HARDY ORNAMENTALS

— IN —

Herbaceous Perennials, Bulbs, &c.

My Bargain Corner.

There are very few people who occasionally don't like a good bargain. Even the wealthiest are often the first to take advantage of such chances. I don't mean, by a good bargain, an inferior article at a reduced rate on account of its poorer quality. Everybody knows that nurserymen often get larger stocks of some things than others, which, if put up in larger lots, may be handled at a smaller profit. I believe you will find my prices on the following list better than any yet offered. These offers are open so long as my surplus lasts, and I reserve the right to refuse any order that may be received after this surplus is gone. These prices include packing and delivery to nearest Express or Freight office, but do not include postage. There is no refuse or inferior stock in this list. When I can't send good, healthy stock, I will return your money.
