NEW STRAWBERRY

Champ Clark

(Or Tibbs' Early)

Originated, 1905. Tested four seasons

Introduced in Spring of 1911 by D. A. TIBBS

PEDIGREE

A chance seedling, either of Bubach, Michel's Early, Victor Walker, or Havland.

DESCRIPTION

The largest of all early berries; a bright, shining red; does not fade; firm; will ship; very productive; ripens with Michel's Early, but holds out longer and is more productive; habit of growth same as Michel's; foliage much darker and vines do not grow as tall.

The originator will say that after fruiting this berry for 4 seasons there has not been a single mishap to it. Have sold the fruit for 50c to 75c per crate more than Michel's Early. Several growers here have seen these berries on the Nashville market and I invite your inquiry, believing that I am offering the best Early Berry yet introduced.

Will distribute this season in Davidson County only,

At Nashville, on Saturdays, through March and April, 1911

PRICES OF PLANTS

Per 100 \$3.00. Per 50 \$1.50. Per doz. 75c.

Also have one hundred thousand Gandy New Plants, pure strain, at \$1.50 per thousand loose; \$2.00 bunched.

Yours very truly

D. A. TIBBS

R. R. No. 3, East Nashville, Tenn.

Certificate of Nursery Inspection

No. 40

Season 1910-11

This is to certify, That in accordance with an Act of the Legislature, approved April 17, 1905, the nursery grounds of D. A. Tibbs at Nashville, No. 6, County of Davidson, State of Tennessee, were inspected by Chas. Pennington, on August 16, 1910. The growing nursery stock was apparently free from San Jose Scale and other dangerously injurious insect pests and plant diseases.

Said nursery is equipped for fumigating all nursery stock.

This certificate has reference to insects and diseases, and is not otherwise to be considered as an endorsement of the parties to whom issued; it does not apply to stock not grown in the aforesaid nurseries unless such stock is covered by proper certificate in favor of the nursery where grown. It is not transferable and may be revoked for cause.

This certificate becomes invalid after August 1st, 1911, and cannot be legally used after that date.

G. M. BENTLEY,

State Entomologist and Plant Pathologist
