PRICE LIST

OF THE

Orange County Nursery and Land Company

(INCORPORATED)

FULLERTON, CAL.

ESTABLISHED 1889

TELEPHONE RED 151

E. S. RICHMAN, President.

NOTE—While we exercise the greatest care to have Trees and Plants true to label, and hold ourselves prepared, on proper proof, to replace any that may prove otherwise, we do not give a warrant, expressed or implied, and in case of error on our part, it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than was paid for them.

GREETING

Fullerton, Cal., November 1st., 1906

The Orange County Nurseries have this year advanced another step by incorporating into the Orange County Nursery and Land Co. with a capital stock of \$50,000.00 with their former proprietor, E. S. Richman, as President.

The business of the old firm had become so large that it was deemed best to enlarge the Company and interest a more varied talent in the growing and selling of Nursery Stock.

We are better prepared than ever to serve our customers and trust we shall be favored with your continued patronage.

To our eastern correspondents, and any others that may wish to purchase property for improvement or investment, we beg to announce that we have added the Real Estate business to our general nursery business and are in a position, not only to sell you property, but to advise you as to what it is best adapted.

We handle both acreage and city property in nearly all parts of Orange County.

ORANGE COUNTY NURSERY AND LAND COMPANY.

PRICE LIST
OF THE
ORANGE COUNTY NURSERY AND LAND COMPANY
FULLERTON, CALIFORNIA

TERMS AND CONDITIONS

First—Parties unknown to us must accompany their orders with cash or satisfactory reference.

Second—Special prices will be given on large specified orders.

Third—We pack in the best possible manner, either by covering with tules or in boxes, thus making a saving of one-third in freight charges. A nominal charge, to cover actual cost of packing, will be made.

Fourth—REMITTANCES. Remittances should be sent by postoffice order, express money order, or bank draft.

Sixth—In ordering, state whether substitution will be allowed or not. It frequently happens in the latter part of the season that we are out of certain varieties. If not specially requested not to substitute, we reserve the privilege of doing so, when it can be done without disadvantage to the purchaser. In fact, purchasers of stock for a home orchard or home grounds, if not specially conversant with varieties will do well to leave the entire selection to us, as we will send only such varieties as are suited to the locality.

Seventh—Cut flowers and all kinds of floral work by express. These orders must be accompanied by the cash. We guarantee satisfaction in all our floral work.

Eighth—We all make mistakes. We will cheerfully rectify any that are brought to our notice if complaint is promptly made.

Instructions to Planters.

Order your trees early. Those who order first will be served first. If you delay your order until late in the season, you may not get what you want.

Deciduous trees should be planted as soon as possible after the leaves have fallen, and the ground can be gotten into good condition.

Open the bundle or box as soon as received, and "heel in" in good, moist soil.

In planting, be sure and dig holes deep enough and large enough to admit all the roots without bending or crowding. Fill in around the roots with well pulverized surface soil, packing firmly, except on top.

If the condition of the soil is such as to require the use of water at the time of planting, if the ground cannot be irrigated, the water should be poured into the hole after it is partly filled with earth. Allow the water to soak away, and then fill in with loose earth without packing.

Those who desire further instructions in regard to planting and care of plants, we would recommend to purchase a copy of Prof. E. J. Wickson's book, "California Fruits and How to Grow Them."

How to Reach Our Nurseries.—Fullerton is on the Santa Fe Railroad. There are five passenger trains each day from the north via Los Angeles and five from the south via Orange.

The office, retail yards and ornamental department are located on West Commonwealth Ave., one-half mile west of the First National Bank.

Those contemplating making purchases will find it to their advantage to see our stock before buying.

Visitors are always welcome.

	Each	Per 10	Per 100	Per 1000
<p style="text-align: center;">NOTE</p> <p>Our stock of Fruit Trees is very fine, being well grown and clean stock. Three hundred or more trees of one variety go at 1000 rate; thirty or more at 100 rate; five or more at 10 rate; less than five of one variety at the single rate.</p> <p style="text-align: center;">—o—</p>

L I P P I A R E P E N S

This is a lawn covering material, forming a thick sward and takes much less water than grass or clover and stays green all the year. Is not hard to eradicate when desired, yet will withstand drouth and abuse better than Bermuda grass, the home-maker's pest.

The sod is cut into pieces two inches square and set in the lawn 12 to 18 inches apart and Lippia Repens does the rest. It has a small whitish flower and somewhat resembles white clover at a distance.

It is a verbenae, consequently easy to eradicate when desired.

It is sold in sods 18 by 18 inches and placed in shallow boxes for shipment. Price 75 cents per box. Special prices on large orders.

Crimson Winter Rhubarb

One of Luther Burbank's latest and best productions. It meets every demand both for home consumption and for market purposes.

It being a cross between one of the Australian varieties and the wild rhubarb of California it is peculiarly adapted to our Southern California climate. No home garden or market garden is complete without it.

Being in a growing condition twelve months in the year it fills a long felt want in the home and in the market.

Stocks are tender and stringless and of delicious flavor when cooked.

It is easy of culture, needing but little care; its returns are a hundred fold.

Our prices are so reasonable that the demands of all can be met.

Price 25 cents each, \$2.50 per dozen. Special price by the 100 and 1000.
