Boddington's "Quality" Christmas-Flowering Sweet Peas

AT the Exhibition and Convention of the National Sweet Pea Society of America, July 12th and 13th, 1910, we again won the C. C. Morse and Co.'s Silver Cup for the finest and best collections of Sweet Peas, open to the trade only.

All true stocks of Winter-flowering Sweet Peas will be scarce this season. Some varieties are a total failure owing to the exceptional season in California this Spring. Our advice to intending planters is to order at once.

Our stocks of Christmas-flowering Sweet Peas have stood the test for years, and we can refer you to the largest growers of this increasingly popular flower, as to the trueness and quality of our seed, earliness of blooming period and strength and habit of plants.

The following varieties are the "best by test" and include Zvolanek's and our own introductions, grown for seed from selected stocks by the leading California grower and specialist in Sweet Peas.

Our output last year was nearly 6000 lbs. No kicks and plenty of testimonials as to quality, germination and trueness to type.

Winter-Flowering Sweet Peas at National Flower Show, Boston, March 25th to April 15th, 1911.

Partly showing Mr. Wm. Sim's Exhibit, who won the majority of the leading prizes—seed almost exclusively supplied by "Boddington." Sim's Sweet Peas were one of the sensational Exhibits at this Grand Flower Show—average length of stem being twenty inches.
