YOUNG

ROSE PLANTS

JUL 28 1923
U. S. Department of Agriculture.

All Propagated from Wood Taken
from Blooming Plants in Field. All
Grown Cool; Absolutely No Forc-
ing at Any Stage.

Please note that we price plants both from 2 1-4 inch pots and from BEDS—plants which have not been potted. The plants in beds are good stuff, handsomely rooted, well matured so as to safely ship and no loss should result in handling and shipping. We do not figure that there is a greater difference in value between the potted plants than as shown by our prices.

Packing and Shipping—Unless otherwise instructed, we remove all soil from roots before packing, immersing the roots in a solution of muddy water, bunch and wrap in moss and oiled paper. We do not recommend shipping with soil on unless for very short hauls, as it costs MONEY to ship soil by express. We ship by express only—never by freight,

Our Stock of Young Roses is Unusually Prime Stuff this Season, and in our estimation well worth the price quoted. Plants have been kept cool and maturing a good root system, well

hardened off, and now no soft top growth to prevent shipping and handling with best of success. We express these plants to practically every state in the Union. May we not have YOUR ORDER? We will endeavor to please.

Yours truly,
