Two Gardens I Have Planned

Asters

A charming garden can be made entirely of annuals. An effective setting is important. This is another view of the seashore garden on cover.

Larkspur and Lilies

No garden is complete without perennials. Many of these can be raised from seed.

Larkspur.

Californian Poppy.

THE ADAMS METHOD.

One of the most fascinating parts of gardening is planning during the winter months for the season to come. Many find it to their advantage to call in professional help, and I have had the pleasure during the past fourteen years of being of service to them in this way. I should be glad to number you among my clients if I can help you, either to plan your place or your gardens, or to have general oversight of them during the season. Correspondence solicited.

In order to supply my clients and friends with the best seeds, I have established a seed department which has proved most helpful. This department has now been established more than ten years, and I wish to thank all who have helped to make it self-supporting. My acquaintance with the leading growers of fine seeds, bulbs, and plants, both here and abroad, has enabled me to obtain only the choicest stock, and I invite you and your friends to share in the good things which I am able to offer you.

Adams' Little Green Book is not a comprehensive compendium of gardening. It does not desire to confuse or bewilder you, nor does it exaggerate in its descriptions. It is an accurate, carefully written guide of the best varieties for a profitable and fascinating garden.

Henry Saxton Adams, Wellesley, Mass.

My Interest in children's gardens has led me to offer some seeds at about cost. Your attention is specially called to my Garden Unit and Flowerlovers' Club packets which are adapted equally to children's or adults' gardens. See list and prices on envelopes enclosed with this little book.

In Sending Orders kindly give your name and address and enclose the money, either by check, money order, stamps, or coin, and I will forward the seeds and bulbs, by mail or express prepaid. Credit will be given to known or reliable parties if desired.

Many find it convenient to send the Green Book marked, others use the order sheet. In any case please fill out first page of order sheet to help me fill your order promptly. If you send the book I will return a new one with the seeds. Postage on marked Green Book, 2 cents per ounce.

Guarantee. I will cheerfully refund the money on return of the goods if you are not entirely satisfied. Of course I cannot guarantee the results any more than any other reliable seedsman. I can, however, and will furnish you with seeds and bulbs that will grow and do well if properly planted and cared for. If you give my stock a fair trial I know you will be pleased, as are the many particular people who are my regular customers.

With best wishes for a successful garden.

Very truly yours,

Henry Saxton Adams.

25 CTS. WORTH OF SEEDS EXTRA is allowed on each dollar sent for seeds at packet prices when asked for and cash is sent with order. The Premium must be seeds in packets only. This offer does not apply to seeds by weight, bulbs, plants, Garden Unit Packets or anything except seeds at regular packet prices when cash is sent with order.

25 Selected Flowers in Superb Mixtures.

Flowerlovers' Club Mixtures.

GREAT SPECIALTY.

Vegetable Seeds.

Peter's selected list of vegetables for the home garden has proved all I claimed for it and is becoming very popular. Quality in seeds is of greatest importance. My seeds are of highest quality obtainable, and yet they are not high in price because I do not have the expenses of the city seedsmen and because, offering only a limited number of selected varieties, the very best in every case, I do not have to carry over large quantities of unsold seeds from year to year. My seeds are all fresh, selected and tested, three requisites for a successful garden.

In making your garden, dig the beds deep and work in plenty of good manure. Continual cultivation during the summer is most important and should not be neglected. Consult the Planting Table opposite.

THE CHOICEST BEANS.

One quart will plant a row 100 feet long, or with pole beans, 150 hills.

Not prepaid; deduct 10c. per pt. or 15c. per qt.

BUSH GREEN-PODDED. Pt. Qt.

Burpee's Stringless Green-pod. A famous bean, early, stringless.... \$0.25 \$0.40

Dwarf Horticultural. Medium early to late. Good as shell bean..... .25 .40

Henry Saxton Adams, Wellesley, Mass.

(Beans.)		Pt.	Qt.

An attractive planting of Tiger Lilies,
Morning Glory and Climbing Roses.

(See page 35.)

Flower Seeds.

MY aim has always been to put out seeds which will enable you to grow superior flowers in luxurious abundance. My selected varieties, superb strains, choice mixtures, and generous packets, combined with the clear and accurate cultural directions I believe the nearest approach to filling the present-day demand for fine seeds.

Now is the day of growing beautiful flowers in luxurious abundance. My seeds will help you, but you must give time and enthusiasm to your garden.

See also Flowerlovers' Club Mixtures on page 5. Every order should contain a full set of these superb varieties.

REFERENCE MARKS.

hA=*hardy annuals* — plants for the open border.

hhA=*half hardy annuals* — plants that should be started early indoors.

tA=*tender annuals* — plants that require protection.

B=*biennials* — plants which flower the second year from seed, then die.

C=*climber or vine* — needs a trellis.

G=*greenhouse plants* — which are not hardy out-of-doors and require more careful treatment.

P=*perennials* — plants which live from year to year out-of-doors.

THE PRACTICAL GARDEN BOOK. By C. E. Hunn and Prof. L. H. Bailey. Containing the simplest directions for the growing of the commonest things about the house and garden. Profusely illustrated. 12mo, cloth. Former price, \$1.00. My price, \$0.60 postpaid.

NASTURTIIUMS A SPECIALTY.

Nearly every home has Nasturtiums growing either in the garden or about the house, and one always sees the same common varieties. I believe that there is no one flower more satisfactory for universal cultivation during the summer, and have made Nasturtiums one of my greatest specialties.

Flowerlovers' Club Nasturtiums. Tall or Dwarf. Price per liberal pkt., 10c.; oz. 15c.; $\frac{1}{2}$ pt. 40c.; pt. \$0.75, postpaid.

All the Poppies Worth Growing.

SHIRLEY POPPIES.

Shirley Poppies are the prettiest and daintiest of all our Garden Annuals. Bright and graceful, they are the only poppies that can be successfully gathered for home decoration. Planted in February and March they flower in June, and by successive plantings may be had in flower all summer until frost. Plant Shirley Poppies in masses wherever there are bare spaces in the garden. I offer the latest novelties in Shirley Poppies.

The Garden Magazine.

You cannot afford to be without the Garden Magazine. It is full of practical suggestions and abounding in enthusiasm. Twelve numbers a year, including two special planting numbers.

Special Offer. Subscription price, \$1.50 per year or \$3.00 for three years. Special premium of 25 cts. worth of seeds for each subscription received by me.

See Little Brown Book for list of Practical Garden Books I can furnish. Send me list of any other books you want.

Garden Advice.

Competent advice on gardening matters is often needed, and experience has found that it pays to consult an expert. I make plans and give advice for all such work, large or small, whether for the whole estate or parts of it, for roads and grading, for shrubbery, borders, or gardens. See garden pictures in this book on outside cover and pages 2 and 16 for illustrations of my work. Can I not help you?

The care of old or established gardens will be undertaken if desired, in which case regular visits will be made and advice and suggestions made as conditions warrant. Correspondence solicited.

Cut Flowers. I will gladly send flowers to Wellesley College or Dana Hall students for my friends and customers if desired. Send your order with the amount you wish to spend, at least five days before they are to be delivered.

Would it please you

to have beautiful flowers in your house next winter and in your garden in the spring?

If so,

the bulbs must be planted this fall.

Adams' Little Brown Book of Dutch Bulbs will tell you all about it. Write for copy.

Special Prices on Import Orders

All orders for bulbs sent in before July 1 subject to special discount of 10%. Send your list for prices on anything not listed. It is the cheapest and the best way to buy.
