STRAWBERRY PLANTS

SPRING OF 1912

NEW STRAWBERRY NICARAGUA

Originated in 1906, and tested five seasons; introduced in spring of 1912 by D. A. Tibbs, the originator.

PEDIGREE

A seedling taken from a Bed of Haveland, fertilized with Michael's Early and Victor Walker.

DESCRIPTION

Medium to very large; a bright light red; does not become dark; very productive; firm and of high quality; season, medium early; ripens here with Klondyke; resembles Haveland, but much larger and firmer; blossoms, bisexual or perfect. This berry will grade with any of our large berries and is the largest and finest EARLY BERRY to ripen here. No plants are barren, all will set fruit.

NEW STRAWBERRY TIBB'S EARLY

Originated 1905; tested five season; introduced spring of 1911 by the originator, D. A. Tibbs.

PEDIGREE

A seedling taken from a bed of Buback; fertilized with Michael's Early and Victor Walker.

DESCRIPTION

The LARGEST of all EARLY BERRIES; a bright shining red; does not fade; firm; will ship; very productive; ripens with Michael's Early, but holds out longer and is more productive; habits of growth same as Michael's but foliage much darker, and plant more stockier; flowers, bisexual or perfect.

The originator will say that, after having raised and tested more than one hundred seedlings in the past seventeen years, he has discarded all of them, but the two herein described; of which he finds a decided improvement over all early berries yet tested in this country. Growing berries for profit considered of which is his profession, he would ask that any one so interested give these two seedlings a trial: believing he is offering the two best early berries yet introduced.

Price of plants crated and delivered at depot, Nashville,

NICARAGUA---per 1000, \$5.00 per 500 \$2.50

TIBB'S EARLY---per 1000, \$4.00 per 500, \$2.00

Per 50 \$1.50. By mail postage paid. All new plants. Have large plantings at same.

Also am growing and can supply plants of the following varieties, 100,000 or more new plants.

Klondyke—Perfect flower; medium early; good shipper

Price per 1000 - - - \$2.25

Haveland—Flower imperfect; medium early; home market

Price per 1000 \$2.25

Gandy—Flower perfect; late; best shipping. Price per

1000 \$2.00

DELIVERED AT NASHVILLE

By express add 25 cents per 1000 Plants

Bunched

In growing Plants the greatest care is taken in keeping a pure strain Packing system is perfect. My motto is to give good value for the price asked. In case of any error, on satisfactory proof will make good. Not responsible for plants in transit.

Remit by P. O. order or Express money order to—

Certificate of Nursery Inspection

No. 205

Season 1911-12

This is to Certify, That in accordance with on Act of the Legislature, approved April 17, 1905, the nursery grounds of D. A. Tibbs, at Nashville, County of Davidson, State of Tennessee, were inspected by Chas. Pennington, on July 29, 1911. The growing nursery stock was apparently free from San Jose Scale and other dangerously injurious insect pests and plant diseases.

This certificate has reference to insects and diseases, and is not otherwise to be considered as an endorsement of the parties to whom issued; it does not apply to stock not grown in the aforesaid nurseries unless such stock is covered by proper certificate in favor of the nursery where grown. It is not transferable and may be revoked for cause.

This certificate becomes invalid after August 1st, 1912, and cannot be legally used after that date.
