Purity and Fine Quality have made Schindler's Garden Seeds Famous.

Davis Perfect Cucumber.

Our Seeds are "True to Name" and of Best Germinating Quality. Try them.

We are pleased to offer this year the finest strain of Cucumber ever produced — the "Davis Perfect." It grows as well under glass as in open ground. It is an ideal Cucumber for the truck-farmer and shipper, as it holds its dark glossy, green color and brittleness long after being cut. It averages in length from ten to fifteen inches. It is nearly as early as the earliest White Spine, but is much heavier in yield than any other variety. It is a shy seeder, and what few seeds it has are very soft when the Cucumber is fit for table use, making it exceptionally fine for eating. As a forcing cucumber the "Davis Perfect" has no equal. Its symmetrical shape, excellent eating qualities, color and productiveness place it on the market without a rival.

To obtain the best results for forcing under glass the plants should be placed about five (5) feet apart, as it is a very vigorous grower and if planted too close together will not do as well. Hundreds of bushels of the out-of-door grown product were shipped to Northern Markets during the past season and were sold for hothouse Cucumbers at an enormous profit to the growers; as they so closely resembled the hothouse product, that experts had difficulty in telling the difference.

It is a strong grower and is therefore able to resist the Cucumber disease which destroys many of the best forcing varieties. We heartily recommend its trial by all "Cuke" growers, and confidently predict it will become the leading variety on future markets, as its fine qualities become known. Truck-farmers and gardeners are urged to get in on the "ground floor." We carry the genuine seed, having secured it from Mr. Davis, himself, the original grower. Price, 25c. per oz.; 60c. per lb. per lb \$1.75.

N. B. This Cucumber has been tried on a large scale by some of the leading growers in this section; both in hot beds and out door culture and has proven all that is claimed for it.

We are prepared to fill all orders from the smallest mail packet to seed by the car load.

We exercise great care in the selection of our stock, as no seedsmen can hope to succeed unless he supplies the planter with the best seeds the market affords.

HAMMOND'S SLUG SHOT.**SLUG SHOT KILLS BUGS.**—(EITHER DUSTED OR SPRAYED.)**SLUG SHOT KILLS THE POTATO BUG OR SOW BUG**—(OR ROLLER)

It is a fine insecticide; if used in a dry state for destroying fleas, lice and caterpillars of all kinds on Cabbage plants, Turnips, Lettuce, and all other vegetable plants attacked by insects. It also destroys potato bugs and grub worms. On all garden plants dust the Slug Shot lightly and thoroughly; for vine crops, put more on the ground, around the stems, than on the leaves for Melons, Squash and Cucumbers. Apply in the morning when the dew is on the plants or dust after a rain; in case of dry weather, give the plants a good watering in the evening and then dust the Slug Shot.

Price, 5 lbs. pkge. 30c. Prices for larger quantities given upon application. We also have **Dusters** for distributing Slug Shot Powder with very finely perforated bottoms, insures economical distribution. Half Gallon size, price 35 cents. One Gallon size, price 50 cents.

TOBACCO DUST.

This is one of the best and cheapest insect destroyers known. It is also a good fertilizer. If you are troubled with *cabbage* flies and lice also fleas and lice on cucumbers, melons and tomatoes use Tobacco Dust and you will get rid of them in a few applications. It also acts as a fertilizer, as it contains a good percentage of potash and ammonia. Price per package, 10 lbs. 40c.; 50 lbs. \$1.25; per 100 lb sack, \$2.00.

RAFFIA.

This is the best material for tying plants of all kinds to stakes, as it is not apt to rot as quickly as twine; it is splendid for tying bunches of vegetables of all kinds for market. Price 30c. per lb.
