High Grade Packet and Bulk Seed

WE ORIGINATED THE

LARGE SEED PACKET

and ours are the only Genuine Mammoth Packets with Double Quantity of seed to packet. Do not be deceived by claims of others who seek your business.

TO THE TRADE:

We realize fully that **THE QUALITY COUNTS FOR MORE** in Seeds than in any other line of merchandise, and we do not need to tell you that cheap seeds, grown by irresponsible growers in a careless and haphazard manner, are never cheap seeds to buy, no matter at what price they can be procured. Such seeds are sure to be a disappointment to the one who uses them and an injury to the trade of the dealer who sells them. In no other line of goods is quality of so much importance as in Seeds, and in no other line does the purchase and sale have to be made so much on confidence as in this line. A farmer buys stock, or a piece of machinery, or almost anything else, and he has an opportunity to exercise his judgment, but when he buys seeds there is no such opportunity. He can test them for vitality, but it is impossible, without using the entire season from seed time to harvest, to test their purity and trueness to name.

MEL. L. WEBSTER CO.
SEEDSMEN. **Independence, Iowa**

This List is For Dealers Only

THE prices quoted in this list are strictly Wholesale Prices, and are for dealers who buy to sell again. The line of goods we put up and the varieties of seed we quote are those which are the most staple with the store trade. As we do not do a retail business, the new and high-priced novelties we leave for those seed companies who make a specialty of the retail catalogue trade.

Terms

All Garden Seeds for spring shipment, both bulk and packages, are sold on *June 1st* time, regardless of the time of shipment, and are due, net, without any discount at that date. All bills not paid by June 5th are subject to sight draft without notice. December shipments are due April 1st, net. We will not allow *Exchange or Express Charges* on remittance, and if *Personal Checks* are used, they must be drawn *With Exchange*. Onion Sets, Field Peas and Grass Seed are Net, 30-day goods.

Bags and Boxes

No charge made for Display Cases for package seeds; Bags, Boxes, Barrels and Baskets used for packing loose bulk seed, onion sets and field seed will be charged at cost; but we will try to pack all goods so that this necessary package charge will be as little of a hardship on our customers as possible, and will allow credit on Muslin Bags, if returned in good shape, free of express or freight charges. The Two-bushel Seamless Bags are a staple article, and can be disposed of at a profit over our price to you.

Orders by Mail

We especially solicit any business you may have to place by mail. For most of the trade who will receive this list there will be no place from which supplies can be secured in less time than they can if ordered of us, and the matter of time is a very important thing during the seed-selling season.

The Seed Crop in 1906

THE YEAR PAST has been, on the whole, a favorable one for the growing of seed crops, and while there has been no tremendous crop of anything that would cause a surplus, the returns have been sufficient to give the seed trade fair stocks that ought to command fair prices.

THE SHORT ITEM this year is Onion seed, this being the second bad crop on this staple. There is sure to be a very serious shortage. The Yellow and Red Globe sorts being the most short, prices are already way up, and as soon as there is really any demand, we look for very high prices along the whole list.

BEWARE OF CHEAP SEED. The high price is calling out some southern-grown stocks that in an ordinary year are grown only for the set trade. This seed will not give satisfaction, as it is badly mixed, being neither red nor yellow, and of little value, except for growing onion sets.

BEET SEED CROPS in Europe, where most of the stock comes from, were very short, and prices should be higher than they are. This item does not cut so much figure with our customers.

ONION SETS are a short crop, and the prices will be higher when the season for planting arrives. Order early, as our unsold stock is very limited.

To our old customers we would say that we have greatly appreciated your past favors, and it is with great satisfaction we see your orders coming in year after year. We hope the coming year may prove to be a very prosperous one, and that we may have many opportunities to be of service to you.

To any who have not tried our line of seeds we only can say "give us a trial." We are sure we can demonstrate to you that we have the *Best Line of Garden Seed* that is offered to the trade.

A NON-WARRANTY

We will exercise care to have all seed we sell true to name and of the **HIGHEST GRADE**, and if it is possible, test all seeds, that they may be sure of germination before they are sent out, but as there are so many outside conditions that even the germination of seeds depend on, it is impossible to warrant them, and it is expressly understood and agreed that they are not warranted in any respect, and we will not be responsible for the crop. If the seeds are not accepted on these terms, they must be returned at once.

Items Marked in Heavy Type are Most Desirable.

It is customary with most seedsmen to list quite a number of extra early sorts, such as First and Best, Early Kent, Philadelphia Extra Early, Dan O'Rourke and many others, with one of their own brand, all of which are usually taken from the same bin, and well they may be, for there is no difference in them. If your trade calls for any of these sorts I can mark them to suit you, but prefer not to deceive my trade by listing them separately.

BIRD SEED IN PACKAGES.

Webster's High Grade Bird Seed—This package contains one-half pound of mixed seeds of just the right varieties and proportions to constitute an appetizing and healthful bird food. This package is peculiar, from the fact that it is the only "NICKEL" package of "HIGH GRADE" Bird Seed in the market, and it is the only package containing granulated shell, so prepared as to supply both grit and carbonate of lime, which are needed for the health of the bird.

In lots of 500 or more we will print your ad on the gummed bags without additional charge. If ordered in less quantity we will have to send them plain, unless 25 cents extra accompanies the order to cover the cost of printing.

POTATOES.

Per Bu.

Early Ohio, Red River stock.....	\$.65
Extra Early Everett.....	.55

We do not make a specialty of Seed Potatoes. We grew these on our farm last year and would be glad to fill orders at these low prices while the stock lasts. The Extra Early Everetts are the best potatoes we have ever had experience with. They are almost as early as any; yield double what the Ohio will; are a fine table potato; excellent keeper. Color, white; shape, oblong, smooth.

Webster's Cabinet and Display Cases

This cut shows the different style of Cases we use on our Packet Seed. We recommend the old style Flat Packet Case, which

we furnish FREE with all orders large enough to require a case. But we have been asked by many for an Upright Display Case, and the one shown in cut, at right side, is as good as anything in that line offered by others. When used with a packet order, we are obliged to charge 50 cents extra for it, which only covers a part of its cost. If properly operated, this Cabinet should be a great help in disposing of the seed.

Webster's Mammoth Packet Seeds.

REDUCED IN PRICE

A FEW YEARS AGO we reduced the price of our Mammoth Double Quantity Packets to *\$1.50 Per Hundred* in lots of 400 packets or more, or a less quantity for *\$1.75 per hundred*. This was a big cut from the former price, *\$2.00*, and we made it only in expectation of larger orders, and our expectations were fully realized. From our old friends and customers we have had a larger share of their seed business, and to new trade the new price has been an inducement for their business that they could not resist. The High Grade of our seeds has been maintained, and we continue to put forth every effort possible to improve the quality of our stock, so that our patrons can depend on getting in Webster's Mammoth Packets not only a *Double Quantity of Seed*, but seeds that are of *The Highest Grade*.

THE ORIGINAL AND ONLY MAMMOTH PACKET

The great success attained by our Mammoth Packet has proven too great a temptation for some of our esteemed competitors, who never had an original idea, and as was to have been expected, we have imitators. "Be Not Deceived," but buy only the *Original Mammoth Packet*, which is the best selling line of Packet Seed on earth. Every packet contains *Double the Amount* of seed packed in the standard-sized package. As compared with the old commission plan, they pay the dealer *100 per cent greater profit*, and at the same time enables him to give his customers double quantity of seed for the money.

ONE PRICE ONLY

Our territory is so extended and the competition we meet so varied, the size of orders differing so much, that "One Price Only" is very hard to maintain, but we propose to live up to it and *will not accept any business at a less price than above quoted*. Small sorting up orders received during seed-selling season will be filled at price of original order.

WE have been to great expense procuring new designs of flowers and vegetables for our Packets and Labels, and can safely claim there is not another line of seeds on the market that is equal to ours in beauty and style of lithographing. Our cases, which we supply free with all orders, are finished in two coats of shellac, nicely labeled and very attractive.

LARGE PACKAGES

To meet the demand for a ten-cent package, we pack Peas, Beans and Corn in a *One-third Quart* pasteboard carton. This, while not double the size of the ten-cent packages put up by other seedsmen, is the largest ten-cent package put up by anyone. The best that has been done heretofore has been a one-half pint to retail for that money. We have increased the quantity of seed to packet fifty per cent. and have not increased the price. We also pack Turnip and Rutabaga in four ounce packages, which retail at 15 cents, or at same price bulk seed should be sold. Our package labels are of a new design, beautifully lithographed in colors, and make our large packages the most attractive and showy of anything in their line. These we put in three regular assortments as follows: Assortment A, 102 packages, cost \$5.50; Asst. B, 76 packages, cost \$4.25; and Asst. C, 60 packages, cost \$3.25; all packed in display cases without extra charge for case; also by the dozen as follows:

Peas and Beans, <i>one-third quart cartoons</i> , per dozen.....	\$.70
Pole Beans, <i>per dozen</i>	.80
Corn, <i>one-third quart cartoons</i> , per dozen.....	.40
Turnip and Rutabaga, <i>one-fourth pound cartoons</i> , per dozen....	.80

FLOWER SEEDS

Our Flower Seed Packets are *Double Quantity*, and there is nothing we sell where we give greater value for the money. We pack them in 50 and 100 size boxes, and sell them at \$2.00 per 100 packets, no charge for box. Our Flower Seed Box is neat and attractive, and when empty will make a valuable box for many purposes. It is worth one-fourth the amount we charge for the seeds.

Lawn Grass in Packages

Our one-pound package of High Grade Mixed Lawn Grass is a work of art; the quality of the grass seed is unsurpassed, being the right varieties and mixture to produce a most perfect lawn. The price, \$2 00 per dozen, equal to less than 17 cents per pound, is only about what a good lawn grass will cost in bulk. The package is marked to sell at 30 cents.

For convenience in ordering, you will find below a list of different combinations of our Packet Seed. If any of these suit your wants you can order by number, if not, we can furnish you anything from one dozen packets to a complete line.
