Ornamental Shrubs,
Vines and Climbers,
Peonies and Iris,
Cannas and Phlox.

WHOLESALE PRICE LIST

For Nurserymen, Florists and Dealers.

TO THE TRADE

KOSCIUSKO, a young and intrepid Polish officer, upon being recommended to Washington, by Benjamin Franklin, was asked: "What can you do?" "Try me," was the quick response. How Washington profited by the trial he gave this gallant officer is a matter of history. His monument now adorns West Point. We, too, are asking for a trial, an opportunity to demonstrate **WHAT WE CAN DO** for you in handling the products noted herein. We have obtained results for our **OLD LINE** customers, we can do the same for **YOU**.

Field grown Roses are apparently scarcer this season than usual, prices are ruling higher, and early orders will preclude worries later on when stocks are broken. At this date we have a complete assortment, but owing to heavy demand, our stocks will not be complete very much longer, and it will be to your interest to anticipate your wants if possible and talk it over with us.

Last season was a **BANNER** year for us, and we thank our friends for their liberal patronage. This bespeaks confidence in us, and is indicative of **QUALITY PLANTS**. It is the latter that makes it easy for us all.

We shall be pleased to serve you, giving you the best we have, which is second to none.

Very truly yours,

THE UNITED STATES NURSERY CO.

PLEASE NOTE

Our freight and express office is at Rich, Mich., sixty miles south of Memphis, Tenn., on the Y. & M. V. R. R. Our telegraph office is at Clarksdale, Miss. All telegrams transmitted to our office by phone.

Terms:—We will not accept orders unless we think the buyer commercially responsible. Thirty to sixty days unless other terms are agreed to.

Shipping:—We solicit precise instructions as to kind of conveyance and route. If no instructions are given, we will use our own discretion. After goods have been delivered to forwarders and receipted for in good condition, our responsibility ceases.

Guarantee:—While we use every endeavor to send out all stock true to name, all orders are booked and shipped with expressed understanding between the purchaser and ourselves, that should any prove not true to name, we will only replace the stock or refund in cash the invoice price.

Season:—We usually begin shipping Peonies about the 1st of September. Iris and Phlox, October 10th. Other stock for Dealers' Trade, about October 5th. While Roses and some classes of shrubs are not perfectly mature by October 5th, we have been accustomed to begin shipping at this date with good results, however, without responsibility to ourselves, as we cannot guarantee condition of stock until all woody fibre is mature, which is from November 1st to 10th, owing to season. After this date we guarantee condition.

Packing:—The cost of package will be added to the prices noted in this list.

Complaints:—All claims for rebates or allowances must be made upon receipt of goods.

Caution:—All orders are accepted and made subject to loss of stock by drouth, flood, fire, insects or other causes over which we have no control.

GRADES

We grade carefully to a uniform standard. Each type of Roses have their own peculiar growth, and the individual varieties belonging thereto are, in many instances, of different habit, ranging from a moderate to a vigorous growth. As far as possible we make the grade uniform in size and weight, though in some instances we cannot. With the description of each variety we give the habit of the plant which will help to distinguish its individuality of growth.

ABBREVIATIONS

To distinguish habit of Roses, note the following:

Vig. (vigorous)—Varieties which make strong growth.

Free—Varieties of free branching habit.

Rob. (Robust)—Varieties of stout, sturdy growth.

Mod. (Moderate)—Varieties of moderate growth.

Prices in this list cancel all previous quotations.

Certificate of health with each shipment.

Long selected lists, five and ten plants of a kind, will be charged at a higher rate than is noted herein.

Prices in this list subject to change without notice.

FIELD-GROWN ROSES

SECTION 1

Dwarf-growing Roses which bloom more or less throughout the season.

Vivid , vig.—Vivid crimson, double, fine climber	1.00	8.00

SPECIAL MENTION

Those unacquainted with the following Roses should test them. They have shown decided merit with us, and will become the best commercial sorts when well known.

Aurora (Hybrid Tea), free—Not a new Rose, but one of the best garden Roses grown. Center rich salmon-pink, paler toward the outside; large, full and fine form. No. 1 plants, \$15.00 per 100.

Anna Muller (Polyantha), vig.—The pink Baby Rambler. With us a splendid grower, with better foliage than Baby Rambler. Bright carmine-pink, free and continuous. No. 1 plants, \$12.00 per 100.

Captain Hayward (H. P.), vig.—Among the best of the red H. P.'s. Always brings a good crop of blooms, and very constant; splendid foliage; with us the best of its color. No. 1 plants, \$80.00 per 1000.

Conrad F. Meyer (Hybrid Rugosa), vig.—The best Rugosa grown. Equal to La France when well cared for, very constant and free. No. 1 plants, \$100.00 per 1000.

Lady Gay (Hybrid Wichuraiana), vig.—Bright pure rose, one of the best in this now interesting type; a good companion for Dorothy Perkins. No. 1 plants, \$80.00 per 1000.

Mamie (Hybrid Tea), very vig.—Rosy-carmine, base of petals yellow; very large, well formed, free and very constant. We consider this the best Rose extant for outside planting. No. 1 grade, \$20.00 per 100.

HERBACEOUS PEONIES

(Pæonia Sinensis)

The following list contains the best market varieties, and after thorough trial we guarantee them to be true to name and description. Our stock was purchased from firms in this country and abroad who make the growing of Peonies a specialty, and since in our hands we have given every care and attention to details to insure absolute genuineness.

While our list is not so large as some offered, we feel that the sorts noted below will meet every demand required by the florist and nursery trade in general, and we trust that the list will have your careful consideration.

As Peonies give better results when planted early, we will begin digging about September 1, shipping stock at option of customer.

Prices noted are for strong, well-rooted plants carrying from two to five eyes.

Extended descriptions will be given upon application.

	Each	Per 10	Per 100	Per 1000
Achille (Calot, 1855)—Floriferous, light flesh-pink, changing to bluish-white, with an occasional creamy spot.....	\$0.12	\$1.00	\$8.00	\$75.00
