SCARFF'S FRUITS

Guarantee Big Profits

W. N. SCARFF
New Carlisle, Ohio

BETTER THAN EVER FOR 1910

Our model collections become more popular each season. They are now planted in almost every state in the union and there is nothing we offer that is so generally satisfactory and profitable. They are genuine bargains.

As a special inducement for you to try our Model Garden and Orchard Collections we are going to send with each free, 1 Crimson, and 1 Baby Rambler Rose; these alone are worth \$5.00 to you when they bloom. They are good strong 2-year-old field-grown roses and must not be compared with the weak pot plants grown in the greenhouse. They are blooming size now.

**OUR
MODEL
FRUIT
GARDEN**

FROM
W. N. SCARFF
NEW CARLISLE
OHIO

OUR MODEL \$5.00 FRUIT GARDEN.

BY EXPRESS, PURCHASER PAYING CHARGES.

VARIETIES so arranged as to have fresh fruit on your table from May 10th to November 1st. Think of such a treat for only \$5.00; and fine fruit, too; just as fine as ever went on the table of the lords of Creation. If you cannot be a millionaire there is no reason why you *can* not live like one. If properly taken care of, you may reasonably expect a yield of 25 to 40 bushels annually from this model garden.

Will plant about $\frac{1}{4}$ of an acre of ground. Why not interest your boys and girls in profitable horticulture. It is worth five times its cost. A Book on Transplanting FREE.

1. 25 Pineapple Strawberries	9. 3 Victoria Currants	17. 25 Ward Blackberries
2. 25 Haverland Strawberries	10. 3 Wilder Currants	18. 25 Taylor Blackberries
3. 25 Senator Dunlap Strawberries	11. 3 White Grape Currants	19. 25 Mersereau Blackberries
4. 25 Brandywine Strawberries	12. 25 Cumberland Raspberries	20. 12 Lucretia Dewberries
5. 2 Houghton Gooseberries	13. 25 Kansas Raspberries	21. 3 Worden Grapes
6. 2 Downing Gooseberries	14. 25 Miller Raspberries	22. 3 Concord Grapes
7. 2 Pearl Gooseberries	15. 12 Haymaker Raspberries	23. 3 Wyoming Red Grapes
8. 3 North Star Currants	16. 25 King Raspberries	24. 3 Niagara White Grapes

TWO GOOD INVESTMENTS—Either one of these offers will pay you 500% on the investment and you will be simply astounded by the fine plants and trees we send you for so little money. Send an order to-day.

SCARFF'S \$5.00 MODEL ORCHARD OF 40 TREES WHEN GROWN TO BEARING AGE

OUR MODEL \$5.00 ORCHARD. ALL FINE TREES

The Model Fruit Garden we offer has met with such universal favor among our customers, that we now offer an equal bargain in an orchard collection—which is just what you want—no mistake about it. Whether you live in the city or country, this is a bargain for you.

The trees in our model orchard collection are 2 and 3 years old—first-class in every respect. Size 3 $\frac{1}{2}$ to 6 feet high. Same class of trees as we fill our regular orders with. It is simply to get our stock introduced into new territory that we make these splendid offers.

Regular Catalogue Price, \$10.00. Our price, you pay Express of Freight charges, only \$5.00. We want to introduce our trees with you, hence this very liberal offer.

☞ The Greatest Strawberry of the Age ☞

NATURE'S WONDERFUL GIFT TO MANKIND.

✱ **Kevitt's Wonder**

NEW CREATION.

The most Distinctive and Individual of all AMERICAN Strawberries; unlike any other: this new type has never been dreamed of before; nothing like it has ever been introduced of the pine varieties.

KEVITT'S WONDER STRAWBERRY (Per.) This berry is absolutely new and distinct from any other Strawberry. It is a perfect blooming variety; berries large, with seeds of bright yellow, making it a perfect beauty. The flavor is fine and the berries are just the right shape and size to make them show up well in the crate, always commanding the top price. The introducer claims they can be safely sent in a common express car from New York to Chicago, and open up in fine shape. This is a very strong point in its favor, as a good shipping berry is very essential for commercial purposes. Fruit stems short and stocky and so full of berries that they are weighted to the ground. Season medium about same as Glenn Mary. Berries bright red with a long neck, parting readily from the calyx. Very few seeds and sweet as a sugar plum. Every plant grower every gardener must have some of these new strawberries.

Price of fine plants, \$1.00 per dozen, postpaid; \$3.00 per 100 by express; \$25.00 per 1,000.

**VIEW OF OUR GREENHOUSES 64x226 FT., EQUIPPED WITH UP-TO-DATE FIXTURES.
YOUNG GRAPE VINES, CALIFORNIA PRIVET AND CURRANTS IN FOREGROUND.**

Jolly Crowd of Berry Pickers on Their Way to "Scarff's Fruit Farms" to pick Corsicans.

CORSICAN. (Per.) A distinct new variety of value for market and home garden. The fruit is dark crimson color, rich and delicious flavor, large size and quite firm. The foliage is perfectly healthy, making large plants that will protect the fruit from sun and rain. It is a good grower, making the right number of plants and an enormous yield of the finest, largest berries imaginable. Our customers are highly pleased with this great berry. Corsican is a wonderful berry. It is a great pleasure and very profitable to haul the largest berries that go to market. That kind always sells and at the very top price. Corsican is not only big, it is a beautiful color, a great yielder, a good foliage to resist disease and drought and even weeds and neglect, but such a variety as Corsican should not be neglected if possible. Do you want big berries? Then plant Corsican. Price, 50c. per doz., postpaid; \$1.00 per 100; \$5.00 per 1,000.

MARIE. Beyond doubt the most prolific and profitable berry in existence to-day. In yield we will put it up against any new or old variety. In point of beauty and general appearance when placed on sale, it has no equal. It was grown from seed of Crescent, fertilized with Cumberland in 1892. As a seedling it showed great promise. We planted for field culture as soon as sufficient number of plants were obtained and as yet have failed to detect any weak points in either fruit or plant of this grand variety. The plants are good growers, making plenty of runners for a good crop and show no signs of disease. The blossom is imperfect; season same as Bubach and Haverland. Equally as large as Bubach, Glen Mary or Brandywine, and yielding with any variety in our 40-acre fruit plantation, besides it is the most attractive in appearance when picked and ready for market of any in our entire collection. The berries are round as a ball, dark crimson in color; flesh dark and quality first class holding up in size to the very last picking. Price, 25c. per dozen; 75c. per 100; \$4.00 per 1,000.

Marie

GREAT SCOTT

GREAT SCOTT. A medium late variety, which produces large fruit uniformly colored with light colored flesh; fairly firm with fruit sometimes rough and irregular. Valuable on account of its immense size and productivity. This variety was produced by a cross of Bubach and Belmont, both well known varieties. Foliage clean and free from rust and other disease. It should be in every collection of large varieties. Price, 50c. per dozen; \$1.00 per 100; \$5.00 per 1,000.

CORSICAN

PROMINENT POINTS OF MERIT—NOTHING WANTING

SHAPE—Beautiful, tapering and regular. **SIZE**—Uniformly large to very large.
COLOR—Lustrous, dark shining crimson. **SOLIDITY**—Equal to any.
FLAVOR—Delicious and unsurpassed. **BLOSSOM**—Staminate—perfect.
YIELD—Prodigious.

PLANT—Vigorous and rampant—deep rooted and resisting.

The plant is very large, of extremely heavy texture—some single crown plants carrying foliage with a spread of 20 to 22 inches; persistent in propagation, deep rooted and extremely free in fruiting, beginning to ripen its fruit about early midseason and continuing until very late. Another prominent feature is that the fruit stems continue to shoot so late that during the early picking there are many blossoms, which feature indicates to the experienced grower their long season of productiveness.

The berry is dark shining crimson in color to the center; has a staminate or perfect blossom; carries an unusually large, heavy green calyx; extremely large from the first pickings to much above the average size for the main crop, and continues long after the better known varieties are gone, yielding abundantly throughout the season. Prices, 50c. per dozen, postpaid; \$1.00 per 100; \$5.00 per 1,000, by express.

STEVENS' LATE CHAMPION

(Per.) This variety makes an abundance of strong plants with good foliage that protects the blossoms and fruit from frost. They are long and uniform in size; color good red, and firm enough for shipment, as it is one of the very best to hold up after picking. Its season to ripen is about the same as Gandy. Price, 25c. per dozen; 75c. per 100; \$4.00 per 1,000.

MARSHALL. (Per.) Of the very largest size; color very dark rich crimson to the core; flesh fine grained and of a delicious flavor. Price, 25c. per dozen; 75c. per 100; \$4.00 per 100; \$4.00 per 1,000.

FAIRFIELD (Per.) A very early variety with the faculty of withstanding droughts. Plant is a fair size, good foliage with long roots. The fruit is of good size and flavor, quite firm and valuable for long shipments. Easy to pick and looks well in the crate. A very valuable early sort. Price, 25c. per doz.; 75c. per \$4.00 per 1,000.

PINE APPLE. (Per.)

This makes the sixth season we have offered this valuable new strawberry and have as yet failed to hear a single complaint. If you have not yet planted it send your order at once. It has a rich pine apple flavor. Think of it. **Strawberries, Pine Apples,** could there be a more luscious combination of flavors. It is within itself a **three-fold pleasure**, viz., to look upon, to smell and to eat. A vigorous grower; berries large size, round and well shaped, beautiful crimson color, about same firmness as Haverland; a perfect bloomer and an **abundant bearer**, valuable, alike for both home garden and market. Its great beauty and decided pine apple flavor make it a variety that commands a higher price on the market than the ordinary strawberry. We have fine plants of **Pine Apple** and we will send only fresh dug ones so you will surely succeed. We hope we may have an order from each and every person receiving our catalog for Pine Apple Strawberry Plants, for it will be an advertisement for us that will do us good. In view of this, we are offering them at a very low price for a variety so valuable. Price, 50c per dozen, post paid; \$1.00 per 100; \$5.00 per 1,000.

MEADE (Per.) A splendid grower, producing plants that are large and stocky with good dark green leaves. Berry of large size, globular with good firm texture, valuable for market and home gardens. Price, 50c. per dozen; \$1.00 per 100; \$5.00; per 1,000.

large, mostly irregular, often scarlet, glossy, beautiful, al-

Glen Mary. (Per.) Vigorous and prolific. Berries flattened and ribbed, but seldom cockscombed. Dark though an occasional specimen is not well colored. Flesh light red, moderately firm and of good quality to eat. In productiveness it seems to excel almost all varieties of its season. Considered by many growers as one of the best large varieties, although a very rough berry, its immense size makes it a valuable sort. Price, 25c. per dozen; 75c. per 100; \$4.00 per 1,000.

REPEATER**A NEW STRAWBERRY
Two Crops in One Season**

REPEATER. (Per.) For several seasons past our attention has been called to a strawberry which made its appearance in market in September, and we were at first loath to believe that the fruit could be obtained under natural conditions at that season of the year. Investigation, however, showed that such was the case; the fruit was picked in the open field from the same plants that produced a bounteous crop in June. The fruit is very large when full grown, a glassy crimson, delicious flavor, and a great point in its favor is that it is very easily hulled. It is a perfect blossomed variety, medium to late.

The above is a description by the originator. We now have a fine supply. If any of our customers wish to try it, we will furnish plants as follows: Price, 50c. per dozen; \$1.00 per 100; \$5.00 per 1,000.

CLIMAX. (Per.) This valuable new variety comes from Maryland and was grown from seed of Bubach, crossed with Hoffman. In time of ripening it is but a few days later than Excelsior and almost as large as Bubach, while in yield, is far ahead of this old favorite. Each berry is a perfect specimen. No misshapen or knotty fruit to sort out or bother with. Yields are reported from its native state from 300 bushels to 500 bushels per acre. Another very valuable point is its firmness, being a valuable berry for long shipments. Too much cannot be said for this valuable new production, and no one should fail to have it in their collection of valuable new varieties. Price, 25c. per dozen; 75c. per 100; \$4.00 per 1,000.

REPEATER

OREGON EVERBEARING (P). As its name indicates, this variety was originated in Oregon, and our stock came direct from the parent plants. It is without question one of the great new berries of recent introduction. We fruited it with fine success. It is a most vigorous grower and adapted to all soils and locations. Berry round and plump, very juicy, mild and on the Pacific Coast they consider it the greatest berry known. We consider it an indispensable variety and recommend it to all growers. With us it is not strictly an everbearing variety, although we found fruit as late as August 15th, with a favorable season we believe it will continue to bear through September. Price of plants, 75c. per dozen, postpaid; \$2.00 per 100; \$10.00 per 1,000.

WONDER

WONDER (Per.) This variety begins ripening about the same season as Wm. Belt. As name implies it is a wonderful berry, very large and is borne on good strong plants with dark leaves and stocky stems. Fruit has a good rich quality of good color and quite firm. It should be in every collection. Price, 25c. per dozen; 75c. per 100; \$4.00 per 1,000.

GILL

GILL. (Per.) A new variety of splendid promise. One of the very earliest to ripen its fruit at the Ohio Experiment Station season of 1906. It makes an abundance of small stocky plants well loaded with fruit of good size. The bulk of the crop is ripened early, and is far superior to the Excelsior in quality. Price, 50c. per dozen; \$1.00 per 100; \$5.00 per 1,000.

NEW YORK

NEW YORK. (Per.) This is the big fellow that won the \$100.00 in gold which was offered in 1897 for twelve plants of any variety of strawberry that would produce as much fruit of as large size and good quality as the Glen Mary. There were were a good many new varieties put in competition for this prize, but none of them came anywhere near winning it except this big fellow, which was named "New York," in honor of the state in which it originated. Growth of plant is very large and stocky, equaling in this respect the very largest. Season medium, color dark scarlet, changing to crimson when fully ripe. Colors all over at once, no white or green tips. Usually perfect in shape and very productive and firm. The New York is a seedling of Bubach No. 5, fertilized with Jessie, and is one of the best varieties for hill culture. Price, 25c. per dozen; 75c. per 100; \$4.00 per 1,000.

ROUGH RIDER

ROUGH RIDER. (Per.) A seedling of Eureka, fertilized by Gandy. It is a good runner and enormously productive. Berries very large, color dark red like Gandy. What makes it especially valuable is its extreme firmness which enables the grower to ship to very distant markets. It is also a late berry, which taken in connection with its great size and attractive appearance, cannot fail to make it one of the most valuable varieties grown. The originator received \$1,150 from his patch of a little over two acres, half of which were old beds. Price, 25c. per dozen; 75c. per 100; \$4.00 per 1,000.

WARFIELD. The plant is a very vigorous grower, exceedingly productive, bears picking daily. The berries are of good quality, dark color, medium size, firm, regular in size; sub-acid. A very profitable berry for nearby or distant market. Season early. Price, 25c. per dozen; 50c. per 100; \$3.00 per 1,000.

SENATOR DUNLAP (Per.) A well-tested, wonderfully-productive variety, one of the safe sorts to plant everywhere and sure to take a high place among the prominent standard sorts. Plant resembles Warfield, rampant runner, should be restricted in its production of plants, fully equal to Crescent and Warfield in its ability to succeed under all circumstances. Fruit good size, regular form, beautiful bright red, glossy, firm, splendid keeper and shipper, excellent quality; one of the best for canning; ripens early and continues a long time. It promises to stand at the head in its wonderful ability to ripen a good crop under almost any condition of drought or neglect. Price, 25c. per dozen; 50c. per 100; \$4.00 per 1,000.

BEDER WOOD (Per.) It ripens about three days behind Mitchell's Early, and a full week ahead of Crescent; gives heavy pickings from the start, and holds out until the rush of midseason. Price, 25c. per dozen; 50c. per 100; \$3.00 per 1,000.

NEW HOME (Per.) Introduced in 1905 and has been thoroughly tested over a large scope of country. It is as late as Gandy, and produces fruit of a bright red color that holds its lustre well after being picked. Produces well on either high or low ground. Easy to pick and ranks among the first in productiveness. Price, 25c. per dozen; 75c. per 100; \$4.00 per 1,000.

HAVERLAND. A grand market berry; early and immensely productive. Berry large, somewhat long and pointed in shape; a standard sort for market. Price, 25c. per dozen; 75c. per 100; \$4.00 per 1,000.

NETTIE. One of the latest berries grown; this combined with its immense size and productiveness makes it a sure money-maker. The berry is of a light color, acid flavor, very popular in the east where it originated, and growers there claim it to be much later than Gandy and brings the highest price of any berry on the market. On our own grounds it bids fair to be one of our very best commercial sorts. We advise our customers to give it a thorough trial. Price 50c. per dozen; \$1.00 per 100; \$5.00 per 1,000.

BRANDYWINE (Per.) This variety is well known, and has been quite thoroughly tested. It is now regarded as one of the best late sorts known. The berries are all large well colored and firm. The bulk of the crop ripens very late. It is rather later than Enhance and far more attractive in appearance. Where lateness is desirable, it has quite generally proved satisfactory. Price, 25c. per dozen; 50c. per 100; \$4.00 per 1,000.

GANDY (Per.) This is not a new berry, but one whose value as a profitable market sort has been overlooked. Its season is very late, and is in its prime when most other sorts are gone, or so nearly so as to be very inferior. The fruit is large, handsome and uniform, and makes an excellent showing on the market. While it is claimed by many to be a shy bearer, we find that it yields a fair quantity of berries the first year, and improves with age until it becomes four or five years old. In our markets we find that the price always advances in the latter part of the season, when most other berries are gone. Prices, 25c. per dozen; 50c. per 100; \$4.00 per 1,000.

SAMPLE. "Large size and fine quality, quite firm; continues a long time in fruit. The berries are large to the last. For the market men it is the best strawberry ever grown. It will yield as many berries as the Haverland, and will average as large as Bubach. Colors all over at once. A berry that will do that is the best one found yet. There is not a weak spot in it. Foliage Perfect. Needs no petting." Price, 25c. per dozen; 75c. per 100; \$4.00 per 1,000.

Price List of Strawberries

PRICE LIST OF STRAWBERRY PLANTS. All marked (Per.) are perfect blooming varieties. All others are imperfect and must be planted beside the perfect blooming kinds. Prices named are for plants by mail postpaid at dozen rates. If 100 plants are wanted by mail, add 15c. extra to pay postage.

FENDALL STRAWBERRY. (Imp.) Its claims by the originator: First, Great vigor of plant growth. Second, Large size and delicious flavor. Third, Length of bearing season. Fourth, Wonderful productivity. Fifth, Splendid root system. Sixth, Beauty and symmetry of form. Seventh, Yielded at the rate of 525 bushels per acre. Eighth, Col. Brackett (Chief of Plant Division of the Agricultural Department, Washington, D. C.) picked and carried a quart of Fendall to Washington which required but nine berries to fill a quart.

Fendall is a good grower on our ground; produces very large fruit; begins ripening fruit early and continues through a very long period. The plants make a clean healthy

growth, plenty of runners, and is a desirable fruit. Price, \$1.00 per doz. postpaid; \$2.00 per 100; \$10.00 per 1,000 by express.

RASPBERRIES

CULTURE. Raspberries will do well on any soil that will produce a good corn crop. Land should be thoroughly prepared and well enriched. Keep well cultivated and free from weeds and suckers. As soon as they have done bearing, cut out the old wood to give more vigor to the young canes. Plant in rows six feet apart, and two and one-half feet apart in rows.

We grow the finest Raspberry Plants in the World. There is no Doubt But Our Varieties are the Kinds That Make Money.. They Have Done it for Us. They Will do it for You.

CUMBERLAND

MUNGER. Another season only proves the superiority of this grand new black cap. It is no doubt the very best of the late kinds. Fruit very large and firm, juicy and splendid for canning. Canes upright and strong growers. Fruit easily sells for 50c. per bushel in advance over other black caps. An improvement over Gregg., which it resembles in cane and fruit. You can safely plant it for either home use or market. Price, 50c. per dozen; \$1.50 per 100; \$12.00 per 1,000.

CUMBERLAND. In hardiness and productiveness it is unexcelled by any other variety. In size, the fruit is simply enormous, far surpassing any other sort. The berries run seven-eighths and fifteen-sixteenths of an inch in diameter, and are of such handsome appearance that their fruit sold for 10c. per quart, when other varieties were selling for 5c. to 7c. per quart. In spite of its unusual size, the fruit is possessed of its great firmness and is thus well adapted for standing long shipments. It follows Palmer and Souhegan and precedes Gregg a short time, making it a mid-season variety. The bush is exceedingly healthy and vigorous, throwing up stout stock canes, well adapted for supporting their loads of large fruit. It has also shown itself remarkably free from that scourge of its family, anthracnose. Large growers report yields of two

and three times as much per acre as Ohio, under same conditions, and far ahead of other varieties. Price, 50 cents per dozen; \$1.50 per 100; \$12.50 per 1,000.

BLACK DIAMOND. A berry very popular among western New York growers, a fruit center that stands among the very first. Valuable for evaporating, canning and home consumption. One of the strongest growers making an abundance of good, clean wood which ripens up well in the fall, thus enabling it to withstand the cold winters remarkably well. Fruit jet black and juicy with few seeds. Season about the same as Kansas. Well worthy of a trial. Price 50c. per dozen; \$2.00 per 100; \$15.00 per 1,000.

BLACK DIAMOND

EARHART ✱ Everbearing ✱ Black Raspberry

EARHART EVER BEARING RASPBERRY. Actually bears continually from June 1st until killed by frost in September. The canes are literally loaded with fruit in all stages from bloom to ripe fruit. Creates the greatest surprise when shown at fairs and horticultural societies. Has no equal as an ever-bearing variety. A great novelty and a very valuable one as well. Price, 20 cents each; \$2.00 per dozen, mail postpaid.

GREGG. An old variety of merit too well known to need description. Price, 25 cents per dozen; \$1.25 per 100; \$10.00 per 1,000.

CONRATH. A Blackcap coming originally from Michigan. Compared with Gregg, they are two weeks earlier, hardier, less subject to disease, and fully equal to that variety when at its best in productiveness and quality of fruit." Price, 25 cents per dozen; \$1.25 per 100; \$10.00 per 1,000.

GAULT. An ever-bearing raspberry originated in Ashland County, Ohio. Fruit is large, some specimens having measured three inches in circumference, and of excellent flavor. The first crop commences to ripen with Gregg, and continues in bearing for three or four weeks, in which time the new canes begin to bear and continue to bear until checked by the frost. This berry comes well recommended. Price, 15 cents each; \$1.00 per dozen; \$3.00 per 100.

KANSAS. A variety of worth. It ripens a few days after the Eureka, and is of large size. Canes quite thorny and covered with thick bluish bloom. Price, 25 cents per dozen; \$1.25 per 100; \$10.00 per 1,000.

PALMER. Perhaps the best of the earlier varieties of earlier kinds. Fruit large and good size. Bush a vigorous grower, and very productive. Price, 25 cents per dozen; \$1.25 per 100; \$10.00 per 1,000.

EARHART EVERBEARING. Greatly reduced from actual photograph.

EUREKA. Ripens early with Palmer; fruit firm, of large size, equalling Gregg; superior quality, free from bloom, making it very attractive in fruit box; brings the highest market price. Strong grower, very hardy, healthy foliage, and in some localities stands at the head of productiveness. Price, 25 cents per dozen; \$1.25 per 100; \$10.00 per 1,000.

PLUM FARMER. A variety from northern New York, and a few days later than Palmer; maturing the entire crop in a very short period, making one of the most profitable early market sorts. The berries are thick-meated, firm with a bloom similar to Gregg. Berry large and very attractive when picked ready for market. Worthy of trial in the home garden and commercial field. Price, 50 cents per dozen; \$2.00 per 100; and \$15.00 per 1,000.

Ten-acre block Raspberries in Fruiting season—over sixty pickers at work. Cumberland, Black Diamond, Haymaker, King and Kansas make a good list for market.

Red and Purple Raspberries, Very Profitable Sorts for City Markets and Quite Productive.

HAYMAKER. This valuable new raspberry is certainly the greatest acquisition, of years in raspberries of its class. From actual figures Haymaker returned a net profit of over \$300.00 per acre last year. Growers coined money from it. The Haymaker is a purple cap not so dark as Columbian or Shaffer, larger and and much firmer than either

"HAYMAKER" THE NEW RASPBERRY

of those varieties, never crumbles and stands up well in shipping. It is a berry to grow for either home use or market. The originator has found it the most profitable berry ever raised for market and has never yet been able to supply the local demand. Recommended by experiment stations and leading Horticultural Societies everywhere. It certainly is a leader. Price, 10c. each; 75c. per dozen; \$2.50 per 100; \$20.00 per 1,000.

THE NEW CARDINAL RASPBERRY. This wonderful berry is a surprise in the fullness of its merits—its great growth, extreme hardness, and the exceeding productiveness of its choice purple, pure-flavored berries. It will pay. It is not a novelty, but a variety of great merit. The new Cardinal will grow ten feet, and bears in proportion. Leading horticulturists who have seen this berry say that it is one of the wonders of the century, so far exceeding all others as to put it entirely beyond comparison. Judge Wellhouse, president of Kansas State Horticultural Society, said at the meeting of the society that the introduction of the Cardinal Raspberry would add millions to the wealth of the farmers of the country because of its inherent great vigor and exceeding productiveness. Price, 10 cents each; 75 cents per dozen; \$2.50 per 100; \$20.00 per 1,000.

New Cardinal Raspberry.

MILLER'S RED. Very early. Berries bright red, large and hold their size to the end of the season. Very firm, hence valuable to ship to distant market. Price, 25c. per dozen; \$1.00 per 100; \$8.00 per 1,000.

LOUDON. The superior points of this excellent red raspberry are vigor of growth, large fruit; beautiful rich dark, crimson color; good quality and marvelous productiveness and hardness. Season medium to late. Price, 50c. per dozen; \$2.00 per 100; \$15.00 per 1,000.

CUTHBERT. A leading market variety for main crop. Price, 25c. per dozen; \$1.50 per 100; \$10.00 per 1,000.

COLUMBIAN. A purple variety once very popular, but now superceded by Cardinal and Haymaker. Price 50c. per dozen; \$1.75 per 100; \$15.00 per 1,000.

Note.—If raspberries are wanted sent by mail add 10c. per dozen; 30c. per 100 extra for postage except when marked postpaid.

EATON. A new red raspberry that is entirely distinct from all other varieties. In character of growth, in size, color, firmness and yield of fruit. In length of season, and in all strong points of merit it stands unequaled and alone. A variety that is at once perfectly healthy in root and foliage, and hardy—coming through our most severe winters in prime condition—a strong—"not tall and slender," but a sturdy grower, throwing out many laterals, and fruiting to the tips and from every lateral a sight to see, an immense crop-per, by far outyielding any red raspberry we have ever known, while

EATON

the fruit is extraordinarily large and handsome, firm and of the highest quality.

There is nothing better being very large, solid and good keepers. Season lasting about six weeks. Can gladly recommend them to anyone wanting fine fruit. Price, 15c. each; \$1.00 per dozen, postpaid; \$5.00 per 100 by express.

KING

KING. The earliest Red Raspberry on record. It is the early Red Raspberry that makes the big money—often sell for 25c. per quart. you want to add this one to your collection.

"Round, medium size; light crimson colored; firm and of excellent quality. A seedling of Thompson and ripens about the same time, but larger and more productive."

King is in a class by itself. Nothing compares to it in yield, beauty, firmness or size. Supply very limited, order at once. Our plants are genuine. Price, 75c. per dozen; \$2.00 per 100; \$15.00 per 1,000.

RUBY

RUBY. A seedling of the well known variety "Marlboro." It is a strong grower of large hardy canes, and a good plant maker. It ripens with the earliest, and continues picking a long season. Its fruit is large, bright red in color, exceed-

RUBY

ingly firm and of a good flavor. It stands shipment long distances, being shipped daily from this point to Boston through its whole season. It has been grown commercially for seven years, and to-day stands ahead of all others as a berry for the grower to plant for profit. Price, 10 cents each; 75c. per dozen, postpaid; \$3.00 per 100 by express.

Road to Success.'

BUCKEYE

EVERBEARING

BUCKEYE EVERBEARING. Our attention was called season of 1906 to a report in one of the leading produce journals, of an ever-bearing red raspberry that was being sent to market by a farmer in small quantities during the months of August, September and October. This unusual occurrence attracted attention and investigation was made; supposing, of course, it to be a myth; however, to our surprise we found the statement to be correct. We immediately procured the entire stock of this berry and planted it during the month of November. In August, ten months after planting these plants, we found them loaded with ripe berries, green berries and bloom, and they continued bearing until checked by the frost in early October. It is not ripening a few berries, as is the case with most ever-bearing raspberries, but ripens them in quantity regularly and continuously. We now have several hundred plants fruiting on our own farm and are now (October 1st) loaded with bloom, green fruit and luscious ripe berries. Price, 25 c. each; \$2.00 per dozen; \$15.00 per 100.

HERBERT RED RASPBERRY. The Herbert Raspberry was originated in Ottawa, Canada. It has undergone a thorough test beside all the older varieties, as well as the later introductions, and has completely outclassed them all. This wonderful Raspberry is certainly a fitting tribute to the originator, for the zeal he has displayed in the interest of horticulture.

It stands severe winters, even 40 degrees below zero, absolutely uninjured, and has never failed to produce a heavy crop of the most delicious fruit. It is a recognized fact that the farther north any fruit is grown, the better is its quality, and this "Child of the North Land" is no exception to the rule. The fruit is as large as the largest. It is as rich and highly flavored as the best, and far exceeds any other kind in hardness, rugged, thrifty constitution of plant, and is much more productive than any other kind.

Price, good plants, 15c. each; \$1.50 per dozen; \$10.00 per 100.

THE LOGAN BERRY

THE LOGAN BERRY. A hybrid between the Raspberry and Blackberry. The fruit is as large as the largest Blackberry, and is produced in immense clusters. The color is clear, dark red. It partakes of the flavor of both the Blackberry and the Raspberry—mild, pleasant, vinous flavor, delicious and peculiar to this berry alone. Seeds small, soft and few. Berries very firm, and carry well. Strong grower; enormous bearer. Fruit ripens early, just after Strawberries. Not hardy north of 40th parallel. Price, 20 cents each; \$2.00 per dozen, by mail, postpaid.

THE LOGAN

BLACKBERRIES

We excel in growing fine Blackberry Plants. Our assortment is perhaps the largest of any grown in the United States. Our plants are mostly root cuttings, and as fine as can be grown. You make no mistake in ordering your Blackberries of us, as both our price and stock are right.

BLOWER BLACKBERRIES

27 BERRIES FILLED THE BOX LEVEL.

THERE ARE 40 BERRIES IN THIS BOX.

The Berries Were Not Selected.

This Photo Shows Average Size.

BLOWER. The berries are very large, equal in size to any blackberry we have seen. The bush grows well and is a very valuable new variety. It comes from the state of New York and the introducer makes the following claims for it, besides furnishing a long list of testimonials from good authorities all over the East:

Price, 15c. each; \$1 per dozen; \$3 per 100; \$25 per 1000

Introducer's Record

SEPTEMBER 6, 1909

2694 Berries on one Bush

14 feet and one inch extreme height.

ON SEVEN ACRES

30,206 quarts; 45,307 pounds; $27\frac{2}{3}$ tons; $943\frac{1}{16}$ bushels.

\$2,121.75 net F. O. B. our station; \$303.10 average per acre.

153 bushels netted \$344.25 from best acre.

KENOYER

KENOYER. This variety is a cross between Kittatinny and Early Harvest, and was originated in Kansas. It is about the same season as Early King. Fruit large and luscious. The canes are strong growers resembling Kittatinny in wood and leaf. This variety will produce well in almost any soil especially on thin clay land where other varieties would not produce at all. It is well worthy of a trial, as we consider it one of the best early berries. Price, 10 cents each; \$1.00 per dozen; \$3.00 per 100.

KENOYER

ICEBERG, THE WHITE BLACK-BERRY. Strange as it may seem this is a real creamy white blackberry. Mixed with the jet black ones for dessert it makes a most wonderful dish. The fruit is about the size as Snyder with few seeds and quite sweet when fully ripe. The bushes are good strong growers and very productive. This is not a worthless novelty, but a fruit of real value, and should be in every garden and commercial collection as well. Price, 10 cents each; \$1.00 per dozen; \$5.00 per 100.

Scarff's Fruiting Strain Early Harvest

150 Bushel "Scarff's Fruiting Strain Early Harvest from one acre sold as high as \$4.00 per bushel. The earliest to ripen and the most productive of the early sorts. There are a number of different strains of Early Harvest Blackberries, all alike in appearance of wood and growth, but vastly different in productiveness. We noticed this peculiarity soon after its introduction, and have, by careful system of selection, selected a strain that is simply marvelous for great yields of luscious fruit. We have not only increased the productiveness, but size as well, and now have an early variety that cannot be excelled; as it ripens so early that it always sells at enormous prices. Price, Scarff's Fruiting Strain Early Harvest, 25 cents per dozen; \$1.25 per 100; \$10.00 per 1,000.

A Book for You

We are going to present each of our customers a little book on **Transplanting and Afterculture of Trees, Scruberry, Etc.** Valuable to everyone who plants a tree, vine or plant; will be mailed on receipt of your order.

Ancient Britton

ANCIENT BRITTON.

One of the best hardy varieties. Very vigorous, healthy and hardy, producing large fruit stems, loaded with good-sized berries of fine quality that carry well and bring highest price in market. For general planting for home or market in all sections subject to severe winters, the Ancient Britton is recommended as a first-class variety. Price, 50c. per dozen; \$3.00 per 100.

AGAIVAM. Medium size; jet black; is valuable especially for home use. Price, 30c. per dozen; \$1.50 per 100; \$10.00 per 1,000.

WAUCHESETTS. (Thornless.) Remarkable from the fact it is almost entirely without thorns. Strong grower; fruit fair size; sweet and moderately productive. Price, 75c. per dozen; \$2.00 per 100.

EARLY KING. An extra early and exceedingly hardy variety of great merit. Canes of strong growth, as hardy as Snyder, and very prolific. It is larger than Early Harvest, and its delicious sweetness renders it of special value for the home garden. Highly recommended by the experiment stations. Growers coin money on this variety on account of its hardiness, large size and earliness. Be sure to add it to your collection. Price, 50 cents per dozen; \$2.00 per 100.

TAYLOR. Berry medium size; jet black; ripens late; of much value, as it comes in after main crop of Snyder and other kinds are gone. Bush strong grower. Price, 25 cents per dozen; \$1.50 per 100; \$12.00 per 1,000.

WILSON EARLY. Good market variety; berry very large, sweet, good. It is a prolific bearer. Early. Price, 25 cents per dozen; \$1.25 per 100; \$10.00 per 1,000.

KITTATINNY. An old variety of great value where it is not affected by rust. Fruit large; berry long and ripe as soon as black. Medium early. Price, 25 cents per dozen; \$1.25 per 100; \$10.00 per 1,000.

SNYDER. Every one knows Snyder to be an old favorite and valuable for main crop. Price, 25 cents per dozen; \$1.25 per 100; \$10.00 per 1,000.

OHMER. (Purchased from the disseminator of the Gregg Raspberry.) Hardy, healthy, very large; ripening after raspberries are gone, and lasting till late in August, when prices are up. Excellent quality; firm; no core. Five points will recommend this berry; Hardy, late, large, productive, and of the finest flavor; also brings 50c to \$1.00 more a crate than Snyder or Taylor. As large as the largest; as hardy as any good berry; very productive; strong grower; finest quality, and late. Price, 50c per dozen; \$2.00 per 100; \$15 per 1,000.

SCARFF'S FRUITING STRAIN FRENCH LAWTON. A selected fruiting strain from the old Lawton, once so popular among fruit growers. We have improved the variety until its fruiting capacity is simply marvelous. The berry is long, juicy little core, large size and glossy black color. Canes very strong, upright forming tree shaped bushes, bears so full of fruit that it should be heavily mulched or well cultivated to furnish

plenty of moisture to mature the great yield of fruit it is capable of producing. Price, 50 cents per dozen; \$3.00 per 100.

MERSEREAU

This early, mammoth, iron-clad Blackberry is by far the most valuable variety that has appeared since the advent of the Wilson, over 30 years ago. It originated in northwestern New York, where the mercury falls from 15 to 25 degrees below zero, and where it has stood in open field culture for many years without the slightest protection, never being injured in the least. It has never had a leaf affected with orange rust, blight or other disease, or produced a double or "rose" blossom.

In quality, it is exceptionally sweet, rich, melting and luscious, being without core; the seedy character of Snyder and most other sorts is noticeably absent. As a shipper and keeper it is unsurpassed, remaining firm without "bleeding" in handling.

The canes are of exceedingly strong, upright habit, attaining upon fairly good soil a height of 3 feet, if permitted to grow unchecked, and are so stout as to always remain erect; foliage large, deep green, abundant and entirely free from rust or blight. The yield is simply enormous, producing double the quantity of fruit per acre of the Snyder, Kittatinny or Taylor's Prolific, and affording heavy pickings from the first until the crop is all matured. Its season is early to mid-season, ripening with the Snyder—in advance of Kittatinny, Lawton, Taylor's Prolific or Erie, but not so early as Early Harvest or the Wilson. Price, 75c. per dozen; \$2.50 per 100; \$20 per 1,000.

Stone's Hardy

STONES HARDY. Strong grower; perfectly hardy, canes full of spines. In order to get best results it should receive thorough cultivation or heavy mulch, and thoroughly pruned, as it sets more fruit than it can mature properly under ordinary cultivation. Price, 50c. per dozen; \$1.50 per 100.

ERIE

ERIE. This is a hardy variety, a vigorous grower, and quite productive. Foliage clean and free from rust. Fruit large and of good quality. Price, 50c. per dozen; \$2.00 per 100; \$15.00 per 1,000.

ELDORADO

ELDORADO. This is one of the valuable varieties for market and home use. It is a strong, upright grower, moderately full of thorns. About equal in productiveness to Snyder. The fruit is jet black, never coloring red after picking, fully as large again as the average Snyder berry. The flavoring is excellent, differing from all others in this respect, imparting a rich, aroma, melting and juicy with but little core. This is unquestionably one of the finest. Highly recommended by experiment stations and growers everywhere. It will sell for 50c. to \$1.00 per bu. in advance of Snyder. We quote words of commendation from the following high authority: "This berry was noted last year, and is of much promise; so much that a special colored plate has been made. It is an oblong, irregular berry of large size, fruiting in pendulous, slender, hairy spikes with few thorns. Color black, flesh deep crimson, with tender core; flavor sweet, rich quality, and very good."

H. E. VanDeman, U. S. Agr.,
Washington, D. C.

Price, 50c. per doz.; \$2.00 per 100; \$18.00 per 1,000.

THE RATHBURN

RATHBURN. The berries are large, larger than Kittattiny, of an intense jet black, very glossy and of permanent color, never turns red, without any hard core, small seeds extra fine quality, with a peculiarly rich aroma, and sufficiently firm to carry well to market. It is in habit of plant, however that this variety differs from others. The plant suckers very little; it makes a strong, upright stem, from which the branches start out long and drooping, and the ends of which root readily in the ground, like Blackcap Raspberries, if covered lightly with soil. It is not a dewberry, as one might suppose from this description, but simply a blackberry with the tip-rooting habit; its central stem is as erect and stout as that of any other blackberry. It forms a compact bush of four to five feet high, with canes much less thorny than other varieties, and yield abundantly. It ripens early—about with Wilson. All who want a large blackberry of the highest quality should certainly try this. Price, 10c. each; 75c. per dozen; \$3.00 per 100; \$20.00 per 1,000.

WARD BLACKBERRY. We quote description by a very prominent horticulturist who accompanied a committee from the New Jersey State Horticultural Society on a trip to the home of the Ward to look into the claims being made for it. "It was the most astonishing sight I have ever seen. Hedge rows were six feet apart, canes standing 4 to 4½ feet high, and some 2½ feet wide across, and the tops were such a solid mass of green, red and black berries as to almost exclude the foliage from sight. The ripe ones were big glossy black fellows, fully one-half larger than Snyder, rich sweet, tender and melting, with no hard core at the center. One-third of an acre yielded 60 bushels. This made \$544 per acre, which must have meant \$350 per acre profit. The canes are very hardy, never one having been known to winter-kill. A perfect blackberry is Ward. Price, 10c each; 75c. per dozen, postpaid; \$3.00 per 100 \$20.00 per 1,000.

✻ Premo ✻ Dewberry

Ward.

Much like Lucretia, but very distinct and exceedingly early, being seven to ten days ahead and all cleaned off when Lucretia is beginning. Quality and size uniform. Was found in a Lucretia patch. Price, 10c. each; 50c. per dozen; \$2.00 per 100; \$15.00 per 1,000.

LUCRETIA DEWBERRY. The berries are far larger and incomparably better than any blackberry, and of unequalled excellence; soft, sweet and luscious throughout; of brightest, glossy black color. Price, 25c. dozen; \$1.00 per 100; \$7.00 per 1,000.

AUSTIN DEWBERRY. Earlier than Lucretia, same size. Price, 25c. per dozen; \$1.00 per 100; \$7.00 per 1,000.

CURRENTS

WILDER.

CRANDALL. A native black seedling of the wild. Currant and considered by many to be much superior to any of the named varieties yet produced, distinct from the European black varieties and without their strong odor; exceedingly vigorous grower. The berry is of large size, being half to three-quarters inch in diameter. Price, 15c. each; \$1.25 per dozen; \$8.00 per 100.

POMONA. This valuable variety originated near Indianapolis about ten years ago and is grown almost exclusively by growers in that section for commercial purposes. The berry is medium to large, bright red and excellent quality. It hangs on the bush a long time after ripe, and is one of the best shipping varieties. It is considered the easiest of all varieties to pick; and has a record of making a net profit of \$461.00 per acre for three consecutive years on an acreage of 6¼ acres. This perhaps is best record of any currant grown. Price, good strong plants, 15c. each; \$1.00 per dozen; \$5.00 per 100.

No garden is complete without them. Easy to grow and sure to bear. Our list comprises only the very best in cultivation. Plant 3x6 ft. Use Paris Green for worms.

WILDER

WILDER. A remarkable variety, for which we predict great popularity; both for table and market. One of the strongest growers and most productive. Bunch and berries very large, bright, attractive red colors, even when dead ripe; hangs on bushes in fine condition for handling as late as any known variety. Compared with the celebrated Fays, is equal in size, with longer bunch, better in quality, with much less acidity; ripens at same time, continues on bush much longer; fully as prolific, in some trials largely outyielding it. Price, 15c. each; \$1.00 per dozen; \$5.00 per 100; \$40.00 per 1,000.

London Market

LONDON MARKET. The home of this valuable currant is Michigan, where hundreds of currants are grown for the Chicago markets. No other variety is so popular in that noted fruit section. The fruit is of good size, being larger than Victoria, Versailles and North Star. It begins ripening at an early age and is enormously productive. The bush is healthy and holds its leaves until snow flies. Valuable for the home gardens or commercial purposes. Price, 10c.; \$1.00 per dozen; \$5.00 per 100; \$40.00 per 1,000.

PERFECTION

A New Variety
from New York

It has been awarded many valuable prizes and medals, Certainly approved by the very highest authorities and should be tested everywhere as there is big money in growing large currants.

Perfection awarded the Barry Medal. The fifty dollar gold medal of the Western New York Horticultural Society, July, 1901, after three years' trial. The first fruit to receive this grand prize. Also received highest award given any new fruit at the Pan-American Exposition.

THE COLOR is a beautiful bright red. Size as large or larger than the Fay, the clusters averaging longer. The size of berry is well maintained to the end of the bunch. The perfection has a long stem from point of attachment to the bush to the first berry, making it easy to pick without crushing any of the berries.

PRODUCTIVENESS. The Perfection is a great bearer, resembling its parent the White Grape in this respect, superior to the Fay or any large sort with which we are acquainted.

THE SEASON OF RIPENING is about the same as that of the Cherry of Fay.

QUALITY. Rich, mild, sub-acid, plenty of pulp with few seeds. Less acid and of better quality than any other large currant in cultivation. The White Grape has always been considered one of the best varieties for table use, and the effect of this strain is plainly seen in the very fine quality of Perfection. (Read what Prof. Beach has to say about the quality of perfection.)

VIGOR AND HEALTHFULNESS. In habit of growth it is intermediate between its parent Fay and White Grape, with remarkably large, healthy foliage. Price, 25 cents each; \$2.50 per dozen; \$15.00 per 100.

NORTH STAR. Has proved to be hardy wherever tried without a single exception. Single berries of that short-bunched Cherry Currant can be grown a larger size than the North Star, but the average bunches of the latter are much heavier, while in quality the fruit is less acid and more agreeable to eat out of the hand than the Cherry or any other variety. In quality it is nearer the flavor of the Red Dutch than any other variety. Price, 10 cents each; \$1.00 per dozen; \$5.00 per 100.

RED CROSS. Jacob Moore, the originator, says: "Red Cross clusters are long and have well-necked berries, double the size of Victoria, and far superior in quality to Cherry or Victoria. Nothing will compare in quality with Red Cross but White Dutch, which is so small. Red Cross was first fruited in 1889. I have seen the fruit growing in such masses as to hide the upper branches from view. It is later than Cherry. The plant makes twice the growth of Cherry and yields two or three times as much fruit. I recommend it with confidence. I consider Red Cross one of the best of the new currants." Price, 15 cents each; \$1.00 per dozen; \$6.00 per hundred.

Currants and Gooseberry plants sent postpaid at price per single plant. If wanted by mail in large lots, add 15 cents per dozen; 50 cents per 100 additional to pay postage.

VERSAILLES. A currant of great beauty as bunches are long and berries of large size and excellent quality. Price, 10 cents each; 75 cents per dozen; \$4.00 per 100.

CHERRY. Strong grower; fruit very large, sometimes measuring one-half inch in diameter. Price, 10 cents each; 75 cents per dozen; \$4.00 per 100.

RED DUTCH. Berries medium; profuse bearer; bush very strong grower, and comparatively free from borers. Price, 10 cents each; 75 cents per dozen; \$4.00 per 100.

VICTORIA. Large; bunches long; berries bright red color of excellent quality; bush good grower; extremely hardy. Perhaps this is the best of the older varieties of currants. Price, 10 cents each; 75 cents per dozen; \$4.00 per 100.

WHITE GRAPE. The best white currant. Fruit large and sweet; bush good grower, and produces large crops. Price, 10 cents each; \$1.00 per dozen; \$5.00 per 100.

BLACK NAPLES. The best black currant for all purposes; will stand most any climate; valued by some for jellies; it is very productive and hardy. Price, 10 cents each; \$1.00 per dozen.

FAY'S PROLIFIC. Perhaps no other currant has received so much praise as has Fay. It is very large, and always sells well and at high prices.

We consider it does better on heavy clay soil, well manured and thoroughly cultivated, than on lighter soils. Price, 10 cents each; \$1.00 per dozen; \$5.00 per 100.

FILLER CURRANT

In the summer of 1907 the Rural New Yorker published a detailed description of the Filler Currant, as grown in Ulster County, New York. So wonderful was the productiveness, size and commercial qualities that we at once negotiated for 2000 of them to plant on our own extensive fruit farms. The Filler has not born yet, but its growth is splendid and foliage sticks until frost. It is described as large, productive, good quality, long bunches, easily gathered and hangs long on the bushes after ripening. All of which the grower recognizes as good points in the Currant. Stock limited. Price, 25 cents each; \$2.00 per dozen; \$15.00 per 100. One of the very best to plant.

GOOSEBERRIES

A good soil, thorough pruning, top dressing with manure are the essentials for a crop of gooseberries. For worms, use Paris Green or White Hellebore. For mildew, Potassium Sulphite, one ounce to four gallons of water.

Price of Gooseberries, 15c. each; \$1.50 per dozen; \$10.00 per 100.

JOSSELYN (RED JACKET)—Large Red variety.

DOWNING—Large Green, very prolific and valuable for market.

PEARL—Similar to Downing.

HOUGHTON—Medium size, red thin skin, very prolific. Valuable for canning and preserves. Very valuable.

MOUNTAIN SEEDLING—Strong grower, makes very large bushes, fruit large, rather thick skin, good for market, very hardy.

POP CORN

Scarff's Special Strains of White Rice and Golden Queen—Grown on our own farms. Will produce large ears and yield a very fine crop for you. Large packet, 10c; 3 packets, 25c; either variety.

Our Champion Grape Collection

One Strong Vine of Each Postpaid for \$1.00

This is the same collection we offered last spring. So great was the demand for it and it gave such universal satisfaction that we have decided to hold the offer open another year. The collection consists of eight of the very finest grapes grown. Just the thing for the home garden or for covering an arbor. The eight varieties are as follows, all strong one year vines:

BRIGHTON (red), **WYOMING** (red), **NIAGARA** (white), **MO. DIAMOND** (White), **CONCORD** (blue), **CHAMPION** (blue), **MOORE'S EARLY** (blue), **WORDEN** (blue).

Our price is so low that every one buys them. It is the most liberal fruit offer we ever made. Send order at once. Price, one good strong one-year vine of each, postpaid, only \$1.00 If extra heavy 2-year-old vines are wanted by express we can send the collection for \$1.25; express not prepaid.

GRAPES

CHAMPION (blue)—One of the earliest to ripen, practically free from rot or other disease, strong grower, compact bunches, quality fair size medium. It succeeds anywhere, and is good for covering arbor. Price, 15 cents each; \$1.50 per dozen.

WYOMING. (Red.) A popular market sort. Berry small; quality good; very productive and hardy, resembling Delaware somewhat; valuable for home use or market. Price, 15c. each, \$1.50 per dozen.

WORDEN. (Blue.) A valuable blue grape ripening from three days to a week before Concord. Berry large of good quality; thin skin; very productive; vine a strong grower. The most popular black grape grown to-day. It comes in early enough to avoid the rush of Concords, thus brings 1 to 3 cents per pound more. Price 15c. each; \$1.50 per dozen.

MOORE'S EARLY. (Blue.) A large blue grape, ripening a week earlier than Concord, good grower; berries large, good quality, and makes a moderate yield; very valuable as an early grape. Price 15c. each \$1.50 per dozen.

NIAGARA. (White.) The most popular white grape in existence. Fruit large and very productive; a good grower; ripening same season as Concord; equally good; valuable in every way. Price, 15c. each; \$1.50 per dozen.

Brighton. (Red.) One of the best red grapes in cultivation. Bunch large and compact; a strong grower and very productive; quality good. Price, 15c. each; \$1.50 per dozen.

CONCORD. (Blue.) An old variety does well wherever planted; good size; productive. Price, 10 cents each; \$1.00 per dozen.

MOORE'S DIAMOND. (White.) The color is a delicate greenish white, with a rich yellow tinge when ripe. Very few seeds, juicy, and almost entirely free from pulp, which makes it almost transparent. Berry size of Concord and two weeks earlier. Price, 15c. each; \$1.50 per dozen.

100,000 GRAPE VINES

We have a fine lot of 1 and 2 year vines for vineyard planting and if you will submit a list of your wants we will gladly quote you a special price per 100 and per 1,000. We can save you about 10% on your vines.

Select List of Fruit Trees

APPLES

The varieties named are beyond doubt the most profitable for market and best bearers for home use. You run no risk whatever in making your selection from us. Our trees will please you.

BISMARCK APPLE. Tree of short, stocky growth, thick healthy foliage; makes beautiful specimens grown in pots for decorative purposes. Fruit large, handsome, yellow, sometimes shaded red cheek; flesh tender; pleasant sub-acid. Entirely new in its remarkable quality of producing crops on young trees, seldom failing to bear when two years old. Price of trees, 35c. each; \$3.50 per dozen. By mail, 30c. each; \$3.00 per dozen.

Other Dwarf Apples

Can plant very close, 8 x 8 ft.

Very productive, usually commence bearing the second year after planting. Excellently adapted to yards and small gardens. Can furnish following varieties: Duchess, Maiden's Blush, Astrachan and Yellow Transparent, Early Strawberry. Must be sent by express or freight. Price, 35c. each; \$3.50 per dozen.

Winter Banana Apple

This valuable new apple is a surprise to all who eat it, owing to the decided Banana flavor and taste it imparts, besides it comes into bearing in two years from planting, and continues to produce full crops each succeeding year. The fruit is large, perfect in form, golden-yellow, beautifully shaded and marbled with bright crimson. Flesh, lemon-yellow, creamy texture like a well-ripened fall pippin, rich, of highest quality and a good keeper—from November until May. Tree a remarkable strong grower, of ironclad hardiness, with a large foliage that never blights or mildews and produces enormous crops every year. A truly wonderful fruit. First-class, each, 35c.; doz., \$3.50; per hundred, \$20.00. One year, by mail, each, 35c.; doz., \$3.50.

New Apple Collection

For only 75c. we will send postpaid one mailing size tree of Bismarck, Winter Maiden Blush and Winter Banana, 3 trees of each for \$2.00. One large tree of each by express for only 75c. Three large trees of each for \$2.00 by express.

Sold at \$12.00 Per Box

The entire crop of Hood River Banana Apples sold at \$12 per box of less than one bushel. The highest price ever paid for apples. Why not have a few good trees? Ours are genuine.

BISMARCK

DWARF APPLES

Bears abundantly at 2 and 3 years old.

Plant at least a dozen trees.

WINTER MAIDEN BLUSH or (Greenville). This variety is identical with Fall Maiden Blush, except in time of ripening and keeping qualities. It being a winter apple and a splendid keeper, the value of such a variety cannot be over-estimated.

This fine apple was produced from seed of the Fall Maiden Blush by Jason Wowning, in Darke County, Ohio, in the spring of 1874. It made a vigorous growth, and at the age of seven years it bore excellent fruit, from which time it has produced fruit annually. In 1888, at the age of fourteen years from seed, it yielded 15 bushels of picked apples. We have been noting the behavior of this apple growing it both in nursery and orchard, and from the weight of testimony in its favor, we have decided to grow it in quantities to supply the increased demand.

Price, 25c. each; \$2.50 per dozen.

Mailing size trees same price, postpaid.

WINTER MAIDEN BLUSH

SCARFF'S APPLE ORCHARD

25 choice trees, 4 to 5 ft. high, for only \$5.00. **Summer, Fall and Winter varieties.** 2 yellow Transparent, 1 Red Astrachan, 1 Sweet Bough, 1 Ea. Strawberry, 2 Maiden Blush, 2 Fall Pippin, 2 Rambo, 1 Bismark, 2 Winter Banana, 2 Winter Maiden Blush, 2 Baldwin, 1 Ben Davis, 2 Wealthy, 2 Rome Beauty, 2 Grimes Golden.

GENERAL LIST OF APPLES

Price of extra good trees, 25c each; \$2.50 per dozen; \$20.00 per 100. Good trees, 3 to 4 ft., 15c. each; \$1.50 per dozen; \$10.00 per 100. Mailing size, 20c. each; \$2.00 per dozen, postpaid.

EARLY HARVEST. Medium early; pale yellow; excellent fine flavor.

RED ASTRACHAN. Large, of crimson hue; beautiful; somewhat acid; withstands winters well; early.

SWEET BOUGH. Large, yellow, sweet, of excellent quality, and profitable as a market variety; early.

EARLY STRAWBERRY. Medium in size; roundish; excellent quality; productive. Ripens in July.

YELLOW TRANSPARENT.

Other Varieties.—Walbridge Mann, Pewaukee, Winter Rambo, Golden Russett, Wealthy Stark, Grimes Golden, Mo. Pippin, Wolf River, Greenville, Rome, Beauty, Arkansas Black, Gano, Jonathan Pewaukee, Rawles Janet, Salome, Tallman Sweet, Wagener, White Pippin, Wallridge, Winesap, York Imperial Yellow Bellflower.

CRAB APPLES. Varieties.—Gen. Grant, Hyslop, Whitney Transcendent. Price, 25c. each; \$2.50 per dozen.

YELLOW TRANSPARENT. Of a pale lemon cast; smooth skin; very good; the earliest apple to ripen and fine market sort. Best of the early varieties. Bears very early; often fruits in the nursery row at 3 years old. Be sure to include it in your collection.

DUCHESS OF OLDENBURG. Yellow striped with red; very good; a profitable variety on account of its productiveness. Autumn.

FALL PIPPIN. Very large; rich flesh; creamy white; not as productive as some varieties, but desirable for its extra quality. Early Autumn.

FAMEUSE. Size medium; roundish; striped with deep red on a white ground; juicy; vigorous grower. October.

MAIDEN BLUSH. An extra mid-autumn variety; whitish yellow, with carmine cheek. A most popular variety.

BALDWIN. Dark red; medium to large; slightly acid. Very popular on account of its flavor and shipping qualities. Early winter.

BEN DAVIS. Very large; red striped; not extra quality, but a good yielder, and sells well in market. Early winter.

FALLAWATER. Large; greenish yellow; fair quality. Keeps well, and very productive. Mid-winter.

CHERRIES

MONTMORENCY

Price, fine trees, 5 to 6 ft., well-headed and good roots, 40c. each; \$4.00 per dozen; \$30.00 per 100. Mailing size, 30c. each. \$3.00 per dozen postpaid.

GOV. WOOD. One of the best cherries. Large, light red, juicy and delicious. Tree healthy and a good bearer. Early June.

YELLOW SPANISH. Very large yellow and rich; a popular variety. Is of Spanish origin.

DYEHOUSE. In wood and fruit, it shows a percentage of both Morrello and Duke. Bears early and is a sure fruiter. A week earlier than Richmond.

EARLY RICHMOND. Dark red; medium size; very popular. A standard and time-tried variety. Early May.

WILD CHERRY. 5 to 6 feet. 25c. each; \$2.00 per dozen.

MONTMORENCY. Larger than Early Richmond, about ten days later, and is probably the best and most paying variety in cultivation.

Other varieties of Cherries, Louise Phillippe, Otheim, Rein Hortense, May Duke and English Morrello.

PEARS

STANDARD and DWARF

Prices, except where noted, fine trees, 35c. each; \$3.00 per dozen; \$22.50 per 100. Mailing size, 30c. each; \$3.00 per dozen, postpaid.

SECKEL. Small, skin rich, yellowish brown, when fully ripe, with deep brownish red cheek; flesh very fine grained, sweet, exceedingly juicy, melting in the mouth.

DUCHESSE. Very large, buttery, rich, juicy, excellent. It succeeds to perfection and is the most popular market variety as a dwarf.

KOONCE. This pear ripens about two weeks earlier than Early Harvest. It is not quite as large as Early Harvest, but of much better quality, and does not rot at core, as Harvests often do. The fruit is straw color, with red cheek, dotted with brown dots. Tree a vigorous grower; healthy foliage; is very hardy in bud and bloom.

WILDER EARLY. The claims of this pear are early ripening; productiveness, high quality and healthy growth; also long keeping qualities.

BARTLETT. Size large, with bluish next the sun; quite juicy; excellent flavor; fruits when quite young. One of the most popular. July and August.

CLAPP'S FAVORITE. Quite large; from green to yellow color; covered with russety specks; rich July and August.

LAWSON. Quite vigorous, upright growth; almost free from foliage disease, especially blight. Bears young and abundantly. August.

VERMONT BEAUTY. It is very vigorous, the leaves free from blight. It is an annual and abundant bearer. In quality the fruit approaches nearer that most delicious Pear, the Seckel, than any other Pear on the market. It is full-medium size, yellow, covered on the sunny side with bright crimson red; flesh melting, rich juicy, aromatic. Ripening with and after Seckel, though much larger in size and more attractive in appearance, it cannot fail to prove a general favorite and very valuable.

TYSON. Size medium; cheek reddish brown; melting, sweet excellent. August.

IDAHO. A chance seedling and a noteworthy variety. Will withstand a temperature of 30 degrees below zero. Its size and appearance somewhat resembles the Chinese Sand Pear, but it is far superior to it for eating. It is probably the best pear in cultivation. Large, handsome, core small. October.

KIEFFER'S HYBRID. An offspring of the Sand Pear and Bartlett; is very ornamental variety, owing to its beautiful foliage. Bears very young, often fruiting in the nursery row. Fruit never rots at core. September and October.

ROSSNEY. Ripens two weeks after Bartlett; it is an excellent keeper and shipper, with tree much stronger than Kieffer. In general appearance it somewhat resembles Bartlett, but is more round. It is very seldom you can find a single variety combining so many rare qualities as this does, and we have great pleasure in offering it as the best Pear on the market at the present time. Price, first-class, 40c each; \$4.00 per dozen.

"SCARFF'S PEAR ORCHARD"

15 choice trees for \$3.50.

1 Rossney (new), 1 Vermont Beauty (new), 2 Wilder, 1 Bartlett, 2 Clapp's Favorite, 2 Seckel, 4 Kieffer.

Scarff's Fine Peach Trees

Practically frostproof—It blooms very late and blossoms are very large, thus quite safe from damage by ordinary frosts. Safe and sure for planters everywhere.

MAYFLOWER PEACH. This new peach was originated in North Carolina, and is the earliest peach in existence; beside its color is perfectly red, which makes it one of the best and most profitable market sorts in existence. It is perfectly hardy, an abundant cropper, and should be in every collection of fruit whether for the home garden or for commercial purposes. Our stock comes from the originator, and can be relied upon as being genuine and first-class in every respect.

WITH SNEED SIDE BY SIDE IN THE SAME ORCHARD AFTER A FOUR YEARS' TEST.

The Mayflower is nearly one week earlier. The Mayflower is absolutely red all over, even before it is ripe enough to ship, while the Sneed, as a rule, has but little color.

The Mayflower is a better shipper than Sneed and sells for more money on the markets.

The Mayflower is the earliest peach known and the only extra early peach that has much color. Remember that the Mayflower is a red peach—perfectly red all over.

THE MAYFLOWER is a strong, thrifty grower, grows upright in the nursery, large, blooms, very prolific, rather inclined to overbear and should always be thinned. In size it much resembles the Alexander, being fully as large when properly thinned.

Price good trees, 30 cents each; \$3.00 per dozen; mailing size, 25 cents each; \$2.50 per dozen.

Standard Peaches

Price except where noted, good trees, 4 to 6 feet, 20c. each; \$2.00 per dozen; \$12.00 per 100. 2 to 3 ft. trees, 10c. each; \$1.00 doz; \$7.00 per 100. Mailing size 15c. each; \$1.50 dozen.

CARMAN. Large, resembles Elberta in shape; color, creamy white or pale yellow with deep blush; skin very tough, flesh tender, fine flavor and quite juicy. Ripens with Early Rivers.

CROSBY. Valuable especially for the unusual hardness of its fruit buds. Medium; bright yellow, with crimson splashes and stripes; very attractive; flesh bright yellow; red at the pit; juicy rich. An abundant and regular bearer. Ripens before Crawford's Late.

CHAMPION. Originated in Illinois. Very large, specimens having measured ten inches in circumference, skin creamy white, with red cheek; very handsome; will fruit under trying circumstances. August.

ALEXANDER. Quite large; flesh very juicy and melting; excellent.

BEER'S SMOCK. Large fine quality; a good shipper; color yellow.

CRAWFORD'S EARLY. One of the best early yellow peaches. Fruit large; yellow, with a blush cheek; very beautiful; productive. Last of July.

ELBERTA. Quite as popular as Crawford's Early. The best peach grown.

OTHER GOOD VARIETIES.—Early Canada, Crawford's Late, Foster, Globe, Honest John, Mountain Rose, Old Mixon Free, Shumacher, Steadley, Stump the World, Salway, Smock Free.

QUINCE TREES. Orange, 35c. each. Champion, 35c. each. Meeches Prolific, 40c. each.

Scarff's Peach Orchard

Twenty-five Choice Trees for \$3 00

3 Carman, 3 Mayflower, 4 Elberta, 4 Crosby, 4 Champion, 4 Smock and 3 Crawford.

PLUMS

BIG MONEY IN PLUM GROWING

The growing of plums is as profitable as any of the fruits. A few years ago the market for plums was rather discouraging owing to the over-production, and prices ran quite low; however, many have neglected and cut their orchards down. Plums sold readily this year at \$4.00 and \$5.00 per bushel. The plum trees will come into bearing in three or four years, and will produce from one to five bushels per tree. If planted in the chicken yard the curculio does not bother them, and you are sure of a crop each season. Planted in this way require no attention whatever. Our list of varieties will prove of the very best, and an orchard of 100 or more trees will prove a most profitable investment. Beside when planted in the chicken yard they furnish shade and shelter for the poultry, and each do better than if given separate plots. Let us have your order for at least 100 of our money making sorts.

Price, good trees, 30 cents each; \$3.00 per dozen; \$20.00 per 100. Mailing size, 30 cents each; \$3.00 per dozen, postpaid.

MOORE'S ARCTIC. Very hardy; a prolific bearer; dark purple; flavor fine.

NIAGARA. Large; reddish purple; green bloom; resembling to Bradshaw.

SHIPPER'S PRIDE. A large, blue plum; very hardy and productive; esteemed for market.

REINE CLAUDE. (Bavey's Green Gage.) Very large; greenish; fine flavor.

YELLOW EGG. A vigorous grower and abundant yielder of luscious fruit.

GERMAN PRUNE. A valuable Plum of fair quality for dessert, but most esteemed for drying and preserving. Long-oval, purple with a thick blue bloom; flesh firm and pleasant, separating from the stone. Moderate to vigorous in growth. September.

BRADSHAW. Very large fruit; dark red; flesh inclined to yellowish green.

LOMBARD. Size medium; bright red; sweet good. A variety valuable for market. A great producer of fine blue plums. Most popular variety of blue plums grown.

Plums and Poultry

The poultry destroys the insects.
The insects "makes hens lay."

GERMAN PRUNE

JAPANESE PLUMS

ABUNDANCE. A very early bearer, it often bears fruits in the nursery row. It bears such loads of fruit that it is often necessary to prop the limbs to keep them from breaking. Fruit large, beautiful and of an amber color. Flesh yellow, tender, sweet.

RED JUNE. A vigorous, hardy, upright, spreading tree, as productive as Abundance, with fruit as large as that standard variety; deep vermilion-red, with handsome bloom, very showy; flesh, light lemon-yellow, slightly sub-acid, of good and pleasant quality, half-firm; pit small. Reliability of tree, size and beauty of fruit, its early ripening and fine keeping qualities make it a prize winner.

BURBANK. It is the most promising of any variety of Japanese origin. Vigorous, strong branches. Fruit almost curculio proof. A good shipper. June.

APRICOTS

HARRIS HARDY. The fruit is fully as large as the best Apricot grown in California, and so much better quality as to make and hold a place in the market against the very best from California. Price, 35 cents each; \$3.00 per dozen.

NECTARINE. A very delicious smooth skinned fruit, which thrives wherever peaches will grow. Price, 35 cents each; \$3.00 per dozen.

Scarff's Plum Orchard

15 Splendid Trees, 4 to 5 ft. for \$2.75

Special for the chicken yard.

This makes a complete orchard of best fruiting kinds that will begin bearing in a few years.

Varieties: Lombard Burbank, Abundance, German Prune, and Moores Arctic, or we will send 30 trees of above for only \$5.00.

OUR NOVELTY FRUIT COLLECTION

These new and rare fruits will prove very interesting and of some value; entirely different from ordinary fruits, and should be planted by everyone loving rare specimens.

Strawberry-Raspberry

Valuable for the extreme north, as the fruit is born on the young growth, and is of course hardy in any climate. This is an entirely new fruit, both in habit of growth and form of fruit.

Bushes grow 1 to 3 feet high, and are covered with Raspberries in the shape of Strawberries.

They are upright in manner of setting. Perfectly hardy, bound to become a valuable addition in the fruit line. It is very productive and a distinct novelty in small fruits. 15 c. each; \$1.00 per doz.; \$6.00 per 100.

Beautiful Strawberry-Raspberry

ROCKY MOUNTAIN CHERRY IMPROVED DWARF. This is a shrub, which originally grew wild in the mountains. The fruit has been greatly improved by cultivation and is claimed to be, when fully ripe the best fruit of its season. The fruit is jet black when ripe, and in size averages somewhat larger than the English Morello. Its flavor is similar to the sweet cherries. The introducer says: "I could sell wagonloads of these cherries at 10 cents per quart. They never failed to bear fruit each year; late frosts never affect them; the tree is entirely hardy; it has endured 40 degrees below zero without injury; Price, 20c. each; \$2.00 per dozen.

Dwarf Rocky Mountain Cherry.

ting for ornamental purposes alone. Price, 25c. each; \$2.00 per dozen.

IMPROVED DWARF JUNE BERRY. A good substitute for the large or swamp huckleberry, or whortleberry, which it resembles in appearance and quality. The fruit is borne in clusters, and is reddish purple in color, changing to a bluish black. In flavor it is mild, rich sub-acid; excellent as a dessert or fruit canned. The bushes are extremely hardy, enduring the cold of the far North and heat of summer without injury. When this fruit becomes better known to the public it will be very popular. It is much larger and better flavored than the mild Juneberries. 10c. each; \$1.00 per dozen, postpaid; \$5.00 per 100 by express.

JAPANESE WINEBERRY. Ornamental both in fruit and plant. Canes covered with purplish red hairs. Fruits in large clusters and each berry at first tightly enveloped by the large calyx, forming a sort of burr, which is covered with purplish red hairs. These gradually open and turn back, exposing beautiful wine-colored fruit of medium size, brick sub-acid, retaining flavor when cooked; highly esteemed for canning preserves, jellies, etc. Price, 15c. each; \$1.00 per dozen, postpaid.

BUFFALO BERRY. Fruit resembles small currants, but is of richer taste and literally covers the twigs and branches. If not gathered will remain on plants through the winter. Es-

teemed for pies, tarts, preserves, jellies, etc. A constant and prolific bearer, and will thrive anywhere. A tree-like shrub, worth cultivation.

OUR NOVELTY COLLECTION.

We will send postpaid one plant each of these new varieties:—Japanese Wineberry, Rocky Mountain Cherry, Buffalo Berry and Strawberry—Raspberry for only 75c.

Crimson, White, Yellow and Baby

RAMBLERS

THE BEST ROSES GROWN

OUR SPECIAL OFFER—We will send by express one large, strong, blooming size plant of Crimson, Yellow, White, and Baby Rambler for only \$1.00. If by mail add 20c. for postage.

CRIMSON RAMBLER. The plant is of very vigorous growth, making shoots of from eight to ten feet during the season, rendering it a charming pillar Rose. It is also magnificent in bush form, and for covering buildings, trellises, etc., it cannot be excelled. Two-year field-grown plants, 30c. each; 3 for 75c.

WHITE RAMBLER. Same as Crimson Rambler except in color. Price field-grown plants, 30c. each; 3 for 75c. Mailing size 30c. each.

YELLOW RAMBLER. Same as Crimson Rambler except in color. Price 30c. each; 3 for 75c. Mailing size 30c. each.

THE BABY RAMBLER. Successive blooms every day from June until frost out of doors. In pots in the house it will bloom every day in the year. 30 cents each; \$3.00 per dozen.

We send free with Model Garden or Orchard (see 2d page cover) one nice plant each of Crimson and Baby Rambler.

THE MAGNIFICENT CLIMBING ROSE, CRIMSON RAMBLER

NORFOLK ISLAND PINE

CINNAMON VINE. A fine hardy climber. The vine is a very rapid grower, producing flowers of a cinnamon fragrance; therefore called "cinnamon Vine." Price, 5 cents each; 6 for 25 cents; 15 for 50 cents; 35 for \$1.00.

TRUMPET FLOWER. An old time favorite, grown in nearly every old garden. Flowers perfect trumpet shaped, bright scarlet. A rapid grower; one of the finest vines for covering old stumps, fences, trellises, etc. Blooms almost continuously through the summer. 15 cents each; \$1.50 per dozen, postpaid.

NORFOLK ISLAND PINE. This beautiful plant is well adapted to house culture and is almost indispensable as a decorative plant. The dark green branches are arranged in symmetrical whorls, producing a very unique and graceful appearance. Must be sent by express; too large to mail. Price, 8 to 10 inches, \$1.00 each.

TRUMPET FLOWER

AMERICAN WONDER LEMON. The largest edible lemon in the world. Blooms and fruits when quite small. Truly a wonder, for no other lemon ever produced such enormous fruit so freely. The plants grow rapidly and make shapely little trees in a few months. Fruit is very handsome as well as useful. Fruit has been taken from a tree weighing over four pounds. No budding or grafting is necessary. The plant is of easy culture, flowering and fruiting in any good ordinary soil. Price, 25c. each; \$2.50 per dozen.

OTAHEITE ORANGE. A grand pot plant of great beauty and novelty. It is a dwarf orange that grows, blooms and fruits freely in pots, even when only a foot or two high. The fruit is about one-half the size of the ordinary orange, and is very sweet and delicious. The blooms are produced in the greatest abundance, are delicate and beautiful in color and rich in delicious perfume. Price, 25c. each; \$2.50 per dozen.

SCARFF'S MONEY MAKER HORSE RADISH

This new variety makes an enormous yield and is so early that it can be marketed before the common kind is ready; beside the roots are much larger and whiter. The roots sell in market at 5 to 10 cents per pound, and yield as high as 8,000 lb. per acre. It requires about 10,000 sets for an acre, and the crop is ready for the market the first year. It is easy to grow; every plant will live. Net profit \$300.00 to \$600.00 per acre. Try at least 1,000 sets if you cannot plant an acre. It is ready sale in any of the large cities. Price of good roots, 25c. per doz. postpaid; \$1.25 per 100 by express, \$10.00 per 1,000.

HORSE RADISH (Common)

This useful condiment is easily grown and prefers a rich moist loam. Price, 25 cents per dozen; 75 cents per 100; postpaid. \$6.00 per 1,000 by express.

ASPARAGUS CULTURE

Postpaid at Dozen rates; per 100 and 1,000 by express.

A deep, rich soil is indispensable to secure large, heavy stalks. Plant in rows four feet apart, with the plant, one foot distant. Set so that the crowns are about three inches below the surface. Top-dress annually in the fall with stable manure and fork under in the spring.

DONALD'S ELMIRA. This fine, new variety produces thick, green stalks of the finest quality and has recently become very popular. It is called Vick's Mammoth. This is undoubtedly the largest and best Asparagus grown. In size, color and yield it far surpasses any other variety in cultivation, while we find it to be less susceptible to disease than any other. No one should fail to try this valuable variety. Price, 25 cents per dozen; 75 cents per 100; \$5.00 per 1,000.

COLUMBIAN MAMMOTH WHITE. A distinct variety of mammoth size, great yield, and superior quality; remarkable for the clear whiteness of its stalks, which retain their purity and color until several inches above the surface. Price, 25 cents per dozen; 75 cents per 100; \$5.00 per 1,000.

PALMETTO, BARR'S MAMMOTH AND CON-OVER'S COLLOSSAL. The standard market sorts, all green and tender. Price, 25 cents per dozen; 75 cents per 100; \$5.00 per 1,000.

\$1.00 COLLECTION

OF CHOICE GARDEN ROOTS, POSTPAID.

We will send you this collection by mail, postpaid for only \$1.00: 25 Columbian Asparagus; 25 Donald's Elmira Asparagus; 12 Sets Horseradish; 6 Myatt's Linneaus Rhubarb; 2 Holt's Sage Roots.

CATALPA BUNGEI. (Umbrella Catalpa.) Grafted on stems 6 to 8 ft. high, it makes an umbrella-shaped top without pruning. Perfectly hardy; and flourishes in almost all soils and climates. Leaves large, glossy, heart-shaped, deep green; lay like shingles on a roof; always making a symmetrical head. One of the most unique trees a valuable acquisition desirable for lawn, park and cemetery planting. 6 to 8 feet, each \$1.00; dozen, \$10.00.

NORWAY MAPLE

This beautiful Norway stands in the yard of one of our fruit farms and is about 14 years old. It is a fine specimen and has no equal for planting for permanent shade along the roadside, in door yards or for street or park planting. Price, 6 to 8 ft., 75c. each; 8 to 10 ft., \$1.00 each.

AMPELOPSIS VEITCHII, 25c. each, 5 for \$1.00.	
CHINESE MATRIMONY VINE, 15c. \$1.50 per dozen.	
HONEYSUCKLE, 15c. each, \$1.00 per dozen.	
CLEMATIS (assorted varieties) 50c. each, postpaid.	

VOLGA POPLAR. This valuable new poplar was brought to this country from Russia by Russian Menonites who settled in northern Minnesota. In this cold country it is perfectly hardy and never shows signs of dying in the top so common to the Lombardy Poplar. Its growth somewhat resembles the Lombardy, but it is not so spreading as this variety. The foliage is a beautiful glossy green, and leaves retained as long as the hard Maple, long after severe frosts. It is a strong grower, makes a symmetrical growth suitable for lawn or driveway planting, very rapid grower. Our stock is very fine, and we are making a low price on same. Fine trees 8 to 10 ft., 50c. each; \$5.00 per dozen; \$35.00 per 100.

VOLGA POPLAR
THE NEW SHADE TREE

CATALPA SPECIOSA.

Valuable for posts, railroad ties, telephone poles, fuel, etc. etc. Makes rapid growth and is highly recommended by experiment stations and institute lecturers. We are growing the genuine Speciosa which is the only variety worth planting for above named purposes. It thrives everywhere and should be planted in all waste places, woodsides and hills too steep for cultivation.

\$1,500 PER ACRE

This is not an exaggerated statement. Plant 6 x 8 ft. apart, which will require 900 trees per acre. In 10 years they should cut 7 to 10 posts each or a total of 6,000 to 9,000 posts, which are easily worth in any market 20 to 25c. each. If used for telephone poles or railroad ties it would be even more valuable. Beware of any but the genuine *Catalpa Speciosa*.

Price, 1 to 2 ft., 25c dozen, postpaid; by express, \$1.00 per 100; \$6.00 per 1,000. Larger size, 2 to 3 ft., \$1.50 per 100; \$10.00 per 1,000.

VALUABLE POST TIMBER

OUR FINE OSAGE ORANGE

Osage Orange is not quite as rapid in growth as Catalpa and Locust, but it will outlast either when used for posts, as a post six inches in diameter will last a lifetime. Price per dozen, 1 to 2 feet, postpaid, 25c.; by express, \$1.00 per 100; \$6.00 per 1,000.

BLACK LOCUST. The lower cut shows a group of Black Locust, two years old, growing from stump after first cutting had been made. The second growth is very rapid and the ground soon resets itself. Notice the vigorous, healthy wood, standing firm and erect. One of the most valuable post and railroad tie timbers. Makes rapid growth and very durable for posts, railroad ties, poles, etc., etc.

\$1,000.00 PER ACRE.

We do not think the above figure unreasonable. An acre planted 6 x 6 ft. will in 8 years or less begin to yield regular income from posts, and in 10 years small telephone poles may be cut, then railroad ties, etc. The Locust will grow on any rough land absolutely unfit for anything else; beside it encourages a growth of grass and the land can be used for pasture after the trees are large enough that the stock do not damage by breaking down. Plant an acre this spring of our quick-growing strains. Easy to grow and will grow any place.

Price 1 to 2 ft., 25c. per doz., postpaid; by express, \$1.00 per 100; \$6.00 per 1,000.
 Maple, soft, 12 to 13 in. . . 1.50 per 100 10.00 per 1,000
 Mulberry Russian, 12 in. . . 1.50 per 100 10.00 per 1,000
 Black Walnut \$1 per doz.; 7.00 per 100 50.00 per 1,000

BLACK LOCUST, 2 yrs. old.

Hedges, Screens and Fences

A Nice California Privet Hedge

*Will add \$500.00 to the value of your property
Easy to grow and a thing of beauty from the
day it is planted; will last forever. The cheapest
Fence you can buy. Stays green until January.*

CALIFORNIA PRIVET HEDGE. One of the most beautiful plants for hedge in existence. There is no other hedge plant that will equal the California Privet for the purpose, becoming more beautiful each year. A quick, strong growing shrub, yet easy to control by use of shears or knife to any desired shape. Fine for hedges between city lots, on large rural grounds, parks, cemeteries, in single clumps or with other shrubs, also as screens to outbuildings, fences, etc. Very hardy, to grow on all soils, even in partial shade; almost evergreen, its rich leathery-green foliage turns to purple in winter. Each 10 cents. \$1.00 per dozen by mail, postpaid. By express, \$4.00 per 100; \$30.00 per 1,000.

AMOR RIVER PRIVET

A more slender grower than the common Privet; the foliage is finer and of a lighter green than that of the California. A fine hedge plant. Is perfectly hardy and practically evergreen. Price, 15 cents each; \$1.50 per dozen; \$5.00 per 100.

SPIREA (Bridal Wreath). One of the most beautiful of all hedge plants. One mass of white when in bloom, and still beautiful in form and foliage, until frost removes the leaves. Price, 25c. each; \$2.50 per dozen; \$15.00 per 100.

NUT TREES

CHESTNUT JAPAN. Very distinct from all other chestnuts, dwarf grower; productive, usually producing nuts when two or three years old. Nuts of immense size, surpassing all other kinds; of fair quality when outside skin is removed. 2 to 3 feet, 50c; 3 to 4 feet, 60c.

Pecan Trees,	2 to 3 feet, by express.....	25 cents each; \$2.50 per dozen.
Hickorynut,	2 to 3 feet, by express.....	25 cents each; \$2.50 per dozen.
Black Walnut,	3 to 4 feet, by express.....	25 cents each; \$2.50 per dozen.
Beechnut,	4 to 5 feet, by express.....	25 cents each; \$2.50 per dozen.
Hazelnut,	2 to 3 feet, by express.....	25 cents each; \$2.50 per dozen.
Butternut,	3 to 4 feet, by express.....	25 cents each; \$2.50 per dozen.

JAPAN GIANT CHESTNUT.

Hydrangea Paniculata Grandiflora has been very popular for thirty years or more, and millions of plants have been planted. Price, 25c. each; \$2.00 per dozen.

A New Hydrangea.

American "Everblooming"

This New American Hydrangea is believed to be the most beautiful hardy flowering shrub introduced during the last twenty years. It was found growing wild in Pennsylvania. From this introduction numerous plants have been growing, three to eight years old, and blooming profusely from early June till toward Autumn frosts.

The plant is of far more graceful habit than the old form; with large trusses of beautiful formed flowers of dazzling, whiteness, rendering this a plant of peerless beauty.

The profusion of bloom of this new Hydrangea is very unusual. There have been counted 100 good trusses on one plant—trusses $7\frac{1}{2}$ inches in diameter and under. Price, 30 cents each; \$3.00 per dozen.

HUCKLEBERRY. Highly prized for its rich luscious fruit for pies and dessert, will bear fruit at two years old and when once planted will last a lifetime—hardy and prolific. Price, 10 cents each; \$1.00 per dozen, postpaid; \$6.00 per 100, by express.

NEW AMERICAN. An ever-bearing variety, ripening from middle of June until the middle of September. It forms a handsome shade tree, is much harder than the Downing, and is a heavy annual bearer of large, sweet delicious and refreshing berries that do not have the mawkish sweetness of most varieties. Delightful for making pies, dumplings and puddings. 5 to 6 feet, 40 cents; 3 for \$1.00.

RUSSIAN MULBERRY. A shady, rapid growing timber tree; also useful in silk culture. Fruits abundantly on quite young trees. Is planted largely by poultrymen as food for chickens; also planted for posts. Price 5 to 6 feet trees, 25 cents each; \$2.50 per dozen.

Downing Everbearing Mulberry same price as New American.

ELDER BERRY

These berries are highly esteemed in many parts of the Old World for cooking and in the making of cordials.

2 feet high, 15 cents; 12 for \$1.50. Small plants by mail at same price.

AMERICAN MULBERRY

YUCCA

HOLT'S

MAMMOTH SAGE.

HOLT'S MAMMOTH. Plants of strong growth of unusual substance, strong flavor and of superior quality. Price, 10 cents each; 75 cents per dozen; \$4.00 per 100, postpaid.

ALTHEA (Rose of Sharon. Strong, erect growing shrubs of the easiest culture, which bears large and showy flowers in early fall. Very desirable as an ornamental hedge on account of flowering when few other shrubs are in bloom. Each, 25c.

PURPLE LILAC. The old variety. Each 25 cents.

JAPONICA. The only one having tree form. Flowers white, showy, borne in long plumes, 18 to 20 inches. Very handsome. Blooms in July. Each, 35c.

SYRINGA (Mock Orange). Flowers large, snow white, very popular shrub. Blooms in June. Each, 25 cents.

Barberry, each, 25c; **Deutzia**, each, 25c; **Japonica**, each, 25c; **Forsythia** (Golden Bell), each, 25c; **Weigelia**, each, 25c; **Snowball Viburnum** (Japanese), each, 35c; **Common Snowball**, each, 25c; **White Lilac**, 25c each.

SWEET SCENTED HONEY SUCKLE. For real home vines, climbing over your windows and doorways, there is nothing prettier than fine, sweet scented honey-suckles; the foliage is pretty, neat and clean, the flowers almost continuous. Price, 25 cents each; \$2.00 per dozen.

YUCCA

A hardy evergreen plant with long narrow leaves that are bright green the whole year. The flowers are creamy white, bell-shaped, produce on long spikes 3 to 4 feet high. Fine, stately lawn plant. Good strong plants. 15 cents each; 10 for \$1.00, postpaid.

ORNAMENTAL GRASSES

Beautiful for lawns and borders. Two leading varieties. **Eulalia Japonica** and **Zebrina Variegated**. Good strong clumps, 15 cents each; \$1.50 per dozen.

RIBBON GRASS, 15 cents each; \$1.50 per dozen.

HARDY PHILOX, 10 cents each; \$1.00 per dozen. **PEONIAS**, mixed colors, 2 to 5 eyes, 25 cents each; \$2.50 per dozen. **DAHLIAS**, 10 cents per clump; \$1.00 per dozen. **DAISIES**, per clump, 10 cents each; \$1.00 per dozen.

SAGE.

RHUBARB

MYATT'S LINNAEUS. Popular and the best for general use. Early, very large, productive, tender, and delicately flavored. Require less sugar than other sorts. Price, plants, 10 cents each; \$1.00 per dozen, postpaid; \$3.00 per 100, by express.

QUEEN. Strong, vigorous grower, producing extra large stalks of finest quality, of a decided color. For canning or cooking in any way its quality is unsurpassed. Price, 10 cents each; \$1.00 per dozen, postpaid; \$3.00 per 100, by express.

SCARFF'S FARM SEED DEPARTMENT

GOOD SEED CORN

Money Refunded If Not Satisfactory On Arrival.

Our Seed Corn is equal to any, we do not care where it comes from or how long its pedigree. We grew this year 400 acres on our own seed farms and select what we sell also fitted with furnace so that the temperature can be regulated and kept above the danger point; capacity 20,000 bushels. We have grown as high as 100 bushels per acre. No claims allowed if not made within 10 days after arrival.

Our new seed house 68x138 ft., equipped the best of machinery for handling seed corn; narrow cribs with air spaces between each so arranged that it will dry perfectly; also fitted with furnace so that the temperature can be regulated and kept above the danger point; capacity 20,000 bushels.

Over 400 acres in corn on our seed farms in this fertile Miami Valley, the best corn land in the world.

KILN DRIED SEED CORN

for you this year, the best in the world, either in the ear or shelled. See our new corn storage house built on scientific principals. You can buy this high grade seed of us at 25c to 30c per acre and increase your yield 25 to forty bushels per acre. **Think of it.**

PRIDE OF THE NORTH

PRIDE OF THE NORTH. The old, well-known standard extra early Yellow Dent. A strictly 90-day corn. Ears not large, but **kernels very deep with very small cob.** Furnishes a large percentage of shelled corn. Ears about 7 to 8 inches long, often two on a stalk. Stalks 6 to 8 ft. high. Makes good fodder and ensilage. Price, 75c. per pk.; \$2.00 per bushel. Either shelled or in the ear.

SANFORD'S EARLY FLINT

SANFORD'S EARLY FLINT. It is a beautiful 8-rowed yellow flint, with slender, straight ears, 10 to 15 inches long. Kernels are large and wide, and cob very small. Ripens in 75 to 85 days, and very prolific. Well adapted to the northern states, and largely grown in Wisconsin and Minnesota. Prices: pk., 75c.; bu., \$2.00. Shelled or in the ear.

REID'S YELLOW DENT

REID'S YELLOW DENT. A tremendous yield-er of big long ears. The most popular Yellow Dent among the corn growers of Ohio, Indiana and Iowa. Reid's Yellow Dent matures in about 100 to 105 days, and throughout the corn belt is considered an early variety.

No one in this latitude need hesitate to plant our home-grown Reid's as it is sure to mature. 75c. per peck; \$2.00 per bushel. Shelled or in the ear.

SCARFF'S CASH

See Cut—62 pounds of Shelled Corn per bushel, 70 lbs. of ears—only 8 lbs. of cobs.

IT'S ALL CORN.

CORN early to mature and a yielder of finest ears. Matures any place in the United States.

CASH. A new deep grained yellow corn with the smallest cob of any variety known. We have bred this corn from a small cobbled corn from Michigan until the cob is no thicker than the cobs of popcorn. The ear is large, well filled at butt and tip ends, with beautiful golden deep grains. This corn is beyond doubt the best feeding corn in existence. Matures in

100 to 110 days. Shells easy as early as September. It certainly is the ideal corn. Every one will buy it for seed that sees it.

Price, 50 cents per quart, postpaid; 75 cents per peck; \$2.00 per bushel. Sample ear, 25 cents, postpaid. In ear at same price.

Gold Standard Leaming has made a yield of 100 bushels per acre for several years in succession on our seed farms.

Gold Standard LEAMING

The Leaming is the oldest distinct variety of corn, having been originated in 1826. It is a standard yellow corn, well adapted to northern and central Illinois and the most of Iowa, and similar latitudes. In fact, it is grown with success in southern Wisconsin.

Our seed stock of Gold Standard Leaming was grown by the Funks in north central Illinois. They recommend it as the "best corn for feeders." They say:

Since we have been growing this variety it has been carefully bred to a rich, deep golden color, to a greater uniformity, to large, slightly tapering or cylindrical ears, well filled at the butt and tip. We have also increased depth and roughness of kernel and per centage of grain to cob. The ears range from 8 to 11 inches long and from 7½ to 8 inches in circumference, weighing from 12 to 17 ounces each. Each ear has from 16 to 24 rows of kernels, with little space between rows.

"No matter who you are or where you live, if you handle live stock and raise all or part of the corn you feed, you can materially increase your profit by growing Gold Standard Leaming." Price 75 cents per peck; \$2.00 per bushel. In the ear same price.

SCARFF'S

Improved Yellow **DENT**

We grow this corn in large quantities here on our 1,000 acre seed farms and find it one of our leading kinds. Heavy yielder Good deep grains, beautiful deep golden color, matures early and yields annually 75 to 105 bushels per acre. Price, 75 cents per peck; \$2.00 per bushel. Can furnish either in ear or shelled.

Boon County Special

We procured our seed of the valuable white corn direct from the introducers and find it one of the very best varieties of white corn grown—outyielding any other variety of white.

GENERAL DESCRIPTION OF THIS VARIETY

A high yielding white corn of extra large size, ears 8 to 12 inches long. $7\frac{1}{2}$ to $8\frac{1}{2}$ inches in circumference, 18 to 26 rows of kernels. Ears weigh from 12 to 18 ounces when dry. The cob is medium to large and pure white in color. Adapted for any place south of the 41st parallel. Price, 50 cents per peck; \$1.50 per bushel. Ear corn 75 cents per peck; \$2.00 per bushel.

Plant Scarff's Choice Selected Seed Corn.

\$\$\$

Scarff's
Seed Corn will do
this for you.

WHITE CAP YELLOW DENT CORN. Our new White Cap Corn comprises more good points than any other variety ever grown, being suitable to all climates and soils. It matures very early. The ears are large and well filled. It matures in ninety to ninety-five days, commands the highest market price, and, taking in all, is the best field corn grown to-day. As the name implies, it is a white cap corn—not a white corn, but yellow kernel with a small white cap, giving it the appearance at first sight of white corn. The ears are of good length, perfectly straight, small cob, with deep grains filled out to the very ends. Price, 50 cents per peck; \$1.50 per bushel. Ear corn 75 cents per peck; \$2.00 per bushel.

New Swedish Select Oats

We grow no other oats on our farms. It is the greatest oats grown. Our stock is bright and clean. It will pay to grow oats this year on account of feed being so high. 60 to 75 bushels per acre is no uncommon yield of Swedish Select.

NEW SWEDISH SELECT. We find this new Russia variety to be a most wonderful new oats, and the claims made by the Agricultural Department are not too strong. At a test at the Wisconsin Agricultural College, the Swedish Select proved the most satisfactory of 36 varieties tested. The yield is simply enormous, and they weigh from 38 to 40 pounds per measured bushel. The straw is stiff, coarse, and is noted for its power to withstand lodging. The grains are large, plump and thick, with good, long, well filled heads. The plant makes a good growth and develops a splendid root system, making it one of the best drought-resisters in dry seasons. It is among the earliest to ripen and succeeds throughout the entire country. Every farmer receiving our catalogue should try at least a few bushels of this variety. Price, peck, 40c; bushel \$1.00; 10 bushels at 95c. per bushel; 20 bushels or more at 90c. per bushel.

BEARDLESS BARLEY

BEARDLESS BARLEY. This great stock food and fat producer is best egg producing food known. Sow early as possible in spring. Straw is about the height of the common barley, but better, and will stand up on any land; with good land and season has produced 80 bushels per acre. Sow as early as you can; frost does not hurt it. Many will not grow barley on account of the long harsh beards which are so disagreeable in threshing, although it is a profitable crop. This is beardless and as easy to grow and handle as oats. It has hulls like the Mansbury or any other variety, and is a heavy cropper, yielding 50 to 75 bushels per acre, and the quality is excellent both for malting and for feeding hogs and other stock. Try it for your poultry. Price, package, 10 cents, postpaid; quart, 25 cents; per peck, 50 cents; \$1.50 per bushel.

SPELTZ

SPELTZ. Good for pasture; fattens in the green state; a heavy stooler, and will outyield any other grain on earth. It's the perfection food for cattle; hogs squeal for it; cows will leave other food for it; sheep delight and fatten on it, and poultry relish the grain. Speltz will produce three times the value of wheat or oats. Speltz is a combination of rye, wheat and barley, but resembles barley more than other grain. We only ask you to give this wonderful grain a trial to prove its merits. Prices, pkt., 10c., postpaid; lb., 15c.; postpaid; peck, 50c.; Bushel \$1.25.

MAMMOTH RUSSIAN SUNFLOWER. An immense yielder—125 bushels of seed to the acre has been grown at less expense than corn. Very highly recommended for horses.

Choice Stock—By mail, postpaid—pkt., 5 cents; ¼-lb., 40 cents. By express or freight—10 lbs., \$1.50; 25 lbs., \$3.00; 100 lbs., \$10.00.

FALL SEED WHEAT

We can furnish after July 15th a choice lot of re-cleaned seed wheat varieties: Poole, Red Fultz, Imp. Rudy. Also choice lot of mammoth White Rye. Prices on application after July 1st.

SCARFF'S FINE SEED POTATO

Our Miami Valley Seed Farms produce the finest seed potatoes on the market and we are offering our customers a very select lot of seed this season. Nothing pays so well to change the seed as potatoes. Why not plant the best and get a big increase in the yield of your crop? Our seed will increase your yield 50 to 100 bushels per acre.

NEW POTATO,—VERMONT GOLD COIN

The hardiest, most vigorous in growth, most productive, and the best in table quality of all potatoes, it has proved to be absolutely unequaled for main crop!

The vines are strong, with exceptionally luxuriant deep green foliage, making a healthy growth when other varieties are cut down by blight. The tubers are of good size and lie closely together in the hill. In form the tubers are slightly oblong, rather broad and quite thick through. The eyes are small and there is but little waste in paring. The skin is thin, smooth, and glossy, of a golden tint, having just sufficient coloring to distinguish it from the white-skinned varieties. The flesh is fine grained, of a pure pearly whiteness, and cooks to a dry floury whiteness. Unlike most of the main-crop which need to be well dried out before they will cook properly, these new Vermont "Gold Coins," even when freshly dug, cook dry and mealy. Its vigorous growth and great productiveness make it the most profitable variety for the planter, and its great solidity, smooth regular form, and **unequaled table qualities** make it the most popular and quickest selling on market. Price, per peck, 75 cents; bushel, \$2.00; barrel, \$5.00.

RURAL NEW YORKER—Well known now the country over, and very largely planted for a profitable main crop. "Dusty Rurals" always bring the top price in Chicago market. Will do well anywhere. Great yielders. Price, per peck, 50 cents; bushel, \$1.50; barrel, \$4.00.

IRISH COBBLER

One of the most reliable first-early potatoes ever sent out. It ripens almost with the Early Ohio, and is so uniform that every hill seems to ripen at one time. The yield is very large for an early variety—equal to some of the late ones. Form oval, and round, skin lightly netted, creamy-white, and having few eyes, which are quite shallow—some even with the surface. Flesh pure white and of the finest quality—not exceeded by any early variety. Keeps perfect until Spring, when it starts large, strong and vigorous sprouts. Its strong growth, earliness, uniformity, large yield, fine quality, and very handsome appearance, has brought the Early Cobbler right to the front as a profitable variety for market or home use. Price, per peck, 75c.; bushel, \$1.75; barrel, \$4.50.

Seneca Beauty Potato.

SENECA BEAUTY POTATO. A grand good medium late potato, and too much has not been said in its praise. Its beautiful and distinct appearance sells it in any market, and its fine table qualities please all. The tubers are large and smooth, with few eyes close to the surface and of a beautiful pink color. Uniform in size and shape, scarcely any small ones. Vines rank and healthy, and loaded with beautiful blossoms. Good keeper and heavy cropper. Price, peck, 75 cents; bushel, \$1.75; barrel, \$4.50.

CARMAN No. 3. It is the best late variety, and one of the greatest yielders; large, oblong, slightly flattened. This splendid potato has a record of having produced over two hundred bushels from one barrel of seed. Per peck, 50 cents; bushel, \$1.50; barrel, \$4.00.

**YIELD 300 BUS.
PER ACRE.**

**GREAT FOR EARLY
MARKET**

SCARFFS EXTRA EARLY SIX WEEKS POTATO

A valuable early variety for market. Gardeners and all others who grow potatoes for home or market will prize this potato ahead of all others on account of its extreme earliness, good table qualities, fine size and shape, great productiveness and splendid keeping properties. The potatoes cook fine, and dry from the time they are large enough until late spring. Size is medium, skin light flesh color, shape round. They are perfect beauties, heavy yielders, and a sure cropper. This potato, strange to relate, keeps sound, solid, and fresh late into the spring, equal to any potato that we ever saw.

The earliest large potato on record. Do you want to be first in market with potatoes? You know the price is always higher for the early crop. Others may equal it in size, quality, or productiveness, but in earliness six weeks' market is unapproachable. Price, per peck, 50 cents; bushel, \$1.75; barrel, \$4.50.

1,000 BUSHELS SMALL SIZE SEED POTATOES

Many people prefer this size to the larger ones. As long as they last will sell at \$1.00 per bu.; \$3.00 per bbl. Varieties Rural New Yorker, Carman, Irish Cobbler and Gold Colg.

We have a very fine lot of this valuable potato which we had grown for us in Minnesota. The Early Ohio is beyond doubt the most popular early potato grown. It is grown everywhere and can be relied upon for good big crops of early tubers that sell at high prices. Our Red River Valley stock is pure and fine. They grow stronger and better than home grown seed, and mature the crop in shorter time. It will pay you to get a new start of good pure Early Ohio this spring. It will increase your crop and you will have a start again of good seed for yourself and neighbor, who will all want to plant after they see how well it has done for you. Price, per peck, 50 cents; per bushel, \$1.50; barrel, \$4.00.

BLISS EARLY TRIUMPH. Extremely prolific and a full week in advance of early Ohio. Color a beautiful light red. Size medium. Growth, very uniform. Shape, nearly round. The flesh is white; very mealy when cooked. This potato is in exceedingly high favor with Southern market gardeners and truckers, and is shipped to the Northern markets in enormous quantities in the early spring. It grows also well in the North, and very profitable, usually selling for \$1.50 per bushel. The eyes are slightly depressed and the skin is smooth, making a handsome early potato in the barrel or basket. Its beauty, good quality, extreme earliness and great productiveness makes it highly profitable. Price, 75 cents per peck; \$2.00 per bushel; \$5.00 per barrel.

Potato Eyes by Mail POSTPAID.

For several years we have been furnishing our customers good sound potato eyes by mail. It saves high freight rate and allows you to get a start of new varieties for a mere nothing. These potato eyes give very best of satis-

faction. Hundreds of customers were delighted with the results last season. You can get a start of new varieties for a mere trifle. Remember they come by mail postpaid, and sure to grow. Try our new kinds. At a very small expense you can grow an experimental patch for exhibition. It is very interesting and profitable. 35 eyes should produce a bushel of good sound potatoes.

Prices Potato Eyes

New Ideas in Spray and Force Pumps

Guaranteed to Outsell and Outlast Any Hand Pump Ever Made

DESCRIPTION.—The Sprayer body is made of heavy polished brass or galvanized steel, as desired. Top and bottom are dome shaped; jointed to body under heavy pressure, making a complete double seam. The body is supported and further strengthened by a heavy steel band around the bottom. When completed this body is tested under double the pressure formerly used, so enabling you to get a finer spray for a greater length of time than with any sprayer we have ever made.

The air pump is made of heavy brass two inches in diameter. Hose couplings are solid brass, standard cut threads, ends heavily ribbed to prevent hose slipping off. Hose is high grade, three ply, supported by a coiled spring, bell-shaped at outer end to prevent breaking. A safety-valve is provided to allow air to escape after the necessary pressure has been obtained.

"KANT KLOG" STYLE C

A slight pressure of the thumb starts the spray. Remove it and the spray stops instantly.

Special attention is called to the new "Kant-Klog," the only nozzle that can be successfully cleaned without stopping the spray or removing the nozzle from the tree. The first and only nozzle ever made which gives both flat and round sprays, or solid streams.

Sprays Fruit Trees, Potatoes, Vegetables, Tobacco and Cotton. For Wagons, Windows, Henhouses, Fires, Disinfecting, Etc., Etc.

The Perfect Tree Pruner

A New Idea Just Patented : : Best on the Market

A clean, smooth cut; no bruising of bark; no splitting of limbs

This photograph shows the method of using the "Ideal" pruner. Place the knife at base of limb, slide the hammer up with quick motion and down comes the limb.

With this tool one man will do as much work as three men can do working with the old fashioned tools and do the work fifty per cent better.

All practical orchardists and tree growers should see and try this pruner. It will pay for itself in one day's work in time saved and it will pay for itself a hundred fold in the quality of work done.

The tenderest bark will not be bruised and the cut is so close and smooth that large limbs will heal over that never would if cut in any other way.

It is the only tree pruner that works on a correct principle—a thin, keen knife and a sliding hammer does the work so smoothly and quickly that it seems like magic.

It is a pleasure to go at an old, neglected apple tree with this tool. Sections can be added to the rod so that one can reach as much as twenty-five feet to cut off limbs.

EIGHT REASONS WHY YOU SHOULD BUY SLIDING HAMMER PRUNING KNIFE

1. It is the easiest to operate.
2. You can trim twice as fast as with any other pruner.
3. It does not bruise the bark.
4. It makes the smoothest cuts.
5. The trees will heal much quicker.
6. You can cut from 2 to 20 feet while standing on the ground.
7. It will pay for itself in two days.
8. It is recommended by all who have seen it.

Price \$3.00, with five foot of rod. Extra lengths of rod, five cents per foot.

Do you want to pay for a home?

Our home, as shown above, is the fruit of good plants. The "one acre collection" we offer you will start you on the right road. You run no risk in buying **Scarff's** plants, recognized everywhere as the best grown. Send \$28.00 to-day, the "corner stone" for **Your Home**.

\$28.00 Investment guaranteed to net \$300 or more annually if properly cared for.
