SEEDS

FOR

GARDEN, LAWN
AND FARM

Willis S. Pino

41 WASHINGTON ST. COR EDDY
PROVIDENCE, R. I.

Park Lawn Grass Mixture

In our lawn mixture we use only the highest quality, extra clean seed, and free from weed seeds which abound in inferior grades. We use only the choicest low growing grasses, and a lawn produced from our seed will maintain a rich, dark, velvety appearance and a permanent sod.

*1-2 lb., 20c.; 1 lb., 35c.; 2 lbs., 60c.; 100 lbs., \$25.00
1 lb. will sow 600 square feet*

Shady Nook Grass Mixture

A special mixture of grasses adapted to growing under trees and in shaded places where it is quite difficult to produce a satisfactory growth, 1 quart 30c.; 1-2 peck \$1.00; 1 peck \$1.75.

THE PREPARATION AND CARE OF A LAWN

The ground must first be thoroughly prepared by draining, if necessary, and spade or plow to the depth of 6 to 12 inches, according to the nature of the soil, applying a liberal quantity of well decomposed manure, bone meal or pulverized sheep manure, the latter we recommend as being lasting in effect, not liable to burn the grass and free from weeds. Clean the ground thoroughly and rake perfectly smooth and level, as much of the success depends upon this part of the preparation. The seed should be sown on a calm day, that it may be applied evenly and at the rate of sixty-four pounds per acre, or one pound is sufficient for 600 square feet. After the seed is sown the ground should be rolled with a light roller or evenly tamped with the back of a spade. The plat should be mowed every ten days from May until September, using a sharp scythe in preference to a mower until a close turf is formed. Frequent mowing and rolling is necessary to maintain a close even turf. April and September are the best months for sowing lawn seed.

Willis S. Pino
Seedsman

41 Washington, corner Eddy Street, Providence, R. I.

In presenting my catalogue for the coming season, I wish to thank my many friends for their liberal patronage in the past, and to solicit their favors for the future.

SELECTION OF STOCK. My connection with the seed trade for more than twenty-five years should have eminently fitted me to secure stocks that will prove satisfactory to the most critical trade, as I have been able to demonstrate to those who have trusted me with their seed orders.

LOCATION OF STORE. My store will be found on the northwest corner of Washington and Eddy streets, one block from Dorrance or Westminster streets, and within a short distance of the Union Railroad Station.

SEEDS BY MAIL. For the benefit of out-of-town buyers, I pay postage on all seeds ordered in packets, ounces and one-fourth pounds. Add for prepayment of postage on large quantities at the rate of eight cents per pound. Peas and Beans fifteen cents per quart. Corn ten cents per quart.

EARLY ORDERS are always advisable, as the stock of many varieties is liable to be exhausted early and many times good stocks are not obtainable later.

PACKING AND DELIVERY. I make no charge for boxes and packing and deliver all goods free within the city limits. Seamless bags are charged fifteen cents and small cloth bags ten cents each.

While the greatest care is exercised to have all seeds pure and reliable, I do not give any warranty, expressed or implied. If the purchaser does not accept the seeds on these terms and conditions, they must be returned at once, and the money that has been paid for same will be refunded.

Willis S. Pino

VEGETABLE SEEDS

All Vegetable Seeds except Peas, Beans, Corn and those otherwise mentioned are put up in 5c. packages. We Send Free by Mail all vegetable seeds in packages, ounces and one-fourth pounds; larger quantities, add postage at 8c. per pound. Peas and Beans, 15c. per quart. Corn, 10c. per quart.

ARTICHOKE

Sow seed in hot bed early in spring in rows six inches apart, transplant into boxes or pots. Plant in open ground after danger of frost is passed two by three feet between plants. Rich, sandy loam is best adapted. Seed may be sown in open ground in May and protected until cold weather is past and will head the second year

Large Globe or Paris, pkt. 10c.; oz. 35c.

ASPARAGUS

One ounce to 40 feet of drill

Sow the seed in spring in drills 15 inches apart; the following spring transplant to permanent beds. Plant for private use in rows 6 inches apart and allow 12 inches in the rows, covering the roots 6 inches. For market on a large scale set 4 by 2 feet

	Oz.	¼lb.	lb.
Conover's Colossal	10	20	50
Pametto	10	25	75
Barr's Mammoth	10	25	75

BEANS, DWARF OR BUSH

One quart to 100 feet of drill

For succession bush beans should be planted at intervals of two weeks from May until August. Make drills two feet apart and two inches deep.

Qt. ½pk.
Stringless Green Pod Extra early, stringless, round pod. Very prolific and excellent quality 25 75

Extra Early Red Valentine An excellent round, green podded sort. 25 75

Early Yellow Six Weeks A popular flat podded variety 25 75

Dwarf Horticultural An excellent shell bean. 25 75

Goddard, or Boston Favorite Larger than the preceding variety. A popular market variety. 25 75

Low's Champion Recommended as a string or shell bean. 25 75

Improved Golden Wax A favorite yellow podded variety; pods flat. 30 1 00

Pencil Pod Black Wax Pods round, bright yellow and entirely stringless. The best dwarf black wax variety. 30 1 00

Round Pod Kidney Wax Pods long, entirely stringless. Very prolific. Excellent quality. 30 1 00

Wardwell's Kidney Wax A popular variety with wide flat pods. 30 1 00

Hodson Wax Late, large pods and enormous yield. Never rusts or blights. 30 1 00

Dreer's Bush Lima A dwarf form of the Dreer's or Potato Lima. 35 1 25

Henderson's Bush Lima Earlier than the Burpee, but a smaller bean. 35 1 25

Burpee's Bush Lima The best variety of Bush Lima. Beans equal in size to the large white pole Lima. 35 1 25

BEANS, POLE OR RUNNING

One quart to 150 hills

The planting of pole beans should be delayed a week or more after the planting of the early dwarf sorts. Make hills about 3 feet apart and 1 to 2 inches deep, and plant 5 or 6 seeds in each hill; thin to 3 plants in each hill when well established. Lima should not be planted until weather becomes warm and settled. Flat beans should be placed in the soil edgewise, eye down

Qt. ½pk.
Horticultural Pole A very prolific shell bean 30 1 00
Brockton Longer podded than above, dark color, fine cropper. 35 1 25

Kentucky Wonder An excellent variety, entirely stringless, round pod. 30 1 00

Golden Cluster Wax A yellow podded variety of fine quality. 40 1 50

Scarlet Runner Highly ornamental; also used as a table bean. 35 1 25

White Runner Similar to above except color of flowers. 35 1 25

Large White Lima (Extra Size) The standard pole Lima. Quality excellent. 35 1 25

Dreer's Improved Lima A short, thick bean, often called Potato Lima. 35 1 25

Sevia, or Small Lima An excellent bean, earlier and more hardy than large Limas. 30 1 00

English Broad Windsor The standard English bean. 35 1 25

BEET

One ounce to 50 feet of drill; 5 to 6 pounds per acre

Sow early as ground can be worked in the spring, and for succession follow every two weeks until July. For main crop sow last of May. Light sandy loam well enriched with stable manure is best adapted and should be plowed and harrowed until very fine. Make drills one foot apart, and when well up thin to four or five inches in the row

Extra Early Egyptian A very early flat blood red sort. Popular for first planting and forcing. 10 20 50

	Oz.	¼lb.	lb.
Crosby's Egyptian An improved strain of Egyptian Beet. Rich dark red, crisp and tender. An excellent early sort	10	25	60
Eclipse Globe shaped, extremely early and excellent quality	10	20	50
Detroit Dark Red Very tender and sweet; skin dark blood red; flesh bright red; fine round shape. Excellent for main crop	10	25	60
Edmand's Blood Turnip Highly recommendable for main crop; uniform in size, very dark flesh and excellent quality	10	20	50
Dewing's Blood Turnip A standard main crop variety of excellent shape and color	10	20	50
Long Smooth Blood Deep, blood red, excellent quality	10	20	50
Swiss Chard (Spinach Beet) Produces leaves only; which are used as greens. The quality is far superior if given a high cultivation	10	20	50

SUGAR BEETS and MANGEL WURZEL

Sow in May or June; 5 to 8 pounds per acre

	¼lb.	lb.
Norbitan's Giant A long red variety adapted to deep soil	15	35
Mammoth Long Red A standard sort	15	35
Yellow Globe Adapted to shallow soil	15	35
Golden Tankard A yellow variety, formed mostly above ground; easily pulled	15	35
Vilmorin's White Sugar The best sugar beet for stock feeding	15	35

BROCCOLI

One ounce will produce about 3000 plants

Closely resembles Cauliflower, but more hardy and sure heading. Sow seed in May and plant out in June in rows two feet apart each way.

	Pkt.	oz.
Purple Cape Heads purplish white and of large size	10	30

BRUSSELS SPROUTS

One ounce will produce about 3000 plants

The seed should be sown about the middle of May in a seed bed, and the plants afterwards set in rows two feet or more apart and cultivated like Cabbage. This vegetable does not require extremely high cultivation. It is ready for use late in autumn, after the early frosts.

	Oz.	¼lb.	lb.
Dwarf Improved Compact in growth and of excellent quality	25	65	

BORECOLE, or KALE

One ounce will produce about 3000 plants

Sow in beds early in spring and transplant in June; treating in same manner as Cabbage.

	Oz.	¼lb.	lb.
Dwarf Green Curled Scotch Very dwarf and spreading, the best variety	10	25	75
Siberian (Dwarf German Greens or Sprouts). Usually sown in September, to use the following spring	10	25	75

CAULIFLOWER

One ounce will produce about 1000 plants

Cultivate as directed for cabbage. In dry weather water liberally. Cauliflower likes a cool moist situation.

	Pkt.	oz.
Early Dwarf Erfurt Very earliest dwarf variety.	20	2 00
Early Snowball A very popular early variety; for family use or market gardeners	20	2 00
Early Paris Medium size and sure heading variety.	10	75

CABBAGE

One ounce will produce about 1500 plants

For early use sow the seed in hot beds in February or March, or may be sown about the middle of September, and the plants wintered over in cold frames. Transplant in spring, as soon as the ground can be worked in rows 2 feet apart, and the plants 18 inches apart in the rows. For late or winter use, the seed should be sown in May and the plants set out in July 2½ by 3 feet.

OUR CABBAGE SEEDS ARE ALL THE BEST AMERICAN GROWN

	Oz.	¼lb.	lb.
Early Jersey Wakefield The best early sort, medium size, pyramidal shape, with rounded peak.	25	75	2 50
Charleston, or Large Wakefield Much larger than the above but not as early	25	75	2 50
All Head, Early The largest heading second early sort. Heads flat and very solid	25	75	2 50
All Seasons A superior variety for second early and late; early as Early Summer and larger.	25	75	2 50
Henderson's Early Summer The leading early drumhead variety	25	75	2 50
Hollander, or Danish Ball Head Excellent winter sort, heads very solid	25	75	2 50
Warren Stone Mason An improved Stone Mason, earlier, deeper and more solid	25	75	2 50
Large Late American Drumhead An excellent late sort, sure heading and splendid quality.	20	50	1 50
Premium Flat Dutch The standard main crop variety	20	50	1 50
American Drumhead Savoy Improved The finest Savoy variety, finely curled, large and solid.	25	60	2 00
Early Ulm Savoy The earliest and sweetest savoy.	25	60	2 00
Mammoth Rock Red Large size, very solid.	25	60	2 00

CHERVIL

	Oz.	¼lb.
Curled Chervil An aromatic sweet herb. The young leaves are used in soups and salads. Sow thinly in May in drills half an inch deep, one foot apart.	10	30

CARROT

One ounce to 100 feet of drill; four pounds per acre

For early crop sow as soon as the ground can be worked; they may be sown as late as the middle of June. The drills should be one inch deep and one foot apart, thinning out to three or four inches between the plants. Carrots do best in a deeply tilled, sandy loam. Oz. $\frac{1}{4}$ lb. lb.

Early Scarlet Horn A favorite sort; for early summer use . . . 10 25 80

Early French Forcing The earliest variety grown; small, tender. Fine quality . . . 10 25 80

Danvers Half Long Rich deep orange color; excellent quality; roots taper to a point. A very heavy cropper (select stock) . . . 10 25 85

Guerande, or Ox Heart Stump-rooted; one of the most valuable varieties, either for family use or market; fine flavor and color; very productive . . . 10 25 80

St. Valery An excellent variety for private gardens. Grows from ten to twelve inches long . . . 10 25 80

Improved Long Orange Large variety; used for main crop . . . 10 25 75

Chantenay A stump rooted variety having a large shoulder; very productive . . . 10 25 75

White Belgian Large white root; extensively grown for stock feeding . . . 10 20 50

CELERY

One ounce will produce about 1500 plants

Seeds may be sown in the open ground in April. Sow about half an inch deep and firmly press the soil over the seed. After the seed is up, keep care-

fully clear of weeds until the time of planting, in June or July. After the ground has been well prepared, plant in rows from three to four feet apart, according to the variety, setting the plants about six inches apart and pressing the soil firmly about the roots. The soil best suited for celery is a rich, moist loam.

White Plume Excellent for early use; naturally white, requires little blanching . . . 25 75 2 50

Golden Self-blanching True stock. Similar to above except that the stalks are a beautiful golden yellow. Our stock of this celery is endorsed by the leading market gardeners of this section. Package, 10 cents . . . 40 1 50 5 00

Winter Queen Robust growth, medium height. An excellent keeper and desirable for winter storing. Package, 10c. 30 75

Pink Plume A pink variety of the self-blanching type . . . 25 75 2 50

Giant Pascal An excellent late sort, easily blanched and a good keeper . . . 20 60 2 00

Boston Market A dwarf branching variety . . . 20 60 2 00

Celeriac, or Turnip Rooted Grown exclusively for the roots . . . 25 75 2 50

Soup Celery For flavoring . . . 05 10 30

CORN, SWEET

One quart to 200 hills; one peck per acre

Plant in hills three feet apart each way, and five to six kernels in a hill. Hoe often and draw soil up to the stem. Make ground rich with well rotted manure. For succession plantings should be made at intervals from May to July.

CHOICE CONNECTICUT GROWN

Price, all varieties, qt., 30c.; 2 qts., 55c.; 4 qts., \$1.00; 1 peck, \$1.75. Except where noted

Early Cory Early, good sized ears and large grains

White Cory Like the above; white cob and kernel

Golden Bantam Extremely hardy allowing earlier planting than other varieties. Superior rich flavor qt., 40c.

Perry's Hybrid Very early and large size

Crosby's Early Matures after Cory; excellent quality

Potter's Excelsior, or Squantum Very sweet and tender, one of the finest for main crop

Hickox Improved A very fine second early sort

Moore's Concord Medium early, large ears and strong growth

Stowell's Evergreen One of the most popular varieties for main crop; qt., 40c.; $\frac{1}{2}$ pk., \$1.25

Black Mexican Very sweet and superior quality.
Bearsfoot A very desirable late variety.
Late Mammoth Large ears, rich and sweet. Qt., 40c.; $\frac{1}{2}$ pk., \$1.25.
Egyptian Large and of superior quality.
Country Gentleman The sweetest and most tender of all varieties. Qt., 40c.; $\frac{1}{2}$ pk., \$1.25.

FIELD AND FODDER CORN

	Pk.	bu.
Early Yellow Canada Very early; eight rowed.	60	2 00
Longfellow Ears average 12 to 15 inches in length.	60	2 00
Sanford Ears large and small cob, white kernel.	60	2 00
Red Cob Ensilage Sweet, tender and juicy, producing abundance of foliage	50	1 75
Improved Leaming Ears large and handsome, deep grain, small cob	50	1 75
Sweet Fodder For cutting green for stock (Short crop)		

CORN SALAD OR FETTICUS

Used as a salad. Is sown in early spring, in rows a foot apart, and is fit for use in six or eight weeks from the time of sowing.

	Oz.	$\frac{1}{4}$ lb.	lb.
Large Leaved	10	25	75

CRESS OR PEPPER GRASS

A well-known pungent salad; cover very slightly, sow at frequent intervals to keep up a succession; to be used before the flowers appear.

Extra Curled Very fine; may be cut two or three times 10 20 50
Upland Hardy perennial; adapted to any soil, wet or dry. A very rapid grower and ready for use very early in spring; pkt., 10c.; oz., 75c.

Water Cress Hardy perennial aquatic plant, 40 1 25 4 00

CUCUMBER

One ounce to 50 hills; 2 lbs. per acre.

Cucumbers succeed best in warm, rich, sandy loam. Plant when all danger of frost is past, in hills about four feet apart each way, the hills should be previously prepared by mixing thoroughly with the soil of each a shovelful of well rotted manure; sow for pickling from the middle of June to the middle of July. Price, except where noted, oz., 10c.; $\frac{1}{4}$ lb., 30c.; lb., \$1.00.

Improved White Spine One of the best varieties for table use

White Spine Forcing A special strain for cultivation under glass. Fruit grows very even in size; color, dark green 30 1 00 4 00

Early Russian The earliest in cultivation; small and productive.

Early Cluster Length about 5 inches; tender and productive.

Boston Pickling True stock; the best variety for pickling.

Green Prolific Excellent for summer use and for pickling. Oz. $\frac{1}{4}$ lb. lb.

Improved Long Green Ten to twelve inches in length; dark green.

West India Gherkin Small, oval shaped, for pickling 15 50

Everbearing Small sized, very early, and enormously productive.

Japanese Climber Can be grown either as an ordinary ridge cucumber or as a climber 15 50

English Frame Telegraph For growing in hot beds. Pkt., 25c.

DANDELION

One ounce will sow 100 feet of drill; two pounds to one acre.

Sow in May or June in drills a foot apart, press the earth firmly over the seed, cultivate during summer, cover lightly with straw during winter, and the following spring the leaves will be fit to cut. The roots when dried and roasted are often employed as a substitute for coffee.

Improved Broad Leaved Pkt., 10c.; oz., 35c.; $\frac{1}{4}$ lb., \$1.50; lb., \$5.00.

EGG PLANT

One ounce will produce about 1000 plants.

The seed should be sown in hot beds the first week in April. Plant out about June first, about two and a half feet apart. The Egg Plant will thrive well in any good garden soil.

Black Beauty Fully ten days earlier than Imp. New York, remarkably healthy growth and large fruit. pkt., 10c.; oz., 60c.

Improved New York Spineless Quite free from spines, fruit of large size, and perfect form; two weeks earlier than the old variety. Pkt., 10c.; oz., 60c.

ENDIVE

One ounce will sow 150 feet of drill.

Sow in drills one foot apart, thin out to ten inches apart, blanch when the leaves are about nine inches long, by drawing them together and tying them carefully.

Green Curled Very hardy, leaves dark green, tender 15 40 1 50

French Moss Curled Very finely curled variety, 15 40 1 50

Batavian Broad-leaved. Leaves long and broad, chiefly used in soups 15 40 1 50

KOHL RABI

The seeds of this plant may be sown at the same period as the Swedish or Rutabaga Turnip, and may be cultivated in the same way, remembering to leave the chief part of the stems uncovered by the earth. The bulbs may be kept sound and nutritious until late in the spring, even later than those of Turnips.

Early White Vienna The best variety, 20 60 2 00

Early Purple Vienna Later than the white. 20 60 2 00

LEEK

One ounce will sow 100 feet of drill.

The Leek is very hardy and easily cultivated. Sow in April in drills one foot apart, and transplant in July into rows fifteen inches apart, and six inches from each other in the rows. The soil should be rich but not fresh manured.

Large American Flag The kind mostly grown for Market 20 50 1 50

Musselburgh Grows to very large size. 20 50 1 50

LETTUCE

One ounce will sow 100 square feet or 120 feet of drill

The earliest sowing may be made in February or March under glass, with slight heat. For later supplies, sow in the open ground, as the season will permit, thin out well and set in rows two feet apart, and a foot between the plants. Lettuce requires good ground and abundant moisture

Oz. ¼lb. 1b.

Boston Forcing	A small, compact, very early heading sort	20	60
May King	Extremely early. For out of door or glass culture.	20	60
Boston Market	Fine for cold frames or open ground	15	40 1 25
Black-Seeded Tennisball	Heads close and hard	15	40 1 25
Improved Salamander	Heads compact and resist the summer heat well	20	50 1 50
Hanson	Large Heads, solid; an excellent summer variety	15	40 1 25
Big Boston	Fine for cold frames or out doors; Heads large and solid	20	50 1 50
Curled Silesia	A favorite for the home garden	15	40 1 25
Early Curled Simpson	Very popular for out-door culture	15	40 1 25
Boston Curled	Fine frilled leaves; crisp and tender.	15	40 1 25
Black-Seeded Simpson	Excellent for forcing or out-door culture	20	50 1 50
All the Year Round	A popular summer sort	20	50 1 50
White Summer Cabbage	Excellent for out-door	20	50 1 50
Crisp as Ice	Medium Size, solid head; one of the best bronze leaved sorts	20	50 1 50
Tomhannock	Upright growth; crisp and tender; brown edged	15	40 1 25
Self-folding Cos	Should be sown early and tied up to blanch	20	50 1 50

MUSTARD

One ounce to 80 feet of drill

Sow in shallow drills a foot apart. The young leaves are used for salads and the seeds for flavoring.

White	Best for Salads	05	10	20
Brown	More pungent in flavor than the white	05	10	20

MELON—MUSK

One ounce to 80 hills; 2 to 3 pounds per acre

Prepare hills four to five feet apart each way; mix well with the soil in each hill a couple of shovelfuls of thoroughly rotted manure. When the weather has become warm plant from 12 to 15 seeds in each hill; afterwards thin out, leaving four good plants.

Oz. ¼lb. 1b.

Emerald Gem	Early, small; flesh deep orange; very sweet	20	50	1 75
Extra Early Hackensack	Earlier than Hackensack and not quite as large	10	30	1 00
Early Christina	Very choice; flesh yellow; early; one of the best	10	30	1 00

Golden Netted Gem	One of the earliest, best and most prolific small melons	10	30	1 00
Jenny Lind	Flesh light green; small but very early	10	30	1 00
Nutmeg	Fruit oval, very early; exceedingly sweet	10	30	1 00
Miller's Cream	Skin very thin, dark green; flesh salmon and excellent flavor	10	30	1 00
White Japan	Very early and prolific, medium size; flesh green; thick and very sweet	10	30	1 00

MELON—WATER

One ounce to 30 hills; 4 to 5 pounds per acre

Plant in hills as directed for Musk Melons, and treat in all respects the same except that the hills should be about 8 feet apart. Price, all varieties, oz., 10c.; ¼lb., 20c.; 1b., 60c.

Cole's Early	Medium size; flesh bright red; excellent quality.
Phinney's Early	Very early and sweet; flesh deep red.
Kleckley's Sweet	Vines vigorous and productive; flesh bright red and exceedingly sweet.
Hungarian Honey	Very early, nearly round, dark green skin, brilliant red flesh.
Mountain Sweet	One of the best; color dark green.
Black Spanish	Large; very dark green; flesh deep red; sugary.
Citron	For preserves only.
Cuban Queen	Large variety; flesh bright scarlet, crisp and sweet.
White Gem	Perfectly round, almost white skin, bright red flesh.

MUSHROOMS

Mushrooms may be grown in a warm cellar or shed in winter, or in the open air in summer. Take partially dry fresh horse manure and lay it in a heap to ferment; turn and mix it well every few days, and when well and equally fermented, which will be in from ten to fifteen days, it may be made into a bed four feet wide and about two feet deep, mixing it well together and beating or treading it firmly. As soon as the temperature of the bed falls from 75 to 50 degrees, the spawn may be inserted, in pieces about the size of a walnut, about two inches deep and six inches apart. Cover with loamy soil about two inches deep and beat it down evenly and firmly. Finish off with a covering of clean straw or hay about a foot thick. Water when necessary with luke-warm water, and expect mushrooms in from four to six weeks.

Best English Mill Track per brick, 15cts.

NASTURTIUM

The seeds while young and succulent are pickled and used as capers. Sow the seeds in drills one inch deep, the tall grown by the side of a fence, or supported by a trellis.

	Oz.	¼lb.	lb.
Tall Mixed	10	30	\$1 00
Dwarf Mixed	10	30	1 00

OKRA OR GUMBO

One ounce to 75 hills

Sow early in May, in drills two inches deep, setting the plants from two to three feet apart.

Dwarf Green The very best variety for general cultivation 10 30 1 00

ONIONS

One ounce will sow 100 feet of drill; 6 lbs. per acre

A rather strong, deep, rich, loamy soil is considered most suitable for onion culture. Prepare ground the previous autumn by plowing or spading deeply and applying a heavy coat of well-rotted barn-yard manure. Sow seed early in spring in shallow drills one foot apart, covering with fine soil, and press down by the use of a light roller or the back of a spade. Thin plants to 4 inches and keep free from weeds.

Our Onion Seed is all Eastern grown

Yellow Globe Danvers True Buxton type. A standard sort, deep globe shape, large size, mild flavor and a good keeper 25 75 2 50

Large Red Weathersfield One of the most productive and longest keeping sort. Large size, flat purplish red color 25 75 2 50

Southport Yellow Globe Larger than Globe Danvers, excellent quality 25 75 2 50

Southport Red Globe Very early, globe shape, bright red color, excellent keeper . 25 75 2 75

Southport White Globe Large, globe shape, mild flavor and firm; a good keeper. Always command a high price in market 35 1 25 4 00

White Portugal Excellent for family use, and recommendable for pickling 30 1 00 3 00

Prizetaker Globe shape, very large size, extremely mild flavored; is most satisfactory when sown early in hot bed and transplanted 25 75 2 50

The Queen Rapid growth, mild flavored and a good keeper 20 60 2 25

ONION SETS

(Prices variable)

Hamburg Rooted Fleshy vegetable root for soups, etc.	10	25	75
---	----	----	----

PARSNIPS

One ounce will sow 200 feet of drill; 5 lbs. per acre

Sow as early as possible, half an inch deep, and press the soil firmly over the seed; succeeds best in a rich, sandy loam.

Hollow-Crown, or Long-Smooth

The standard sort for general use 10 20 50

PEAS

One quart will plant about 100 feet of drill. One and one-half bushels per acre

Plant the extra early smooth varieties soon as the ground can be worked; and the wrinkled sorts soon as the ground becomes warm. Make rows for dwarf varieties two and one-half feet apart and for tall sorts three feet apart. Qt. ½pk.

Gradus A variety rivaling the first earlies in earliness, but producing pods and peas equal to the large marrow sorts. Unexcelled in quality and flavor 35 \$1 25

Thomas Laxton Resembles the Gradus in size of pod but of darker color and considered a better cropper 35 1 25

New York Market Very early and productive. A general favorite among the market gardeners; robust in growth and withstands drouth well; height, 2½ feet 25 65

Improved Daniel O'Rourke A standard extra early sort; height, 2½ feet 25 65

Alaska or Earliest of All The earliest pea in cultivation; matures nearly its entire crop at one picking; height, 2½ feet 25 65

American Wonder One of the earliest wrinkled peas, dwarf and robust in growth, pods long and well filled; height, 10 to 12 inches 30 1 00

Qt. ½pk.

Nott's Excelsior An excellent dwarf wrinkled pea robust and vigorous in growth. Peas and pods large; quality and productiveness unexcelled.

New Dwarf Champion A sort with all the merits of the Champion of England, height, 26 inches matures little after Little Gem 30 1 00

McLean's Advancer A standard variety of excellent quality 25 75

Telephone A very popular variety, height, 3½ feet. Pods 5 to 7 inches long, containing 8 to 12 peas of unequalled flavor 30 1 00

Stratagem Improved Pods large size and well filled; quality excellent; height 2 feet . . 30 1 00

Everbearing A branching and everbearing sort. Height, 3 feet; pods long, well filled . . . 25 75

Champion of England A standard tall growing sort; productive and good quality 25 75

Black-Eyed Marrowfat Hardy and productive; an old standard, height, 4 feet 20 50

Dwarf Sugar Edible, pods can be used like a string bean 30

PEPPER

One ounce will produce about 2000 plants

Sow the seed in March or April in a hot bed, and transplant to the open ground as soon as the weather is quite warm, in rows about 20 inches apart and 15 inches apart in the rows. A warm sandy loam is best. Price all varieties, oz., 25c.; ¼lb., 75c.; lb., \$2.50.

Sweet Mountain Large size, regular, handsome shape, mild flavor, very early.

Large Bell A standard sort, large size, mild flavor, Squash Medium size, productive.

Ruby King Very mild, fruits 4 to 6 inches long; excellent for stuffing, a very popular sort.

Long Red Cayenne Bright red, slender pods, very pungent.

Red Cherry For pickling; cherry shaped.

Chilli Very small, red, very pungent.

POTATOES

All the leading varieties, choice Maine grown stock at lowest market prices.

PUMPKIN

Pumpkins are now principally cultivated for agricultural purposes. They are usually planted in fields of corn or potatoes, but may be profitably raised in fields by themselves. Sow first of May, in hills eight feet apart.

Oz. ¼lb. lb.

Yellow Sugar Very sweet; an excellent table sort, 10 20 60

Connecticut Field For feeding stock . 05 15 40

Large Cheese Flat, one of the best varieties for family use 10 20 60

RADISH

One ounce will sow 100 feet of drill

Radishes require a light, rich, sandy soil. For an early supply sow in a hot bed in February, care being taken to give plenty of ventilation. For a successive supply, sow from the middle of March until September, at intervals of two or three weeks.

We carry but one grade; the best

	Oz.	¼lb.	lb.
Early Scarlet Globe For forcing in greenhouses, hot beds and cold frames or open-ground sowing, this is one of the very best. Globe shaped, fine scarlet color, crisp, mild and tender. Small tops. The market gardeners' favorite.	10	25	75
Price of the following varieties.	10	20	60
Early Scarlet Turnip A standard variety for market or family use			
French Breakfast Olive shaped, bright scarlet, white tipped. A favorite sort			
Long Scarlet Short Top Long, smooth, crisp and tender			
Scarlet Turnip White Tipped Very early, excellent quality			
Wood's Early Frame Long, red, crisp, good for forcing or out door			
White Giant Stuttgart Top shape, white skin and flesh, summer variety but does not become pithy until late and can be stored for winter.			
Olive Shaped Scarlet Firm, crisp, good flavor			
White Strasburg A favorite summer variety			
White Turnip A favorite summer variety			
Long Black Spanish An excellent winter sort			
Round Black Spanish A winter variety			
Rose China Winter Scarlet, white tipped, excellent quality			

SPINACH

One ounce to 100 feet of drill

- For summer use, sow early in March, in drills fifteen inches apart, and for succession at intervals of a fortnight. For winter use sow late in August. The soil should be heavily manured and deeply trenched.
- Giant Thick Leaved** The best for spring or fall sowing. 05 10 30
- Victoria** Leaves large, thick, dark green. A favorite for spring or fall sowing. 05 10 30
- Long Standing** Excellent for spring sowing. 05 10 30
- Prickly** The hardest sort, generally used for fall sowing. 05 10 30
- Bloomdale** Savoy leaved, for sowing in the fall for early spring use. 05 10 30
- New Zealand** Entirely distinct variety, produces a large quantity of leaves; for summer use. 10 30 90

SALSIFY OR OYSTER PLANT

One ounce to 50 feet of drill

The Salsify has a long white, tapering root, resembling a small parsnip; when properly cooked it has the flavor of an oyster, and is a good substitute. Sow early in drills 15 inches apart; cover the seeds an inch and a half deep

	Oz.	¼lb.	lb.
Long White The standard sort	10	30	1 00
Sandwich Island Grows to a large size; very mild flavor	15	50	1 50

SQUASH

Bush sorts, one oz. to 50 hills; lbs. per acre

Running sorts, one oz. to 16 hills: 4 lbs. per acre

The Squash is a very tender vegetable, sensitive of cold and cannot in our climate be planted before the middle of May. Plant in rich soil, in hills prepared similar to those for Cucumbers. All sorts thinned to not over three plants to a hill.

Giant Summer Crookneck Larger than the ordinary summer crookneck	10	25	80
White Bush Scallop Early; a good market sort	10	25	80

Yellow Bush Scallop Yellow flat, scalloped edge	10	25	80
American Turban A favorite late variety	10	25	80
Boston Marrow A good keeping winter sort	10	25	80
Early Prolific Marrow The earliest and most productive; fall or early winter variety	10	25	80
Golden Bronze Dark grayish green skin; bright yellow flesh; fine grained	10	25	80
Hubbard The standard winter squash	10	25	80
Chicago Warded Hubbard A popular selection of the well-known Hubbard, having dark green warded shell. Large size and excellent quality	10	25	80
Golden Hubbard Similar to the standard sort except in color	10	25	80
Delicious Medium size, thick, bright yellow flesh; excellent flavor	15	40	1 20
Essex Hybrid A fine fall variety	10	30	1 00
Mammoth Chilli Enormous size, orange yellow color	15	35	1 25
Winter Crookneck A favorite winter sort	10	25	80

TOMATO

One ounce will produce about 2000 plants

The seed should be sown in a hot bed about the first week in March, in drills five inches apart and half an inch deep. When the plants are about two inches high set out in boxes, three inches deep, four inches apart, in another hot bed or pot singly. If transplanted a second time will be stocky and branching. When the weather has become mild, transplant into warm, light, rich soil four feet apart.

Price except where noted, oz., 25c.; $\frac{1}{4}$ lb., 75c.; lb., \$2.50

Earliana The earliest large red tomato. A favorite among market gardeners

Chalk's Early Jewel Medium early, bright scarlet, ripening up to the stem without cracks or green core

Acme Very early, smooth, color purplish pink

Matchless The best; large fruited, bright red tomato

Beauty Large, smooth, early, dark purplish pink

Favorite Large, smooth, productive. A good shipper

Trophy A standard late variety

Perfection Early, regular and productive, reddish scarlet

Livingston's Globe Large purple fruit, excellent quality, pkt., 10c.; oz., 40c.

Dwarf Champion A distinct variety; robust, short jointed; fruit early, medium size, crimson color

Stone A remarkable main crop variety. Smooth, solid and very little seed capacity, very productive and quality is unexcelled

Dwarf Stone The largest fruited of the dwarf sort. Color, bright scarlet

Ponderosa The largest variety in cultivation. Oz., 40c.; $\frac{1}{4}$ lb., \$1.25

Golden Queen A large, smooth yellow variety

Strawberry (Husk) A favorite preserving sort

TOBACCO

One ounce will produce plants for one acre

Sow broadcast in hot beds or in open ground soon as ground can be worked. Keep free from weeds and water freely in dry weather. Set out about June 1st three feet apart on highly manured ground

	Pkt.	oz.
Connecticut Seed Leaf	10	30
Havana	10	40

TURNIP

Ounce will sow 150 feet of drill; one pound per acre in drills; 2 to 3 pounds broadcast

For summer use, sow early in the spring in drills and thin out to eight inches. For fall and winter, sow from July to September. Rutabagas should be sown in June or early in July, in drills eighteen inches apart; thin out when large enough, six to nine inches apart in drill, according to size

	Oz.	$\frac{1}{4}$ lb.	lb.
Extra Early Purple Top Milan The earliest Turnip.			
White, flat, medium size	10	25	75
Red Top Strap Leaf A popular quick growing sort	10	20	40
White Egg Rapid growth, pure white, egg shaped, fine grained	10	20	50
Golden Ball Medium size and excellent quality	10	20	50
Cow Horn Flesh white, fine grained, a good table sort	10	20	50
Budlong White Rock Much smoother than the old type, white flesh, mild and sweet	10	20	60
Twentieth Century Rock Fully three weeks earlier than the Budlong. Excellent quality, and a remarkable keeper	10	25	75
Sweet German Flesh white, sweet and mild flavored	10	20	60
Improved American Yellow flesh, excellent quality	10	20	60

Rape, Dwarf Essex A prolific foliage plant for sheep pasture. Sow 5 pounds to the acre in drills. Per lb., 15 cents; 100 lbs., \$6.00

Grass Seeds

Prices may Change as the Season Advances

Rhode Island Bent One of the best grasses for lawns in adapting itself to almost any soil, dry, moist or sandy. Valuable for permanent pastures. Per lb., 30c.
Kentucky Blue (*Poa Pratensis*) A superior grass for pastures and lawns. Succeeds well in all soils and stands dry weather well. Per lb., 30c.
Orchard Grass (*Dactylis Glomerata*) One of the earliest grasses and very hardy. Should be sown with Red Clover, as it blossoms about the same time. It is very productive and makes excellent hay. Grows well in shady woodlands, but do not use it for lawns. Per lb., 25c.
Timothy (*Phleum Pratense*) A variety well known and highly appreciated. Produces large hay crops if grown on moist clayey soil. Market price.
Red Top (*Agrostis Vulgaris*) A hardy perennial grass, succeeding best on moist land. Used extensively in all pasture mixtures, remaining green the greater part of the year. Recleaned, per lb., 20c.
Sweet Vernal (*Anthoxanthum Odoratum*) A perennial grass used in pasture mixtures. Per lb. 50c.
Tall Meadow Oat Grass (*Avena Elatior*) An early grass much relished by cattle, and produces an abundant supply of foliage. It is hardy and valuable for pasture. Per lb., 30c.
Hard Fescue (*Festuca Duriuscula*) One of the best dwarf grasses; excellent for dry soil. Hardy and withstands long periods of drought. Per lb., 20c.
Meadow Fescue (*Festuca Pratensis*) A valuable grass for permanent pastures. Very productive and nutritious. Per lb., 20c.

Crested Dog's Tail (*Cynosurus Cristatus*) An excellent grass for hilly situations and shady parts of lawns, thriving best on rich, moist land. Per lb., 45c.
Rough Stalked Meadow Grass (*Poa Trivialis*) produces an abundant crop of highly nutritious herbage. Grows well on rich, moist lands and sheltered situations. Per lb., 35c.
Sheep's Fescue (*Festuca Orina*) An excellent grass for sheep pasture. Perfectly hardy, dwarf, compact growth. Per lb., 20c.
Fine Leaved Fescue (*Festuca Ovina Tennifolia*) Adapted to dry soils. Per lb., 40c.
Red Fescue (*Festuca Rubra*) Suitable for sandy soils and at the seashore. Per lb., 30c.
Meadow Foxtail (*Alopecurus Pratensis*) One of the earliest and best pasture grasses; grows rapidly when cut or eaten down by stock. Should only be sown with other grasses. Per lb., 35c.
Creeping Bent (*Agrostis Stolonifera*) One of the best lawn grasses; succeeds well in deep soils. Per lb., 30c.
Wood Meadow Grass (*Poa Memoralis*) Chiefly used for shaded positions in lawns and woodland parks, where other grasses will not grow. Per lb., 55c.
English Rye Grass (*Lolium Perenne*) A very nutritious, rapid growing grass. Valuable for meadows and pastures. Per lb., 12c.

CLOVERS

Alfalfa (*Lucerne*) Requires a deep, rich soil, and in such will produce several crops every season; one of the best green fodder plants; 10 to 15 lbs. to the acre. Per lb., 20c.
Alsike Clover (*Trifolium Hybridum*) Resembles in growth, duration, etc., the Red Clover; thrives well in cold, wet and stiff soils; 10 lbs. to the acre. Per lb., 25c.
Medium Red Clover (*Trifolium Pratense*) Is

a perennial, but of very few years' duration; is considered the most nutritious of all species and most valuable in moist locations. Market prices.
White Clover (*Trifolium Repens*) Valuable for lawns and pastures. Per lb., 30c.
Crimson Clover (*Trifolium Incarnatum*) Sown at the last of summer or early autumn; it furnishes a very early green fodder; excellent for soiling; 20 lbs. to the acre. Per lb., 15c.

MILLETS

German, or Golden Millet Medium early; height 3 to 5 feet; heads closely condensed; spikes very numerous; seeds round, golden yellow, in rough bristly sheaths. Per bushel (50 lbs.), \$1.75.

Hungarian Millet (*Panicum Germanicum*) One of the most valuable annual soiling plants. It will grow in any ordinary soil, withstands drought well,

and in this latitude may be sown as late as the first day of July, and produces a large green crop; 1½ bushels to the acre. Per bushel (48 lbs.) \$1.75

Japanese A new millet. Very productive if sown early and cut; usually produces a good second crop. Has produced six tons dry hay per acre. Sow one bushel to the acre. Per lb., 8c.; per 100 lbs., \$7.00

FLOWER SEEDS

Our stock of flower seeds has been selected to supply the wants of a critical florists' trade and our customers may be sure of receiving nothing but seeds of the finest quality.

All flower seeds in packages, ounces and one-fourth pound mailed free at prices; larger quantities, add eight cents per pound. Pkt.

STOCKS

Pkt.

Stocks German, ten weeks. Splendid for bedding or pot culture, free blooming and covering a wide range of color

- Large Flowering** Pure White, Blood Red, Flesh Color, Rose, Canary Yellow, Purple, Lavender. Finest mixed, each 10
- Snowflake** Dwarf, pure white, splendid for pots 15
- Princess Alice** (Cut and Come Again) Pure white, perpetual flowering 10

SWEET PEAS

Fragrant climbing annuals. Seeds should be sown early in spring to enable the vines to get a good strong growth before the warm weather. Make trenches six inches deep, in which the seed should be sown, covering them two inches. As soon as the plants show through, fill in the trench, which will secure a deep root and allow blooming through the heat of summer. Keep the flowers picked off as fast as they come into full bloom, for if the pods are allowed to form, the plants will stop blooming.

Pino's Perfection Mixture

Our own mixture of the latest and most approved varieties. 10 25 75

Sweet Pea Collection One package each; fifteen distinct named varieties, 50c. One ounce each fifteen varieties, \$1.00

Fine Mixed Good standard sorts . . . 05 15 40

Wild Flower Garden Mixture

These mixed flower seeds embrace more than a hundred varieties of such easy growing and pretty flowers as are suitable for forming a wild flower garden. They are very useful for woodland walks, roadsides, alongside of fences and on untidy bare spots, and which if properly cared for and kept free from weeds, can be made to produce a continual display of bloom during the summer. Pkt. 10 cents.

Summer Flowering Bulbs

CALADIUM—Esculentum This is one of the most beautiful and striking of the ornamental foliage plants, for growing in pots or for planting on the lawn, or masses in beds. It is of the easiest culture, and will grow in any good garden soil.

Dry Bulbs 10c. each, 75c. per doz.; medium, 15c. each, \$1.25 per doz.; large, 20c. each; \$2.00 per doz.

Caladium—Fancy Leaved Decorative foliage plants for pots. Baskets, tropical bedding, etc. 15c. each; \$1.50 doz.

Calla Spotted leaved. Desirable for out door planting. Requires a moist situation. 10c. each; \$1.00 doz.

Crinum Kirkii Enormous lily like flowers, fragrant, white with dark red stripes. 35c. each.

Tuberous Rooted Begonias Begonias are indispensable for shady places in the garden or lawn also desirable for pots or piazza boxes. Start in the house in March or April and remove to the open soon as danger of frost is past. They will bloom freely from July until cut down by the frost. Dry tubers may also be planted in the open ground in May. Care should be taken to keep constantly moist.

Single White, yellow, rose, scarlet, crimson, orange. Price extra fine bulbs, 10c. each; 75c. doz.

Double White, yellow, rose, scarlet, crimson, orange. Price extra fine bulbs, 10c. each; \$1.00 doz.

GLADIOLUS

GLOXINIAS Should be grown in pots in the house or on the veranda, in boxes or little frames outside, and will flower all summer. Their green leaves are surmounted with a cluster of lovely trumpet shaped flowers. The coloring is exquisite; the groundwork of many is pure white, with throats of blue, scarlet, rose or crimson; or the tubes are of bright colors with white throat. The bulbs should

be started in a warm place—greenhouse, hot bed, or sunny window. Early in the fall they should be dried off, letting the leaves die; the pots can be kept over winter in a cellar free from frost. Price, extra strong bulbs, named varieties, 10c. each; doz., \$1.00.

Hyacinthus Candicans (Summer Hyacinth) Excellent for clumps or among shrubbery. 5c. each; 35c. doz.

Madeira Vine A rapid growing vine with fragrant white flowers. 5c. each; 40c. doz.

GLADIOLUS Bulbs planted in open ground in spring produce plants with long rush-like foliage and magnificent flower spike early the following autumn.

Groff's Hybrids A strain of recent introduction and without doubt the most popular strain in cultivation. Awarded certificates of merit by all the leading horticultural societies

GROFF'S SILVER TROPHY STRAIN Comprising the best of Groff's New Hybrid Seedlings divided in three color selections Doz. 100

Pino's Special Mixture Composed of only fine varieties comprising an excellent variety of colorings and all strictly first size bulbs. Doz. 25c.; per 200, \$1.75

LILIUM AURATUM (The Golden-Rayed Lily of Japan). The flowers are pure white, thickly studded with crimson spots, while through the centre of each petal runs a clear golden band. Flowers measure nearly a foot across. First size bulbs, 20c. each; \$2.00 per dozen

Elegans, or Thunbergianum Early flowering, ranging in height from 14 inches to 4 feet; flowers cup-shaped, borne upright, and of a great variety of colors. Mixed bulbs, each 15c.; doz., \$1.25

Tigrinum Splendens (Improved Tiger Lily) Reddish salmon with dark spots. Each 10c.; doz., \$1.00

Tigrinum Flore Pleno (Double Tiger Lily). Each 10c.; doz., \$1.00

SPECIOSUM VARIETIES They are hardy, needing very little protection, and will grow and flower without special treatment

Album This is a pure white and very fragrant variety, with beautifully recurved petals. A very fine sort. Each 20c.; doz., \$2.00

Rubrum White ground, with bands and spots of rose or crimson on each petal. One of the best lilies. We have a splendid stock of this very hardy and beautiful kind. Each, 15c.; doz., \$1.50

TUBEROSES In this latitude May 1st is ample time to plant in the open ground, but the bulbs can be started in pots much earlier if desired. Select a warm soil and a sunny spot. The soil should be rich, but no especial preparation is necessary. Place the bulb so the top will be covered about one inch with soil

Excelsior Pearl Extra fine large flowering bulbs. 5c. each; 35c. per doz.; \$1.75 per 100. Add 10c. per doz. if sent by mail.

We import large Quantities of FALL BULBS and handle strictly first quality.
Our Annual Bulb Catalogue will be issued September 1st. Send for it

OXALIS These summer flowering bulbs should be planted out early in May, about two inches deep. Mixed colors, 20c. doz.

MONTBRETIA Hardy, summer flowering, bulbous plants, with brightly colored flowers, borne in long spikes. Varieties, 50c. doz.

CANNAS 10c. each; 75c. per dozen

Wistaria, Chinese Purple The finest of climbing plants; purple flowers. Each, 50c. to \$1.00

Chinese White Similar, but with white flowers. Each, 50c. to \$1.00

English Ivy 2 years, 25c.

Myrtle 15c. each; \$1.50 doz.

CLEMATIS

A most beautiful class of hardy, free-flowering climbers. Plants of our importation, strong and finely rooted.

Paniculata This lovely white variety, with its thousands of fleecy, small, star-like flowers, is one of the finest climbing plants known. It bears so profusely and in such dense but airy clusters that the whole plant appears as one mass of bloom, with dark shining foliage enough only to give effect to its beauty. It is deliciously fragrant, is a very rapid climber, flowers freely the first year, and is perfectly hardy. Flowering plants, each, 25c.; doz., \$2.50. Extra large plants, each 50c.; doz., \$5.00

Jackmanni One of the best; fine, rich purple. Each, 75c.

Miss Bateman Pure white; creamy band down each petal, 75c.

\$1.00 per dozen

Beder Wood (S), Bubach No. 5 (P), Clyde (S), Gaudy Prize (S), Glen Mary (S), Haverland (P), Jessie (S), Marshall (S), Nick Ohmer (S), Sample (P).

Fertilizers

Sheep Manure Pulverized This is a pure natural manure, and the most nutritious food for plants. It is excellent as a top dressing for lawns. There is nothing better for mixing with the soil for greenhouse plants; one part manure and six parts soil. For use in the vegetable garden, placed directly in hills or drills, it promotes a rapid and steady growth. It makes the richest, safest and quickest liquid manure. One pound to five gallons of water; 2 lb. package, 15c.; 5 lbs., 25c.; 10 lbs., 40c.; 100 lbs., \$2.00

Unleached Hardwood Ashes As a fertilizer for lawns, gardens and fruits, Hardwood Ashes are unequalled; they are not a mere stimulant, but supply natural plant food, permanently enriching the soil. Clean, free from offensive odor, and can be applied by any one. They are exceedingly valuable for lawns, imparting a rich, dark shade of green and destroying many of the insects which are so injurious. Price 100 lbs. \$1.25; per barrel, \$2.00

Mitchell's Special High Grade Fertilizer Contains all the necessary elements of plant food, in the most obtainable form to meet the wants of all plants in all periods of their growth. Guaranteed to contain ammonia, 4½ per cent.; phosphoric acid, 9 to 11 per cent.; actual potash, 6 to 7 per cent. Per 100 lbs., \$2.25; 50 lbs., \$1.35

Hubbard's Oats and Top Dressing The famous Hay Maker. Made on a Bone Basis. Analysis, nitrogen 8½ to 9½ per cent.; equal to ammonia 10¼ to 11½ per cent.; phosphoric acid 8 to 9 per cent.; potash 8 to 9½ per cent. Price on application

Land Plaster. Used for preventing bugs from destroying cucumber, melon and squash vines. Price package, 25c.; per bag, 90c.

Bowker's Food for Flowers A dressing made expressly for plants grown in the house, garden or conservatory. Clean, odorless, and producing early and abundant blossoms, and healthy, luxuriant plants. Small packages, enough for thirty plants for three months, 15c. each. Large package, 25c.

Bowker's Lawn and Garden Dressing Prepared from chemicals free from weed seed, clean, to handle and easily applied. Per 100 lbs. \$3.00; 25 lbs. \$1.00; 10 lbs. 50c.; pkg. 10c.

Pure Ground Bone Meal This finely pulverized ground bone is excellent for rose culture, top dressing for lawns and for potted plants, 5 lb package, 20c.; 10 lbs., 35c.; 50 lbs., \$1.00; 100 lbs., \$1.75

Nitrate of Soda This is valuable solely for the nitrogen it contains, equal to 20 per cent. of ammonia. Being extremely soluble it should not be applied until the plants are above ground, when 100 to 500 pounds per acre, mixed with wood ashes or land plaster, for convenience in applying, are generally used. 5 lbs., 30c.; 10 lbs., 50c.; 100 lbs., \$3.75

Insecticides

Aphis Punk A special preparation of nicotine, for the extermination of green and black fly, thrip, etc. Not injurious to delicate plants. Per package, 12 rolls, 60c.

Bordeaux Mixture For all fungoid diseases, such as mildew and various rots of grapes, etc. Prepare by adding one gallon of mixture to 49 gallons of water. 1 gal. can, \$1.00; 1 qt., 40c.

Bug Death A non-poisonous powder that takes the place of Paris Green and other dangerous insect

powders. When used as directed it is sure death to potato, squash and cucumber bugs, currant and tomato worms, etc. It is applied dry and will not blow or wash off. 1 lb., 15c.; 3 lbs., 35c.; 5 lbs., 50c.; 12½ lbs., \$1.00

Floricum (Lime, Sulphur and Salt.) This preparation is scientifically prepared and is widely recommended and known as the best preparation for San Jose's scale, oyster shell scale, etc. Apply fall and spring while leaves are off. One application is not

INSECTICIDES—Continued

sufficient as many of the scales get under the rough bark and are difficult to reach. Ready for use by adding 16 to 20 gallons water to each gallon of mixture. Qt., 40c.; 1 gallon, \$1.00.

Death to Lice (Lambert's) An effective remedy for all kinds of poultry vermin. Package 25 and 50 cents.

Fir Tree Oil One of the most reliable for red spider, green fly, mealy bug, caterpillars, slugs, blight, etc. Dilute with water and apply with ordinary syringe or bellows, or by dipping the plants. Per pt., 75c.; qt., \$1.15; gal., \$4.00.

Grape Dust A preparation to kill the destructive mildew that strikes the grape vine; also for like use upon any other plants or trees affected with mold, mildew, or rust mites, either in greenhouses or the open air. 5 lb. packet, 30c.

Hellebore Powdered White Hellebore for rose slugs, currant worms, etc. Dust on with gun or bellows while the foliage is moist. ½ lb., 15c.; 1 lb., 25c.

Kerosene Emulsion For aphids on all plants. Ready for use by simply adding water. Quart, 40c.; gallon cans, \$1.00.

Nikoteen Is the cheapest, cleanest and most effective of insecticides, and will not injure or discolor delicate plants. It is composed of that element in tobacco which gives it its value as an insecticide and nothing else. Bottle, \$1.50.

Paris Green Superior quality. Lb., 35c.

Persian Insect Powder Effective against almost all kinds of insects. ½ lb. 25c.; 1 lb., 40c.

Rose Leaf Tobacco Extract Highly concentrated extract of tobacco, recommended for use in greenhouses for destroying insects and scales on plants. Gallon can, \$1.25; 5 gallon can \$5.00.

Scalecide The latest and best spray for San Jose scale. A mechanical preparation of petroleum oil that instantly mixes with cold water. One gallon of Scalecide to 20 gallons of water sprayed on your trees and bushes will kill every scale that it reaches without injury to tree or fruit bud if applied in late

fall, winter or early spring while the foliage is off. Price, qt., 40c.; 1 gallon can, \$1.00; 10 gallon can, \$6.00; 50 gallon barrel, \$25.00.

Slug Shot Destroys all insects injurious to house and garden plants, vegetables and fruits of all kinds. Equals Paris Green when used liberally, without the danger from poison. Price, 5 lb. package, 25c.

Sulphur, Flowers of A staple preventive for mildew on grapes, roses, etc. Lb., 10c.; 10 lb., 50c.

Tobacco Soap Makes an excellent wash for plants and trees infested with green fly, lice and eggs of insects. Dissolve 2 oz. in gallon of water. Pkt. 20c.

Tobacco Dust If dusted on while the foliage is moist it destroys rose lice, cabbage and turnip fleas, etc. Spread upon the ground, it keeps off earth insects, and acts as a fertilizer. Per lb., 10c.; 2 lbs. 15c.; 5 lbs., 30c.; 100 lbs., \$3.50.

Tobacco Stems for Fumigating Price on application.

Weedicide Will keep walks, drives, croquet grounds and tennis courts free from weeds and grass of all descriptions. One gallon sufficient to make 20 gallons, \$1.00.

Whale Oil Soap Makes an excellent wash for trees and plants; kills insects and eggs on the bark. Per lb., 15c.

Poultry Supplies

CONKEY'S ROUP CURE

A guaranteed remedy for all forms of roup. Directions in each package. Price per package, 50c.

PORCELAIN NEST EGGS Price, 3c. each; doz., 25c.

WYANDOTTE FOOD FOR YOUNG CHICKS

A safe and nourishing food for chicks just out of the shell, and one that can be depended upon to carry them right along until fully matured. This food is given dry, though plenty of pure water should always be on hand for the little fellows to drink. Wet or even moist foods are highly objectionable and altogether unnatural to all gallinaceous birds and they should never be employed except in the process of fattening for the market. 5 lbs., 25c.; 10 lbs., 40c.; 25 lbs., 75c.; 50 lbs., \$1.50; 100 lbs., \$2.50.

PRATT'S POULTRY FOOD

A cure and preventive of chicken-cholera, roup, gapes and other diseases. Molting fowls when fed Pratt's Poultry Food will lay sooner and will increase the quantity of eggs. Price, 26 oz. package, 25c.; 5 lb. package, 60c.; 12 lb. bag, \$1.25.

IMPERIAL EGG FOOD

Invaluable for chicks and molting fowls. A standard, reliable food. Price, 26 oz. pkg., 25c.; 60 oz., 50c.

SHERIDAN'S CONDITION POWDER

Prevents and cures diseases of hens. It is strictly a medicine to be given in small doses once daily in their food. Price per package, 25c.; large pkg., 80c.

DEATH TO LICE OINTMENT

Used for head lice on chickens. 1 oz. pkg., 10c.

CHARCOAL (Granulated) Aids digestion and corrects many of the poultry ills, pkg., 15c.; 10 lbs., 40c.

Knives Budding and Pruning, 60c. to \$1.00.

" Asparagus For cutting asparagus under the surface, 45c. each.

Edging Knife Handled, 60c.

Lawn Rakes Wooden, best quality, 50c. each.

" Wire, reversible, 50c. each.

ROSE SPRAY

to adjust them. For $\frac{1}{2}$ inch or $\frac{3}{4}$ inch hose, dozen, \$1.00. 1 inch, \$1.25 doz.

Lawn Sprinklers Peck's Improved. Standard, 4 feet high, arms revolve, scattering a fine spray evenly over a space 50 feet in diameter, 4 arm sprinkler, \$3.00; 8 arm sprinkler, \$3.50.

Lawn Sprinkler Water Witch, No. 3, 75c. each; No. 4, \$1.20 each.

Lawn Sprinkler—Twin Comet The body of sprinkler is made in two parts and by means of the swiftly revolving arms and intermediate gears, the upper half is made to revolve slowly, carrying the hose nozzle, from which a full stream of water is thrown far out beyond the sprinkle of the arms, thereby covering a larger space than any other stationary sprinkler. Price, \$5.00.

Tremlow's Old English Glazing Putty For bedding glass in sash or for filling cracks or seams in roof joints or frames of greenhouses or hot beds. When once set on dry wood it does not heave. Gallon, \$1.25.

Mastica Glazing Machine Each, \$1.25.

Pruners Water's Tree. This pruner never fails to cut the slightest twig. It is the cheapest and most practical pruner on the market. 6 ft., 75c.; 8 ft., 85c.; 10 ft., \$1.00; 12 ft., \$1.10.

Pruners Telegraph, without handles. \$1.25 each.

Pumps Success Bucket Spray. The best and most durable portable hand pump. It has large air chamber, double acting, throwing continuous stream either solid or in fine spray, \$4.50.

Rollers The benefit derived from the use of a roller on the lawn, especially in the spring, is not fully understood. The action of freezing and thawing causes the ground to heave, and if the sod is not firmly pressed back with a roller before the hot weather begins, the grass is apt to be killed or injured, leaving the lawn full of bare spots. The Rollers we offer are made of first-class material, outer edges being beveled to prevent cutting sod, and face of roller is turned perfectly smooth.

COLDWELL'S HORSE LAWN MOWER

Coldwell's Improved Horse Mowers are fitted up throughout with the best steel shafting, composition bushings or bearings, polished oak footboards, etc.

Unquestionably the best Horse Lawn Mower manufactured, and guaranteed to give entire satisfaction.

30-inch, with seat and shafts, \$65. 35-inch, with seat and shafts, \$75. 40-inch, with seat and shafts, \$90. Furnished with side draft attachment, which keeps the horse on the cut grass only.

TOWNSEND'S HORSE LAWN MOWER

Triple rolls with triple pawls in each roll, making the most powerful and instantaneous driving mechanism ever put in a lawn mower.

This feature maintains the motion of the blades even in turning sharp corners, and forms a strong contrast with other double roll Mowers whose knives

have no motion when turning corners. It is made very strong and powerful, of the very best materials, and finished in the most perfect manner.

It will cut over very rough and uneven ground and stand very rough usage, and still will get down into the turf and cut its swath clean, easily and smoothly. It is, on this account, very popular with golf clubs. We warrant it superior to any mower ever built, and will refund the purchase price to any customer dissatisfied after a trial.

Furnished with seat, handles and shaft complete, and made 30-inch or 38-inch width of cut. Price, \$60 to \$80.

FOLDING PLANT STANDS

Can be opened or folded in a few seconds. Finished in green and bronze. Compact and durable. Takes up very little space when not in use. 3 Wire Trays, 7½ x 30, \$3.00.

WIRE WINDOW SHELF

with steel brackets. Can be applied to any window moulding. 30 inch shelf, 75c. 36 inch shelf, \$1.00. 42 inch, \$1.25.

OVAL PLANT STAND

20 x 30, \$3.00.

Bouquet Holders Iron, for cemetery use, 30c. each

" " Glass, for cemetery use, 35c. each

THE LINKS LAWN BOOT

For use on Golf Links, Tennis Courts and Fine Lawns

Aside from the lasting qualities it is the only humane boot, for the reason that it is firmly fastened to the hoof instead of around the ankle, thus giving free action to the horse's feet and obviating all possibility of chafing. Price, set of four, \$8.00.

"LION" BALL BEARING LAWN MOWER

The ball bearing in lawn mowers is the latest and probably the greatest improvement in their manufacture. The "Lion" is constructed with 10-inch skeleton rim driving wheels, $6\frac{1}{4}$ -inch cutting cylinder with five knives. Is a strong and powerful easy running mower.

For those who mow their lawns frequently we advise the use of fine blade machines, as they leave the lawn in a very smooth condition.

16-inch, \$10. 18-inch, \$11. 20-inch, \$12.

UNIVERSAL

A SUPERIOR QUALITY LOW PRICED MACHINE

This mower is built to accommodate those who have but little grass to cut and wish a low priced machine. yet one that will do good work. While this machine should not be compared with strictly high grade mowers yet we consider it an excellent machine for moderate use. 14-inch, \$3.50; 16-inch, \$3.75

ROLLER LAWN AND GOLF MOWERS

On lawns where exceptionally fine cutting is a necessity, there are no mowers to equal these. They cut smoothly, effectually doing away with that wavy appearance so often seen on a freshly cut lawn. They will also roll down a new lawn and protect it against upheavals caused by dampness, ants and other insects. These are the only mowers that will cut borders properly and without danger of cutting the sod.

Price, 18-inch, 6 blades \$15.

"IRON AGE" COMBINED SEED DRILL AND DOUBLE WHEEL HOE

The Seed Drill is complete in itself merely requiring to be bolted with two bolts to the wheel frame. As a drill it opens the furrow, drops the seed, covers and rolls it and marks the next row at one passage. It can be set to sow shallow or deep, thick or thin, as desired, and handles all garden seeds. The flow of seed can be instantly shut off to turn rows. The agitator is a revolving brush which will not injure seed in the slightest.

Combined Drill Seeder and Double Wheel Hoe, \$11. Combined Hill and Drill Seeder and Double Wheel Hoe, \$12.

THE "NEW MODEL" SEED DRILL

Drills of similar construction are usually provided with a series of holes of varying sizes through which the seed is passed, which of course, do not always give an opening of the exact size required. As will be readily seen, by reference to the sectional cut, this adjustment is accomplished by use of a pear-shaped opening, passing under the bottom of the seed reservoir, which is provided with a perforation of similar shape in a reversed position. This slide can be instantly adjusted to size indicated by index. The index is placed in open sight, immediately under the eye of the operator, and as stated above, can be quickly adjusted to the slightest variation desired, as the names of the principal seeds are plainly shown on the index itself, it is not necessary to refer to any table of reference. The flow of seed can be instantly stopped by a swinging cut-off, conveniently operated by a cord and ring on handle. Price, \$3 00.

NEW PERFECT INDEX

"IRON AGE" DOUBLE WHEEL HOE

For the cultivation of garden crops, it is an indispensable implement. With it one person does the work of several men with great ease. One great advantage which this double wheel hoe possesses is that it can be made into a practical single wheel hoe in a moment's time. The wheels are 16 inches high, enabling the wheel hoe to run easy and without yielding to the depression of the soil, as a low wheel will do. The frame being made of tubing coupled to *malleable* castings gives great strength, together with lightness. Price, complete, \$7.00.

THE "GEM OF THE GARDEN" WHEEL HOE

Single Wheel Hoe

No greater proof can be given of the popularity of a tool, or of its intrinsic worth, than the one simple fact of a continued demand for it. In the past few years there have been placed about *fifteen thousand* of the "Gem" Wheel Hoes in the hands of gardeners, and we are not aware of a single instance in which it has failed to give entire satisfaction to the user. It is not a toy, neither is it a tool made of light gray castings, calling for constant repair, the "Gem" being largely made up of *steel and malleable iron*. The set of slender stirring teeth, each stamped from one piece of steel, cannot be excelled for thorough work, especially in hard soil. Price, complete, \$5.00. With teeth only, \$3.75.

THE "IRON AGE" HILL AND DRILL SEEDER

This is the most complete tool ever offered by the manufacturers of the "Iron Age" implements. It has only been placed upon the market after a most thorough experiment and field tests. The wheel is 16 inches high, made of steel, with a 2-inch tread. The opening plow is clog proof and can be instantly adjusted. The hopper is low; therefore the delivery of the seed is close to the ground, thus making possible accurate spacing.

The distance of spacing the seed can be instantly changed by simply removing a small wheel at the side of the hopper and reversing it, or by putting on another.

The flow of seed can be instantly stopped or started by a convenient finger latch on the handle.

Price, \$11.00.

"IRON AGE" SINGLE WHEEL HOE With Cultivator Teeth, Plow and Rakes

This tool is, in regard to the work done, almost a counterpart of the Double Wheel Hoe, and the same remarks as to its construction, extreme lightness and ease of operation will apply with equal force. For the small kitchen garden we consider the single wheel hoe as being preferable. The work is done principally between the rows, although plants of small growth can be hoed on both sides at once by placing the wheel on the left side. With this single wheel tool, spaces of exceedingly narrow width can be worked even using but one cultivator tooth. With the large plow attachment, deep furrows can be opened or closed, potatoes, celery and other crops hilled—in short all work usually accomplished by a special plow. Price, complete \$6.00

Groff's Hybrid Gladiolus
