ESTABLISHED 1870

INCORPORATED 1913

Conditions of Sale

SHIPPING—Parties ordering should state how they want goods shipped, by freight or by express, also route. When no instructions are given, we forward to the best of our judgment. But in no case will we assume responsibility after delivery to the forwarding companies.

When losses occur by delays or other causes of whatever nature while goods are in transit, make claim AT ONCE on the forwarding companies.

PAYMENT—Cash or security before shipment of goods except with established firms when if unknown to us references will be required before goods are forwarded. Orders to be sent C. O. D. should be accompanied by one-fourth cash.

PRICES—Are limited to winter 1913-1914 and supersede all previous quotations on the stock herein listed and are subject to change without notice.

CLAIMS—For deductions will receive consideration only when made within six days after receipt of goods.

CAUTION—We accept all orders upon condition that they shall be void should injury befall stock from frost, fire, hailstorms, or other causes over which we have no control.

OUR GUARANTEE OF GENUINENESS—While we exercise proper diligence to have our trees, etc. true to label and hold ourselves in readiness, on proper proof, to replace all trees, etc. that may prove untrue to label, free of charge or refund the amount paid, it is mutually understood and agreed between the purchaser and ourselves that our guarantee of genuineness shall in no case make us liable for any sum greater than originally received for said trees etc. that prove untrue.

TREATMENT OF NURSERY STOCK—That has been received during frosty weather. Place the package, UNOPENED in a cool cellar or some such place, that is free from frost, until perfectly thawed. DO NOT BE IN A HURRY TO OPEN. Stock can remain in this condition for a week or two, if the boxes are covered with moss, saw dust, earth, or something to exclude air. Then they can be unpacked. Treated thus, they will not be injured by freezing.

SHIPPING FACILITIES—We have the C. B. & Q., Wabash and Keokuk & Western Railroads, and have low freight rates with direct lines to Chicago, Denver, Kansas City, Minneapolis, Omaha, St. Louis and other central points. The Adams and Wells-Fargo express companies give us good express service.

SPRING 1914

The upper grades of nearly all kinds of nursery stock promise to be scarce the coming Spring. However we have a most complete assortment in our storage and will be glad to quote on your "List of Wants."

Fruit Tree Stocks

FRENCH GROWN

We have our own representative in France who has our seedlings grown on contract by small farmers. He looks after the grading and packing of all stocks, and they are then shipped in car load lots to us at Shenandoah. Here we open all the boxes and carefully inspect the condition and grading before sending them out to our customers. We believe those who have used our French Seedlings will say that our grades are usually better than the average. It is well to place orders for your wants at once, as some items are scarce.

NOTE: In addition to the fruit tree stocks and tree seedlings listed above, we are in position to supply the trade with French and Holland grown ornamental trees and shrubs for lining out in the nursery row.

As our representative is in France the entire year, we can secure this stock to good advantage. It is very important that we have your list early as we can then select for you the very best stock at reasonable prices. It is now too late to order for this Spring's planting, but we shall be very glad to correspond with you regarding your wants for the following year.

Fruit Tree Stocks

AMERICAN GROWN

100 Apple Seedlings, No. 1, Straight

Apple Seedlings—While we do not have as large a supply this year as former seasons yet we still have some surplus in all grades and they are entirely free from any insects or disease and we are sure that they will be very satisfactory to the trade. We are in position to make shipments from either Topeka, Kans., or Shenandoah, Iowa. At both places we have special frost proof buildings for the grading and handling of apple seedlings.

The number three are suitable for light grafting or lining out to bud. The number four are too small to graft, but are suitable for lining out to bud.

Root Grafts

No part of our business receives more careful personal attention than the putting up of root grafts during the winter months.

At this time of the year we are in position to use our experienced men in the grafting room which insures skilled workmanship throughout.

We are prepared to put up grafts of any style or length wanted and make the price accordingly.

Orchard scions are used extensively and selected hardy seedlings grown by us from the best crab seed that can be procured.

•While we are prepared to do machine wrapping, yet for our own planting we prefer the hand work which seems to give very satisfactory results. Each order is grafted by itself and packed separately until shipped. They are repacked and inspected several times during the winter so they are in the best of condition at shipping time.

It is very important that orders be placed early. We can then give them closer attention and supply a larger list of varieties than later in the season. Our grafting season begins about the first of January and continues throughout the winter.

Grafts should be planted out early in the spring in well prepared ground. In our own plantings we set them about eight inches apart in the row, making the rows three feet six inches wide. It is very essential that the earth be well pressed around them.

As our grafts are put up in bunches of one hundred, do not order a less amount of any one variety. We will be glad to mail samples upon request.

If ordered alone varieties marked with a star (*) in list of varieties on pages 10 and 11, the price will be one dollar per thousand higher than quoted in this list.

APPLE AND CRAB PIECE ROOT GRAFTS

Piece root grafts are made by using about six inches of scion and three and one half inches of root. They are tongued together and securely wrapped at the union, making the entire graft about eight and one half inches long. This style of graft we use mostly in our own plantings.

Per 1000

5000 and up.....\$4 00

1000 to 5000 5 00

Root Grafts

APPLE AND CRAB

WHOLE ROOT GRAFTS ON BRANCHED SEEDLINGS

This style of graft is made by using about six inches of scion and a well branched seedling. The entire seedling is used, making the union at the collar and wrapping with waxed thread which holds it firmly until calloused. Many nurserymen prefer to plant this kind of graft claiming that they get a larger growth owing to the well formed root system.

Per 1000

5000 and up\$7 00
1000 to 50008 00

APPLE AND CRAB

WHOLE ROOT GRAFTS ON STRAIGHT SEEDLINGS

Whole root grafts on straight seedlings are made in the same manner as those on branched roots, using the same length scion but a straight seedling instead of a branched. The entire seedling is used, making the union at the collar and wrapping with a waxed thread which holds the scion and the root firmly together until calloused.

Per 1000

5000 and up\$7 00
