Wholesale Price List

1909

Peonies and Iris

PETERSON NURSERY

Established 1856

WM. A. PETERSON, Proprietor

Lincoln and Peterson Aves. CHICAGO

Introduction

In presenting this wholesale list we would call attention to the lowered prices of many of the well known varieties, to the exceptionally high class of the varieties listed, and to our guarantee. The moderate cost of some of the best sorts, such as Festiva Maxima, makes it easier than ever for the florist to grow his own peonies. Peony lovers will find here some rare varieties not usually offered at wholesale, and every one in the list is both profitable for the commercial florist and of the greatest merit for home or landscape decoration. The iris also include all the best and most distinct varieties in many rare and beautiful shades.

OUR STOCK is of the very best quality. We are very careful in growing, digging and packing, and can absolutely guarantee every root to be correctly named and free from mixtures. We will replace with three every plant proving untrue to description. We never ship a peony that has not bloomed on our place.

WE SHIP in September. This is unquestionably the best time to plant. Any peony is much surer to bloom, and will be 20% stronger if moved in September so that new rootlets may form before winter. This gives a great advantage to home grown stock over imported plants which invariably come too late.

PRICES are for stock packed for shipment. On peony and iris orders amounting to \$100 or more we make a special discount of 10%. No other discount. Terms are net cash. No charge account opened for less than \$10. Cash with order or satisfactory references from unknown customers.

SIZES. By **divided** plants we mean strong divisions having at least 2 to 4 good eyes, often more. **Small** plants are one year old with one or two stalks of this year's growth. **Medium** are two years old with three to five stalks. **Large** plants are three years old with six to ten or twelve stalks.

We will supply six at the dozen rate and 25 at the hundred rate. For less than six of a kind the price per plant will be one-tenth the dozen rate. We positively will not accept an order for less than three of a variety of divided plants.

Nearly 100 varieties of peonies and 25 of iris are listed in our new Retail Catalogue of Peonies and Iris, just issued. It contains the cream of the rarest and choicest varieties known. A copy gladly sent on request.

White

		Per 12	Per 100
Alba Sulfurea —Very large creamy white, bomb shape.	Divided. .	\$ 7.00	\$50.00
Boule Blanche —Pure spotless white.	Divided. .	3.50	25.00
