Announcement

To My Friends and Customers:

In presenting you with this, my Annual Price List for 1912, I wish to thank you for the liberal patronage extended me in the past and assure you that all future orders entrusted to me will have the same careful attention as heretofore.

Each order, no matter how small or large, is given my personal attention and delivered to your residence---therefore you will be satisfied. This delivery system applies only to Denver and vicinity. It will pay you to see me before placing your order. Drop me a card and I will call and see you any time. I earnestly solicit your trade on the merits of stock and service given you.

Respectfully,

BROADVIEW NURSERY,

FRED H. HUNT, Prop.

BROADVIEW NURSERY

QUALITY AND PRICE

WITH no class of goods is quality more important. You plant a tree looking forward to a reward in pleasure and profit for years to come. You want a tree well grown, healthy, vigorous, and true to name—price is secondary. Cheapness consists not in what you pay, but in what you get for what you pay. An unusually high price is not necessarily an indication of high quality—there may be excessive selling expenses. I employ no agents. When purchasing of me you deal direct with the nursery and pay no agent's commission or other excessive selling expenses, hence my moderate prices. My aim is to offer you only what I know, through my long experience in this part of our great country, to be perfectly adapted to our climate and soil and leave out all that may be a good money-maker for nurserymen, but as a rule is an expensive experiment.

GUARANTEE

While I exercise great care and diligence to have my varieties true to label, and hold myself in readiness, on proper proof, to replace any that may prove otherwise without charge, or refund the amount paid for same, it is mutually understood and agreed between the purchaser and myself that this covers the full extent of my guarantee or responsibility.

CERTIFICATE OF NURSERY INSPECTION, No. 28

Office of State Entomologist, Colorado State Agricultural College

Fort Collins, Colorado, Nov. 4, 1911.

This is to certify that, in accordance with Section Four of the Session Laws of 1907, the growing nursery stock on the grounds of the Broadview Nursery of Arvada, Colo., was inspected on Sept. 26, 1911, by Geo. P. Weldon, a duly authorized inspector from this office, and was found to be apparently free from all insect pests and plant diseases that are likely to be disseminated to the injury of purchasers.

This certificate is invalid after Sept. 1, 1912.

C. P. GILLETTE,
State Entomologist.

FERTILIZER

Do you wish a beautiful, velvety lawn? Of course you do. Everybody does. There is only one way to maintain a perfect lawn and that is to properly fertilize it.

Don't use barnyard fertilizer unless you want all kinds of weeds and dandelions. Have Broadview Nursery fertilize your lawn properly with concentrated fertilizer.
