclarea makes a graceful and attractive display when the plants are massed. The most attractive kind, however, is Salvia splendens, commonly known as Scarlet Sage. I offer improved, large-flowering, robust varieties, which are a blaze of rich color throughout autumn. They like a sunny place and plenty of moisture while growing. Fine for beds.

Mr. Park: Tell your patrons who wish a fine blue flower to try Salvia patens. It is a lovely shade of dark blue, that color so rare in a flower. I find it a valuable addition to the flower bed. Mrs. C. E. Davis, Hampshire Co., Mass., Nov. 13, 1905.

VARIETIES OF SALVIA SPLENDENS.

Grandiflora, large spikes of scarlet flowers..... 5	Ingenieur Clavenad, early, free-blooming variety..... 5
Alba, spikes of large white flowers..... 5	Giant Scarlet, robust, excellent sort..... 5
Pendula, drooping spikes of scarlet flowers..... 5	Silverspot, new, scarlet bloom, yellow spotted foliage 5
Prostrata, new, scarlet..... 5	Varieties of Salvia splendens mixed, 4 pkts. 10c., 1 pkt 3

OTHER CHOICE VARIETIES OF SALVIA

Carduacea blue, vermillion anthers..... 3	Farinacea, bright blue, Prætiensis, each..... 5
Coccinea splendens, scarlet, fine..... 5	Salvia Sclarea (Horminum), scarlet, white and
Romeriana, scarlet, pretty..... 5	violet, separate, mixed..... 5
Patens, blue flowers, tuberous..... 5	Complete special mixture, 4 pkts. 10c., 1 pkt..... 3

Mr. Park: I wonder that the Scarlet Sage (Salvia splendens, is not generally known. It was the brightest, most showy plant in my garden, and everyone who saw it asked its name. It is easily transferred to pots while in bloom. I gave a number to neighbors for winter bloomers; but those left in the ground continued to bloom after nearly everything else was cut down by frost. J. E. Glossie, Butte Co., S. D., Oct. 24, 1905.

Silene, Compact.

Splendid mixture, 4 packets 10 cents, 1 packet 3 cents.

The compact varieties of Silene are charming, hardy annuals for beds and edgings. Seeds may be sown either in fall or spring. The flowers are mostly pink and white, and produced so abundantly as to hide the foliage.

Rose Queen, fine rose-colored flowers 3	Snow King, lovely flowers, white..... 3
Bonnetti, double, purple, fine..... 3	Compact sorts, mixed 4 pkts. 10c., 1 pkt 3

Sanvitalia, double, compact, a fine dwarf, yellow-flowered edging plant, 4 pkts. 10 cts., 1 pkt..... 3
Sedum oerleum, blue & white Crop; dwarf, free-blooming plants for crocheries or beds..... 5
Sensitive Plant, (Mimosa pudica) a curious leguminous annual, leaves droop and close when touched, fine for pots. 4 pkts. 10 cts., 1 pkt..... 3

Schizopetalum Walkeri white, fragrant, pretty, 5
Shortia Californica, ½ ft., Daisy-like yellow bloom 5
Solanum, plants with ornamental foliage and showy fruit, fine for pots or beds, many beautiful varieties mixed..... 3
Sphenogone speciosa, a foot high, flowers Daisy-like, yellow with brown..... 5

Scabiosa, New Large-flowered.

Complete special mixture, 4 packets 10 cents, 1 packet 3 cents.

The improved varieties of the old-fashioned Scabiosa, or Mourning Bride, should be found in every flower garden. They are beautiful. The plants are bushy, as indicated in the engraving, and the large, globe-like flowers are produced in abundance throughout the entire season, if freely cut. The improved varieties not only develop full-double flowers nine inches in circumference, but appear in a marvelous diversity of shades—from white to yellow, azure to black-purple flesh-color to fiery-scarlet, etc. I know of no other annual that will give better satisfaction than this new race of Scabiosa. The plants grow from two to three feet in height, bear their huge flowers on long, sturdy stems, and thrive in any garden, while the flowers are showy in beds and excellent for bouquets. The dwarf compact kinds are fine for winter blooming in pots.

Black-purple and white..... 5	Brick-red..... 5	Azure Fairy..... 5	Lilac..... 5
White..... 5	Dark brick-red..... 5	Rose..... 5	Pompadour..... 5
White and rose..... 5	Flesh..... 5	Fiery-scarlet..... 5	Rosy carmine..... 5
Cherry-red..... 5	Black-purple..... 5	King of blacks..... 5	Sulphur yellow..... 5
Cherry-red and white..... 5	Complete special mixture of all the sorts and colors, 4 pkts. 10 cts., 1 pkt..... 3		

Schizanthus--Butterfly Flower.

Complete special mixture, 4 packets 10 cents, 1 packet 3 cents.

The varieties of Schizanthus are useful alike for either pots in the house, or beds in the garden. The plants are easily started, begin to bloom early, produce their flowers in wonderful profusion, and are showy for a long time. The flowers are rich and graceful, borne upon slender stems, and at a distance appear as if floating in the air, hence are often called Butterfly Flowers.

Grahami, red..... 5	New Dwarf, red..... 5	Pinnatus, blue..... 5
Carmine..... 5	New Dwarf, white..... 5	Compacta white..... 5
Flesh-color..... 5	Retusus, mixed..... 5	Pyramidal Dwarf..... 5
Papilionaceus..... 5	Grandiflorus, white..... 5	Roseus..... 5
Pyramidalis..... 5	Purple, black spots..... 5	Compactus..... 5
Retusus, red..... 5	Dark purple..... 5	Tigridoides..... 5
White..... 5	New Compacta..... 5	
Pinnatus candidissimus, white..... 5		
Complete mixture, 4 pkts. 10 cts., 1 pkt..... 3		

Mr. Park: I had not a more satisfactory annual in my garden than the beautiful airy Schizanthus from your seeds.—Mrs. Alice Willis, Phillips Co., Kas., Oct. 7, 1904.

Senecio--New Pompon.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

Plants of the new variety of Senecio I offer, grow a foot high, branch freely, and produce masses of lovely double flowers of many fine colors. They are splendid for beds and the flowers are useful for bouquets. The plants are not difficult to start, and should stand six inches apart in the bed.

Cream..... 5	Purple..... 5
Flesh..... 5	Red..... 5
All colors in special mixture, 4 packets 10 cents, 1 packet..... 3	

Ten Weeks' Stock in Variety.

**Complete
Mixture,
all varieties,
4 pkts. 10c.,
1 pkt. 3c.**

FEW persons are aware of the great beauty and usefulness of the superb double varieties of Ten Weeks' Stock. Hardly one desirable requisite of a first-class flowering annual can be named that they do not possess.

Good habit, handsome foliage, free and continuous blooming, showy spikes of large, double flowers, rich and varied colors, delicious fragrance, easy culture and freedom from insects are all attributes of this grand annual. The plants are beautiful either in garden beds or pots in the house. Do not let the plants crowd in the seed-box, and transplant with care, that they do not become stunted. Mulch the bed with stable litter as

hot weather approaches. The seeds I offer were saved only from selected pot plants by German specialists, and will produce a large percentage of perfectly double flowers. The mixture contains the finest colors well proportioned.

Dresden Perpetual or Branching.

These grow 1½ feet high, and have from June till September an abundance of large, rosette-like, double flowers on long spikes.

Apple Blossom.....	5	Purplish carnine	5

Light blue.....	5	10 cts., 1 packet.....	3

Dwarf Early Large-flowering, a fine

class for garden beds. The plants are of dwarf, bushy habit, bloom early, and show very large, double flowers in many colors.

Special mixture, 4 pkts 10 cts., 1 pkt. 3

Victoria Bouquet, each plant grows symmetrically in pyramidal form, and becomes a bouquet of lovely double flowers of many colors. Mixed, 4 pkts 10c, 1 pkt 3

Large-flowering Wallflower-leaved, an excellent class with deep-green foliage, and large, double flowers in brilliant colors. Fine mixture, 4 pks 10c, 1pk 3

Large-flowering Dwarf Pyramidal, of pyramidal growth, bearing huge spikes of full-double flowers. Many rich colors mixed, 4 pkts 10 cts., 1 pkt..... 3

Princess Alice, a splendid branching Ten Weeks' Stock; plants of good habit, have large spikes of snow-white, double flowers; fine for pots. 4 pkts 10c, 1 pkt. 3

Princess May, wallflower-leaved sort, bearing charming Primrose-colored double flowers in fine trusses; plants come into bloom early. 4 pkts 10 cts., 1 pkt.... 3

Triumph, very double, brilliant crimson flowers; plants grow a foot high and become a mass of rich color. 4 packets 10 cents, 1 packet..... 3

Celestial, pyramidal in growth, every branch terminated with a fine truss of sky-blue flowers. 4 pks 10c, 1 pk 3
Giant Perpetual White, one enormous spike of flowers 1 ft. in length; early-blooming. 4 pks. 10c, 1 pkt. 3
Complete Special Mixture of all the above fine sorts, 4 packets 10 cents, 1 packet 3

Mr. Park: Among my annuals nothing has been finer than Park's Ten Weeks' Stock. The white, the yellow and the rose colors are my favorites, and they certainly are fine.—Mrs. Samuel Currie, Walsh Co., N. Dak.

Mr. Park: I had beautiful Ten Weeks' Stock I raised from your seeds this year. Some are in bloom now. They look like small roses, they are so double, and some are a beautiful violet color. I like those the best.—Mrs. Smith, Berne Co., Vt., Oct. 12, 1905.

Mr. Park: I had nine plants from a packet of Ten Weeks' Stock received from you. Only one of them had single flowers, and no two were alike. There were pure white, cream, bright pink, two shades of salmon pink, several shades of red and one dark, nearly a violet shade.—Mrs. F. C. B., Humboldt Co., Cal., Nov. 8, 1903.

Valerian, Fragrant.

**Special mixture of all colors, 4 pkts. 10 cts.,
1 pkt. 3 cts.**

THE Fragrant Valerian grows a foot high, is of branching habit and develops panicles of fragrant little flowers of various colors. Although hardy perennials, they bloom the first season. The clusters are fine for cutting for bouquets, as well as showy in the garden. Often called Garden Heliotrope.

White..... 5 | Scarlet..... 5 | Red..... 5 | Rose..... 5
 Special mixture of all colors, 4 pkts 10 cts., 1 pkt..... 3

NOTE.—This is a handsome, hardy, border plant producing stout, erect stems, terminated in bold clusters of numerous small flowers. It begins to bloom in June and continues throughout the summer. It requires only ordinary garden soil, and occasional lifting and cutting in. It grows well on the crumbling wall of an old ruin, and is useful for planting on dry rockwork.—Flower Garden.

Verbena, Large-flowered Fragrant

NEW LARGE-FLOWERED VERBENAS.

with large, handsome flowers.—Sophia Berley, Jefferson Co., Ky., Oct. 12, 1904.

Mr. Park: My fragrant Verbenas from your seeds are grand. I have a great variety of colors from one packet of seeds, and such large clusters! The plants are blooming yet.—Mrs. Jacob Karn, Morris Co., N. J., Oct. 3, 1905.

Mr. Park: My Mammoth Verbenas from your seeds were all beauties—bright red, pink, white, purple, some almost blue—the nearest to that color I ever saw.—Mr. W. B. Putman, Wash., Co., Iowa.

Mr. Park: From a three-cents packet of your Large-flowered Fragrant Verbenas, I had several different colors, and such free flowers! I planted some in an urn, and they were a mass of fragrant bloom all summer. One I have taken up for my window garden, a delicate pink shade with a fragrance like the Trailing Arbutus.—Mrs. G. L. Clark, — Co., Me., Oct. 9, 1905.

Complete mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

Verbenas are readily raised from seeds, and seedling plants are healthy and vigorous, begin to bloom in a few weeks, and keep up the display until late in the autumn. For beds they are very desirable, as the flowers are produced abundantly and are of rich and varied colors, while the varieties I offer have a fragrance that is, perhaps, unequaled by that of any other garden flower. Indeed, a few blooming plants will perfume the whole garden during a summer evening. In a sunny window in winter pot-grown Verbenas bloom freely and make a fine display.

IMPROVED FRAGRANT VERBENAS.

New Compact Verbena, mixed, 4 pkts. 10 cts., 1 pkt..... 3

NEW MAMMOTH VERBENAS.

Vigorous plants with very large clusters of large flowers. My strain of these fine Verbenas is not surpassed. Dark scarlet shades, rose and carmine shades, purple shades, white and Fre-fly, each..... 5
Mammoth Verbenas in special mixt. 4 pkts. 10c., 1 pkt. 3
Complete special mixtures of all classes and varieties, 4 packets 10 cents, 1 packet..... 3

Mr. Park: I wish to recommend your Verbena seeds to all who want beautiful flowers of many colors. From one 3-cent packet of seeds I raised seventeen fine plants, nearly every one different, and their bloom was so profuse it was almost impossible to count the flowers. Some were pink, some purple, some white, and almost every shade of red with white centers and edges. They have been blooming since June, and now, October 12th, they are just covered

Viola Hybrids==Tufted Pansies.

Special mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

The Tufted Pansies are beautiful, Pansy-like flowers which succeed well wherever a Pansy can be grown. The seedlings start in from ten to fifteen days, begin to bloom in a few weeks and if cut freely will bloom till the snows of winter appear. The colors are varied, and a mixed bed is very attractive. The flowers have the delicious violet fragrance which everybody admires.

Dark blue.....	5	Mauve.....	5	Yellow.....	5

Virginia Stock, pretty, free-blooming annuals; white, crimson and yellow; each 5 cts., mixed.... 3

Wallflower, early Parisian, a beautiful variety blooming freely the first season; flowers yellow and brown, large and delightfully fragrant. Fine for bedding or pots. 4 pkts. 10 cts., 1 pkt.... 3

Whitlavia gloxinoides, annual, 1 foot; lovely blue and white bell-flowers, mixed..... 8

Zinnia, Improved Double.

Complete special mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

THE Double Zinnia is one of the easiest grown and most showy of garden annuals. The plants come quickly from seeds, are easily transplanted, and make a fine display in a bed or border or among shrubbery. Each flower lasts for several weeks, and the plants bloom abundantly until destroyed by frost. The new, improved double varieties I offer are as showy as Dahlias, as varied in color, and bloom more profusely.

New semi-dwarf Zinnias, superb bedding sort, growing fifteen inches high and blooming very freely; perfectly double. Colors white, scarlet, golden yellow, crimson, striped, violet, purple, salmon, each 5
The colors mixed, 4 pkts 10c, 1 pkt 3
New Mammoth Zinnias, grow three feet high, bearing huge, double flowers. Queen Victoria white, gold striped, scarlet, sulphur, striped, purple, each... 5
Special mixture, 4 pkts 10c, 1 pkt..... 3
New Lilliput, scarlet, gold, lilac and white, each..... 5
Mixed colors, 4 pkts 10c, 1 pkt..... 3
New Crispa, with wavy petals..... 5
New Fringed, white-flowered, double... 5
Zinnia, all varieties, mixed, 4 pkts 10c, 1 pkt 3

Mr. Park: I think for the busy housewife no flower will give better satisfaction and stand neglect better than Park's Semi-dwarf Bedding Zinnias. They are of such compact, bushy form, and of so many bright colors never seen in old-fashioned Zinnias.—Mrs. W. B. Slater, Tompkins Co., N. Y., Nov. 31, 1903.

Mr. Park: I wish every person who does not like Zinnias could see my Lilliput Zinnias from your seed. They are beauties—some red, some white, and some with green streaks in the petals. 'Youth-and-old-age' is the grandmother name, a very appropriate one, as the flowers are babies when they begin to bloom, and increase in beauty till full size. I have tried Zinnias, but never succeeded in this locality until I received seeds from you.—Marie Ferguson, Tuolumne Co., Calif., Oct. 28, 1905.

Mr. Park: The Zinnias from your seeds were just lovely, and are still in bloom. I never cared for Zinnias, thinking them stiff and ungraceful, but I have learned to love them.—Mrs. W. J. Gilbert, Hartford Co., Conn.

EVERLASTINGS AND GRASSES.

Mixture of Many Kinds, Large Packet 10 cents, 3 Packets 25 cents.

THESE are mostly annuals with straw-like flowers that keep their form and color for years. With few exceptions they should be cut just as the buds begin to expand. Hang in the shade, stems upward, till dry. The grasses are fine for bouquets, either green or dry. All are easily started from seeds, and attractive in the garden as well as useful for bouquets.

Acroclitum, graceful and pretty, half-hardy annuals; flowers nodding, an inch across, mostly rose and white, and for drying should be cut before expanding. Plants slender, with linum-like foliage; 1 foot high; pretty either in beds or pots. Double rose and double white, each..... 5
All varieties, single and double, mixed, 4 pkts 10c, 1 pk 3

Annubium alatum, new large-flowered; two feet high, robust, with handsome, double, white flowers; useful either in the garden or for winter bouquets; cut before the buds open..... 5

Gomphrena globosa, a very fine annual, very desirable as a bedding plant, making a gorgeous and continuous display. Colors white, carmine, flesh-colored and variegated. The new dwarf varieties are fine for pots. Cut when fully developed. Gomphrena aurea bears orange flowers. The colors separate each..... 5
Special mixture, all colors, 4 pkts 10 cts, 1 pkt..... 3

Gypsophila, plants bearing beautiful panicles of miniature bloom, which are fine for bouquets. G. muralis is a floriferous edging plant, useful also for baskets or pots. G. paniculata is a hardy perennial with panicles of fairy-like white bloom, indispensable for cutting. Separate, each..... 5
Special mixture, 4 pkts 10 cts., 1 pkt..... 3

Helipterum Sandfordii, grows a foot high, bearing clusters of golden bloom; fine for drying..... 5

Rhodanthe, a lovely everlasting, either in the garden or for winter bouquets; flowers white, rose, crimson, etc., each..... 5
Special mixture, 4 pkts 10 cts., 1 pkt..... 3

Helichrysum, New Double, showy, easily grown annuals for the border; fine for winter bouquets; cut before the buds expand; white, rose, crimson and seven other colors, separate, each..... 5

ORNAMENTAL ANNUAL VINES.

Mixture of Many Kinds, Large Packet 10 cts., 3 packets 25 cts.

THE ANNUAL VINES here offered grow quickly from seeds, and are very effective when trained upon strings about the porch, doors and windows, or when used to cover summer houses and trellises or form screens for a walk or unsightly fence or building. They are among the most useful plants in giving a cozy, home-like appearance to a place, and their cultivation should be more common. Support should be given early. If neglected till vining begins, the plants become stunted and injured in growth.

Cardiospermum in Variety.

Mixed, 4 packets 10 cents, 1 packet 3 cents.

KNOWN as Balloon Vine because of its balloon-like seed vessels. As trellis vines for graceful greenery no plants excel those of *Cardiospermum*. Everybody admires them. They grow eight feet high, and quickly cover their support. They can be highly recommended.

Hirsutum, new..... 5
Halicacabum, the older species..... 5
Special mixture, 4 pkts 10c, 1 pkt..... 3

Mr. Park: A nice vine for a screen is *Cardiospermum*. We plant it with Cypress vines, and both grow nicely together. It will climb up a string or over a bush and grow to quite a good height if trained to do so, or, be content to creep along over anything it comes to. It is easy to grow, and is not dense and cumbersome as some other tender vines.—Mrs. Christine Sturkey, Jefferson Co., Mo., Nov. 8, '05.

Mr. Park: Why is so little said concerning *Cardiospermum*, or Balloon Vine? It is a curious, half-hardy, annual, climbing plant and covers considerable space.—C. E. P., Queens Co.

Cobæa Scandens.

Price, 4 pkts. 10 cts., 1 pkt. 3 cts.

THIS is a beautiful vine growing quickly to the height of from twenty to thirty feet. Both foliage and flowers are graceful and attractive. The leaves are extended into long, graceful tendrils which attach themselves to a string or wire or branch, and the large, bell-shaped flowers are produced continually throughout the season. If grown in a pot it will bloom in the house. In the South the vine is hardy and will bloom for several years. Easily started from seeds, which should be planted edgewise, and not too freely watered till growth begins. The original species has purple flowers, and is the handsomest of the lot. The plants thrive particularly on the south side of a wall or building.

Macrostemma, new..... 5 | White, greenish white..... 5
Purple, 4 packets 10 cents, 1 packet..... 3

Mr. Park: Of all the climbers, I have none that give me so large a return for my trouble as the *Cobæa Scandens*. It is equally as good for out-of-doors as for house culture. It has pretty foliage and large, bell-shaped flowers that open a clear green, but turn to a lovely purplish blue.—Amanda Gray, Johnson Co., Ill., Oct. 11, 1905.

Mr. Park: I planted your *Cobæa Scandens* seeds in March in the kitchen window. Early in May I set two of the plants by my porch. They covered it and ran up the sides of the house. There were blossoms on the vine by July 10th. Night frost did not hurt it a bit, and now, Nov. 8th, there are still flowers on the wall vines. I set it in rich, loose soil, and watered several times with liquid manure. It was a wonder to all who saw it, and no one knew what it was.—Mrs. Christine Sturkey, Jefferson Co., Mo., November 8, 1905.

Abobra viridiflora, a lovely rapid-growing perennial gourd vine; flowers green, succeeded by pretty flbert-sized scarlet fruit; roots tuberous and can be kept over winter..... 3
Calampelis scabra, a lovely perennial vine; both foliage and flower clusters very handsome..... 3

Centrosema grandiflora, a pretty leguminous vine, 3 feet high; flowers pea-like; very pretty.... 3
Cittoria ternata, a vine growing five feet high, with clusters of bean-like flowers..... 3
Coccoloba Indica, a rapid-growing vine with bright scarlet fruit..... 5

Cypress Vine in Variety.

Complete special mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

AN exceedingly handsome vine, growing from eight to ten feet high, valuable for a trellis or to ornament the pillars of the veranda. The foliage is a rich, dark green, feathery in appearance, and decorated throughout the season with a profusion of bright, delicate star-like flowers, scarlet, white and rose in color, beautiful and attractive. The seeds should be sown in a seed box and the soil kept rather dry after the first watering. Do not transplant until the weather becomes warm.

Quamoclit coccinea, scarlet..... 5 | Quamoclit hederacea, ivy-leaved..... 5
Alba, pure white..... 5 | Kerberi, late-blooming..... 5
Rosa, fine rose..... 5 | Mixture of all sorts, 4 pkts 10c, 1 pkt 3

Mr. Park: I grow a Cypress Vine on the south porch every year. I give it plenty of water, and it grows 10 to 15 feet high, and is so fine and lacy that everyone who sees it is delighted.—Jennie M. Bamer, Glasford, Ill., Oct. 7, '05.

Mr. Park: My Cypress Vines from your seeds were beautiful. What is more graceful than their delicate, fernlike foliage and bright star-shaped flowers. If I could only have one vine in my garden I would choose Cypress.—Mrs. J. Hagerman, Sag. Co., Mich., Oct. 26, 1905.

Mr. Park: A Cypress Vine last spring gave quite a pleasurable surprise. I planted a circle at the roots of a dead peach tree, and it was covered with little red and white stars.—Miss. Mary Robinson, Cedar Co., Ia., Oct. 11, 1905.

Gourds and Cucumbers in Variety.

Complete special mixture, 4 pkts. 10 cts., 1 pkt. 3 cents.

The Gourds are ornamental in foliage, flowers and fruit, and can be used very effectively about the garden. The use of the Dipper, Dish, Bottle, Sugar Trough, Egg and Club Gourds is indicated by their names. The latter has fruits from two to three feet long, and is sometimes advertised as Japan Cucumber, but is generally called Hercules Club. An Italian florist says, "This Gourd furnishes quite an excellent dish; cut into pieces three inches long, take out the seeds, fill in a stuffing of meat, etc., boil, and serve with tomato sauce." Will you have some? The small, fancy Gourds are showy on the vines, and excellent toys for children. The Dishcloth Gourd has showy yellow flowers, and network of the Gourds is useful for fancy work, and for scouring and washing. The Hundredweight Gourds make excellent pies. The various species of Cucumbers are handsome vines. All are interesting and ornamental, and worthy of

cultivation. Start the seeds in the window box and set out when the weather becomes warm. In the South, plant the seeds where the vines are to grow.

Lagenaria vulgaris, mixed..... 5	Lagenaria, Lemon or Orange, and	Cucumis flex., Snake Cucumber .. 5

Mr. Park: Last spring I bought of you a package of Gourd Seeds and they all grew well. Last week I took the Gourds (fancy) to our Fair at LaSalle, and secured 2d prize and a medal on them—all of which goes to show that Park's seeds are all right. There were six competitors.—Wm. Shaw, LaSalle Co., Ill., Oct. 9, 1905.

Mr. Park: Last spring I planted a package of your mixed Gourds. I had Goose Egg climbing a tree, and the crooked Gourds for geese. I am the popular grandmother with the children of the little village as long as my Gourds last.—Marie Ferguson, Tuolumne Co., Calif., Nov. 3, 1905.

Mr. Park: I planted your Hercules Club Gourds, and one measures 32 inches. No one believes that a Gourd will grow that length, unless they see it. Everyone says, "My! I never saw anything like it!"—Mrs. Merritt Abbey, Peoria Co., Ill., Oct. 11, 1905.

PARK'S SPECIAL MIXTURES—These mixtures are not the odds and ends of some wholesale seed house, but are prepared at my establishment under my careful personal supervision, from the best named varieties in well-balanced proportion. You never make a mistake by buying Park's Special Mixtures. They cannot be surpassed.

Hyacinth Bean--Dolichos.

Complete special mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

The Hyacinth Beans (*Dolichos*) are beautiful, vigorous vines, that bear large clusters of showy, bean-like blue, white and variegated flowers, followed by shining purple seed pods. The plants are as easily grown as Corn Beans, and are excellent for covering summer houses, fences or old trees, or for a porch screen. Seeds and pods are edible.

Lablab Purple.....	5	Soudanensis, new, purple.....	5
Lablab White.....	5	Atrosanguineus, blood-red.....	5
Giganteum, vigorous.....	5	Bicontortus, white and purple.....	5
Special mixture of all sorts, 4 packets	10 cents, 1 packet.....		3

Mr. Park: If anyone wants vines let them plant *Dolichos* or Hyacinth Beans. I had them and the Scarlet Runner together, and such a wealth of shade and colors! They were two beauties together.—Mary E. Youngs, Grant Co., Wis., Nov. 4, 1903.

Mr. Park: Last spring I planted mixed *Dolichos* seeds near an old fence. Now the plants are still covered with large sprays of lovely flowers, several colors, and bunches of beans in different stages of development. These are the most attractive things in the garden.—L. C. F., Son. Co., Cal., Nov. 30.

Mr. Park: I planted three beans around each six-foot bean pole. Well, they went to the top, then down again, and the vines were a mass of lavender blossoms and purple bean pods all summer long. They need no more care than common beans, and if one can't have luck with Sweet Peas, then plant Hyacinth Beans. I only had three poles, but I picked hundreds of blossom clusters, some a foot long.—Mrs. N. O. Harris, Middlesex Co., N. H.

Humulus--Variegated Hop.

Price, 4 pkts. 10 cts., 1 pkt. 3 cts.

A Japanese annual of rapid growth, and one of the most showy and useful of climbers, on account of its dense foliage, blotched and marked with creamy white. Sow the seeds early where the plants are to stand, and furnish string support. Plants start readily and grow from twenty to thirty feet high in a season.

Mr. Park: Anyone desiring a handsome vine for a porch should try your Variegated Hop—it pleases all who see it. Although an annual, it seeds itself freely, so there are always plenty of plants after it is once sown.—Mrs. Mary C. Bramhall, Bradford Co., Pa., Oct. 10, 1904.

Mr. Park: I planted Variegated Hop in the centre of my Pansy bed and gave it an A-shaped trellis, which is completely covered on both sides. Every one who saw it said "How lovely!"—Mrs. True Harmon, Cass Co., Neb., Oct. 19, 1904.

Mr. Park: Your Variegated Hop grew wonderfully fast and the leaves were beautifully colored.—Mary Overholt, Miller Co., Ark., Oct. 27, 1904.

Ipomoea in Variety.

Special mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

Much like Morning Glories in foliage, flower and habit. The vines are all of rapid growth, and fine for trellises, walls or screens. All are easily raised.

Coccinea, scarlet.....	3
Lutea, yellow.....	3
The above bear small flowers that remain open for several days; vines rapid in growth and beautiful.	

Hederacea, the Ivy-leaved Morning Glory; mixed colors.....	3	Leari, blue, fine.....	5
Limbata elegantissima, rich blue with white border.....	3	Nil Grandiflora.....	5
		Violacea vera, blue.....	5
		Alba, white.....	5
		Fine for pots in winter.	

For Cypress Vine see page 41. I ask your special attention to my Giant Clustered, Improved Common and Japan Morning Glories. See next page.

Loasa laterita, a showy annual vine; orange flowers; foliage covered with stinging hairs..... 5

Lophospermum scandens, a handsome vine, the root of which may be wintered in the cellar. Velvety foliage and large, tubular rosy flowers. Sown in a window, early, to bloom in summer. On a pot trellis it blooms well in winter..... 5

Maurandya.

Special mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

A dense, graceful vine, growing six feet, covered with lovely bell-shaped flowers in autumn. Entirely too much neglected.

Antirrhiniflora, blue.....	5
Barclayana, blue.....	5
Barclayana, white.....	5
Emeryana, rose.....	5
Purpurea, purple.....	5
Semperflorens, blue.....	5
Special mixture of all sorts, 4 packets 10 cts., 1 packet.....	3

Mr. Park: I must tell you of my *Maurandya*. I have one that is over twelve feet high, and covers over eight feet wide, just from one little tiny black seed. It has bloomed ever since July and is full of bloom now, Oct. 15. It is the loveliest window vine I ever saw.—Mrs. Wilson, Garfield Co., Okla., Oct. 30, 1905.

Mr. Park: *Maurandya* is pretty and stands severe frosts.—Mrs. E. S. Y., Pen. Co., Me., Oct. 24, 1904.

Moon Flowers. Easily grown from seeds. Bona Nox has clusters of small flowers, and Mexican White bears large flowers. Both are very fragrant and free-blooming. Separate or mixed..... 6

Mina lobata, a quick-growing vine much like *Ipomoea coccinea*, but bearing racemes of scarlet flowers not unlike scarlet *Salvia* at a distance... 5

Morning Glory, Giant Clustered. ³⁹

Easily grown from seeds, and the most desirable and beautiful
 of all Morning Glories.

Special mix-
ture, 4 pkts. 15
cts., 1 pkt. 5 cts.

THE engraving represents a rare Morning Glory of surpassing beauty—one which excels the old-fashioned and Japanese varieties so far that a comparison with them would be an injustice to it. It is variously known as Ipomoea Rubro-cerulea, and I. Violacea Vera, but the common name, Giant Clustered, seems appropriate, for it is a giant in vine, foliage, flowers and clusters. It will grow vigorously to the height of 30 or 40 feet, clothed with dense, rich foliage, and throughout the entire season is a glorious mass of white and sky-blue flowers, shading to white at the centre, often strikingly marked with distinct pinkish violet rays. These are borne in huge, long-stemmed clusters produced at the leaf axils, and stand out above the foliage, showing the magnificent, large flowers in the most attractive manner. The clusters show buds and flowers in various stages of development, and new flowers appear every morning in wonderful profusion all over the vine. No person who has once cultivated this grand vine will discard it. All other Morning Glories in common cultivation are insignificant beside this elegant sort. You may form some idea of its beauty from this description, but when you see the blooming vine in all its glory you will exclaim, "The half was never told." By all means add this grand vine to your seed order, start the seeds in a window box and set out to cover a trellis or fence, or the pillars of the piazza. When in bloom you will thank me for urging you to try it, for it will probably afford you more pleasure than any other flower about the home. Special colors, 8 cents per packet; special mixture, 4 packets 15 cents, 1 packet 5 cents.

NOTE FROM A FOREIGN JOURNAL.—This Ipomoea (or Morning Glory) is worth all the trouble and care that can be lavished upon it. It is a most glorious thing.—S. G. Reed, in English Garden, Oct. 14, 1895.

Morning Glory, Park's Improved.

For a quick-growing, beautiful vine the improved old-fashioned Morning Glory still claims a prominent place. The large, fresh, silky flowers appearing every morning in all the richest shades of red, white and blue, often variegated and striped, give an added charm to the early mornings of summer and autumn. Special mixture, all colors and varieties, 4 packets 10 cents, 1 packet 3 cents.

Sweet Pea, Park's Large-flowered

Complete mixture, per lb. 50 cents, one-fourth lb. 15 cents, one oz. 5 cents,
4 packets 10 cents, 1 packet 3 cents.

Sweet Peas are indispensable. If you can have but half a dozen annuals, a border of these charming flowers should be included. The improved varieties I offer were grown for me by a German specialist, and imported. The seeds all grow, and the vigorous, branching vines become a mass of pea-green foliage covered with long-stemmed clusters of large flowers of the most varied and beautiful colors. The fragrance emitted is delicious and enchanting. Certainly there can be no finer strain of Sweet Peas than that of which I offer seeds, and my complete mixture cannot be surpassed. The mixture of shades, as well as my complete mixture, is prepared in my establishment from the finest named varieties. They will all yield marvellous shades and markings. Those who have been cultivating the common varieties will find the new large-flowered and large-clustered sorts I offer a revelation. For hedges or trellises they cannot be excelled; for bouquets and fragrance they have no equal.

No. 1, Shades of White. This packet includes all the new, chaste shades of white, as pearl white, pure white, cream white, flesh white and porcelain white. *Blanche Burpee, Emily Henderson, Mrs. Sankey, Queen of England, Mont Blanc, Pure White, Butterfly*, each, 8 cents per oz.; per packet..... 3

No. 2, Shades of Red. includes bright red, carmine, scarlet and crimson, represented in many tints. *Invincible Scarlet, Invincible Carmine, Prince of Wales, Stanley, Mars, Salopian, Lady Penzance, Duke of Clarence, Duchess of Edinburgh, Boreatton, Captivation, Firefly*, each 8 cents per ounce; per packet..... 3

No. 3, Shades of Dark Blue. includes black blue, dark blue, violet and purple in many tints. *Captain of the Blues, Emily Eckford, Grand Blue, Indigo King, Monarch, Navy Blue, Black purple*, each, 8 cents per ounce; per packet..... 3

No. 4, Shades of Light Blue. includes azure blue, lavender blue and sky blue in many tints. *Countess of Radnor, Odogon, Dorothy Tenant, Emily Eckford, Gray Friar, Grisel Hamilton, Princess May, The Queen, Light Blue and Purple, Captain Clark, Dolly Varden*, each, 8 cents per ounce; per packet..... 3

No. 5, Shades of Yellow. pure yellow, orange yellow, salmon yellow, cream yellow, sulphur yellow. The colors are not well defined, but the packet includes all the best yellow shades known. *Bronze King, Chancellor, Gorgeous, Lemon Queen, Mrs. Eckford, Oriental, Lady Beaconsfield*, each, 8 cents per ounce; per packet.....

No. 6, Shades of Bright Pink. includes brilliant rose, deep pink, carmine pink and peach pink with variations. *Adonis, Crown Jewel, Duchess of Sutherland, Hon. F. Bouvierie, Mrs. Gladstone, Prima Donna, Prince of Wales, Royal Rose*, each 8 cents per ounce; per packet..... 3

No. 7, Shaded and Margined. includes light colors of different shades, some flaked and margined with soft tints. *Apple Blossom, Delight, Eliza Eckford, Lottie Eckford, Queen Victoria, Splendour, Stella Morse*, each, 8 cts. per oz.; pkt. 3

No. 8, Red Striped, blotched and variegated, a great variety of tints, the red colors predominating. *America, Aurora, Blanche Ferry, Duchess of York, Invincible Scarlet Striped, Joseph Chamberlain, Ramona, Lottie Hutchins*, each, 8 cents per ounce; per packet..... 3

No. 9, Blue Striped, blotched and variegated, a great variety of tints, the blue color predominating. *Prince of Wales, Triumph, Juanita, Wawona, Black Purple Striped, Countess of Radnor, Senator, Light Blue and Purple, Othello*, each, 8 cents per ounce; per packet..... 3

No. 10, Cupid or Dwarf Varieties, white, pink, yellow and variegated. *White, Apple Blossom, Captain of the Blues, Fire Fly*, each, 8 cents per ounce; per packet..... 3

The above collection of mixed Sweet Peas, one ounce of each mixture, or ten ounces in all, only 75 cents. Or, one packet of each mixture, 10 packets in all, only 25 cents. The named sorts can also be furnished separately at prices quoted.

Sow in a trench as early as the ground can be worked, and cover only one-fourth inch deep; later as the vines grow, draw soil in till the roots are well protected. As warm weather approaches mulch the ground with stable litter. Give wire or brush support early. Cut the flowers freely to prevent seeding and prolong blooming. Order and plant early. The dwarf sorts are not so desirable as the others, but are useful for contrast. The white is preferred for pots.

Mr. Park: I planted two ounces of your Large-flowered Sweet Peas last Spring, and had a glorious display. The flowers were so large, produced on such long stems, and were of so many hues and colors from pure white to bright crimson—pink, purple and maroon. They lasted until every other green thing was gone. Surely nothing is more sweet, more delicate, or more beautiful than your Sweet Peas.—Mrs. H. Arno, Monmouth Co., Me., October 9, 1905.

Mr. Park: My Sweet Peas this year were the finest I ever had. I think every seed came up. The flowers were very large, single and double, fragrant and of many colors and kinds.—Amy Dobbie, Norton, Kas., Oct. 6, '05.

Mr. Park: I had a row of Sweet Peas 15 feet long, with wide poultry fencing fastened to well-braced posts at both ends. They climbed high above the fencing and were handsome.—Mrs. H. Moore, Portage Co., O., Oct. 27, '05.

Scarlet Runner.—An elegant vine for a warm, dry situation. In a dry season it will grow where many other vines will suffer. Flowers rich scarlet, in large clusters. If cut freely plants will bloom throughout the season. Fine for summer houses or arbors. The seeds are excellent for cooking. I can also supply white and variegated. 5c packet.

Tropæolum, Giant Climbing.

Complete mixture, lb. 75 cts., 1-4 lb. 20 cts., oz. 6 cts., 4 pkts. 10 cts, 1 pkt. 3 cts.

THE new Giant Climbing Nasturtiums are as desirable for the flower garden as Sweet Peas. They grow vigorously, have beautiful, clean foliage, begin blooming early, and bloom all the season. The flowers are borne in great profusion, are very large, of silky texture, brilliant in color, and very fragrant. Indeed they possess all of the elements of a first-class vine, and can be used to decorate old fences or buildings, as well as to form a showy hedge or an attractive trellis clump. My seeds are superior, and my mixtures unsurpassed.

Atropurpureum, crimson.....	3/Hemisphericum, orange.....	3/Regellianum, purple, crimson....	3
Chameleon, variously colored.....	3/Hunnemannii, brown, odd.....	3/Scheuerianum, straw col., spotted....	3

Cardinal, red.....	5/Hybrids of Mme. Gunther.....	5/Triumph de Grand, light scarlet.....	5
Caroline Smith.....	5/Lillie Schmidt, orange scarlet.....	5/Triumph de Prado, sulphur.....	5
Chalcidum, yellow, red spots.....	5/Lucifer, splendid dark scarlet.....		

Lobb's Climbing, mixed, 1 ounce 15 cents, 4 packets 10 cents, 1 packet..... 3

Mr. Park: I have a bed of Nasturtiums every year, but have never had anything to compare with what I raised from your seeds this summer. There was every shade "from grave to gay," and every day I had all the blossoms I could pick.—Mrs. H. Jenne, Sullivan Co., N. H., Nov. 4, 1905.

Mr. Park: Oh, my Nasturtiums were fine, the best collection in town, so velvety and fragrant, no two alike. I had a fresh bouquet every morning.—M. E. B. Lattershale, Lyon Co., Ia.

Tropæolum Peregrinum, the beautiful Canary-bird Flower, This is a lovely vine of easy growth, reaching twenty feet in one season. In autumn it is covered with a profusion of yellow flowers bearing a fancied resemblance to a miniature canary bird. Four packets 10 cts., 1 packet 3 cts.

NOTE.—The Canary Flower is without a rival in lightness and elegance; indeed, one might say it is peerless among yellow flowers. It is a valuable garden vine, thriving in sun or shade, and unsurpassed for festooning. It rarely fails to succeed well.—English Flower Garden.

Thunbergia Alata.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

Handsomeness vines six feet high, covered from June till October with bright, showy flowers. Elegant for trellis or low screen. Are easily grown from seeds. Like a warm and sunny situation.

Buff, eyed.....	5	Pure white.....	5	Orange.....	5
Yellow.....	5	White, eyed.....	5	Orange, eyed.....	5

Mr. Park: Thunbergia Alata is a valuable vine that certainly merits general cultivation, as it commences to bloom quite early in the season and blooms constantly until frost. It makes a nice vine for a porch, with its myriads of pretty flowers and clean foliage.—Grace Owens, Joliet, Ill., October 10, 1905.

BIENNIALS AND PERENNIALS.

Many Varieties Mixed, Large Packets, 3 pkts. 25 cts., 1 pkt. 10 cts.

THESE are sometimes denominated "The poor man's flowers," because when once established in the garden they will take care of themselves. The Biennials die after blooming, but are mostly reproduced by self-sowing. The hardy Perennials live for years, and often increase in beauty with age. These are choice flowers entirely too much neglected. As a rule the seeds are more tardy to germinate than seeds of Annuals, but if given sufficient time there will be little reason for complaint. I urge my patrons to start a large bed of Perennials, because I feel confident they will be pleased when the flowers bloom, and thank me for my importunity.

Aquilegia=Columbine.

Complete special mixture, 4 packets 10 cents, 1 packet 3 cents.

Hardy perennials. Flowers both single and double in form, and of all shades of red, white, blue and yellow. The sorts offered are mostly large-flowered. All bloom in the spring, and some continue to bloom all summer. My complete mixture will show a great variety, and will please all who sow it.

Californica hybrida, yellow with orange spurs.....	5	Formosa fl. pl., double, mixed	5
Canadensis, scarlet and y'lw	5	Grandulosa vera, true.....	5
Chrysantha, everblooming, yellow.....	5	Jucunda, copper-rose.....	5
Grandiflora alba, white.....	5	Jaetschau, yellow reddish spurs.....	5
Cerulea, blue, fine.....	5	Nivea grandiflora, fine white, semi-double.....	5
Alba, white.....	5	Olympica, blue, lovely.....	5
Lutea, new, yellow.....	5	Skinneri, scarlet, showy.....	5
Durandi, fl. pl., striped.....	5	Stellata, fl. pl., double, mixed	5
Flabellata, fine white.....	5	Truncata, large, very fine.....	5
Complete special mixture, 4 packets 10 cents, 1 packet 3 cents.			

Aquilegia (Columbine) is a genus of free-blooming subjects of easy culture in ordinary garden soil. They are suitable for beds, borders and shrubberies, and thrive in a shady situation. They are also very beautiful when naturalized in grass; and the flowers are also prized for cutting.—Book of Gardening.

Mr. Park: I found a prize, indeed, in your mixed varieties of Aquilegia—flowers of all conceivable shapes and colors, double and single, spurred and otherwise. They are perfectly dazzling. They needed so much room that they smothered out a bed of Pinks in short order, but hurrah for this grand acquisition to beds and borders!—Mrs. J. E. Wheeler, Lebanon Co., Pa.

Adlumia Cirrhosa.

Mixed colors, 4 packets 10 cents, 1 packet 3 cents.

Charming vine with delicate fern-like foliage and waxy pink and purple flowers in clusters in great profusion. The vines will grow 20 feet high, a mass of foliage and bloom, and in dense shade—even where the sun never reaches. Furnish string support. A grand pillar plant for the north porch.

Mr. Park: For a delicate perennial climber nothing can surpass the Adlumia. It is easily grown from seeds. The first season it grows a foliage resembling Maiden-hair Fern, fine for floral work, the second season it is still more beautiful with its clusters of white flowers, which are almost everlasting, and fine for floral work.—A. M. S., Pawnee Co., Neb., Nov. 1903.

Armeria, Giant.

Mixed colors, 4 packets 10 cents, 1 packet 3 cents.

A fine hardy perennial, two feet high, with large heads of rose-colored flowers. A choice garden perennial that deserves more attention.

Mr. Park: I bought a packet of Giant Armeria seeds of you last spring, and have several nice, thrifty plants. Mrs. Mary Coleman, Lewis Co., Wash., November 10, 1903.

Aethionema Grandiflorum (Lebanon Candytuft).—A trailing plant from the Lebanon mountains. Of easy culture; spikes of rosy white flowers continually produced. 4 pkts 10c, 1 pkt 3c.

Campanulas or Bell Flowers.

Complete Mixture, 4 packets 10 cents, 1 packet 3 cents.

These are beautiful hardy perennials of easy culture. *C. Medium* is the Canterbury Bell, a grand garden flower. *C. calycanthea* is the cup and saucer shown in the engraving. *C. carpatica* and *C. pyramidalis* are fine for pots as well as garden beds. *C. fragilis* is fine for baskets.

VARIETIES OF CAMPANULA MEDIUM.

Single Varieties.		Double Varieties.	
Blue	5	White	5
Lilac	5	Rose	5
Striped	5	Mixed	5
The above Single and Double varieties in splendid mixture, 4 packets 10 cents, 1 packet.....			

CALYCANTHEMA VARIETIES.

Blue, splendid.....	5	Pure white, fine.....	5
Rose, rare color.....	5	Striped, beautiful.....	5
Calycanthea or Cup and Saucer Varieties in splendid mixture, 4 packets 10 cents, 1 packet.....			
Special mixture of Single, Double and Calycanthea varieties, carefully proportioned, 4 pkts. 10c, 1 pkt. 3			

OTHER SPECIES OF CAMPANULA.

<i>Carpatia</i> , 1 ft. high, beautiful cup-shaped flowers during July and August, mixed.....	5
<i>Fragilis</i> , an elegant, free-blooming, drooping sort; fine for pots and baskets.....	5
<i>Grandis</i> , 2 feet high, flowers 2 inches across, showy; in bloom June and July.....	5
<i>Maerantha</i> , 5 ft. high; broad leaves and large, open flowers; a splendid sort.....	5
<i>Mirabilis</i> , new; not unlike the old Canterbury Bell; very fine.....	5
<i>Pyramidalis</i> , handsome, per. species, blue and white, each 5 cts.; mixed, 4 pkts 10 cts, 1 pkt.....	3
<i>Perseifolia</i> , large-flow'd, blue and white, each 5c., double 5c., mixed, 4 pkts 10c., 1 pkt.....	3
<i>Turbinata</i> , blue and white; of dwarf habit; very pretty, mixed.....	5

Mr. Park: I got a 3-cent packet of your Campanulas or Bell Flowers last spring, and this spring I had such lovely flowers of all colors—pink, blue, purple and white, double and single, and so easily raised.—Mrs. W. A. Wood, Maquoketa P. O., Ia., Oct. 19, 1905.

Mr. Park: I would like to tell you about the beautiful Canterbury Bells I raised from your mixed seeds. The colors were beautiful, pink, white, blue and rose, some single and some double. The Cup and Saucer variety were especially handsome. I wish the floral sisters would try your seeds.—Mrs. M. Gibson, Los Angeles, Cal., Nov. 6, 1905.

Campanula Calycanthea

Mr. Park: All who want something fine should plant Campanula Calycanthea or Cup and Saucer. We had great clusters of blue, white and variegated ones from your seeds, and I do not think we ever had a flower before that was admired so much. They do not bloom the first year, but are little trouble, and are well worth waiting for. They bloom at the same time as Gypsophila, and the two combine effectively.—L. J. Crawford Co., Ill., Nov. 8, 1905.

Carnations, Garden.

Finest special mixture, 4 packets 10 cts., 1 packet 3 cts.

Showy and deliciously fragrant garden perennials. Flowers very double and of many rich colors, often superbly variegated. The seeds I offer are of the best quality, and will yield the finest flowers. They cannot be surpassed.

Choice Garden Carnations in splendid mixture, 4 packets 10 cents, 1 packet.....

Mr. Park: I raised Carnations from your seeds—the mixed varieties. They were the prettiest I have ever grown. One a double scarlet, so large it burst open; another a double pink, so pretty and sweet; another double, almost white, with some blotches of red, and several other pretty ones.—Mrs. N. Eugene Rankin, Guilford Co., N. C.

Mr. Park: I raised 14 nice Garden Carnations from a 3-cent packet of your seeds. The flowers are beautiful and very fragrant.—Mrs. M. Gibson, Los Angeles, Cal.

Cardamine praetensis.....	5	All sorts mixed.....	5	Clematis erecta.....	5	Crucianella stylosa.....	5

Delphiniums, Orchid-flowered.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

Mr. Park: I have excellent success with Perennial Delphiniums. I have them in the richest soil, and in winter put litter around them, and the first thing almost in the spring they are out of the ground. They grow from six to twelve feet tall and have spikes of bloom from two to four feet long. The various shades of blue are especially fine, as blue flowers are so rare.—M. J. Howard, Washoe Co., Nev.

Digitalis--Foxglove.

Special mixture, 4 packets 10 cts., 1 packet 3 cts.

The Digitalis or Foxglove is a hardy perennial that deserves more attention. The plants grow two feet high and bear showy, drooping bell-shaped flowers during early summer. They vary in color through shades of white, yellow, purple, pink, etc. Always showy and admired when in bloom. My seeds are from the finest varieties, and my special mixture will yield a splendid collection of plants.

Ferruginea gigantea..	5	Iveryanna, spotted.....	5

All kinds mixed.....	3	Fraxinella alba.....	5
Other choice Delphiniums		Both colors mixed.....	5
are offered above.			

[Dodecatheon meadia..... 5

The new hybrid Orchid-flowered Perennial Delphiniums, or Larkspurs, are of surpassing beauty in the perennial garden. They grow from four to six feet high, bearing long, thickly-set spikes of large, attractive flowers of the richest colors. A plant is fairly represented in the engraving here given. The seeds are not difficult to start, but mostly require from three to five weeks to germinate. A few of the plants will bloom the first season if started early. Remove the flowers as they fade to prevent seed formation, or cut the spikes freely. The plants will then bloom continuously. A group or bed of these flowers in bloom is gorgeous, and always calls forth the enthusiastic praise of all who see it.

Celestial, light blue with white centre; large, showy spikes.....	5
Ultramarine, rich dark blue with black centre; elegant long spikes.....	5
Violetta, superb reddish violet with fine white centre; beautiful trusses of bloom.....	5
Azurea, lovely shade of light blue with distinct black eye; fine large spikes.....	5
Rubra, reddish violet with black centre; large flowers, handsome spikes.....	5
Atrocerulea, very dark blue; long, dense spikes; very attractive.....	5
Sulphureum, lovely spikes of beautiful yellow flowers.....	5
Grandiflorum, fl. pl., large double flowers of various colors; very fine; mixed.....	5
Grandiflorum album, dwarf; compact; large, graceful, pure white flowers.....	5
Grandiflorum cœruleum, dark blue; rare and showy	5
Grandiflorum azureum, light, azure blue.....	5
Special mixture of the above, 4 pkts 10 cts, 1 pkt.....	3

New Hybrid Delphiniums.—These are noble, attractive hardy perennials, deserving of general cultivation. They are extremely effective with their long stout spikes of soft, pleasing colors, varying through almost every shade of blue, from the palest silvery blue to the deepest indigo, many possessing also a pink or purple tinge, while the centers vary from pure white to brown and black, the full flower in shape resembling a bee. They are perfectly hardy, and grow and flourish in almost any soil or situation.—English Notes.

OTHER FINE DELPHINIUMS.

Caucasicum, blue.....	5	Truncatum, fine.....	5
Cardinale, scarlet.....	5	Speciosum, large, fine..	5
Hendersoni, rich blue....	5	Chinensis, mixed.....	5
Complete mixture, all sorts, 4 pkts 10 cts, 1 pkt.....			

Gypsophilla Paniculata.

Splendid mixture, 4 packets 10 cts., 1 packet 3 cts.

One of the most graceful plants, the sprays appearing as fairy white flowers upon hair-like stems. The plants grow two feet high and are covered with myriads of bloom, making a cloud of white; attractive in clumps, and when cut imparting to bouquets or designs a most harmonizing effect. Readily started from seeds.

Mr. Park: I would advise your patrons to get Gypsophilla paniculata. Once started it is there to stay, standing all kinds of exposure and drought. No garden is complete without it, and no flower can take its place for decoration in cut flowers.—M. J. Aclay, Ferguson Co., Mont.

Dracocephalum grandifl.	5	Eryngium giganteum.....	5
Ruyschianum Japo'n....	5	Eupatorium altissimum....	5

Hollyhock, Park's Superb Double.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

When well-grown from a fine strain there is no more handsome or attractive garden flower than the Double Hollyhock. Whether in a double row or a group the blooming plants are gorgeous, and are well shown by my artist in the accompanying fine wood engraving. I offer seeds of a very superior strain, the plants of which grow from five to six feet high and become solid stems of foliage and rich double flowers of a wonderful variety of shades. They are certainly unequaled. When started early in pots and set out in May some of the plants will bloom in autumn. By all means start some of these fine Hollyhocks. They will delight you.

Pure white... 5 Scarlet..... 5 Sulphur yell'w 5
Bright rose... 5 Salmon rose... 5 Golden yellow 5
Pale yellow... 5 Crimson..... 5 Dark crimson.. 5
Light apricot 5 Cherry red... 5 Yellowish white
Peach..... 5 Purplish lilac 5 on pur. gro'd 5
Special mixture, all sorts, 4 pkts 10 cents, 1 pkt 3

Mr. Park: Our Hollyhocks stood just back of the fence, with their majestic heads rising in view. I had other kinds of flowers, but the Hollyhocks were my favorites. They lasted longer and yielded more in return for their care than all the rest.—Mrs. Emma Bidgway, Macoupin Co., Ill.

Park's New Hybrids.

Mixed colors, 4 packets 10 cents, 1 packet 3 cents.

I offer another race of Hollyhocks, most of which will bloom the first season if started early. They show both single and double flowers, and in all the leading shades—white and cream, yellow and orange, rose and red, crimson and scarlet. The plants grow from six to ten feet high, and bloom for several months.

Mixed colors, 4 packets 10 cents, 1 packet 3 cents.

Mr. Park: I want to tell you about my Hollyhocks from your seeds. They did not bloom the first year, as they were planted late, but the next summer you should have seen them—great broad blossoms, and so delicate, in all shades from white to darkest red, single and double. One double one had stripes in the petals, the flowers being compound and very curious—unlike any other flower I ever saw. The single ones were simply immense. They looked like crushed silk.—Mrs. Mary F. Davidson, Clinton Co., Mich., Nov. 26, 1903.

Mr. Park: I have some of the finest Hollyhocks raised of seeds got of you. Some were seven and one-half feet high, and of all colors. Everybody would stop and want me to save them seeds. They were both double and single, and bloomed all summer.—Mrs. Laura Norman, Bosque Co., Texas, Nov. 3 1903.

Linum Perenne.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

One of the most graceful, as well as most free and continuous-blooming of herbaceous perennials is *Linum perenne*, the hardy Perennial Flax. The plants grow a foot high, and from spring to fall are a waving mass of blue, white and rose flowers every morning if not allowed to bear seeds. They self-sow and a bed of the plants will not die out. The plants are hardy and will endure for several years.

Perenne, Blue..... 5 Perenne, Rose..... 5
White..... 5 Special mixture, 4 pkts 10c., 1 pkt. 3

Mr. Park: I wish to speak of some lovely flowers raised of seeds bought from you. One is *Linum perenne*. I think it is so pretty. Mine bloomed the whole season, from June until frost. It was a mass of lovely blue flowers.—Nan Shimm, Jackson Co., W. Va.

OTHER SPECIES OF LINUM:

Linum flavum luteum, plants a foot high, symmetrical, and covered with golden flowers for two months..... 5
Linum Lewisii, flowers blue, freely borne on bushy plants a foot high..... 5
Linum narbonense, a beautiful Flax, bearing a profusion of large, light-blue, velvet-veined flowers; a bed of this sort is splendid, the plants growing 15 to 20 inches high, dense and graceful..... 5
Linum, Perennial Flax, special mixture of all species and varieties, 4 packets 10 cents, 1 packet..... 3

Pinks, Carnations and Picotees.

Special mixture, all colors, 4 pkts. 10 cts., 1 pkt. 3 cts.

These are all beautiful, deliciously-scented flowers. The plants grow from a foot to eighteen inches high, endure the winter and become a waving mass of rich bloom. All are easily grown from seeds and bloom the second year. Fine for beds, borders and pots. Give a sunny exposure.

Carnations, for borders, splendid large, double flowers, highly perfumed and in all the leading colors from white, to dark crimson; also variegated. Plants hardy, very floriferous, and long-blooming. I offer a high-class strain, finest mixed colors, 4 pkts 10 cents, 1 pkt. 3 cts.

Carnation, Finest Double, from Stage flowers, the finest seeds to be obtained mixed colors.....10

Carnation, Comtesse de Paris, yellow shades.....5

Carnation, Garden, fine mixed, 4 pkts 10 cents, 1 pkt. 3 cts.

Mr. Park: My Garden Carnations, of which I have a large bed, are the flowers for Spring, Summer and Autumn. They are in great clumps two feet across, and in twenty different colors and shades, from dark red and scarlet to delicate pink some white, beautifully fringed, some variegated, no two alike, and all double but three, all from two little 3-cent packets of seeds. They commenced to bloom in April, and are now, Oct. 15th, full of flowers and buds. — Mrs. Wilson, Garfield Co., Wis., Nov. 30, 1905.

Pinks, Park's Everblooming.

The new hardy Pink, blooming throughout the summer; flowers large and handsome, single, semi-double and double, in fine colors, richly scented and beautiful. Cut freely to prevent seeding. Mixed, 4 pkts 10 cents, 1 pkt. 3 cts.

Picotee, French, fine bedding plants, 4 pkts 10 cents, 1 pkt. 3 cts.

Picotee, Finest Double, from Stage flowers, a superb strain, splendid mixture.....10

Pink, Double Garden, mostly double and semi-double, blooming in May and June; large, fragrant flowers, in various shades; mixed, 4 packets 10 cents 1 packet.....3

Pink, Hardy Garden, double, white, lovely.....5

Pink, Park's Everblooming, shades of red, mixed.....5

Mr. Park: One of the most satisfactory plants I have is the old-fashioned clove-scented Pink. It is a hardy perennial, blossoming in May and June, the flowers sweet and beautiful. The foliage forms a mat of lovely green. — H. E. S., Soldier, Kans., Oct. 6, 1905.

Mr. Park: Last year I purchased some Pink seeds of you. I sowed them in boxes in May and when the plants were large enough transplanted them in the garden. They were pink, white, two shades of red and scarlet. They have been a constant succession of flowers from early spring until late fall, neither drought nor hot sun affected their bloom. The scarlet ones are especially beautiful and glow like rubies in a setting of green. Frost does not injure them. — Mrs. H. C. Calhoun, Washtenaw Co., Mich., Oct. 11, 1904.

Pinks, Carnations and Picotees, special mixture, single and double, all colors, 4 pkts 10c., 1 pkt. 3 cts.

Platycodon.

Special mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

From Manchuria we have a beautiful Bellflower sometimes known as Campanula grandiflora, sometimes as Wahlenbergia, and sometimes as Platycodon. I list it under the latter name. The plants grow from a foot to eighteen inches high, erect in form, and bear at the summit a cluster of large, cup-like blue and white flowers, single and semi-double. This is a hardy, tenacious perennial, and one of the finest garden flowers in existence. It will take care of itself when once established.

Large-flowered white.. 5 Large-flowered blue.. 5

Large-flowered semi-double, blue..... 5

Large-flowered semi-double, white..... 5

All varieties, single and double, special mixture, 4 packets 10 cents, 1 packet..... 3

Mr. Park: My Platycodons from your seeds are so fine that I wish all who raise flowers would try them. They are perfectly hardy and come up every year. I also have some others, but they are poor compared with the beauty of those raised from your seeds. — Mrs. Lillie Baker, Taylor Co., Tex., Oct. 18, 1904.

Platycodon. — The Platycodon is a valuable plant, growing about three feet high. It is a hardy perennial and requires no care—only a place to grow cutting and quite distinct in form and color. — Hattie E. Mead, Chittenden Co., Vt., Oct. 27, 1905.

Poppy, Perennial Hybrids.

47

Special mixture, all varieties, 4 pkts 10c., 1 pkt 3c.

Glorious garden flowers are the New Hybrid Perennial Poppies, a splendid collection of which I offer in colors. The plants are hardy and last for years. They grow two or more feet high, clothed with handsome foliage, and surmounted with enormous, rich-colored flowers, six to twelve inches across, varying from creamy white through shades of orange scarlet to dark, glowing crimson. They bloom in June, and at that time nothing in the garden is more attractive. The seeds are slow in starting and should be given several weeks to germinate.

Prince of Orange, orange scarlet.....	5
Royal Scarlet, flowers rich, glowing scarlet, twelve inches across.....	5
Semi-pleno, vivid crimson, partly double.....	5
Pakman, new and handsome.....	5
Monarch, a fine, showy variety.....	5
Duke of Teck, brilliant, splendid.....	5
Brilliant, vivid scarlet.....	5
Bracteatum, crimson scarlet with black blotch at base of petals.....	5
Brightness, very showy flowers.....	5

Mr. Park: My Perennial Poppies, raised from your seeds bloomed finely this summer. The flowers were perfect beauties, large and brilliant. Every flower lover should try them.—Mrs. Mary Underwood, Norton Co., Kan.

Papaver Nudicaule, the Beautiful Iceland Poppies.

Single-flowered, White, Yellow, Golden, Striped and Sulphur, each, per packet.....	5	Double-flowered, White, Yellow and Golden, each, per packet.....	5
All varieties in splendid mixture, 4 pkts 10c., 1 pkt.....	3	All varieties in splendid mixture, 4 pkts 10c., 1 pkt.....	3
Iceland Poppies, double and single, all colors in finest mixture, 4 packets 10 cents, 1 packet.....	3		3

Primula, Hardy Perennial.

Special mixture of many sorts, 4 packets 10 cents, 1 packet 3 cents.

I would ask special attention to the hardy Primroses I offer. They are beautiful in foliage, beautiful in bloom and beautiful in fragrance, and a bed or border of them in the garden is always enthusiastically admired. Most of the species are readily started from seeds, and most of them are hardy out doors without protection. They deserve general cultivation, and will doubtless become popular when better known.

Primula Vulgaris, yellow, fine.....	3	Primula Auricula, mixed.....	3	Primula, Gold-laced, splendid.....	3
Japanica, finest mixed.....	3	Sanveolens, sweet-scented.....	3	Park's Hardy, finest mixed.....	3
Officinalis, very pretty.....	3	Duplex, double flowers, mixed.....	3	Denticulata, finest mixed.....	3
Special mixture of many sorts, 4 packets 10 cents, 1 packet.....	3	Sieboldii, finest mixed.....	3	Rosea, large-flowered, mixed.....	3
		Farinosa, finest mixed.....	3	Verticillata, handsome.....	3

Mr. Park: My hardy Primroses from your seeds were a mass of lovely fragrant blooms last spring. They certainly are beauties!—Mary B. Reeve, Ashtabula Co., Ohio, Oct. 1, 1904.

Mr. Park: Several years ago I purchased of you a packet of hardy Primula seeds and raised nine plants. The way those plants grew, blossomed and multiplied is a marvel. They are the pride of my garden.—Mrs. L. Colman, Chautauqua Co., N. Y., Oct. 17, 1904.

Peas, Hardy Perennial.

Special mixture, all colors, 4 pkts 10c., 1 pkt 3c.

Grand, hardy vines, blooming all summer when cut freely. Flowers large, in fine clusters. Excellent for a trailing mass, or for covering an old stump or stone heap, as the vines bloom very profusely. Red,

White, Rose and Scarlet, each 5 cents. Special mixture of all colors, 4 packets 10 cents, 1 packet 3 cents.

Mr. Park: My Perennial Peas from your seeds were quite a success this year. They grew and flowered until they were eight feet tall, and everybody admired them.—Mrs. R. Johnston, Huron Co., Ont., Oct. 11 1904.

Phlox, Hardy Perennial.

Finest mixture, 4 packets 10 cents, 1 packet 3 cents.

Hardy perennials bearing huge panicles of showy flowers of many fine colors. Seeds start tardily. Showy and beautiful. Finest mixture, 4 packets 10 cents, 1 packet 3 cents.

Mr. Park: Why don't every flower cultivator have a bed of Perennial Phlox? No more useful or showy perennial grows. There are so many beautiful shades and colors, some eyed, while the clusters are as large as saucers and delightfully fragrant!—M. J. Acly, Fergus Co., Mont.

Myosotis alpestris, mixed 5	Pentstemon, Barbatus..... 5	Pentstemon, mixed..... 5	Phygellus capensis, red....10

Pyrethrum==Perennial Cosmos.

Single and double, special mixture, 4 packets 10 cents, 1 packet 3 cents.

The New Hybrid Pyrethrums are sometimes called Perennial Cosmos, on account of their Cosmos-like flowers and feathery foliage. The plants grow two feet or more high and bloom during summer, the large, showy flowers being of many shades, from rosy white to deep crimson. A few of the plants will produce double flowers. I offer a fine strain of the new, large-flowered hybrids. They are splendid garden flowers and should be generally grown.

Large-flowered, crimson 5 | Large-fl'd, rosy white 5
Large-flowered, rose..... 5 | Double, mixed..... 5
Large-flowered, special mixture, double and single, 4 packets 10 cents, 1 packet..... 3

Mr. Park: For three seasons I have had your Perennial Cosmos or Pyrethrums growing in my yard. Each season they have been finer and bloomed longer and more profusely. I have crimson, pink and white. They are all single, but they are large and beautiful. I stir the soil around them, and when using manure water on other plants I give them a drink and they well repay me for it. I mean to have some of the double ones, though it does not seem possible for them to be finer than the single ones. Tell the flower friends

if they want something that is reliable, easy to care for, fine for cut flowers and perfectly hardy, to get these and they will not be disappointed. Mrs. Oscar Whitcomb, Middlesex Co., Mass., Nov. 18, 1903.

Giant Sweet Williams.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

The Sweet William, *Dianthus barbatus*, has been greatly improved since our grandmother's day, and we now have larger flowers in larger clusters, and in a greater variety of colors and variegations. All are richly scented, are easily started, and for several years the plants will make a grand display in the garden. If kept from bearing seeds they will bloom almost continuously. If cut down after the early crop of bloom fades, new stems will push up and bear flowers in the autumn. I offer a very superior strain of seeds.

SINGLE SORTS

Nigrescens, very dark 5
Albus, pure white..... 5
Hunt's margined..... 5
Dunnet's crimson..... 5

DOUBLE SORTS

Oculatus, eyed..... 5
Auriculiflora..... 5
Mutabilis, checkered..... 5
Mixed, 4 pkts. 10c., 1 pkt. 3

Single and double, mixed, 4 packets 10 cents, 1 packet 3 cents.

Mr. Park: Your Sweet Williams are beautiful. All who have seen them say they are the finest they have ever seen. The plants are perfectly hardy, and the flowers very fragrant. Everyone should have a bed of these lovely flowers, as they are easily raised from seeds and need very little care. Mrs. E. A. Perry, Iowa Co., Wis.

Mr. Park: In beds or in the hardy border this good old plant is equally beautiful, and should be grown in quantities in order to enjoy the different markings and forms. Improvement has been great, and the large form, both double and single, and brilliant colors of the Sweet William to-day bear little resemblance to the old sorts. A rich soil and plenty of moisture while growing is essential to success. The flowers are produced in large numbers and are very lasting. Seeds are freely produced and germinate readily. They may be raised with ease. Clifford N. Raynor, Suffolk Co., N. Y.

Wallflower, Non plus ultra.

Single and double, all colors, finest mixed, 4 packets 10 cts., 1 packet 3 cts.,

Wallflowers are prized for their fine habit, handsome flowers and delicious fragrance. The plants are hardy in porous, well-drained soil, and bloom early in spring. The seeds I offer are from a superb European collection, embracing cream, canary, golden yellow, blue, brown, red, crimson and violet, all large-flowered and handsome. Single sorts mixed or double sorts mixed, 4 packets 10 cents, 1 packet 3 cents.

Mr. Park: I wish you could see my Wallflowers raised from your seeds. They are just grand. I can truly recommend them. Jessie Ransome, Chautauqua, N. Y., Nov. 15, 1903.

Seeds of Choice Window Plants.

THOSE who succeed with the common annuals will find such pot plants as Abutilons, Asparagus, Carnations, Cinerarias, Cyclamen, Geraniums, Lantanas, Heliotrope and Primroses of easy culture from seeds. Achimenes, Begonias, Gloxinias, Gesnerias and the like have much smaller seeds, and the plantlets require more skill in handling. I supply full cultural directions with the seeds, however, and any careful person may expect good success by following the instructions on sowing and after-culture.

Asparagus, Decorative Species.

Complete Mixture, 4 pkts 10 cts., 1 pkt 3 cts.

Among the most fashionable as well as beautiful foliage, basket and pot plants for the window are the various species of Asparagus. They are easily grown from seeds, and will bear ill treatment and neglect that would destroy many of the less tenacious plants. All of the species have fine, plume-like foliage, and are of charming effect. They are plants for everybody, and are highly satisfactory under ordinary conditions. The new one illustrated, *A. decumbens*, like the others, has elegant foliage, and appears well when made up with Sweet Peas or other flowers in bouquets. It is one of the best.

Plumosus nanus, compact with lace-like foliage delicate and beautiful; per packet..... 5
Plumosus robustus, a vigorous-growing variety, with large sprays on strong stems..... 5
Acutifolius, a fine sort with feathery sprays; not common, but very pretty..... 5
Sprengeri, the popular vase plant; will droop in graceful festoons five feet; and show a rich mass of verdure. It can also be successfully trained over a trellis; per packet..... 5
Decumbens, the new species from the Cape of Good Hope; a herbaceous perennial with tuberous roots, and as easily cared for as the other kinds; a lovely pot or basket plant. (See engraving.) Per packet..... 5
Verticillatus, a hardy species, vining and very graceful for covering a trellis, rare, pretty.. 5
 Complete mixture of all sorts, 4 pkts. 10c., 1 pkt. 3

Mr. Park: I am very much pleased with the Decorative Asparagus plants I raised from a packet of your mixed seeds. One of them is different from any I have ever seen before, and is, if anything, even prettier than the *Sprengeri*. Mrs. F. M. Young, Penobscot Co., Me., Oct. 6, 1904.

Mr. Park: I have a lovely Asparagus *Sprengeri* raised from your seeds which is a wonder to all beholders. The plant fills a large pail and its beautiful fronds trail down over five feet in length. Mrs. G. Bone, Hardin Co., Ohio, Oct. 26, 1904.

Mr. Park: I raised five plants (three different kinds) from a packet of your mixed Asparagus seeds. They are easily treated and look well in any window, and their fine, graceful foliage is very handsome. Hattie Sargent, Haverhill Co., Mass.

Abutilon, New Hybrids.

Special mixture, 4 packets 10 cents. 1 packet 3 cents.

One of our most desirable window plants is Abutilon, or Flowering Maple. It is a half hardy shrub that thrives under pot culture, and blooms freely in either winter or summer. The foliage is graceful and handsome, and the large, showy flowers in various fine colors hang like bells upon the plant, suggesting the common name often used, "Bell Flower." I offer seeds of a choice strain of the new, compact, brilliant-colored hybrids, which cannot but please those who sow them. The plants start as readily as Balsams, and you will surely succeed with them.

Pure white..... 5 | Salmon rose..... 5 | Special mixture of New Hybrid..... 5
 Bright red..... 5 | Deep yellow..... 5 | brids, 4 pkts. 10 cts., 1 pkt..... 3

Mr. Park: My Abutilons raised from your seeds are over two feet tall and are such steady bloomers. I would not be without them. The flowers are larger than those of the Fuchsia and as brilliant in color. They are as easily grown as Geraniums, and bloom freely in winter. Jessie Sharp, Adams Co., Ohio.

Begonias in Splendid Variety.

Special mixture, all sorts, 4 pkts. 10 cts. 1 pkt. 3 cts.

Begonias are an important class of flowering plants, for pots in the window or sheltered beds on the lawn. The plants bloom continuously for months, and while showy in flower they are equally attractive in foliage. They are easily cared for and are sure to bloom. The tuberous sorts bloom mostly in summer, and the fibrous-rooted ones in summer and winter.

Tuberous-rooted Begonias.

Bright red.....	5	Bright pink.....	5
Bright yellow.....	5	Pure white.....	5

Rex.....	35	Mixed, 4 pkts loc., 1 pkt. 3 pkts 10 cts, 1 pkt.....	3

All the above are good for beds and pots.

Mr. Park: I guess every seed of the 3-cent Begonia packet came up. The flowers shade from pure white to dark red, with different shaped and greatly variegated foliage.—N. Perry, Outagamie Co., Wis., Oct. 11, 1905

Coleus, New Fancy leaved.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

The new Coleus hybrids are grand foliage plants for either pots or beds. They are very easily raised from seeds, and the leaves are of many shapes and sizes, and all richly colored, blotched, spotted, veined and marbled. I can supply the choice kinds separately, or all in special mixture. My seeds are saved by skillful Coleus specialists in Germany, and imported. There are none better, and plants from them will be a revelation to those who know only the older Coleus.

Carmine, green edge 5	Shades of red..... 5	White-ground foliage..... 5	All varieties in splendid mixture, 4 pkts 10 cts, 1 pkt..... 3
Fringed-leaved..... 5	Spotted and striped 5	Yellow-colored foliage 5	

Mr. Park: My Coleus plants from your seeds were beautiful. They grew like little trees, two feet high, with foliage of all the shades and variegations you could think of. Mrs. S. A. Etheredge, Lexington Co., S. O.

Calceolaria, Hybrid Herbaceous.

These easily-grown but much neglected window plants are, in their improved form, as beautiful as Orchids, the varieties being of many superb colors, and often spotted, blotched and striped in the most pleasing and picturesque manner. The seeds are small, but as easily cared for as those of Gloxinia, and the only insect likely to trouble them is Aphis, which can be effectually kept down by sprinkling tobacco dust upon the soil in the pots, and dusting it upon the leaves when infested. I offer seeds of the very best strains in cultivation. Started in spring or early summer the plants will bloom the following winter and make an elegant, novel display in the window.

Large-flowered Tigred and Spotted 5
Self-colored, mixed..... 5
Painted and Margined..... 5
Fancy Striped..... 5
New Dwarf, mixed..... 5
Special mixture, 4 pkts. 10 cts., 1 pkt. 3

Mr. Park: From a three-cent packet of your Calceolaria seeds I raised plants enough for myself and two friends. Everyone admires their lovely blossoms, and strangers passing by stop to inquire what they are. Mrs. Libby, Somerset Co., Me., Oct. 19, 1904.

Mr. Park: I have had excellent success in raising Calceolarias from your seeds. I sowed them according to your cultural directions, and had a lot of plants from one packet of seeds, and am very much pleased with them. Mrs. F. M. Young, Penobscot Co., Maine, October 6, 1904.

Mr. Park: I have eighteen fine plants of Calceolaria raised from a three-cent packet of your seeds, and the spotted, pocket-shaped flowers are most beautiful. Mrs. C. C., Kent Co., Mich., Oct. 4, 1904.

Carnations for Winter.

For winter-blooming I offer a strain of Carnations easily grown from seeds, and bearing large, double, richly-scented flowers of all the choice shades of white, rose, red and yellow, as well as variegated. The seeds are sown in the spring, and when large enough the young plants are bedded out in a sunny spot in the garden, kept well watered during dry weather, and the blooming shoots pinched out as they appear. In August or early September they are potted and removed to the window or conservatory, where they will bloom freely throughout the winter. Avoid the common garden Carnations for the window. They will not prove satisfactory. Finest mixture, 4 packets 10 cents, 1 packet 3 cents.

Mr. Park: From one three-cent packet of your seeds I raised a whole windowful of Carnations. Their blooms were beautiful and about as fine as the florists' Carnations, A. R. L. Cortland Co. N. Y., Oct. 7, 1904.

while there were so many handsome colors and shades.

Mr. Park: Among my house plants I have some lovely winter-blooming Carnations grown from your seeds. They make fine window plants, and furnish so many fragrant blooms for cut flowers. Mrs. F. R. Stilson, Ingham Co., Mich., Oct. 24, 1904.

Mr. Park: My Winter-blooming Carnations from your seeds were grand. They were so fragrant. One flower was alone worth the cost of the seeds. Mrs. P. T. Piercy, Gilmer Co., W. Va., Oct. 13, 1904.

Mr. Park: I had good luck with the Winter-blooming Carnation seeds bought of you. I planted them the 16th of April, and I think every seed germinated. The plants grew nicely and are now loaded with buds. Mrs. Laura Knight, Morgan Co., Ill., Oct. 24, 1904.

Convolvulus Mauritanicus.—A handsome vine for a bracket pot or basket, very easily grown from seeds, and bearing an abundance of small, blue, Morning Glory-like flowers upon pendant leafy sprays. The seedling plants soon come into bloom, and are showy for a long time. Price, 4 pkts. 10 cts., 1 pkt. 3 cts.

Cuphea.—Shrubby greenhouse species bearing long, Chelone-like flowers of rich scarlet and gold, and making a fine display in beds in the garden in summer and in pots in the window in winter. C. Platycentra, C. Rezii, C. Eminens, C. Strigulosa and others, separate, 5 cts. per pkt; mixed, 4 pkts. 10 cts., 1 pkt. 3 cts.

Cineraria, Park's Fine Hybrids.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

CINERARIA POLYANTHA STELLATA.

but a tall, large-leaved crimson one with white eye was the crowning beauty of all. from twelve to twenty large blossoms continuously for over two months. Mrs. E. J. Bailey, P. Q., Can., Oct. 13, '01

I ask special attention to the splendid strain of Large-flowered Cineraria Hybrids I offer. They are among the most generous and beautiful of window flowers. None are more attractive, and few are more easily grown. The seeds start readily, and plants begin to bloom in nine or ten months. To avoid green fly, put tobacco siftings on chopped tobacco stems upon the soil. Shift into larger pots as the plants grow, and shade from mid-day sun. The seeds offered are from a very superior strain, and can be depended upon to produce plants of fine form, and flowers of grand size and colors.

Fine white 5 Rich crimson 5
Azure blue 5 Stella, new... 5
Rosea, rose 5 Flesh colored 5
Dwarf, mixed... 5
Special mixture of above
sorts 4 pkts. 10 cts., 1 pkt. 3
Plenisima, double, very
fine quality, mixed colors 5

Cineraria Polyantha Stellata. I also offer the new floriferous Star Cinerarias. These are very graceful, the flowers being smaller, of various forms, and show many colors and variegations. They are fairly shown in the engraving. They are taller than the Choice Hybrid varieties, but far more free-blooming, and are very beautiful. I offer a first-class strain. Finest mixed, 4 pkts. 10 cts., 1 pkt. 3 cts.

Mr. Park: My Cinerarias from your seeds were greatly admired. One was of the richest purple, one a deep crimson with yellow centre. They bloomed freely, bearing

Chrysanthemum, Veitch's Japanese.

Finest mixture, 4 pkts 10 cts., 1 pkt 3 cts

It is not commonly known that the popular Chrysanthemums exhibited at fall shows may be successfully raised from seeds. If started early in spring the plants will bloom in the autumn. The seeds germinate promptly and the plants should be given a shady place and plenty of water to promote their development during the summer. Keep them in pots, shifting as often as the roots begin to crowd. The flowers are very double and of many shades of white, yellow, rose and red. I offer first-class seeds. Finest mixed, 4 pkts. 10 cts., 1 pkt. 3 cts.

Mr. Park: From a packet of your Chrysanthemum seeds I raised seven fine plants. They are now coming into bloom and are as handsome as Chrysanthemums can be. Allen H. Taylor, Burlington Co., N. J., Oct. 5, 1904.

Mr. Park: I was much pleased with the Chrysanthemums raised from your seeds. They were very double and just covered with blossoms. They live through very severe frosts. M. E. C., Oxford Co., Me., Oct. 2, 1904.

Cyclamen, New Giant-flowered.

Special mixture, 4 pkts 10 cts., 1 pkt 3 cts.

The Cyclamen is a very satisfactory plant for the window, blooming well in winter and showing exquisite, attractive flowers in rich and beautiful colors. No plant is easier to start from seeds, and bloom can be expected in eighteen months from sowing. The seeds require a month to start. I offer a superb strain of the finest large-flowered varieties in all the choice colors. My mixture contains all the colors well proportioned.

White with red eye..... 8	James Prize, fragrant..... 8
Dark red..... 8	Pure white..... 8
The rose..... 8	Dark blood red..... 8
Dark carmine..... 8	Mixed, 4 pkts 10 cts, 1 pkt. 3

Butterfly Cyclamen.—The new Papilio or Butterfly Cyclamen is a novelty of great beauty. The flowers are fringed, as shown in the engraving, and come in the colors White, Rose, Red and White with Red Eye. I can supply the colors separately at 10 cents per packet of four seeds, or in special mixture in packets of five seeds at 10 cents, or 3 packets for 25 cents. Almost every seed will grow.

Mr. Park: From one 3-cent packet of your Giant-flowered Cyclamen seeds I have twenty-one fine plants. I think every seed germinated, but as I sowed the entire packet in a 10-inch pot some died from being too crowded.—Mrs. R. D. Moore, Jackson Co., Ga., Oct. 25, 1905.

Mr. Park: One year ago last spring I raised eight plants of Giant Cyclamen from seeds purchased of you. Last winter three of them bloomed, just enough to show their beauty, although the tubers were only about one inch in diameter. At present they measure two and one-half inches across and are full of buds, which will soon make a grand display. The foliage is lovely, and when in full bloom the plants are a grand sight. I find them very easily raised from seeds, and shall never regret the little trouble they were to me.—Mrs. F. R. Stillson, Ingham Co., Mich., Oct. 24, 1905.

Mr. Park: I sowed a packet of your Cyclamen seeds, and every seed grew.—Alice L. Hale, Linn Co., Mo., Oct. 11, '06.

PAPILIO OR BUTTERFLY CYCLAMEN.

Cyperus—Umbrella Plant.

Finest mixed, 4 pkts. 10 cts, 1 pkt. 3 cts.

One of the most desirable foliage plants for the window, growing several feet high, dense, attractive and even more graceful than a Palm. Water freely while growing and avoid root-crowding. After blooming water sparingly, rest for a few weeks and repot. Seeds start readily and the plants soon become fine specimens.

Alternifolius, the old sort, see engraving..... 5
Papyrus, very handsome sort..... 5
Special mixture, 4 packets 10 cts, 1 pkt..... 3

Mr. Park: From one 3-cent packet of your Cyperus seeds I raised at least fifty plants, and oh, how fast they grow.—Mrs. K. U., Perry Co., Mo., Oct. 7, 1905.

Francoa Ramosa.

—Price, 4 packets 10 cts, 1 packet 3 cts.

A greenhouse perennial of easy culture, belonging to the Saxifrage family. Grows two feet high, has fine lyrate foliage, and pure white flowers freely produced on long, branching spikes. The seeds start readily, and if sown in April will produce plants that will bloom freely the next season. Plants do well bedded out in summer, and can be wintered in any frost-proof room. 4 pkts 10 cts, 1 pkt 3 cts.

Eupatorium Weinmannianum

Special mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

This new plant can be grown in the garden, where it attains the height of ten feet, branching and becoming a dense bush, literally covered with its clusters of white, sweet-scented flowers. In a pot it is not so large, but becomes a compact, symmetrical plant, blooming beautifully in winter, and eliciting much admiration and praise. It deserves a trial. Price, 4 packets 10 cents, 1 packet 3 cents.

Gloxinia, New Giant Hybrids.

Special Mixture, 4 pkts 10 cts., 1 pkt 3 cts.

I offer a strain of very beautiful larger flowered Gloxinia. The plants are robust and free-blooming and the flowers much larger and finer than those of the ordinary kinds. Seedling plants bloom in from five to ten months after the seeds are sown, the flowers showing many colors from white through the rich shades of pink to scarlet, and from azure blue to royal purple, some flowers being finely spotted, throated and margined. These seeds are small and require some skill in sowing and watering, but anyone who has had some experience in starting fine seeds need not hesitate to sow Gloxinias. Finest mixtures, splendid Giant sorts, 4 pkts 10 cts., 1 pkt 3 cts.

Giant Cyclops, velvety carmine shading to a broad white border, throat dotted, interior red, per packet. 6
Giant Goliath, velvety purple-violet, shading to a pure white border, throat delicately spotted, per packet. 6

Giant White, pure white with a yellow throat. 5 | Giant in splendid mixture, 4 pkts 10 cts 1 pkt 3 cts. 6

Mr. Park: I never supposed that anybody but an expert could raise Gloxinias from seeds, but have found out my mistake. I purchased a 3-cent packet of seeds from you, followed cultural directions, and raised over forty nice plants. They have not bloomed yet, for it was late when I sowed them, but the foliage is beautiful and they have formed plump little tubers that give promise of plenty of bloom later.—Mrs. Costello, Port. Co., Ga. Oct. 17, '04.

Mr. Park: Seedling Gloxinias are very easily raised by anyone used to sowing fine seeds. From one packet I obtained all colors and shades.—Mrs. C. A. L., Somerset Co., Me., Oct. 19, 1904.

Mr. Park: I raised thirty fine plants from one 3-cent packet of your Gloxinia seeds.—L. M. Brandt Mendocino Co., Cal., Oct. 19, 1904.

Geranium, Finest Zonale.

Splendid mixture, 3 packets 10 cents, 1 packet 3 cents.

Geraniums are easily raised from seeds, and seedlings are more robust and healthy than plants from cuttings, while the flowers and clusters from a first-class strain are even finer than most of the named varieties. The seeds I offer cannot be surpassed in quality, and those who sow them will be more than pleased with the results. They were carefully saved from the newest, best-improved types, and the plants will bear very large, round flowers in splendid globular trusses upwards of a foot in diameter, and in superb shades of scarlet and crimson, rose, salmon, cream, veined pink, blush and pure snowy white. Splendid mixture, 4 packets 10 cents, 1 packet 3 cents.

Mr. Park: From a 3-cent packet of your Zonale Geranium seeds I raised fifteen fine plants. Some of them produced the prettiest blooms I ever saw, and there is one especially fine—a very large single pink, shaded white. It is so handsome everyone wants a slip from it.—Mrs. W. L. Jefferies, Culpepper Co., Va., Oct. 6, '04.

Mr. Park: The largest-flowered and most beautiful Geraniums I ever saw were raised from a 3-cent packet of your seeds.—Rose H. Hest, Hock Co., O., Oct. 7, '04.

Grevillea Robusta Pyramidalis.—A very graceful and satisfactory pot plant for the decoration of the piazza in summer, and the room or window in winter. The leaves are serrate and charmingly arched, are of a silvery shade of green, somewhat coriaceous in texture and not easily injured. Plants are of pyramidal growth, start readily from seeds and soon become fine specimens. It is sometimes called Australian Silk Oak, and is of the easiest culture. 4 pkts 10 cts., 1 pkt 3 cts.

Mr. Park: My Grevillea robusta from your seeds is perfect in shape. It is very striking with its beautifully-cut, drooping leaves, and attracts the attention of everyone.—A. E. Story, Clay Co., La., Oct. 5, 1905.

Heliotrope New Giant.

55

Special mixture, 4 pkts. 10 cts. 1 pkt. 3 cts.

Special mixture, 4 pkts 10 cts., 1 pkt 3 cts.

The new Large-flowered French Heliotropes are a great improvement upon the old-fashioned sorts, the plants being more robust and floriferous, while the flowers are of large size and borne in huge clusters. Plants grow readily from seeds and like a warm sunny place.

Large-flowered, white in splendid variety..... 5
Large-flowered, violet in splendid variety..... 5
Large-flowered, light blue in splendid variety..... 5
Large-flowered, dark blue in splendid variety..... 5

Mr. Park: Your new large-flowered Heliotropes are something extra fine. I succeeded in raising several beautiful specimens from half a packet of seeds. I am delighted with them.—Mrs. W. S. Lowell, Macomb Co., Mich.

Mr. Park: My Heliotrope seeds came up good, and I had the plants which bloomed all summer and autumn. Mrs. A. Etheredge, Lexington Co., S. C., Oct. 30, 1905.

Jerusalem Cherry.

few Hybrid mixed 4 pkts. 10 cts. 1 pkt. 3 cts.

Mr. Park: Every flower lover ought to have the Jerusalem Cherry. Mine twenty even inches high, is covered with bloom and fruit. It is very showy and greatly admired. The fruit will remain on until Christmas. C. Ruth, Ont., Can. Oct. 4, 1905.

Impatiens Sultani Hybrida.

Special mixture, 4 pkts. 10 cts. 1 pkt. 3 cts.

This is the Zanzibar Balsam, improved in form and colors. The plants start readily from seeds and begin to bloom as early as the Garden Balsam, becoming bushy and symmetrical, and covered with bright, waxy flowers of various shades from salmon white to dark purple until frost. The plants like a rather sunny place, and are fine as single specimens when planted out, as well as showy in a group or border. As a pot plant this Balsam is hardly excelled, being easily cared for, and blooming uninterruptedly for many months, summer or winter. In a sunny room of even temperature it is one of the best winter-blooming plants known, and never fails to give unbounded satisfaction.

Rosea bright rose, splendid..... 5 | Queen, whitish salmon..... 5
King Albert, pinkish carmine, 5 | Mixed, 4 pkts. 10 cts. 1 pkt. 3 cts.

Mr. Park: I wish all flower lovers would try your seeds of Impatiens Sultani if they want something that blooms the year round and always looks fresh and clean and has no insect pests.—R. A. R. Fayette Co., Pa., Oct. 13, 1904.

Lantana, New Dwarf.

Fine mixed, 4 pkts. 10 cts., 1 pkt. 3 cts.

Beautiful bedding and pot plants, very free blooming, easily grown from seeds, and do well in a sunny place. Always in bloom under favorable conditions, and much prized. Finest mixed, 4 pkts. 10 cts. 1 pkt. 3 cts.

Mr. Park: I have good success with all of your seeds, and especially Lantana. No flower I ever had gives me so much satisfaction. My plants bloom continuously, and sometimes 15 or 20 clusters. May Preston, Douglas Co., Mo. Oct. 30, 1905.

Morrenia Odorata

A graceful ever green vine of rapid growth, the leaves heart-shaped, pointed, green above and silvery beneath; flowers white star-like and very fragrant. A good vine for window trellis. Price, 4 pkts. 10 cts. 1 pkt. 3 cts.

Passiflora.

Passion vine, starts easily from seeds, and splendid for a trellis, or summer-house in summer; flowers odd and beautiful. Protect by lifting and keeping in a frost-proof place, where the winters are severe Blue, scarlet, etc. in special mixture or separate, per packet, 5 cts.

The Magnificent New FRENCH GIANT PRIMROSES.

Complete Mixture, 3 pkts 12 cts., 1 pkt 5 cts.

The new strain of the Chinese Primrose developed in France is conceded by lovers of Primroses to be superior in vigor and symmetry of growth, while the flowers, borne in huge clusters, are giants in size, attractively fringed, and freely and continuously produced; and show a range of the most distinct and beautiful colors. The French are very successful cultivators of this class of plants, and in past years many very beautiful popular varieties have been brought out by specialists. The race here offered, it is to be hoped, surpasses all previous introductions, and I heartily urge all my friends to give this new race of Primroses a trial, believing that they will be pleased with the results. I am glad to be able to offer the seeds at so low a price, being fortunate to secure a fine stock from a specialist, at a special price. Finest mixed, 3 packets, 12 cts., 1 packet 5 cts

Giant Mallow-leaved Varieties.

Lady Randolph Churchill, pure white, the large flowers in splendid clusters; vigorous and free blooming; per packet.....	6
Princess Louise, rosy white; an elegant, large-flow-ering kind, the plants showing a mass of attrac-tive flowers; per packet.....	5
Empress, blue; the flowers of large size, finely fringed plant symmetrical and profuse-blooming; pkt....	6
Emperor, copper-color; very showy and handsome, in large compact trusses; plants of strong habit, bearing many trusses; per packet.....	5
Marquis of Lorne, rose; very delicate and effective, plants covered with massive clusters; per packet 5	
Soleil D'Empel, pure white, with dark brown stems and elegant foliage; one of the finest varieties; pkt 5	
Defiance, rich bright red; one of the darkest and most striking of Primroses; showy, beautiful; pkt 5	
Special mixture of the above mallow-leaved sorts, 3 packets 12 cents, 1 packet.....	6
Complete mixture of Mallow and Fern-leaved sorts, 3 packets 12 cents, 1 packet.....	5

Giant Fern-leaved Varieties.

The Queen, rosy white; the flowers large, finely fringed, delicate and beautiful; splendid foliage; per packet.....	6
Angelica, pure white, fringed flowers borne in showy trusses; foliage deeply lobed and feather-like; per packet.....	5
Perfection, large and handsomely flimbriated flowers in fine trusses; pure white, very effective; packet 5	
Cœrulea, a splendid variety; the flowers a well-defined blue, large and produce in superb trusses; per packet.....	6
Cupreata, coppery rose flowers, odd in color and quite showy, a handsome, free-blooming sort; packet 5	
Leopoldi, pure rose, elegantly fringed both in foliage and flower; one of the best; per packet.....	5
LaRose, very pretty light rose-colored flowers in fine clusters; foliage fringed and feathery; per pkt....	5
Special mixture of above Fern-leaved sorts, 3 packets 12 cents, 1 packet.....	5

☛ The seeds of French Giant Primrose I offer are imported direct from the Primrose specialists in France who developed this splendid race of large-flowered varieties. I offer them with confidence believing that they will prove entirely satisfactory to my patrons. They are at least worthy of a trial.

Primula Stellata Pyramidalis.

Special mixture, 1 packet 10 cents, 3 packets 25 cents.

The New Hybrid Star Primrose, shown in the engraving, is a grand winter-blooming pot plant, surpassing in free-blooming and attractiveness even the well-known Chinese varieties. The plants grow from a foot to eighteen inches high, becoming a pyramidal mass of showy flowers of many colors, and make a fine display throughout the winter season. No pot-plant has been so much praised in England for its beauty and usefulness as the Primrose, and for several years the English seed dealers have retailed the seeds at very high prices. A few plants will fill a window, and their giant form and floriferous grandeur never fail to elicit the highest words of praise. I have pleasure this year in offering splendid new named varieties, and at prices that will certainly make them popular. Those who are fond of winter-blooming Primroses should not fail to add a collection of these new Star varieties to their list.

White Star, improved, pure white, dark foliage.....	10	Duchess Star, white with carmine centre; very fine..	10
Alba floribunda, superb, white.....	10	King of Stars, rich, deep carmine crimson, fine dark foliage; very effective	10
Giant white, large; dark foliage.....	10	Blue Star, delicate porcelain blue, green foliage; distinct and showy.....	10
Hybrid white, extra fine.....	10	Purple Star, rosy purple; free-blooming, vigorous... 10	
White Queen Star, pure white, very free-blooming..	10	Rosy Star, brilliant rose; dark fern-leaved foliage... 10	
Lady Emily Dyke, similar to preceding; very fine..	10	Mont Blanc, white, foliage dark, fern-leaved; fine..	10
Salmon Pink, charming salmon color; dark foliage..	10		
Miss Irene, very handsome; light rose, green foliage	10		

Special mixture of all the choice varieties a superb combination, 3 packets 25 cents, 1 packet 10 cents.

Mr. Park: I must tell the floral sisters about my *Primula hybrida pyramidalis stellata* that I raised from a package of seeds that I bought of you. There were only ten seeds, but I raised nine plants. The seeds were up ten days after I planted them. I gave some to my friends, and what I kept were covered with blossoms all winter and summer. Some had sixteen and eighteen flower stems on, and tier after tier of blossoms. They were simply grand. All should try them, as they bloom more freely than the Chinese Primroses. Emma Head, Forest Co., Pa., Nov. 1903.

Primula Forbesi, the Baby Primrose, one of the most dainty and free-blooming of pot plants. Easily grown from seeds, and comes into bloom in three or four months after starting. Flowers mostly lilac with yellow centre, and produced in whorls continuously. Charming. Lilac, Magenta and Compacta separate, 5 cents each, or in special mixture 4 packets 10 cents, 1 packet 3 cents.

Mr. Park: I planted a packet of your seeds of *Primula Forbesi* in April and saved six plants, and now they are beauties—such dainty sprays of delicate flowers and buds. They are easily raised and greatly admired. Mrs. Wm. Saltz, Ogle Co., Ill., Nov. 1, 1903.

Primula Obconica, New Giant. A rival of the Star and Chinese Primroses for winter-blooming is the New Giant *Primula Obconica*. This sort has flowers almost equal in size to those of the old Chinese kind, while they come in plain and fringed forms, and bear huge clusters held above the foliage on strong stems. I supply white, rose, lavender and carmine, plain or fringed, at 5 cents per packet, or all in special mixture, 4 packets 10 cents, 1 packet 3 cents.

Mr. Park: Too much praise cannot be given my plants of *Primula obconica* raised from your seeds. The flowers are so dainty and beautiful. Mrs. E. J. Bailey, P. Q., Canada, Oct. 13, 1905.

Park's Choice Chinese Primroses.

Special mixture of all varieties, 4 pkts 10 cts. 1 pkt 3 cts.

A Windowful of Park's Choice Chinese Primroses, Grown by Arthur G. Thompson, Danville, Ind.

Mr. Park: Here is a photograph of our Primroses. It shows how easy it is to have a windowful of the most beautiful winter-blooming plants. These were raised from seeds bought of you last spring. Had I waited a week or ten days the picture would have looked like a large bouquet, the buds developing into such large flowers, and of all colors. The plants have been in bloom all winter and have been admired and praised every day. People promenade past my north window to see the grand display. I am going to try the highest priced seeds of others along with yours next year to see if there is any difference.—Arthur G. Thompson, Danville, Ind., March 22, 1902.

LETTER.—Mr. Park: I tried the high-priced Primrose seeds of other seedsmen with yours, and find the greatest difference is in the price. The 25, 35 and 50-cent packets had a few more seeds in than your 3 and 5-cent packets, but the two kinds, planted in the same boxes in small rows, grew and bloomed so near alike you could see no difference in the plants or flowers. I can recommend your low-priced seeds to be fully equal to those sold at the highest price by other dealers.—Arthur G. Thompson, Danville, Ind., Jan. 3, 1904.

I offer first-class seeds of the finest strain of Chinese Primroses known, supplying these separate varieties at the extraordinary low prices quoted.

Alba lutea, yellowish.....	5	Erecta superba rubra	5	Pulcherrima, pretty	5	Rubra, red	5
Alba magnifica, white.....	5	Golden Feather	5	*Punctata elegantissima	5	Rubra, violacea.....	5
Atropurpurea, purple.....	5	*Kermesina splendens.....	5	Purity, fine white.....	5	Rubra magnifica.....	5
*Atrosanguinea, red.....	5	Lillicina marginata	5	Purple, brown centre	5	*Striata, striped.....	5
Carminea, magnifica.....	5	*Marmorata, marbled	5	Purpurea, purple.....	5	Umbellata.....	5
*Cerulea, blue	5	Mont Blanc, white	5	*Pure White.....	5	Urania, new.....	5
Coccinea, scarlet	5	Mutabilis, bright red	5	Rosea, rose.....	5	Velvety red.....	5

Complete mixture of all varieties 4 packets 15 cents, 1 packet

Those preceded by a star can be supplied with either mallow-leaved or fern-leaved foliage. All are fringed. Mr. Park, I raised eight lovely Chinese Primroses from one 3-cent packet of your seeds. One was pure white and the rest were each a different shade of red, from a pale lavender pink to a deep, rich red, and bloom!—I never saw anything like it! They just bloomed all winter, and were as handsome as could be.—Mrs. Wm. L. Jefferies, Culpepper, Co., Va., Oct. 6, 1904.

Mr. Park: I never had anything prettier than the Chinese Primroses raised from your seeds. They bloomed for ten months in succession and had such bright, cheerful colors. They have such exquisite foliage they would make lovely window plants even if they never bloomed.—Mrs. M. Graybill, Daviess Co., Mo., Oct. 9, 1904.

Solanandra grandiflora, a very handsome vine from Jamaica, grows fifteen feet high, bearing beautiful trumpet flowers seven inches long, peach-colored, succeeded by egg-like fruits of sweet, sub-acid flavor. Give a large pot of loamy soil, and water freely until a good growth has been made, then withhold water entirely till the leaves drop off from drought; after this keep barely moist till signs of renewed growth, when, the water supply increased, the foliage, buds and flowers will soon appear. Per packet, 10 cts.; 3 pkts 25.

Solanum Seaforthianum, an elegant, free-blooming vine, the flowers blue in large panicles. May be bedded out in summer, and winter in the house. Easily grown from seeds; will climb fifteen feet high and bloom continuously summer or winter. Price, 4 packet, 10 cents, 1 packet 3 cents.

Sutherlandia frutescens, a leguminous, shrubby pot plant from South Africa; flowers scarlet, in axillary racemes, and very handsome; fruit a curious, papery, inflated, many-seeded pod; grows three feet high. This plant does best in a compact of loam and peat, and is easily raised from seeds. Per pkt 5c.

Swatsonia, leguminous vines, of great beauty, both in foliage and flower; flowers pea-like, in racemes. and blue, purple, red, white and yellow in color. Plants start readily from seeds, and thrive in a mixture of sandy loam and peat. Finest mixed, 4 packets 10 cents, 1 packet 3 cents.

Solanum Weatherilli, improved hybrid of Jerusalem Cherry; bushy plants covered with showy fruit; elegant for window pots, 4 pkts 10 cts. 1 pkt 3c.

Streptocarpus, Charming Hybrids

Special mixture, 4 packets 10 cents, 1 packet 3 cents,

I take much pleasure in offering my friends seeds of a very fine strain of Streptocarpus, one of the most beautiful, free-blooming and decorative of pot plants. The plants are easily grown from seeds, as Gloxinias, and require about the same treatment. Seedlings begin to bloom in five months from the date of sowing, and the exquisite Achimene-shaped flowers are borne in clusters, displaying lovely shades of white, rose red, violet and blue, all superbly penciled, blotched and shaded. The skillful window gardener who wishes something new, rare and beautiful should not fail to try this grand new flower. I offer seeds as follows:

Hybrid Streptocarpus, red and rose colors.....	5	Streptocarpus Wendlandi, blue flowers.....	5
Hybrid Streptocarpus, violet colors.....	2	Streptocarpus polyanthus, lavender.....	5
Hybrid Streptocarpus, white colors.....	5	Streptocarpus Achimene-flowered, mixed.....	5
Special mixture of Hybrid Streptocarpus, finest strain, all colors, 4 packets 10 cents, 1 packet		5	

NOTE.—The beautiful Streptocarpus Hybrids, are remarkable for the abundance and continuous succession of their bloom. The flowers have been brought to a very high state of perfection by careful culture and hybridization, and are now far in advance of the older varieties both in richness of color and in size and form. As pot plants they are highly decorative. * * * Few plants are so easily managed as Streptocarpus. Sow the seeds in sifted, pressed soil in moderate heat, pot and grow with plenty of light and a little shade in sunny weather. They do well in turfy loam with leaf-mould and sand added. Should aphides trouble them fumigate with tobacco. —English Florist.

Smilax, Boston.

Price, 4 pkts 10 cts., 1 pkt 3 cts.

This is a beautiful vine for a window trellis or for training upon strings. The foliage is graceful, shining green and very pretty. Its sprays are lovely to mix with delicate flowers for personal adornment, and if the long strings are cut they can be used with fine effect to drape a room or hall. Easily grown.

Torenia, New Giant.

Finest mixture, 4 pkts 10 cts., 1 pkt 3 cts.

A splendid pot plant of easy culture. Flowers large, blue, white, lavender and yellow. A lovely summer-blooming window or porch plant. I offer only the new improved large-flowered varieties, of globular habit and far surpassing the older kinds in size and colors.

Various Miscellaneous Seeds.

WORM.

CATERPILLAR.

SNAIL.

Abrus Precatorius, the rich Scarlet Prayer Bean 5
Ajuga metallica crispa, hardy bedding or pot plant; crinkled foliage, blue flowers..... 5
Amaranthus coleifolius handsome foliage plant 5
Atriplex hortensis cupressa, annual foliage plant 5
Bignonia grandiflora, hardy shrubby vine..... 5
Basil, Sweet Bush, fragrant, for window pots..... 5
Borecole, curled and variegated, mixed..... 5
Calceolaria pinnata, annual from Peru; two to three feet high, clothed with clammy hairs, and bearing sulphur flowers..... 5
Campanula garganica, for baskets and pots, fine 5
Capsicum, Ornamental Peppers for window plants, Prince of Wales, Tom Thumb and Little Gem, mixed..... 5
Caterpillars, Large, Small, Striped, Hairy, each 5
 Caterpillars, Snails and Worms, mixed..... 5
 If you do not have enough of these get a mixture of seeds and raise some. They are curious and interesting, and not depredations as the more common ones are.

Cadonopsis grandiflora, a slender, annual climber, flowers bell-like, yellowish green veined purple... 3
Convolvulus aureus, yellow Morning Glory..... 3
Cupanians, spotted, annual..... 3
Dasylirotia acrotrichum, a greenhouse evergreen; plant eight feet high, leaves two feet long, flowers white, in a dense, cylindrical panicle..... 5
Gossypium, Cotton, upland variety, like a rich soil..... 5
Medicago turbinata and Decandollei, Snails in mixture..... 5
Polygonum Posumbu a foot high, densely clothed with glossy green leaves, from which emerge small, rosy panicles of bloom..... 5
Polypteris callosa, 12 inches high, showy foliage covered with rose-lilac flowers..... 5
Primula frondosa, a new, fine primrose..... 5
Excella tnbrosa, dwarf, large blue flowers..... 5
Sutherlandia frutescens, pot shrub, red flowers..... 5
Tagetes Lemoni, dwarf Marigold, yellow flowers 5
Zea Japonica quadricolor, foliage green, white, bronze and pink striped, ten feet high, a fine clump 5

SEEDS OF HARDY SHRUBS AND VINES.

Most shrub seeds require from a month to three or six months to start. Some even lie dormant for a year or more. Sow where the bed or box will not be disturbed till the seeds have time to germinate.

POPULAR MIXTURES OF FLOWER SEEDS.

Mixture of Annuals.—Contains chiefly seeds of flowers blooming the first season. The mixture embraces over 100 genera, and the average would perhaps be five species and varieties to each genus, thus representing fully 500 kinds. Price 10 cents per packet.

Mixture of Biennials and Perennials.—Contains seeds of more than 25 genera, and represents perhaps 50 species and varieties. Price 10 cents.

Mixture of Seeds for the Window Garden.—Contains seeds of more than 25 genera, and represents perhaps 125 species and varieties. 10 cents.

Mixture of Climbers.—Contains seeds of a dozen different genera, about 50 varieties. Price 10 cts.

Mixture of Everlastings and Grasses.—Contains seeds of the leading flowers and grasses used for drying for winter bouquets. Price 10 cents.

Mixture of Fragrant Flowers.—Contains seeds of more than a dozen genera, representing about 50 kinds of our most fragrant flowers. Price 10 cents.

Mixture of Edging Plants.—Contains seeds of about a dozen genera of low-growing flowers, suitable for edging beds. There are 50 or more species and varieties represented in this mixture. Price 10 cents.

Mixture of White Flowers.—These are excellent where a moonlight display of flowers is desired. They are also suitable for graves. A good mixture of species and varieties. Price 10 cents.

Mixture of Nearly All Varieties.—This is what we advertise—a mixture of 1,000 varieties and colors. Price 10 cents per packet. Those who secure this packet will be surprised at the wonderful variety of flowers to be obtained therefrom.

DETACH THIS LEAF and mail with the Money. See how to Remit on Title Page.

As you read pencil below the seeds desired, then write name and address, and your order is ready for mailing.

At My Risk.—Remit at my risk by Money Order, Express Order, Draft or Registered Letter.

GEO. W. PARK, LaPark, Lancaster County, Pa.

Splendid Summer-Blooming Bulbs.

The bulbs I offer are all first-class. All are of the larger sizes, and should not be classed with the small, inferior stock advertised by some firms at a low price. All are delivered by mail, guaranteed, at the prices quoted.

Amaryllis, Alberth strain, the finest of Amaryllis; flowers like A. Johnsoni, but larger, and showing many rich colors and variegations, fine white to deep crimson. Each, large bulbs, 40 cents, per dozen, \$4.00.

Johnsoni, the well-known sort, 30 cents each, \$3.00 per dozen.

Begonias, Giant Tuberous, White, Scarlet, Crimson, Yellow, Pink, Rose and Orange; large tubers, over three and a half inches in circumference, 6 cents each, or the lot of seven tubers for 35 cents. Smaller tubers, about three inches in circumference, 5 cents each, or the set for 30 cents.

Begonia, Giant Tuberous, Double, splendid, large, very double flowers in all the leading colors, Red, Scarlet, Rose, Orange and White; fine tubers, 12 cents each, or the five tubers for 50 cents. Smaller tubers, 6 cents each; collection of 5 tubers, different colors, 25 cents.

I offer only the fine large, thoroughly-ripened tubers grown for me by Belgian specialists and imported. They can be depended upon to produce the finest, largest flowers of all the new and choicest colors. There are none better. Give fibrous, sandy soil, protection from the wind, and partial shade. In potting, leave the crown of the tuber above the surface.

Caladium, Fancy, finest varieties, named, 35 cents each, \$3.50 per dozen.

These are among the richest of foliage plants. The tubers are naturally small, but each produces many elegant leaves during summer. After potting, water sparingly until growth begins, and avoid chills. They are splendid pot plants for the window, conservatory or porch in summer. When growing, water freely, give plenty of root room and protect from noon-day sun.

Caladium esculentum, large bulbs, 15 cents each, \$1.50 per dozen. Small bulbs, 5 cents each, 50 cents per dozen. A fine ornamental-leaved plant for summer. Likes shade and plenty of water.

Calla, New Semi-dwarf Fragrant. Grows only a foot high, bearing charming, pure white, fragrant flowers; sure to bloom. 20 cents each, \$2.00 per dozen.

Calla, Large-flowered, white; from the Azores. 15 cents each, \$1.50 per dozen.

Calla, Spotted-leaved, each 10 cents, per dozen \$1.00. A handsome pot plant, or for a shady, moist bed. Foliage nicely spotted with white. Flowers shape of Calla, but smaller; white with purple centre.

Canna, New Gladiolus-flowered, fine sorts, named, 10 cents each, \$1.00 per dozen. Twenty-seven roots in five fine varieties, proportioned for a circular bed six feet in diameter, with directions for planting and cultivating, only \$2.25.

Makes a showy bed when grouped in a sunny place. Water freely while growing. This is the secret of successful Canna culture.

Dicentra spectabilis, 15 cents each, \$1.50 per dozen.

A hardy herbaceous plant, bearing long racemes of charming pink, heart-shaped flowers.

Double Dahlia, fine named varieties, White, Rose, Scarlet, Crimson, Purple, Variegated, etc., 15 cts. each, \$1.50 per dozen.

Among the most showy and beautiful of summer flowers; of exquisite form and texture, and very double.

Double Dahlia, Ernest Glass, a grand Cactus Dahlia; immense, perfectly double flowers, rich velvety purple, very graceful, and continuously and freely produced. Price, 16 cts. each, \$1.60 per dozen.

Eucomis punctata, a handsome bulbous plant bearing huge spikes of greenish-white, deliciously fragrant flowers during summer. Treat as Gladiolus. Also fine for pots. Price, 25 cts. each, \$2.50 per dozen.

Galtonia (Hyacinthus) candicans, often called Giant Cape Hyacinth, 5 cts. each, 50 cts. per doz.

A hardy bulb, throwing up a huge flower scape, 3 feet high; in summer, bearing large, white, drooping flowers. Plant in a raised bed of sandy soil.

Gladiolus, Park's Superb Mixture. This mixture contains all the choice colors and markings in fine proportion, and the bulbs are of first size. They never fail to bloom—the spikes and flowers often marvelous in size and beauty. There is no better mixture offered by anyone. Price, one bulb 3 cts., 6 bulbs 15 cts., 12 bulbs 25 cts., 100 bulbs \$1.90, mailed. By express, not prepaid, \$1.40 per hundred, \$12.50 per thousand.

Gladiolus Lemoinei, beautiful varieties of all the choice colors in fine mixture, same price as above.

Gladiolus, Second size, but sure to bloom. I can supply the smaller bulbs of the above splendid

mixtures as follows; 1 bulb 2 cts., 6 bulbs 10 cts., 12 bulbs 15 cts., or \$1.00 per hundred, mailed. By express, not prepaid, 70 cts. per 100, \$6.50 per 1,000.

Gladiolus, Groff's Hybrids. These are the finest of all Gladiolus. The flowers are of the largest size, the colors the most distinct and varied, and the marking beautiful. I offer a first-class mixture, embracing the latest creations of the hybridist, as well as the best of the earlier sorts—shades of White, Yellow, Scarlet, Pink, Violet and (so-called) Blue, in the richest variations. Price, 5 cts. each, 35 cts. per dozen, \$3.00 per hundred, mailed. By express, not prepaid, \$2.40 per hundred, \$22.00 per thousand. I can also supply the Giant Childsli in richest mixture at same price.

Gladiolus Collections. I offer collections of ten Gladiolus, Childsli and Hybrids, the finest named varieties, embracing all colors from white to richest fiery red, including striped and blotched, all at 4 cents each, or the lot for 35 cents.

Gladiolus should have a rich, sunny bed. Set the bulbs six inches deep and cultivate well early in the season. Later mulch freely with stable litter. A few plants of Kenilworth Ivy set among the bulbs will soon carpet the surface of the bed with bronzy green, beset with a profusion of pretty lavender flowers.

Gloxinas, Giant Belgian Hybrids, White, Blue, Red and Spotted, 10 cents each, \$1.00 per dozen. Kaiser Frederick, scarlet margined white, and Kaiser William, blue margined white, each 10 cts., or both with white, blue, red and spotted, six fine large tubers, only 60 cents.

These are imported from a celebrated Belgian grower, and are fine large tubers of the finest European strains. They are magnificent summer flowers of easy culture. Grow in pots, in partial shade, and in a place sheltered from wind.

Heimerocallis flava, the Early-flowering Lemon Lily, and H. Thunbergii, the late-flowering Lemon Lily, both growing two feet high; also H. Sieboldii, the early-flowering sort growing a foot high. Price, 10 cts. each or \$1.00 per dozen. All are hardy and beautiful.

Iris Florentina white, also purplish-blue, each 10 cents, \$1.00 per dozen.

Very hardy, showy, richly scented members of the Iris family. The white is especially desirable for cemetery planting. Both are elegant in the flower border.

Lilium auratum, the Gold-bell Lily of Japan. Large bulbs, selected, 20 cents each, \$2.00 per dozen.

Smaller bulbs, 15 cents each, \$1.50 per dozen.

The finest of Lilies, easily grown and sure to bloom. Hardy, and will live and bloom for years.

Lilium lancifolium, Rubrum, red, and Album, white. Large bulbs, 15 cts. each; 3 bulbs 35 cts.

Lily of the Valley, 4 cents each, 6 for 20 cents, 12 for 35 cents. Fortin's New Giant, best for garden culture, 5 cents, 6 for 25 cents.

Beautiful foliage and charming racemes of bells. White, deliciously fragrant. Fine for cemetery.

Hardy, will thrive in dense shade.

Madeira Vine, 5 cents each, 50 cents per dozen.

A beautiful, rapid-growing vine. Foliage massive, flowers white, sweet, and very abundant in fall.

Montbretia crocosmiflora, a Gladiolus-like plant, bearing spikes of bloom in summer and autumn. Same care as Gladiolus. 5 cts. each, doz. 50 cts.

Paeonies, Chinese, Pink, Red, White and mixed, 15 cents each, \$1.50 per dozen.

Splendid large flowers. The plants are hardy and increase in beauty from year to year.

Tigridias, 5 cents each, 50 cents per dozen. Colors Red, Yellow and White. Large, showy, shell-like flowers, the centre tigred or spotted. Grow a foot high, and a clump of them always shows flowers.

Tritoma Coralina, a fine everblooming dwarf, hardy variety, 15 cents each, \$1.00 per dozen.

Tuberose, Double, Excelsior Pearl, large bulbs, 4 cents each, 40 cents per dozen; smaller, but blooming size bulbs, 3 cents each, 25 cents per dozen.

Spikes of double, exceedingly fragrant flowers in autumn. A favorite flower for beauty and perfume.

Water Lily, white, fragrant; large roots 20 cents each, \$2.00 per dozen. Flowers waxy, semi-double, sweet scented. Grow in water. Hardy.

Zephyranthus, Pink, also White. Each, 10 cts., \$1.00 per dozen. Half hardy bulbs.

OTHER BULBS, also Hardy Bulbs, as Tulips, Hyacinths, etc., see my Bulb Catalogue, issued in Autumn. Free to patrons. Address

GEO. W. PARK, LaPark, Pa.

THE CHOICEST ...ROSES...

PRICE—Fine well-rooted plants.
Mailed, 10c. each; \$1.00 per dozen.

FOLLOWING is a list of the Choicest Everblooming and Climbing Roses, 26 sorts, and a list of 12 finest Hybrid Perpetuals. I will mail a plant of any variety for 10 cents, or 13 plants, your selection, for

\$1.00. The whole lot, 38 plants, with seven additional Roses, my selection, will be either mailed, prepaid; or expressed with soil on, not prepaid, for only \$3.00. They will be mailed latter part of April or early in May, guaranteed to reach you safely. *Special:* For \$1.00 I will mail a garden Rose collection, my selection, 16 plants of the best varieties for bedding. I have a large variety of Roses and can supply many sorts not here described. My plants are strong, well-grown and sure to please the purchaser.

THE BEST FOUR ROSES

Are White Maman Cochet, Pink Maman Cochet, Helen Gould (rich crimson), and Etoile de Lyon (rich yellow). Whatever Roses you get, these four should be first on your list. I will send the four, fine, well-rooted plants, for 25 cents. They are described as follows:

Maman Cochet, pink, rosy pink with silvery shadings; very large pointed bud, immense open flower, exquisite in form and fragrance; splendid for beds, and unsurpassed for pots; certainly the queen of pink Tea Roses.

Maman Cochet, white, a sport from pink Maman Cochet, having all of its good qualities, but with white flowers; a charming white rose.

Helen Gould, intense carmine-crimson; buds long, flowers full double, borne in great abundance all the season; excellent for beds and fine for pots.

Etoile de Lyon, deep, golden yellow; buds and flowers of enormous size, freely and continuously produced; the best yellow Rose for general cultivation.

You can make no mistake in buying these four Roses. Altogether they are unsurpassed in beauty of bud, flower, fragrance, free continuous blooming, vigor, foliage and hardiness. Only 25 cents for the lot. If you have any of them select substitutes from the list below.

Choicest Hardy Everblooming Roses

Bessie Brown, white, faintly flushed pink; deep and full, with large, broad petals; beautiful.

Bon Silene, rosy crimson, delightfully fragrant; choice old rose.

Bridesmaid, clear, shining pink; fine buds on long, strong stems; blooms freely; one of the best.

Clothilde Souper, white, with peach centre; very double, deliciously fragrant; strong, healthy grower; continuous bloomer.

Duchess de Brabant, soft rose, large, full and fragrant; plant vigorous, free-blooming and healthy.

Gruss an Teplitz, rich, dazzling crimson, very sweet, produced in masses; plant strong, ever-blooming, flowers on long stems; fine.

Hermosa, exquisite deep pink, of fine shape; profuse-blooming and beautiful; one of our finest Roses.

Ivory, chaste, ivory-white; deep buds and superb large flowers on long, stiff stems; an exquisite sort.

Kaiserin Augusta Victoria, pure white, without tint, immense buds, and full, double flowers of surpassing beauty; free bloomer.

La Detroit, shell-pink shading to soft rose-pink at centre; massive flowers of handsome form, with a charming tea fragrance; vigorous and free-blooming; a splendid sort.

Malmaison, rich flesh-color; flowers of great size, full, double, and freely produced; fine either for beds or pots; old but choice rose.

Maréchal Niel, a climbing sort, with enormous golden-yellow buds and blooms of surpassing beauty and fragrance; does well South.

Meteor, velvety-crimson, large, full-double, beautiful in both bud and flower; stems robust, well set with rich foliage; splendid.

Marie Van Houtte, yellow shaded rose; extra large, double, of fine form and exquisitely fragrant; excellent for beds; hardly equalled.

Mme. D. Matrat, sulphur yellow; graceful buds and open flowers borne continuously throughout the season; a splendid new sort.

Mme. Abel Chatenay, pink, tinged salmon, petals gracefully recurved; a new, magnificent Rose.

Papa Gontier, dark carmine, fine large buds, lovely semi-double flower, showy; constant bloomer.

Pink La France, very large, rich pink, superbly scented flowers; unrivalled for pots or beds.

Sour. de Pierre Notting, rich shades of cream, orange and peach with petals edged carmine, harmoniously blended; a choice sort.

The Bride, pure white, sometimes tinged delicate flesh; beautiful.

Crimson Rambler, vivid crimson flowers, double; blooms in huge clusters; plants of climbing habit.

Reine Marie Henriette, rich crimson, handsome, full double, a choice climber, showy, beautiful.

Choice Hybrid Perpetual Roses.

Anna de Diesbach, clear brilliant rose; pointed buds; big fls.

Ball of Snow, delicate blush, changing to snow-white; double.

Clio, delicate satiny-pink; immense flowers of perfect form; a new sort.

Captain Christy, delicate pink, deeper color toward the centre.

Dunmore, glowing crimson; continuously blooming; double; dwarf.

Gen. Jacquemot, rich velvety-crimson; semi-double; popular.

John Hopper, bright, clear rose; large; fine form; on stiff stems.

Mrs. Jno. Laing, clear, bright shell-pink, exquisitely shaded.

Magna Charta, bright rose, suffused carmine; grand, popular sort.

Paul Neyron, bright, shining pink; an extraordinary variety.

Ulrich Bruner, bright, cherry-red; semi-double flowers; splendid.

Vick's Caprice, the only hardy striped rose; soft, satiny-pink.

All of the above Roses are well-grown and in fine condition. All are hardy, and cultural directions will accompany them. For large beds I can supply the plants by the hundred at special rates. I hope my patrons will let me have their liberal Rose orders, and the orders of Rose-loving friends. I believe they will be more than pleased accorded.

Address, George W. Park, LaPark, Lanc. Co., Pa.
