Barrett's

Tomato

Seeds

1912

ADRIAN, MICH., January 27, 1912.

When you are ready to arrange for your 1912 crop of Tomato Seeds, kindly send me a list of your requirements.

I shall be pleased to quote you my lowest prices.

The remarkable superiority of my stocks is well known by most seedsmen who want the best of everything. I restrict the volume of my business so that I may give to the whole that personal attention needed to secure the best results.

I maintain a stock seed department where careful and systematic effort is made to maintain purity and improve the desirable characteristics of the strains. The stock seeds used are really pedigreed strains. No better can be secured anywhere at any price.

Last year I planted my Sparks' Earliana by the side of a claimed superior so-called strain sold at an extravagant price. Under exactly the same conditions as to soil, treatment and season, mine produced a week earlier and was far better in shape, size, color and productiveness.

I have original methods for keeping seed pure and true to name.

As the seed business is founded on faith in the integrity of the individual, I try to view a transaction from the standpoint of the buyer, and never, for any temporary gain, abuse his confidence.

I do no re-contracting. Each variety is grown in its own locality and washed and cured separately. Consequently stocks are standard and uniform.

TERMS:—On contract growing orders:—June 1st acceptance, or 5% discount for cash in ten days from date of invoice.

On spot orders for shipment from stock:—Sixty days, or 2% discount for cash in ten days from date of invoice.

Early orders are appreciated, as I can then do best as to prices and assortment.

Let me know as nearly as you can estimate just how many of each sort you will require.
