GOOSEBERRIES

A detailed black and white illustration of a raspberry branch. The branch features several large, serrated leaves and two prominent clusters of raspberries. One cluster is in the foreground, showing individual drupelets clearly, while another is slightly behind it. A small, dark insect, possibly a fly or beetle, is perched on the upper leaf. The background is filled with fine, horizontal lines, suggesting a textured surface or a stylized background.

Write for special prices per thousand on Raspberries and small fruit plants.

RHUBARB

per doz pr 100 pr 1000

1 year roots, Victoria Mam-			
moth	75c	\$ 5.00	\$40.00
