WHOLESALE PRICE LIST

OF

WILLETT & WHEELOCK,

NORTH COLLINS, N. Y.

Grapes, Blackberries, Currants, Gooseberries and Red Raspberries in the cellar where they can be packed and shipped any day. Can usually begin digging Strawberries and Black Raspberries the last of March to the first of April, or as soon as the frost is out of the ground.

There is no nursery better situated for transportation than is ours. On the west of us we have at Angola, the Lake Shore, the Nickel Plate and the Pennsylvania Railroads, and the Erie; the other way, with Buffalo but twenty miles distant—the best distributing point in the world. We also have the American, the Wells Fargo, the National and the Adams Express Companies.

Every effort will be made to please our patrons, and no trouble is too great for us to make every exertion to have stock reach its destination promptly and in good order.

No charge for packing, package or cartage to depot. But after delivery to forwarders, it must be with the understanding that we are released from all further responsibility. Should the stock happen to be delayed, wire or write us and a tracer will be immediately sent after them.

GUARANTEE

We believe every plant stored in our cellar true to name. But we also recognize that no one is infallible, and should a mistake occur we will refund money paid for those that prove untrue or replace with such as are true. We are not otherwise liable to damages, and stock is sold with above understanding.

TERMS

Parties not known to us who desire credit should always send references with order. All bills payable June 1st; on all bills remaining unpaid at that date we will draw at sight without further notice, unless otherwise arranged.

IMPORTANT

When plants are wanted by express, always name the company you want them sent by. In the hurrying season it is about impossible for us to look up your express company. For best service they should if possible start by the company that will carry them without change.

STATE OF NEW YORK.

No. 1120. Department of Agriculture'

Certificate of Inspection of Nursery Stock.

Dated, ALBANY, N. Y., Sept. 22nd. 1910.

This is to certify that the stock in the nursery of Willett & Wheelock, of North Collins, County of Erie, State of New York, was duly examined in compliance with the provisions of Section 305 of the Agricultural Law, and was found to be apparently free from any contagious or infectious disease or diseases, or the San Jose scale, or other dangerously injurious insect pest or pests. This certificate expires September 1, 1911.

RAYMOND A. PEARSON,
Commissioner of Agriculture.

ADVICE

Every year we get many letters asking advice in regard to varieties to plant. We can only say in a general way what has done best here and over a more or less large territory.

We endeavor constantly to weed out such as succeed only in limited localities and retain such as are nearly certain to succeed wherever planted.

We shall endeavor to call attention to leading qualities of the different kinds as briefly as possible.

Our price list is intended only for Nurserymen and Dealers and with this information we believe they can choose such varieties as their judgement will tell them is most desirable for their customers.

While we are always glad to help in any way possible you will kindly remember that in the busy season we work long days and if you can get the needed information from the price list, it will confer on us a favor greatly appreciated.

BLOWERS BLACKBERRY

W. H. BLOWERS, Clinton, N. Y.

Dear Sir:—Your can of Blowers Blackberries is certainly the best I ever tasted, the seeds are very small and the comparative amount of pulp is very large. Of course we cannot git rid of seeds in blackberries and have the berries left, but the smaller the seeds and the larger the drupes the better the berry. The flavor is also very fine. I am satisfied you have a fine thing.

Yours truly,
E. P. Powel.

Mr. Crawford, of Horticultural fame,
Cuyahoga Falls, O., says:

—The Blowers Blackberry had been in bearing about a month and all others on the place were gone. I found several rows in a town lot, supported on a very high trellis. It appeared as if the crop had just began to ripen, for there was one of the largest crops in sight that I ever saw, and I have been familiar with blackberries all my life. From

near the ground to a height of ten feet, the trellis was full of berries, many of them ripe, many red and many green ones not yet commencing to turn red. The man in charge told me that the crop would not be all gone until October, and I had no reason to doubt his word. Some weeks later the owner wrote me that he was still picking berries. Although carrying such a tremendous crop the bushes seemed to be perfectly healthy. In two other gardens and on a large plantation in a field the same green, healthy appearance was observed. It was the same with a plantation growing from root cuttings. One bush was tied to the trellis over twelve feet high, and still growing, and was perfectly healthy.

From all I have been able to learn the variety has never been winter killed. One man who has two short rows in his garden for his own use informed me that he had fruited it for seven consecutive years and never new of its failing.

We, ourselves, have fruited the Blowers Blackberry for the past seven years and two seasons were about as cold as we ever experienced, we have had no loss from winter killing, the crop each year exceeding our expectations, The fruit is superior to nearly all other varieties, large, glossy black berries that make the finest appearance in the basket. On account of its large size, productiveness and hardiness, I feel sure every one who plants the Blowers will be delighted with it.

RASPBERRY BLACKCAP

We have a fine stock of Black Cap Raspberry plants for this season and every effort will be made to have them reach our customers in first class condition.

PURPLE

Columbian Raspberry, immensely productive, \$1.25 per 100, \$7.00 per 1000.

RED RASPBERRIES

Idaho, (new). Have fruited this two seasons in a small way and not under the best of conditions. Not able to say much about its commercial value, but will say its interesting and without a doubt one of the hardiest.

THE RUBY RED RASPBERRY

Its Strong Points. The Best Berry to Grow for Profit.

This grand variety was originated at Marlboro, N. Y., and is a seedling of the well known variety "Marlboro." It is a strong grower of large, hardy canes, and a good plant maker.

It ripens with the earliest and continues picking a long season. Its fruit is large, bright red in color, exceedingly firm and of a good flavor. It stands shipment long distances, being shipped daily from this point to Boston through its whole season.

It has been grown commercially for eight years, and to-day stands ahead of all others as a berry for the grower to plant for profit.

We have never been able to meet the demand for this variety, would recommend early ordering.

EARLY KING,—This is one of the most popular grown to-day, its large size, bright color and firmness makes it a favorite with the consumer and its hardiness and productiveness with the grower. Have never known an inch of the wood to winter kill.

We have carefully sorted and graded our Red Raspberry plants so that every plant we believe will be found strictly first class and just what you want for your retail trade.

We guarantee no root gall.

ASPARAGUS

We have about 200,000 two year Asparagus and 10,000 two year old Rhubarb. The above are strong healthy plants that will be fresh dug in the spring. Conovers Col. two year \$3.00 per thousand. Bars Mammouth, two year \$3.00 per thousand. Palmetto, two year \$3.00 per thousand.

Rhubarb, two year No. 1, \$20.00 per thousand.

GRAPE vines packed for shipment—1 year No. 1, about 140 to 180 pounds per thousand. 1 year No. 2, about 100 to 150 pounds per thousand. 2 year No. 1, 280 to 350 pounds per thousand. These are about the average weights for a single thousand including box. Where a number of thousands are shipped in the same box, the weight will average from 1-5 to 1-3 less, according to quantity.

**Don't forget to mention your
Express Company.**
