PARK'S FLORAL GUIDE FOR 1910

FOUR ENORMOUS DAHLIAS

Crimson Scarlet	- -	20 cts	Pure White	- - -	20 cts
Lovely Pink	- -	20 cts	Pure Yellow	- - -	20 cts

The Complete Set, FOUR PLANTS, WELL ROOTED, MAILED FOR ONLY 50 CENTS.

These are by far the largest, most beautiful and most free-blooming (for their size) of all Dahlias; double to the centre, of superb form (see engraving), and many flowers, especially of the Crimson-scarlet, measuring over two feet in circumference when well developed.

THESE FOUR DAHLIAS FREE.

To anyone who orders \$3.00 worth of seeds during March or April, I will mail a full set (four plants) of these Dahlias FREE. And to anyone who orders \$1.00 worth during May and June, the full set will be mailed. Please see your friends and make up a big order, the earlier the better. If so desired, the four plants alone will be mailed for 50 cents.

INDEX AND GERMINATION TABLE.

WHEN sowing divide the packages, and sow at different times. Note the time and give good care to the plants until they have time to appear. Figures here indicate pages, and letters indicate, as marked, the time needed for germination. Do not condemn seeds until you have given them at least two or three trials.

As a rule, give c and ch the sound of k. G is generally hard, as in get. Such words as Zinnia and Glia, ending in ta are pronounced Zin'-ne-a, Gil'-e-a, not Zin'-ya or Gil'-ya. Accent is indicated by apostrophes.

Introductory Remarks.

Y DEAR PATRONS:—Another year of life's journey, with its varied scenes and experiences, has passed away, and once more we stand upon the threshold of a new season, planning for and anticipating the beauty of the coming summer garden. I need not tell you that the seed-season is always one of pleasure to the enthusiastic lover of Nature. It is then that we anticipate and enjoy the return of the birds and verdure and flowers, with the warm sunshine and gentle showers. It is then that the heart is bright with hope and joy, inspired by the song of the blue-bird, the opening of the Snow-drop and the green of the springing grass by the roadside. It is then that we are happy in fond anticipation of the glorious realities that await us—when the Roses adorn even the stony fence-row, and the fields and meadows are a carpet of verdure and bloom.

To me the seed-season is especially delightful because of the renewed friendship of those who have been my esteemed patrons and friends for a large part of my lifetime. Many, very many drop a friendly word as they pass in their seed order, and often a new friend is introduced at the same time. I appreciate these evidences of good will and fellowship, and while I feel thankful for them, I am encouraged to renewed effort and zeal in the delightful vocation in which I am engaged—that of helping to beautify the earth and its homes, and thus promoting the happiness and well-being of my fellow men. I have the special pleasure this season of handing you my *Floral Guide* in a new and enlarged form, re-written, re-arranged, and very freely illustrated. I feel that you will appreciate it, and find it a valuable help in selecting, arranging and caring for the flowers that will brighten and sweeten your home and its surroundings during the coming season.

ABOUT MY SEEDS:—Some of my seeds are grown in my own gardens; many are grown on contract; and many more are secured from growers and specialists in France, Germany, England, Italy, Japan and Mexico. All are of the best quality, and can be depended upon for the most satisfactory results. All are of prime vitality, being of the new crop and tested to a high percent; those that do not bear the test are discarded. All are guaranteed to be as represented, and what is more they are sold at prices that come within the reach of all who have a garden. The low prices, kindly bear in mind, do not indicate that the seeds are inferior. There is nothing cheap about my seeds but the price, and I challenge a comparison with seeds from any other source, regardless of price. A trial will convince you of their high quality and sparkling vitality. If other's seeds have failed you, try PARK'S. They never disappoint when properly treated, and the cultural directions I send with every package tell you just how to properly treat them. My special mixtures are prepared in my own establishment under my personal supervision. I do not buy the foreign mixtures, which are often the odds and ends of a wholesale seed house, but get the varieties separately, and mix them in careful proportion. You thus get the best seeds and best mixtures. You will find them as represented.

ABOUT MY BUSINESS METHODS:—My seeds are not only low in price and of the highest quality and vitality, but they are brought right to your door without further expense. All orders are given prompt and careful attention, the seeds being carefully packed, mailed or expressed free of cost, and guaranteed to reach you in due time and in good condition. If errors occur I will cheerfully correct them. If anything is damaged or lost in transit I will gladly replace it. I aim to bring my establishment right to your door, and deal with you as satisfactorily as though you were at hand in person. I am never satisfied, my friends, until you are, for my success depends upon yours. I am even willing to do more than justice and fair dealing warrant, in order to please my patrons.

REMITTING:—Please make out your list of seeds, bulbs, etc., with prices in detail, adding up the column of figures, and remit the full amount. Do not order more than your money pays for. Remit by Money Order, Express Order, Draft, or Registered Letter. Sums under \$1.00 remit in postage stamps. I cheerfully bear the risk when remittances are made as directed. If your seeds do not duly come, let me know, and I will fill your order, whether the money is received or not, I bear the risk both ways.

ABOUT MY MAGAZINE:—I began my seed business in 1869, and in 1871, two years later, my *Floral Magazine* was established, since which time it has been regularly published. At first it had a circulation of 200 copies monthly, but from year to year the subscription list has been augmented, until *Park's Floral Magazine* now visits the homes of more than half a million people, and is a household word, bringing cheer and happiness throughout the land. It is devoted entirely to flowers, is finely illustrated, and gives just the information the amateur florist needs to succeed in his gardening efforts. Price only 10 cents a year, or five years for 50 cents. If you love and cultivate flowers do not fail to subscribe for *Park's Floral Magazine*. It is now the only journal of its class published in America, and the oldest in the world. It is always teeming with practical information and notes of interest on flowers and their culture in both window and garden.

SPECIAL FOR PARK'S FLORAL MAGAZINE ONE YEAR 10c / **TOTAL**
25c / **SEEDS, YOUR SELECTION FROM GUIDE, VALUE 25 Cts, TRIAL PRICE** 15c / **25 Cts.**

This offer is to encourage new subscriptions. Full subscription price (10 cts) must be sent to get the seeds (25 cts worth) at trial price, 15 cts. In other words, 25 cts, either in stamps or coin must accompany any order. Tell your friends. Get me a club of four subscriptions (\$1.00), on the above offer, each subscriber to get a *Floral Magazine* a year, and trial seeds, their choice from Guide amounting to 25 cts. To you as agent, I will mail the *Magazine* a year and trial seeds amounting to 25 cts. I am anxious to have a club of at least five names at every post office, and if you send in such a club and add 5 cts for postage, I will send you in addition a present of 10 choice summer-flowering bulbs, various kinds. May I not get a club from you? Address

A PAGE OF GOSSIP.

INDEX.—

MY FRIENDS, this is the most extensive list of Flower Seeds I have ever issued, and to make it practical I have prepared an index (See 2d page of cover) which locates everything offered. This index also indicates the syllabication and accent of the names of flowers, and is thus a guide to pronunciation; and it also indicates the time of germination, which is of much importance in attaining cultural success. I would urge you to study this index. You will find that it contains or directs you to a lot of useful information that will greatly aid you in your floral efforts. If you see a flower described in some other Catalogue, get the botanical name and look it up in this Guide. It contains brief descriptions of all the worthy flowers grown from seeds. In fact, if you want a flower you cannot get seeds of elsewhere you will find it in this Guide by consulting the index, for I offer by far the largest variety of flower, and tree seeds kept by any seedsman in America.

TESTED SEEDS AND LOW PRICES.—I sell seeds that grow. I know this by practical test. You can therefore depend upon having a stand of plants at transplanting time, if you sow of my seeds. That you may not fail because of lack of cultural knowledge I send directions about sowing, transplanting, etc., with every package. My success is bound up in yours, and I am always as anxious to have you succeed as you are. I urge you to always divide your seed packets and sow the seeds at different periods. This often insures fair success where neglect of it would result in failure. You will notice my prices are very low. This does not indicate poor quality, but superior facilities for trade, and economical advantages. My seeds are of the best quality to be raised. There are none better. I challenge a competitive test with those of any other seedsman, regardless of price. I pack many seeds by machinery, and I have no rents or interest to pay, as my entire establishment is free from incumbrance of any kind, and my bank account is such that I secure cash discounts on all bills. These advantages I share with my patrons by giving them first-class seeds at the lowest prices. You need not therefore hesitate to entrust me with your order for the finest seeds. You will be entirely satisfied with their vitality, quality and price.

ABOUT MY PATRONS.—I now have the names of more than 500,000 flower-loving people upon my list of patrons. Very many of these are enthusiastic friends, and will buy their flower seeds of no other seedsman [See sample letters on pages 4, 5 and 6]. This is because I always try to give them a "square deal". I would rather suffer loss myself than be the means of deceiving or defrauding a patron. My business has been built up and held by fair dealing. But I am not satisfied with only a half million pleased patrons. I want the whole million, and if my efforts to satisfy and please are met, I shall have that number within a few years. I feel indebted to my many friends for their efforts to extend my trade. Every season new customers are introduced by my older patrons, and thus new friends secured. Such favors are highly esteemed, and gratefully rewarded, and I here tender to these friends my hearty thanks.

PARK'S FLORAL MAGAZINE.—Within two years after I began selling seeds I began the issue of a monthly publication in the interest of flower-loving people. That journal has been regularly issued ever since, and is known as Park's Floral Magazine. Hence, for nearly 40 years my friends have been aided and encouraged in their floral work by this monthly. It is, today, the oldest, most popular, and most practical Magazine of its kind in the world, having a circulation of more than 500,000 each and every month. It treats upon old and new flowers and their culture, describes and gives remedies for plant diseases and plant pests, answers special questions, and helps the culturist over difficulties. It is original, and fully illustrated, and an index at the close of each annual volume makes the bound work a very valuable reference book. Subscription price only 25 cents per year, or for common paper 10 cents per year.

A GREAT SPECIAL OFFER.—So anxious am I to have every grower of flowers join my big floral family that I make this Great Special Offer: Send me 25 cents, and I will mail to you the following:

Seeds, 25 cents' worth, your selection from this Guide, trial price, - - - - 15 cts.

Park's Floral Magazine, one year, common paper, - - - - - 10 cts.

Total for 25 cents worth of seeds and Magazine a year, - - - - - 25 cts.

In every case a Magazine subscription (10 cents) must be sent to get the trial seeds, 25 cents worth, for 15 cents; that is, 25 cents must be sent for the combination.

If you get up a Club of four (\$1.00) on these terms, I will send your own seeds and Magazine for your effort. May I not look for a Club from you?

STILL MORE.—If you will get up a Club of ten (\$2.50) upon this offer, I will mail you, prepaid, a beautiful nicker, stem-wind, stem-set watch, a splendid time-keeper. Or, if preferred, will mail a handsome Swiss Clock, suitable for any room. Subscription blanks, samples and further information free upon application.

And now, assuring you, my friends, of my most faithful service, and thanking you in advance for your favors, I await your commands. Florally yours,

La Park, Pa. February 15, 1910.

SOME FLOWERS OF SPECIAL MERIT.

When at the large Flower Gardens of Germany, recently, I made notes as below of flowers that were especially attractive. If they do as well in America they will surely please those who try them. I will supply fresh and tested seeds of any of the kinds described at 5 cents per packet. It will pay you to look over this list carefully before ordering.

Blooming First Season.

Alonsoa miniata compacta, lovely scarlet flowers; dense and bushy. For others see page 7.
Arctotis breviscapa, a fine golden-flowered plant for beds; grows one foot high. Page 8.
Blumenbachia insignis, hardy annual trailer; yellowish-red.
Bocconia frutescens, 5 ft. fine sea-green foliage. Page 51.
Calandrinia grandiflora, 1 ft high, large rosy bloom. Page 15.
Callipso Drummondii, glorious flowers appearing as a waving sheet of gold; very showy. Page 15.
Chaetotheca brachiata, Aster-like annual; flowers light blue, showy.
Capitum Tom Thumb, a neat, bushy Pepper, with small, scarlet fruit in great abundance; fine for pots. Page 17.
Centaurea cyanus alba, double white with blue centre, very prolific and of great beauty. Page 18.

Madagascaria Macrophylla, 3 feet high, silvery leaves 4 ft long, great panicles of golden bloom. Page 46.
Linum flavum, a foot high, literally smothered with golden bloom; fine for beds. Page 46.
Marjorum origanum, a sweet perennial herb. See page 52.
Michauxia campanulata, 5 feet tall, well-branched, covered with showy bloom; should be staked. Page 46.
Mitgedium Plumeri, 6 ft tall, very handsome; low, showy, though coarse foliage; flowers like Chicomery, pink with blue center. Blue Thistle. Page 47.
Pentstemon Murrayanus, grandiflorus, 2 ft. large variegated bells on spikes a foot long. Page 49.
Potentilla formosa, pretty brick-colored flowers with black center; peculiar and showy. Page 49.
Physostegia speciosa, rather handsome, Mint-like bloom that will stay whichever way turned. Page 49.
Santolina tomentosa, 1 ft; silvery; masses of golden bloom. Page 50.
Saxifraga Decipiens grandiflora hybrida; the plants are fine edging rosettes, new. Page 50.
Scabiosa Caucasica Perfecta, lovely large azure bloom on long stems, fine for cutting. Page 50.
Sedum Alzoon, a foot high, large yellow bloom. S. Laggeri, dwarf, with yellow flowers. S. spurium splendens, for edgings and borders, purple, free-blooming. Page 50.
Shasta Daisy, fine large flowers, a mass of color. Leucanthemum. P. 46.
Sidalcea Rosa Gem, fine perennial 2 feet tall, spikes of charming rosy flowers 1 inch across. Page 50.
Spergula pilifera aurea, a low mossy plant, golden foliage, white bloom, fine for edging or pots. Page 50.
Statice superba, odd and handsome Sea Lavender. Page 38.
Verbascum Giganteum, 6 feet tall, immense leaves, fine yellow bloom. Page 50.

LETTERS FROM PATRONS.

It will pay you to read the following letters received from patrons the past season. They contain much useful information, and are evidence of the quality of the seeds I sell, and of my satisfactory business methods.

Mr. Park:—I have been a reader of your Magazine and a buyer of plants and seeds from you for a period of over twenty years, and I want to thank you for the nice way you have treated me during that time.—Mrs. E. Jasper Co., Mo.

Mr. Park:—Seeds more than fulfilled expectations, Asters, Chrysanthemums and Balsams being especially fine and hearty. Each packet a surprise. Park's seeds for mine from now on.—Wm. H. Eldridge, Philadelphia, Pa., Oct. 6, 1909.

Mr. Park:—I am more than pleased with the Geraniums, Begonias, Primroses and Coleus I raised from your seeds. All seemed to have yeast in them, for they sprung up as if by magic.—Harrison Carr, Jeff. Co., Ala., Oct. 5, 1909.

Acacia.—**Mr. Park:** My plants from your Acacia Lophantha had lovely, fern-like foliage, and are growing rapidly. New plants keep coming. They are beautiful.—Mrs. Lena Collins, Penobscot Co., Me., Aug. 4, 1909. [p. 7.]

Ageratum.—**Mr. Park:** Your bedding Ageratums are wonderful. My plants covered themselves with royal purple bloom, and have been glorious all season.—Mrs. B. Krause, Beltrami Co., Minn., Oct. 6, 1909. [See page 7.]

Antirrhinum.—**Mr. Park:** I like your Antirrhinum Giant Fragrant. Of all the flowers these are the most beautiful and sweet-scented, and come in so many colors. I will have a large bed of it next summer.—Mrs. Clara Hunnrick, Franklin Co., O., Oct. 15, 1909. [p. 8.]

Asters.—Double Asters are a specialty, and my seeds are all of the first quality.—[See pages 10, 11, 12 and 13.]

Balsam.—**Mr. Park:** From your mixed packet of Balsam seeds I raised plants showing all colors. The flowers were as double as Roses, and very beautiful.—C. J. n King, Braxton Co., W. Va., Aug. 10, 1909. [See p. 14.]

Brachycome.—**Mr. Park:** The Swan River Daisy or Brachycome has pleased me very much. It is always in bloom, and does not need constant picking, as many flowers do, to keep it in bloom.—Catherine Smalley, El Paso Co., Colo., Oct. 7, 1909. [See page 14.]

Calliopsis (Golden Wave).—**Mr. Park:** I would advise all who are fond of bright, yellow flowers to try Calliopsis (Golden Wave). Mine have been a sheet of gold since June, and a thing of beauty.—Miss Elsie Adey, Ithaca, N. Y., Aug. 26, 1909. [See page 15.]

Canna.—**Mr. Park:** The Gladiolus-flowered Cannas raise. I was fine. Such large flowers and of such bright colors! Some were variegated, and all were beautiful.—Mrs. H. A. Dockman, Story Co., Iowa, Oct. 7, 1909. [See page 16.]

Carnation.—**Mr. Park:** I raised from your seeds the most beautiful Carnations I have ever seen. They were simply grand, so double and fragrant, and I find them so easy to raise. By protecting the plants the least bit I can have flowers very early in the spring.—Mrs. J. B. Carter, Elba, Va., July 31, 1909.

Cerastium.—**Mr. Park:** Cerastium Biebersteinii is a regular little ensiamander. A little beauty and so easy to grow! It is beautiful, with silvery leaves and star-like flowers in early spring.—Mrs. Carrie Goodwin, Genesee Co., Mich., Aug. 10, 1909. [See p. 18.]

Cosmos. finest, large-flowered Hybrids; beautiful. [See page 19.]

Coxcomb.—**Mr. Park:** From your Dwarf Coxcomb seeds I raised the largest Coxcombs I ever saw. One measured 17x11 in. It was the admiration of all who saw it. In sunlight it looked like fluted velvet. Friends thought it wondrously beautiful.—Mrs. W. F. Hampton, Colusa, Calif., Oct. 3, 1909. [See Celosia cristata, page 18.]

Dahlia. splendid collection; seeds of the finest quality. [See page 20.]

Daisy.—**Mr. Park:** I planted a 3c pkt. of your Double Daisy seed, and I had the nicest lot of bloom all summer, pink and white. I find that they do not like noon sun. Planted on east side of building, they do better.—Mrs. Emma Isaacs, Saline Co., Kans., Oct. 10, 1909. [See Bellis Perennis, page 14.]

Dianthus. the choicest varieties; seeds of best quality. [See page 21.]

Evening Stock.—**Mr. Park:** One of the sweetest evening flowers is Evening Stock (Matthiola bicornis) [page 23]. Every seed of the package received from you grew, and plants were easily transplanted. With Even'g Primrose (Enothera, page 29) and Nicotiana Affinis (page 29) we have a bed that makes the air redolent with perfume.—Mrs. F. Sweeney, Uby, Mich., Aug. 21, 1909.

Feverfew.—**Mr. Park:** I wish to speak of your Double White Feverfew. It requires little care; no one could fail to enjoy the rose-like, fragrant flowers.—Mrs. Calli Saunders, Novelty, Mo., Sept. 10, 1909. [See Matricaria, p. 27.]

Gaillardia. superb ever bloomers. Splendid bedding plants. [See p. 23.]

Gypsophila.—**Mr. Park:** I wish to say a word of praise for dainty Gypsophila Murals. The plants make nice border for bed of Asters or other flowers, easily grown from seeds, bloom early and all summer.—Mrs. S. Sweeney, Uby, Mich., Aug. 21, 1909. [See page 38.]

Leptosiphon.—**Mr. Park:** I got seeds of about 20 unknown plants from you, but I am most pleased with Leptosiphon. All varieties were fine, especially white. Seeds germinated quickly. Plants pretty, dainty blossoms lovely and lasted long.—Catherine Smalley, El Paso Co., Colo., Oct. 7, 1909. [p. 25.]

Lupin.—**Mr. Park:** Your packet of mixed Lupin last spring was a constant surprise, as hardly two plants bore same color of blossom; all were beautiful; the fragrance like Locust blossom. Some were white, some blue

and white, some combined those colors with yellow, some bright pink. Some grew 10 in., some nearly 3 ft.—Adella F. Veazy, Knox Co., Me., Oct. 3, 1909. [p. 25.]

Maurandia.—**Mr. Park:** If your patrons could see my Maurandia vines from your seeds, I am sure you would have a lot of orders for the seeds. They are lovely—a mass of rich-green foliage, no dead leaves and studded with the charming bells, all colors. Easily raised last late in season.—Anna E. Shank, Mt. Morris, Ill. [p. 40.]

Mignonette.—**Mr. Park:** I plant yearly an ounce of your common Mignonette (3 cents), and have a world of pleasure from it. Once makes large bed. Plants bloom until frost. Fragrance delightful. Invaluable for cutting. For winter flowering in pots I raise Punilla erecta.—Mrs. O. A. Bodd, Prescott, Ariz., Aug. 23, 1909. [p. 28.]

Mirabilis.—**Mr. Park:** Your Mirabilis gave me a great surprise. I bought a packet of mixed and dwarf sorts, simply to see this old homely flower once more. Noticed improvement in foliage, some of which was almost as elegant as Golden Bedder Coleus. Flowers were fine, the coarseness of the old-time "Four o'clocks" being eliminated. Day after day we watched these new marvels of Peru. They resembled some strange, new exotic, with their wealth of tints, stripings and blending of colors. I do not see how you can sell seeds of such flowers for only 3c per packet.—Dr. A. C. Williams, Hugo, Ill. [See page 28.]

Morning Glory.—**Mr. Park:** I am pleased with Morning Glory seeds ordered in spring; vines blooming finely. The flowers are the largest and prettiest that I have ever seen. I greatly enjoy your Magazine.—Mrs. Alice Walters, Reedsville, S. O., Aug. 9, 1909. [See Convolvulus, page 41.]

Nasturtium.—**Mr. Park:** I sent for an ounce of your mixed Nasturtium seeds last spring and the flowers are lovely. Some who have seen the many varieties said they did not know there were so many different colors.—Mrs. R. C. Cole, Fulton, N. Y., Aug. 30, 1909. [See page 41.]

Nemesia.—**Mr. Park:** Quite late I received a complete special mixture of your Nemesia seeds, and raised many plants. Soon began blooming; at first white, then blue, blue and white, blue, and blue Strumosa Hybrids, one of the last named being spotted like a Gloxinia.—J. Colburn, Lake City, Minn., Aug. 3, 1909. [See page 29.]

Nemophila.—Mr. Park: I had splendid success with your Nemophila seeds. I sowed them in a cool, shady location, and the bed was a wealth of bloom all summer, showing seven different varieties. If the faded blossoms are cut off, they will bloom continually until frost.—Mrs. J. G. Valentine, Reno, Nev., Aug. 4, 1909. [See page 29.]

Nicotiana.—Mr. Park: I like, for a showy bed on lawn, your Nicotianas in colors; the small plants, kept picked in summer and set into large pots, blossom nearly all winter. One had over fifty blossoms on Washington's Birthday.—Mrs. J. L. Johnson, Norwich, Conn., Aug. 3, 1909. [See page 29.]

Pansies.—Mr. Park: Last year I sent to you for seeds of Kerner's Giant Prize Pansies; they produced the finest Pansies I ever saw. So many blooms in so small a space; every kind and color.—Mrs. Birdie Eastwood, Osgood, Mo., Aug. 8, 1909. [p. 30.]

Petunia.—Mr. Park: I have the loveliest Petunias from your seeds: plain white, red, red with white border, red and white spotted, white and red spotted, also ruffled ones and one double that is red and white spotted. All came from one packet.—Mrs. W. L. Miller, Coon Rapids, Iowa, Aug. 5, 1909. [See page 31.]

Phlox.—Mr. Park: I ordered Phlox seeds from you in the spring and followed your cultural directions, and now have a bed in my yard showing all colors. They are surely beautiful, and I shall have more of them in another year.—Mrs. J. P. Cook Bowman, S. O., Aug. 3, 1909. [See page 31.]

Poppies.—Mr. Park: I like your Shirley Poppies. The many shades of color give a different one for each day. Pretty for the table. If they are picked when the sun is low, they will last two days. Your patrons should all try them.—Mrs. J. L. Johnson, Norwich, Conn., Aug. 3, 1909. [See page 32.]

Portulaca.—Mr. Park: The Portulacas from your seeds were grand. Plants soon came into bloom and were a mass of the richest colors throughout the dry, hot weather.

No one who loves flowers should fail to have Portulaca.—Lena C. Ahlers, Stronghurst, Ill., Sept. 7, 1909. [p. 32.]

Salpiglossis.—Mr. Park: My Salpiglossis from your seeds were lovely. I did not find them difficult to raise. They certainly made a fine display in the bed, being so tall and so rich in color.—Mrs. A. A. Dahl, Mallard, Minn., Aug. 11, 1909. [See page 33.]

Sanvitalia.—Mr. Park: My Sanvitalia from your seeds began early to bloom, and they were just covered with their pretty, golden flowers. The flowers last such a long time

during their season. They are undeniably pretty when they are planted in beds. These flowers are something new in this locality.—Katie Rader, Van Wert, Ohio, Aug. 14, 1909. [See p. 34.]

Scabiosa.—Mr. Park: The Scabiosa from your seeds were of all colors, some being light blue. I prized them above all my other flowers. My neighbors "went wild over them," to use an expressive phrase.—El lenora Hicks, Lily Dale, Ind. [See page 33.]

Schizanthus.—Mr. Park: Schizanthus is one of my favorite flowers. It is easy to grow, is always in bloom and always ready to trim a bouquet. I freely recommend it to flower-lovers.—Mrs. S. Sweeney, Uby, Mich., Aug. 21, 1909. [See page 34.]

Sedum.—Mr. Park: I grew Sedum Corelum for the first time this summer on your good word for it. I had it hanging over stones at the end of a flower-bed. It looked like mist with its crowd of soft, little blue flowers. Now in September, it is still in bloom.—Catherine Smalley, El Paso Co., Colo., Oct. 7, 1909. [See page 34.]

Sweet Peas.—Mr. Park: In the spring of last year I planted a double row of Sweet Peas ten feet long, and none of my flowers has given me more pleasure. The colors range from pure white to a rich, dark red. Many of them are beautifully variegated. I shall plant more next spring.—Carrie Osto, Upunur Co., W. Va., Aug. 4, 1909. [p. 35.]

Wallflower.—Mr. Park: I can recommend your Parlatan Wallflower for early blooming. Mine were started April 1st and began blooming about July 1st. I expect a finer show of them in cooler weather.—J. Colburn, Lake City, Minn., Aug. 3, 1909. [p. 36.]

Vinca Rosea.—Mr. Park: Your Vinca Rosea is easily raised from seeds, and the plants bloom continuously summer and winter. They are not troubled with insects or drought, and on this account are especially useful in Kansas.—Ruth A. Johnson, Glasgow, Kans., Sept. 13, 1909. [p. 36.]

Zinnia.—Mr. Park: I never cared very much for Zinnias until this summer I received a packet of your mixed seeds. The flowers were lovely, so many bright colors and so large they looked almost like Dahlias. I shall hereafter include them in my seed order.—Mrs. Dana Butler, Linn Co., Oreg., Oct. 5, 1909. [See page 37.]

ABOUT PERENNIALS.

Aquilegia.—I offer the elegant, long-spurred varieties, and in loveliest colors. [See page 43.]

Campanula.—Mr. Park: Among the finest of my garden flowers are Cup and Saucer Campanula, which bloomed about the latter part of June, and are now blooming the second time.—J. Colburn, Lake City, Minn., Aug. 3, 1909. [See page 44.]

Carnation.—Mr. Park: Your hardy Carnations are better than you claim. They are as easily raised as any Pink, and perfectly hardy in Vermont, the same plants having endured two winters here, entirely unprotected. The flowers are perfect, of fine colors and borne profusely.—Mrs. John X. White, Jamaica, Vt., Sept. 14, 1909. [See page 44.]

Kudzu Vine.—Mr. Park: Our Kudzu Vine is the most rapid-growing vine I ever saw. We cut ours down in the fall, and in the spring it sends out runners, which grow from fifty to sixty feet in a short time, making a dense shade.—Mrs. J. H. McCaslin, Sweetwater, Tenn., Sept. 1, 1909. [See Pularia, page 49.]

Leucanthemum.—Mr. Park: I planted last spring a packet of Leucanthemum Maximum Triumph, and had countless plants blooming the first year; flowers were very large. This summer they have done wonderfully. No one who has a border can do without them. My Delphinium from your seeds were also particularly fine.—Mrs. H. B. Plume, Dennis, Mass., Sept. 6, 1909. [page 60.]

Perennial Phlox.—Mr. Park: I sowed seeds of Perennial Phlox about three years ago, and now have a nice lot of plants—white, white with pink center, and several shades of pink and purple. Everybody admires them. My son from Texas was home on a visit, and said one stalk was a whole bouquet; he wanted me to save him seeds. Quite a number have said: "I must have some Perennial Phlox." They surely do well here. I never saw any so large as some of mine are. The plants will bloom the first season, if the seeds are sown during the fall. Anyone should be able to raise them.—L. H. Godfrey, Kansas City, Cowley Co., Kans., Aug. 4, 1909. [See page 49.]

Pinks.—Mr. Park: I can recommend your Pinks (Everblooming).—Mr. Park: I am highly pleased with your hardy Everblooming Pinks. My plants make a fine showing in the garden, producing hosts of beautiful flowers of great fragrance, and I heartily recommend them to all lovers of flowers.—Roger C. Whitten, Bridgeman, Mich., Aug. 4, 1909. [See page 49.]

Pinks (Garden).—Mr. Park: It will pay everyone to grow the old-fashioned Garden Pink. I have about forty yards of it as an edging to beds. When it blossoms you can hardly see the foliage, for it is smothered with double, fragrant blooms. It is just lovely. I reset it every fall.—Mrs. Mary A. Risley, Steuben Co., N. Y., Sept. 18, 1909. [See page 60.]

Platycodon.—Mr. Park: I have a clump of Platycodon from your seeds that blooms regularly every year without receiving any attention from me. I am delighted with it.—Mrs. C. N. Baird, Lincoln, Neb., Aug. 2, 1909. [See page 49.]

Pyrethrum.—Mr. Park: I was successful with Hybrid Pyrethrum, and was much pleased with its lovely foliage and delicate, Daisy-like flowers of many colors. I find it a hardy perennial. I shall sow more another spring, as I enjoyed the flowers so much.—Mrs. Eugene Coombs, West Franklin, Me. [See page 48.]

Saponaria.—Mr. Park: My Saponaria Ocyroides was a lovely mass of pink, remaining in blossom a long time and very attractive.—Mrs. L. B. Zantre, Norfolk Co., Mass., Oct. 5, 1909.

Shasta Daisy.—Mr. Park: My Shasta Daisies from you were especially beautiful, and greatly admired throughout the season. I expect still finer results during the coming season.—Mrs. P., Essex Co., Mass. [See Leucanthemum, page 46.]

Sweet Rocket.—Mr. Park: I received your package of Sweet Rocket, and find it a hardy perennial of much beauty. It bears any amount of abuse, and continues to produce large trusses of its fragrant bloom. I think that everyone should have it. I can recommend it to flower-lovers.—Agnes D. Priest, Washington Co., N. Y., Sept. 22, 1909. [See page 50.]

WINDOW GARDEN SEEDS.

Mixed Window Garden Seeds.—Mr. Park: I bought a package of Mixed Window Garden Seeds, which I planted with satisfactory results; but I know the names of only a few of the many plants which grew from that planting. I have twelve Primroses, five Chrysanthemums, and hundreds of others that I am unable to name at this writing.—Nettie Flinders, Oneida Co., N. Y., Aug. 17, 1909.

Abutilon.—Mr. Park: I wish that you could see the Abutilons which I have just raised from a five-cent packet of your seeds. They are so big as to resemble young trees, and are full of flowers.—Mrs. F. W. Johnson, Dodge Center, Minn., April 21, 1909. [See page 51.]

Asparagus.—Mr. Park: Last fall I sowed a mixed packet of your Asparagus seeds and six fine plants came up. Two of them were Asparagus Sprengeri, one like Sprengeri but more bushy, one the Plumbed Asparagus, another a Plumbed Asparagus with flat leaves, and still another with finer foliage than Sprengeri, each leaf when it unfolds appearing like a little white ball. They are all lovely and easy to raise. The seed dish was not covered with glass or paper, but was given partial shade and never allowed to become dry. I want to plant more this season.—Mrs. U. H. Armstrong, St. Lawrence Co., N. Y., Aug. 11, 1909. [See p. 61.]

Begonia.—Mr. Park: From one five-cent packet of mixed fibrous Begonia seeds, bought of you, I got forty plants. I am delighted with my success.—Olen King, Milroy, Braxton Co., W. Va., Aug. 10, 1909. [See page 52.]

Campanula Fragilis.—Mr. Park: A year ago a friend gave me a half packet of your Campanula Fragilis, saying it made the prettiest basket plant she ever saw. With small faith I planted the dustlike seeds in soil, simply pressing the soil to cover the seeds, and then kept the box in a warm window covered with a moist paper. Soon the moss-like plants appeared; no insect touched them; in fact they were easily raised. Now, a year from sowing, they are lovely, the plants being covered with their light, purplish, star-shaped blossoms. Friends say: "What is it?" "Where did you get it?" "Such a lovely color!" etc. I can recommend it to others.—Mrs. John X. White, Jamaica, Vt., Sept. 14, 1909. [See page 52.]

Carnations.—Mr. Park: I anticipate having a lovely display of your winter-blooming Carnations this winter. I pinch the seedling plants back throughout the summer, and they become very thrifty, tufted plants for my bay window. I find they are readily grown from seeds, so anyone may be successful with them.—Mrs. L. Junod, Lincoln, Del., Aug. 6, 1909. [See p. 62.]

Cineraria.—Mr. Park: If people only knew how beautiful the Hybrid Cinerarias are, and how easily raised, I am sure that no flower-lover would be without them. I sowed one packet of your seeds, and I am sure every seed grew, they were so thick in the seed dish. I made wreaths of the flowers for a funeral, and every person who had the opportunity to see them thought they were so lovely. I have some more growing, which I intend for winter-blooming.—Mrs. U. H. Armstrong, St. Lawrence Co., N. Y., Aug. 11, 1909. [See page 53.]

Coleus.—Mr. Park: I raised over fifty plants of Coleus from only a five-cent packet of your seeds. I placed every one of them in my rockery, wherein they made a grand display during the entire summer; no two were alike.—Mrs. A. Kellogg, Warren Co., Pa., September 10, 1909. [See page 52.]

Cyclamen.—Mr. Park: I find that your Cyclamen is as easily grown from seeds as a Geranium. They make fine pot-plants, and are just the flower for winter-blooming. You sell a superior strain.—Sam Gamewell, Venango, Perkins Co., Kansas, Aug. 7, 1909. [See page 53.]

Cyperus.—Mr. Park: I have now decided to write to you about the undeniably fine success that I have gained in growing Cyperus, which is also known as the Umbrella Plant. It has proved satisfactory and I am well pleased with the results of my effort. All it needs is plenty of rich dirt and water standing in the bucket all the time. It will then grow satisfactorily and give pleasure to its possessor.—Lillian Judy, Moulton, Ala., Sept. 8, 1909. [See page 53.]

Geraniums.—Mr. Park: This brief letter is written to let you know that I have succeeded in raising two dozen of fine young plants of Zonale Geranium from those seeds procured from you, and nearly all of them have bloomed, which is doubtless an excellent proportion.—Louisa Allen, Susquehanna Co., Pa., Aug. 8, 1909. [See page 54.]

Gloxinias.—Mr. Park: I raised many fine Gloxinias from the little packet of seeds I received from you. The flowers were lovely, from pure white to dark-red and from lavender to purple, striped and blotched. I was pleased with my success, you may feel assured, and I do not hesitate to say that others would have a like success in planting your Gloxinia seeds.—Mrs. Julia E. Magoon, Orange Co., Vt., Sept. 13, 1909. [p. 63.]

Grevillea Robusta.—Mr. Park: I should advise all flower-lovers to try the raising of a Grevillea Robusta from your seeds. I have grown one of that species of plants and it has now become a perfect beauty. I prize my beautiful Grevillea equally as highly as a fern.—Mrs. John Beeghy, Ashland, Ohio, Aug. 3, 1909. [See page 53.]

Heliotrope.—Mr. Park: I never grew Heliotrope until last fall, when I was given a cutting. I began to read up on its culture, and now I have a fine plant. It must not be allowed to become root-bound or dry.—Lillian Judy, Moulton, Ala., Sept. 8, 1909. [See page 54.]

Impatiens.—Mr. Park: I raised some plants of Impatiens Sultanii from your seeds. One had fine, large, rose-colored flowers, another dark-rose, etc. They were beautiful.—Mrs. H. A. Dockun, Story Co., Iowa, October 7, 1909. [See page 24.]

Jerusalem Cherry.—Mr. Park: My Jerusalem Cherries raised from a packet of your seeds two years ago are loaded with cherries and are beautiful.—Mrs. J. H. McCaslin, Sweetwater, Tenn., Sept. 1, 1909. [See Solanum, page 63.]

Passion Vine.—Mr. Park: From the packet of your mixed Passion-Vine seeds I raised four plants. Two of these bloomed when quite small, the flowers being white. Everyone admires this Vine with its peculiar blossoms.

I admire it especially for the window garden. It is a more rapid grower than the Ivy, and fully as handsome, even if it did not bloom. It is not difficult to start from seeds.—Amelia H. Bottsford, Philadelphia, Pa., Aug. 14, 1909. [See Passiflora, page 55.]

Poinciana.—Mr. Park: I have a Poinciana Gillesii or Bird of Paradise, which has bloomed all summer, bedded out. It grew from seed. The bush is of good size and hardy here.—Mrs. J. H. McCaslin, Sweetwater, Tenn., September 1, 1909. [See page 56.]

Primrose.—Mr. Park: Your Primrose seeds all came up, and now I have plants ready to bloom all winter. They are fine. Tell the ladies, if they want winter-blooming plants, to get Primroses.—Mrs. Emery L. Shaw, Boone Co., Ind., Nov. 12, 1909. [See pages 56 and 57.]

Primroses (French Giant).—Mr. Park: Your new French Giant Primroses proved to be the largest and finest I ever saw. I have paid 25 cents per packet for seeds, the blooms of which did not compare with your French Giant. I shall surely order more from you. I bought nearly a dollar's worth of your Primrose seeds, and I think every seed came up, for I sold several dollars' worth of plants, at 10 cents each, during the summer, and now have fully two hundred more of them in bloom, ready to sell. I wish every flower-lover knew how easy it is to raise Primroses from seeds. I shall order all my Primrose seeds from you hereafter.—Mrs. Clara B. Hall, Montgomery Co., Md. [pages 56 and 57.]

Primula Obconica.—Mr. Park: I have had excellent success with Primula Obconica from your seeds. They started readily, and I find they are fine-blooming plants.—Georgiana Bush, Ithaca, N. Y., Aug. 19, 1909. [p. 61.]

Torenia Fournieri.—Mr. Park: One summer I sent to you for Torenia Fournieri, raising a number of plants. The flowers were lovely and admired by my friends. They looked like purple velvet.—Mrs. Kellogg, Warren Co., Pa., Sept. 10, 1909. [See page 58.]

PARK'S SUPERIOR MACHINE-PACKED FLOWER SEEDS.

Offerings of 1910, Tested and Guaranteed of Prime Vitality and Quality.

SPECIAL NOTE--My Friends, you will find my prices here quoted low, but the vitality and quality of my seeds are unexcelled. I do not deal in cheap seeds, and challenge comparison with those of any competitor, regardless of price. My high reputation, the result of forty years of fair and honorable dealing, is at stake. I cannot jeopardize it by supplying faulty seeds, or neglecting my patrons' wants. Send me a trial order. Get up a club order among your friends and neighbors. Such favors are appreciated and well rewarded.

SPECIAL OFFER--Park's Floral Magazine is the popular floral monthly of this country, and that my patrons may all benefit by reading it I make this offer:--Send me 10 cents for a year's subscription, and add 15 cents, making in all 25 cents, and I will allow you to select seeds on trial to the amount of 25 cents. Kindly tell your friends of this offer, and get as many to join you as you can.

PLAN OF THIS GUIDE--This GUIDE is in six divisions:

I. Blooming the first season, sub-divided into Garden Flowers, Ornamental Climbers, Everlastings and Grasses. II. Blooming the second season. III. Window Flowers. IV. Shrubs and Trees. V. Flowering Bulbs. VI. Vegetables. The Table of Contents, on the second page, directs to any particular flower. It also pronounces the names and indicates the approximate time of germination.

Acacia Lophantha.

4 packets 10 cts, 1 packet 3 cts.

An elegant decorative plant either for pots in the window, or sheltered nook in the yard or garden. The foliage is as delicate and handsome as a Fern. The plants are easily cared for, grow rapidly, and are always greatly admired. When we regard its beauty and easy culture it seems very strange that this plant is so rare.

Mr. Park:--From a three-cent package of your Acacias I have ten fine plants, besides giving half of the seeds away. They are doing well and are beautiful. --Mrs. G. B. Holland, Baltimore, Md., Aug. 6, 1909.

Mr. Park:--Acacia Lophantha is one of the most beautiful foliage plants grown. Several seeds placed in a large dish will in a few weeks rival in beauty a Palm as many years old. --Nettie Flanders, Oneida Co., N. Y., Aug. 17, 1909.

Abronia umbellata, Sand Verbena; flowers in clusters, rosy, Verbena-like; plant succulent, and thrives in sandy soil and a dry sunny bed; remove the husk before sowing. Per pkt 5 cents, 4 pkts 15 cts.

Adonis aestivalis, autumnalis, fine-cut foliage, crimson, cupped flowers. Mixed, 5 cts pkt.

Ethionema Buxbaumii, a pretty annual, 6 inches high, erect, branching; flowers in fine clusters, pale red. 5 cents per pkt 4 pkts 15 cents.

Ageratum, New large-flowered. Lovely, free-blooming, overblooming plants very easily grown from seeds. In a sunny situation they are fine for bedding. I found these much used in the fine flower beds of Austria and Germany. They are among the best of garden flowers, also excellent for pots in a sunny window. Dwarf varieties are grand for edgings or pot plants. The tall sorts make a very showy bed.

Alonsoa.

Special Mixture, 4 pkts 10 cts, 1 pkt 3 cts.

Lovely, bright, free-blooming plant, either for beds or pots; easily grown, and always satisfactory.

Albiflora, white; Linifolia, narrow foliage, scarlet flowers; Grandiflora, scarlet; Warscewiczii compacta, orange red; Mutisi, chamolais; each 5 cents.

Myrtifolia, a large, vigorous sort, bearing larger and brighter flowers than others; fine for garden culture, 5 cents.

All sorts mixed, 4 pkts 10 cts, 1 pkt 3 cts.

NOTE.--Alonsoas are mostly Peruvian annuals of the Snapdragon order. All the species are easily grown, both in pots and the open ground. --English Gardener.

Ambrosia

Mexicana, an annual with pretty, deliciously scented foliage; valuable for bedding, and useful for bouquets. A great favorite with some on account of its pretty foliage and pleasing fragrance. Price 5c.

ALONSOA.

Alyssum, Sweet, a favorite little annual, bearing continuously clusters of lovely white, very fragrant bloom in great abundance. Fine for garden edgings, also for pots and baskets. It blooms especially well in late autumn.

Special Mixture, all varieties, 4 pkts 10 cents, 1 pkt 3 cents.

Antirrhinum, Majus.

(Snapdragon) Giant Fragrant, 4 pkts 10 cts, 1 pkt 3 cts.

The New Giant Race of Antirrhinums or Snapdragons are showy and beautiful garden flowers, easily grown from seeds, continuous-blooming, and desirable for pots as well as beds. The flowers, which are sweet scented, come in huge spikes, as shown in the engraving, and are large, delicate, and of a great range of colors, as well as variegations. They are a revelation to those who knew only the old-fashioned Snapdragons.

Tricolor splendens, fine foliage plant, Joseph's Coat 5

Special Mixture, all kinds, 4 pkts 10 cents, 1 pkt 3 cents.

Mr. Park:—I think every seed of your mixed Amaranthus grew—so many kinds and colors. The foliage is almost as pretty as Coleus.—Alzina Martin, Erie Co., Pa., Aug. 23, 1909.

Achusa Capensis.

A dwarf, free-blooming plant, bearing very pretty azure blue flowers in abundance. A half-hardy perennial, but blooms the first season. Price, per packet 6 cents.

Mr. Park:—I wish to recommend Achusa Capensis to flower lovers. It has such lovely little blue flowers, and is so easily raised. As blue garden flowers are rare, I consider it something very handsome, and recommend it to all flower lovers.—Lillie Adkinson, Cloud Co., Kan., Aug. 10, 1909.

Cloud Co., Kan., Aug. 10, 1909.

Anemone, St.

Brigid, large, Poppy-like flowers, red, white and blue; need sandy, well drained soil. They make a beautiful bed; bloom late in fall, also early in the spring. Special mixture of all colors, 5 cents.

Mr. Park:—Anemone St. Brigid produces large and very handsome flowers. There is no flower I know of which surpasses their delicate beauty. A bed of them is a delight to the eye and blooms almost as early in the spring as the Crocus. They are much admired by all who see them.—Agnes Priest, Washington Co., N. Y., Sept. 22, 1903.

Arctotis, beautiful, large, bright flowers

borne on plants a foot high; they delight in a dry, sunny bed; very easily grown from seeds. Brevilapca, Orange, 5 cents; Grandis, lavender, 5 cents; Special mixture, 4 pkts 10 cts, 1 pkt 3 cts.

NOTE.—The species of Arctotis are showy, half-hardy composites from the Cape. The bright colors of many are more intense in the open air than when plants are cramped in pots in the greenhouse.—English Flower Garden.

Artemisia Annua, a tall, very showy

foliage annual, the feathery sprays deliciously scented. Once introduced the plants are reproduced every year from self-sown seeds. Often called Sweet Fern, on account of its pretty, scented foliage. 4 pkts 10 cents, 1 pkt 3 cents.

Mr. Park:—Your Artemisia Annua grows five feet tall, bearing feathery foliage of great fragrance, and is of easy culture. It is especially fine for hiding unsightly objects, and the sprays are excellent for bouquets. During summer it is covered with small green flowers.—Lena O. Ahlers, Henderson Co., Ill., Sept. 7, 1909.

Arnebia cornuta, a very pretty annual,

a foot high, with golden yellow flowers, spotted brown. A rare and striking garden flower from Asia. See engraving, 4 packets 10 cents, 1 packet 3 cents.

NOTE.—Arnebia or Prophet Flower is a handsome and distinct flower, found either on the rock garden or in a well-drained border, and prefers partial shade. Young plants bloom a long time, which adds to their charms.—English Flower Garden.

Mr. Park:—I got a packet of seeds of your Arnebia Cornuta last spring, and had good success with them. The flowers are small but quite pretty, and have the faintest fragrance.—Mrs. A. A. Dahl, Beltrami Co., Minn., Aug. 11, 1909.

Argemone, The Mexican Poppy.

Complete Special Mixture, 4 packets 10 cents, 1 packet 3 cents.

Hardy Mexican Annuals, two feet high, bearing large, Poppy-like flowers, and sometimes known as Mexican Popples. The foliage is light green, prickly and stately; flowers are abundantly produced, and quite showy. Seeds may be sown in spring or fall. The plants are useful for a low hedge or screen.

Grandiflora, white... 5 | **Hunnemannii**... 5 | **Mexicana**, yellow... 5 | **Mixture**, 4 pkts 10 cts, 1 pkt 3 cts.

Mr. Park:—I raised a number of plants from your seeds of Argemone this season. They made a showy row of rich, lovely flowers. They are well worthy of cultivation.—Mrs. A. A. Dahl, Beltrami Co., Minn., Aug. 11, 1909.

Asperula azurea setosa, a charming

hardy annual; plants grow a foot high, and branching; are covered for a long time with sweet, blue clusters. Seeds may be sown in fall or spring. Sown in the fall the plants bloom beautifully in the spring. It deserves to be better known. 4 pkts 10 cts, 1 pkt 3 cts.

NOTE.—*Asperula orientalis* (azurea) from the Caucasus, is a fine little profuse-blooming hardy annual, bearing clusters of fragrant flowers, admirably adapted for bouquet-making.

—Encyclopedia of Horticulture.

Auricula, Alpine Varieties, beautiful hardy

plants of the genus *Primula*. When the seeds are sown in a pot in early spring, and the little plants well cared for, some may bloom in autumn. The seeds as a rule, are tardy in starting, requiring from a year to two years, so unless they come up promptly they tax the patience of the grower. The lovely flower clusters, however, coming early in spring, well reward the patience of the gardener. Once started the plants will last for many years. I offer a fine mixture, 4 pkts 10 cts, 1 pkt 3 cts.

NOTE.—The best soil for Auriculas is composed of equal parts turfy loam, well decayed and pulverized cow chips, leaf-mould, and some sand.—X

Aster, Park's Fine Bedding.

Complete Special Mixture, 4 packets 10 cents, 1 packet 3 cents.

Park's Fine Bedding Aster is justly popular, as these plants, set six inches apart, will grow a foot high, and make a glorious autumn display. The flowers are of large size, of the richest, loveliest colors, double to the centre, and very freely produced. Prepare the bed in a sunny exposure, making the soil deep and rich; water during dry weather. If attacked by the Aster Beetle sprinkle with a liquid made by adding an ounce of fresh hellebore to three gallons of water. I will supply seeds to color for a fine bed, as shown in the engraving below—red, white and blue, with edging, 4 packets, well proportioned, for 20 cents; or special mixture, 4 pkts 10 cts, 1 pkt 3 cts.

Mr. Park:—My Asters from your seeds called "Park's Bedding Asters" are fine; the flower display is certainly beautiful. Some have white centres shading to a very dark margin. I had at least sixty plants from one packet. I would advise any one wishing beautiful flowers for little money to order from you. —Mrs. Jason Peck, Chen Co., N.Y., Sept. 10, '99.

Mr. Park:—I raised a number of Aster plants from your packet of seeds, and had as many different colors. The neighbors told me that my Asters were the prettiest thing in our garden, which, by the way, is saying a good deal, as I have many pretty flowers. —E. A. Marshall, Washington Co., Ark., Aug. 7, 1900.

An Aster Bed.—I will supply seeds for this fine Aster bed to color—red, white and blue, with edging, four packets, well proportioned, for only 20 cents. Start the seeds in the seed bed in the spring, and when the plants are large enough transplant them six inches apart.

Aster, New Hohenzollern

Mixture, 4 pkts 15 cts, 1 pkt 5 cts.

Standing at the head of the Aster list is the new Hohenzollern, an Aster of the feather type, the plants growing two feet high, and producing enormous flowers, five to seven inches across, with curled petals, double to the centre, and of the richest and loveliest shades of color. For groups or beds this Aster is not surpassed, and for cutting it is the most admirable. Even for pots many people prefer it. I heartily recommend it. My seeds are imported direct from the German originator of this fine Aster, and cannot be excelled. The mixture I offer is specially prepared, and contains all the colors in good proportion.

Special Mixture, all sorts, 4 pkts 15c 1 pkt 5c.

Aster, Early Hohenzollern, like the above, but the flowers opening two weeks earlier—rose, white, white changing to rose, each 5 cents. Special mixture, 4 packets 15 cents, 1 packet 5 cents.

Mr. Park:—From your packet of Hohenzollern Asters many plants started, but on account of neglect I only raised ten blooming plants. These were most wonderful. The flowers were as large as Japanese Chrysanthemums, and the color was just what I needed. I shall certainly raise many more next year. —Mrs. A. H. Wilson, Eau Claire Co., Wis., Aug. 7, 1900.

plants were full of bloom. Those who saw them could hardly believe them to be Asters. I shall certainly raise many more of them next year. I have never seen as fine ones, even in Horticultural shows. For beauty they cannot be surpassed. —Mrs. H. B. Plumer, Barnstable Co., Mass., Sept. 6, 1900.

Mr. Park:—I sowed a paper of your mixed Asters and I never saw such Asters or such a variety of colors, all shapes and sizes, some of the largest. They are grand. —Mrs. A. H. Wilson, Eau Claire Co., Wis., Aug. 7, 1900.

Mr. Park:—My Asters from your seeds are just lovely. Everybody says that they are the prettiest they have ever seen. —Mrs. Temp Lake, Braxton Co., W. Va., Aug. 27, 1900.

Aster, Giant Victoria.

Special Mixture, 4 pkts 15 cts, 1 pkt 5 cts.

Victoria

Aster, long considered one of the finest of Double Asters, has been greatly improved, and I now offer the giant varieties in all the fine colors. The plants grow two feet tall, branch freely, and bear flowers of the largest size, often five or six inches across. When in bloom, in September, they are the most showy of garden flowers, and always call forth enthusiastic expressions of admiration. The colors are very rich, and break into innumerable lovely shades, while some varieties exhibit the most exquisite and striking variegations. The seeds I offer are of the best strain, carefully saved by German specialists; and my special mixture is very carefully prepared from all the varieties. I feel assured they will delight all who sow them.

Special Mixture of all varieties, 4 pkts 15 cts, 1 pkt 5 cts.

Aster, Victoria, the old-fashioned sort, still popular, though the flowers are not so large as those of Giant Victoria. Finest mixture, 4 pkts 10 cts, 1 pkt 3 cts.

Aster, Dwarf Victoria, similar to Victoria, but of dwarf, compact habit. Finest mixture, 4 pkts 10c, 1 pkt 3c.

Aster, Victoria Needle, a handsome Double Aster of the Victoria class, with needle-like rays; very beautiful, and of many colors. Finest mixture, 4 pkts 10c, 1 pkt 3c.

Aster, Christmas Tree, Plants grow

two feet high, with horizontal branches in pyramidal form, and literally covered with small, very double flowers of rich colors. Odd, beautiful and very satisfactory to all who have grown them. I supply the following colors—seeds of the choicest quality.

White and Carmine..... 5	Fiery Scarlet..... 5

New Single Aster. Elegance or Marguerite Asters are very graceful and free-blooming, and greatly prized by many lovers of Asters. The flowers are very handsome on the plant, and very desirable for cutting. Don't fail to try them. I supply White, Lavender and Dark Blue, each 5 cents. Finest special mixture of all colors, 4 pkts 15 cts, 1 pkt 5 cts.

Aster, Ostrich Feather.

Special Mixture, 4 pkts 15 cts, 1 pkt 5 cts.

One of our most prized Asters. The plants grow 18 inches high, and are very bushy, free blooming and very showy. The flowers are of large size, double to the centre, show a wonderful range of colors, and the petals are twisted and feathery. Lovely for either garden or house. My seeds of this fine Aster are of the finest quality, and I offer these splendid colors:

Pure White 5	Light Yellow 5	White changing to Rose 5
Rose..... 5	Peach..... 5	White, tipped Carmine.. 5

Special Mixture, 4 pkts 15 cts, 1 pkt 5 cts.

Fine for beds, also for pots. My seeds are the finest to be obtained, and will be found far superior to those mostly offered. My mixture contains all the finest colors well proportioned.

Mr. Park:—Your Giant Perfection Asters are certainly fine, the prettiest I have ever seen, and they show such a great variety of colors.—F. E. Gray, Windham Co., Vt., Aug. 9, 1903.

Mr. Park:—My Asters from your seeds have certainly been lovely. Some of the flowers were as large as Chrysanthemums.—L. E. Marsh, Chesterfield Co., Vt., Sept. 8, 1903.

Aster, New Pompon Crown.

Special Mixture, 4 pkts 10 cts, 1 pkt 3 cts.

A very beautiful race of Asters. The flowers are globular, finely imbricated, and show a distinct white centre. The plants grow a foot high, and should stand eight inches apart.

Park's Fine Double Balsams.

Complete Special Mixture, 4 pkts 10 cts, 1 pkt 3 cts.

Few Garden Annuals equal the Double Balsam in beauty of foliage and flowers, and few are of easier cultivation. The seeds quickly germinate, and the plants begin to bloom when quite small. The flowers are very double, waxy in texture, and of many shades and variations. The seeds I offer are of the finest quality, and will give unbounded satisfaction.

Park's Camellia-flowered.

This class is the most desirable of the many Balsams offered, and cannot be surpassed. The flowers are very large, double and as beautiful as a Rose, while they are of fine texture and surpass in color and variegation. Plants grow two feet high, and if pruned when small they will develop as the one represented in the little engraving.

Giant Red, Giant White, Red-centred, each 5 cents. Mixed. 4 pkts 10c, 1 pkt 3c.

Mr. Park:—A 3-cent pkt of your Double Daisy seeds sowed early in the house gave more plants than I would have expected from a dozen pkts. Flowers double and of handsome colors.—

Eliza C. Smith, North Pitcher, N. Y., Aug. 1, 1909.

Brachycome, Swan River Daisy, a lovely

little annual, showy, graceful and very pretty. Plants grow 10 inches high, bearing a profusion of Cineraria-like flowers an inch across, and of rich colors; easily grown from seeds. Blue..... 5 | White..... 5
Mixed, 4 pkts 10c, 1 pkt... 3

Mr. Park:—I had a fine display of Brachycome from your seeds. Plants bloomed all summer without extra care, and made a handsome edging.—Daisy Bruttentors, Kahoka, Mo., Sept. 11, 1909.

Bidens, showy, half-hardy perennials that bloom the first season; flowers single, showy, and prized by some for cutting. Hardy in the South. Grandiflora, yellow..... 5 | Black Prince, black-crimson, Humulus, yellow Cosmos 5 | called Black Dahlia..... 5
Special mixture of all sorts, 4 pkts 10 cts, 1 pkt 8 cts.

Browallia, very free-blooming and pretty

annuals for either garden beds or window pots. Plants are bushy, a foot high, and perpetual blooming. All are of easy culture, and deserve more attention. Blue, White, Purple, each 5 cts; Speciosa, Roezli, large Blue, each 5 cts; mixed, 4 pkts 10 cts, 1 pkt 3 cts.

Mr. Park:—I have lovely plants of Browallia Speciosa raised from your seeds. They were covered with beautiful bloom.—Mrs. L. Whittaker, Greene Co., N. Y., Aug. 17, 1909.

Calendula Grandiflora.

Special mixture, 4 pkts 10 cts., 1 pkt 3 cts.

The New, Large-flowered varieties of *Calendula* or *Pot Marigold* should have a place in every garden. The plants bloom freely and continuously, and in autumn, after most of the annuals have succumbed to Jack Frost, a row of these *Marigolds* in their gorgeous yellow hues is very attractive, rivaling the Annual *Chrysanthemums*. Grown in pots they are fine for blooming in a cool window during the early part of winter.

Large-flowered Orange Striped... 5
Special mixture of all colors, 4 pkts 10 cts., 1 pkt 3 cts.

Mr. Park:—Every seed of your *Calendula* germinates, and the plants soon develop into lovely green bushes, literally loaded with golden bloom of many shades. They stand drought and chilly nights, and outlast even the *Chrysanthemum* in autumn. Once tried they will always be among the "must haves." Potted and placed in a cool, sunny window, they make a fine display during the winter.—Mrs. O. A. Bodd, Prescott, Arizona, Aug. 23, 1909.

Mr. Park:—From one packet of your mixed *Calendula* seeds I had plants producing many shades of bloom, from pale yellow to deep orange, some striped, others mixed white.—Mrs. O. F. Bailey, Wash.

Cacalia sonchiflora, a hardy annual

known as *Flora's Paint Brush*. The plants throw up long stems, 18 inches high, bearing clusters of brush-like flowers at the smooth, basal and bearing the bristly leaves. Easily grown from seeds. When once introduced the plants will reproduce from self-sown seeds. It is a native of India.

Scabrous... 5 | Yellow... 5
Mixed, 4 pkts 10 cts., 1 pkt 3

Sow seeds where the plants are to bloom, or sow in the seed bed and transplant. The foliage is mostly in a handsome

rosette at the ground. This plant should be more popular.

Calliopsis, very showy garden flowers that

do well treated as annuals. The plants grow a foot or more high, bearing their showy, bright flowers in a waving mass. Very showy in beds, and grand for cutting. Sow in the fall or early spring.

The first three sorts above named have charming, large

showy flowers, and are very handsome annuals.

Callirhoe, beautiful, free-blooming, coo-

tinuous blooming plants, belonging to the mallow family *O. Fedata* is of sprightly growth, has 6 leaves, crabs heads, and is of surprising value for a bed, blooming all the season, and lasting for years. Both deserve a place in every garden. Pedata, purple..... 5
Involuta, red..... 5

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

Campanula, Annual. These are charming

hardy annuals, blooming in a few weeks from spring-sown seeds. They are mostly trailing, bearing a profusion of lovely little blue and white bells, very pretty as edgings. *O. Speculum* is Venus' Looking-glass. *C. Macrostylis* has superb Violet flowers. *C. Proculbens* is fine for baskets. Separate varieties 7 cents per packet.

Special mixture, all varieties, 4 pkts 10 cents, 1 pkt 3 cents.

Candytuft, Annuals. These are well-known

very showy and beautiful hardy annuals. Sown early in spring and thinned till they are six inches apart they make a fine display. The white is especially fine if sown in autumn. All are showy and handsome.

Purple, Lilac, White, Sweet-scented, each 5 cents, Dwarf sorts 5 cents, Special mixture, all sorts, 4 pkts 10c, 1 pkt 3c.

Catchfly (Silene Armeria), a hardy annual

growing a foot high, surmounted by tufts of small, showy flowers. Once started, plants appear every season. It is sometimes erroneously called "Sweet William" on account of a resemblance to the true *William*.

White and Rose each 5 cts. Mixed, 4 pkts 10 cts, 1 pkt 3 cts.

Canna---New Gladiolus-Flowered.

Special Mixture of all colors, 4 pkts 15 cts, 1 pkt 5 cts.

The old Indian Shot, Canna Indica, was introduced from India in 1750, and during the present century dozens of species have come from South America and the West Indies. The best of these were used by a French florist in originating a new and improved class, the varieties of which are the most gorgeous and stately bedding plants in cultivation. The foliage is massive and tropical in growth, and the flowers of the most brilliant colors surmount it in great plume-like heads. I offer seeds in mixture of all the finest named varieties, yellow, scarlet and crimson, margined and spotted, and those who wish seeds of a superior quality will find these just what they want. They are all fresh and genuine, not adulterated with the older sorts, and will produce the finest large-flowered plants. No flower with which I am acquainted will give better satisfaction or greater pleasure than these Cannas, and I therefore urge their culture.

Plant of Crozy Canna.

Special mixture of all colors, 4 pkts 15 cts, 1 pkt 5 cts.

The New Cannas.—There is no disputing the utility of these Cannas. They are undoubtedly splendid acquisitions, and rapidly superseding the tall kinds once grown largely in gardens. They are good conservatory plants, being quite at home when assorted with Palms and Ferns. The newer kinds are remarkably fine flowers, the segments broad and finely colored, the outcome of patient work on the part of Mr. Crozy, —English Garden.

Mr. Park:—Those who want something to bloom all summer and be of little trouble should raise your Cannas. They are very beautiful.—Mrs. C.A. Woods, Beaver, W. Va., Aug. 7, 1909.

Mr. Park:—From a packet of seven seeds of your Cannas, I obtained seven fine plants and gave away three. Their flowers are the handsomest I ever saw.—Mrs. J. A. Cox, Newark, Ohio, Sept. 15, 1909.

Mr. Park:—I got ten cents' worth of Canna seeds of you last spring. I filed the shells and soaked them over night in water, and had twenty-two nice plants. They are so easy to raise from seeds. I never think of saving the roots, as they are so hard to keep over winter.—E. H., Forest Co., Pa.

Carnation, Large-Flowered Vanguard.

Special Mixture, 4 pkts 10 cts, 1 pkt 3 cts.

I take great pleasure in offering my patrons a greatly improved Early-Flowering Carnation, the plants of which bloom almost as early as those of the earliest Margaret race. The plants of the Vanguard Carnation are dwarf and bushy, stooping out into compact, very floriferous bushes, and are thus especially suited for pots in the window, as well as beds in a sunny place in the garden. The flowers are mostly full double, as shown in the engraving, are of very large size, exhibit a wide range of colors, and many are exquisitely marked and variegated. All are deliciously clove-scented. I feel that too much praise cannot be given this splendid race of Carnations. It certainly represents the most advanced type of beauty yet attained in this popular, highly-prized garden and window flower.

White shades..... 5 | Yellow shades..... 5
Red shades..... 5 | Variegated..... 5
Special mixture, all sorts, 4 pkts 10 cts, 1 pkt 3 cts.

Mr. Park:—I was successful with your Carnation seeds purchased two years ago. I had thirty plants, and they began to bloom in three months and were a mass of flowers all summer. When they became straggly, I pinched them back, removing cuttings for the lawn. They are now in full bloom, all colors being represented.—Clara H. McKinnon, El Cajon, Cal., Aug. 4, 1909.

Mr. Park:—From a small packet of your Carnation seeds, I have a beautiful bed. Four kinds are especially beautiful—double crimson, double dark red with darker markings, double white with fine markings of brown on the petals, and a lovely single pink with blood red. They are all very attractive.—Mrs. Lena Collins, Penobscot Co., Maine, Aug. 4, 1909.

Calceolaria Scabiosifolia a trailing plant with Scabious-like, hairy foliage, and rather large yellow flowers in terminal corymbs. Started in early spring the plants will begin to bloom in May, and continue until October. Pkt 5 cts.

Calliethron Douglasii, a handsome composite growing a foot high, bearing numerous bright yellow flowers in autumn. It is a Californian annual, of very easy culture, and makes a showy display massed in a bed. Pkt 5 cts.

Cannabis Sativa, Giant Hemp; an annual growing from five to seven feet high, branching, and clothed with very pretty foliage. In autumn it is laden with seeds which are used for feeding canary birds. Plants make a fine screen. Pkt 5 cts.

Capsicum—Ornamental Peppers in Variety.

The varieties of Capsicum or Pepper are many, and the fruits differ greatly in form, color and size. The plants are all of very easy culture, and are beautiful for a low hedge or border in the garden, and elegant for pots in the window, exciting as much admiration and praise as anything that can be grown. A mixed packet of the seeds will yield a wonderful variety of plants. The fruits are all useful for culinary work or for beds, when not wanted for ornament. I have 33 kinds and can supply any of them separately at 5 cts per packet, or all in mixture, 4 pkts 10 cts, 1 pkt 3 cts.

Celosia---Comb and Plume.

Complete Special Mixture, all sorts, 4 pkts 10 cts, 1 pkt 3 cts.

Celosia Cristata Nana.

Celosia Cristata nana is the elegant Coxcomb, the flowers appearing in gorgeous big combs, as shown in the engraving. In good soil and a warm, sunny place these combs often measure a foot across, and retain their beauty till frost, bright and enlarging from early summer. I offer a fine strain, the seeds selected only from the best specimens.

Mr. Park:—From your seeds of Summer Chrysanthemums I have some of the loveliest flowers I ever saw. Some are deep yellow, some white and some cream. They are very free-blooming and beautiful.—Mrs. J. D. Slusser, Blacksburg, Va., Aug. 1, 1909.

Carduus Marianus, a hardy

plant with handsome variegated leaves, useful for a bold edging. Sow the seeds in fall or spring. *O. Benedictus*, the Blessed Thistle, is similar. *O. Kernerii*, new, three feet high, pretty rose flowers. Each 5 cents, mixed, 3 cents.

Carduus tinctorius, the

garden Saffron; the plants grow six feet high, bearing showy, golden flowers in autumn. The dried flowers are used for dyeing, and for tea, taken for measles and scarlet fever. Showy annual. Pkt 5 cts.

Centaureum Drummondii,

A Texas annual two feet high, bearing handsome yellow flowers not unlike a Centaurea; it blooms the entire summer; appears best in masses, the plants set six or eight inches apart in a sunny situation. Packet 5 cents.

Centranthus macrospion, a

lovely annual, grows a foot high, the pretty little flowers in very showy tufts; blooms early, and till after frosts; fine for a bed. White, Flesh, Carmine, Bicolor, each 5 cents, mixed, 4 pkts 10 cts, 1 pkt 3 cts.

Cerastium Biebersteini, a

hoary-leaved evergreen six inches high, useful as an edging; flowers Daisy-like, white, borne in great abundance the second season; makes a very handsome bed when massed together. 4 packets 10 cents, 1 packet 3 cents.

Cerinth retorta, a Mexican

annual a foot high; floral leaves of a purple tint, from among which peep the pretty yellow, purple-tipped flowers. Sow in a warm bed in spring and transplant. Good bee plant. Packet 5 cts.

Cosmos in Variety.

Elegant Summer and Autumn Flowers, graceful and showy in the garden, and very fine for cutting. The mammoth kinds will grow six or eight feet high, as transplanting retards bloom.

Cosmos Blooms

Colomia, a beautiful annual allied to Gilia; the plants grow a foot high bearing throughout summer Verbenalike clusters at tips of branches; Coccinea, scarlet, from Chili, and Grandiflora, reddish yellow from Cal. Each 5c, mixed, 4 pkts 10 cts, 1 pkt 3 cts.

Cosmidium Burridgeanum, a composite annual, with bright yellow flowers the size of a Calliopis, on long stems; very pretty; easily grown from seeds, and very easily transplanted. Price, 4 packets 10 cents, 1 packet 3 cents.

Crenis, very showy and pretty annuals known as Hawkweed; the flowers are white, pink and golden yellow. The white and pink-flowered plants are a foot high; the yellow-flowered taller, flowers larger. Each 5 cts, mixed, 4 pkts 10 cts, 1 pkt 3 cts.

Cheiranthus Maritimus, the Virginia Stock; a pretty little annual for massing, also for pots. If started in summer it blooms well in winter. Crimson, White, Carmine, yellow, each 5 cts, mixed, 4 pkts 10c, 1 pkt 3c. Ten Weeks' Stock, mxd 5c

Cuphea Zimapanul is a fine annual with lovely Sweet Pea-like flowers, useful in the garden and for cutting. C. Strigulosa is also very fine. C. Platycentra is the Cigar Flower, useful for winter-blooming. Each 5 cts, mixed, 4 pkts 10 cts, 1 pkt 3c.

Cynorassum, grows three feet high, branching, and bearing an abundance of very showy blue or white flowers; splendid for bees, and attractive for a group or screen. Each color 5 cents; mixture, 4 pkts 10 cents, 1 pkt 3 cents.

Mr. Park:—I have been buying seeds of you for more than twenty-five years, and in that time have found that Park's seeds are uniformly good and always as represented. I always recommend Park's seeds whenever I have the opportunity of doing so, and have succeeded in getting others to send, and thereby becoming life-long friends of Park and his seeds.—Mr. J. M. McKean, San Diego, California

Dahlias---Single-Flowered and Double-Flowered.

Complete Special Mixture, 4 packets 15 cents, 1 packet 5 cents.

Lilliput, extra fine double, mixture.....10 |

Complete Special Mixture, Single and Double, very fine quality, 4 packets 15 cents, 1 packet 5 cents.

Mr. Park:—From a packet of mixed Dahlias seeds, I have lovely single flowers. The petals are like dark maroon velvet, also yellow single ones like satin, and very double pink and red ones. —Mrs. E. O. Wilson, Canaan, N. H., Sept., 4, 1909.

Mr. Park:—From your packet of Single Dahlias I raised sixteen fine plants, all of which are now in bloom. The flowers are all single and of several shades of red, white, pink and one white with purple blotches. They are all very beautiful.—Eugene Pierle, Sacramento, California, July 14, 1909.

Dahlias are as easily raised from seeds as Zinnias, and bloom almost as early. From a choice strain many plants will produce flowers of superior merit. Formerly the Double Dahlias were the only kinds grown, but the new Single-flowered varieties are now very popular, being graceful, free-blooming and showy. Seeds of Double Dahlias are sparingly produced, and consequently high in price. Roots of all may be preserved and used the next season.

Mr. Park:—One of the beauty spots in our garden this summer was a clump of Blue Perennial Larkspur beside a bed of Lillium Candidum. The Larkspurs are easily grown from seeds, and begin to bloom first season.—Mrs. M. O. Ricketts, Lima, O., Aug. '09.

Datura.

A vigorous-growing plant bearing large, funnel-shaped flowers. The seeds germinate readily, and the plants begin to bloom in summer. If the roots are lifted and kept in a frost-proof place they will last for several years. At the South they are hardy. D. humilis, D. fastuosa and D. Wrightii have deliciously scented flowers. Mr. Park:—I must tell you of my Datura seeds I bought of you. I sowed them outdoors in the spring, and thinned them out. The plants grow four feet high, and showed thirty blossoms open at one time, and oh, how fragrant at eventide. They were just grand.—Alzina Martin, Waterford, Erie Co., Pa., Aug. 23, 1909.

Didiscus Cereuleus, a half hardy annual from New Holland; the plants grow a foot high, branching freely, each branch covered by a flat umbel of lovely blue flowers, from August till October. Like a rather dry, warm situation. Sometimes known as Trachymene. Pkt 5 cts.

Dianthus Chinensis in Splendid Variety.

Complete Special Mixture, 4 packets 15 cents, 1 packet 5 cents,

Dianthus Chinensis, the Chinese Pinks, are among the most beautiful and desirable of garden flowers. Seedlings begin to bloom in a few weeks, and remain a mass of rich-colored flowers till after frost. Set eight inches apart they make a grand display in beds, and call forth enthusiastic expressions of admiration.

Mr. Park:—The Japan Pinks I raised from your seeds are fine, so many colors and shades and both single and double. Some are the richest in color I have ever seen. They began blooming early in summer and have been in bloom ever since. I have had good success with all your seeds. I shall send to you for all my seeds and bulbs in the future.—Mrs. W. L. Miller, Coon Rapids, Iowa, Aug. 4, 1909.

Mr. Park:—I have had such good success raising *Dianthus Chinensis* from your seeds. My bed is a mass of bloom, and such lovely colors. I simply grand!—Mrs. John Beegly Ashland, Ohio, Aug. 3, 1909.

DIANTHUS, NEW FRINGED.

I would advise all flower lovers to try them. Mine are

Dimorphothea Aurantiaca, New African Daisy.

PLANT OF DIMORPHOTHEA.

Mr. Park:—The New African Daisy, *Dimorphothea Aurantiaca*, seeds of which you sent me has proved very satisfactory. The plants bloomed all summer and are still full of buds. It will be one of my must-haves.—Josie Files, Waterville, Me., Sept. 8, 1909.

Mr. Park:—I had three seeds of this new flower and such a lot of bloom! The flowers were large, from two to two and a half inch across. Everyone wanted to know their name.—Mrs. L. S. Brainum, Galena, Kans., Sept. 15, 1909.

I believe this New African Daisy to be the most beautiful and distinct novelty introduced for many years. It is a flower for the people, and will in time become as popular as a Marigold or Zinnia. No flower with which I am acquainted has such a rich golden color in masses. It cannot but attract attention and admiration wherever seen. My friends, you might as well get this new Daisy this season, as you will want it later if you do not get it now. It will certainly please you.

Last year I sent out many thousands of packets of the New African Daisy, and from what I can learn it gave great satisfaction, as the testimonials here published show. I found this novelty in Germany, where it made a glorious bed—a veritable sheet of gold, beautiful beyond description. Each plant becomes a branching clump, a foot high, and each branch is tipped with the bright golden daisies, which are produced freely and continuously all the season. I offer it again with confidence, and advise all of my patrons to add it to their order. See engraving.

Price, 4 packets 25 cents, 1 packet 8 cents.

Mr. Park:—Last spring I planted one packet of your New African Daisy, *Dimorphothea Aurantiaca*, and I believe every seed came up. I gave the plants no care, as the fifth baby came to stay with us, but they have grown and bloomed continually, in spite of neglect and heavy frosts, and have made a bright golden spot in the front lawn. They are still blooming, Oct. 16th. Nothing could be brighter than its orange, Daisy-like blossoms. A few African Daisies mixed with Curled Parsley leaves make a bright and pleasing table decoration.—Daisy Deen, Saint Joseph Co., Ind., Oct. 10, 1909.

FLOWER OF DIMORPHOTHEA.

Erysimum, New Bedding.

Price, 4 packets 10 cents, 1 packet 3 cents.

The New Bedding **Erysimum** is a variety of *E. Arkansanum*, and is a hardy annual, ten inches high, dense and bushy, each branch terminated by a cluster of rich golden, Wallflower-like blooms, dazzling the eye with its golden display, and filling the garden air with its delicious fragrance. Seeds may be sown in fall or early spring, in rows eight inches apart, and thinned to six inches apart in the rows. It is a near relative of the Wallflower, and the finest of *Erysimums*. 4 packets 10 cents, 1 packet 3 cents. I also supply *E. Perofskianum* and *E. Pulchellum* at the same price.

Echium plantagineum, doubtless the finest of *Echiums*, its showy, rich purplish violet flowers appearing in long, slender wreaths that rise erect from a tuft of broad leaves; a member of the Forget-me-not Order (*Borraginaceæ*), elegant as a garden flower and useful for bee pasture. 4 pkts 10c, 1 pkt 3c.

Erodium, known as Stork's Bill; allied to *Geranium*, and bears showy flowers in clusters; *Grünium* 5 cts, *Manescavil*, red, violet, fine, 5 cts, mixed 4 pkts 10 cts, 1 pkt 3 cts.

Elsholtzia cristata, a very sweet-scented little lilac-colored flower, good for bee pasture, 5 cts per packet.

Emmenanthe Penduliflora, a little annual with drooping golden-yellow flowers, 5 cents per packet.

Erythraea linariafolia, a very neat little plant of the Gentian family; likes moist soil. 5 cents per packet.

Bloom of Erysimum.

Bloom of Erysimum.

ERYSIMUM.

This is the beautiful California Poppy, which covers the hills in sections of that state with a shining mass of golden color in early spring. The plants have lovely, fine-cut, silver-green foliage, and large, showy flowers in great profusion. Sow where the plants are to bloom, and thin to six inches apart.

My Improved Double *Eschscholtzias* are far superior to the common seeds generally sold.

Mr. Park:—The *Eschscholtzias* were a great delight. Among them were some silvery white ones, such as I had never before seen.—Mrs. P., Essex Co., Mass.

Eschscholtzia.

Special Mixture, 4 pkts 10 cts, 1 pkt 3 cts.

Euphorbia.

The species here offered are annuals that delight in a hot, dry, sunny situation. They grow two feet high and are very showy when in bloom in autumn. *E. Variegata* is known as Snow on the Mountain, the floral bracts being almost pure white; *E. heterophylla* is the Mexican Fire Plant, the floral leaves being rich scarlet. Separate, 5 cents; Special Mixture, 4 pkts 10 cents, 1 pkt 3 cents.

E. Variegata, represented in the little engraving makes a showy bed, and usually

reproduces from volunteer seeds. It is very beautiful in the South, where it appears freely by the roadside.

Eritrichium barbigerum, a borragewort; bearing very bright blue flowers; this is a one of several species rarely seen in cultivation. It should be in every garden. Price, four packets 15 cents, one packet 5 cents.

Eucharidium, hardy annuals related to Evening Primrose. Seedlings bloom in two months, the flowers being quite showy; do best if the seeds are sown in autumn. Rose white and purple

separate or mixed, 5 cents.

Eutoca Viscida.

This is a handsome little annual growing a foot high, and bearing beautiful blue, white and lilac flowers. It is very often classed as a *Phacelia*; it is found native on the Pacific Coast. It is a flower but very little known, but is deserving of greater popularity. Separate, 5 cents; special mixture, 4 pkts 10 cts, 1 pkt 3 cts.

Fenzlia Dianthiflora.

color 5 cts; Special mixture, 4 pkts 10 cts, 1 pkt 3 cts.

This is a very handsome little annual, the flowers, which are borne in great profusion, are lovely rose, white and pink. It is a very charming little plant for edgings or borders. This plant is often classed as a *Gilia*; a native of California, and of easy culture. A ny

any flower that grows. It begins blooming early, and if cut freely, will bloom until after late frosts. Showy in single specimens, and challenges our admiration when grouped in masses.—Ida A. Cope, Santa Clara, Cal.

Gaillardia picta is an annual, bearing very showy, single red and yellow flowers, and G. **Lorenziana** is a variety with double flowers. G. **grandiflora** is a perennial, but blooms the first season. All are beautiful, easily grown and showy. In beds in a sunny place where the soil is not too rich the plants grow a foot high, and set ten inches apart show a waving mass of brilliant flowers on long stems. The seeds may be sown where the plants are to bloom, or may be transplanted.

Hibiscus---Mallow.

Special Mixture, 4 pkts 10 cts, 1 pkt 2 cts.

Annual and perennial flowers deserving of garden culture. H. Primrose-flowered has enormous flowers, of a lovely Primrose-color, and the plants will grow seven feet high, branching, and bearing many fine flowers. H. Africanus is an annual a foot tall, with pale yellow flowers with dark eye. Either kind 3 cents per packet.

Complete Special Mixture, 4 pkts 10 cents, 1 pkt 2 cents.

Mr. Park:—Last spring I planted one 5-cent packet of your Primrose Hibiscus and raised four plants which grew from six to eight feet high, and were loaded with large, beautiful flowers.—Ellenora Hicks, Lilydale, Indiana.

Hunnemannia Fumariaefolia.

This is a beautiful Mexican perennial, the flowers orange, shaped like Eschscholtzia, and very freely produced. The plants grow two feet high, and like a sunny warm bed. The plant belongs to the Poppy family, and the flowers remain a long time in bloom. The plants bloom the first season, and should be started early. They will last for several years if properly protected. 4 pkts 15 cents, 1 pkt 5 cents.

Hebeastretia comosa, the African Mignonette; flowers white in spikes, pretty and fragrant. Reproduces from self-sown seeds. 4 pkts 15 cts, 1 pkt 5 cts.

Impatiens glandulifera, an annual, six feet high, bearing clusters of showy rose and white flowers; fine for a group, or for growing among shrubbery. 4 packets 10 cents, 1 packet 3 cents.

Mr. Park:—I have always been very successful in raising Impatiens Sultani and Impatiens Holsti from your seeds. Planted early in pots in the house, and transplanted when the weather is warm to a large pot or tub, they make very showy plants for the lawn or for a low hedge when set in the ground.—Mrs. J. L. Johnson, Norwich, Conn., Aug. 3, 1902.

or 5 cts. Mixed, 4 pkts 10 cts, 1 pkt 3 cts.

Kenilworth Ivy, a handsome trailing perennial, blooming the first season; grows in dense shade, and is a lovely carpet for a bed, pot or a basket in a shady place. Mixed, 4 pkts 10 cts, 1 pkt 3 cts.

Lavatera Trimestris.

Complete Special Mixture, 4 pkts 15 cts, 1 pkt 5 cts.

These are beautiful Hollyhock-like annuals, growing two feet high, and covered with large, showy, delicate-textured flowers throughout the season. Give the plants a warm, sunny situation and moderately good soil, and you will be delighted with this superb annual. It is of very easy culture. White 5 cents; Rose 5 cents. Mixed, 5 cts.

Ms. Park:—In the spring I bought a packet of your Lavatera Trimestris seeds. The plants have been in bloom for some time and are very pretty, the flowers being large and of such lovely shades of color.—Katie Rader, VanWert, O., Aug. 14, '09.

Layia Elegans.

This is a beautiful, free-blooming annual growing a foot high, and becoming a mass of elegant golden bloom edged with white. The flowers are Daisy-like, and last for a long

time. I can also supply a variety with pure white flowers. Either sort, 5 cents per packet; Complete Special

Lupinus.

Special mixture, 4 pkts 10 cts, 1 pkt 3 cts.

I was delighted with the showy character of the Annual Lupins as they grow in Europe. They were a revelation to me. I was especially pleased with the Dwarf Hybrids; the

beds of them were glorious. I know my patrons will be pleased with them if they meet even with partial success. They grow a foot high, and should be sown in rows and thinned to eight inches apart.

Linum grandiflorum, the Scarlet Flax,

a very effective annual in beds. At the big German Seed Gardens I saw nothing to equal the odd and pleasing color of masses of this easily grown annual; a foot high. Roseum, 5 cts. Rubrum 5 cts, mixed, 4 pkts 10 cts, 1 pkt 3 cts.

Mr. Park:—Your Linum Grandiflorum grows over two feet high and blooms all summer. Flowers last well in winter. —Mrs. H. G. Valentine, Reno, Nev., 1909.

Linaria in Variety.

Special Mixture, 4 pkts 15 cents, 1 pkt 5 cents.

These are annuals that should be better known. They are of the easiest culture, growing a foot high, and bearing spikes of charming, Snapdragon-like flowers. The new Maroccana hybrids, shown in the engraving are beautiful, and show flowers of various rich colors.

Aparinoides, very beautiful. 5 | **Alpina**... 5

 Complete Special Mixture, 4 pkts 15 cts, 1 pkt. 5

Leptosyne Douglasi, a fine composite annual, growing a foot high, bearing large yellow flowers. *L. Stillmanii* bears smaller flowers. *Maritima* is a perennial, six inches high, and should be treated as an annual. It bears very freely, large, bright yellow flowers.

Douglasi, large yellow. 5
Stillmanii, beautiful small flowers. 5
Maritima, handsome. 5
 Complete Special Mixture, four packets 10 cents, one packet 3 cents.

Limnanthes Doug-

lassii, a very profuse blooming, prostrate hardy annual; the plants grow six inches high, bearing in great abundance, very showy yellow and white blooms. It likes a moist, rich soil. 4 packets 15 cts, 1 packet 5 cents.

Lychnis.

Special Mixture, 4 pkts 15 cts, 1 pkt 5 cts,

Among the brightest and best of garden flowers, *L. Chalcedonica*, white and scarlet, is splendid, the scarlet dazzling the eye with its brilliancy. *L. Haageana* has very large, rich-colored flowers of various colors. All are perennials, but bloom well the first season. In a bed they make a gorgeous display.

Chalcedonica, scarlet, white, each. 5
Alpina, very dwarf and pretty. 5
Fulgens, bright scarlet. 5
Haageana hybrida, splendid sort. 5
Sieboldii, white, very fine. 5
 Special Mixture, 4 pkts 15 cts, 1 pkt. 5

Mr. Park:—Few persons know the value of the old-fashioned perennial, *Lychnis Chalcedonica*. Its color is as bright as the Scarlet Geranium, and it is perfectly hardy, a permanent feature of the garden. I have a number of clumps, raised from seeds. The seeds germinate readily, and the plants are very easy to care for. If the heads of bloom are

Lychnis Chalcedonica.

picked when they fade, the plant continues to bloom from side shoots. I have kept it in bloom nearly three months by this means.—*Amelia H. Botsford, Philadelphia, Pa., Aug. 13, 1909.*

Mr. Park:—I am pleased with your *Lychnis*, and find it very desirable. The plants are of easy culture, growing almost anywhere, and are lovely. —*Lea C. Ahlers, Stronghurst, Ill., Sept. 7, 1909.*

LYCHNIS HAAGEANA.

Lobelia in Splendid Variety.

Complete Special Mixture, all varieties, 4 pkts 10 cts, 1 pkt 3 cts.

When *Lobelias* do well there is no flower used for bedding that is more lasting, beautiful or showy. They grow six inches high and are literally smothered with the great profusion of bloom. Charming also for pots and baskets. Started in summer they will bloom in a sunny window throughout the winter.

Mr. Park:—I have a border of *Lobelias* from your seeds that surpasses anything of the kind I ever saw. I heartily recommend your seeds to my friends. —*Mrs. O.N. Baird, Lincoln Neb., Aug. 2, 1909.*

Mr. Park:—I want to tell you about my *Lobelia* from a packet of your special mixture. I raised many plants which bloomed throughout the entire drought, and became one handsome solid mass of blue and white. I most heartily recommend them.—*Daisy Bruttentors, Kaboka, Mo., Sept. 11, 1909.*

Mr. Park:—I have been buying my flower seeds from you for thirteen years, and they have never disappointed me. I have such good luck with *Pansies*, *Calpigeosie*, *Carnations* and all.—*Mrs. Hamrick, Linden Heights, Ohio, Dec. 10, 1909.*

Marigolds in Splendid Variety.

Complete Special Mixture, 4 pkts 15 cts, 1 pkt 5 cts,

There are few brighter flowers than the Marigolds, and few that bloom more freely and continuously. They will thrive in sand or loam, and delight in the hot sunshine, and do not mind drought. They are everybody's flower, bringing sunshine and cheer to the heart of every observer. By all means have a bed of Marigolds. You will be delighted with the new and improved varieties.

Double African Marigold.

Double French Marigold.

Single French Marigold, Gold Margined.

Marigold, Tagetes Signata.

Tagetes Signata Pumila, a globular annual growing 10 inches high, smothered with bright yellow bloom; a handsome plant for border or edging. 4 pkts 10 cts.

Tagetes lucida, looks like golden Candytuft; delicious fragrance, like Sweet Myrrh; everblooming. Should be better known. 4 pkts 15 cts, 1 pkt.

Complete Mixture of all Marigolds, 4 packets 15 cts, 1 packet 5 cts.

Mr. Park:—Persons desiring a mass of glowing color as well as of varied forms and markings should plant Marigolds—French, African, and the little edging Tagetes Signata pumila. Set the plants deep to avoid staking, and your bed will elicit the admiration of all—even those who "don't like Marigolds."—O. M. R., Suffolk Co., N. Y., Mar. 3, 1909.

Latisca canescens, a plant of the Labiate family, growing one and one-half feet high, with pretty whorls of blue flowers. 5

Myosotis---Forget-me-not.

Complete Special Mixture, 4 pkts 15 cents, 1 pkt 5 cts.

For many years the lovely flowers of the Forget-me-not have been very highly prized. The plants are dwarf in habit, very free-blooming, and of easy culture. If the seeds are sown in early autumn the plants will bloom beautifully in the cool spring weather. They like moisture and a cool atmosphere. Started in the spring the plants bloom in autumn. The varieties of Victoria (see larger engraving) are all very beautiful, and fine for pot culture as well as the shady garden. I offer all of the finest varieties known, and my complete special mixture is unsurpassed.

Obeliscaria pulcherrima, a very handsome composite, with cone-like centre and golden drooping rays—a sort of Rudbeckia. They are very easily grown, and very odd. 4 pkts 10 cts, 1 pkt 3 cts.

Oxyura Chrysanthemoides 1½ feet; handsome yellow-flowered composite annual from California; 5 cts.

Oxalis, low plants with clover-like foliage and clusters of very pretty flowers; fine for edgings, baskets and ground-work. Floribunda, alba, R. rosea, Rosea alba, R. delicata, Tropaeoloides, Valdiviana mixed, Sensitiva Each 5 cts. O. Tropaeoloides has brown foliage—a fine low background for bedding designs. Special mixture, 4 pkts 15 cts, 1 pkt 5 cts.

Pansy, Roemer's Giant Prize.

Complete Special Mixture, 4 pkts 15 cts, 1 pkt 5 cts.

THE PANSY is the most popular of garden flowers, and justly deserves its popularity. No flower blooms earlier, or more freely and continuously, and none is more delicate in texture, rich and varied in color, or more pleasing and attractive. A bed of well-grown plants in bloom is gorgeous, and always enthusiastically admired. It rivals the Tulip bed in the spring, and blooms freely till July, then continuously, though less freely till winter. The strain I offer is unsurpassed, the plants being robust, the flowers of enormous size, and the colors of wonderful variety and beauty. I offer mixtures carefully prepared as described below. *The 10 packets, (1pkt of each mixture) for only 25 cents.*

Mr. Park:—From a packet of your Pansy seeds I have a lovely bed of Pansies this spring, showing all colors. Some of the flowers are immense in size and very beautiful. —Mrs. D. E. Squire, Jersey Shore, Pa., July 15, 1903.

Mr. Park:—I bought a packet of your Pansy seeds and raised a great many plants. The flowers were giants in size and beautiful in colors and markings, no two alike. They are unsurpassed by any Pansies I ever saw.—Mrs. A. H. Wilson, Eau Claire, Wis.

Mr. Park:—I find that your Pansies, Roemer's Giant Prize, to be the finest I ever grew. Some were as large as a silver dollar. Everyone wanted to know where I got the seeds.—Mrs. C. T. Reindollar, Manchester, Md., Sept. 7, 1903.

Mr. Park:—I have never had any success with Pansies until this spring, when I used your Giant Prize Pansies. I am very highly pleased with the result.—Mrs. L. M. Scholar, Raleigh, N. C., July 21, 1903.

Park's Mammoth Petunias.

Single and Double, Plain and Fringed, Special Mixture, 4 pkts 15 cts, 1 pkt 5 cts.

I offer the Finest Strain of Mammoth-flowered Petunias in Cultivation, the seeds saved only from selected pot plants and carefully hybridized. All the exquisite shades and colors, and the flowers both plain and fringed. Plants strong and very free-blooming. Following are my superb mixtures:

Gloriosa, very rich velvety red, some with white spots, some with white throats, many beautifully fringed; very fine..... 5
Tigred, Margined and Veined, fine display of markings, many ruffled, and all odd and exceedingly handsome, per packet..... 5
Purity, enormous pure white flowers, some elegantly fringed and ruffled; per packet..... 5
Oculata, varieties with white, yellow and spotted throats, often finely ruffled, large and effective; per packet..... 5
Emperor, velvety red, rose and carmine; rich and effective, the flowers of many superbly ruffled and fringed; per packet..... 5
Double Giant, finest, saved from the best hybridized flowers; finest quality, per packet..... 5
Special Mixture of all these Mammoth sorts, 4 pkts 15 cts, 1 pkt..... 5

Mr. Park:—I sowed a five cent package of Double Petunia seeds and had a dozen plants. Half of them produced double flowers, the others nice, large, fringed flowers. They surely

were fine. I had bought a plant of double Petunia that spring but it never bloomed, but such plants as I had from seeds—some were so large I gave them away as I could not keep them through the winter. This spring I bought large-flowered single seeds, and I now have some of the largest flowers I ever saw, some almost white with a satiny shiny finish, some dark and velvety, some pale pink, some blotched and striped. I admired them very much and think anyone can raise them.—Mrs. L. H. Godfrey, Kansas City, Kans., Aug. 4, 1899.

Mr. Park:—I got a five-cent packet of your Double Petunia seeds and raised several plants. The flowers were certainly beautiful. They were as double as a Rose. One was pink, one white, the balance variegated.—Clara Humrick, Frank Co., O.

Petunia Superbissima, and **Fimbriata**, flowers of enormous size, ruffled edges; White, Blood-red, Yellow-throated, Dark Crimson, Rose, Veined, Margined, White and Lilac, Crimson, Deep Carmine, Purple, Purple with White Throat, Rose and White, Purple margined White, Yellow Throated, each 5 cents; mixed, 4 pkts 15 cents, 1 pkt 5 cents. I can supply these colors in plain edged mammoth sorts, at same price.

Petunias for Beds and Pots.

The Petunia, in its many varieties, is the best all round flower known for general cultivation. It is free-blooming, rich in color, fragrant and showy, making a gorgeous display throughout the whole season, until after severe frosts. It is very easily started from seeds, blooms early, has no enemies, and rejoices in sunshine. It is almost perfect, and can be used for pots in the winter as well as for beds in the summer. I offer fresh seeds of the finest quality, and my mixtures are unsurpassed. For beds or pots I most freely recommend the following:

SPREADING VARIETIES.

Adonis, carmine, white throat..... 5
Abla, white, often with dark throat..... 5
Belle Etoile, starred and handsomely striped..... 5
Carmen Sylva, violet, white throat..... 5
Gen. Dodd, rich dark purple, fine..... 5
Howard's Star, distinct white star..... 5
Intus Aurea, with yellow throat..... 5
Marginata, margined with green..... 5
 Spreading varieties in superb special mixture, 4 pkts 10 cents, 1 pkt 3 cents.

COMPACT VARIETIES.

Multiflora, striped, starred and blotched..... 5
Snowball, pure white, very fine..... 5
Rosea, rose, **Venus**, veined, **Stellaria**, starred, each 5
Rosy Morn, rose with white centre, splendid..... 5
 Compact varieties, special mixture, 4 pkts 10 cts, 1 pkt..... 3

Mr. Park:—I live in western Texas where it is so dry that yard flowers will not grow, and there is too much alkali in the soil for house flowers, so I tried Petunias, and they are grand. I got a three-cent pkt from you in the spring, and now I have lots of pretty Petunias in the house, the wonder of all my neighbors.—Mrs. J. L. Hocking, Young Co., Tex., Aug. 11, 1899.

Palafolia Hookeriana, a composite annual, two feet high, of very dense, bushy habit, bearing in great abundance handsome rosy pink flowers. 4 packets 15 cts, 1 packet 5 cts.

Palava flexuosa, a malvaceous, spreading annual from Peru, bearing showy, pale mauve flowers with bright red anthers and sepals purple at the base. 4 packets 15 cts, 1 packet 5 cts.

Pentstemon Gentianoides, elegant perennials, blooming the first season; flowers Gloxinia-like, scarlet, violet, light colored, all hybrids of best large-flowered strain; mixture, 4 pkts 10c, 1 pkt 3c.

Perilla nankinensis, plants with showy dark brown foliage, many plants showing finely crimped and lacinated leaves. Makes a very handsome foliage effect. Mixture, 4 pkts 10c, 1 pkt 3c.

Phacelia, splendid hardy annuals with showy blue and white flowers; bloom all summer. **Congesta**, **Grandiflora**, **Parryi**, **Tanacetifolia**, each 5 cents. Special mixture, 4 pkts 10 cents, 1 pkt 3 cents.

Physalis, Ground Cherry Free-growing plants with showy capsules, and edible "cherries" inside. **Franchetti**, **Alkekengi**, both red, and handsome, 5c. **Edulis**, golden, for preserves, 5 cts. All mixed 5 cts.

Phlox Drummondii, Large-Flowered, Improved.

Complete Special Mixture, 4 pkts 15 cts. 1 pkt 5 cts.

The Improved races of Phlox Drummondii are hardly surpassed by any other annual. The plants start quickly from seeds, are compact in growth, begin to bloom when small, and continue blooming till after frost. The flowers are graceful in form, bright and varied in color, and produced in large clusters. Set eight inches apart in a bed, the plants make a blaze of rich color throughout the summer. The dwarf, compact varieties are excellent for pots. The Grandiflora and Hortensiaflora Phloxes are especially valuable for beds. Pinch off the first shoots that appear, and the plants will become compact and bushy, like the one shown in the engraving. My seeds of these flowers are first-class, and my special mixtures are carefully prepared.

SEMI-DOUBLE.—These bear semi-double flowers of the leading colors.

Dark red.... 5 | Pure white.... 5 | Bright scarlet... 5 | Pale yellow... 5 | Brown... 5

COMPACT DWARF SORTS.—Fireball, bright scarlet, globular..... 5

Surprise, vermilion, white centre.... 5 | *Viola* *ceae* *Striata*.... 5 | *Mirabilis*..... 5 | Complete Special Mixture of all colors, 4 packets 15 cents, 1 packet..... 5

Mr. Park:—I planted a row of Phlox Drummondii ten feet long and found I had all I could manage. I had but one packet of your seeds, but could have made the bed four feet square and had a much nicer display. They would not have been any prettier, however, for they were so large and of every color.—Mrs. Emma Isaacs, Saline Co., Kan., Oct. 10, 1909.

Mr. Park:—I find your Phlox Drummondii easily raised and very free-blooming. The plants will bloom continuously if not allowed to seed. The flowers are sweet-scented, very showy and of so many bright colors, and double and single.—Ruth A. Johnson, Glasgow, Kansas, Sept. 13, 1909.

Poppy, Annual.

The Annual Poppies are exceedingly showy and beautiful flowers, and all easily grown. Sow in early autumn or early spring, and thin the plants to eight inches apart. I offer choice seeds of the finest varieties.

Salvias in Splendid Variety.

Complete Special Mixture of all sorts, 4 pkts 15 cts, 1 pkt 5 cts.

Mr. Park:—Your Salvia Pendula is the finest I have ever seen. This is identical with "Drooping Spikes" that other seedmen have been selling at very high, fancy prices. I procured Drooping Spikes, Clara Bedman, St. Louis, Burning Bush, and Bonfire, and grow them side by side, together with your Pendula, costing only 5 cents, and they are all identical, being an improved Salvia Splendens. Our Salvia Pendula, bought of you, attracted great attention last summer. We planted our Cannas, half a dozen varieties, in the centre of a large circular bed. We surrounded them with a row of Salvia Pendula, and just outside of the Salvia we had a row of scarlet flowering dwarf Nasturtiums. I bought of you, and that large bed looked like a house burning down, minus the smoke. A city man who saw it, said he had seen nothing more strikingly beautiful in the great parks.—Dr. A. C. Williams, Hugo, Illinois.

Salvias are beautiful and very showy flowers, the prevailing colors being blue and scarlet. Salvia patens has exquisite blue flowers. Salvia sclarea makes a graceful and attractive display when the plants are massed. The most attractive kind, however, is Salvia splendens, commonly known as Scarlet Sage. I offer improved, large-flowered, robust varieties, which are a blaze of rich color throughout autumn. They like a sunny place and plenty of moisture while growing. They are magnificent bedding plants.

Varieties of Salvia Splendens.

- Grandiflora, large, scarlet spikes 5
- Pendula, drooping spikes, scarlet flowers 5
- Prostrata, new, scarlet, 5
- Ingenieur Claynaud, fine, early variety 5
- Giant Scarlet, robust, excellent sort, 5
- Silverspot, scarlet bloom, spotted foliage 5
- Zurich, dwarf, early-flowering, scarlet, 5
- Bonfire, new, compact, scarlet, 5
- Fireball, very rich scarlet; handsome, 5
- Alfred Ragineau, scarlet, compact, fine 5
- Splendens mixed, 4 pkts 15 cts, 1 pkt, 5

Other Choice Varieties of Salvia.

- Carduacea blue, vermillion anthers, 5
- Romeriana, scarlet, very pretty 5
- Patens, blue flowers, tuberous, 5
- Farinacea, bright blue, white, each, 5
- Salvia Sclarea, (Horminum), scarlet, white, violet, separate, 5 cts, mixed, 5
- Coccinea nana compacta, an elegant pot and bedding plant, 5
- Coccinea lactea, white, handsome, 5
- Aurea grandiflora, a superb blue-flowered perennial; splendid, 5
- Special mixture, 4 pkts 15 cts, 1 pkt 5

Salpiglossis, New Emperor.

Special Mixture, all colors, 4 pkts 15c, 1 pkt 5c

The New Emperor race of Salpiglossis is a great improvement on the old-fashioned kind, the plants being strong and stiff, and the flowers of great size, appearing in all the rich shades and colors, mostly beautifully penciled. The plants grow two to three feet high, branch freely, and bear their showy flowers continuously and liberally throughout the season. I offer a superior strain of seeds, and my mixture is specially prepared from all the finest varieties.

Brilliant crimson... 5	Rich yellow 5	Brown with gold. 5
Purplish violet 5	Chamols ... 5	Azure with gold ... 5
Light blue 5	Bright rose 5	Dark scarlet 5
Special Mixture, all sorts, 4 pkts 15 cts, 1 pkt 5		

Mr. Park:—Your Salpiglossis were grand, and pleased me greatly. I shall always recommend them to my flower-loving friends.—Miss Inez Speer, Wash. Co., Pa., Dec. 10, 1909.

Scabiosa in Variety.

Special Mixture, 4 pkts 15 cts, 1 pkt 5 cts.

The Improved Double-flowered Scabiosa atropurpurea or Mourning Bride, is a splendid hardy annual, the flowers being of great size, very double, and embracing a wide range of colors from white through shades of red to black, as well as shades of blue or rich purple. The plants grow two feet high, bearing their lovely globular flowers on long, swaying stems. They bloom throughout the summer, and are truly beautiful. Seeds may be sown early in autumn or early in spring. Sown in early autumn the plants winter safely, and come into bloom early the next season. I offer the following superb varieties:

Pure white 5	Rose, fine ... 5	Flesh color 5
Cherry Red 5	Lilac, pretty 5	King of Blacks. ... 5
Fiery scarlet 5	Purple 5	Cherry and White 5
White and Lilac. 5	Sulphur 5	Purple and White. 5
Dark Brick Red ... 5	Pompadour 5	Rosy Carmine 5
Azure Fairy 5	Special mixture, 4 pkts 15 cts, 1 pkt 5	

Double Dwarf, fine for pots in winter. Brown, blood-red, crimson, rosy lilac, white, purple, snowball, each 5c.

Senecio Elegans, Double-Flowered Dwarf.

Special Mixture, all sorts, 4 pkts 15 cts, 1 pkt 5 cts.

Plant of Senecio Elegans.

The new Double-flowered Dwarf varieties of Senecio Elegans are exceedingly showy and beautiful, and make a glorious bed. The plants grow eight inches high, branching, and becoming a mass of lovely rich-colored, very double flowers. Set six or eight inches apart in a bed they make a grand display. The seeds germinate readily, and the plants quickly come into bloom, and remain in bloom for many weeks. This is one of the rare annuals that should come into general cultivation. None are more easily grown, and none make a finer show in a bed. I heartily recommend it.

Double.

Sphenogyne speciosa, a handsome, showy annual, one foot high; flowers Marguerite-like, in beautiful shades of yellow. They are useful for cutting, and make a showy display in beds. Mixed..... 5

Stachys coccinea, a Mexican perennial, a foot high; spikes of red flowers; handsome..... 5

Stevia Eupatoria, a Mexican plant growing 18 in. high, bearing a multitude of white, brush like flowers, in loose corymbs; the plants are branching, and become a mass of fine bloom..... 5

Ten Weeks' Stock in Splendid Variety.

Complete Special Mixture, 4 pkts 15 cts, 1 pkt 5 cts.

This Annual is almost perfect, being of easy culture, clothed with pretty foliage, and bearing long spikes of delicate, double flowers of handsome texture, having a delicious fragrance, and blooming throughout the season. There is hardly another garden flower with so many good qualities. The seeds I offer were saved from pot-grown plants, and can be depended upon for the finest flowers. Transplant the young plants carefully during moist, cloudy weather, giving rich soil and good after-culture. Fine for either beds or pots.

NEW HOLLYHOCK-FLOWERED STOCK.

A new mammoth race, producing a single stem which attains the height of three feet, clothed with lovely green foliage for a foot or more at the base, the spikes being from 15 to 18 inches in length, and a perfect wreath of lovely big double fragrant flowers. This splendid Stock is the earliest to bloom, and keeps in bloom throughout the summer. A double row makes a grand show, and fills the air with rich perfume. I have never known seeds of this magnificent new sort to be sold for less than 15 cents per packet, but I offer the same at 4 packets for 15 cents, or 1 packet for 5 cents. Each packet contains about 50 seeds. Don't fail to get this splendid novelty in Stocks.

Complete Special Mixture of all colors, 4 packets 15 cents, 1 packet 5 cents.

Mr. Park:—Last spring I bought a five-cent packet of your mixed Ten Weeks' Stock and have a fine lot of nice plants. The flowers are mostly double and of all colors, some white, pink and purple shades. They are very fragrant and easily grown from seeds. I have as satisfactory a bed of them as could be had from a more expensive packet. A double crimson one is almost exactly like a Crimson Rambler Rose in color and blossom and is more easily grown, besides being very fragrant.—Euliza O. Smith, North Pitcher, N. Y., Aug. 1, 1909.

Mr. Park:—I wish the flower lovers could see my Ten Weeks' Stock grown from your seeds. I planted each seed in an egg shell and transplanted when the weather was warm. I have one with six spikes of bloom. All are greatly admired.—Mrs. Lavina Whittaker, Green Co., New York, August 17, 1909.

Trachelium, handsome plants of the Bellflower family; plants grow two feet high; leaves deeply cut; flowers small, blue or white, in great abundance. Either color 5 cents; mixed, 4 pkts 15 cents, 1 pkt 5 cents.

Trachymene, see Didiscus, page 20.
Trifolium suaveolens, the sweet-scented Italian Clover, a favorite annual, ½ foot high, with purplish, very fragrant flowers, pkt 5 cents.

Tropaeolum, Tom Thumb.

For beds, pots or window boxes, few annuals are so useful as the Dwarf or Tom Thumb Tropaeolums. The flowers are large and bright, and borne in great abundance the entire season. For beds the four finest are Yellow, Crimson, Scarlet and Aurora. Beds I saw of these at the seed gardens of Europe were beautiful. I offer them in bulk at 10 cts per ounce, or \$1.25 per pound.

Yellow, Crimson, Scarlet, Aurora, White, Spotted, Rose, Coruleum, Beauty, Lady Bird, King of Tom Thumbs, Yellow-foliage, Golden King, Empress of India, Scheuerianum, each 5 cents; mixed 4 pkts 15 cts, 1 pkt 5 cts.

Mr. Park:—I am successful with your Tom Thumb Tropaeolum, and find great pleasure in them, and have taken several prizes at County Fairs.—J. N. Williams, Broome Co., N. Y.

Tropaeolum, Lilliput.

Special Mixture, 4 pkts 15 cts, 1 pkt 5 cts.

A race of miniature Dwarf Nasturtiums, beautiful in pots and for out-door edgings. I can supply the following elegant colors:

Dark Purple 5
Snow Queen 5
Scarlet..... 5
Spotted..... 5
Sulphur with brown spots 5
Othello, almost black, 5
Brick Red.. 5
Crimson.... 5

Mr. Park:—I have a bed of Tropaeolums every year, but have never had anything to compare with what I raised from your seeds this season. There were so many lovely shades, and every day I had all the blossoms I could gather. They were the most beautiful Tropaeolums I ever raised.—Mrs. H. Jenne, Sullivan Co., N. H.

Verbena, Large-Flowered Hybrids.

Complete Special Mixture, 4 pkts 15 cts, 1 pkt 5 cts.

Mr. Park:—My Verbenas from your seeds have been a mass of bloom all summer, and showed a wonderful variety of colors.—L. E. Marsh, Chester, Vt., September 8, 1909.

Verbenas are well-known favorites. They are easily grown from seeds, the flowers appearing in elegant clusters, of many rich colors, and continuously produced from June till after frost. They are superb bedding plants, not only showy and beautiful, but emitting a fragrance that is truly delicious. The hybrid varieties I offer are very superior, and will yield the best results.

Hybrid Fragrant Varieties.

Complete Special Mixture of all sorts, 4 pkts 15 cts, 1 pkt 5 cts.

Mr. Park:—My large-flowered Verbenas are admired by all who see them. If I could only raise one flower, it would be the Verbena. They are so beautiful and so easily raised.—Mrs. John Beeghly, Ashland, Ohio, Aug. 8, 1909.

Virginia Stock.

A very profuse-blooming annual, a foot high, becoming a mass of bloom in autumn. Handsome also in pots. The colors are white, rose, crimson and yellow. The same in special mixture, 4 packets 15 cts, 1 packet 5 cts. If they are started in early autumn the plants will bloom well in a cool window in the winter.

Fairy Queen, Carmine, and Crimson King, crimson, are very rich-flowered sorts, especially useful either for garden beds or window pots. 5 cts each.

Viola, Tufted Pansy.

The Tufted Pansies are beautiful, Pansy-like flowers which succeed well wherever a Pansy can be grown. The seedlings start in from ten to fifteen days, begin to bloom in a few weeks, and if cut freely will bloom till the snows of winter appear. The colors are varied, and a mixed bed is very attractive. They are deliciously fragrant.

Rich Purple.....	5
Mxd. 4 pkts 15c, 1 pkt 5

Valerian, Fragrant.

A showy and beautiful fragrant perennial. Plants are easily started from seeds, bloom the first season when sown early, and are perfectly hardy, blooming for many years. Flowers small in clusters.

Fine for cutting. A worthy garden perennial and should be in general cultivation.

White..... 5 | Scarlet..... 5
Red..... 5 | Rose..... 5

Vendium fugas, a very handsome half-hardy perennial of spreading habit, covered with Marigold-like yellow flowers during summer. 1 pkt 5 cents, 4 pkts 15 cents.

Verbena venosa, a very pretty trailing annual bearing clusters of purple flowers; foliage deeply cut and very handsome; useful for either beds or pots. 4 packets 15 cents, 1 packet 5 cents.

Vinca Rosea.

Lovely everblooming plants with glossy green foliage and Phlox-like flowers. It is easily grown, and fine for beds in summer and pots in winter. Grows a foot high; thrives in a warm, sunny place.

Colors, white, white with eye, and rose, each 5 cents. Special mixture, 4 pkts 15 cts, 1 pkt 5 cts.

Mr. Park:—I planted your mixed Vincas, and had a bed of beautiful flowers. Now I have many sturdy little volunteer plants that have stood several freezes; I expect a beautiful bed next year.—Alice Peak, Allen Co., Kansas.

Viola Munbyana, Algerian Violet, one of the prettiest of hardy plants; it grows and blooms freely, and continues in bloom a long time. Handsome. 4 packets 15 cents, 1 packet 5 cents.

Vittadenia triloba, very handsome border plant growing nine inches high; becomes a very dense mass of daisy-like bloom; flowers pink, changing to white; is a hardy perennial. 4 packets 15 cents, 1 packet 5 cents.

Viscaria oculata.

Viscaria oculata are beautiful flowers belonging to the Pink family. They are of fine form as shown in the little engraving, and come in very bright colors. White, spotted, blue, rose, red and crimson, each 5 cts. Mixed, 4 packets 15 cents, 1 packet 5 cents.

Wall-flower, Parisian, fragrant flowers in spikes, blooming the entire season. Bloom first season; if grown in pots bloom well in winter. Light brown, blood-red, yellow, cream, 5c ea, mxd 4 pkts 15c, 5c.

Zinnia, Finest Improved Double.

Complete Special Mixture, 4 pkts 15c, 1 pkt 5 cts.

remains in bloom for six weeks.—Mrs. F. G. Stevens, St. Johnsbury, Vt., Sept. 9, 1909.

The Double Zinnias are among the most beautiful and easily-grown of annuals, while they begin blooming early and keep in full bloom throughout the season. The newer varieties far surpass the older ones in richness of color and elegance of form. My seeds were carefully saved from perfectly double flowers, and are of surpassing excellence.

Bedding Zinnias.—These are of dwarf, compact growth and bloom very freely; full double. They make a very attractive bed or border. White, Sulphur, Golden Salmon, Scarlet, Crimson, Purple, Violet, Striped, each 5 cts per pkt. Special Mixture, 4 pkts 15 cts, 1 pkt 5 cts.

Mammoth Zinnias.—These grow three feet high, and bear enormous full double flowers. Pure white, Striped, Sulphur, each 5 cts. Special Mixture 4 pkts 15c, 1 pkt 5 cts.

Fringed Zinnias.—Very double, the flowers handsomely fringed. Rare and beautiful, White, Flesh, Carmine, Rose, each 5 cts. Special Mixture, 4 pkts 10 cts, 1 pkt 5 cts.

Milliput.—Small flowered, full double flowers, odd and attractive. Fine for beds as well as for cutting. White, Golden, Orange, Scarlet, Crimson, Lilac and Fairy red, each 5 cts. Special Mixture, 4 pkts 15 cts, 1 pkt 5 cts.

Pygmy.—Small double flowers on dwarf plants, Scarlet, White, Crimson, each 5 cts. Mxd 4 pkts 15 cts, 1 pkt 5 cts.

Tom Thumb or Miniature.—Similar to the preceding, double and very dwarf, pkt 5 cts.

Crispa fl. pl.—very double, of various colors, with curled petals pkt 5 cts.

Benary's Striped.—Beautiful striped flower, pkt 5c.

Iris.—New Sulphur, Striped, Spotted, pkt 5 cts.

Complete Special Mixture, 4 pkt 15 cts, 1 pkt 5 cts.

Mr. Park:—Those who wish a continuous display of rich bloom in summer should plant your double Zinnias. They are the most satisfactory of all annuals that I have. They show such a diversity of color and shades, and each flower

Superb Ornamental Grasses.

These Grasses are beautiful, either for garden decoration, for using for bouquets, or for drying for winter decoration. Some persons dye the dried bunches, and thus make them more attractive. Besides the following I can supply many others, as *Eragrostis elegans*, *Erianthus Ravenne*, *Gymothrix graminifolia*, *Glycerium argenteum*, *Pennisetum longistylus*, *P. Knappellianum*, *Sorghum nigrum*, *Zizania aquatica*, *Zea quadricolor*, etc., each 5 cts. Special Mixture, large packets, all sorts 3 pkts 25 cts, 1 pkt 10 cts.

Agrostis nebulosa, an airy, elegant annual grass, the delicate panicles appearing like a cloud or nebula. Sow early in spring. This fairy-like grass is fine for bouquets, green or dry pkt 5 cts.

Briza geniculata, another lovely Quaking Grass, very handsome for bouquets, either green or dried; hardy annual, growing a foot high; sow in rows 2 inches apart in a sunny bed early in spring. 5 cts.

Job's Tears, *Coix Lacryma*; it is prized for its handsome gray bead-like seeds; fine for children's beads; worn about the neck for croup and sore throat; 50 seeds 3 cts, 1 oz. 25 cts, pkt 5 cts.

Agrostis pulchella, a more dwarf and rigid sort from Russia; splendid for bouquets, also fine for drying. This grass is handsome for winter decoration. Very pretty for a garden bed, pkt 5 cts.

Briza, mixed. The *Briza* species of grasses are so popular that I have put up a special mixture, including all the kinds offered; they are all very beautiful and elegant for summer or winter bouquets. 5 cts.

Lagurus ovatus, Hare's Tail Grass, very pretty grass, the heads silvery, soft and woolly; one of the finest; useful in garden beds, and make up well in bouquets either green or dry; fine for drying, 5 cts.

Avena Sterilis, Animated Oat, a very hardy annual from Barbary; handsome drooping panicles of large spikelets; very ornamental, fine for drying, pkt 5 cts.

Brizopyrum, sculium, a very pretty decorative grass, the flat panicles appearing in clusters; excellent for drying, as well as for summer bouquets; a rare but handsome grass. 5 cts.

Melica ciliata, a handsome grass for bouquets, green or dry; of easy culture; very desirable in garden beds, the bloom appearing in long, dense heads, 5 cts.

Brachypodium platystachyum, a beautiful ornamental grass; clusters of compressed panicles; very fine for drying; fine for bouquets either green or dry, pkt 5 cts.

Bromus briziformis, a superb biennial grass, 2 feet high, with drooping panicles; sow in July in rows, thin if necessary; plants stool out and endure the winter. 5 cts.

Panicum altissimum, large, showy perennial, useful for lawn groups; also *P. Virgatum*, *P. plicatum*, *Virgatum*, elegant; and *P. sulcatum*, all perennial, each 5 cts.

Briza maxima, a beautiful, hardy annual grass, with nodding panicles; it is the large Quaking Grass, very graceful, and elegant for bouquets, pkt 5 cts.

Chloropsis Blanchardiana, a graceful and beautiful grass with plume-like panicles, fine for drying; easily grown, desirable for bouquets either green or dry. 5 cts.

Stipa pennata, feather grass, lovely perennial with feather-like plumes; once worn as feathers for personal adornment; a very fine perennial grass, hardy, 5 cts.

Briza minima, an exceedingly pretty little Quaking Grass; panicles with hair-like branches; one of the finest; splendid for bouquets, and very ornamental, pkt 5 cts.

Hordeum jubatum, a fine grass, the heads with long hoary awns; make a fine appearance in bouquets; when blooming it is very showy in a garden bed, 5 cts.

Trichostema rosea, a showy tall grass with handsome rosy panicles; splendid for decorative purposes; deserves to be better known; the panicles are excellent for bouquets, 5 cts.

Choice Everlasting Flowers.

Special Mixture, all sorts, large packets, 10 cts, 3 packets 25 cts.

The so-called Everlasting Flowers have firm, straw-like petals that retain their form and color when dried. Most of them should be cut when the buds are just opening, and hang up in bunches in the shade to dry. Some persons dye them to brighten their effect. They make up well with dried grasses (see preceding page) and are fine for mantel and table decoration in winter. All are easily grown from seeds.

Acreclinium, graceful and very pretty half-hardy annuals, growing a foot high, the nodding flowers an inch across, double, and very showy in groups, as well as fine for drying. Cut while in the bud. Double Rose, Double White, each 5 cts; mixture, 4 pkts 15 cts, 1 pkt 5 cts.

Ammobium alatum, new, large-flowered, grows two feet high; the plants are robust, branching, and covered with handsome double flowers; the plants are very easily grown from seeds; one of the best either in the garden or for drying for winter bouquets; cut while they are in bud. 4 packets 15 cts, 1 packet 5 cts.

Gomphrena globosa, known as Globe Amaranth, and German Clover. A beautiful annual, grows a foot high, covered with very large, showy heads of attractive colors during the season. A fine bedding plant, and splendid for drying. Cut when fully developed. The dwarf sorts are showy for beds and edgings.

Flower-Loving Homes

are visited and made brighter and happier every month by **Park's Floral Magazine**, the oldest and most popular journal of its class in the world. It is entirely floral, freely illustrated, original and practical; keeps you posted upon the merits of flowers and successful methods of culture, tells you how to get rid of plant diseases and insects, and gives special information on garden and window culture. It is the flower-lover's own journal, answering floral queries, and helping to overcome all difficulties. *Are you a subscriber?* If not, why not? Only 10 cents a year. Or, order 25 cents worth of seeds from this Floral Guide, sending 25 cents, and the **Magazine** will be included with the seeds. Club of five subscribers, with seeds amounting to \$1.25, only \$1.00. See your neighbors and friends and get up a club. Address

GEO. W. PARK, B. Sc., Editor and Publisher.

La Park, Lancaster County, Penn'a.

Mr. Park.—I have been a subscriber to your Magazine most of the time since the first publication, and have a good many back numbers. I never wanted one destroyed. I passed them along to others, if I didn't keep them. I look for it with pleasure each month. It is the best publication of the kind that I have ever found. One can get more real knowledge of flowers from it than from any other source I know of.—Mrs. F. B. Colton, Hartford Co., Conn., June 14, '09.

Choice Ornamental Climbers.

Special Mixture of all varieties, 3 packets 25 cents, 1 packet 10 cents.

These are very useful for covering trellises and summer houses, for screening walls or porches, or hiding old fences or buildings. They quickly transform an unsightly object into a thing of beauty. Nothing makes a place more pleasing or home-like than the tasteful use of vines. Those I offer start readily from seeds, grow rapidly and are beautiful and attractive. I heartily recommend them to my flower-loving friends.

Cardiospermum Hirsutum.

Cardiospermum.

Special Mixture, 4 pkts 15c, 1 pkt 5c.

Known as Balloon Vine, because of its balloon-like seed-vessels. It is a very graceful, easily-grown vine, reaching the height of eight or ten feet. Its chief beauty is in its charming foliage and curious fruit. Easily grown from seeds.

Halicacabum, common Balloon Vine 5

Hirsutum, a handsome, rare sort 5

Mixed, 4 pkts 15 cts, 1 pkt 5

Bryonopsis laetiflora, a lovely annual vine, the foliage handsomely cut and very pretty; in autumn it is thickly set with small ball-like variegated fruits in clusters. This is one of the most satisfactory of ornamental vines. It belongs to the Gourd family, is handsome and graceful in foliage. Grows 15 feet high, makes a lovely screen. 4 pkts 15c, 1 pkt 5c.

Cajophora lateritia, often catalogued as *Loasa lateritia*. Flowers are large, orange red, borne upon twin stems, and freely produced in autumn. Treat as a half-hardy annual. Furnish brush or wire support, as the vines branch and make a dense growth. A good hedge vine which says "hands off" by its stinging hairs. 1 pkt 5 cts.

Coboea Scandens.

4 pkts 15 cts, 1 pkt 5 cts.

One of the most rapid and beautiful of climbers. It has graceful, bronze-green foliage and bears throughout the season an abundance of large, drooping, bell-shaped flowers, greenish white and rich reddish purple. In the South the vine is hardy, and will bloom for several years, when once established. The vines grow thirty feet high, and bloom continuously till frost.

Purple, large, handsome, nodding bells. See engraving 5
White, not pure, but a greenish color 5
Macrostemma, not so showy as *C. Scandens* 5

Mr. Park:—Last year I planted a packet of your *Coboea Scandens* and set out five plants. By July they had nearly covered the porch, when a hail and wind storm left them literally in rags. But by September they were a thick mass of foliage, and until frost came they were loaded with buds and blossoms. They grew fully seventy five feet during the season. For a rapid climber, dense foliage and beauty, they are the finest I have ever seen or grown. They were greatly admired by all who saw them.—Mrs. J. F. Berry, Knoxville, Tenn. Sept. 10, 1909.

Mr. Park:—My *Coboea Scandens* from your seeds were new in this place and greatly admired. Many wanted me to save seeds for them.—Mrs. H. Damon, Oath. Co., N. Y., Dec. 8, 1908.

Mr. Park:—Last spring with other seeds, I received a packet of *Coboea Scandens* seeds. One plant from the seeds was planted on the north side of the house, and it grew like "Jack a Bean Stalk". It climbed all about the porch, and above the door in the second story; and was covered with large bells, light and dark purple colored. If you want a rapid growing vine, try the *Coboea*.—Mrs. J. R. Etheridge, Iowa.

Calampella Scabra, splendid tuberous perennial; vines covered with lovely clusters of carmine and golden flowers, very showy and beautiful. Keep over like Dahlias. Increase in size and beauty with age. Golden, Carm. 5c

Canary Creeper (*Tropaeolum peregrinum*), a superb climber; foliage light green, lobed and pretty; flowers numerous, yellow, like a miniature bird in form; grows 15 ft high. Is called Canary-bird Vine, 5 cts.

Centrosema grandiflora, a beautiful southern vine, trailing or climbing; flowers pink, large, showy, pea-shaped, start seeds early; a very pretty leguminous vine which grows 3 feet high, 5 cts.

Clitoria ternatea, a charming vine from India; flowers of various shades, richly ornamented with a pure white ring. See engraving. Rich blue, white, lilac. Single and double. Separate or in special mixture. 5 cents per packet.

Cypress Vine, an *Ipomoea* vine of great beauty; grows ten feet high, with cut moss-like foliage, covered with star-like bloom throughout autumn. Sow in a warm, sheltered place when the apple is in bloom, or sow earlier in beds and transplant. An exceedingly handsome vine, valuable for a trellis or to ornament the pillars of the veranda. The foliage is a rich, dark green, very beautiful and attractive, always greatly admired.

Sweet Pea, Improved, Large-flowered.

Complete Mixture, per lb. 50 cts; one-fourth lb. 15 cts; one oz. 8 cts; one-half oz. 5 cts.

If you grow but a half-dozen annuals, one of them should be the Sweet Pea. The vines are of easy culture, and bloom freely and continuously, while the flowers are showy, of exquisite texture, rich in color, delicious in fragrance, and produced in fine clusters on long, stiff stems. For rows or hedges they are beautiful, and scent the entire garden; for bouquets or personal adornment they are unequalled. Sow early, in trenches running north and south, covering a half-inch deep; fill in with earth as the plants grow; as hot weather comes mix with stable litter; cut freely to prevent seed formation, and to prolong blooming. My Mixtures are specially prepared of the finest new varieties, and cannot be surpassed.

Park's Sweet Pea Mixtures.

The Ten Packets, all different, only 25 cents, including a year's subscription to Park's Floral Magazine.

New Spencer and Large-flowered, mixed 5 New Early-flowering or Christmas Sorts, mixed 5

Mr. Park: My Sweet Peas from your seeds were just grand. I had white, cream, yellow, pink, lavender, blue, striped and blotched. They were the prettiest I ever saw.—Evelina Oldham, Linn Co., Mo., Sept. 11, 1899.

Scarlet Runner, a lovely, fast-growing, free-blooming vine; flowers scarlet, in big clusters; also White-flowered. Butterfly runner; Pink, Mammoth runner, etc. 5c. Mxd 4 pkts 15 c, 5c.

Scyphanthus elegans, a half-hardy annual twining plant, covered with hairs; foliage pretty, the golden flowers axillary, and of the form shown in the engraving; allied to Loasa; native of Chili. 5 cts

Solanum seaforthianum, a perennial vine of quick growth, blooming in autumn from spring-grown plants; flowers blue, in big clusters; lifted and kept from frost, will last for years. 5 cts.

Schubertia grandiflora, a handsome evergreen vine bearing large, white, sweet flowers in clusters; desirable as a pot vine, to be bedded out in summer, packet 5 cents.

Sicyos angulata, a native vine of vigorous growth, useful for covering an old fence or tree, or an unsightly object; seeds in clusters, and should be planted in fall where plants are to grow. 5c.

Vicia fulgens, a pretty trailing annual bearing racemes of red and rose flowers; beautiful foliage. I can also supply Vicia Gerardi, violet flowers. Both rare vines. Each 5 Mixed 5 cts.

Thunbergia Alata, A Charming Vine.

Special Mixture, 4 packets 15 cents, 1 packet 5 cents.

One of the prettiest and most free-blooming of annual vines; grows six feet tall, and is covered from June till October with the bright, showy little flowers. Are easily grown from seeds, and delight in a warm, sunny situation. Elegant for trellis or low screen.

Buff with black eye 5 Yellow, pure, fine 5 Pure White, pretty 5
 White with black eye 5 Pure Orange, showy 5 Orange with black eye 5

Special Mixture of all colors, proportioned, 4 packets 15 cents, 1 packet 5 cents.

Mr. Park: Thunbergia Alata is a valuable vine that certainly merits general cultivation, as it begins to bloom early in the season and continues until frost. Is a nice porch vine.—Geo. Owens, Dallas, Ill.

Part II. Biennials and Perennials.

Many Varieties Mixed, Large Packet 10 cents, 3 packets 25 cents.

These are beautiful and lasting flowers, and should be more popular. A bed of them is easily started from seeds, and when once established will bloom richly every season for years, the Biennials reproducing from self-sown seeds. You cannot spend a dollar to better advantage than for seeds of Biennials and Perennials.

Aquilegia (Columbine) is a genus of free-blooming subjects of easy culture in ordinary garden soil. They are suitable for beds, borders and shrubberies, and thrive in a shady situation. They are also very beautiful when naturalized in grass; flowers prized for cutting.—Gardening.

Mr. Park:—I found a prize, indeed, in your mixed varieties of Aquilegia—flowers of all conceivable shapes and colors, double and single, spurred and otherwise. They are perfectly dazzling. They needed so much room that they smothered out a bed of Pinks in short order; but hurrah for this grand acquisition to beds and borders!—Mrs. J. E. Wheeler, Lebanon Co., Pa.

Two Magnificent Climbing Roses.

I offer two of the finest Climbing Roses in cultivation. One is single, the other double, and both are free-growing, free-blooming, and beautiful. The flowers of both are produced in enormous clusters. They are both very handsome. They are briefly described as follows:

Mawatha, single-flowered, medium in size, rich crimson, the centre strikingly contrasted by a mass of large golden stamens; very free-blooming; blooms a little later than some others, but none the less desirable on that account. This Rose I saw growing on a trellis in the Kew Gardens, London, and I regarded it as the most attractive and beautiful of the many Roses with which it was grouped. I offer fine well-rooted plants at 20 cents each, or two for 35 cents. Send me your order now.

Lady Gay, double-flowered, medium in size, lovely rose-pink, very full, and free-blooming; flowers in large clusters. A superb climbing Rose, always eliciting unbounded admiration when in bloom; 20 cts each, 2 for 35 cts.

Both of these Roses are fine for the veranda, the growth being vigorous, the foliage elegant, not subject to disease or insects, and both becoming masses of rich bloom every season. They are Wichman hybrids, a new class of Roses that will be wonderfully popular when better known. One of each 35 cents.

SPECIAL OFFER—To anyone who will send me this season a club order for seeds amounting to Three Dollars, I will send these two fine Roses as a premium. Call for them if you want them.

Other Roses—I have a large assortment of Roses, fine plants of the best varieties. Price 10 cents each, or \$1.00 per dozen, mailed. The four finest everblooming Roses—*Maman Cochet*, *White*, *M. Cochet*, *Pink*, *Helen Gould*, red, and *Etoile de Lyon*, yellow, mailed for 30 cents. *Philadelphia*, *Crimson Rambler*, 10 cents, or three plants for 25 cents. Roses, fine sorts, my selection, 15 plants for \$1.00. Let me have your Rose order. I am sure the plants will please you.

Chrysanthemums—The best Hardy Chrysanthemums are *Prince of Wales*, white; *Bohemia*, yellow; *Salem*, rose pink; *Julia La Gravier*, crimson; and *Mrs. Porter*, bronze. There are no finer varieties for the garden than these, being very double, free-blooming, and rich and varied in colors. I will mail any variety at 10 cents, or the lot, five plants, for only 50 cents. If you do not have these, be sure to include them in your order.

PARK'S FLORAL MAGAZINE

is an illustrated monthly devoted entirely to flowers, is the oldest, most practical, and most widely circulated periodical of its class in the world. Established in 1871, it has been continuously edited and published under the same management ever since, a period of 40 years. It visits and makes brighter and happier every month more than 500,000 homes. Does it visit your home? If not, why not? It is what the amateur florist needs to keep him posted upon flowers and their culture, diseases of plants and remedies, plant pests and how to get rid of them. Every volume is indexed, and if bound at the close of the year becomes an encyclopaedia of valuable information, available as a work of reference. Subscription price only 10 cents a year.

SEED AND BULB PREMIUMS—For 25 cents I will mail *Park's Floral Magazine* for a year and 25 named bulbs, or 20 mixed French Hybrid Gladiolus. Or, for 40 cents I will send the Magazine for a year and 40 bulbs. They are all fine, blooming-sized bulbs.

For 25 Cents I will mail the Magazine one year, and 25 cts. worth of seeds selected from this GUIDE. This offer is made to encourage a trial of my seeds, and induce you to become acquainted with my Magazine, to which you will afterwards become a continuous subscriber. Address **GEO. W. PARK, La Park, Penna.** Send for blanks, samples, etc., and get up a club.
