AURORA NURSERIES

AURORA, ILLINOIS

Fine Ornamentals and Fruits

This is a side entrance to one of the beautiful homes in Aurora.
This shows what can be done with good shrubbery. The planting was arranged and done by us.

GROWN RIGHT. Our stock is carefully grown. From the time the small stock or cutting is made up to the time it is planted out in your grounds, it has had the constant care of one who knows how to produce plants that satisfy. No plant is slighted. We know how to grow them and the success of our plants proves that our methods are right.

DUG RIGHT. Some Nurseries grow a fairly good stock and then ruin it by improper digging. If the roots are all chopped, broken and ruined the plant can not be expected to succeed. We know how to dig stock.

PACKED RIGHT. If stock is grown carefully, dug perfectly and packed poorly, plants will not succeed. We are never so busy that we fail to give each box or bundle the required amount of time necessary to pack your goods so that they arrive in good condition.

Sumac-Rhus

No class of plants are more satisfactory. None are more beautiful and surely there is not a foliage that is so restful to the eye as the Sumac. These plants grow in almost any soil or under any climatic condition. There are very many kinds of Sumac and we grow what we consider to be the very best kinds.

COMMON SUMAC, RHUS GLABRA. This is a native of our woods. Splendid plants..... .25

RHUS GLABRA LACINIATA. This is a very pretty low plant with very finely cut leaves. This bush does not grow very rapidly, should be in every garden. Good plants,..... .50

RHUS AROMATICA, Sweet Scented Sumac. This is a very pretty shrub with good colored leaves and a spicy pungent odor. Splendid plants, 25c to..... .50

RHUS TYPHINA, Stag Horn Sumac. This is the Tree Sumac. These trees or bushes will grow to be 20 feet high. They have broad spreading tops and with their beautiful foliage, make a very fine back ground. We consider this a most desirable shrub. Price, for 4-6 foot plants,..... .50

RHUS TYPHINA LACINIATA, Cut Leaf Stag-Horn Sumac. This bush is called the Fern Tree, (see cut). Throughout the entire summer its beautiful foliage, finely cut, is a charming green. When the cool days of autumn come the foliage begins to take on high colors. The color brightens until October's woods has no color equal to that found on this wonderful plant—the Fern Tree. In growing this plant we take particular pains to produce the best of roots. Price
2-3 ft. plants..... .50
3-4 ft. plants..... .75
Large Specimen..... 1.00

RHUS COPPALINA, Smooth Sumac or Shining Leaf Sumac. This is a grand variety. It has fine bright shining leaves and when the first frost arrives the leaves turn a beautiful red, remaining on the bush until well into the winter. At least one plant of this variety should be in every collection. Splendid plants 2-3 ft.50

The Iris

This family of plants is entirely hardy. They have colorings almost equal to an orchid. No flower is any more satisfactory or more charming. Our stock of Iris is unexcelled. Our plants will bloom the very first year. They should be planted early. Orders should be placed now.

German Iris

Aurea, Chrome yellow.....each .25; dozen, \$2.00

Celeste, Pale lavender, very prolific.....
each .25; dozen, \$2.00

Dalmatica, Clear lavender, very fine.....
each, .35; dozen, \$3.00

Dalmatica, Pallida, No. 74, very pale lavender, very large and fine, each..... .50

Dalmatica, Pallida, No 8, very fine dark blue, each..... .25

Mrs. Darwin. This is one of the very best white varieties, each..... .20

Victorine, White with blue edging, very fine, each..... .30

Canary Bird. This is a very fine light yellow variety, each..... .20

Madame Chereau, White frilled with violet, very fine and very popular, each..... .25

Candida, Soft, light blue, each..... .20

Honorable, Gold and mahogany.....
each, .20; dozen, \$1.50; 100, \$10.00

Queen of May, Lilac, blended white, each..... .25

Japanese Iris

Of this grand flower we carry a large number of distinct varieties as well as a mixed

collection. These gorgeous flowers have to be seen to be appreciated, each25

Siberian Iris

This beautiful Iris is very hardy, is a great bloomer and ought to be in every garden. Each 20c, per dozen \$1.50

Dwarf Iris

These are small plants blooming very early at about 8 inches from the ground; they are used for edging. We have them in 4 colors: dark blue, light blue, white and yellow. Each 25c, per dozen..... \$1.50

Iris Cristata

This is a very dwarf plant with pale blue flowers; is very beautiful for borders, each25

Iris

COLLECTION

A Hedge of Berberis Thunbergi (Japanese Berberry)

Berberis Thunbergi (Japanese Berberry)

Old Japan has done a great deal for civilization in the past 20 years. Many beautiful plants have been introduced into America from Japan. Of all the plants thus far brought to America the Berberis is the most popular. Do you know this plant? You ought to get acquainted. The plant is Dwarf, the habit of growth is arching and graceful. Throughout the summer the small leaves with their varied shades of green make a most charming Specimen plant or edging for a shrub border.

It is only after one frost that Japanese Berberry becomes truly beautiful. The leaves turn all the beautiful shades from gold to mahogany and brown, and from the most delicate pink up to firey red. Truly this is one plant to be admired by all. Our stock of this plant is not equaled in America. Our prices are very low and we want your order for a few Specimen plants for about your grounds or for a hedge. Just remember that Aurora grown Berberry is superior, because it is grown by experts who understand how to produce fine plants. Our soil is just right to make lots of roots. A good top and a perfect root system make our plants the best.

1 yr. plants, 6-12 in., for hedges only, \$4.00 per 100

12-18 in. plants, each, .25; 10 for \$2.00; 100 for \$15.00.

Hydrangea

This great plant bears beautiful panicles of flowers from July until frost; and even after the frost has killed the flower do they hang on the bush trying if possible to send some cheer into the

dreary months of Fall and Winter. If taken into the house these blooms may be kept a year. Who does not want such a plant? One plant will have as many as 200 blooms. They are most easy to grow. They are perfectly hardy and thrive in most any soil. Here again we specialize and likewise reduce prices so that any one who loves flowers may possess one of these beautiful flowering shrubs. The bushes we offer are equal to all our other high grade stock and will please you, and the flowers will be a delight to you and yours and to all who pass your way. Order now.

18-24 in. plants, each, .25.

2-3 ft. plants, heavy, each, .50.

2-3 ft. plants, .35.

Tree form, 4-5 ft., each, \$1.50.

Syringa, Lilacs

The favorite of the old garden. The preferred in the garden of today. A garden without a

few Lilacs would be incomplete. There are many kinds of Lilacs. We grow but a few of the very best. No guessing as to whether they are good or not. Our experts have tried them and pronounced the varieties as follows to be the choice:

Cranberry

High Bush Cranberry is a shrub that ought to be in every garden. The leaves are dark green. It bears a snowball something like the old fashioned flower. The flowers completely cover the bush. During the summer loads of beautiful berries form on the stems, taking the place of the flowers. As winter approaches these berries turn red in color and remain on the bush throughout the winter. Nothing is more beautiful than this bush covered with its loads of red berries. This plant is one of the leaders in the line of shubbery. Don't plant too deep. 12-18 in. plants 25c each; 18-24 in. plants 35c each; 2-3 ft. plants 50c each; 3-4 ft. plants 75c each.

Spirea Van Houtei

When in bloom resembles a snow bank. This Shrub is without doubt the one flowering plant that pleases everybody. We grow more Spirea Van Houtei than any other Nursery and our plants

are grown with special care so that the tops are well made upon a perfect root system. Ours are not small spindling plants without strength or life, but are teeming with life and vitality, and when planted on your home grounds will grow and thrive and bloom. Don't plant cheap plants at any price. We are selling high grade stock at very low prices.

12-18 in. plants, each .25; 10 for \$2.00; 100 for \$15.00.

Clematis Paniculata

Truly, this is the one Climbing Vine without a fault. Have you a fence, an old stump or a pile of rocks to cover, the Paniculata will do it quickest and best. For porches and screens this

vine has no superior. Eight long months it carries a wealth of beautiful dark green foliage that is sufficient to keep the hot sun away from any porch. During August, September and October, the small, white star-shaped flowers completely cover the vine. The beauty of the flowers combined with their sweet fragrance is enough to drive dull care away from the lives of those who are so fortunate as to possess one or more of these wonderful vines. If you do not have one you ought to. If you have only one you ought to plant two more. We grow this plant by the thousands and so that this year all may be able to plant them, we have put the price down to the lowest point. At the price asked our stock will soon go and as our retail price is lower than some sell at wholesale we would advise you to hurry your order to us.

Fine 2 yr. plants, X, each, 25; 10 for \$2.00
100 for \$15.00.

Hardy Phlox

There are no more satisfactory plants. They are perfectly hardy. Great panicles of flowers of every color gladden the home grounds from July until frost. We supply a beautiful range of colors in big "ready to bloom" plants,.....each 25c; per dozen, \$2.50.

Beranger, (Dwarf), white, delicately suffused with rosy-pink; distinct red center.

Champs Elysee, (Dwarf), very bright, rosy magenta.

Miss Lingard, Fine white; free blooming.

Premier Ministre, (Tall), a handsome variety with immense panicles of rosy-white flowers, centre deep rose; one of the best.

Coquelicot, (Dwarf), bright orange-scarlet with dark crimson center; fine.

HARDY PHLOX (Continued)

Lumineaux, (Tall), very pretty light red; lighter toward center, crimson eye; large, one of the best.

Queen, (Tall), one of the best pure white sorts; a fine grower and very fine flower.

Montagnard, (Tall), deep crimson, darker centre, large spikes; extra fine.

Indian Chief, Deep magenta, crimson eye.

Richard Wallace, (Tall), a very fine grower; profuse bloomer; large flowers in immense panicles; pure white with bright crimson center. Too much cannot be said of this variety.

Hedge of the Beautiful Hardy Amoor Privet

Privet-Ligustrum

This is the only real hardy variety. It has stood through this winter when many other hedges have been killed to the ground. The habit of growth is upright. The color is a beautiful green. No trimmed hedge can compare with this great plant. If you want something satisfactory buy a hedge of this Privet. It costs a little more but in the end is much the cheapest. We are the largest growers of this variety in America. We actually produce better stock than can be found in any other nursery. We pack this stock so as to reach you in perfect condition. When we dig the plants we dig all the roots. Our method is the right one—ours is the true upright hardy variety. Some other firms claim to have it but what they palm off on the public is a branching plant which will die the first winter.

Our stock of this variety is limited. If you want to be sure of getting a hedge place your order now. 2-3 foot plants, light, \$12.50 per 100. 2-3 foot plants, very heavy, \$15.00 per 100. 3-4 foot plants, big and heavy, \$20.00 per 100. 4-5 foot plants, (specimens), \$30.00 per 100.

SPECIAL—We have a few thousand of this plant in 18 to 24 inch stock with the tops cut off. We will supply these as long as they last at \$10.00 per 100. Remember this is the hardy Privet and guaranteed by us.

CALIFORNIA PRIVET—We do not grow this plant. We buy and sell a few plants. It is not hardy at Aurora or in Northern Illinois. 3-4 foot plants \$12.50 per 100.

PRIVET VULGARIS—COMMON or ENGLISH PRIVET, 2-3 foot plants \$10.00 per 100.

PRIVET of REGEL—This is a very beautiful plant. The leaves and branches of this plant make it look like a very large fern. For very fine specimen plants this is one of the very best. 18-24 inch plants 50 cents each. Specimen plants \$1.00 to \$3.00.

Terms of Sale

Terms—Our terms are cash with order.

Goods Sent C. O. D.—When you wish goods sent C. O. D., please favor us with at least one-fourth of the amount of the order.

PRICES—Prices in this list are at retail. Should you desire a large quantity of trees or bushes send us your list for prices. We are growers of the stock we offer and defy competition. Honest goods at fair prices is our aim. We have no agents.

Peonies

Do you like them? Have you planted them? Do you want to plant them? If your answer to the last question is yes, then we want to tell you that you have found the right place. On account

Pink Peonies

Alexander Dumas—Early; light pink; very choice.
Madam Ballet—Late; deep pink.
Rose Fragrans—Late; clear deep rose; rose scented.
Humei—Late; soft rose; very fine.

Red Peonies

Augustine d' Hour—Deep crimson; bomb shaped; very fine.

Compte De' Gommer—
 Blood red; fine.

Officinallis Rubra—This is the old fashioned dark red.

La Sublisse—Mid-Summer; deep red; bomb shaped; fine.

Dr. Andre—Very rich crimson; golden stamens; in great demand.

Fringed Leaf—(Japanese); this is a rare novelty; very fine cut leaves with dark red rose shaped flowers; early.

of the very bad weather in October we were so unfortunate as not to get our Peony plants transplanted. So that we can properly handle them, we are going to put the price of all these new and splendid varieties right down as low as most people sell the cheap mixed varieties. We grow Peonies right. We see to it that they are kept free and clean, and when we deliver you a plant you may know that it is just as represented. If we sell you a Peony and it is not as represented, bring it back to us. We are selling more Peonies every year because we deliver what we agree to supply. Look over this list of Peonies. They can not be beat in America. **Our price for this Spring only, for roots with 2-3 eyes.....\$.25**

White Peonies

Couronne d'or—Large ivory white; the crest of yellow suggests the name.

Festiva Maxima—Pure white with flakes of red; tall; fragrant; one of the very best.

Golden Harvest—Not very tall; very large; blush guard; creamy white center with carmine tips.

Queen Victoria—Large creamy white; a good bloomer.

Festiva—Shorter stems than the Maxima but with about same colorings.
