**WHOLESALE
PRICE LIST**

No. 41

1908

**The
Famous Sudduth Pear
Our Specialty**

**AUGUSTINE
& CO.**

**Nurserymen
NORMAL, ILL.**

Greeting and Announcement

In presenting our forty-first Annual Price List, we desire to thank our patrons for their liberal patronage in the past, and to assure all that, as heretofore, **QUALITY** with us is the first consideration. Our line of stock is very complete and with every facility to execute your orders carefully and well, we ask the pleasure of supplying your needs. While we are making a specialty of the **SUDDUTH PEAR**, we are, at the same time, giving attention to every department of horticulture if you are in need of anything not mentioned in this List, please correspond with us. We have not catalogued many new varieties, and will not, until we have thoroughly tested them and found them to be worthy of a place in horticulture.

GUARANTEE OF GENUINENESS—We exercise the greatest of care to have all stock pure and true to label, but in the press of the packing seasons errors sometimes occur, and we hold ourselves in readiness at all times to replace the stock that may prove untrue to label, or refund the money paid, when promptly notified, but it is mutually understood, and agreed, between ourselves and the purchaser, that our guarantee of genuineness shall in no case make us liable for any sum greater than that originally received for said trees or plants.

RESPONSIBILITY—Our responsibility extends only to those purchasing direct from us. We are employing no agents to sell general nursery stock, and dealers purchasing stock from us sell upon their own responsibility, even though they may be using our name and literature. We have agents selling our **SUDDUTH PEAR**, but every authorized **SUDDUTH PEAR** salesman carries a certificate of agency.

RATES—Prices herein given are subject to change without notice. Five will be furnished at 10 rate; fifty at 100 rates.

CLAIMS—For shortage, damage in transportation, or otherwise we must be notified at once in order that same may be adjusted while details are fresh in mind.

TERMS OF PAYMENT—Cash with order unless otherwise arranged. Remit by New York, Chicago or St. Louis draft; Post Office or Express Money Order, made payable to Augustine & Company Nursery, or by Registered Letter. Goods will be sent C. O. D. when 1-2 the amount is sent with the order.

SUBSTITUTING—Should the supply of a variety be exhausted (which will occasionally occur in all establishments, especially when the packing season is about over) it is our custom to substitute a sort, giving correct name, of equal or better value than the variety ordered, and when such is not in stock the number will be left unfilled and the money returned. It is mutually agreed, between ourselves and the purchaser, that when the words "No Substitution" is not written on the face of the order, permission to substitute is granted.

PACKING—At the prices quoted no charge will be made for packing, baling or boxing, nor for delivery to the Carriers at freight depots or express offices.

SHIPPING—After delivering goods to the forwarders in perfect condition our control ceases, also our responsibility. When explicit directions are not given as to route and manner in which goods are to be shipped we use our best judgment in selecting a route, but in no case will be responsible

for losses thereby. All risks, as well as transportation charges, belong to the purchaser. Small packages should be shipped by express. The Illinois Central, Chicago & Alton, Lake Erie & Western, and Big Four railroads radiating, as they do in ten different directions, and making direct connections with nearly every important trunk line in the country, afford the very best shipping facilities. Four pounds may be sent in a single package by mail. Add 8c per pound for postage where mail shipments are desired. We can ship by express to all points. The Spring packing season begins about March 1st, and continues through April, and into May. The fall season begins about October 1st, and continues until cold weather sets in. We can ship by express to Southern points any time during the winter months.

ORDERING—Order early by all means. There are many advantages to be gained by ordering early. Nothing is to be gained by ordering late, and then early orders find full stock. Please use order sheet. Write name plainly; give Post-Office, County and State, be particular to state how the goods are to be shipped, whether by mail, freight or express, and give route. Keep a copy of the Order and check off the Trees, plants, etc., when they arrive.

DISCOUNTS

10 per cent on all orders placed during February.

5 per cent on all orders placed during March.

Cash must accompany order for the full amount when discounts are allowed.

Of Great Value to the Planter, is the fact that we have our nurseries and surrounding grounds examined each year by the department of Entomology at Champaign and a certificate of health accompanies every shipment we make. No San Jose Scale or other injurious pest or disease has ever been discovered in our nurseries.

Yours very truly,

AUGUSTINE & CO. NURSERY

30 by 30 feet.....	48 trees or plants

Honest Goods at Honest Prices.

Our 40 years' experience in growing trees, plants and fruit is worth something to you.

THINK OF IT

During the last three years along 45 per cent of our orders were from people who had bought from us before, that means with the new purchasers, that we are holding practically all of our customers after their first order. Some of our customers have been with us for 25 years. We have pleased them and can please you.

We have in bearing orchards 18,000 trees of our own growing. We take the same medicine we recommend to others.

We will gladly offer suggestions as to methods of culture, varieties to plant, etc.

The habit of planting a few trees each year is a mighty good one.

The Sudduth Pear

The Original Sudduth Pear Tree is now 88 years old and although every one of the original limbs have been broken off by heavy loads of fruit and storms of late years, yet it promises to round out a Century of most Remarkable History.

Nearly a hundred years and never failed a single season to bear a good crop of fruit, often as high as eighty bushels.

Never a blighted branch.

As hardy as an Oak, and until broken as handsome in form and foliage as a Sugar Maple.

The Trunk of the Tree is more than 10 feet in circumference, and looks as clean and healthy as a ten year old tree.

The fruit is classed as medium in size, excellent in quality, and ripens from the middle to the latter part of October.

The fruit is almost seedless unless the blossoms are highly fertilized by other varieties of pear near by. There is no woody or gritty substance in the core but meat all the way through with no tough covering of the seeds, hence it is an excellent dessert fruit and without question the most valuable canning or preserving pear known, the peculiar formation of the fruit making it as easy to peel by machinery as an apple, with no core to remove.

The seed of the Original Sudduth Pear tree was brought from Xenia, Ohio, by Thos. Constant when he came west to Illinois, and was planted in the spring of 1820, before grafted fruits could be obtained. This seed was planted on Thos. Constant's farm that he entered from the Government, a year previous to the time Illinois was admitted to the Union as a State. 64 years ago 9 grafts were made of the Sudduth, and planted on nearby farms and later other grafts were made and planted, these grafts as well as the younger trees propagated of late years have all the characteristics of the Original Sudduth Pear Tree, in growth, hardiness, and fruit, as well as the habit of annual bearing and the entire freedom from Blight and Disease.

We first had our attention called to the Sudduth Pear about 20 years ago by Mr. Titus Sud-

duth, who owned the farm on which the Original tree stood, having purchased it from Judge Logan, Abraham Lincoln's law partner, in 1862. Mr. Sudduth had known the tree since 1835, and fearing that something would happen to destroy the tree got us to make some grafts from it.

The beautiful growth, hardiness and early bearing of these grafts was what first opened our eyes to its value. We then went down to Williams-ville, Sangamon Co., Illinois, to see the tree, and talked with all the old settlers in that vicinity, and came to the only conclusion possible, that The Sudduth Pear, though up to that time overlooked, was undoubtedly the most valuable and wonderful variety of fruit we had ever known. We immediately took steps to control all the wood of the then existing trees with the intention of propagating it, and determined to have the name trademarked and registered, also to send out each tree with this registered trademark in the form of a lead seal attached to every tree that went out. This was done to protect the public from unscrupulous tree men, who, we knew would soon sell Sudduth Pear without authority, and attempt to substitute an inferior or cheaper tree.

For prices see page 4.

Send for our 34 page illustrated History of the Sudduth Pear, the most interesting history of any fruit ever introduced. Free, for the asking.

None genuine without our lead seal attached by a copper wire.

AUGUSTINE & CO. NURSERY

NORMAL, ILLINOIS

Sudduth Pears

A branch of Sudduth Pears cut from a young tree on our grounds at Normal, Ill. One-fourth actual size. As true a copy as a photograph and printer's ink can make.

You will plant some Sudduth Pears some time, no question about it. Better "DO IT NOW."

Honest Stock at Honest Prices
