THE MT. DESERT NURSERIES BAR HARBOR MAINE

LIBRARY,
U.S. DEPT. OF AGRICULTURE
2478

Directions to Correspondents.

EARLY ORDERS—All orders should be sent in as early as possible to insure prompt attention.

SHIPPING SEASON—Our shipping season opens in the Spring, about the 15th of April, closing in early June according to the season. And in the Fall it extends from the end of August to the beginning of December.

FALL PLANTING—With a few exceptions, Fall planting is as successful as Spring, and many of the early flowering plants should be planted in the Fall when possible, in preference to Spring.

SELECTED STOCK—Stock selected by customers at the Nurseries, or specially selected stock ordered by mail or otherwise, will be charged at advanced rates according to the value of the stock selected.

QUANTITY—Five of one kind and size will be furnished at the ten rate, and twenty-five at the hundred rate.

PACKING—Packing will be done in the most careful manner for shipment to any part of the world and will be charged for at cost to us in labor and material. We have made a special study of good packing and our most distant shipments have rarely failed to reach their destination in the best condition.

DELIVERY—All goods are delivered f.o.b. Bar Harbor. Local orders will be delivered free to any part of the village.

SHIPPING—We can ship either by the Maine Central Railroad, or by steamers which connect directly with the steamers for New York and Boston, or by American Express. Customers are requested to state the mode of shipment; otherwise we will forward according to our best judgment. After delivery to the forwarding agents all goods are at the risk of the purchaser.

INSPECTION—A certificate of inspection will be sent with each shipment.

ERRORS—Customers will confer a great favor if they will notify us promptly of any errors that may have been made in filling their orders, to enable us to immediately correct the same.

CLAIMS—Claims, to receive consideration, must be made immediately upon receipt of goods.

NON-WARRANTY—While we use the utmost care to have our nursery stock, plants, bulbs and seeds true to name and will replace any that may prove untrue, no sale by us carries a warranty, express or implied, as to description, quality, productiveness, or other character, of any nursery stock bulbs, plants or seeds we send out; nor will we be in any way responsible for the crop; and for any error we shall not be held liable for more than the purchase price. Every purchase from us is made on these terms.

TERMS—Cash with order from all unknown correspondents. All accounts are due net cash as soon as the goods are delivered. Remittances may be made by check, registered letter, P. O. or Express money order.

Address all orders to

THE MOUNT DESERT NURSERIES,

WM. MILLER, Manager.

PRICE LIST
OF
TREES, SHRUBS, VINES, AND
HERBACEOUS PLANTS,
1909.

THE MOUNT DESERT NURSERIES,
BAR HARBOR, MAINE,
Established 1896.
Branch at Northeast Harbor, Me.

Hardy Herbaceous Plants

THE eastern coast of Maine has proved itself within the last few years a region wonderfully well suited to the hardy herbaceous plants, whose beauty of form and splendid color, as well as their permanent character and wealth of bloom, have long made English gardens—whether those of cottage or of great estate—famous the world over. And it is these plants, in their best species and most beautiful varieties, that the Mt. Desert Nurseries have made a specialty of growing, invigorated and made hardy by our climate, for export to other regions as well as for garden and other planting on the coast of Maine.

Our list is the result of long trial, actual experiment and careful selection; our soil is deep and well-cultivated but not rich, tending to the best development of roots for transplantation; and our climate is one demanding vigorous vitality in all that grows in it.

But though our climate permits the growth of none but really hardy plants, it makes it possible to grow these with greater freedom and in wider range than elsewhere and gives them a hardihood, a vigorous constitution, and a depth and brilliancy of color in their flowering which they take elsewhere with them to new homes.

We pack our plants for export with the greatest care, and long experience has shown that we can send them by express—thus packed—to Virginia or Illinois in as good condition as to Boston or to places on the near-by coast. Moreover, the exceptional lateness of our season and the coolness of our ground and nights make it possible for us to lift plants directly from the nursery and ship them in full vigor long after this has become impossible for nurseries to the southward or with an inland climate. Nor do plants suffer in the least from transportation to a region where the season is more advanced than in their own, though they do from the reverse or from being lifted and held back for later trade.

Assistance in the selection of the best varieties of plants or advice as to the plants best suited to special conditions of soil and climate will be gladly given to anyone writing to the Nurseries for it.

Deciduous Trees.

NOTE.—Stock selected by customers at the Nurseries, or specially selected stock ordered by mail or otherwise, will be charged at advanced rates according to the value of the stock selected.

ACER dasycarpum , see A. saccharinum .	Each	10
ginnala (<i>A. tataricum ginnala</i>). Siberian Maple.		
4 to 5 ft.....	\$1.00	\$7.50
5 to 6 ft.....	1.25	10.00
6 to 8 ft.....	1.50	12.50
8 to 10 ft. Specimens, \$2.50 to \$5.00 each.		
montanum , see A. spicatum		
negundo . Ash-leaved Maple.		
4 to 5 ft.....	.50	4.00
negundo var. aureo-marginatum .		
10 to 12 ft.....	3.00	
negundo var. californicum aureum .		
4 to 5 ft.....	1.00	
palmatum var. atropurpureum . Japanese Maple.		
2 to 3 ft., \$3.00 to \$5.00 each.		
3 to 4 ft., \$5.00 to \$7.50 each.		
pennsylvanicum (<i>A. striatum</i>). Striped-bark Maple or Moosewood.		
3 to 4 ft.....	.50	4.00
platanoides . Norway Maple.		
8 to 10 ft.....	1.25	10.00
10 to 12 ft.....	2.00	17.50
Specimens, \$5.00 to \$20.00 each.		
platanoides var. Reitenbachii . Reitenbach's Purple-leaved Maple.		
6 to 8 ft.....	1.50	12.50
8 to 10 ft.....	2.50	20.00
10 to 12 ft. Specimens, \$4.00 to \$7.50 each.		
platanoides var. Schwedleri . Schwedler's Purple-leaved Maple.		
8 to 10 ft.....	2.00	17.50
10 to 12 ft. Specimens, \$3.00 to \$5.00 each.		
12 to 15 ft. Specimens, \$7.50 to \$20.00 each.		
pseudo-platanus . European Sycamore Maple.		
6 to 8 ft.....	1.00	7.50
8 to 10 ft.....	1.50	12.50
10 to 12 ft.....	2.00	
pseudo-platanus var. purpurascens . Purple-leaved Sycamore Maple.		
6 to 8 ft.....	1.00	7.50

ACER—Continued.		Each	10
pseudo-platanus var. Simon Louis Freres.	8 to 10 ft.....	\$2.00	
pseudo-platanus var. tricolor. Tricolor-leaved Sycamore Maple.	8 to 10 ft.....	2.00	
pseudo-platanus var. Worleei. Golden-leaved Sycamore Maple.	12 to 15 ft.....	3.00	
rubrum. Red Maple.	8 to 10 ft.....	1.50	\$12.50
saccharinum (<i>A. dasycarpum</i>). Silver Maple.	10 to 12 ft.....	1.50	12.50
	12 to 15 ft.....	2.00	17.50
saccharinum var. Wieri. Wier's Cut-leaved Maple.	8 to 10 ft.....	1.25	10.00
	10 to 12 ft.....	1.75	15.00
saccharum (<i>A. saccharinum</i>) Sugar Maple.	8 to 10 ft.....	1.50	12.50
	10 to 12 ft.....	2.50	
	12 to 15 ft. Specimens, \$5.00 to \$20.00 each.		
spicatum (<i>A. montanum</i>) Mountain Maple.	5 to 6 ft.....	1.50	12.50
	6 to 8 ft.....	2.00	17.50
striatum , see <i>A. pennsylvanicum</i> .			
tataricum var. ginnala , see <i>A. ginnala</i> .			
ÆSCULUS hippocastanum. European Horse Chestnut.	8 to 10 ft.....	1.75	15.00
	10 to 12 ft.....	2.50	
hippocastanum var. flore pleno. Double White-flowering Horse Chestnut.	8 to 10 ft.....	2.25	20.00
	10 to 12 ft.....	3.00	
AMELANCHIER botryapium. Shad Bush, Wild Pear.	2 to 3 ft.....	.50	4.00
	3 to 4 ft.....	.75	6.00
ARALIA , see <i>Shrubs</i> .			
ASH , see <i>Fraxinus</i> .			
BEECH , see <i>Fagus</i> .			
BETULA alba var. fastigiata. Pyramidal Birch.	6 to 8 ft.....	1.75	
alba var. laciniata. Cut-leaved Birch.	10 to 12 ft.....	2.50	
	12 to 15 ft \$3.50 to \$5.00 each.		
alba var. pendula laciniata. Cut-leaved Weeping Birch.	8 to 10 ft.....	2.00	17.50
	10 to 12 ft, \$3.00 to \$5.00 each.		

BETULA — <i>Continued</i> .		Each	10
alba var. pendula Youngi. Young's Weeping Birch.			
8 to 10 ft.....	\$2.50		
10 to 12 ft., \$3.00 to \$5.00 each.			
lutea . Yellow Birch.			
6 to 8 ft.....	1.25	\$	10.00
8 to 10 ft.....	1.75		15.00
papyrifera (<i>P. papyracea</i>) Canoe or Paper Birch.			
8 to 10 ft.....	1.25		10.00
10 to 12 ft.....	1.75		15.00
12 to 15 ft. Specimens, \$3.00 to \$15.00 each.			
BIRCH , see Betula .			
CLADRASTIS tinctoria (<i>Virgilia lutea</i>). Yellow Wood.			
6 to 8 ft.....	1.50		12.50
8 to 10 ft.....	2.00		
CRATÆGUS , see Shrubs .			
DOGWOOD , see Cornus in Shrub List .			
ELM , see Ulmus .			
FAGUS ferruginea (<i>F. americana</i>). American Beech.			
6 to 8 ft.....	2.50		
8 to 10 ft.....	3.50		
sylvatica . European Beech.			
6 to 8 ft.....	2.50		
8 to 10 ft., \$3.50 to \$5.00 each.			
sylvatica var. incisa . Cut-leaved Beech.			
5 to 6 ft.....	3.00		
6 to 8 ft., \$4.00 to \$5.00 each.			
sylvatica var. pendula . Weeping Beech.			
4 to 5 ft.....	2.00		
sylvatica var. purpurea . Copper Beech.			
5 to 7 ft.....	2.50		
sylvatica var. purpurea Riversi . Rivers' Purple-leaved Beech.			
4 to 5 ft.....	2.00		
5 to 6 ft.....	2.50		
FLOWERING CRAB , see Pyrus .			
FRAXINUS americana . White Ash.			
8 to 10 ft.....	1.50		12.50
10 to 12 ft.....	2.00		17.50
12 to 15 ft., \$3.50 to \$7.50 each.			
excelsior var. pendula . Weeping European Ash.			
7 to 9 ft., \$2.00 to \$3.00 each.			
GINKGO biloba (<i>Salisburia adiantifolia</i>). Maiden-hair Tree.			
7 to 9 ft.....	1.50		
HORSE CHESTNUT , see Æsculus .			

JUGLANS nigra. Black Walnut.	Each	10
9 to 10 ft.....	\$1.50	
LARIX decidua. (<i>L. europæa</i>) European Larch.		
4 to 5 ft.....	1.00	\$7.50
5 to 6 ft.....	1.50	12.50
LIME or LINDEN , see Tilia .		
LOCUST , see Robinia .		
MAPLE , see ACER .		
MOUNTAIN ASH , see Sorbus .		
NEGUNDO , see Acer negundo .		
OAK , see Quercus .		
POPULUS deltoides var. carolinensis (<i>P. monili- fera</i>). Carolina Poplar.		
10 to 12 ft.....	1.25	10.00
12 to 15 ft.....	2.00	17.50
15 to 20 ft., \$3.00 to \$5.00 each.		
nigra var. italica (<i>P. fastigiata</i>). Lombardy Poplar.		
8 to 10 ft.....	1.25	10.00
10 to 12 ft.....	1.50	12.50
PYRUS aucuparia , see Sorbus .		
floribunda var. Scheideckeri . Double Flow- ering Crab.		
3 to 4 ft.....	.75	6.00
4 to 5 ft.....	1.00	7.50
Halliana (<i>P. Parkmani</i>). Semi-double Flowering Crab.		
2 to 3 ft.....	.75	6.00
QUERCUS coccinea . Scarlet Oak.		
5 to 7 ft.....	1.50	
palustris . Pin Oak.		
6 to 8 ft.....	1.00	
8 to 10 ft.....	1.50	
10 to 12 ft.....	2.00	
pedunculata var. concordia . Golden Oak.		
4 to 5 ft.....	1.00	
rubra . Red Oak.		
8 to 10 ft.....	2.00	
10 to 12 ft., \$3.00 to \$5.00 each.		
ROBINIA hispida , see Shrubs .		
pseudacacia . Black or Yellow Locust.		
8 to 10 ft.....	1.25	10.00
10 to 12 ft.....	2.00	17.50
ROWAN TREE , see Sorbus aucuparia .		
SALISBURIA adiantifolia , see Ginkgo .		
SALIX alba . White Willow.		
8 to 10 ft.....	1.25	
10 to 12 ft.....	2.00	
babylonica var. dolorosa . Wisconsin Weep- ing Willow.		
8 to 10 ft.....	1.00	
elegantissima . Thurlow's Weeping Willow.		
8 to 10 ft.....	1.50	12.50

		Each	10
SALIX — <i>Continued</i> .			
pentandra. Laurel-leaved Willow.			
6 to 8 ft.....		\$1.00	\$7.50
8 to 10 ft.....		1.50	12.50
10 to 12 ft.....		2.00	17.50
12 to 15 ft., \$3.00 to \$5.00 each.			
rosmarinifolia. Rosemary-leaved Willow.			
4 to 5 ft.....		1.00	
vitellina var. Britzensis. Red barked Willow.			
12 to 15 ft. Specimens, \$2.00 to \$3.00 each.			
SHAD BUSH , see Amelanchier .			
SORBUS aucuparia (<i>Pyrus aucuparia</i>). Rowan Tree, European Mountain Ash.			
8 to 10 ft.....		1.25	10.00
10 to 12 ft., \$1.50 to \$3.00 each.			
aucuparia var. pendula. Weeping Mountain Ash.			
12 to 15 ft.....		5.00	
aucuparia var. quercifolia. Oak-leaved Mountain Ash.			
6 to 8 ft.....		1.50	12.50
8 to 10 ft.....		2.50	22.50
TILIA platyphyllos. Broad-leaved Linden.			
6 to 7 ft.....		1.50	
ULMUS americana. American Elm.

 Address

THE MOUNT DESERT NURSERIES,
WILLIAM MILLER, Manager. Bar Harbor, Me.

OUR list of Peonies, Phloxes and Irises, plants in which the Nurseries have specialized extensively, demands so much space, owing to the number of varieties grown by us, that we publish it separately as a Special Price List. This list will be mailed at once upon request to any one desiring to consult it, and as it is the result of long and careful selection and aims at containing the best species grown, and none but good ones in our judgment, we trust it may be sent for and consulted by all who are interested in these plants or who are making gardens.

The range of trees and shrubs which can be grown upon the coast of Maine is less wide than to the southward but those which it includes are among the most beautiful in the world and the most valuable in landscape planting, as in forestry. Some of these, like the White and Red Spruces, the Arbor Vitæ, the Canoe and Yellow Birches, the Viburnums and the trailing Juniper, grow here at their best, more finely than in other latitudes, while for its Pines and Hemlocks, the most beautiful of our Evergreens, the State of Maine is famous. What does grow here, trees, shrubs and plants of every kind, grows strongly and gains a hardihood and vigor it is slow to lose even when transplanted elsewhere. But plants grown elsewhere and transplanted here acclimatise themselves with difficulty.

The material for the best effects in landscape planting is abundant within the range of trees and shrubs that thrive here well, and infinitely better results will be obtained by using it than by attempting to grow those that will not grow here well and hardily. Our list as it now stands is the result of long experiment and a wide trial of other species, and the trees and shrubs that it contains are the only ones of either landscape or economic value that have stood the test.

The range of herbaceous plants — unlike the woody ones — which can be grown here successfully is an extraordinarily wide one. These the late springs, hot summer sunshine and cool nights of the Maine coast suit wonderfully well, and they have no new growth of wood to ripen in the fall but all that is permanent and living in them lies beneath the ground when winter comes, sheltered by it and by their winter covering of leaves and snow. This makes our northern coast-region not only one well suited to the nursery cultivation of such plants but one where gardens of herbaceous plants and annuals, flowering in continuous succession and with constant change throughout the summer, can be made with rare advantage. The range of plants that can be used in them is great and varied, their growth is quick and strong, and their flowering exceptionally free, brilliant and beautiful.

Thorough preparation of the ground for planting and an abundance of good soil in which to grow are of the first importance for everything one plants, whether it be tree, shrub or herbaceous plant, and in every garden a deep and mellow soil, moisture and good drainage are essential. This, in its first cost, is apt to be expensive, not less so usually than the plants themselves, but its benefit is lasting and in the end it is the only true economy. It is better to plant less than not to plant well what one does plant, and a deep soil in good mechanical condition and fairly rich in the elements of plant food is necessary to the full development of the feeding rootlets, corresponding to the leaves above, upon which the nourishment of plants depends. It also forms a reservoir of moisture against drought, and makes the garden independent of the frequent watering a shallow soil makes necessary. The less frequently watering need be done the better, for much watering draws the root growth to the surface where the rootlets suffer from the briefest drought and feed but shallowly, while with a deep soil and well drained subsoil capable of holding water a thorough soaking of the ground a few times in the summer is all the watering that plants will need or ought to have. After every watering, and every rain, the surface of the garden should be broken up by shallow cultivation as soon as it is dry. This lets the air in while it prevents the loss of the water rising from below through capillary action, from which the plant's supply is drawn.

When planting, the roots of plants should never be exposed a moment longer than is absolutely necessary to a drying air or sunshine; to evergreens especially a very brief exposure of their rootlets may be fatal. Where plants cannot be planted out immediately after they are lifted or received they should be carefully heeled in, in fine moist earth well firmed about their roots. And even when they are being actually planted out they should be sheltered as much as possible from sunshine and from drying winds, their roots well covered and kept moist; and no more than can be planted quickly should be taken out to plant, but the plants should be brought out as they are needed.

In garden planting, and in wild planting also as a rule, mass effects are far the best with herbaceous plants, and with the smaller shrubs. They keep the simplicity of artistic effect, emphasize contrasts of form and color, and are essential to making the richness and beauty of color felt amid a variety of plants. Isolated plants, however, may be often used delightfully in half-wild planting against rocks or walls, along the borders of streams and ponds, amidst wild plants and ferns or grasses, or wherever else they can be given a background in harmony with their form and color.

The Nurseries

TO which visitors are always welcome, are situated a mile to the seaward or southward of the village of Bar Harbor, on the Schooner Head Road or Ocean Drive. Bar Harbor itself can be reached by regular steamers from Boston and Portland and by the New York and Philadelphia steamers connecting with these, as well as by the all-rail route over the Maine Central Railroad.

Situated in 44 degrees 22 minutes north latitude, with a temperature that ranges from 96 degrees above to 20 degrees below zero, and upon a sea coast where the ground is often bare of snow during portions of the winter, the changes and exposures to which our stock is subjected render it unusually hardy. Many of the native trees and shrubs here are noted also for the beauty of their coloring as well as for their vigor and their distinct form, which they retain when planted elsewhere.

Special Price List.

We publish a special Descriptive Price List of Peonies, of Phloxes, and of Japanese, German, and other Irises, in each of which we have the finest collection obtainable by means of long continued acquisition of the best varieties and newest forms combined with the most careful testing and selection. This list will be mailed at once to anyone who will write us for it or return us the enclosed card with his address upon it.

Flower and Vegetable Seeds.

We carry constantly in stock and can at once supply flower and vegetable seeds of the best quality, obtained from the most reliable sources in Europe, England, and America, and experimented with by ourselves.

Grass Seed.

We carry grass seed in stock at all times in a single quality, the finest that can be obtained, tested by ourselves for purity and vitality in germination. The price of this will be quoted by us upon application, but we shall also be pleased to quote on other grades or other grasses, for lawn or farm, and to obtain them for our customers should they desire to have us do so. Handling, as we do, grass seed in large quantity, we are able to secure the very lowest prices on it and to give our customers the benefit of these.

Bedding and Decorative Plants.

We carry a full line of the best Bedding and Decorative Plants for Garden and House. Of these we grow or carry, for our local trade, not only the best standard kinds but the best new varieties as they are exhibited by specialists and put upon the market. We do not publish any list of them, as we grow them mainly for those who can themselves see them at the Nurseries, but their description and prices will be gladly given upon application.
