Save
the
Chicks**

Fresh, Clean Water, Always Accessible to Chicks —Means Quick Maturity, Less Disease, Less Death

Read These Facts—

Your chicks *must* have pure, fresh, *clean* water always easily accessible. It is *life* to them.

So it is simply a question of how to place this water before them, in the best and most convenient way for easy use. And the Klean Drink Automatic Fountain has solved the problem.

In the first place, it is absolutely automatic in action. Simply fill the water jar and refill when empty.

In the second place, it is hung up out of the dirt and litter, so the water is always clean.

And as the chicks cannot get into it the water is never fouled or dirtied in any way. The chicks cannot get into the Klean Drink—so they cannot get wet while drinking. That prevents roup and other dangerous chick diseases.

You need the Klean Drink Automatic Fountain for your chicks. Don't let them drink disease-breeding, dirty water. *Clean* water will save you a lot of money. And the Klean Drink is the way to "serve" it.

It's the simplest, strongest, most efficient and most perfect chick fountain ever invented. Made of galvanized iron, zinc and wire—so there's nothing to rust. Fits any standard regular fruit jar which you have on hand. (We do not furnish jars.)

Klean Drink Automatic Fountains are also used for grit, grain, oyster shells, etc. Keeps everything clean and is always handy.

So low priced that you should order a half dozen or dozen at once. Don't wait. Order now.
