C. S. Harrison's Select Nursery

YORK, NEBRASKA.

FOR SPRING OF 1908.

Please order early. Stock cannot do so well when planted late.

Terms. Cash with order. Please don't send personal checks. Have stock sent by express if possible. We have the lowest rates with express companies.

As to Guarantee.

Our reputation depends on our accuracy. Yet, with over 1,000 varieties, it is possible that mistakes will occur. **WE WILL NOT BE RESPONSIBLE FOR DAMAGES**, but will gladly replace as soon as errors are known.

We have one of the finest collections of Ornamentals, Evergreens, Peonies and Perennials in all the west.

New Things of Great Merit.

NORWAY POPLAR. The sudden saw log. We cut this fall fair sized fence posts from four-year-old trees. Last summer some spring-set cuttings made 8 to 9 feet.

THE NIOBE RUSSIAN GOLDEN WEEPING WILLOW. The hardiest and most beautiful of all the pendulous willows. Just the thing for the lawn or to line the banks of streams or ponds.

THE FLOWERING ASH. When in bloom has great masses of miniature easter lilies. One of the most beautiful of ornamental trees.

SIBERIAN ROSA RUGOSA. The hardiest of all the roses, with

charming foliage and immense single flowers which continue in bloom a long time. Invaluable, planted alone or in hedges.

Prof. Hansen's 3rd generation of selected sand cherries. These should be planted on poor ground, where they usually yield enormous burdens of good fruit.

SUNBEAM RASPBERRY. Produced by Hansen from North Dakota, wild red raspberry and Shafer's Colossal. The hardiest and most prolific raspberry we ever saw growing in Nebraska.

STRAWBERRY RASPBERRY. Worthless on deep, rich soil. Must be planted on the poorest land. Foliage very ornamental. Bears enormous crops of large scarlet berries in Minnesota; continues a long time in bearing when other berries are gone. Very large, scarlet fruit, good for jams and jellies.

DAKOTA NO. 2 STRAWBERRY, which stands 40 below zero without mulching. This is one of Prof. Hansen's triumphs. Prolific bearer; berries under size, but very fine.

SIBERIAN HIPPOPHEA, or Buffalo Berry, bears the most amazing burden of fruit we ever saw on shrub or tree, branches often breaking down with great masses of golden berries. These remain on the bushes till December, a sort of winter currant; in quality much like our buffalo berry so highly prized for preserves, jams and jellies. It is a marvel. Hardy in the extreme north. As they are male and female, you must get a dozen plants. Try a few and get a start for a hedge around garden or farm.

Remember this Nursery is carried on in connection with the Nebraska Experiment Station. We are getting the newest and best things all the time, and originating valuable flowers of great merit onrselfes, which will soon be on the market. We have one of the finest collections of Peonies on earth, and are all the while originating new ones. Also a superb assortment of Phloxes, and scores of new creations of our own. We keep fifty kinds of Irises—the rainbow flowers, many of them of resplendent beauty, besides thousands of the hardiest Perennials well adapted to the west and northwest. Every year we expect to put new things of great value on our list. Send for descriptive price lists—peonies and perennials.

PRICE LIST

Fruits.

	1	10	100
Apples, leading hardy sorts, 5 to 6 feet	.25	2.00	15.00

For Hedges

We have Silver Tamarisk, five kinds of Honey-suckles, Multiflora, Rubra and Rosa Rugosa Roses, all fine for hedges. Write for prices.

Climbers

Mad. Edourd Andre, crimson Clematis	.50		
Paniculata and Henryi, white Clematis	.50		
Jackmani, purple Clematis	.50		
Graveolen's, yellow Clematis	.50		
Fragrant Halleana, Belgian, Chinese	.25	2.00	15.00
Fragrant Honeysuckles	.25		
French Golden	.25		
Bignonia Trumpet Vine, 3 kinds, each	.25		
Virginia Creeper	.20	1.50	
Ampelopsis Engelmannii, climber and clinger	.50		
Small size	.25		
American Wistaria	.25		

Roses

Mail order roses are a delusion and a snare. You lose time and waste money. When you get roses get good strong ones, and pay a fair price for them.

Multiflora and Rubra Single Roses, overwhelmed with a flood of bloom	.25
Rosea Rugosa, immense and continuous single bloomer	.25

Same, Siberian type, hardiest rose on earth, beautiful foliage	.50	
Smaller size	15 to	.25 1.50
Hybrid, perpetual roses, leading kinds		.50 4.00

Lilacs

We make a specialty of these, keeping fifty kinds, putting twenty on the market. Ordinary lilacs do not always bloom; they come too early. We have quite a number of summer bloomers that cannot fail; also the famous tree lilacs of China and Japan. They are trees, not shrubs, growing nearly as fast and large as our native ash. We have some 9 years old, 4 inches through and 15 to 18 feet tall. These are covered with fragrant, snowy white blooms in June.

Heavy Tree Lilacs, 10 to 14 feet tall	2.00	15.00
7 to 9 feet tall	1.00	
Choice kinds, single and double, each	.50	4.00
Five extra fine sorts, one a tree lilac	1.50	
Ten kinds, each different, carefully labeled	3.00	
Twenty kinds, fair size, each different	6.00	

These collections give a fine diversity of form, flower and foliage, and also lengthens the time of blooming, reaching till last of June.

Evergreens.

For thirty-five years we have been growing evergreens in the trying climate of the west. We have solved the problem. No reason why any of our northwestern or western states should not have fine groves and forests of these trees. Those buying \$2 worth, or more, can have the book, "Evergreens and How to Grow Them," the most complete work on the subject ever published.

Picea Pungens, Colorado Blue Spruce. These will lose their color somewhat in the spring.

4 to 5 feet	3.00	
3 feet	1.50	
24 to 30 inches	1.00	7.50
12 to 18 inches	.50	

Picea Pungens, green color, many of which will turn to silver, about half price.

Black Hills Spruce, very fine and Symmetrical.

3 to 4 feet	1.00	7.50
24 to 30 inches	.50	
18 to 24 inches	.35	3.00
10 to 12 inches	.25	1.50

Concolor, the most hardy and beautiful Fir, 4 ft. 1.50

Same, 3 feet, balled and baled 1.00 | |

Same, 24 to 30 inches75 | |

Irish Junipers are worthless. They winter kill.

Swedish Juniper, hardy for the west, 2 feet..... .75

Very beautiful, 18 to 24 inches .50

Austrian Pine, one of the best for the west.

4 to 5 feet, balled and baled..... 1.00 7.50 50.00

Phlox Manual. Teaches how to create new sorts .25

Complete Peony Manual. Only one in any lan-

guage25

By Mail, Prepaid.

Stock set down at your own door. Send stamps, postoffice orders or bills; 5-cent stamps preferred; any size will do. NO PERSONAL CHECKS. Of course we cannot send quite as

large plants and cuttings by mail, but they will be good.

Peonies by mail at the price of single ones. See

Peony List.

Four peonies, white, red, pink and crimson, 1.00

We keep Fifty kinds of Trises.

6 choice, named Irises	\$1.00
12 choice, mixed Phloxes, no especial colors guaranteed	1.00
12 finest, and all named sorts	3.00
12 Platycodons, Chinese Bell Flowers, hardy and fine	1.00
12 choice mixed Columbines	1.00
12 Pyrethums, Painted Daisies	1.00
6 Shasta Daisies, or 6 Delphiniums	1.00
3 Hansen's Sunbeam Raspberries	1.00
12 Strawberry Raspberries (we paid \$5)	.50
6 Day Lillies, or 6 Hemerocalis Lillies	1.00

Cuttings, by Mail.

These are kept with the greatest care, and are packed in moss and oil paper, and will reach you in good order. If a little dry, put them in water and bury in moist earth.

100 cuttings of Niobe Willow or Norway Poplar	\$2.00
100 Spirea Oppulifolia, or Spirea Van Houtii	1.00
100 cuttings of Tree Honeysuckle for hedges	1.00
100 cuttings of Syringus or Philadelphus	1.00
25 Norways, 25 Niobe Willows, 25 Royal Willows, satiny sil- very leaves, 25 Golden Privet	2.00
25 of any of the above	.50

Plant Cuttings as early as possible, in good, rich, mellow ground, press the earth close to them, leave the tops well out, and cultivate well, especially the first year. If well handled, cuttings of the above will grow nearly as well as rooted plants, and the saving in expense is quite an item. Remember Irises multiply rapidly. We have separated 32 from one root in two years.
