C. C. MORSE & CO'S NEW DAFFODILS

Photographed on Our Front Cover

OLYMPIA: This is the grandest trumpet Daffodil we have ever seen. The flower is of deep yellow color, and of enormous size. This is way ahead of Emperor, and is a great novelty. The illustration does not convey an idea of the truly giant size of **Olympia** which is over 3 inches across. **20c each; \$2.00 per dozen.**

MRS. HARRY J. VEITCH: You will love this trumpet Daffodil for its giant wide open perianth or collar. This has rounded edges, and is different from Olympia in shape. A fine free flower of giant size, **25c each; \$2.50 per dozen.**

LUCIFER: What a bright combination of color Lucifer is, with its white perianth and flame-colored cup. This was a most striking flower in our store this Spring, and was greatly admired. Lucifer belongs to the class of Daffodils with medium sized trumpets; Lucifer, the flame-colored, is photographed on the catalogue cover, **35c each; \$3.50 per dozen.**

SEA GULL: This is another cup Daffodil of the best improved type. Sea Gull has a large spreading, pure white perianth, with a small canary cup. There is no Narcissus like it, white, graceful and sweeping, its name was well called "Sea Gull" **20c each; \$2.00 per dozen.**

ELVIRA: Here is a representative of a new class of Narcissus, something we have never offered before. Imagine a number of Poets' Narcissus on one stem, each flower a little smaller and slightly fragrant, and that's what you have here. These are called the New Poetaz Hybrids, the result of crossings and selection. These are a most charming addition to the list of Narcissus; the field on the front cover is of Elvira; note the wealth of bloom, **8c each; 75c per dozen.**

KLONDYKE: This is like Elvira only it is yellow with deep golden eye. Klondyke has six and seven flowers to a stem and like its type is very free flowering, **12c each; \$1.25 per dozen.**

MORSE'S DAFFODIL COLLECTION

We have tried to get all of the novelties in Daffodils to present to you. Of course we could not do that, but we got the best, the ones we thought you would want. They are of several different types for there cannot be more than one best new trumpet Daffodil, or more than one best of any other class. All those offered above, separately and the same below, in collection are new and fine.

Besides the new sorts described above we include some of the older sorts which are of ex-

cellent quality and not well enough known generally. This collection includes the different classes of Narcissus, the very best of their class, a comprehensive assortment of fine varieties. The collection is as follows: **2 Bulbs of each of the grand novelties described above; 3 bulbs each of Gold Spur, Victoria, Barri Conspicuous, Double Orange Phoenix, Double White Gardenia Daffodil** (all described on page 5) **in all 27 bulbs of fine sorts for \$2.35; Postage additional 20c.**

"1912 BEST" BULB COLLECTION

We again offer an assortment that will meet with great favor. All these bulbs are our finest flowering sorts and perfectly hardy.

146 Bulbs for \$2.10. Postage additional 40c.

We wish to remind you of the few usual requests which help us so much in our business:

Please Order Early

The best time is just as soon as this catalogue reaches you. The bulbs may not have arrived by then, but your order will be given immediate attention, and be filled just as soon as the stock arrives. At the first of the season there are no sorts sold out, and besides the bulbs flower better when planted early.

Name and Address

Please be sure to write plainly your full name and address, when sending us your order and remittance. Send also the name of the nearest express office, if bulbs are to come that way, when it differs from the postoffice. We send bulbs by express, unless postage for the different sorts as shown in the catalogue, accompanies the order.

Non=Warranty

Most of the failures with seeds, plants and bulbs are due to causes entirely beyond our control, such as unfavorable weather, too deep or too shallow planting, slugs, etc., therefore C. C. Morse & Co. give no warranty, express or implied, as to description, purity, productiveness, or any other matter of any seeds, plants, bulbs, etc., they send out, and will be in no way responsible for the crop; if the purchaser does not accept the goods on these terms they are to be returned at once.

Hyacinths

There is no other flower like a Hyacinth, and none can take its place; its clear waxy texture; its varied and beautiful colors and soft shades; and best of all its rich, delightful fragrance. To many this is the favorite spring flower. Give them but half a chance and Hyacinths bloom surely and well, while with good garden treatment they are still grander and more delightful.

Culture. Spade and manure the ground a month before planting the bulbs, using also a little bone-meal well dug in. Set the bulbs 2½ inches under ground at the top in damp places and 4 inches under in dry spots and 7 to 8 inches apart. To have all of the bulbs flower at one time see that the bulbs are set at an even depth.

After flowering, allow the leaves to dry up and then lift the bulbs in midsummer; store them in dry soil in a cool dry place, and very often they can be used again.

For potting use a mixture of river sand, rotted manure and fibrous loam in equal parts. Use a 5- or 6-inch pot or 3 bulbs to a 7-inch pot and let a third of the bulb be above ground. Bury the pot for six weeks to let the bulbs root and then bring into the house to bring them into flower.

Our named varieties of Hyacinths are all of first size, and are fine, large healthy bulbs, and will produce the very finest flowers. (If ordered by mail, add 15c per dozen for postage.)

Bedding Hyacinths

MIXED COLORS

(If wanted by mail, add 12c per doz. for postage.)

These are good strong bulbs and will form excellent flowers. Each year we import thousands of these bulbs for bedding and general culture.

The double sorts the growers do not guarantee to be double as sometimes they, too, are single. In our opinion the ones with the single flowerets are the prettier; they both have fine flower spikes.

These make the ideal bedding Hyacinths, for it is a pleasure to have all of the pinks of one shade, and all of the blues to match exactly. Although these are not so large as our fine first size, still by many they are listed as firsts, and they certainly are excellent bedders.

MORSE'S SPECIAL
TULIPS

Long Stemmed,
Giant Flowered,
Very Satisfactory.

“Morse’s Special Tulips” for California

The varieties directly following and our New Darwin Tulips on the inside of the back cover cannot be too highly recommended. They have proved that Tulips can be a success in California and have the large flowers, and long stems so much desired; also these Tulips will flower even better the second year if they are allowed to dry back with their leaves on, and kept dry during the summer. If possible leave them in the same bed, and be sure to plant a good number.

The secret of Tulip culture is to have rich soil well drained; use rotted manure or bone meal to give richness, and set the bulb in sand if the ground is heavy and wet. Plant the bulbs as early as possible and about 4 inches deep and 6 inches apart. Water sparingly during the winter, but give plenty as the buds develop, and for several weeks after flowering.

Tulips are so bright and gaudy that they are prized by all. Gesneriana Major is a dazzling crimson, the brightest red Tulip. Parisian Yellow is a fine bright yellow; Bouton d’Or is small and good. Fulgens (red) and Retroflexa (yellow) have petals bending gracefully backward. The salmon and orange shaded Tulips in this class are fine and distinct.

Single

(If Tulips are wanted by mail, add 5c per dozen; 35c per hundred for postage.)

LILIES TO BE PLANTED EARLY

HARDY ST. JOSEPH LILY or CANDIDUM

Annunciation Lily; Madonna Lily: the flowers are pure snow-white and very fragrant, borne on long stems. It is a valuable variety for forcing; and is a fine early hardy lily to plant out of doors, never failing to bloom well. The flowers do not have quite such long trumpets as the Easter lilies.....

.....15c each; \$1.25 per doz.
(Postage 3c each; 25c per doz. additional.)

We have a limited supply of monster bulbs which will give 12 to 18 flowers to each bulb, at .....25c each; \$2.50 per doz.
(Postage 5c each additional.)

Harrisii (The Bermuda Easter Lily): the flowers are trumpet-shaped, pure white, gracefully formed and delightfully fragrant. This is the lily so much grown by florists for Easter, on account of its very early flowering habit and abundance of bloom. On account of being liable to injury by insects, Harrisii Lilies are better grown within doors. At least, bring them in when they are about to flower..15c each; \$1.50 per doz.

These two lilies must be planted early. Order in September.

Candidum and **Harrisii** are ready for delivery in September and should be planted early, and the others in October and November. Early orders will be kept on file until the varieties arrive. If wanted by mail add 3c each, 25c per doz., for postage.

Daffodils

Beside the glorious new Daffodils offered now for the first time on the inside of the front cover we can supply the following well known and standard sorts. These can be planted in larger numbers, indeed the Crown Daffodils below are often set out in the grounds wild or "naturalized," 500 or so in a great nature-like bed where they will bloom year after year—a pleasure to all who see them.

If your garden is not on a large scale there surely is room for some of these popular golden beauties which come so early in the spring, and which are so very bright and cheerful. Daffodils have more of a personality than have most other flowers, each blossom is an individual friend.

Plant Daffodils in October and November out in the open ground in good soil and let them remain undisturbed. After flowering let the leaves die back, but do not cut them off or the bulb will not flower next year. Set 5 inches deep and 8 inches to 12 inches apart. The bulbous roots will multiply and send up fine long flower stems every spring. Be sure to keep the ground moist during the growing season if season is dry.

They can also be grown easily in pots, putting 4 or 5 bulbs into a 5-inch pot and keep well watered.

Trumpet Major Daffodils.

LARGE TRUMPET DAFFODILS

If wanted by mail add 12c per doz. for postage.

Albicans ("White Spanish Daffodil"): creamy white perianth with a bold silvery trumpet, 6c each; 50c per doz.; \$3.25 per 100.

Bi-color Grandee: flowers very large with broad pure white petals which overlap each other. The trumpet is bright yellow. Rather dwarf and late flowering,....4c each; 35c per doz.; \$2.50 per 100.

Emperor: one of the grandest daffodils in cultivation; late. The perianth is broad and overlapping and the trumpet is very large and finely formed. Both perianth and trumpet a bright yellow. The stems are long and it is fine for cutting. Postage 20c dz. additional. 7c each; 60c per dz.; \$4.00 per 100.

Empress (White Wings): the perianth is pure white and the trumpet bright yellow; fine for cutting. ....6c each; 50c per doz.; \$3.50 per 100.

Golden Spur: a fine fragrant variety with long stems, excellent for cutting. The perianth is yellow and the trumpet is bright golden yellow; early.....6c each; 50c per doz.; \$3.50 per 100.

Henry Irving: one of the older varieties. The perianth has narrow petals of a deep yellow color, the trumpet is of a deep golden yellow and very large .....6c each; 50c per doz.; \$3.50 per 100.

Obvallaris (Tenby Daffodil): a fine hardy flower, the perianth white, trumpet yellow .....5c each; 50c per doz.; \$4.00 per 100.

Olympia, a giant: Novelty. See inside of cover.

Mrs. Harry I. Veitch: Novelty. See inside of cover.

Princeps Maximus: very early and popular; perianth sulphur yellow, trumpet rich yellow.....4c each; 30c per doz.; \$2.00 per 100.

Trumpet Major: one of the most popular large, clear yellow varieties (both perianth and trumpet same color). Valuable for bedding or cutting or for forcing. The most easily grown and the hardest.....4c each; 35c per doz.; \$2.50 per 100.

Victoria: a new daffodil with broad white perianth and large yellow trumpet. The flower has great substance and keeping qualities. We recommend it as the best yellow and white.....5c each; 40c per doz.; \$3.50 per 100.

DOUBLE DAFFODILS

These are all easily grown and are very pretty, longer than the single ones. (If wanted by mail add

Alba Plena Odorata (the double White Poet's Narcissus or Gardenia Daffodil): A perfect gem, pure white, very double and fragrant. Blossoms the latest in the season.....3c each; 20c per doz.; \$1.25 per 100.

Incomparable (Butter and Eggs): rich yellow and orange, large size and good shape.....4c each; 35c per doz.; \$2.00 per 100.

Orange Phoenix (Eggs and Bacon): very large, double, white and orange, very beautiful, fine for pot culture..5c each; 35c per doz.; \$2.00 per 100.

Double Daffodils, like double tulips, stay in bloom 10c pr doz. for postage.)

Sulphur or Silver Phoenix: creamy white with sulphur center, very double and beautiful.....5c each; 40c per doz.; \$2.50 per 100.

Von Sion: the largest and finest double yellow trumpet variety. This is the old favorite variety so highly prized in old-fashioned gardens. Excellent for either forcing or cut flowers. If planted out of doors it can remain where planted for a number of years, blossoming freely every year. It is as popular now as ever and every one who loves daffodils should plant it.....5c each; 40c per doz.; \$2.50 per 100.

DAFFODILS—Continued

CROWN DAFFODILS (Chalice Cup or Star)

(If wanted by mail, add 5c per doz., except for Sir Watkin, 10c.)

Japanese Iris

(Iris Kaempferi)

By universal consent this species of Iris is given first place. It is one of the finest flowers we have, coming in various tints of blue, lavender, crimson, rose and lilac, as well as the dark blues and violets. The bulbs are perfectly hardy and the plants are very easily grown in any garden where there is good soil and plenty of water. Plant 4 inches deep and 14 inches apart. The blossoms vary from 8 to 10 inches in diameter and are borne on long graceful stems, blooming profusely in June and July. Bulbs are ready for delivery some time in December. We have some beautifully colored pictures of these to show at our store.

In separate sorts, 25c each; \$2.50 per doz.

In mixed colors, 20c each; \$2.00 per doz.

(Bulbs too heavy to mail, postage 10c each.)

Susiana Mourning Iris

(Prices are postpaid.)

A variety different from all others and among the most beautiful. It is a combination of silvery gray and dark chocolate and black. The plant is 12 inches high and comes in a creeping root stock which lasts for years. Set 3 inches deep and 12 inches apart. The flowers are immense and very greatly admired. 20c each, \$2.00 per dozen.

German Iris

Postage 10c per dozen.

These also come from creeping root stocks, which blossom every year. German Iris are commonly called "Flags" and are much prized for their delicate shadings, fine colors and sure and early flowers. Grow 2 to 3 feet tall. Plant 3 inches deep and 12 inches apart.

All the following varieties. \$1.00 per doz. Bulbs do not ripen until November.

Bouquet Royal: light yellow standards, falls white.

Iris—Fleur-de-Lis

Iris comes in two very distinct classes, one has creeping root-stocks and evergreen leaves like the German, Japanese, and Susiana Mourning Irises. The other has a bulb such as English and Spanish Iris. All have fine handsome flowers, with colorings like an orchid, and are among the best cut flowers.

The bulbs should be planted 2 or 3 inches deep and 6 inches apart, and for best effect should be in beds or groups of twenty-five to one hundred or more bulbs; the greater the number the finer the effect.

A mulching of coarse manure or straw will facilitate the production of fine long stems and large blossoms.

After flowering, the bulbs may either be lifted or allowed to remain for another season. The varieties contained in our collection are the finest and most distinct in cultivation.

English Iris.

English Iris

This beautiful variety grows on tall stout stems and makes a fine florist's flower. The stem is 3 feet and surmounted by most delicately colored flowers 4 inches across. English Iris is taller than the Spanish and has larger flowers. It blooms several weeks later, and care must be used to see that the plants have plenty of water when coming into flower, for this is the season of year when our gardens are just beginning to be dry.

Lilies

Choose a spot for Lilies which is shaded and drained but still moist, and you will be successful in raising them in your garden. Set the bulbs out in November (or as late as Feby. 1st) in a good deep soil, planting them 5 inches below the top of the ground into which some leaf mould has been worked. Water only lightly until they are well rooted, but liberally when of good size and about to blossom. Watch carefully for plant lice (aphis) and sprinkle with tobacco dust to keep them off.

See what a choice of Lilies we offer below! Native sorts such as you find in the mountains on your vacation, Japanese sorts to be found in all gardens, and Easter Lilies, one variety for indoors (Harrisii) and two for the garden (Longiflorum). Besides these there are the Auratum Lilies the largest of all; the Elegans which are not large and have their brightly colored flowers turned upward; then the Speciosum with flowers turned down with recurved petals like the Tiger Lilies. What an array of flowers they will make!

Auratum Lilies

Auratum (Gold-banded Lily): one of the finest and most popular of the hardy garden lilies. The blossoms are composed of six large petals of delicate ivory white, studded with spots with a bright golden band running through the center of each petal. The flowers when fully expanded are nearly a foot in diameter are very fragrant and bloom from June to October. 15c and 20c each, and \$1.25 and \$2.00 per dozen, according to size.

Auratum Pictum: similar in form to the Auratum, but tipped with crimson at the ends of the yellow rays, 25c each; \$2.50 per dozen.

Auratum Platphyllum: similar to Auratum, but larger and finer in all respects. Especially noted for its broad lustrous leaves, which give double attraction. The petals are studded with crimson chocolate spots. 25c each; \$2.50 per doz.

Auratum Rubro Vittatum: one of the finest of all lilies. Its crimson band running through the middle of the petal is so broad that the petals appear to be crimson margined with white; very showy and handsome. The flowers are 10 to 12 inches across, of bright crimson and white. Illustrated in last year's catalogue. 50c each; \$5.00 per doz.

Elegans Atrosanguinea: a dark blood-red lily of handsome appearance. Elegans lilies are all borne erect on a stem about 2½ feet. 20c each; \$2.00 per doz.

Elegans, Incomparable: the richest red known in lilies, a deep crimson slightly spotted black. Flowers large and freely borne. 15c each; \$1.50 per doz.

Elegans, Orange: a very early, flowering lily, doing well in any location, about 2 feet high, flowers are orange in color. 20c each; \$1.75 per doz.

Henryi (The Yellow Speciosum): a rare lily from China, hardy and free flowering, often with 17 blossoms on a stem. Flowers are a rich apricot yellow slightly spotted with brown. 75c each.

Kramerii: a beautiful large pink lily, distinct from all others. The flowers shade lighter and are very fragrant. 20c each; \$2.00 per doz.

Leopard Lily: the native Tiger Lily found growing in the mountains in all parts of California; height 3 to 4 feet. Flowers yellow orange with dark spots. 10c each; \$1.00 per doz.

Longiflorum Giganteum: a fine type of Japanese Easter lily; about 2 weeks later than Multiflorum. 15c each; \$1.50 per doz.; and 25c each; \$2.50 per doz.

Longiflorum Multiflorum: an early flowering type of the Japanese Easter lily. Pure white trumpet-shaped flowers. Splendid for growing in pots and for outdoor planting. 15c each; \$1.25 per doz.; extra large bulbs, 20c each; \$2.00 per doz.

Redwood Lily (L. Rubescens): A beautiful native lily, tall and slender, growing high on inaccessible ridges among the chaparral. This lily has the most exquisite fragrance of any lily. The flowers open white, dotted purple, and soon change to deep purple and then to wine color. The Washington lily closely resembles it. 25c each; \$2.50 per doz.

Rubellum: of dwarf habit, bearing several beautiful rose-pink flowers. Come into flower early. It does best in sandy loam. 20c each; \$2.00 per doz.

Speciosum Album: one of the most beautiful and easily grown lilies we have. The flowers are of immense size and pure white. Plants grow from 2 to 4 feet high. 20c each; \$1.75 per doz.

Speciosum Rubrum: this is the tall light red lily often seen in florists' windows. It is perfectly hardy in the open garden and is a strong and vigorous grower. Plant in well drained soil in a partially shaded place. The lily blooms in July and August, having a spike 4 feet tall with bright lilies of light crimson and white, the petals recurve. 15c each; \$1.25 per doz.; \$3.50 per 100.

Speciosum Rubrum Magnificum: this variety is much more crimson in color than the ordinary Rubrum and is heavily spotted. 15c each; \$1.25 per doz.; \$9.00 per 100.

Tigrinum (Tiger lily): fine showy blossoms, brilliant orange spotted with black. The Tiger lily is one of the best for out of doors, for it is perfectly hardy and will last for years in the garden, each year sending up its black and orange flower spike. 15c each; \$1.25 per doz.

Tigrinum Flora Plena (Double Tiger Lily): similar to Tigrinum but double. 15c each; \$1.50 per doz.

White Calla Lily (Calla Ethiopica): the well known and popular white calla. According to size. 50c, 75c and \$1.00 per doz.

Yellow Calla Lily (Calla Elliottiana): The foliage is dark green with a number of translucent white spots, and the flowers a bright yellow. A very handsome sort. According to size, 25c to 35c each; \$2.50 to \$3.50 per doz.

AMARYLLIS

(Postage 15c per bulb.)

Frequent disturbance of the roots should be avoided, as this will prevent free flowering. Sends up a flower stalk without leaves in August, to a height of 2½ feet; very fragrant.

Belladonna Major: beautiful soft rose..... 15c each; \$1.50 per doz.

APIOS TUBEROSA

(December delivery. Prices post-paid.)

This is a climber and is like a miniature Wistaria, growing about 10 feet high and bearing clusters of rich, deep purple flowers, which are sweetly scented ..... 50c per doz.

ANEMONES

Perhaps you have exclaimed, "Why I never saw blue poppies before!" as you stood before a bed of these Anemones in April. They are not related to poppies at all; they belong to the butter-cup family; but still have a likeness to poppies. The colors are bright and the flowers attractive. These and Ranunculus, about the same height, 10 inches, are two flowers which are becoming more popular each year. Plant 1½ inches deep; 5 inches to 6 inches apart.

Laza (Ithuriel's Spear): bears a cluster of twenty or more of clear blue flowerets on a stem 1 to 2 feet high. One of the beautiful wild flowers of California in May and June. 20c per doz.; \$1.25 per 100.

CALADIUM OR ELEPHANT'S EAR

(For January delivery. Postage 7c each additional.)

These are those tall "Elephant's Ears" used to give a tropical appearance to the garden. Set out as a bed at the edge of a lawn; they are most effective with their tall stalks and giant leaves. Give plenty of water and rich compost. Caladiums are tender to frost, but come up again next year, 15c each; \$1.50 per dozen.

CALOCHORTUS (Cal. Wild Flower)

(Price includes postage.)

Golden Bell (Calochortus Amabilis). These are dainty flowers with their drooping yellow globe-like heads. The foliage is slender and light green, and the whole makes one of the most delightful and modest little flowers. Stems 12 inches high, 3 flowers to a stem. A newly listed California wild flower.... 25c per doz.; \$1.50 per 100.

Mariposa Tulips (also called Mariposa Lilies): No one can come across these wild flowers on the dry hill sides of the Sierras without admiring them. They seem to so defy the July drouth all around with their very handsome blossoms. These are borne on strong stems 15 inches high and come in bright colors, light lavender predominating. The flowers are cup-shaped or tulip-formed, and most pretty.

Mixed Mariposa Tulips... 30c per doz.; \$2.00 per 100.

COLCHIUM (Meadow Saffron)

(Autumn Flowering Crocus.)

Autumnalis: the flowers come through the ground in the fall without the leaves which appear next spring. Very similar to a crocus; the colors of the flowers being white, purple, rose striped, etc.

Mixed Colors ..... 50c per doz.

(Price includes postage.)

CROCUS

(Postage 15c per hundred.)

Should be planted liberally in lawns and grass plots, where they will flower very early in the spring, before mowing. Crocus is the first flower to bloom all through the East, and in consequence is a great favorite. It grows low, 3 or 4 inches, and is good for borders, masses and lawn planting.

Morse's Prize Strain Pansies about $\frac{3}{4}$ natural size from photograph.

Morse's Superb Pansies

Pansies do particularly well in our cool, even climate. If sown where the weather is hot, choose a shaded location and give moist, rich, loamy soil. To get the giant blossoms which can be had in wonderful variety of colors from Morse's Prize Strain Mixture the plants must be transplanted twice, once from the seed box when quite small and again when nearly half grown and be sure to manure or fertilize the soil. Sow pansy seed in autumn as the blossoms are the largest in early spring, and become smaller during the hot months. Morse's Prize Strain Pansies are unequalled.

EXTRA FINE GIANT-FLOWERED PANSIES

We offer in the following colors and varieties, these pansies, which are different from the named sorts listed. They are some of the separate sorts out of our famous "Prize Strain Mixture," and are truly giant in size.

Pure White,
White with Dark Center,
Hortense Red: old rose color,
Pure Yellow,
Yellow with Dark Center,
Madame Ferret: wine color and white,
Emperor William: dark blue,
Lord Beaconsfield, purple and lavender,
Faust: pure black,

SPLENDID MIXTURES

MORSE'S PRIZE STRAIN. This is a mixture of all the giant-flowered varieties, all the plain colors, faced sorts, ruffled edged, and rare sorts; also the varieties exquisitely marbled, striped and blotched. The seed is saved from Germany's most famous pansy gardens and from EXHIBITION FLOWERS. **PRIZE STRAIN** pansies are wonderfully beautiful in every way, and are the very best there are.

Pkt. of 500 seeds, 50c

Morse's Imperial German Strains Mixed: a superfine mixture of the choicest German varieties in all colors. Pkt., 25c.

Bugnot Mixed: a circular, ruffled, and five-petaled type, with soft, blended colors and tints, veined on the margins and with a dark blotch at the base of each petal. One of the finest sorts. Pkt., 25c.

Cassier's Giant, Mixed: a splendid mixture of various shades and markings. The blossoms are round and are blotched at the base of the petals. Pkt., 25c.

Giant Trimardeau, Mixed: the largest flowering type of pansies, called the French strain. The top petals are larger than the three lower ones and are beautifully marked. Pkt., 15c; Oz., \$3.00.

Giant Odier or Prize Blotched, Mixed: a large flowered type, with round blossoms. The petals are all blotched at the base and distinctly margined on the edge. Pkt., 25c.

Giant Masterpiece: these new pansies have a most beautiful combination of rich velvety coloring and attractive wavy or ruffled petals. This wavy effect gives a graceful appearance rarely seen in pansies, and while they are really very large, they appear larger on this account. Pkt., 20c.

Grasses for Lawns

Grass seed does well planted in the Fall. Now the sun is not so hot that it will scorch the young shoots, and if not sown just before heavy frosts this is probably the best time of the year. Don't plant too deep; keep the soil always moist; follow the directions below, and you will get a good lawn. The Golden Gate Park in San Francisco uses each year large quantities of our fine lawn grasses. You can have a lawn just as good as any of theirs by giving proper care, and sowing MORSE'S LAWN GRASS, which is of excellent quality.

PACIFIC RYE GRASS (MORSE'S)

The best grass for a straight lawn in any sandy soil such as is about San Francisco. Pacific Rye Grass is like the hardy Australian Rye Grass, but is longer lived and of a much finer leaf. By express or freight, per lb., 25c; per 100 lbs., \$20.00..... Postpaid per lb., 35c.

KENTUCKY BLUE GRASS

Makes a lawn of a dark-green color. It forms a fine mat with care and plenty of water and is the best straight lawn grass for all soils except sandy ones. By express or freight per lb., 25c; per 100 lbs., \$20.00..... Postpaid per lb., 35c.

MORSE'S SPECIAL SHADE MIXTURE

Our mixture is made from natural wood grasses which grow in shaded places, and for making good lawns under trees and in dark corners is unequalled. Per lb., 50c..Postpaid per lb., 60c

WHITE CLOVER

This is a little dwarf growing lawn clover. The color is dark green, and the roots run deeply. By express per lb., 60c..Postpaid per lb., 70c

DIRECTIONS: Prepare the soil well; this means spade it over and dig in some fertilizer or manure. Let the ground stand a month, or else do not apply fertilizer until grass is three months old. Two weeks before planting roll and water the ground well and before sowing the seed hoe the soil, but do not spade it.

Sow the seed evenly and roll it in or sprinkle a good cover of sandy loam over it. Where a roller is not available rake the seed in lightly and press down by patting with spade. Water twice a day until grass comes up. In stiff, clayey soils, if planting in summer, use straw or leaves to protect the germinating seeds until the grass is an inch high. Make the lawn any time of year if there is plenty of water.

Use one pound of seed to 250 square feet of lawn. Keep free from weeds, water well and cut regularly.

MORSE'S CALIFORNIA LAWN MIXTURE

Contains only the finest leaved grasses in the correct proportion to make a good fine turf which will look well in summer and winter. Per lb., 35c; per 100 lbs., \$30.00..... Postpaid per lb., 45c.

MORSE'S "GOLDEN GATE PARK" LAWN MIXTURE

Contains the more hardy grasses which are used to make the sod for the park playgrounds, where the grass has to endure much tramping over. The mixture also contains a very little white clover. By express or freight, per lb., 25c; per 100 lbs., \$20.00.... Postpaid per lb., 35c.

AUSTRALIAN RYE GRASS

Makes a very hardy, bright green lawn which does well on sandy soil like San Francisco. By express or freight, per lb., 15c; per 100 lbs., \$10.00..... Postpaid per lb., 25c.

VELVET LAWN MIXTURE

A lawn grass for wet places; per lb., 45c postpaid.

MORSE'S NEW DARWIN TULIPS

A Wonderful Collection of the
Long-Stem Tulips

Pictured on the Back Cover.

Darwin Tulips always do well in the garden and have such fine long stems and rounded flowers. Many new colors are here shown and offered for the first time. The collection is a large one but we wanted to satisfy the demand of those of our customers who are making a specialty and who are collecting these new Tulips. Consult also "Morse's Special Tulips for California" (Page 3) for late Tulips, colors which do not come in this Darwin class. The culture is the same as given for other Tulips. Darwin Tulips flower in May; height 24 to 30 inches with large flowers 3 to 4 inches; and are most beautiful in the garden or as cut flowers.

GENERAL CULTURAL DIRECTIONS FOR BULBS

Outdoor planting should be done early in the fall to secure healthy plants, vigorous foliage and beautiful flowers. Set the bulbs so that there is earth above them to twice their own depth. This is a good rule. Do not overcrowd; 3 or 4 inches apart for small bulbs such as Crocus, Snowdrops, Ranunculus, etc.; 6-7 inches for Anemones, Jonquils, Tulips, Iris Freesias; 7-9 inches for Hyacinths and Narcissus; 12 inches for Crown Imperials, Iris; 18 inches for Lilies.

Any good garden soil will grow bulbs well if a little time is spent in preparing the beds before hand.

During August give the ground a liberal coating of well rotted manure and turn over the soil with a spade about a foot deep, mixing the manure with

the soil as much as possible and breaking up the lumps fine with the spade.

A dressing of bone meal if given now will prove valuable to the bulbs in the spring.

The bulbs can be planted as soon as they arrive, usually at the end of September. Make the hole with a trowel and if the soil is heavy a handful of sand at the base of the bulb will greatly assist the roots and prevent the bulb rotting.

Hyacinths make a lovely and lasting show and if a little consideration is given to color scheme and design the bed will be greatly admired.

If specially fine color and flowers are desired the beds may be watered twice a week with some weak liquid manure after the buds are well up and the foliage developed.
