PRICE LIST

OF THE

ELNORA - NURSERIES,

AMOS RAGLE,

ELNORA, INDIANA.

SPRING 1910

AUTUMN 1910

INTRODUCTION.

It is with pleasure that this new price list is presented to you, which will be in effect during the season of 1910, unless another is issued.

The object of this is to call your attention to my line of up to date NURSERY PRODUCTS, consisting of the very best varieties that are to be had for this climate.

I do not claim that my products are better than you can get any where else, but do claim they are as good as the best, and as cheap as you can get first class stock any where.

Your past favors has been appreciated, and it will be our aim to merit your future trade.

The advance in the price of apple and peach trees, has been brought about by supply and demand, and the outlook is that prices will be still higher next year.

There has been no material advance in the prices of any other items, although the price of labor and supplies demands it.

MAR 13 1916

TIME OF DELIVERY.

The seasons are so irregular that we can fix no certain date for delivery when taking orders, but agents are requested to write the orders for Spring or Fall, as the case may be, and the notice card that will be mailed to each purchaser will give the date of delivery.

GUARANTEE.

We have taken great pains to keep all varieties true to label, and should any tree or plant sent out by us prove untrue, on proof of same you may have it replaced with stock that is true.

But it is mutually understood between the purchaser and our selves, that we are not to be held responsible to any greater extent.

LOCATION.

Elnora, is located at the crossing of the E.&I. and S. I. railroads, which gives us good shipping facilities. The nurseries are one mile south of the city on gravel roads. Come and see us.

NOTICE TO AGENTS.

You will find our trees are graded under two or more different sizes and prices, so it will be best to always have an understanding with your customer as to size and price of trees ordered, and then be sure to mark the size on the back of the order, so there need be no mistake in filling.

Be sure to have your customer sign their order in the space left for that purpose, and then write the name your self just as plain as you can.

Strange names are hard to guess right, and a name once wrong might give trouble in delivery.

BABY RAMBLER ROSE.

Not a climber, but a dwarf everblooming variety. Flowers bright crimson, borne in great profusion. Hardly a day during the season but what this beauty is in bloom. Perfectly hardy. Fine for house plants. Strong plants 35 c.; 3 for \$1.00
